Congressional Record

PROCEEDINGS AND DEBATES OF THE 111th CONGRESS, FIRST SESSION

HOUSE OF REPRESENTATIVES—Wednesday, July 29, 2009

The House met at 10 a.m. and was called to order by the Speaker pro tempore (Mr. JACKSON of Illinois).

DESIGNATION OF THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore laid before the House the following communication from the Speaker:

WASHINGTON, DC,
July 29, 2009.

I hereby appoint the Honorable JESSE L. JACKSON Jr. to act as Speaker pro tempore on this day.

NANCY PELOSI,
Speaker of the House of Representatives.

PRAYER

Reverend Jonathan Falwell, Thomas Road Baptist Church, Lynchburg, Virginia, offered the following prayer:

Our Heavenly Father, we thank You for our great Nation. We thank You for what You have done to make this Nation a lighthouse to the world and a beacon of hope to people everywhere.

We know, as our forefathers knew and as the Scriptures tell us, that righteousness exalts a nation but sin is a reproach to any people. And so, today, we ask Your forgiveness for the sins that we as a people, and we as a Nation, have committed.

Today we seek Your wisdom and Your guidance in all that takes place in this room. We ask You to be a lamp unto our feet and a light unto our path. We ask You to protect the men and women who serve here in this place. We ask You to protect the men and women who serve our Nation around the world today and are in harm's way. We ask You to lead them as they lead us.

And above all, we ask You to continue to bless this great land that we call home. And in Jesus' name we pray. Amen.

THE JOURNAL

The SPEAKER pro tempore. The Chair has examined the Journal of the last day's proceedings and announces to the House his approval thereof.

Pursuant to clause 1, rule I, the Journal stands approved.

PLEDGE OF ALLEGIANCE

The SPEAKER pro tempore. Will the gentleman from Illinois (Mr. SHIMKUS) come forward and lead the House in the Pledge of Allegiance.

Mr. SHIMKUS led the Pledge of Allegiance as follows:

I pledge allegiance to the Flag of the United States of America, and to the Republic for which it stands, one nation under God, indivisible, with liberty and justice for all.

WELCOMING THE REVEREND JONATHAN FALWELL

The SPEAKER pro tempore. Without objection, the gentleman from Virginia is recognized for 1 minute.

There was no objection.

Mr. GOODLATTE. Mr. Speaker, it is a real honor today to welcome our guest chaplain, the Reverend Jonathan Falwell, the senior pastor of Thomas Road Baptist Church in Lynchburg, Virginia, one of the largest churches in America, which has a tremendous outreach to the community in Lynchburg and across Virginia, across our Nation and, indeed, across the world helping people in need. He also serves as the executive vice president of spiritual affairs at Liberty University, the world's largest evangelical Christian university, with over 40,000 students, both on campus and online.

I very much welcome not only Reverend Falwell, but his entire family who is with us in the gallery today, and we are delighted that they could be with us to share in a full day of activities here at the United States Capitol and to meet as many Members of the House and staff members and others who work so hard here on behalf of our country.

I hope Members will take the opportunity to come by and say hello to him at the various places he'll be during the course of the day. I'm honored to call Reverend Falwell a constituent and, most importantly, a dear friend;

and I offer the thanks of this entire body to him for delivering today's morning prayer. He is joined by his wife, Shari, as well as their four children, Jonathan Jr., Jessica, Natalie and Nicholas, as well as his mother, Macel. Thank you all for being with us.

ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore. The Chair will entertain up to 15 further requests for 1-minute speeches on each side of the aisle.

TRIBUTE TO MRS. VIRGINIA KUCINICH

(Mr. KUCINICH asked and was given permission to address the House for 1 minute.)

Mr. KUCINICH. Let me tell you a story about a bright, high-spirited woman who, like many American women of the Greatest Generation, sacrificed for her family and her Nation.

Instead of going to college, she helped the war effort, working in manufacturing during the day and singing for the USO at night. She met a young marine combat veteran, fell in love, married, nursed her war-injured husband back to health, and began a family which quickly grew to seven rollicking children. She and her husband never owned a home. As renters, the family was forced to move from place to place. In the first 20 years of their marriage, the family lived in 21 different places, including a couple of cars. Despite economic hardship and her own illnesses, she taught her children to read in preschool years, raised her children to appreciate life, to love God, to count spiritual blessings, to be strong of heart, always to be grateful, to be kind, honest, respect others and never to quit.

Her name was Virginia, and she was my mother. And today would have been her 85th birthday. Happy birthday, Mom.

ALL PAIN AND NO GAIN

(Mr. SHIMKUS asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. SHIMKUS. Mr. Speaker, as we spin in circles here on health care, let's not forget the failed policy of a national energy tax, or cap-and-trade. These coal miners lost their jobs the last time we passed environmental laws, and with their jobs went their health care benefits. I've always said that cap-and-tax is a direct attack on coal by the environmental left.

And if you don't believe me, yesterday's article says Sierra Club opposes transmission lines to link AEP to Allegheny coal fire power plants on the grounds that it would increase coal use. I also say that cap-and-tax is all pain and no gain, especially if China and India do not comply.

Well, we also have a quote by Rajendra Pachauri, who is the Chair of the U.N. Intergovernmental Panel on Climate Change. And he says: "India will continue to use coal to meet its energy demands." And finally, the science of climate change is not exact and not conclusive. Channel 2, CBS Chicago, says that Chicago sees coldest July in 67 years.

IF IT IS GOOD ENOUGH FOR THE AMERICAN PEOPLE, IT IS GOOD ENOUGH FOR CONGRESS

(Mr. WILSON of South Carolina asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. WILSON of South Carolina. Mr. Speaker, as Democrats push for a government takeover of health care, I hope they will abide by a very simple standard: if a government-run health plan is good enough for the American people, it's good enough for Congress.

During consideration of the over 1,000-page bill in the Education and Labor Committee, I successfully got an amendment passed that would provide that Congress Members who vote in favor of government-run health care would enroll in the plan themselves. The American people should monitor that this provision is kept in the bill.

I want to commend Congressman JOHN FLEMING, a physician, for originally promoting this concept of fairness. I urge my Democrat colleagues to adopt this standard if they insist on dragging a Big Government bureaucracy between patients and doctors. The American people deserve better to protect jobs.

In conclusion, God bless our troops and we will never forget September the 11th in the global war on terrorism.

THE RECOVERY ACT IS WORKING

(Mr. SCHRADER asked and was given permission to address the House for 1 minute.)

Mr. SCHRADER. Mr. Speaker, I came to the floor yesterday to talk about 145 teaching jobs that were saved, thanks to the Recovery Act in one community school district alone. Today I'd like to talk about jobs that have been created and saved for Oregon's first responders.

Mr. Speaker, just yesterday, the first wave of COPS grants was announced. That means 21 more police officers patrolling our streets in Oregon thanks to the Recovery Act. A number of those are in Oregon City, a city I know very closely, which desperately needs the assistance for an understaffed police department. These are 21 first responders that would not have been on the job, again, without this recovery package.

The Oregon Department of Corrections also received \$103 million to save guard positions and prevent prisoners from being released from Oregon's prisons. Oregon is in very tough shape with this economic downturn.

These are just a few examples, with more announcements on the way. Over the next couple of weeks, Byrne grants targeted to help local police communities investigate and prosecute criminals and provide revenue for juvenile justice programs that help steer our troubled youth away from a life of crime. The Recovery Act is working.

ANOTHER MISSED OPPORTUNITY

(Mr. WOLF asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. WOLF. Mr. Speaker, in Monday's Wall Street Journal, Secretary of State Hillary Clinton and Secretary of the Treasury Geithner co-authored an opinion piece outlining the issues to be discussed in the U.S.-China Strategic and Economic Dialogue. No mention of human rights. No mention of the Chinese Government's suppression of journalists. No mention of the dozens of human rights lawyers across China who have been stripped of their licenses, no mention of the 35 Catholic bishops that languish in Chinese prisons and slave labor camps, no mention of the Chinese Government's crack-down on the ethnic Uyghurs, no mention of how China continues to repatriate North Korean refugees, no mention of human rights.

Human rights simply cannot be separated from economic policy. The Obama administration has missed yet another opportunity to make human rights a fundamental component of U.S. foreign policy.

GAO MORTGAGE REPORT

(Mrs. MALONEY asked and was given permission to address the House for 1 minute.)

Mrs. MALONEY. Mr. Speaker, the Joint Economic Committee just con-

cluded a hearing highlighting a GAO report that analyzed the performance of subprime loans in all 435 congressional districts, as this map illustrates. This report that I requested provides a sobering snapshot of the ongoing foreclosure crisis inherited by the Obama administration. The dark red is where there are high instances of foreclosure.

So we see that California, Florida, and Nevada are the places where the most nonprime loans were originated with noxious prepayment penalties and exploding interest rates. The end results are obvious. The hearing reviewed past Federal regulatory failures and identified the actions that the administration and Congress have taken to reduce foreclosure rates and prevent a future recurrence. The report is online by congressional district with the hearing Web site at the JEC Web site, www.jec.senate.gov.

SOCIALIZING THE COUNTRY IS NOT THE ANSWER

(Mr. FLEMING asked and was given permission to address the House for 1 minute.)

Mr. FLEMING. Mr. Speaker, recently the President said in a speech: "Folks are skeptical and that is entirely legitimate because they haven't seen a lot of laws coming out of Washington that help." That is an understatement. Americans have found themselves at the mercy of the mass social agenda of this administration and the liberal leadership in Congress.

First it was the \$750 billion stimulus bill that neither created nor saved any jobs; then came cap-and-tax. Both of these bills were passed only minutes after being fully released, but not read, and were the first two installments of this liberal/socialist agenda.

But this health care bill, H.R. 3200, is the mother of all bad bills and seeks to recast America as a new socialist state. If it passes in its current form, we can expect tax increases for all American families, waiting lines with DMV-style medicine, an explosion of taxpayer-funded abortions and a lack of good health care for the elderly.

Americans are urging Democrats to finally reach across the aisle and work with Republicans for a change.

HEALTH CARE REFORM

(Mr. BLUMENAUER asked and was given permission to address the House for 1 minute.)

Mr. BLUMENAUER. Mr. Speaker, if you wonder why health care reform is so hard, look at the rhetoric surrounding efforts to help senior citizens and their families cope with end-of-life decisions. It has morphed into something that has been, I think, rather sad. I was both angry and put off, I must say, in the references to section 1233. Today in the Washington Times

they cite a misrepresentation by Republican leadership that talk about this leading the path down to government-encouraged euthanasia.

Yesterday, we heard one of our Republican colleagues talk about actually having the government—I want to be careful about this—that “seniors being in a position of being put to death by their government.”

Mr. Speaker, looking at this legislation that is a result of a bipartisan effort to allow senior citizens and their families to know the choices that face them, nothing mandatory, no government bureaucrat, simply giving them the choice to have information. Shame on people who use senior citizens as a prop to try to scare people.

□ 1015

PAYING FOR HEALTH CARE REFORM

(Mrs. CHRISTENSEN asked and was given permission to address the House for 1 minute.)

Mrs. CHRISTENSEN. Mr. Speaker, today, I want to talk about something everyone, Republicans and Democrats, cares about: paying for health care reform.

There is so much evidence that prevention at the individual and community levels will produce hundreds of billions of dollars of savings. Trust for America's Health has shown, based on existing community prevention programs, that we could get a return of 5.6 to 6.2 times on every dollar spent. Private industry has also shown a similar savings in less than 10 years. Another report will show that we would save \$652 billion over 10 years by getting healthier individuals to Medicare and by reducing advancing disease when they enter the system. This kind of prevention is in the bill.

The CBO will score prevention if we give them reliable data, and that would make the true cost of this bill much less than \$1 trillion. So let's cover the Territories and not cut important programs out of the bill. Let's score prevention, and let's pass a bill that honors health care as a right and that reestablishes the United States as the leader we ought to be.

SCIENCE CZAR

(Mr. PITTS asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. PITTS. Mr. Speaker, the President has appointed over 30 new czars in the Federal bureaucracy, and I'm concerned about the President's new science czar. John Holdren detailed and advocated draconian population control methods in a 1977 textbook that he coauthored.

In it, they state, “Some coercive proposals deserve discussion, mainly be-

cause some countries may ultimately have to resort to them unless current trends in birth rates are rapidly reversed.”

They go on to speculate that a program in India to vasectomize fathers of large families could have been successful with “massive assistance from the developed world.” The same chapter later promotes readily available abortion services as one of the milder methods governments can promote to reduce family size. Some of their ideas are quite bizarre. This is the same man who has the ear of the President on some of the most important decisions of the day.

Clearly, we need to watch the office of the science czar carefully with an eye toward whether Dr. Holdren will promote policies that maintain our cherished liberties or policies that call for the heavy hand of government in our private lives.

HEALTH CARE REFORM

(Mr. OLVER asked and was given permission to address the House for 1 minute.)

Mr. OLVER. Mr. Speaker, this is our year for health insurance reform. The private health insurance industry has reaped enormous profits over the last 9 years while Americans' wages have barely increased at all. On average, 30 percent of the \$1.8 trillion in premiums that Americans pay to health insurance companies pays for overhead costs—salaries, administrative, lobbying, and profits—rather than for health care. Americans cannot afford that waste of scarce dollars. Our health reform legislation will limit such overhead spending to no more than 15 percent.

We have to focus our priorities on the quality of health care itself. For example, the diabetes epidemic demonstrates dramatically how critical preventative medicine is to America's children. One-third of all children born this decade are expected to develop diabetes in their lifetimes. The prevention of diabetes will make America healthier, and we will avoid the enormous future costs of diabetes treatment.

Now is the time to act on health care reform.

THE SUCCESS OF THE AMERICAN RECOVERY ACT

(Mr. YARMUTH asked and was given permission to address the House for 1 minute.)

Mr. YARMUTH. Mr. Speaker, our Republican friends, perhaps in a bit of wishful thinking, are trying to convince the American public that the American Recovery Act has been a failure.

Well, they're going to have a hard time convincing my constituents in

Louisville, Kentucky, where it was just reported that home sales have increased by 27 percent this month over last year, almost all due to the \$8,000 first-time home buyer's credit that we put in that act. They're going to have a hard time convincing the people at GE's Appliance Park, where they're about to bring 400 jobs back from China to Kentucky to build a revolutionary, energy-saving water heater. They're going to have a hard time convincing the 95 percent of my constituents who have had their paychecks increased because of the almost \$300 billion in tax cuts that were part of that act.

No, Mr. Speaker, the American Recovery Act is far from a failure. It is succeeding to rebuild the economy of this country.

HEALTH CARE IS A HUMAN ISSUE

(Mr. BACA asked and was given permission to address the House for 1 minute.)

Mr. BACA. Mr. Speaker, families in America deserve a health care system that works. A parent should not have to worry about paying for either high health care insurance premiums or putting food on the table or paying their mortgages.

In fact, each year in my district, 5,200 seniors who hit the doughnut hole are forced to pay their full drug costs despite having part D drug coverage. The Tri-Committee bill provides these seniors with immediate relief by cutting brand-name drug costs in the doughnut hole by 50 percent.

In 2008, my district had 1,490 health care-related bankruptcies, caused primarily by the high health care costs not covered by insurance. The Tri-Committee bill caps out-of-pocket costs at \$10,000 per year, ensuring that no individual will have to face financial ruin because of high health care costs.

For these reasons, I stand here to advocate for American families who are struggling in every corner. I urge my colleagues to stand with me and to support health care reform. This is not a political issue. This is a human issue.

JOB CREATION

(Mr. SIRES asked and was given permission to address the House for 1 minute.)

Mr. SIRES. Mr. Speaker, I rise today to highlight where some of the stimulus jobs are located. While some States have refused the stimulus money that is available, I want to acknowledge some of the areas that are using the stimulus funds to create jobs today.

In my State of New Jersey, the funding has gone towards good-paying jobs for New Jersey workers. Six thousand summer jobs were created for New Jersey youth using funds allotted

under the Workforce Investment Act Youth Recovery Act. Over 60 jobs have been created in transportation, and at least 20 people are currently working on housing improvements for the Woodbridge Public Housing Authority. At least 62 people are working for the Newark Housing Authority, including union workers, to renovate vacant apartments and to prepare for future construction. These are just a few of the projects, but it's not just New Jersey that is seeing jobs increase as a result of the stimulus funding.

Yesterday, The New York Times highlighted Perry County, Tennessee, where hundreds of laid-off workers are now, once again, back to work. Since deciding to use the stimulus money to employ 300 jobs, ranging from the State Transportation Department to small businesses, the unemployment has dropped from 27 to 22 percent in that county. That's where the jobs went.

AMERICA'S AFFORDABLE HEALTH CHOICES ACT ADDRESSES PRIMARY CARE

(Ms. SCHWARTZ asked and was given permission to address the House for 1 minute.)

Ms. SCHWARTZ. Mr. Speaker, finding a uniquely American solution to ensure that all Americans have access to affordable, meaningful health coverage must also ensure adequate access to health care providers and services.

Primary care providers are on the front line of our health care system, treating acute and chronic problems and keeping costly conditions from worsening. Yet, despite this essential role, it is primary care where we face the most acute shortages.

Since 1998, the percentage of residents choosing primary care has dropped from 50 percent to 20 percent. By 2025, America will have a shortage of 46,000 primary care providers.

I am very proud that the provisions in the health care reform legislation that is moving through Congress will address this impending crisis. It provides scholarships and loan repayments to primary care providers. It increases payments for primary care services. It eliminates copayments for Medicare beneficiaries who seek preventative care, and it creates incentives for doctors and nurses to coordinate care for patients with multiple chronic conditions.

These are significant reforms that will improve access to primary care, that will improve health outcomes, and that will improve health care costs. We should support better health care for Americans by supporting health care reform.

SMALL BUSINESSES CANNOT AFFORD THE STATUS QUO IN HEALTH CARE

(Mr. HEINRICH asked and was given permission to address the House for 1 minute.)

Mr. HEINRICH. Mr. Speaker, I just held a roundtable in my district to hear from small business owners on how they feel about health care reform. Each of the small business owners agreed that the system is broken and that keeping the status quo will only hurt small businesses in New Mexico.

With skyrocketing health care costs, many of these small businesses have been forced to consider layoffs and have been forced to consider lowering wages. In some cases, discontinuing insurance coverage for their employees has been the only way to avoid going out of business.

There is no doubt that our broken health care system is bad for America's small businesses. We can, and we must do better. We need a long-term, viable solution that creates stability, that prevents insurance companies from cherry-picking customers and businesses. We need a solution that supports a healthy workforce and that improves employee productivity. Now is the time to reform our health care system. Our small businesses cannot afford the status quo.

THE OBAMA-PELOSI GOVERNMENT HIJACKING OF HEALTH CARE

(Mr. TIAHRT asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. TIAHRT. Mr. Speaker, the more we learn about the Obama-Pelosi government hijacking of health care, the more we recognize how terrible the plan is. Let me point out just a few things that we've recently learned about the Democrat bill.

First and foremost, the Democrat bill creates a government-run health care plan that will ration care, that will remove choice and that will decrease the quality of health care for Americans. The bill imposes not only an employer mandate on health benefits, but it also creates a fleet of government auditors who will sail in to inspect every employer in the Nation to assess the health benefits they offer to a standard even the Democrats admit they haven't ascertained yet.

Individuals and employers will be taxed to pay for the public plan, and an independent commissioner, not accountable to anyone, will set the reimbursement rate for health care providers and will have power over what will and will not be covered.

Everyone over age 65 will be required to have an end-of-life consultation with their physicians and to assess that plan every 5 years. Democrats don't know why any Member of Congress would

read a bill that's over 1,000 pages. Now we are learning why—apparently because they don't want us to know or the American people to know what the health care plan holds.

PASS HEALTH CARE REFORM

(Mr. MURPHY of Connecticut asked and was given permission to address the House for 1 minute.)

Mr. MURPHY of Connecticut. Mr. Speaker, I hope that our friends on the Republican side of the aisle who don't want us to fix our health care system will listen to their constituents when they go home in August because they'll hear stories like I've heard in Connecticut.

A woman in Thomaston, Connecticut, contacted me about her own horrific experience. She had a pulmonary embolism and was told by her doctor that she was in danger of losing her leg, but her insurance company decided not to pay for the surgery on the grounds that it was cosmetic. Her appeal was denied, and she lost the leg.

One of the biggest lies I hear about our health care system is that, if you have insurance, you're all set. Well, this woman had coverage, and it failed her. The cost of our broken system can't be measured just in dollars and cents. It's so much more. We have a system that just doesn't value keeping people healthy, and we can change this by passing health care reform.

MESSAGE FROM THE SENATE

A message from the Senate by Ms. Curtis, one of its clerks, announced that the Senate has agreed to a joint resolution of the following title in which the concurrence of the House is requested:

S.J. Res. 19. Joint resolution granting the consent and approval of Congress to amendments made by the State of Maryland, the Commonwealth of Virginia, and the District of Columbia to the Washington Metropolitan Area Transit Regulation Compact.

GOVERNMENT TAKEOVER WILL RUIN HEALTH CARE

(Mr. GARY G. MILLER of California asked and was given permission to address the House for 1 minute.)

Mr. GARY G. MILLER of California. Mr. Speaker, think about it—government-run health care.

Now, the argument being made by my friends on the other side is that the only reason it hasn't worked everywhere it has been tried is that the right people aren't in charge. Think about that. It has never worked anywhere. It doesn't work.

An individual I represent, who lives in Mission Viejo, was a doctor for 60 years in the United States and in Canada. He holds two of the highest degrees in medicine. He said it not only

hurts the poor; it hurts the wealthy, it hurts everybody. If you want to ruin health care, have the government take it over.

Now, the argument is we'll just have the government compete with the private sector. Think about that. Where does the government get the money? From you—the taxpayers—and the private sector has to charge people to provide health care. There is no way in the world the private sector can compete with government when the government is funded by unlimited amounts of money that they extort from you, the working people.

If you want health care in this country to be of quality and to be good, there are things we can do, but don't destroy it by turning it over to the government. The government does very few things well. In fact, my colleagues complain about the way the government even handles wars. That's the one thing we can do in a quality fashion, but government-run health care is not something we want to turn over to the government.

□ 1030

WE MUST NOT LET OUR CONSTITUENTS DOWN

(Mr. LANGEVIN asked and was given permission to address the House for 1 minute.)

Mr. LANGEVIN. Mr. Speaker, as the Congress is working to resolve our Nation's health care crisis, I would like to take a moment to read an excerpt from a constituent's letter which I hope will serve as a reminder of why we are fighting for health care reform.

"Dear Congressman LANGEVIN,

"Ten years ago I was diagnosed with a brain tumor. As a single mother raising two children, I was nervous about supporting, feeding, clothing, and providing a roof over my children's heads. After my brain tumor was removed, I spent 30 days in the hospital. I was then terminated from my job. When I lost my job, I lost my health benefits. So I faced a choice that I don't want any other American to have to make—pay my mortgage or my COBRA premiums for continuing health coverage."

Signed, Nancy from Warwick, RI.

Mr. Speaker, choosing between your home and your life, it's not a decision that any American should have to face. In fact, catastrophic illness or accident is one of the leading causes of bankruptcy in America, and that shouldn't happen. We have an opportunity and an obligation to reform our health care system. We must not let our constituents down.

OUR BROKEN HEALTH CARE SYSTEM

(Mr. POLIS asked and was given permission to address the House for 1

minute and to revise and extend his remarks.)

Mr. POLIS. Mr. Speaker, health care reform is the single most important step we can take to help families and rebuild our economy. Our health care system is broken, and only a comprehensive fix will end the suffering of so many from sickness and financial insecurity.

Today, I want to share the story of Alicia Varela, a 56-year-old resident in my district in Colorado. Like many Americans, Alicia followed her dreams, bravely left her home, and moved to the United States—legally—where, like many other Americans, she's paid into the system, and like many Americans, her employer does not provide health insurance.

With common but pricey preexisting arthritis and blood clot conditions, Alicia could not afford the high prices quoted by private insurance companies. But when tragedy struck and she became seriously ill, like many Americans, Alicia went to the emergency room as a last resort. By the time she was rushed into surgery, her situation was so severe that doctors removed a tumor that weighed 10 pounds. She isn't 100 percent better and she doesn't know what to do.

Her salary, while too high to qualify for Medicaid, is nowhere near enough to cover the high costs for a hospital stay. She can't afford costly medications and copes each day with pain and financial worries.

I encourage my colleagues to join me to help Alicia and many Americans like her.

RECISION

(Ms. SPEIER asked and was given permission to address the House for 1 minute.)

Ms. SPEIER. I would like to talk about a dirty little secret about the insurance industry. It's called recision, and the health care reform bill will ban it.

Consumers who have paid their premiums on time for years are suddenly cut loose by their insurer because they have the audacity of getting ill. These are people with severe medical conditions who depend on their coverage. It could be devastating when the lifeline that they've paid for is suddenly yanked away.

A woman recently addressed the Congress about having an insurance policy canceled days before her mastectomy surgery. The reason, she was told, is because she didn't disclose on her application that she had suffered from acne.

Recision is an inhumane and abusive practice. The good news is recision is outlawed in the House health care reform bill. Never again should anyone have to worry that their insurance that they've paid for will be canceled if they get sick.

ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore. Pursuant to clause 8 of rule XX, the Chair will postpone further proceedings today on motions to suspend the rules on which a recorded vote or the yeas and nays are ordered, or on which the vote incurs objection under clause 6 of rule XX.

Record votes on postponed questions will be taken later.

IMPROVED OVERSIGHT BY FINANCIAL INSPECTORS GENERAL ACT OF 2009

Mr. MOORE of Kansas. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 3330) to amend the Federal Deposit Insurance Act and the Federal Credit Union Act to provide more effective reviews of losses in the Deposit Insurance Fund and the Share Insurance Fund by the Inspectors General of the several Federal banking agencies and the National Credit Union Administration Board, and for other purposes.

The Clerk read the title of the bill.

The text of the bill is as follows:

H.R. 3330

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the "Improved Oversight by Financial Inspectors General Act of 2009".

SEC. 2. AMENDMENT TO DEFINITION OF MATERIAL LOSS AND NONMATERIAL LOSSES TO THE DEPOSIT INSURANCE FUND FOR PURPOSES OF INSPECTORS GENERAL REVIEWS.

(a) IN GENERAL.—Section 38(k) of the Federal Deposit Insurance Act (U.S.C. 1831o(k)) is amended—

(1) in paragraph (2), by striking subparagraph (B) and inserting the following new subparagraph:

"(B) MATERIAL LOSS DEFINED.—The term 'material loss' means any estimated loss in excess of \$200,000,000, occurring after March 31, 2009.";

(2) in that portion of paragraph (4)(A) that precedes clause (i), by striking "the report" and inserting "any reports under this subsection on losses";

(3) by striking paragraph (6);

(4) by redesignating paragraph (5) as paragraph (6); and

(5) by inserting after paragraph (4) the following new paragraph:

"(5) LOSSES THAT ARE NOT MATERIAL.—

"(A) SEMIANNUAL REPORT.—For the 6-month period ending on September 30, 2009, and each 6-month period thereafter, the Inspector General of each Federal banking agency shall—

"(i) identify losses estimated to be incurred by the Deposit Insurance Fund during that 6-month period with respect to insured depository institutions supervised by such Federal banking agency;

"(ii) for each loss to the Deposit Insurance Fund (as a loss to such Fund is defined in paragraph (2)(A)) that is not a material loss, determine the grounds identified by the Federal banking agency or State bank supervisor under section 11(c)(5) for appointing the

Corporation as receiver and whether any unusual circumstances exist that might warrant an in-depth review of the loss; and

“(iii) prepare a written report to the appropriate Federal banking agency and for the Congress on the results of the Inspector General’s determinations, including—

“(I) the identity of any loss that warrants an in-depth review and the reasons why such review is warranted, or if the Inspector General determines that no review is warranted, an explanation of such determination; and

“(II) for each loss identified in subclause (I) that warrants an in-depth review, a date by which such review, and a report on the review prepared in a manner consistent with reports under paragraph (1)(A), will be completed.

“(B) DEADLINE FOR SEMIANNUAL REPORT.—The Inspector General of each Federal banking agency shall—

“(i) comply with the semiannual report requirements of paragraph (A) expeditiously, and in any event within 90 days after the end of the 6-month period covered by the report; and

“(ii) provide a copy of the report to any Member of Congress upon request.”.

(b) TECHNICAL AND CONFORMING AMENDMENT.—The heading for subsection (k) of section 38 of the Federal Deposit Insurance Act (U.S.C. 1831o(k)) is amended—

(1) by striking “REVIEW” and inserting “REVIEWS”; and

(2) by striking “MATERIAL LOSS” and inserting “LOSSES”.

SEC. 3. AMENDMENT TO DEFINITION OF MATERIAL LOSS AND NONMATERIAL LOSSES TO THE NATIONAL CREDIT UNION SHARE INSURANCE FUND FOR PURPOSES OF INSPECTORS GENERAL REVIEWS.

(a) IN GENERAL.—Subsection (j) of section 2176 of the Federal Credit Union Act (12 U.S.C. 1790d(j)) is amended to read as follows:

“(j) REVIEWS REQUIRED WHEN SHARE INSURANCE FUND EXPERIENCES LOSSES.—

“(1) IN GENERAL.—If the Fund incurs a material loss with respect to an insured credit union, the inspector general of the Board shall—

“(A) make a written report to the Board reviewing the Administration’s supervision of the credit union (including the Administration’s implementation of this section), which shall—

“(i) ascertain why the credit union’s problems resulted in a material loss to the Fund; and

“(ii) make recommendations for preventing any such loss in the future; and

“(B) provide a copy of the report to—

“(i) the Comptroller General of the United States; (ii) the Corporation (if the agency is not the Corporation);

“(ii) in the case of a State credit union, the appropriate State supervisor; and

“(iii) upon request by any Member of Congress, to that Member.

“(2) MATERIAL LOSS DEFINED.—For purposes of determining whether the Fund has incurred a material loss with respect to an insured credit union, a loss is material if it exceeds the sum of—

“(A) \$25,000,000; and

“(B) an amount equal to 10 percent of the total assets of the credit union at the time at which the Board initiated assistance under section 1788 of this title or was appointed liquidating agent.

“(3) PUBLIC DISCLOSURE REQUIRED.—

“(A) IN GENERAL.—The Board shall disclose a report under this subsection upon request under section 552 of title 5 without excising—

“(i) any portion under section 552(b)(5) of that title; or

“(ii) any information about the insured credit union (other than trade secrets) or paragraph (8) of section 552(b) of that title.

“(B) EXCEPTION.—Subparagraph (A) shall not be construed as requiring the agency to disclose the name of any customer of the insured credit union (other than an institution-affiliated party), or information from which such a person’s identity could reasonably be ascertained.

“(4) LOSSES THAT ARE NOT MATERIAL.—

“(A) SEMIANNUAL REPORT.—For the 6-month period ending on September 30, 2009, and each 6-month period thereafter, the Inspector General of the Board shall—

“(i) identify losses estimated to be incurred by the Fund during that 6-month period with respect to insured credit unions;

“(ii) for each loss to the Fund that is not a material loss, determine the grounds identified by the Board or the State official having jurisdiction over a State credit union for appointing the Board the liquidating agent for any Federal or State credit union and whether any unusual circumstances exist that might warrant an in-depth review of the loss; and

“(iii) prepare a written report to the Board and for the Congress on the results of the Inspector General’s determinations, including—

“(I) the identity of any loss that warrants an in-depth review and the reasons why such review is warranted, or if the Inspector General determines that no review is warranted, an explanation of such determination; and

“(II) for each loss identified in subclause (I) that warrants an in-depth review, a date by which such review, and a report on the review prepared in a manner consistent with reports under paragraph (1)(A), will be completed.

“(B) DEADLINE FOR SEMIANNUAL REPORT.—The Inspector General of the Board shall—

“(i) comply with the semiannual report requirements of paragraph (A) expeditiously, and in any event within 90 days after the end of the 6-month period covered by the report; and

“(ii) provide a copy of the report to any Member of Congress upon request.

“(5) GAO REVIEW.—The Comptroller General of the United States shall, under such conditions as the Comptroller General determines to be appropriate, review reports made under paragraph (1), including the extent to which the Inspector General of the Board complied with section 8L of the Inspector General Act of 1978 with respect to each such report, and recommend improvements in the supervision of insured credit unions (including the implementation of this section).”.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from Kansas (Mr. MOORE) and the gentleman from New York (Mr. LEE) each will control 20 minutes.

The Chair recognizes the gentleman from Kansas.

GENERAL LEAVE

Mr. MOORE of Kansas. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days within which to revise and extend their remarks on this legislation and to insert extraneous material thereon.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Kansas?

There was no objection.

Mr. MOORE of Kansas. Mr. Speaker, I yield 5 minutes to the chief sponsor to this bipartisan legislation, a strong proponent in this Congress for tougher oversight, the gentleman from Ohio (Mr. DRIEHAUS).

Mr. DRIEHAUS. Mr. Speaker, I want to thank the subcommittee chairman for all of his support in this legislation, and also my colleague on the other side of the aisle, Mr. LEE from New York, for his tremendous support.

This is simply a good government bill, Mr. Speaker. H.R. 3330 is about protecting the financial institutions but providing efficiency, efficiency when it comes to the Inspectors General.

What we’re dealing with today is material loss reviews, and right now we have a problem in the United States in that our Inspectors General, who are charged with conducting material loss reviews, can’t keep up with the number of financial institutions who are experiencing these losses.

So we have been requested by the FDIC to look at the threshold. And what this bill does is it increases the threshold in the case of our financial institutions from \$25 million in losses to \$200 million in losses. And in the case of our credit unions, from \$10 million in losses to \$25 million in losses.

And if I might, Mr. Speaker, I would like to read briefly from a letter dated July 17, 2009, from Jon Rymer, the Inspector General of the FDIC. And in this letter, Mr. Rymer says, As of today, my office has conducted and completed nine material loss reviews under section 38(k) of the Federal Deposit Insurance Act. We now have an additional 31 reviews in the planning or production phase.

Based on publicly available projections alone, we believe the numbers of reviews that will be required under the law as it presently exists will continue to grow significantly in the foreseeable future.

We require that the Inspectors General complete these reviews within 6 months. And right now, given the threshold, they simply don’t have the ability to do that. So this is a good government measure, a good government measure that without increasing spending, without increasing taxes, we make government more efficient. And it’s simply increasing the threshold to allow the Inspectors General to do their jobs while at the same time allowing them to look at the smaller financial institutions if such reviews are warranted.

Mr. LEE of New York. Mr. Speaker, at this time I yield myself such time as I may consume.

I want to applaud my friend from Ohio (Mr. DRIEHAUS) for showing leadership on this very bipartisan bill that will have a very positive effect in helping to turn around very important agencies that provide oversight.

I also want to thank the chairman of our Oversight and Investigations Subcommittee, Mr. MOORE, and our ranking member, Mrs. BIGGERT, for holding that hearing and helping this legislation come to the floor.

The IG for Treasury said, "We have either shut down or indefinitely deferred nearly all critical audits in other Treasury high-risk programs." And as Mr. DRIEHAUS pointed out, this is a significant problem.

As a matter of comparison, Treasury is currently conducting 16 MLRs. Before 2007, the office had not conducted a review of this nature in almost 5 years. Meanwhile, the IG for the Federal Reserve said that these reviews make up almost 40 percent of her workload. The FDIC IG informed us that the 36 employees in his audit office are currently handling 20 reviews.

At the end of the day, when you have these auditors focus solely on bank failures, that's time taken away from other aspects of this economic crisis, not to mention critical oversight areas like terrorist financing.

The measure we are considering today, the Improved Oversight by Financial Inspectors General Act, raises the threshold for material loss reviews from \$25 million to \$200 million for banks and from \$10 million to \$25 million for credit unions. This will help give the Inspectors General the leeway they need to hone in on the cases in need of the most attention, because it's through that work that we will find what actions need to be addressed to restore taxpayer and investor confidence in our financial system.

I also want to note that this legislation is crafted responsibly and that it takes steps forward to ensure fraud does not go undetected. So, if the IGs see a need to conduct a review below the threshold, there is no problem. And when fraud is suspected, they will be able to move forward.

Mr. Speaker, it's an easy fix we can implement right now to lend our financial watchdogs a hand and provide them with the tools and resources they need to get the job done. I urge my colleagues to support the adoption of this important bipartisan measure.

I reserve the balance of my time.

Mr. MOORE of Kansas. Mr. Speaker, I yield myself 4 minutes.

As a former district attorney for 12 years and chairman of the House Financial Services Oversight and Investigation Subcommittee, one of my priorities is to make sure that our Inspectors General have all of the tools and the resources they need to continue and improve their important oversight work.

In January, the IGs for the Treasury, Fed, and FDIC wrote to request that Congress raise the material loss review, or MLR, threshold so they could focus on other high-priority areas of potential waste, fraud, and abuse.

The National Credit Union Administration IG later made a similar request, Mr. Chairman. In addition to a higher threshold, the IGs suggested adding a requirement that for failed banks falling below the new threshold, an initial assessment still be taken to "ensure that unusual or potentially significant situations are not missed."

During an O&I hearing we held on this issue in May, I was disturbed to learn that without a modernized MLR system, the current system would limit the IGs' "ability to effectively oversee many of the new and significant programs and initiatives that the Federal banking agencies are undertaking to address current economic conditions." We must address this problem.

I commend Congressman DRIEHAUS from Ohio, a member of our Oversight Subcommittee, for drafting a bipartisan bill that will do just that. I also thank our colleagues on the other side of the aisle, Congressman LEE of New York and our O&I Subcommittee ranking member, Congresswoman BIGGERT of Illinois, for their hard work in drafting this bill. The improved oversight by the Financial Inspectors General Act will put in place a \$200 million MLR threshold for bank IGs and \$25 million for the credit union IGs with new, stronger protections that will ensure proper oversight is conducted of any failed institution that costs even a dollar.

In a letter dated July 17, Jon Rymer, the FDIC's Inspector General, commented on the bill, writing: "I believe this legislation is a reasonable and prudent compromise that will our workload but preserve meaningful, independent oversight by my office, as well as other Inspectors General tasked with similar reviews."

And I couldn't agree more, and I urge my colleagues to support H.R. 3330 to improve oversight of our financial agencies.

I reserve the balance of my time.

Mr. LEE of New York. Mr. Speaker, I yield 3 minutes to the gentlelady from the fine State of Illinois (Mrs. BIGGERT).

Mrs. BIGGERT. I thank the gentleman for yielding.

Mr. Speaker, I rise in support of the improved Oversight by Financial Inspectors General Act of 2009. I would like to thank my colleagues, Mr. DRIEHAUS and Mr. LEE, for introducing this bill and thank the chairman of our Oversight and Investigations Subcommittee, Mr. MOORE, for his work on this issue.

H.R. 3330 makes technical corrections to the monetary thresholds that trigger Inspectors General to launch an investigation in the failure of a financial institution. Financial Inspectors General must dedicate resources and personnel to investigate failures like that of AIG because their finding can present critical evidence about what

caused the financial crises. Congress, Federal regulators, and the administration can better target reform to our broken financial regulatory system.

In May, the Financial Services Committee on Oversight and Investigations held a hearing on the role of financial services Inspectors General. We heard from Inspectors General about their difficult task to tackle the waste, fraud, and abuse that is at the heart of our financial crisis.

Fraud and abuse were two of many significant factors that contributed to the financial crisis, especially in Chicago. In March, the U.S. Attorney General in Chicago, Patrick Fitzgerald brought mortgage fraud indictments against two dozen players. They are brokers, accountants, loan officers, processors, and attorneys.

Mortgage fraud comes in all shapes and sizes. Scam artists inflate appraisals, flip properties, and lie about information including income and identity on loan applications. Some use the identity of deceased people to obtain mortgages, and other desperate thieves bilked out of their homes and home equity the most vulnerable homeowners and seniors in dire financial straits.

□ 1045

To get the economy back on track and credit flowing again, we have to address what was at the root of the mortgage meltdown in the first place, and that is mortgage fraud.

Inspectors General hold key positions to investigate mortgage fraud and really get to the bottom of the turmoil that plagues today's financial markets; what went wrong, who broke the law, were the laws enforced, were laws and regulations adequate. To restore confidence in our markets and address any failings in our system of regulation, including enforcement, we must determine the answer to these questions. The sooner we get to the root of these matters, the sooner we can get the financial institutions off the Federal dole and our financial markets and economy back on track. H.R. 3330 will help us get there.

I applaud all of the Members who have worked so hard on this issue and urge my colleagues to support the bill.

Mr. Speaker, I yield back the balance of my time.

Mr. MOORE of Kansas. Mr. Speaker, I include for the RECORD letters from the Inspectors General on these issues.

JANUARY 9, 2009.

Hon. BARNEY FRANK,
Chairman, Committee on Financial Services,
House of Representatives, Washington, DC.

DEAR CHAIRMAN FRANK: We are writing to request that the Congress consider increasing the threshold for conducting material loss reviews (MLR) on failed financial institutions. The current \$25 million threshold has been in effect for about 25 years and, in light of the current economic environment, is no longer serving as a reasonable measure of materiality or a meaningful trigger point

for an Office of Inspector General (OIG) review of the failed financial institution. If this current threshold remains in effect, we anticipate that the projected volume of MLR work—and the time and resources that this work demands—will limit the OIGs' ability to effectively oversee many of the new and significant programs and initiatives that the Federal banking agencies are undertaking to address current economic conditions.

Section 38(k) of the Federal Deposit Insurance Act mandates OIG reviews of certain material losses to the Deposit Insurance Fund (the Fund) when federally supervised banks fail. In general terms, the purpose of the MLR is to determine the causes for the institution's failure and resulting loss to the Fund, and assess the banking agency's supervision of the failed institution. A loss is considered material if the loss is estimated to exceed \$25 million or 2 percent of the institution's total assets at the time the Federal Deposit Insurance Corporation (FDIC) was appointed receiver. The Act further requires that the OIG report be completed within 6 months after it becomes apparent that a material loss has been incurred.

As of today, the OIGs from the FDIC, Department of the Treasury, and the Board of Governors of the Federal Reserve System are performing a total of 18 MLRs, with projected losses ranging from \$36 million to \$8.9 billion. At the current threshold and as economic conditions continue to worsen, we anticipate the number of reviews to increase. As we are actively conducting these reviews, we are discovering that MLRs at the lower end of the threshold appear to provide little, if any, new perspectives or insights regarding the cause of the failure beyond what we initially discerned at the closure. We are, nevertheless, bound by professional standards to invest time and resources to conduct a thorough review of each individual failure. Expending our scarce resources on these reviews limits our ability to oversee the new initiatives that the banking agencies are undertaking to deal with the current economic crisis affecting open financial institutions.

We believe that increasing the MLR threshold would better serve the Congress by providing the OIGs with increased flexibility to refocus scarce resources to the wide-ranging programs and initiatives that the agencies are now managing, while continuing to ensure that significant failures receive an appropriate, in-depth review. As such, we recommend modifying the threshold for a material loss to an amount between \$300 and \$500 million. The \$500 million figure is the materiality threshold used by the Government Accountability Office (GAO) when conducting the Fund's financial statement audit, and has proven appropriate for that purpose over the years. Looking at the current inventory of 18 MLRs, only six would have been required with a \$300–\$500 million threshold. To ensure that unusual or potentially significant situations are not missed, we also recommend language that would allow the OIG to initiate an MLR of an institution with a projected loss below the increased threshold, should circumstances (i.e., indications of fraud) warrant.

Last year, we participated in a discussion initiated by one of your professional staff members on the merits of increasing this threshold, and were encouraged to raise this issue if circumstances warranted. We believe such circumstances have arrived. We are sending a similar letter to the Committee's Ranking Member and the Chairman and Ranking Member of the Senate Committee on Banking, Housing and Urban Affairs to share our concerns.

Thank you for considering our request to amend Section 38(k) to increase the MLR threshold. We would welcome the opportunity to discuss our concerns and possible solutions with you in more detail.

Sincerely,

JON T. RYMER,
*Inspector General,
Federal Deposit Insurance Corporation.*

ERIC M. THORSON,
Inspector General, Department of the Treasury.

ELIZABETH A. COLEMAN,
*Inspector General,
Board of Governors of the Federal Reserve System.*

FEDERAL DEPOSIT
INSURANCE CORPORATION,
Arlington, VA, July 17, 2009.

Hon. BARNEY FRANK,
*Chairman, Committee on Financial Services,
House of Representatives, Washington, DC.*

DEAR CHAIRMAN FRANK: I am writing to thank you for your support of the draft Deposit Insurance Fund Loss Review Act legislation, which was provided to us by Subcommittee staff a few days ago. I support the draft legislation as written and want to take this opportunity to emphasize my view that prompt action is needed.

As I testified before the Subcommittee on Oversight and Investigations several months ago, our resources permit us to conduct approximately 21 to 22 reviews at any one time, consistent with the statutory requirement that the reviews be completed within a 6-month period from the time it becomes apparent that the Deposit Insurance Fund has sustained a "material loss." I reported to the Subcommittee that we have stretched and leveraged our resources, but we nevertheless recently issued one report, and anticipate issuing two additional reports, outside of that 6-month window. In order to forestall future reporting delays and address the large increase in our workload, I have undertaken a review of our current approaches to conducting our work and am considering alternatives ranging from additional contracting for external audit services to the potential reorganization of the Office of Inspector General.

As of today, my office has conducted and completed nine material loss reviews under Section 38(k) of the Federal Deposit Insurance Act. We now have an additional 31 reviews in the planning or production phase. Based on publicly-available projections alone, we believe the number of reviews that will be required under the law as it presently exists will continue to grow significantly in the foreseeable future.

In raising the threshold for a "material loss" to \$200,000,000, as of March 31, 2009, the draft legislation would reduce our current requirement from 31 to 7 reports. The legislation would also require us to perform a shortened review of all failures, thus ensuring that (1) the reasons for even smaller losses to the Deposit Insurance Fund are properly understood, (2) important lessons to be learned from failures of financial institutions that do not rise to the new threshold level are nevertheless captured to improve future bank supervision, and (3) this information is duly and regularly reported to the Congress. I believe this legislation is a reasonable and prudent compromise that will reduce our workload but preserve meaning-

ful, independent oversight by my office, as well as other Inspectors General tasked with similar reviews.

Thank you for your interest in this issue. We are sending a similar letter to the Committee's Ranking Member, the Chairman and Ranking Member of the Subcommittee on Oversight and Investigations, and Representative Steven Driehaus of the Subcommittee on Oversight and Investigations. We are also sending a letter to the Chairman and Ranking Member of the Senate Committee on Banking, Housing and Urban Affairs encouraging their support of this draft legislation. I welcome the opportunity to discuss our concerns with you and other interested parties.

Sincerely,

JON T. RYMER,
Inspector General.

Mr. Speaker, I yield myself 2 minutes and invite Congressman DRIEHAUS to join me for purposes of a colloquy.

Congressman DRIEHAUS, to be clear, nothing in your legislation would change current law that requires all Inspectors General, at the Treasury Department, Federal Reserve Board, FDIC or NCUA, to post material loss review reports online within 3 days. That is what I understand. Is this your understanding as well, sir?

Mr. DRIEHAUS. Yes, that is correct. The purpose of H.R. 3330 is to increase and improve oversight conducted by the Inspectors General. Congress and our constituents will continue to learn important information from these material loss review reports, posted online within 3 days, so we can better understand why financial institutions failed. My bill will not change that at all.

Mr. MOORE of Kansas. Thank you for making that clear. Thank you for the colloquy.

Mr. Speaker, I reserve the balance of my time.

Mr. LEE of New York. Mr. Speaker, I yield 2 minutes to my good friend from Minnesota (Mr. PAULSEN).

Mr. PAULSEN. Mr. Speaker, I thank the gentleman for yielding and for his leadership on this issue, as well as the leadership of Mr. DRIEHAUS from Ohio.

I rise today in support of H.R. 3330, the Improved Oversight by Financial Inspectors General Act. In the wake of the financial crisis, it is so important that we make sure that our Federal banking supervisory resources are deployed where they are best going to be the most effective, and the financial crisis and the increased number of bank failures that have followed have exposed some very outdated provisions in existing law that are now placing some onerous reporting requirements on the financial inspectors general.

It is using precious time, and it is really diverting some really crucial resources. So this bill is going to update the standard that was first set 25 years ago that will trigger a material loss review for a failed financial institution.

Now, the financial Inspectors General have assured us that this does not mean there will be insufficient review

of failures in the future, but rather there is now going to be a smarter review concerning large bank failures and any small bank failures that occur where there are special circumstances, and that is something that can be learned.

So I would urge my colleagues to support this very bipartisan legislation. It has been a pleasure working with my colleagues on both sides of the aisle on this. We should put our focus and attention now, and that of the Inspectors General, where it can be most effective to protect taxpayers and financial institutions.

Mr. LEE of New York. Mr. Speaker, this is a good, commonsense, bipartisan bill. I urge its passage, and I yield back the balance of my time.

Mr. MOORE of Kansas. Mr. Speaker, I yield 1 minute to the gentleman from Ohio (Mr. DRIEHAUS) to close.

Mr. DRIEHAUS. Mr. Speaker, I thank the chairman.

Mr. Speaker, I believe this is a good, commonsense bill. This is about helping our Inspectors General do their job and do it well. We have heard from both sides of the aisle how important the work they are doing is to the health and safety of our financial institutions and to our financial system. I would encourage all of my colleagues to support this good-government piece of legislation. I thank them for their support.

Mr. MOORE of Kansas. Mr. Speaker, I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Kansas (Mr. MOORE) that the House suspend the rules and pass the bill, H.R. 3330.

The question was taken; and (two-thirds being in the affirmative) the rules were suspended and the bill was passed.

A motion to reconsider was laid on the table.

RURAL HOMEOWNERS PROTECTION ACT OF 2009

Mr. MOORE of Kansas. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 2034) to permit refinancing of certain loans under the Rural Housing Service program for guaranteed loans for rural housing, and for other purposes.

The Clerk read the title of the bill.

The text of the bill is as follows:

H.R. 2034

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the "Rural Homeowners Protection Act of 2009".

SEC. 2. SINGLE FAMILY HOUSING LOAN GUARANTEE PROGRAM.

Subsection (h) of section 502 of the Housing Act of 1949 (42 U.S.C. 1472(h)) is amended—

(1) in paragraph (5)(A), by striking "paragraph (13)" and inserting "paragraph (15)";

(2) in paragraph (8), by striking "1 percent" and inserting "2 percent";

(3) in paragraph (9), by striking "REFINANCING" and inserting "MODIFICATION OF GUARANTEED LOANS";

(4) in paragraph (14)—

(A) by striking "GUARANTEES FOR REFINANCING LOANS" and inserting "REFINANCING OF LOANS MADE OR GUARANTEED BY SECRETARY"; and

(B) in subparagraph (E)—

(i) by striking "(10)" and inserting "(12)"; and

(ii) by striking "(13)" and inserting "(9) or paragraphs (11) through (14)";

(5) by redesignating paragraphs (10), (11), (12), (13), and (14) as paragraphs (12), (13), (14), (15), and (16), respectively;

(6) by transferring and inserting paragraph (10), as so redesignated by paragraph (5) of this subsection, after paragraph (9); and

(7) by inserting after paragraph (10), as so redesignated and transferred by paragraphs (5) and (6) of this subsection, the following new paragraph:

"(11) REFINANCING OF LOANS MADE BY PRIVATE SECTOR LENDERS.—

"(A) AUTHORITY.—The Secretary may, in accordance with this paragraph, guarantee a loan made to refinance a loan made by a private lender to an individual to acquire or construct a single-family residence.

"(B) ELIGIBILITY.—Except as provided in subparagraph (C), all requirements of this subsection shall apply to loans guaranteed and loan guarantees made under this paragraph.

"(C) GUARANTEE FEE.—Notwithstanding paragraph (8), the Secretary shall charge a guarantee fee with respect to loans guaranteed under this paragraph at levels necessary, but no higher than needed, to allow such class of loans to be guaranteed without resulting in a need for an appropriation for a credit subsidy."

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from Kansas (Mr. MOORE) and the gentleman from West Virginia (Mrs. CAPITO) each will control 20 minutes.

The Chair recognizes the gentleman from Kansas.

GENERAL LEAVE

Mr. MOORE. Mr. Speaker, I ask unanimous consent that all Members have 5 legislative days within which to revise and extend their remarks on this legislation and to insert extraneous material thereon.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Kansas?

There was no objection.

Mr. MOORE of Kansas. I yield 3 minutes to the chief sponsor of this important legislation, the gentleman from Missouri (Mr. CLAY).

Mr. CLAY. Mr. Speaker, as the sponsor of this measure, I am pleased to present H.R. 2034 for consideration by the House today.

The current foreclosure crisis affects rural America, as well as cities and suburbs. Many rural areas are subject to additional complicating factors, such as a shortage of housing, counseling resources, and high poverty rates. Nevertheless, homeowners with average incomes under \$19,000 per year are 98.3 percent successful when serv-

iced through section 502 single-family housing direct or guaranteed loan programs. The foreclosure rate in both of these programs is below 2 percent, as compared to a 5 to 6 percent subprime foreclosure rate overall.

Under current law, rural families who obtain a mortgage from a private lender for the purpose of acquiring or constructing a single-family residence are not permitted to refinance such loans through the section 502 Rural Housing Guaranteed Loan program. To address this issue, the bill would provide the Secretary of Agriculture with the authority to permit the refinancing of such loans through the section 502 Rural Housing Guaranteed Loan program.

Rural families who meet current income and geographic criteria would be eligible to refinance their private loan. As such, this new authority will provide some much-needed relief to our rural housing community and complement efforts by the administration to stabilize communities by helping struggling homeowners stay in their homes.

The Rural Housing Service estimates that this new authority would significantly increase loan volume under the section 502 guaranteed loan program. To address this issue, the bill includes a provision giving the Secretary of Agriculture the authority to charge a higher guarantee fee than the 2 percent fee that is permitted under current law to help ensure that the expected increased loan volume does not require additional congressional appropriations.

The higher fee would apply to private loans and could be no higher than is necessary to ensure that no appropriation is needed. Consequently, the CBO has indicated that the bill is cost-neutral.

I commend Chairman FRANK and Subcommittee Chairwoman WATERS for bringing this legislation to the floor. I urge all of my colleagues to support the bill.

Mrs. CAPITO. Mr. Speaker, I yield such time as I may consume.

Mr. Speaker, I rise in support, strong support, of H.R. 2034, the Rural Homeowners Protection Act of 2009. As my colleague has stated, the current foreclosure crisis affects rural America as well as cities and suburbs; and many rural areas are subject to additional complicating factors, such as high poverty rates.

The section 502 Rural Housing Guaranteed Loan program is an important source of funding in rural areas for moderate-income families wishing to purchase a home. As currently structured, the 502 program guarantees loan origination and allows refinancing on current 502 loans. However, it does not allow refinancing of loans obtained through private lenders.

H.R. 2034 amends the section 502 Single Family Housing Loan Guarantee

program to allow refinancing of private rural loans through the section 502 program.

To safeguard the program, the bill authorizes the Secretary of Agriculture to charge a higher fee for refinancing private origination loans to ensure that the class of loans can be guaranteed without the need of additional cost to the government.

Mr. Speaker, this is an important change that will provide much-needed assistance in our rural communities. I urge my colleagues to support H.R. 2034, the Rural Homeowners Protection Act of 2009.

Mr. Speaker, I have no further speakers, and I yield back the balance of my time.

Mr. MOORE of Kansas. Mr. Speaker, I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Kansas (Mr. MOORE) that the House suspend the rules and pass the bill, H.R. 2034.

The question was taken; and (two-thirds being in the affirmative) the rules were suspended and the bill was passed.

A motion to reconsider was laid on the table.

NEIGHBORHOOD PRESERVATION ACT

Mr. MOORE of Kansas. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 2529) to amend the Federal Deposit Insurance Act to authorize depository institutions and depository institution holding companies to lease foreclosed property held by such institutions and companies for up to 5 years, and for other purposes, as amended.

The Clerk read the title of the bill.

The text of the bill is as follows:

H.R. 2529

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the "Neighborhood Preservation Act".

SEC. 2. FINDINGS.

The Congress finds as follows:

(1) Depository institutions and affiliates of depository institutions currently may control and lease foreclosed property for a limited period of time often subject to safety and soundness considerations, under various Federal laws and the law of some States.

(2) Authorizing such institutions and affiliates to enter into a long-term lease with the occupant of the property or any other person would reduce the number of residential properties entering into the housing inventory, which in turn would help to stabilize home values and restore confidence in the housing markets.

(3) Allowing depository institutions and affiliates of such institutions to lease foreclosed property will allow the institution or affiliate to dispose of such property into a presumably more stable market at the end of the lease term which would reduce the loss

the institution or affiliate may otherwise be required to recognize upon disposition of the property.

(4) Providing a means for foreclosed property to remain occupied during the housing downturn will preserve the property itself as well as the aesthetic and economic values of neighboring homes and even whole neighborhoods.

(5) Allowing depository institutions to lease foreclosed property gives families the opportunity to remain in the home, causing less disruption to families, until they have the means to become a homeowner again.

SEC. 3. BANK LEASING OF FORECLOSED PROPERTIES.

(a) IN GENERAL.—Section 18 of the Federal Deposit Insurance Act (12 U.S.C. 1828) is amended by adding at the end the following new subsection:

“(y) LEASING OF FORECLOSED PROPERTY.—

“(1) LEASING AUTHORIZED.—Notwithstanding any provision of Federal or State law restricting the time during which a depository institution, or any affiliate of a depository institution, may hold or lease property, or any provision of Federal or State law prohibiting a depository institution, or any affiliate of a depository institution, from leasing property and subject to this subsection and regulations prescribed under this subsection, any depository institution, and any affiliate of a depository institution, may lease to any individual, including a lease with an option to purchase, for not to exceed 5 years an interest in residential property which—

“(A) was or is security for an extension of credit by such depository institution or affiliate; and

“(B) came under the ownership or control of the depository institution or affiliate through foreclosure, or a deed in lieu of foreclosure, on the extension of credit.

“(2) SAFETY AND SOUNDNESS REGULATIONS.—The Federal banking agencies shall jointly prescribe regulations which—

“(A) establish criteria and minimum requirements for the leasing activity of any depository institution or affiliate of a depository institution, including minimum capital requirements, that the agency determines to be appropriate for the preservation of the safety and soundness of the institution or affiliate;

“(B) establish requirements or exceptions that the agency determines are appropriate under this subsection for any such institution or affiliate for any other purpose; and

“(C) provide for appropriate actions under section 38 with respect to any such lease if necessary to protect the capital or safety and soundness of the institution or affiliate or any other necessary enforcement action.

“(3) LENGTH OF LEASE.—If any provision of any Federal or State law, including the Bank Holding Company Act of 1956, governing the permissible activities of depository institutions or affiliates of depository institutions permits a depository institution or any such affiliate to hold property as described in paragraph (1) for a period longer than 5 years, any lease under paragraph (1) may be extended to the extent permitted by such provision of law.

“(4) SUNSET.—This section shall apply only with respect to leases entered into during the 2-year period beginning on the date of the enactment of the Neighborhood Preservation Act.”

(b) INTENT OF THE CONGRESS.—It is the intent of the Congress that—

(1) no permanent change in policy on leasing foreclosed property is being established

with respect to depository institutions and depository institution holding companies; and

(2) subsection (y) of section 18 of the Federal Deposit Insurance Act should not apply to leases entered into after the sunset date contained in such subsection.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from Kansas (Mr. MOORE) and the gentleman from California (Mr. GARY G. MILLER) each will control 20 minutes.

The Chair recognizes the gentleman from Kansas.

GENERAL LEAVE

Mr. MOORE of Kansas. Mr. Speaker, I ask unanimous consent that all Members have 5 legislative days within which to revise and extend their remarks on this legislation and to insert extraneous material thereon.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Kansas?

There was no objection.

Mr. MOORE of Kansas. Mr. Speaker, I yield such time as he may consume to the gentleman from Indiana (Mr. DONNELLY), a chief sponsor of this legislation.

Mr. DONNELLY of Indiana. Mr. Speaker, today I rise in strong support of H.R. 2529, the Neighborhood Preservation Act, which I joined my colleague from California, Mr. GARY G. MILLER, in introducing.

This bill would amend The Federal Deposit Insurance Act to allow depository institutions like banks to temporarily lease a foreclosed property for up to 5 years. This bill is a fiscally responsible way to help mitigate the damage of the housing crisis and does not cost the government any money. The President has recently spoken in support of this idea. We hope that banks will utilize this to mitigate damage to hard-hit communities and prioritize working with the foreclosed family first.

My home State of Indiana ranks 13th in the country for number of foreclosures. Our district has felt the pain of the economic downturn, as many have lost jobs and struggled to make ends meet. Like many Americans, we have found ourselves unable to pay our mortgages and faced with foreclosure, and that is what has happened to many families in our district.

□ 1100

When a bank is forced to foreclose on a home, many people suffer. The family suffers as they are forced to find a new place to live and new schools for their children. One foreclosure can depress an entire neighborhood by decreasing the values of surrounding properties, and the depository institution that holds the mortgage no longer receives payments on the home. H.R. 2529 would help to minimize the impact of foreclosure by allowing depository institutions to rent a foreclosed property for up to 5 years to the previous owner or to another owner. Allowing depository

institutions to lease the foreclosed property gives families a chance to stay in their home and to make payments as a renter until they have the means to become an owner again. It does so without adding any cost to our deficit. Not only does this help provide some relief to the former homeowner, it helps to preserve the economic values of surrounding homes in the neighborhood, and it provides stability in the housing market. The number of foreclosed homes on the market have contributed to an oversupply of unoccupied homes. Having a high number of unoccupied bank-owned homes negatively impacts whole communities and can even drive up crime, as these vacant homes can become havens for squatters. There are 19 million vacant homes across the United States. That's up from 15.7 million only 4 years ago. These homes present a number of safety concerns. By allowing a family to reside as a renter, they're able to care for the property and prevent further adverse consequences. This bill is a temporary measure that can serve as a useful tool to keep excess housing stock off an already saturated market.

I want to thank the gentleman from California for his work on H.R. 2529, and I'd like to thank Chairman FRANK and Ranking Member BACHUS for their support on this important piece of legislation. I urge my colleagues to support H.R. 2529.

Mr. GARY G. MILLER of California. I yield myself as much time as I may consume.

Mr. Speaker, I rise in support of the Neighborhood Preservation Act, a bill that I introduced with my colleague from Indiana, JOE DONNELLY, who I want to thank for his support on this. This bipartisan legislation is supported by Chairman FRANK and Ranking Member BACHUS of the House Financial Services Committee, who are both cosponsors of the bill.

This bill amends the Federal Deposit Insurance Act to authorize depository institutions and their holding companies to lease foreclosed properties held by institutions for up to 5 years while ensuring the safety and soundness of such activity. H.R. 2529 would provide a tool to address the current foreclosure crisis. Today the American economy is suffering from an overburdened inventory of available houses for sale, roughly estimated at a 10-month supply. In some areas of the country, distressed sales have reached almost 90 percent of the houses being sold which are continually driving down home and neighborhood values. In my district, distressed sales represent approximately 86 percent of homes on the market in San Bernardino County, 65 percent in Los Angeles County, and almost 50 percent in Orange County. In fact, foreclosures have caused prices to decline in California alone by 30 percent in recent months, and they continue to be a problem.

To address the inventory surplus and help stabilize the housing market, the Neighborhood Preservation Act would allow banks to temporarily—and I emphasize temporarily—lease foreclosed properties. Under the bill, the prior homeowner would have the opportunity to lease a property and could be given the option to buy back the home. By allowing a family to lease a property rather than abandon it, families would be given a chance to remain in their homes until they have the means to own again. This legislation would also enable the lender to sell the property within 5 years into a more stable market; thereby, potentially recovering all or part of the losses that could otherwise have occurred in an immediate sale in a saturated market. The Neighborhood Preservation Act would not only reduce the number of houses being sold, but it would help preserve the physical condition of foreclosed properties, which would ultimately help stabilize the aesthetics and economic value of neighborhoods and communities. This would minimize the negative impact on surrounding homes and neighborhoods that have been impacted by the unrelenting foreclosure crisis.

To ensure bank solvency, this bill would require the Federal bank agencies to establish criteria and minimum requirements for the leasing activities of any depository institution, including minimum capital requirements that the agency determines to be appropriate for the preservation of the safety and soundness of the institution. The bill explicitly states that "it is the intent of Congress that no permanent change in policy on leasing foreclosed property is being established with respect to depository institutions" and their "holding companies." The purpose of this bill is to mitigate the impact of the oversupply of homes on the marketplace and allow individuals the chance to stay in their homes during these exigent circumstances.

Mr. Speaker, at no cost to the taxpayer, this bill will help preserve properties and communities, provide more confidence in our housing markets, and assist in stabilizing the economy.

At this point, I reserve the balance of my time.

Mr. MOORE of Kansas. Mr. Speaker, I have no further requests for time, so I will let the other side close.

Mr. GARY G. MILLER of California. In recent years, many of you recall that there have been concerns about allowing banks to get involved in the real estate marketplace, specifically being involved in housing sales and housing transactions other than for pure lending purposes.

So before I introduced this bill, I went to all the associations to make sure the understanding was that this was clearly a temporary bill. This bill has been endorsed by the National As-

sociation of REALTORS, which mainly had a huge concern with banks being involved with real estate, the National Association of Homebuilders and the National Association of Mortgage Brokers. This bill was discharged from committee without a hearing because the ranking member and the chairman both believed this bill could really have a major impact. That's why this bill is on the floor. I ask for an "aye" vote.

I yield back the balance of my time.

Mr. MOORE of Kansas. Mr. Speaker, I have no further requests for time. I urge my colleagues to support this bill, and I yield 1 minute to the gentleman from Indiana (Mr. DONNELLY) to close.

Mr. DONNELLY of Indiana. Mr. Speaker, I urge my colleagues to support H.R. 2529. This bill is a very, very positive step for the homeowners, for our neighborhoods, as well as a way to help solve the problem of foreclosed homes in America. So I urge Members' support.

Mr. AL GREEN of Texas. Mr. Speaker, I am pleased to submit my support of H.R. 2529, the Neighborhood Preservation Act. This Act will allow depository institutions and their affiliate entities to lease foreclosed properties for up to five years—it also has a provision which would allow for people to sign leases with the intent to purchase.

The Neighborhood Preservation Act is a commendable approach to utilizing the growing inventory of foreclosed properties and putting American families back into homes. Allowing foreclosed homes to be leased is a win-win situation. This allows people who may not be financially positioned to buy a house an opportunity to live in and potentially purchase a home while also allowing the bank to get some of the money back from the foreclosed property.

Additionally, by allowing depository institutions to lease foreclosed properties, we will put people in homes and begin to reduce the housing inventory overhang that is currently causing downward pressure on home values. This will help stabilize the housing market and will help facilitate the recovery of the greater economy.

Communities throughout the nation will benefit from this legislation, and it could not have come at a more opportune time.

Mr. MOORE of Kansas. I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Kansas (Mr. MOORE) that the House suspend the rules and pass the bill, H.R. 2529, as amended.

The question was taken; and (two-thirds being in the affirmative) the rules were suspended and the bill, as amended, was passed.

A motion to reconsider was laid on the table.

NATIONAL FLOOD INSURANCE PROGRAM EXTENSION ACT OF 2009

Mr. FRANK of Massachusetts. Mr. Speaker, I move to suspend the rules

and pass the bill (H.R. 3139) to extend the authorization of the National Flood Insurance Program, and for other purposes, as amended.

The Clerk read the title of the bill.

The text of the bill is as follows:

H.R. 3139

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the “National Flood Insurance Program Extension Act of 2009”.

SEC. 2. EXTENSION OF NATIONAL FLOOD INSURANCE PROGRAM.

(a) PROGRAM EXTENSION.—Section 1319 of the National Flood Insurance Act of 1968 (42 U.S.C. 4026) is amended by striking “September 30, 2008” and inserting “March 31, 2010”.

(b) FINANCING.—Section 1309(a) of such Act (42 U.S.C. 4016(a)) is amended by striking “September 30, 2008” and inserting “March 31, 2010”.

SEC. 3. EXTENSION OF PILOT PROGRAM FOR MITIGATION OF SEVERE REPETITIVE LOSS PROPERTIES.

Section 1361A of the National Flood Insurance Act of 1968 (42 U.S.C. 4102a) is amended—

(1) in subsection (k)(1), by striking “2005, 2006, 2007, 2008, and 2009” and inserting “2009 and 2010”; and

(2) by striking subsection (l).

SEC. 4. CONSIDERATION OF RECONSTRUCTION AND IMPROVEMENT OF FLOOD PROTECTION SYSTEMS IN DETERMINATION OF FLOOD INSURANCE RATES.

(a) IN GENERAL.—Section 1307 of the National Flood Insurance Act of 1968 (42 U.S.C. 4014) is amended—

(1) in subsection (e)—

(A) in the first sentence, by striking “construction of a flood protection system” and inserting “construction, reconstruction, or improvement of a flood protection system (without respect to the level of Federal investment or participation)”; and

(B) in the second sentence—

(i) by striking “construction of a flood protection system” and inserting “construction, reconstruction, or improvement of a flood protection system”; and

(ii) by inserting “based on the present value of the completed system” after “has been expended”; and

(2) in subsection (f)—

(A) in the first sentence in the matter preceding paragraph (1), by inserting “(without respect to the level of Federal investment or participation)” after “no longer does”; and

(B) in the third sentence in the matter preceding paragraph (1), by inserting “, whether coastal or riverine,” after “special flood hazard”; and

(C) in paragraph (1), by striking “a Federal agency in consultation with the local project sponsor” and inserting “the entity or entities that own, operate, maintain, or repair such system”.

(b) REGULATIONS.—Not later than 30 days after the date of the enactment of this Act, the Administrator of the Federal Emergency Management Agency shall promulgate regulations to carry out the amendments made by subsection (a). Section 5 may not be construed to annul, alter, affect, authorize any waiver of, or establish any exception to, the requirement under the preceding sentence.

SEC. 5. IMPLEMENTATION.

The Administrator of the Federal Emergency Management Agency shall implement

this Act and the amendments made by this Act in a manner that will not materially weaken the financial position of the National Flood Insurance Program or increase the risk of financial liability to Federal taxpayers.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from Massachusetts (Mr. FRANK) and the gentlewoman from West Virginia (Mrs. CAPITO) each will control 20 minutes.

The Chair recognizes the gentleman from Massachusetts.

Mr. FRANK of Massachusetts. Mr. Speaker, I yield myself as much time as I may consume.

I want to acknowledge the great cooperation we have had on a bipartisan basis here, the gentlewoman from West Virginia and I. We have, as Members know, a Flood Insurance Program. It does some good, but it's become somewhat controversial. There are Members who would like to see its future extended, and I tend to agree with them. Some of our colleagues from the gulf coast on both sides have talked about extending it to, for instance, other disasters and wind. There are Members who believe that the way it works now, it causes undue hardship without providing any serious protection. There are many others who believe—and I think we could argue—that it's time to examine the whole program.

This is an example, Mr. Speaker, where two groups that are sometimes in debate are on the same side; and that is, people concerned about excessive government expenditure and the environmental community. It's certainly our goal to try to discourage people from building where they shouldn't. On the other hand, we have people who years ago, in good faith built there; and they cannot be expropriated and shouldn't be. What we have decided on a bipartisan basis is that we have a program that expires in September. As Members know, the Committee on Financial Services, which has jurisdiction over this, has a fairly broad jurisdiction, including housing and, of course, the financial industry. We have been somewhat preoccupied with those other issues, mortgage foreclosures and financial regulation. We have not had the time to do the kind of thorough reexamination of flood insurance that it deserves. So what we have today as a result of an agreement is a 6-month extension of the program essentially as-is.

There is one change, again in a bipartisan way. The gentlewomen from California (Ms. MATSUI and Ms. SPEIER) and the gentlewoman from Kansas (Ms. JENKINS) came together to ask us for a provision that they believed important for their districts and many others that does no harm and can provide some protection for them. With that inclusion, we are extending it for 6 months. This will now go across the Rotunda to the United States Senate. We expect that they will be able to

enact it, if not in the next couple of days, when we come back in September. What this then does is gives us a chance, when we come back in 2010, to deal with this in a comprehensive way and to do the kind of reexamination that is called for. So that's exactly where we are. I note that the gentlewoman from California has joined us, the author of one of the provisions. I will yield to her after the other side.

I reserve the balance of my time.

Mrs. CAPITO. I yield myself as much time as I may consume.

Mr. Speaker, I want to thank the chairman of the full committee, the gentleman from Massachusetts, for his bipartisan way of approaching this particular issue. He is correct when he says that we've gone back and forth on this over, I think, almost a decade on the way to reform this program. We certainly want to see that.

Everyone here should be in agreement that the National Flood Insurance Program needs reform. The chairman spoke of that. But I think we can also agree it would be irresponsible and unfair to many communities and areas where flooding occurs to let the program expire at the end of September 2009 without attempting to fix it, which is why we need to pass another short-term extension today.

The National Flood Insurance Program is currently carrying a debt in excess of more than \$19 billion, primarily from property damage claims that were paid after the series of big storms that hit Florida in 2004 and the gulf coast in 2005. According to the Government Accountability Office, the NFIP is underfunded by design because many property owners continue to receive subsidized premium rates under long-standing provisions in place since the flood insurance rate mapping system went into effect in 1974. We need to deal with these issues. It's going to take bipartisan leadership on both sides, and I think we have that commitment to get it done. Many of us believe it's time for Congress to work toward encouraging more private insurance and reinsurance capacity to help protect at-risk communities and high-risk regions against the potential damages of flooding as well as other natural disasters. We are committed to pressing forward with reforms as soon as possible and urge others to join us in making this a bipartisan effort as well as a higher priority in this Congress.

In addition to supporting the need for a short-term flood insurance extension bill, I support a small but important technical change that would end the program's illogical and unwarranted discrimination against State and local funding of levee construction and improvement projects. I commend my friend, Congresswoman MATSUI from Sacramento, for her leadership and her thoughtful and constructive proposal. I

also would like to salute Congresswoman LYNN JENKINS of Kansas, an active member of our committee, for lending her support. As I previously stated, I know that we have a great need for reform in this program, and hopefully that will be our ultimate goal. But at the same time, I think it's wise for this Congress to extend this program for another 6 months as we would do in this legislation.

I reserve the balance of my time.

Mr. FRANK of Massachusetts. Mr. Speaker, I yield 3 minutes to the aforementioned gentlewoman from California (Ms. MATSUI), the author of the amendment.

Ms. MATSUI. I thank the gentleman for yielding me time.

Mr. Speaker I would like to thank Chairman FRANK, Chairwoman WATERS, as well as Ranking Members BACHUS and CAPITO and all the staff for all the work they've done to get us here today. I would also like to thank FEMA for their technical guidance throughout the year. The amended bill before us today includes language from H.R. 1525 that I authored to provide technical changes to Federal flood zone designations. This legislation makes a number of modifications to the National Flood Insurance Act in order to give communities clarity to help them restore and improve their flood protection system. From my hometown of Sacramento to the Louisiana bayou to the plains of the Midwest, communities are advancing flood protection infrastructure in order to keep Americans safe and secure.

□ 1115

However, as we work to conform to changing dynamics of flood protection, these communities are seeking clarity as they work to meet Federal regulations.

Public safety is my absolute number one priority. And during the last year that I worked with local, State, and Federal flood protection officials, that remains our priority. This bill will give communities clarity so they can continue to uphold public safety and promote proper protection. Specifically, this legislation will update current law to take local, State, and Federal funding into account when determining designations.

The city of Sacramento and the State of California have devoted millions of dollars toward flood protection. That investment should simply be recognized by the Federal Government. For my constituents this is vital. FEMA needs to recognize what our State and city have contributed when they review the progress made on the Natomas levees in my district and determine the area's flood designation.

This legislation also helps communities understand requirements for a completed system. Current regulations are vague on what a completed system

actually is, and this has caused great concern and confusion among local communities. This provision brings greater clarity by combining a public safety standard with a concrete milestone.

Protecting our constituents from the dangers of floods requires a comprehensive approach. Local communities, States, and the Federal Government must all be thoughtful and committed partners to achieve public safety. I am glad that the bill before us today includes this Federal commitment to give communities clear objectives as they work to improve flood protection infrastructure.

Mr. FRANK of Massachusetts. Mr. Speaker, I yield 2 minutes to the co-author of the amendment we have been discussing, the gentlewoman from California (Ms. SPEIER).

Ms. SPEIER. The American people have an indomitable spirit, and judging from my constituents, they don't expect the Federal Government to come to their aid for every problem. But they also don't expect us to stand in their way when they are trying to save lives and property.

The massive flooding and loss of life following Hurricane Katrina was a wake-up call for those of us who live along our Nation's beautiful coasts, bays, lakes and rivers. I represent the San Francisco Peninsula. As the name suggests, there is hardly a spot in my district where you can't see water. Currently, an advanced new levee system is being constructed to protect parts of three cities along San Francisco Bay. The levee is being built with local money. The residents have voted to tax themselves to do it. This is exactly how it should be, communities handling their issues themselves.

But currently, FEMA only recognizes Federally funded or managed projects. So, despite the fact that these levees are built to the exact same specifications, until the project is completed, homeowners and businesses in those areas will be forced to pay dramatically higher flood insurance, and any new construction will be required to be built on stilts above where the flood plain would be if the levees had not been built or improved. Imagine putting homes on stilts in an earthquake area. It just doesn't make sense.

Again, the levees are not the issue. These levees are being built to Federal standards. The only reason that tens of thousands of hardworking Americans will have to pay thousands of dollars more in insurance and local builders will have to put their buildings on stilts is because the forward-thinking residents of San Mateo, Foster City and Redwood Shores decided to improve their levees without Federal dollars.

I urge the passage of this amendment and this bill.

Mr. FRANK of Massachusetts. Mr. Speaker, I yield myself 3 minutes. And

I would yield for a question to our colleague from Mississippi, who has been, with our support on our committee, a major proponent for protecting the people he represents in the area of wind and elsewhere.

I yield to the gentleman.

Mr. TAYLOR. Mr. Chairman, last year you had extensive hearings on this subject. The bill that was proposed by the House increased the coverage amount since it was a shock to a lot of people who had to rebuild—\$250,000 just doesn't buy the kind of house that it used to 10 years ago.

We took the step to end the practice of concurrent causation, where if, according to testimony before the Mississippi Supreme Court, a house was 95 percent destroyed by the wind before the water got there, the insurance companies would bill the Federal Government for 100 percent of the cost of the damage, as testimony before the Mississippi Supreme Court. And then the other thing is the possibility of adding wind insurance to the National Flood Insurance Program so that there isn't any discrepancy. It doesn't matter if the wind destroyed your house or if the water destroyed your house, if you built it to code, if your community built to code and you paid your premiums, that you are going to get paid.

I realize your committee has been very busy with the housing crisis. Everyone is aware of that. But the folks in the affected regions—which is now 52 percent of all Americans—are curious; at what point do you think there will be some talk of these changes to the flood insurance?

Mr. FRANK of Massachusetts. Well, as the gentleman knows, there has been a request from the administration for a longer extension, but the gentleman conferred with the Chair of the subcommittee, the gentlewoman from California (Ms. WATERS), and expressed his concern that that would put off further any chance to do this, and we agreed with that. That is why this is a 6-month extension. And the answer is, I believe the House remains committed to that. What happens in the Senate will be another issue. But it is certainly our intention, the leadership of the committee on the majority side, once again, to work with the gentleman to extend that protection, and hope that maybe things will change in the Senate.

I yield again to the gentleman.

Mr. TAYLOR. Specifically, does the gentleman envision hearings this fall on the subject?

Mr. FRANK of Massachusetts. Yes, it would be very appropriate.

As Members know, we have been a little busy with the financial material, but we are probably not going away for a while this calendar year. And yes, I know the gentlewoman from California, who chairs the subcommittee

which has jurisdiction, is very interested in this and does plan to have some hearings.

Mr. TAYLOR. I thank the gentleman.

And to the previous speaker, as someone who lives in a house on stilts and represents a lot of people who live in houses on stilts, they're not all that bad.

Thank you very much.

Mr. FRANK of Massachusetts. I would just finish up by saying that the gentlewoman did talk about the problem of houses on stilts in an earthquake area.

I reserve the balance of my time.

Mrs. CAPITO. I don't live in a house on stilts, I live on a mountain, so I don't need stilts. I guess that's a good thing.

Mr. Speaker, I yield back the balance of my time and urge support of this legislation.

Ms. JENKINS. Mr. Speaker, I rise in support of H.R. 1525, whose language has been incorporated into H.R. 3139.

Agriculture is the lifeblood of the economy in Kansas' 2nd District. Doniphan County, Kansas is home to some of the most fertile farm land in the United States.

The levees along the Missouri River in Doniphan County protect three vital communities, White Cloud, Elwood and Wathena, as well as thousands of acres of farmland.

The 1993 floods devastated these communities and the surrounding farmland. And they should serve as a reminder of the importance of sound floodplain management. H.R. 1525, which I cosponsored with my colleague Representative MATSUI from California, will allow communities, like the ones that I represent in Northeast Kansas, the flexibility to find sources to quickly and efficiently repair levee systems.

I thank my colleague for her leadership on this important legislation. And I encourage the House support its passage.

Mr. FRANK of Massachusetts. Well, I will yield back after recalling for no particular reason the views of the British philosopher, Jeremy Bentham, who said that he thought talk of natural law was nonsense and talk of natural rights was nonsense on stilts. That is irrelevant, but it just occurred to me.

Mr. Speaker, I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Massachusetts (Mr. FRANK) that the House suspend the rules and pass the bill, H.R. 3139, as amended.

The question was taken; and (two-thirds being in the affirmative) the rules were suspended and the bill, as amended, was passed.

A motion to reconsider was laid on the table.

CLARIFYING SEC'S AUTHORITY TO SANCTION BROKERS

Mr. FRANK of Massachusetts. Mr. Speaker, I move to suspend the rules

and pass the bill (H.R. 2623) to amend the Federal securities laws to clarify and expand the definition of certain persons under those laws.

The Clerk read the title of the bill.

The text of the bill is as follows:

H.R. 2623

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. FORMERLY ASSOCIATED PERSONS.

(a) MEMBER OR EMPLOYEE OF THE MUNICIPAL SECURITIES RULEMAKING BOARD.—Section 15B(c)(8) of the Securities Exchange Act of 1934 (15 U.S.C. 78o-4(c)(8)) is amended by striking “any member or employee” and inserting “any person who is, or at the time of the alleged misconduct was, a member or employee”.

(b) PERSON ASSOCIATED WITH A GOVERNMENT SECURITIES BROKER OR DEALER.—Section 15C of the Securities Exchange Act of 1934 (15 U.S.C. 78o-5) is amended—

(1) in subsection (c)(1)(C), by striking “or seeking to become associated,” and inserting “seeking to become associated, or, at the time of the alleged misconduct, associated or seeking to become associated”;

(2) in subsection (c)(2)(A), by inserting “, seeking to become associated, or, at the time of the alleged misconduct, associated or seeking to become associated” after “any person associated”;

(3) in subsection (c)(2)(B), by inserting “, seeking to become associated, or, at the time of the alleged misconduct, associated or seeking to become associated” after “any person associated”.

(c) PERSON ASSOCIATED WITH A MEMBER OF A NATIONAL SECURITIES EXCHANGE OR REGISTERED SECURITIES ASSOCIATION.—Section 21(a)(1) of the Securities Exchange Act of 1934 (15 U.S.C. 78u(a)(1)) is amended by inserting “, or, as to any act or practice, or omission to act, while associated with a member, formerly associated” after “member or a person associated”.

(d) PARTICIPANT OF A REGISTERED CLEARING AGENCY.—Section 21(a)(1) of the Securities Exchange Act of 1934 (15 U.S.C. 78u(a)(1)) is amended by inserting “or, as to any act or practice, or omission to act, while a participant, was a participant,” after “in which such person is a participant,”.

(e) OFFICER OR DIRECTOR OF A SELF-REGULATORY ORGANIZATION.—Section 19(h)(4) of the Securities Exchange Act of 1934 (15 U.S.C. 78s(h)(4)) is amended—

(1) by striking “any officer or director” and inserting “any person who is, or at the time of the alleged misconduct was, an officer or director”;

(2) by striking “such officer or director” and inserting “such person”.

(f) OFFICER OR DIRECTOR OF AN INVESTMENT COMPANY.—Section 36(a) of the Investment Company Act of 1940 (15 U.S.C. 80a-35(a)) is amended—

(1) by striking “a person serving or acting” and inserting “a person who is, or at the time of the alleged misconduct was, serving or acting”;

(2) by striking “such person so serves or acts” and inserting “such person so serves or acts, or at the time of the alleged misconduct, so served or acted”.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from Massachusetts (Mr. FRANK) and the gentleman from California (Mr. MCCARTHY) each will control 20 minutes.

The Chair recognizes the gentleman from Massachusetts.

Mr. FRANK of Massachusetts. Mr. Speaker, this is another important bipartisan bill. The gentleman from California (Mr. MCCARTHY) took the initiative here, and we were pleased to work with him.

The Chair of the subcommittee, the gentleman from Pennsylvania (Mr. KANJORSKI), is dealing with a back problem, so he's not here. But he's not dealing with a backbone problem, because this bill puts some more backbone into the antifraud laws. And what it does is, in consultation with the SEC, enhances their ability to kick people, in effect, out of the industry who have a bad record. And it makes it very clear that a past bad record or a past affiliation would still be relevant in giving the SEC the right to protect investors.

We are all aware that too little has been done to protect investors. This is a step forward towards further empowering the SEC to do the job of protecting investors.

Mr. Speaker, I reserve the balance of my time.

Mr. MCCARTHY of California. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I rise in support of H.R. 2623, legislation that would amend the Federal securities laws to clarify the Security and Exchange Commission's, the SEC, authority to sanction certain employees of regulated or supervised entities after they leave their jobs.

I would like to thank Mr. KANJORSKI and Chairman FRANK for bringing this bill to the floor today. I would also like to mention that this legislation was included in a larger piece of securities legislation from the 110th Congress, H.R. 6513, the Securities Act of 2008, which passed the House on suspension by voice vote.

The legislation is also included in H.R. 3310, the Consumer Protection and Regulatory Enhancement Act introduced by Ranking Member BACHUS, and I appreciate his support on this legislation.

This legislation is directed at ensuring that former employees of organizations like the New York Stock Exchange or the Financial Industry Regulatory Authority can be held accountable for any misconduct while an employee of these organizations.

Many provisions of Federal securities law which authorize the sanctioning of a person who engages in misconduct while associated with a regulated or supervised entity explicitly provide that such authority exists even if the person is no longer associated with that entity or has left his or her job. But there are confusing loopholes so that employees of some regulated or supervised organizations cannot be sanctioned by the SEC after they leave their positions. By clarifying the SEC's

authority to sanction formerly associated persons, we ensure that employees are held accountable for their actions while in those positions even if they have moved on to another job.

Specifically, my legislation amends the Securities Exchange Act of 1994 and the Investment Company Act of 1940. Congress must ensure that the SEC has authority to investigate individuals suspected of violating the securities laws, to bring enforcement cases, and have those cases considered on the merits and not be dismissed on an ambiguity because a statute is confusing. No one should be able to violate the securities laws and resign their position knowing that the SEC cannot proceed against them. My legislation does not expand or alter the SEC's current authority; it clarifies it.

One illustration of the need for this legislation is in the case of Sal Sodano, who was chairman and CEO of the American Stock Exchange, AMEX. On March 22, 2007, the SEC charged Sodano with failing to enforce compliance with the Exchange Act during his term as the AMEX chairman and CEO; however, the SEC's filing occurred after Sodano left the AMEX in 2005. So his lawyers pointed to this loophole in the Federal law that the SEC could only sanction individuals while they were still associated with the organization.

The SEC's administrative law judge noted that the current law does not provide for sanctioning of a former officer or director. The judge specifically noted that Congress has drafted many statutes that allow the ability to sanction individuals formerly associated with any number of entities, but not in this case. By passing H.R. 2623, Congress can close this loophole and ensure accountability for individuals working at regulated or supervised entities.

I urge my colleagues to support this legislation, which will provide more accountability, transparency, and efficiency in securities regulation.

Mr. Speaker, I yield back the balance of my time.

GENERAL LEAVE

Mr. FRANK of Massachusetts. Mr. Speaker, first I ask unanimous consent that all Members have 5 legislative days in which to revise and extend their remarks and include extraneous material on this bill and the preceding bill, H.R. 3139.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Massachusetts?

There was no objection.

Mr. FRANK of Massachusetts. I congratulate the gentleman from California on his work.

Mr. Speaker, I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Massachusetts (Mr. FRANK) that the House suspend the rules and pass the bill, H.R. 2623.

The question was taken; and (two-thirds being in the affirmative) the rules were suspended and the bill was passed.

A motion to reconsider was laid on the table.

□ 1130

PROVIDING FOR CONSIDERATION OF H.R. 3326, DEPARTMENT OF DEFENSE APPROPRIATIONS ACT, 2010

Mr. POLIS. Mr. Speaker, by direction of the Committee on Rules, I call up House Resolution 685 and ask for its immediate consideration.

The Clerk read the resolution, as follows:

H. RES. 685

Resolved, That at any time after the adoption of this resolution the Speaker may, pursuant to clause 2(b) of rule XVIII, declare the House resolved into the Committee of the Whole House on the state of the Union for consideration of the bill (H.R. 3326) making appropriations for the Department of Defense for the fiscal year ending September 30, 2010, and for other purposes. The first reading of the bill shall be dispensed with. All points of order against consideration of the bill are waived except those arising under clause 9 or 10 of rule XXI. General debate shall be confined to the bill and shall not exceed one hour equally divided and controlled by the chair and ranking minority member of the Committee on Appropriations. After general debate the bill shall be considered for amendment under the five-minute rule. The bill shall be considered as read through page 147, line 4. Points of order against provisions in the bill for failure to comply with clause 2 of rule XXI are waived. Notwithstanding clause 11 of rule XVIII, except as provided in section 2, no amendment shall be in order except: (1) the amendments printed in part A of the report of the Committee on Rules accompanying this resolution, which may be offered only in the order printed in the report, may be offered only by a Member designated in the report, shall be considered as read, shall be debatable for the time specified in the report equally divided and controlled by the proponent and an opponent, and shall not be subject to a demand for division of the question; (2) not to exceed eight of the amendments printed in part B of the report of the Committee on Rules if offered by Representative Flake of Arizona or his designee, which may be offered only in the order printed in the report, shall be considered as read, and shall be debatable for 10 minutes equally divided and controlled by the proponent and an opponent; (3) an en bloc amendment, if offered by Rep. Flake of Arizona or his designee, consisting of all of the amendments printed in part B of the report of the Committee on Rules, which shall be considered as read, shall be debatable for 10 minutes equally divided and controlled by the proponent and an opponent, and shall not be subject to a demand for division of the question; and (4) not to exceed two of the amendments printed in part C of the report of the Committee on Rules if offered by Representative Campbell of California or his designee, which may be offered only in the order printed in the report, shall be considered as read, and shall be debatable for 10 minutes equally divided and controlled by the proponent and an opponent. All points of order

against such amendments are waived except those arising under clause 9 or 10 of rule XXI. At the conclusion of consideration of the bill for amendment the Committee shall rise and report the bill to the House with such amendments as may have been adopted. In the case of sundry amendments reported from the Committee, the question of their adoption shall be put to the House en gros and without division of the question. The previous question shall be considered as ordered on the bill and amendments thereto to final passage without intervening motion except one motion to recommit with or without instructions.

SEC. 2. After disposition of the amendments specified in the first section of this resolution, the chair and ranking minority member of the Committee on Appropriations or their designees each may offer one pro forma amendment to the bill for the purpose of debate, which shall be controlled by the proponent.

SEC. 3. The Chair may entertain a motion that the Committee rise only if offered by the chair of the Committee on Appropriations or his designee. The Chair may not entertain a motion to strike out the enacting words of the bill (as described in clause 9 of rule XVIII).

SEC. 4. During consideration of H.R. 3326, the Chair may reduce to two minutes the minimum time for electronic voting under clause 6 of rule XVIII and clauses 8 and 9 of rule XX.

POINT OF ORDER

Mr. FLAKE. Mr. Speaker, I raise a point of order against H. Res. 685 because the resolution violates section 426(a) of the Congressional Budget Act.

The resolution contains a waiver of all points of order against consideration of the bill, which includes a waiver of section 425 of the Congressional Budget Act, which causes a violation of section 426(a).

The SPEAKER pro tempore. The gentleman from Arizona makes a point of order that the resolution violates section 426(a) of the Congressional Budget Act of 1974.

The gentleman has met the threshold burden under the rule and the gentleman from Arizona and a Member opposed each will control 10 minutes of debate on the question of consideration. After that debate, the Chair will put the question of consideration.

The Chair recognizes the gentleman from Arizona.

Mr. FLAKE. Mr. Speaker, I'm not sure that there are unfunded mandates in this bill. There probably are, but that isn't the reason I raise a point of order. I raise it because it's about the only opportunity those of us in the minority have to talk about this process. It has been extremely restrictive.

The rule reported for the Defense bill marks the 12th time during the appropriation season that the majority has shut down what has traditionally been an open process. It isn't coincidental that the Defense appropriations bill is being considered last and we'll have just about a day to consider it. In recent years, this bill has been rife with earmarks going to for-profit companies, and the measure before us today is no different.

There are 1,102 earmarks stuffed into this bill, and nearly 550 of them, worth at least \$1.3 billion, are going to private, for-profit companies. The corrupting nature of this practice, which the President himself has publicly noted, has been, itself, evident with the PMA scandal that has centered around campaign contributions and earmarks.

It is for this reason and this reason alone that I chose to offer 552 amendments to the Rules Committee, each one targeting an earmark that the sponsors listed on their Web site as going to a for-profit company.

These amendments have been derided as an abuse of the process. I would like to address this criticism, which I think is wholly unfair. It's unfair because the Office of Legislative Counsel is not in any way inconvenienced by the drafting of these amendments.

My staff wrote them and wrote them individually. My amendments were delivered to the Rules Committee on Friday of last week, well in advance of a 3 p.m. Monday deadline, giving the staff of the Rules Committee more than enough time to process these amendments accordingly. In fact, I'm told that the Rules Committee closed up shop around 8 p.m. on Friday night. The Rules Committee met yesterday, and the 12th rule of this appropriations process was passed, which restricted amendments again. That meeting lasted just 1 hour.

One hour the Rules Committee met and, in 1 hour, dealt, apparently, with more than 600 amendments that were submitted. That is almost equivalent to the Appropriations Committee meeting for 18 minutes to pass this bill out of committee, a bill with more than 1,000 earmarks, more than 500 earmarks that are no-bid contracts to private companies, passed by the Appropriations Committee in 18 minutes.

Now, the majority talks a lot about making sure that we do this all in a timely process. I would suggest there is something to being a bit more thorough. You cannot vet more than 1,000 earmarks, more than 550 of which are no-bid contracts to private companies, in 18 minutes. And you can't restrict it in this way coming to the floor and expect this to be a thorough process. It is a quick process. Maybe the trains are running on time, but we're not doing our job here.

The flawed process by which the Rules Committee reported this rule does not appear to have been delayed or inconvenienced in any way by the submission of these amendments. Referring to these amendment submissions as an abuse of the process is far-fetched considering the severe restrictions the Rules Committee has placed on our ability to offer amendments to appropriations bills. This is a process, again, that has been traditionally open.

Excluding the Defense bill, more than 800 amendments were submitted

to the Rules Committee for the 10 appropriations bills the House has already considered this summer. At the start of the process, the chairman of the Appropriations Committee said, "There are a limited number of hours between now and the time we recess. If we want to get our work done, we have to limit the debate time that we spend on these bills."

The majority leader echoed this sentiment as an explanation for clamping down on the appropriations process: "So I tell my friend that the reason for rising was to give us the opportunity to go to the Rules Committee and provide for, as I said, time constraints in which we can effectively complete this bill."

This has been the excuse that's been used so far, an excuse to only make in order 18 percent of the amendments submitted for appropriations bills we've seen so far.

I realize amongst my colleagues I have been the most fortunate. I have been permitted to offer more than 40 amendments, 26 percent of all the amendments ruled in order, in total, for these bills. I suppose I should be grateful for any crumbs that fall from the Appropriations Committee or the Rules Committee.

But my amendments were ruled in order at the expense of other perhaps more substantive amendments in many ways as a way for the majority to deflect blame for a virtually closed process and to prevent their Members from making tough votes on some of the other amendments that were submitted.

When I was on the House floor with a couple of bills, time and time again, in fact, 16 times, I asked for unanimous consent to substitute some of my colleagues' amendments for my own. We already had the time constraints for the bill, so the notion that we had to make the trains run on time, we had to get this debate done was not the point. But I was rejected 16 times in a row, not because the amendments offered by my colleagues weren't germane. They were. They simply weren't ruled in order by the majority because they didn't want to face those amendments.

And if we're going to talk about abuse of process, there it is. It's not offering 550 amendments because we are doing more than 550 no-bid contracts to private companies. That's not where the abuse lies. The abuse lies in the majority's saying we are only going to entertain those amendments that we know we can beat or that we want to entertain or that are entertaining, apparently, not the ones that may be difficult for us.

Now, when Republicans were in the majority, I have often said that we did a few things that we shouldn't have. Holding a vote open for 3 hours wasn't a good thing. But I have never seen any of the abuse of the process like this. No matter how the Republicans, when

they were in power, didn't want to see amendments, like some of mine, they allowed them. We spent, I think, 3 days on the Interior appropriations bill because Members kept coming forward offering amendments that our own majority did not want to see, but they knew that they shouldn't shut down this process, which has been traditionally open.

But the new majority has decided to completely close it and did not have one appropriation bill this year come to the floor under an open rule. In particular, when some will make the argument that, well, hey, back in the 1970s there were occasions when these appropriation bills were not brought to the floor under an open rule, the situation we have today is a situation in which bills are brought to the floor that have been stuffed to the gills with earmarks like this bill that we're considering today. More than 1,000 earmarks, more than 500 of which are no-bid contracts to private companies for which the Appropriations Committee took a paltry 18 minutes to vet and to send on to the House floor, and then we're told, ah, but you can only offer eight of the 552 amendments you submitted. Only eight of them. You can choose them, but only eight, because we don't have time to vet any more at that time.

Mr. Speaker, I reserve the balance of my time.

Mr. POLIS. Mr. Speaker, I rise to claim time in opposition to the point of order.

The SPEAKER pro tempore. The gentleman from Colorado is recognized for 10 minutes.

Mr. POLIS. Mr. Speaker, as my colleagues know, we've been here before. This very same point of order has been raised against nearly every appropriations bill, and each time it's used to discuss something other than its intended purpose, which is supposed to be about unfunded mandates. Once again, it's about delaying consideration of this bill and, ultimately, stopping it altogether.

I hope my colleagues will again vote "yes" so we can consider this legislation on its merits and fund the important defense needs of our Nation and not stop it on a procedural motion. Those who oppose the bill are welcomed to vote against this bill on final passage. We must consider this rule and we must pass this legislation today to continue to fund the defense and protection of our country.

□ 1145

I have the right to close, but in the end, I will urge my colleagues to vote "yes" to consider the rule.

Mr. Speaker, I reserve the balance of my time.

Mr. FLAKE. May I inquire as to the time remaining?

The SPEAKER pro tempore. The gentleman from Arizona has 2 minutes remaining. The gentleman from Colorado has 9 minutes remaining.

Mr. FLAKE. It was said again that I'm just trying to delay this process. If I were trying to delay this process, I could stand up here with a privileged resolution and read every one of the amendments that I wasn't allowed into the RECORD. It would take hours to do that.

I'm not trying to delay this process unnecessarily. This isn't a dilatory tactic. It's just about the only way we can stand and actually register objection to this closed process. I suppose I could, and this would be chilling reading, read the transcript of yesterday's court trial of an individual who, I believe, is pleading guilty in some fashion, a contractor who received earmarks and passed them on to other contractors who weren't doing any work at all. That was under a previous Defense bill that wasn't vetted, as it should have been, that came to the floor probably last year under a closed process; no amendments could have been offered.

And so here we have investigations, particularly with the PMA scandal, swirling around this institution because we aren't doing our work. We aren't vetting these bills. I wish that the Appropriations Committee would, but they're not. And then when you come to the floor and say, we'd like to challenge a few of these earmarks, you say, you can challenge eight of them; 8 of the more than 550 no-bid contracts to private companies. You can only question eight of them. That's all we have time for because we have to pass this bill today for some reason.

The fiscal year doesn't run out until the end of September. This is not a bill that has to be passed today or tomorrow. We can spend the time that we need, or we should have taken time earlier this year instead of doing suspension bills or last Friday, instead of passing a wild horse welfare act or whatever we did.

The appropriations bills are the most important work this Congress does. And to say that we have to move through them quickly so nobody sees what we're doing, so nobody sees that we're doing no-bid contracts for private companies is simply wrong. That is the abuse of power in this institution, not bringing 553 amendments to the floor.

With that, I urge opposition to the rule and yield back my time.

Mr. POLIS. Mr. Speaker, I yield myself such time as I may consume. I would encourage my colleague from Arizona to stick around, assuming that this motion passes, for the discussion of the rule. He will find in the proposed rule there is the opportunity that we will be giving the House of Representatives as a whole to vote on a block of amendments that the gentleman has identified, as well as several individual ones that the gentleman has identified.

I urge my colleagues to vote "yes" on this motion to consider, so that we

can debate and pass this important piece of legislation today.

I yield back the balance of my time.

The SPEAKER pro tempore. All time for debate has expired.

The question is, Will the House now consider the resolution?

The question of consideration was decided in the affirmative.

The SPEAKER pro tempore. The gentleman from Colorado (Mr. POLIS) is recognized for 1 hour.

Mr. POLIS. Mr. Speaker, for the purpose of debate only, I yield the customary 30 minutes to the gentleman from California, my colleague on the Rules Committee, Mr. DREIER. All time yielded during consideration of the rule is for debate only.

GENERAL LEAVE

Mr. POLIS. I ask unanimous consent that all Members be given 5 legislative days in which to revise and extend their remarks on House Resolution 685.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Colorado?

There was no objection.

Mr. POLIS. Mr. Speaker, I yield myself such time as I may consume.

House Resolution 685 provides for consideration of H.R. 3326, the Department of Defense Appropriations Act of 2010, under a structured rule. I'd like to thank Chairman OBEY, Ranking Member LEWIS, Chairman MURTHA and Ranking Member YOUNG for their tireless and bipartisan work on this important bill to fund the defense needs of our Nation. Their job is not easy. The needs of this country are endless, our security challenges are daunting. Threats to our security are numerous and always changing. And the resources that we can devote to these problems are precious and limited, as our Nation faces a severe recession.

So each year we must prioritize, re-evaluate and invest in strategies that will keep our country and our people safe. We will invest in the equipment that will protect our troops and in programs that will care for the men and women who defend us, who serve our country so bravely and capably every day.

H.R. 3326 fulfills these responsibilities by providing first-class equipment for our troops that are in harm's way, by increasing fiscal responsibility and oversight within the Department of Defense, and by investing in adequate health care and increased compensation for our soldiers and their families.

To help protect our troops, the bill provides increased funding for the mine-resistant ambush protective vehicle fund and the procurement of new Humvees and new heavy and medium tactical vehicles to meet the needs of our military. The bill also invests in weapons systems that meet our current and future needs, instead of plunging money into weapons systems that do not meet timelines, budgets or real-

istic threats or are based on threats that are antiquated that we no longer face.

We need to transform our military to make sure that we can keep the American people safe. We cannot fulfill our responsibilities to the troops, to taxpayers, or to the Nation if we can't meet our fiscal responsibilities.

H.R. 3326 reduces advisory and assistant service contracts by saving \$51 million while providing \$5.11 billion for Department of Defense personnel to perform DOD functions. The bill also provides funding for the Inspector General to increase oversight over the acquisition and contracting process to ensure the taxpayers' funds are spent wisely. By reducing funds for wasteful weapons and bloated contracts, we can provide better care and a better quality of life for the men and women of the Armed Forces and their families.

H.R. 3326 increases pay for all servicemembers by 3.4 percent, and fully funds the requested end-strength levels for active Reserve and selected Reserve personnel. The bill continues efforts to end the practice of stop-loss, so difficult for the families of our troops who are deployed overseas, and includes \$8.33 million to pay servicemembers \$500 for every month of involuntary service.

The bill provides \$29.9 billion for top-of-the-line medical care, including \$500 million for traumatic brain injuries and psychological health and increased funding for the wounded, ill and injured warrior programs. We can make no greater investment than in the health and welfare of those who have sacrificed and given so much to protect our freedoms.

It's also important to keep in mind that for every soldier who is dutifully serving on the battlefield, in Iraq or Afghanistan, sailing on a ship in the Pacific of the Atlantic or stationed on a military base in Germany, Japan or elsewhere, there is also a military family in our neighborhoods, in our districts, in our cities, and those families too are serving our country. To honor their commitment to this country, and to acknowledge their sacrifice, this year has been called the Year of the Military Family, and this bill adds substance to those words and that title.

H.R. 3326 includes over \$472 million for family advocacy programs and fully funds the Family Support and Yellow Ribbon programs. The bill also includes \$20 million for the Army National Guard Family Assistance Centers and Reintegration programs. I strongly believe that this bill is a positive step forward in the way that Congress prioritizes our military spending and provides for the men and women who serve our Nation and their families.

I support H.R. 3326 and House Resolution 685.

I reserve the balance of my time.

Mr. DREIER. Mr. Speaker, I yield myself such time as I might consume.

Mr. Speaker, I want to begin by expressing my appreciation to my very distinguished Rules Committee colleague for yielding me the customary 30 minutes. I was just thinking as I was sitting here listening to his very thoughtful remarks. And he is a diligent and hardworking new member of the committee. He's now, this month completed 6 months, halfway through the first session of the 111th Congress. And my friend on the Rules Committee has, along with 70-some-odd other Members, not once, not once seen something that, when I'd been here 6 months I'd seen on countless occasions, and that is an open rule, an open amendment process.

And I will say, Mr. Speaker, that I hope very much that my friend on the Rules Committee, the other new members of the Rules Committee, and the Members of this institution and, most importantly, the American people, will, sometime in the 111th Congress, have the opportunity to see an open debate under the 5-minute rule in the House of Representatives.

Mr. Speaker, last week we marked a very significant anniversary in this institution. It was the formal consideration of James Madison's proposal to amend the Constitution to add a Bill of Rights. That debate, Mr. Speaker, began 220 years ago, just this last week. It was July 21 of 1789 that the House of Representatives began the process of debating whether or not to proceed with the Bill of Rights. In that first summer of the very first Congress, Congressman Madison proposed his amendments, which were considered by the House Rules Committee, and then moved to the House floor for a 10-day debate.

And I underscore that again, Mr. Speaker, the debate that took place on the floor of the House of Representatives lasted 10 days for consideration of the Bill of Rights. Now, I believe, Mr. Speaker, that that took place that summer and it was very, very instructive. It was instructive, the debate that we saw 220 years ago this summer, not just for its substance, but in many ways for the nature of that debate that was managed by Congressman Madison who, incidentally, represented the seat that is now held by our distinguished Republican whip, Mr. CANTOR.

Throughout the course of that debate, summer of 1789, it was very clear that Mr. Madison had great respect for the views of the Members who disagreed with him. He had a great deal of respect for those with whom he vigorously disagreed. He argued with civility, comity, and respect. He never impugned his adversaries' motives. In fact, Mr. Speaker, he not only didn't impugn his adversaries' motives, he actually defended them himself during debate. He passionately sought consensus on the fundamental issues and placed it above his own ambivalence that existed on lesser concerns.

And it was ambivalence, because, if you recall your history, Mr. Speaker, he was not, at the outset, a believer in the necessity for a Bill of Rights. He urged his colleagues to act on, and I quote from a June 1789 speech when he actually introduced the Bill of Rights, what he called the principles of amity and moderation to proceed with caution, but that ultimately they must act resolutely to satisfy the public mind. Again, Congressman Madison's words.

He clearly did not believe that decisive action and a full, open debate were mutually exclusive. He believed that clearly that ultimate decision would be a better one with a full, rigorous, and open debate. He saw them as being fully intertwined, that elevating the debate above reproach would give this body the moral authority to act decisively and appropriately as a truly representative body, which it has been.

I believe in this Madisonian model, Mr. Speaker, very, very fervently. I believe in that model of intellectually rigorous, open, and civil debate. So it's with great dismay that I have seen the tenor of our debate deteriorate and the legislative process grow even more closed in recent years. The closing down of the traditionally open appropriations process has, for me, personally, been the most troubling thing to observe.

□ 1200

We have the very serious responsibility of spending the taxpayers' hard-earned money. That responsibility deserves a completely open and transparent process. Unfortunately, this year, for the first time in the 220-year history, we have had a restrictive appropriations process from the beginning to what today is now the end. As was pointed out by Mr. FLAKE earlier, this is the last of the now 12 appropriations bills. Today, we consider that final appropriations bill under the exact same, restrictive process with which we've considered every single appropriations bill for the upcoming fiscal year.

Now, Mr. Speaker, as we mark this 220th anniversary of that very historic debate on the Bill of Rights, we, unfortunately, are making history of our own. It's not history of which we can be very proud. It's not history that will judge this institution kindly. Today, we mark the final death knell for the open process with which we have historically handled our constitutionally mandated power of the purse.

The abandonment of this tradition began just over a month ago, on June 17, when the Democratic majority announced at the very outset of the process that it would not be granting the customary open rule for spending bills. Since that day, June 17, we have been on a steady march toward an ever more restrictive process, barring the full

transparency that the taxpayers deserve and prohibiting the full participation of rank-and-file members of both parties.

I will say that we regularly hear that this is characterized as Republicans complaining or whining. We are fighting for the rights of Democrats and Republicans. The reason is the Democrats and Republicans represent the American people, and it's the American people who are being undermined by this very unfortunate process.

With today's consideration of our final appropriations bill, the full pivot to what I am describing as the "new normal" becomes complete. Having cast aside one of our longest-held traditions, we now have a process where the chairman of the Appropriations Committee alone is the sole arbiter of what spending amendments may be offered, who can speak on them and for how long. They have done this in the name of expediency, citing a strict schedule that must be adhered to.

If they were only concerned with time limits, Mr. Speaker, as Mr. FLAKE pointed out earlier, why didn't they simply impose an overall time limit debate on each bill? If it simply were this schedule that Mr. OBEY has repeatedly held up, just put an outside time limit on the debate. I would not have been a proponent of that, but it certainly would have been preferable to this kind of restriction imposed on the American people by way of preventing their Democratic and Republican Members of the House from being able to offer their amendments.

A popular justification has been to claim that the process took too long back in 2007, so it had to be controlled from the beginning this time, but that argument completely overlooks the fact that 2007 was a very unique year. It was the transition year from a Republican majority to a Democratic majority here in the House. One of the hallmarks of transition years is a lengthier appropriations process, and yet the new Republican minority took less floor time in 2007, almost 26 hours less, than the new Democratic majority did back in 1995. Again, let me underscore that.

When we heard that the 2007 appropriations process was so out of hand, we needed to realize that, in its being a transition year, there were actually fewer amendments that were proposed by Members of the new minority. That had been the case when Democrats were in the minority back in 1995. When we compare these 2 years, it is very clear that, while there was an increase in time spent on our spending bills in 2007, it was very modest to what the Democrats engaged in when they entered into the minority, as I said, following the 1994 election.

The Democratic majority's excuses just don't stand up to scrutiny. The real motivation, Mr. Speaker, for this

restrictive process has been to cherry-pick amendments and to shield their profligate spending practices from any real transparency or accountability. It's very obvious.

I and my Republican colleagues on the Rules Committee—Messrs. DIAZ-BALART and SESSIONS and Ms. FOXX—have just completed, through a great deal of effort by members of the Rules Committee staff, this report entitled “Opportunities Lost: The End of the Appropriations Process.” I'm glad that my friend on the other side of the aisle has it, and I look forward to his comments and thoughts on it, as well as I do of those of our other colleagues. I encourage anyone who is interested in this to read it. I have this report which we're just issuing today, Mr. Speaker. In the not too distant future—I hope later today or tomorrow—we will actually have this report available online for our colleagues who would want to gain access to it. They just need to go to rules-republicans.house.gov, and a copy of this report will be made available.

The greater irony, Mr. Speaker, of all of this is that the Democratic majority campaigned on the need for full, open and transparent debate. That was the plank of the platform back when the majority was won and, in fact, in the last election as well. I think it's extraordinarily ironic, while we heard this argument made about a “culture of corruption”—those are the terms that Ms. PELOSI used repeatedly—that we just had the gentleman from Arizona offer over 500 amendments to deal with this challenge. I mean there are former Members of this institution who are in jail today because of abuse of the earmark process. Yet those who campaigned on this issue of ending the culture of corruption are denying an opportunity for a full vetting of the amendments that have been proposed by our friend Mr. FLAKE.

Regardless of what you think on a particular issue, it would seem that denying him the opportunity to offer these amendments, of which he only has an opportunity to offer 8 amendments out of the 500 that he filed—and he can only pick very few of those—is, to me, really playing the role of exacerbating what Ms. PELOSI described as the culture of corruption rather than working to bring it to an end.

I will say that, as we proceed here—and we've gone for 2½ years. It actually has been exactly 2 years since we've had an open rule considered here in the House of Representatives. I've got to say, as to the notion of saying that we were going to have, as the American people were promised, a full, open, rigorous, transparent debate, they were empty words. They were clearly empty words. They have taken us precisely in the opposite direction, Mr. Speaker, culminating in this dubious honor of being the first majority in

the 220-year history of the United States of America to shut down the appropriations process from start to finish.

Now, I believe it's no accident that this abandonment of open debate on our appropriations bills has coincided with the most excessive spending in our Nation's history. It's no coincidence that our deficit has exceeded the \$1 trillion mark just halfway through the year at the same time that the Democratic majority has shut out meaningful debate on their spending practices. Looking back over the better part of the last two decades, as this detailed report of ours shows, it's clear just how much damage has been done to our deliberative imperative as an institution under this new majority.

Mr. Speaker, this resorting to restrictive debate is made even starker when we look back to exactly where we began 220 years ago this summer with that great debate launched by the author, the Father of the U.S. Constitution, James Madison, when he decided to proceed with the Bill of Rights. If James Madison were around today, he would be absolutely horrified. In fact, I think this is the closing line that we have in this report.

It reads, “This summer marks the 220th anniversary of the introduction of the Bill of Rights by James Madison in the First Congress. It is a good thing that he is no longer alive to see what the House has become. If he were, he would wonder where we went wrong.”

Mr. Speaker, I want us to have an opportunity to engage in rigorous, open, civil debate. Unfortunately, we are denied that opportunity under this restrictive rule, so I urge my colleagues to oppose this rule. This is our last opportunity in this appropriations process. We can prove wrong the statement that I just made that we've had a closed process from start to finish if we can reject this rule.

I reserve the balance of my time.

Mr. POLIS. Mr. Speaker, I thank the gentleman for this report. I look forward to reading it, to discussing it and, hopefully, to imposing some best practices for future processes.

I would point out that there are, of course, distinctions in the type of work that we do here; between the critical, philosophical, democratic bases of our country and the discussion and debate around the Bill of Rights, and the work of the House that we need to conduct in a bipartisan way.

The gentleman will recall that, yesterday, Ranking Member YOUNG and Chairman MURTHA appeared before our Rules Committee and discussed how there was a strong bipartisan consensus on the bill. In fact, I believe that Ranking Member YOUNG indicated that the bill would look substantially the same regardless of which party were in the majority, which shows the dedication of both parties in our country to protect our people.

I have to admit that, as somebody who was against the Iraq War and as somebody who is very skeptical of our ongoing operations of Afghanistan and, indeed, as to what our exit strategy is, it was actually disconcerting to me that the bill would look the same with regard to whichever party were in the majority. I would like to address some of the issues relating to the exit strategy in Afghanistan and where we see that going.

I would like to yield 3 minutes to my colleague, the vice chairman of the Rules Committee, the gentleman from Massachusetts (Mr. MCGOVERN).

Mr. MCGOVERN. I thank the gentleman for yielding.

Mr. Speaker, I rise in support of the rule and in support of the fiscal year 2010 Defense appropriations bill, which the House will take up shortly. With the passage of this bill, we will have completed all of our appropriations bills, and we will have successfully overcome Republican obstructionism and attempts to undermine the legislative process. So I think this is good news for the people of the country that we are actually getting our work done, which is something that they were not able to do very successfully.

Mr. Speaker, H.R. 3326, by and large, is a good bill. It provides support for our military families, and it provides our troops with the funding and the equipment they need to successfully perform their duties and to carry out their assigned missions.

I want to congratulate Chairman MURTHA and Ranking Member YOUNG for their bipartisan work on this bill, but, Mr. Speaker, I do not support this bill without significant reservations.

I believe that this Congress has not yet come to grips with what our policy is in Afghanistan. This House recently passed an emergency supplemental appropriations bill that provides billions and billions of dollars for the war in Afghanistan, a measure that I opposed, but I believed then, as I do now, that it is a mistake to spend billions and billions of dollars more for a war that has no clearly defined mission.

My concern deepened when I recently read reports that indicated that General McChrystal believes we will have to expand our forces and, thereby, expand our mission in Afghanistan, meaning more money and more troops right now just to get the job started. I still have this sinking feeling in the pit of my stomach that we're getting sucked into something where the mission and goals are vague and where it is unclear how it will end.

Mr. Speaker, that's why we need an exit strategy. We need a clear definition of when this policy comes to an end and when our troops can come home, not a date certain but an explanation as to when the military part of this operation comes to a close. I remain skeptical about our policy in Afghanistan. I think this administration

needs to provide Congress, this Nation and our military families with more clarity on this issue. If they don't, I believe Congress needs to demand it.

Like all of my colleagues, I have had many conversations with the men and women who serve in Iraq and Afghanistan—sometimes when they are about to deploy, sometimes when they have just come home, sometimes when they come to my district office, and often because we just run into one another at a coffee shop, at a diner, at a community center or on the street. I believe that we owe them a great deal for their service. We owe them the respect of looking them in the eye and of telling them that we know exactly what we are doing when we vote for money and missions that will send them directly into harm's way—someplace from where they may not return safe and sound to their families and to their loved ones.

□ 1215

I'm not asking for a protest vote on this bill. On this day, I intend to support the bill.

The SPEAKER pro tempore (Mr. ALTMIRE). The time of the gentleman has expired.

Mr. POLIS. Mr. Speaker, I yield the gentleman an additional 30 seconds.

Mr. MCGOVERN. Mr. Speaker, on this day I intend to support the bill, but I raise these concerns because I firmly believe they need and deserve more discussion and more debate. Congress has been too quiet on the issue of Afghanistan, and that needs to change.

I thank the gentleman for yielding.

Mr. DREIER. Mr. Speaker, I yield myself such time as I might consume.

I would like to say in response again to my hardworking Rules Committee colleague, Mr. POLIS, who earlier was talking about the great hearing that we had upstairs with the chairman and ranking minority member of the Defense Appropriations Subcommittee, he was talking about the fact that Mr. YOUNG had indicated that this bill would look very similar if he had been in the top position as chairman—which he's been chairman of the Appropriations Committee, chairman of the Defense Appropriations Subcommittee, and now, of course, serves with great distinction as the ranking minority member.

But I would argue, Mr. Speaker, that this does not in any way mean that because the Appropriations Committee members continue to work together that we should deny the rest of the American people who don't have representatives, like the gentleman from Colorado and I, who serve on the Appropriations Committee the opportunity to participate in this process which was always the case when Mr. YOUNG was chairman, with a very, very brief exception when there was a bipartisan consensus and concern back in

1997, I guess. I don't think he was chairman in 1997 on that one occasion. But I've got to say, I suspect, under his chairmanship, we always had an open amendment process here on the House floor.

And I would yield to my good friend from Indian Shores, the distinguished ranking member of the subcommittee and former chairman of the subcommittee and the full committee, Mr. YOUNG. I would like to engage in a colloquy with him.

Mr. YOUNG of Florida. It's a good bill. And both spokesmen from the Rules Committee are correct. We did testify that this bill was written, created with tremendous bipartisan support, bipartisan cooperation, and it's basically the same bill that we would have presented if I were chairman still to this day.

But the point that Mr. DREIER makes is this: When we were the majority, we brought this bill to the floor under an open rule. We allowed all of the Members, not just the members of the subcommittee, not just the members of the Appropriations Committee, but we allowed all of the Members, as long as the amendment was germane—we did have to meet the germaneness issues, but we allowed Members to offer whatever amendments they felt that they should offer and to have the debate.

So I'm a strong supporter of this bill because it's a good package. It provides for adequate training. It provides for adequate equipment to perform the mission, and it provides force protection information and equipment to protect the soldiers while they're fighting. So it's a good bill.

We think that the rest of the Members should have an opportunity to be involved in the debate. This is a great, great national security issue.

Mr. DREIER. I thank my friend for his very thoughtful contribution and having served as many years—how many years has my friend served in the House?

Mr. YOUNG of Florida. Thirty-nine.

Mr. DREIER. So nearly four decades in this House. And, Mr. Speaker, during those four decades of very distinguished service, Mr. YOUNG has been in the minority and the majority and virtually always had an open amendment process. And he understood very well, as the chairman of the Appropriations Committee, that to deny Members the opportunity to participate in this is just plain wrong.

And with that, I reserve the balance of my time.

Mr. POLIS. Mr. Speaker, I would like to yield 2 minutes to the gentleman from Oregon (Mr. BLUMENAUER).

Mr. BLUMENAUER. I appreciate the gentleman's courtesy in permitting me to speak on the rule.

This is serious business, one of the most important bills that we will be examining.

I wanted to call attention to two items that I had hoped to be able to be debating here on the floor dealing with restoring the environmental restoration funding for the Army, Navy, Air Force and defensewide accounts for fiscal year 2009 levels to increase the much overlooked, formerly-used defense sites by \$49 million.

Environmental restoration, formerly used defense sites, are areas that simply get overlooked. The committee, in its wisdom, accepted levels that were recommended by the administration, but that doesn't make them right. We are in a situation now where we are looking at not just decades, but far into the future to be able to clean up the toxic legacy of unexploded ordnances and military toxics.

I am concerned that we are going to be losing money in the long run. It is my intention to work diligently with the committee in conference to see if we can make the adjustments, if we can work with the administration that they make this a higher priority because every State in the Union is burdened with this toxic legacy of unexploded ordnances and environmentally dangerous items. The military wants to clean it up. We need to give them the resources to do so.

I have been listening to the colloquy here about process with my good friends on both sides of the aisle. I am hopeful that we will be able in the months ahead to be able to roll up our sleeves and work together. There is never really a good time to fix this, but I hope that we will be able to return to a more regular order in the next cycle. I will look forward to working with friends on both sides of the aisle to make sure that this is smooth, everybody has their voice, and that we are working to respect one another.

The SPEAKER pro tempore. The time of the gentleman has expired.

Mr. POLIS. I yield the gentleman an additional 30 seconds.

Mr. BLUMENAUER. I listened to things yesterday that were deeply disturbing on the floor of the House as, ironically, I was in the Chair, and I heard things that I thought were, frankly, over the line. But I understand frustrations build on both sides.

Mr. DREIER. Will the gentleman be happy to yield?

Mr. BLUMENAUER. I would like to finish.

Mr. DREIER. I would like to yield my friend an additional minute, Mr. Speaker.

Mr. BLUMENAUER. With due respect, I would like to finish my thought and then I will yield to you on your time.

Mr. DREIER. I just yielded you a minute.

Mr. BLUMENAUER. What I wanted to say was that I am hopeful that we can sort of take a little air out of the balloon.

One of the first things I did when I came here right after the government shutdown in a special election was to be part of an effort to have—

The SPEAKER pro tempore. The time of the gentleman has again expired.

Mr. DREIER. Mr. Speaker, I would like to yield the gentleman a minute.

Mr. BLUMENAUER. I appreciate the gentleman's courtesy.

It was a part of an effort where we had sort of a bipartisan civility caucus where we had conferences and we worked to try and lower the temperature here. I don't think it's something that's going to happen today or tomorrow, but I want to say that I am hopeful that we can pull out of this nose-dive that we're hearing with some of the heated rhetoric on some of the health care issues.

I heard the gentleman talk about open rules as it relates to appropriations. I think it's part of a great big package. I think we all need to be working together to cooperate on this. And it's something that I care deeply about and look forward, after we get out of here and get back home, to be grounded at home, as we come back in the fall, that there are things that we can work on to make progress.

Mr. DREIER. Mr. Speaker, will the gentleman yield?

Mr. BLUMENAUER. I would be happy to yield.

Mr. DREIER. I thank my friend for yielding.

Let me simply say that what has led us to this point has been, for the first time in the 220-year history of the United States of America, the shutting down of the appropriations process.

The SPEAKER pro tempore. The time of the gentleman has expired.

Mr. DREIER. I would yield to myself 30 seconds.

I will say to my friend, if I could engage in a colloquy with my friend, I will say to him that very, very clearly the argument that he has just propounded about the desire to get back on track with an open—I assume the gentleman meant an open amendment process, which is what we have had for 220 years. I will say it is my hope we will do that. But frankly, today is our last opportunity if we in fact have all 12—as has been the case—all 12 of the appropriations rules closed down as this has been.

Mr. BLUMENAUER. Does the gentleman want a colloquy?

The SPEAKER pro tempore. The time of the gentleman has again expired.

Mr. DREIER. Mr. Speaker, I yield 30 seconds to my friend.

Mr. BLUMENAUER. I understand the gentleman's frustration, but I sat on the other side and listened and had things that our people—

Mr. DREIER. Mr. Speaker, if I could reclaim my time, let me say, Mr.

Speaker, as I reclaim my time and say the following:

My friend, Mr. BLUMENAUER, Mr. Speaker, my friend, Mr. BLUMENAUER, has never sat on the side as a member of the minority having been denied the opportunity that he has just said that he has denied today in the appropriations process because never before has he or any Member of this institution have all of the appropriations rules handled under a closed process such as this.

Mr. Speaker, at this time I am happy to yield 3 minutes to my very, very hardworking colleague from Morristown, New Jersey (Mr. FRELINGHUYSEN) the distinguished ranking member of the Subcommittee on Energy and Water.

Mr. FRELINGHUYSEN. I thank the gentleman.

I rise in opposition to the rule but in support of the underlying Defense appropriations bill.

There is nothing more important than the safety and security of our Nation and our people. This underlying bill will provide our troops—volunteers—the resources and tools they need that will allow them to continue their heroic work to protect us and our interests around the world. Even though I oppose this restrictive rule—and it's a restrictive rule—I will support the bill. But I wish we could have found some way to meet and improve on the President's request for the Department of Defense.

This bill falls \$3.5 billion short of even President Obama's treading water budget. The world did not become a safer place in January. The signs are everywhere. North Korea is threatening conventional and nuclear war. Russia is becoming more belligerent. China is rapidly expanding its naval forces, cybercapabilities, and its space ambitions. Iran is working overtime on missile and nuclear capabilities, and yes, there are disturbing signs occurring in Africa, horrendous acts of violence in the name of religion. And yet we're cutting missile defense, halting the Army's modernization program, known as the Future Combat Systems, and refiguring it, and failing to provide enough money for more Navy ships and fifth-generation Air Force fighters.

This treading water approach to national security is very shortsighted. Mr. Speaker, I support reform of our military acquisition process. I support Secretary Gates' program to reexamine our national security priorities in light of new irregular challenges and the threats that are proliferating well beyond Iraq and Afghanistan.

But I'm worried about our apparent obsession with this war-ism. Yes, we must focus our attention and resources and energy on Iraq and Afghanistan, but I urge my colleagues to make sure that we make enough investments today to ensure that we will be pre-

pared to defend our interests against all threats in the years to come.

Mr. Speaker, our Defense Subcommittee once again has been a model for bipartisan compromise and cooperation in the interest of national security. I want to thank Mr. MURTHA and my ranking member, Mr. YOUNG, who spoke earlier, for their hard work and that of staff.

But I urge defeat of this restrictive rule.

Mr. POLIS. Mr. Speaker, I want to ensure, with regard to the excellent colloquy between my colleague from California and colleague from Oregon, I share the concerns addressed by my colleague from Oregon. And again, that was not a call with regard to this particular rule on this particular bill, but it is a discussion of process, which is a healthy discussion.

I look forward to reading the report that was put together by our colleagues in the Rules Committee. We are all in agreement that we should work to improve the process together. We want a process that we can all stand before the American people and say that this was a good process, a constructive process, one that values expediency, participation, input; and I feel that we can build upon the best practices and precedents of the past to work together with our colleagues on the other side of the aisle to have improved processes in future years.

I would like to yield 2 minutes to the gentleman from Washington, a member of the Committee on Appropriations, Mr. DICKS.

Mr. DICKS. I appreciate the gentleman yielding me time.

I want to congratulate Chairman MURTHA and Mr. YOUNG, who has been our chairmen in the past, for the excellent work they have done in crafting this Defense Appropriations bill.

I have been on this committee for 31 years, and I am Vice Chairman, and I think we have a great staff that works collaboratively on this bill.

□ 1230

In discussing this process issue, I think the one thing that we do want the American people to understand is that in every one of our 12 subcommittees, the ranking member, the Republican, and the Democratic chairman are working together very effectively. They are involved in the entire process. I feel that this is an indication that there is a bipartisan collaboration on these bills.

At the full committee, there is no limit on amendments. The minority was able to offer as many amendments as they wished on each of these twelve bills.

Mr. DREIER. Will the gentleman yield for just one brief second? I am happy to yield additional time.

Mr. DICKS. Yes, if you will yield me an additional minute.

Mr. POLIS. I yield an additional minute to the gentleman from Washington.

Mr. DREIER. I would just like to say to my friend I think he makes a great point, Mr. Speaker, about the working together of subcommittee chairmen and ranking members.

We have been regularly arguing, and I know my friend understands very well in his distinguished leadership position that on the floor when we have an open amendment process, the subcommittee chairman and the ranking member, not anyone in the leadership, worked this out on the floor, just as they have in committee. And it was my hope that we were going to be able to do that through this appropriations process.

I thank my friend for yielding.

Mr. DICKS. We got through these 12 bills, and what I am saying here today is the American people want us to get our work done.

Now, when you are faced with the reality of the minority offering 600 amendments—600 amendments—that would take us days to go through 600 amendments, we have got other issues that have to be dealt with.

I am not going to yield at this point until I finish.

The first year that I was chairman of the Interior and Environment Appropriations Subcommittee, we went back and looked at it. The year before, when we were in the minority, it took about 8 hours to finish the bill, to go through the entire bill. The first year we were in the majority, it was 22 hours, and there was no limit to the amount of amendments that could be offered.

So I think we had to do this. This was the responsible thing to do, was to limit the number of amendments, let the people like Mr. FLAKE, Mr. CAMPBELL, who want to pick out some of the earmarks that they are against, let them have their moment to address those issues and deal with any other major substantive matters. But in order to get our work done, we could not let this thing be open-ended when one side just wants to abuse the process, unfortunately.

Now, if we could have gotten an agreement, and I am told our leadership went over and met with Mr. BOEHNER, Mr. HOYER, Mr. OBEY and Mr. LEWIS and tried to work out something. The way you would work this out—and the gentleman from California and I are good friends and we worked together on many important trade issues over the years and I have great respect for him—well, the way to work this thing out is for the two sides to get together before we go to the floor and limit the number of amendments, limit the number of amendments, and then have a unanimous consent agreement, if both sides can control their Members.

Mr. DREIER. If the gentleman will yield on that point?

Mr. DICKS. I will yield on that point.

The SPEAKER pro tempore. The time of the gentleman has expired.

Mr. POLIS. I yield one additional minute to the gentleman.

Mr. DREIER. If the gentleman would further yield, let me just say that I disagree, with all due respect to my friend, about this notion of doing it before the process has even begun. Let me go back to where we were.

Mr. DICKS. But there is a lack of trust here, because if we can't get an agreement which the leadership on both sides embrace, then there is no reason, not to restrict the number of amendments, because there is an element within the gentleman's party that wants to offer unlimited amendments.

Mr. DREIER. As happened in 1997, we can go upstairs in the Rules Committee if we have recalcitrant Members on either side of the aisle and we can shut down the process, and there would not be the kind of resistance, if we had at least tried the open amendment process.

I thank my friend for yielding.

Mr. DICKS. Again, all I am saying is we got our work done. All 12 of these bills will have been enacted before the August recess. This hasn't happened in years. I wish that we could have had an open process, but when the minority is talking about 600 amendments, on the defense bill there is no choice but to limit the number of amendments. We had to limit it in order to get our work done.

Mr. DREIER. Mr. Speaker, I would like to inquire of my Rules Committee colleague if he has any further speakers.

Mr. POLIS. Not at this point, no.

Mr. DREIER. Is the gentleman then prepared to close if I were to close?

Mr. POLIS. Yes.

The SPEAKER pro tempore. The gentleman from California has 5 minutes remaining.

Mr. DREIER. Mr. Speaker, I yield myself the balance of the time.

Let me just say that it is very sad that we are at this point now, the completion of the appropriations process. My friend just referred to the term as we talked about best practices and working together, "precedents." Well, the sad thing, with the 12th appropriation bill, if we pass this rule, we have set the precedent for the entire appropriations process. All 12 appropriations bills have been considered under restrictive rule, if we in fact proceed with this.

In fact, I have just been given an amendment to this rule, Mr. Speaker, that will even shut the process down even further, denying Members an opportunity to divide the question on the very few amendments that have been made in order.

So, this notion that we somehow have this outside time limit, and my

very good friend from Seattle, Mr. DICKS, with whom I have been privileged to work on a wide range of issues in the past, talked about the fact that all these amendments have been filed, in 1995 when my colleagues on the other side went into the minority, there was an additional 26 hours, 26 additional hours spent on the debate on the appropriations bills than was the case when my party went into the minority in 2007.

So this notion that somehow all of these amendments would be offered is just plain wrong. Why? Because if you are going to close down the process or have a modified open rule, the notion of having every amendment possible considered is the only option that we have.

Mr. Speaker, I am standing here in the name of my Oregon colleague, Mr. BLUMENAUER. He had two amendments that he sought to have made in order. If we had had an open amendment process, my colleague, Mr. BLUMENAUER, with whom I was able to engage in this colloquy a little, would have had his amendments made in order.

He talked about the tension being high. Well, the tension is high, Mr. Speaker, and it is not just around the issue of health care. It is around the fact that 220 years ago this very summer, James Madison, a member of the House Rules Committee, moved at the encouragement of his constituents the Bill of Rights with 10 days of debate through the House of Representatives. And through the 220-year history of the United States of America, Democrats and Republicans alike, representing what now is about 650,000 to 700,000 Americans, have had the right to stand up on the House floor and offer germane amendments to appropriations bill.

I use the term "sacrosanct" to describe the appropriations process on the House floor. I never believed, and I have not been here as long as the 39 years of my good friend, Mr. YOUNG, but I never believed, Mr. Speaker, that I would see us get to the point where Republicans and Democrats alike would be shut out of the process, which is exactly what has happened here.

In "A New Direction for America" that was penned by Ms. PELOSI when they were seeking the majority, they had a very, very interesting line. It said: "Democrats believe that America needs and Americans deserve a new direction that provides opportunity for all."

"Opportunity for all" is what they said was going to be the hallmark. Apparently it is opportunity for all, except for rank-and-file Members of the United States House of Representatives, because the elected Representatives of both parties are being denied an opportunity to put forward their great ideas.

And since we have crossed this \$1 trillion spending mark for the deficit

in the first 6 months, and it is projected to go to \$1.8 trillion by the end of this year, it is obvious that this process has been used to cherry-pick amendments and deny Democrats and Republicans who would like to engage in fiscally responsible policies from being able to do that.

So, Mr. Speaker, I am going to move to defeat the previous question; and if the previous question is defeated, I will offer an amendment to the rule providing for the traditional open rule for appropriations bills, again giving us this one last opportunity to do that, and we will have the opportunity to return to our traditions, to honor the vision of the Framers of our Constitution.

Mr. Speaker, I ask unanimous consent that the text of the amendment, along with the explanatory material, be placed in the RECORD immediately prior to the vote on the previous question.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from California?

There was no objection.

Mr. DREIER. Mr. Speaker, I urge my colleagues to vote "no" on the previous question, and if by chance the previous question does prevail, to oppose this rule so we can get back to the Madisonian vision of representative democracy.

Mr. Speaker, I yield back the balance of my time.

The SPEAKER pro tempore. The gentleman from California's time has expired.

The gentleman from Colorado has 13½ minutes remaining.

Mr. POLIS. Mr. Speaker, I would like to thank Chairman MURTHA and Ranking Member YOUNG for their and their staff's hard work on bringing this bill to the floor, as well as for offering an amendment to strike the funding for continued procurement of F-22 aircraft.

I particularly would like to thank President Obama and Secretary Gates for their leadership on this important issue, for targeting the elimination of unnecessary weapons systems and aircraft. It is not in the American people's best interests to pay Lockheed Martin \$369 million of taxpayer money to add dozens of aircraft when we already have a fully functioning fleet of 187 F-22s currently operated by the Armed Forces.

This victory is an important first step in eliminating cold war-era weapons systems and questioning the relevance of aircraft and security systems that are an inadequate defense against the 21st-century national security threats we face and an important step in moving towards balancing the budget and fiscal responsibility.

I also strongly support provisions in the legislation that prohibit the establishment of permanent bases in Iraq

and Afghanistan, require the Secretary of Defense to provide goals and a timeline for withdrawing our troops from Iraq, and restate the United States commitment to prohibiting torture of detainees currently held in U.S. custody.

This is just the beginning of President Obama's efforts to bring our troops home safely, and I look forward to the time when stop-loss and troop surges are a thing of the past.

Although I strongly support withdrawing our troops from both Iraq and Afghanistan as soon as possible, until we do so I believe it is crucial to provide support to our servicemen and servicewomen in harm's way and those returning home to their families.

This legislation also provides \$29.9 billion to guarantee that our troops have the best medical care made available to them. Included in the Defense appropriation is over \$2 billion for funding of medical research and developing treatment for diseases, including breast cancer research, prostate cancer, ovarian cancer and spinal cord injuries, research for applications that have much wider applications outside of defense.

The Defense appropriation also funds important technology research, providing funding for research that keeps the United States on the cusp of innovation for important civilian applications. Funding for this legislation will advance lithium ion battery technology, energy storage that is a linchpin of making renewable energy like wind and solar viable and cost-effective.

Installing photovoltaic panels on military installations saves our military money and ensures that no matter where in the world our troops stand in harm's way, they can quickly access the infrastructure of the modern world. This technology also has the effect of reducing costs for Americans to use these technologies in their homes by driving scale.

This legislation also funds a robust, small business innovation program. Small businesses receive capital to develop technologies to keep our country safe, while providing high-wage employment and bolstering local economies.

These innovations also have direct civilian applications. Many of the technologies we enjoy in our daily lives, like global positioning systems to microwave ovens, we often take for granted; but they have been developed and researched as part of a DOD effort.

Mr. Speaker, this bill provides critical funding for our national defense, as well as funding for civilian activities. Among these activities are those in support of small business and workforce development.

In Colorado, many small businesses rely on the SBIR program of the Department of Defense, such as TechX,

which provides critical software innovations to the Department of Defense while providing high-paying jobs to my constituents.

This bill also provides funds for programs such as the Center for Space Entrepreneurship, a program that is a collaboration between the educational institutions, the Colorado Office of Economic Development, and the leadership efforts of our Lieutenant Governor, Barbara O'Brien. This program incubates aerospace industry's small businesses. It also helps individuals transition into careers in this industry.

Among their most important work is the outreach they do in schools to ensure that the next generation has an interest in and the skills to ensure that our Nation remains a world leader in space industry.

The satellites and spacecraft developed and manufactured by Colorado's thriving aerospace industry are not only of tremendous economic benefit to our State, which is one of several reasons we have an unemployment rate below the national average; but also this equipment keeps our Nation safe, and many of the satellites provide civilian applications, such as the DISH television, GPS service for our cars, and reception for our cellular phones.

While H.R. 3326 provides top-of-the-line equipment and technologies for our troops, these dollars would be hollow without the bravery, dedication, and skill of the men and women who serve us every day in our Armed Forces.

□ 1245

Their service wouldn't be possible if it weren't for the support, dedication and sacrifice of military families that receive support from this bill.

Mr. Speaker, in a moment I will be offering an amendment to the rule. I want to briefly explain the amendment. This amendment will add to the rule a technical provision that's included as boilerplate language in virtually all of our rules for both appropriating and authorizing legislation but was inadvertently dropped from this rule. This language simply protects amendments from a division of the question.

I urge all Members to vote "yes" on the amendment, the rule and the previous question.

AMENDMENT OFFERED BY MR. POLIS

Mr. POLIS. Mr. Speaker, I have an amendment to the rule at the desk.

The SPEAKER pro tempore. The Clerk will report the amendment.

The Clerk read as follows:

Amendment offered by Mr. POLIS:

At the end of the resolution, add the following:

"SEC. 5. The amendments specified in the first section of this resolution shall not be subject to a demand for division of the question in the House or in the Committee of the Whole."

The material previously referred to by Mr. DREIER is as follows:

AMENDMENT TO H. RES. 685

OFFERED BY MR. DREIER OF CALIFORNIA

Strike the resolved clause and all that follows and insert the following:

Resolved, That immediately upon the adoption of this resolution the Speaker shall, pursuant to clause 2(b) of rule XVIII, declare the House resolved into the Committee of the Whole House on the state of the Union for consideration of the bill (H.R. 3326) making appropriations for the Department of Defense for the fiscal year ending September 30, 2010, and for other purposes. The first reading of the bill shall be dispensed with. All points of order against consideration of the bill are waived except those arising under clause 9 or 10 of rule XXI. General debate shall be confined to the bill and shall not exceed one hour equally divided and controlled by the chairman and ranking minority member of the Committee on Appropriations. After general debate the bill shall be considered for amendment under the five-minute rule. Points of order against provisions in the bill for failure to comply with clause 2 of rule XXI are waived. During consideration of the bill for amendment, the Chairman of the Committee of the Whole may accord priority in recognition on the basis of whether the Member offering an amendment has caused it to be printed in the portion of the Congressional Record designated for that purpose in clause 8 of rule XVIII. Amendments so printed shall be considered as read. When the committee rises and reports the bill back to the House with a recommendation that the bill do pass, the previous question shall be considered as ordered on the bill and amendments thereto to final passage without intervening motion except one motion to recommit with or without instructions.

(The information contained herein was provided by Democratic Minority on multiple occasions throughout the 109th Congress.)

THE VOTE ON THE PREVIOUS QUESTION: WHAT IT REALLY MEANS

This vote, the vote on whether to order the previous question on a special rule, is not merely a procedural vote. A vote against ordering the previous question is a vote against the Democratic majority agenda and a vote to allow the opposition, at least for the moment, to offer an alternative plan. It is a vote about what the House should be debating.

Mr. Clarence Cannon's Precedents of the House of Representatives, (VI, 308-311) describes the vote on the previous question on the rule as "a motion to direct or control the consideration of the subject before the House being made by the Member in charge." To defeat the previous question is to give the opposition a chance to decide the subject before the House. Cannon cites the Speaker's ruling of January 13, 1920, to the effect that "the refusal of the House to sustain the demand for the previous question passes the control of the resolution to the opposition" in order to offer an amendment. On March 15, 1909, a member of the majority party offered a rule resolution. The House defeated the previous question and a member of the opposition rose to a parliamentary inquiry, asking who was entitled to recognition. Speaker Joseph G. Cannon (R-Illinois) said: "The previous question having been refused, the gentleman from New York, Mr. Fitzgerald, who had asked the gentleman to yield to him for an amendment, is entitled to the first recognition."

Because the vote today may look bad for the Democratic majority they will say "the

vote on the previous question is simply a vote on whether to proceed to an immediate vote on adopting the resolution . . . [and] has no substantive legislative or policy implications whatsoever." But that is not what they have always said. Listen to the definition of the previous question used in the Floor Procedures Manual published by the Rules Committee in the 109th Congress, (page 56). Here's how the Rules Committee described the rule using information from Congressional Quarterly's "American Congressional Dictionary": "If the previous question is defeated, control of debate shifts to the leading opposition member (usually the minority Floor Manager) who then manages an hour of debate and may offer a germane amendment to the pending business."

Deschler's Procedure in the U.S. House of Representatives, the subchapter titled "Amending Special Rules" states: "a refusal to order the previous question on such a rule [a special rule reported from the Committee on Rules] opens the resolution to amendment and further debate." (Chapter 21, section 21.2). Section 21.3 continues: "Upon rejection of the motion for the previous question on a resolution reported from the Committee on Rules, control shifts to the Member leading the opposition to the previous question, who may offer a proper amendment or motion and who controls the time for debate thereon."

Clearly, the vote on the previous question on a rule does have substantive policy implications. It is one of the only available tools for those who oppose the Democratic majority's agenda and allows those with alternative views the opportunity to offer an alternative plan.

Mr. POLIS. Mr. Speaker, I yield back the balance of my time, and I move the previous question on the amendment and on the resolution.

The SPEAKER pro tempore. The question is on ordering the previous question.

The question was taken; and the Speaker pro tempore announced that the ayes appeared to have it.

Mr. DREIER. Mr. Speaker, on that I demand the yeas and nays.

The yeas and nays were ordered.

The SPEAKER pro tempore. Pursuant to clause 9 of rule XX, the Chair will reduce to 5 minutes the minimum time for electronic voting, if ordered, on the amendment and on the resolution and, under clause 8 of rule XX, on suspending the rules and passing S. 1513.

The vote was taken by electronic device, and there were—yeas 245, nays 176, not voting 12, as follows:

ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore (during the vote). There are 2 minutes remaining in the vote.

□ 1318

Mr. BOEHNER changed his vote from “yea” to “nay.”

So the resolution was agreed to.

The result of the vote was announced as above recorded.

A motion to reconsider was laid on the table.

RAISING A QUESTION OF THE PRIVILEGES OF THE HOUSE

Mr. BOEHNER. Mr. Speaker, I have a privileged resolution at the desk.

The SPEAKER pro tempore. The Clerk will report the resolution.

The Clerk read as follows:

H. RES. 690

Whereas page 5 of the “Regulations on the Use of the CONGRESSIONAL FRANK By Members of the House of Representatives” states, “It is the policy of the Congress that the privilege of sending mail as franked mail shall be established under this section in order to assist and expedite the conduct of the official business, activities and duties of the Congress of the United States. It is the intent of the Congress that such official business, activities and duties cover all matters which directly or indirectly pertain to the legislative process or to any congressional representative functions generally, or to the functioning, working, or operating of

the Congress and the performance of official duties in connection therewith, and shall include, but not be limited to, the conveying of information to the public, the requesting of the views of the public, or the views and information of other authority of government, as a guide or a means of assistance in the performance of those functions.”;

Whereas clause 5 of rule XXIV of the Rules of the House of Representatives provides, “Before making a mass mailing, a Member, Delegate, or Resident Commissioner shall submit a sample or description of the mail matter involved to the House Commission on Congressional Mailing Standards for an advisory opinion as to whether the proposed mailing is in compliance with applicable provisions of law, rule, or regulation.”;

Whereas the House Commission on Congressional Mailing Standards, authorized in Public Law 91-191, is commonly referred to as the “Franking Commission”;

Whereas the Democratic staff director and Republican staff director of the Franking Commission have served in their respective positions for more than a decade and report to the Democratic and Republican members of the Franking Commission, respectively;

Whereas during the 111th Congress the members of the Franking Commission are Representatives Susan Davis (D-CA), chairwoman; Rep. Dan Lungren (R-CA), ranking Republican member; Rep. Donna Edwards (D-MD), Rep. Kevin McCarthy (R-CA), Rep. Brad Sherman (D-CA) and Rep. Tom Price (R-GA);

Whereas the aforementioned Franking Commission advisory opinions required for Members seeking approval to send mass mailings, or their electronic equivalents, are routinely signed on behalf of the Commission by its Democratic and Republican staff directors or their designees;

Whereas no Member may receive Franking Commission approval without signatures from both majority and minority staff;

Whereas the Commission’s Democratic staff director has been permitted by the Commission’s Democratic Members to abuse her position during the current Congress by willfully and knowingly applying different standards to material submitted for Franking Commission approval by Republican Members than she applies to material submitted by Democratic Members;

Whereas on July 27, 2009 the Commission’s Democratic staff director refused to approve a mailing proposed by Representative Joe Barton of Texas which included the words “Democrat majority”, but indicated she would approve the mailing if Representative Barton instead substituted the words “congressional majority”, yet on August 3, 2006 the same Democratic staff director signed a Franking Commission approval document for a mailing issued by then-Minority Leader Nancy Pelosi that included the following sentence, “But too many here and across our nation are paying the price for the Republican Congressional majority’s special interest agenda . . .”

Whereas the Democratic staff director has refused to grant permission to Republican Members wishing to provide their constituents with copies of a chart intended to illustrate in graphic form many of the provisions of the Democrats’ proposed health care legislation;

Whereas charts similar in form and general purpose have for many years been approved routinely by the Commission’s Democratic staff director in mailings produced by Members on both sides of the aisle;

Whereas on December 12, 1993, the Franking Commission granted approval to Rep.

David Levy of New York to disseminate a similar chart, intended to illustrate graphically the provisions of comprehensive health care legislation proposed by the Clinton Administration;

Whereas the Commission’s Democratic staff director has refused to approve requests by Republican Members to informally characterize certain features of the Democrats’ pending health care proposal as “government run health care” but has approved requests by Democratic Members to informally characterize the same aspects of the bill as “the public option”;

Whereas the Commission’s Democratic staff director has refused to approve more than twenty requests by Republican Members to use the phrase “cap and tax” to describe a Democratic proposal to reduce carbon emissions by imposing new fees, taxes and higher costs on American consumers and businesses;

Whereas a search for the term “cap and tax” on the Google internet search engine yielded at least 4,478,000 appearances of this commonly used phrase;

Whereas an article in the April 27, 2009 edition of “Politico” newspaper quoted the most senior Member of the House, Democratic Representative John Dingell of Michigan, the former chairman of the House Committee on Energy and Commerce, as saying, “Nobody in this country realizes that cap and trade is a tax, and it’s a great big one.”;

Whereas the Commission’s Democratic staff director has dismissed the proposed descriptive term, “cap and tax” as an informal and inappropriate characterization of the legislation, while at the same time granting approval to Democratic Members seeking to use the phrase “cap and trade” to informally and inappropriately characterize the same bill;

Whereas the Commission’s Democratic staff director has refused to approve material submitted by Republican Members seeking to convey to the public those Members’ concern about substantial job losses expected to result if the Democrats’ proposed national energy tax is enacted, while at the same time approving mailings submitted by Democratic Members informing the public about large numbers of new jobs the Democrats claim will be created by the same legislation;

Whereas the Democratic staff director’s actions have prompted a steady stream of media reports describing a climate of partisan censorship imposed on the House by the Democratic majority;

Whereas an article in the July 23, 2009 edition of Roll Call newspaper stated, “A dispute over the right of House Republicans to use the chamber’s official franking service to send a mailer critical of Democratic health care plans has escalated beyond the Franking Commission to ‘high levels on the Democratic side,’ Franking Commission member Rep. Dan Lungren (R-CA) said at a Thursday press conference. Asked whether he believed the matter had been referred to Rep. Pelosis (D-CA) office, Lungren, the ranking member of the House Administration Committee, said, ‘All I’ve been told is that its above the Franking Commission and that it appears to be above our committee, so I don’t know where you go after that.’”;

Whereas by permitting the Commission’s Democratic staff director to carry out her duties in a partisan and unfair manner, the Democratic Members of the Franking Commission have brought discredit on the House; and,

Whereas clause 1 of rule XXIII of the Rules of the House of Representatives, also known

as the Code of Official Conduct, provides “A Member, Delegate, Resident Commissioner, officer, or employee of the House shall behave at all times in a manner that shall reflect creditably on the House”: Now, therefore, be it

Resolved, That the House views with disapproval the failure of the Democratic Members of the Franking Commission to ensure that the Commission’s Democratic staff carries out its important responsibilities in a professional, fair, and impartial manner.

The SPEAKER pro tempore. The resolution presents a question of privilege.

MOTION TO TABLE

Mr. HOYER. Mr. Speaker, I move that the resolution be laid on the table.

The SPEAKER pro tempore. The question is on the motion to table.

The question was taken; and the Speaker pro tempore announced that the ayes appeared to have it.

Mr. BOEHNER. Mr. Speaker, on that I demand the yeas and nays.

The yeas and nays were ordered.

The SPEAKER pro tempore. Pursuant to clause 8 of rule XX, this 15-minute vote on the motion to table will be followed by a 5-minute vote on the motion to suspend the rules on S. 1513.

The vote was taken by electronic device, and there were—yeas 244, nays 173, answered “present” 11, not voting 5, as follows:

[Roll No. 656]

□ 1347

Mr. KUCINICH changed his vote from "yea" to "nay."

Mr. BRIGHT changed his vote from "nay" to "yea."

Mr. CHANDLER, Ms. CASTOR of Florida and Mr. WELCH changed their vote from "yea" to "present."

Mr. HARPER changed his vote from "nay" to "present."

Mr. LATHAM changed his vote from "present" to "nay."

So the motion to table was agreed to. The result of the vote was announced as above recorded.

A motion to reconsider was laid on the table.

SMALL BUSINESS ADMINISTRATION EXTENSION

The SPEAKER pro tempore. The unfinished business is the question on suspending the rules and passing the bill, S. 1513.

The Clerk read the title of the bill.

The SPEAKER pro tempore. The question is on the motion offered by the gentlewoman from New York (Ms. VELÁZQUEZ) that the House suspend the rules and pass the bill, S. 1513.

The question was taken; and (two-thirds being in the affirmative) the rules were suspended and the bill was passed.

A motion to reconsider was laid on the table.

ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore. Pursuant to clause 8 of rule XX, the Chair will postpone further proceedings today on motions to suspend the rules on which a recorded vote or the yeas and nays are ordered, or on which the vote incurs objection under clause 6 of rule XX.

Record votes on postponed questions will be taken later.

CONGRATULATING CONTINENTAL AIRLINES ON ITS 75TH ANNIVERSARY

Mr. GENE GREEN of Texas. Mr. Speaker, I move to suspend the rules and agree to the resolution (H. Res. 631) congratulating Continental Airlines on its 75th Anniversary.

The Clerk read the title of the resolution.

The text of the resolution is as follows:

H. RES. 631

Whereas Continental Airlines was founded 75 years ago by Walter T. Varney and his partner Louis Mueller as Varney Speed Lines in West Texas primarily as a mail service;

Whereas, on July 15, 1934, Continental's first flight was flown by its precursor Varney Speed Lines on a 530-mile route from Pueblo, Colorado to El Paso, Texas with stops in Las Vegas, Santa Fe and Albuquerque, New Mexico;

Whereas during World War II, Continental Airlines built the Denver Modification Center where it modified B-17 Flying Fortresses and B-29 Super Fortresses for the United States war effort;

Whereas during the Vietnam War, Continental transported United States troops across the Pacific and as a result of this experience, in 1968 Continental formed Air Micronesia—the first step towards global airlines;

Whereas in 1999, Continental named the first woman in the Nation to head a major commercial airline pilot group;

Whereas, on October 11, 2000, Continental Airlines and Northwest Airlines launched the world's largest interline eTicket network;

Whereas in 2001, Continental Airlines was again named "Airline of the Year" by the aviation industry's monthly trade publication, Air Transport World. As recipient of the same honor in 1996, Continental became the first airline to receive the coveted "Airline of the Year" distinction twice in five years;

Whereas following the terrorist attacks on September 11, 2001, Continental offered special compassion fares to and from the New York area to assist family members of the 9/11 victims, relief organizations and volunteers;

Whereas, on April 26, 2002, Continental was recognized for offering the best Elite Level Program, OnePass, of any United States airline, according to Inside Flyer's 14th Annual Freddie Awards Competition;

Whereas, on September 29, 2003, Continental became the first airline to offer three of the most popular business applications, two-way e-mail, instant messaging and text messaging, on its fleet of 737, 757, and MD 80 aircraft;

Whereas, on February 7, 2005, Continental was named for the eighth consecutive year to HISPANIC Magazine's "Hispanic Corporate 100: One Hundred Companies Providing the Most Opportunities for Hispanics";

Whereas, on April 28, 2005, Continental received honors for companywide excellence in Aviation Maintenance Training from the Federal Aviation Administration. Continental earned the FAA Diamond Certificate of Excellence for Aviation Maintenance Training, the highest award offered as part of the organization's Aviation Maintenance Technician Award Program;

Whereas, on June 29, 2006, Continental ranked the highest in Customer Satisfaction among Traditional Network Carriers in North America in the J.D. Power and Associates 2006 Airline Satisfaction Index Study marking Continental's sixth customer satisfaction award by J.D. Power and Associates since 1996;

Whereas for the 10th consecutive year, Continental outranked all of its United States competitors in international business class and domestic first class service, according to the results of a survey of Conde Nast Traveler readers published in the magazine's October 2007 edition;

Whereas in 2007, Continental Airlines teamed with the Transportation Security Administration to be the first United States carrier to launch a paperless boarding pass pilot program that allows passengers to receive boarding passes electronically on their cell phones or PDAs;

Whereas in April 2008, Continental Airlines received an award from the United States Environmental Protection Agency's Design for the Environment Program in recognition of the airline's use of an environmentally friendly, nonchromium surface pretreatment for its aircraft. Continental was the first commercial air carrier to use this technology on its aircraft;

Whereas for the fifth consecutive year, Continental was named the "Best Airline in North America" at the 2008 OAG Airline of the Year Awards;

Whereas for the sixth consecutive year, Continental was rated the top airline on FORTUNE magazine's annual airline industry list of World's Most Admired Companies in March 2009; and

Whereas Continental Airlines currently serves five continents with more than 2750 daily flights and more than 260 destinations today, employing more than 43,000 men and women: Now, therefore, be it

Resolved, That the House of Representatives—

(1) recognizes the 75th anniversary of operations by Continental Airlines; and

(2) congratulates the employees of Continental Airlines for the numerous awards and accolades they have earned for the company over the years.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from Texas (Mr. GENE GREEN) and the gentleman from Texas (Mr. BARTON) each will control 20 minutes.

The Chair recognizes the gentleman from Texas (Mr. GENE GREEN).

GENERAL LEAVE

Mr. GENE GREEN of Texas. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days to revise and extend their remarks.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Texas?

There was no objection.

Mr. GENE GREEN of Texas. I yield myself as much time as I may consume.

Mr. Speaker, I rise today in strong support of House Resolution 631, which congratulates Continental Airlines for their 75th anniversary.

Once known as the "proud bird with the golden tail," Continental Airlines was founded 75 years ago this July by Walter T. Varney and his partner, Louis Mueller, as Varney Speed Lines in West Texas. While Varney Speed Lines was primarily a mail service, their first flight on July 15, 1934, was a 530-mile route from Pueblo, Colorado, to El Paso, Texas, with stops in Las Vegas, Santa Fe and Albuquerque, New Mexico.

In 1937, the company's name changed to Continental Airlines, and they moved their headquarters to Denver, Colorado, where, just a few years later, during World War II, they built the

Denver Modification Center where they modified B-17 Flying Fortresses and B-29 Super Fortresses for the U.S. war effort. Continental also assisted our military during the Vietnam War by transporting American troops across the Pacific Ocean.

The company's dedication to our country was again illustrated when, following the terrorist attacks on September 11, Continental offered special compassion fares to and from the New York area to assist family members of the 9/11 victims, relief organizations and volunteers.

Throughout all of this, Continental Airlines experienced tremendous success, and it has emerged from extreme difficulties during its 75-year history to become the fifth-largest carrier in the United States and the 11th-largest in the world. With more than 43,000 employees, Continental has hubs in New York, Houston, Cleveland, and Guam. Together with its regional partners, it carries approximately 67 million passengers each year.

Flying the newest, most fuel-efficient jet fleet of all the major U.S. network carriers, Continental Airlines received an award in April 2008 from the U.S. Environmental Protection Agency's Design For the Environment program in recognition of the airline's pioneering and environmentally friendly aircraft equipment. But this is just one of several accolades that has been bestowed upon Continental during its 75 years.

Other awards include being rated the top airline for 6 consecutive years in Fortune magazine's annual airline industry list of the World's Most Admired Companies, outranking for 10 consecutive years all of the U.S. competitors in international business class and domestic first-class service, according to the results of a survey of Conde Nast Traveler readers. And for six times since 1996, it has ranked the highest in customer satisfaction among the traditional network carriers in North America, according to J.D. Power and Associates. These are just a few of the awards out of several.

The resolution recognizes the 75th anniversary of Continental Airlines, and it congratulates its employees for the numerous awards and accolades they've earned over the years. I am honored to represent many Continental employees in Houston, their home office, and I strongly encourage my colleagues to support this legislation.

Mr. Speaker, I reserve the balance of my time.

Mr. BARTON of Texas. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I rise in support of H.R. 631, which congratulates Continental Airlines on its 75th anniversary.

I want to commend Congressman GREEN for introducing the resolution. I am proud to be a Republican supporter

of that. As one of three Texas-based airlines, with Continental in Houston, Texas, with Southwest in Dallas, Texas, and with American Airlines in Fort Worth, Texas, we're very proud of the airline industry in our State. We're very proud that Continental is celebrating its 75th anniversary. It is the embodiment of the American Dream.

As Congressman GREEN pointed out, it was established back in 1934 in West Texas, in El Paso. Over the last 75 years, it has evolved into one of the largest commercial airlines in the world. It serves 260 destinations with more than 2,700 flights on 5 continents. It has been named the best airline in North America. They employ over 43,000 men and women, some of whom work and live in my congressional district. I would like to recognize them for their accomplishment. I look forward to Continental's celebrating their 100th, their 125th and maybe even their 150th anniversary in the years ahead.

Again, I want to thank Mr. GREEN for bringing this resolution forward, and I would ask all of the Republicans on this side of the aisle to join me in supporting the resolution.

I reserve the balance of my time.

Mr. GENE GREEN of Texas. Mr. Speaker, I reserve the balance of my time.

Mr. BARTON of Texas. Mr. Speaker, I would yield 2 minutes to the gentleman from Houston, Texas (Mr. CULBERSON).

Mr. CULBERSON. Mr. Speaker, I want to thank my friend Mr. BARTON and also Mr. GREEN from Houston. We, all of us, in Texas take great pride in representing Continental Airlines. It's an extraordinary group of people, dynamic individuals who have created one of the best airlines in the Nation.

Even though they have been through bankruptcy twice, Mr. Speaker, they have shown what is one of the greatest attributes of what it means to be an American, which is how you conduct yourself when you pick yourself up, get back on your feet and get back to work. The people at Continental have emerged from bankruptcy as one of, again, the best airlines in the Nation. Their consumer satisfaction rating has always been among the very best in the Nation as well as their on-time status. They have, I think, set a gold standard for the Nation.

It's a source of great pride for me to represent the headquarters of Continental, and all of those fine people deserve the thanks of the Nation. Air travel is such an essential part of our Nation's economic vitality, and Continental Airlines has, time and again, shown that they are among the world's best airlines. Again, as I say, they have set the gold standard for the United States.

So I join with my colleagues. This is another example of how the whole Texas delegation works together, arm

in arm. What's good for Texas, of course we understand, is good for America. We are immensely proud to be here to congratulate Continental because they represent all that's great about Texas, which means they represent all that's great about America.

Mr. GENE GREEN of Texas. Mr. Speaker, I continue to reserve the balance of my time.

Mr. BARTON of Texas. May I inquire as to how much time I have remaining, Mr. Speaker? How much time do I have left?

The SPEAKER pro tempore. The gentleman has 17 minutes remaining.

Mr. BARTON of Texas. Whoa, a lot of time. Okay.

I want to yield 3 minutes to the gentleman from The Woodlands, Texas (Mr. BRADY).

□ 1400

Mr. BRADY of Texas. I thank Ranking Member BARTON.

Mr. Speaker, I rise today in support of House Resolution 631, which I sponsored with my good friend Congressman GENE GREEN of Texas, to congratulate Continental Airlines and its exceptional employees on the company's 75th anniversary this year.

Continental got started in 1934 in El Paso, Texas, going on to aid in the war efforts by working to expand its services domestically. Now headquartered in Houston, Texas, with hubs in Cleveland, Ohio, and Newark, New Jersey, Continental has grown to become the fifth largest carrier in the world, and in my mind, the best.

This followed one of the most successful business turnarounds in history after it restructured in the 1990s. Continental's impressive climb is a tribute to the outstanding leadership, dedicated employees, and excellent service to travelers.

Today, Continental remains a major employer in the Houston area and a valued airline. I hear often from satisfied travelers about the quality of the company's service and commonsense approach to operation. As a Million Mile traveler, I can personally attest to the quality and professionalism of the crew and staff of Continental Airlines, and I may add, a number of my neighbors are proud employees—pilots, attendants, managers—within the Continental system.

I ask my colleagues to join me today in congratulating Continental for its remarkable achievement and contributions to America.

Mr. BARTON of Texas. I yield 3 minutes to another gentleman from Houston, Texas (Mr. POE).

Mr. POE of Texas. Mr. Speaker, I, too, rise in support of this resolution. Along with my friends who have already spoken, we fly Continental every week. Sometimes there are up to 10 Members of Congress on the same flight either going back to Texas or

coming from Houston to Reagan National. And I represent probably most of the Continental employees in the Houston area, since my district circles the airport; although, it doesn't include the airport. Something about re-districting, I believe, Mr. GREEN.

But be that as it may, great people, great airline. As my friend, Mr. BRADY, has mentioned, the employees are top-notch, from the flight attendants to the pilots, in the way they treat not only people who fly but the way they treat other people. And I commend Continental Airlines for their success over the years. It is the best airline.

Many years ago, they merged with a little bitty airline called Trans-Texas Airways, and I was one of those that wanted them to adopt the name Trans-Texas Airways after Continental merged with Trans-Texas. But they eliminated the "Trans-Texas" phrase and adopted the phrase "Continental," which has served them much better because it is an intercontinental flying community and do a super job.

And I, too, commend the good work they've done and the tenacious employees that work, not only in the planes but on the ground, the mechanics, and the ramp crews. And so I congratulate them, and I appreciate my friend from Texas offering this resolution.

Mr. GENE GREEN of Texas. Mr. Speaker, I will continue to reserve.

Mr. BARTON of Texas. Mr. Speaker, let me simply say that I fly American more than I fly Continental, but I wish I could—having heard the glowing accolades, I do fly Continental some, and I wish they would serve the D/FW area more so I could fly them. I'm very proud of my American Airlines employees and my Southwest employees, but I'm also proud of the Continental employees that we have, and we do sincerely commend Continental and their workers and management for being the great airline that it is, and we wish them 75 years of future success in addition to congratulating them on 75 years of their past success.

With that, I yield back the balance of our time.

Mr. GENE GREEN of Texas. Mr. Speaker, I will be brief, and I want to thank my colleagues on the Republican side for coming to speak for the resolution.

Continental is like all of our airlines. It has problems, but they survived and they're going to grow, and we want to make sure they continue to do it, and that's why we recognize 75 years of success. And like my colleague said, the ranking member of Energy and Commerce, another 75 would be 150. It will be someone else here recognizing them for 150 years. I want to thank the employees of Continental for making it a great airline.

Mr. AL GREEN of Texas. Mr. Speaker, It is with great pleasure that I commend Continental Airlines on its 75th anniversary. I would

also like to thank my colleague the Honorable GENE GREEN for introducing this resolution and I am honored to be a cosponsor. Continental Airlines is an outstanding company that has grown internationally without losing sight of the people they serve.

Since the founding of Continental Airlines, the company has consistently served the community. In July of 1934 the company Varney Speed Lines was created in West Texas by Walter T. Varney and Louis Mueller primarily as a mail service. During World War II, they built the Denver Modification Center in Houston, where workers modified B-17 Flying Fortresses and B-29 Super Fortresses to assist in the war effort. Today, Continental Airlines' main headquarters are in Houston and their main hub is located there as well at George Bush Intercontinental Airport.

Continental Airlines has also been a pacesetter in diversity among airlines. The company named Deborah McCoy the first woman in the Nation to head a major commercial airline pilot group in 1999. In 2005, Continental was ranked among HISPANIC Magazine's "Hispanic Corporate 100: One Hundred Companies Providing the Most Opportunities for Hispanics" for the eighth year in a row. Continental Airlines has also been named to the Corporate Diversity Honor Roll in Latin Business magazine.

Continental has exemplified a dedication to customer service. Following the September 11th attacks, Continental offered special compassion fares to and from the New York area to assist family members of the September 11th victims, relief organizations and volunteers. Continental was the first airline to offer three of the most popular business applications on its fleet of 737, 757, and MD 80 aircraft: two-way e-mail, instant messaging and text messaging. The airline has also been awarded six Customer Satisfaction awards by J.D. Power and Associates since 1996.

Despite its global presence, Continental Airlines has maintained a personal relationship with its customers that is rivaled by many and surpassed by none. I would again like to congratulate Continental Airlines on 75 years of service and wish them many more years to come.

Mr. GENE GREEN of Texas. I yield back my time.

The SPEAKER pro tempore (Mr. SERRANO). The question is on the motion offered by the gentleman from Texas (Mr. GENE GREEN) that the House suspend the rules and agree to the resolution, H. Res. 631.

The question was taken; and (two-thirds being in the affirmative) the rules were suspended and the resolution was agreed to.

A motion to reconsider was laid on the table.

FOOD SAFETY ENHANCEMENT ACT OF 2009

Mr. DINGELL. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 2749) to amend the Federal Food, Drug, and Cosmetic Act to improve the safety of food in the global market, and for other purposes, as amended.

The Clerk read the title of the bill.
The text of the bill is as follows:

H.R. 2749

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the “Food Safety Enhancement Act of 2009”.

SEC. 2. TABLE OF CONTENTS.

The table of contents of this Act is as follows:

- Sec. 1. Short title.
- Sec. 2. Table of contents.
- Sec. 3. References.
- Sec. 4. Rules of construction.
- Sec. 5. USDA exemptions.
- Sec. 6. Alcohol-related facilities.

TITLE I—FOOD SAFETY

Subtitle A—Prevention

- Sec. 101. Changes in registration of food facilities.
- Sec. 102. Hazard analysis, risk-based preventive controls, food safety plan, finished product test results from category 1 facilities.
- Sec. 103. Performance standards.
- Sec. 104. Safety standards for produce and certain other raw agricultural commodities.
- Sec. 105. Risk-based inspection schedule.
- Sec. 106. Access to records.
- Sec. 107. Traceability of food.
- Sec. 108. Reinspection and food recall fees applicable to facilities.
- Sec. 109. Certification and accreditation.
- Sec. 110. Testing by accredited laboratories.
- Sec. 111. Notification, nondistribution, and recall of adulterated or misbranded food.
- Sec. 112. Reportable food registry; exchange of information.
- Sec. 113. Safe and secure food importation program.
- Sec. 114. Infant formula.

Subtitle B—Intervention

- Sec. 121. Surveillance.
- Sec. 122. Public education and advisory system.
- Sec. 123. Research.

Subtitle C—Response

- Sec. 131. Procedures for seizure.
- Sec. 132. Administrative detention.
- Sec. 133. Authority to prohibit or restrict the movement of food.
- Sec. 134. Criminal penalties.
- Sec. 135. Civil penalties for violations relating to food.
- Sec. 136. Improper import entry filings.

TITLE II—MISCELLANEOUS

- Sec. 201. Food substances generally recognized as safe.
- Sec. 202. Country of origin labeling.
- Sec. 203. Exportation certificate program.
- Sec. 204. Registration for commercial importers of food; fee.
- Sec. 205. Registration for customs brokers.
- Sec. 206. Unique identification number for food facilities, importers, and custom brokers.
- Sec. 207. Prohibition against delaying, limiting, or refusing inspection.
- Sec. 208. Dedicated foreign inspectorate.
- Sec. 209. Plan and review of continued operation of field laboratories.
- Sec. 210. False or misleading reporting to FDA.
- Sec. 211. Subpoena authority.
- Sec. 212. Whistleblower protections.
- Sec. 213. Extraterritorial jurisdiction.
- Sec. 214. Support for training institutes.

Sec. 215. Bisphenol A in food and beverage containers.

Sec. 216. Lead content labeling requirement for ceramic tableware and cookware.

SEC. 3. REFERENCES.

Except as otherwise specified, whenever in this Act an amendment is expressed in terms of an amendment to a section or other provision, the reference shall be considered to be made to a section or other provision of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 301 et seq.).

SEC. 4. RULES OF CONSTRUCTION.

(a) Nothing in this Act or the amendments made by this Act shall be construed to prohibit or limit—

- (1) any cause of action under State law; or
- (2) the introduction of evidence of compliance or noncompliance with the requirements of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 301 et seq.).

(b) Nothing in this Act or any amendment made by this Act shall be construed to—

- (1) alter the jurisdiction between the Secretary of Agriculture and the Secretary of Health and Human Services, under applicable statutes and regulations;
- (2) limit the authority of the Secretary of Health and Human Services to issue regulations related to the safety of food under—

(A) the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 301 et seq.) as in effect on the day before the date of the enactment of this Act; or

(B) the Public Health Service Act (42 U.S.C. 301 et seq.) as in effect on the day before the date of the enactment of this Act; or

(3) impede, minimize, or affect the authority of the Secretary of Agriculture to prevent, control, or mitigate a plant or animal health emergency, or a food emergency involving products regulated under the Federal Meat Inspection Act (21 U.S.C. 601 et seq.), the Poultry Products Inspection Act (21 U.S.C. 451 et seq.), or the Egg Products Inspection Act (21 U.S.C. 1031 et seq.).

SEC. 5. USDA EXEMPTIONS.

(a) USDA-REGULATED PRODUCTS.—Food is exempt from the requirements of this Act to the extent that such food is regulated by the Secretary of Agriculture under the Federal Meat Inspection Act (21 U.S.C. 601 et seq.), the Poultry Products Inspection Act (21 U.S.C. 451 et seq.), or the Egg Products Inspection Act (21 U.S.C. 1031 et seq.).

(b) LIVESTOCK AND POULTRY.—Livestock and poultry that are intended to be presented for slaughter pursuant to the regulations by the Secretary of Agriculture under the Federal Meat Inspection Act or the Poultry Products Inspection Act are exempt from the requirements of this Act. A cow, sheep, or goat that is used for the production of milk is exempt from the requirements of this Act.

(c) USDA-REGULATED FACILITIES.—A facility is exempt from the requirements of this Act to the extent such facility is regulated as an official establishment by the Secretary of Agriculture under the Federal Meat Inspection Act, the Poultry Products Inspection Act, or the Egg Products Inspection Act or under a program recognized by the Secretary of Agriculture as at least equal to Federal regulation under the Federal Meat Inspection Act, the Poultry Products Inspection Act, or the Egg Products Inspection Act.

(d) FARMS.—A farm is exempt from the requirements of this Act to the extent such farm raises animals from which food is derived that is regulated under the Federal Meat Inspection Act, the Poultry Products

Inspection Act, or the Egg Products Inspection Act.

SEC. 6. ALCOHOL-RELATED FACILITIES.

(a) IN GENERAL.—With the exception of the amendments made by section 101(a) and (b) and section 113 of this Act, nothing in this Act, or the amendments made by this Act, shall be construed to apply to a facility that—

(1) under the Federal Alcohol Administration Act (27 U.S.C. 201 et seq.) or chapter 51 of subtitle E of the Internal Revenue Code of 1986 (26 U.S.C. 5291 et seq.) is required to obtain a permit or to register with the Secretary of the Treasury as a condition of doing business in the United States; and

(2) under section 415 of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 350d), as amended by this Act, is required to register as a facility because such facility is engaged in manufacturing, processing, packing, or holding 1 or more alcoholic beverages.

(b) LIMITED RECEIPT AND DISTRIBUTION OF NON-ALCOHOL FOOD.—Subsection (a) shall not apply to a facility engaged in the distributing of any non-alcohol food, except that subsection (a) shall apply to a facility described in paragraphs (1) and (2) of subsection (a) that receives and distributes non-alcohol food provided such food is received and distributed—

(1) in a prepackaged form that prevents any direct human contact with such food; and

(2) in amounts that constitute not more than 5 percent of the overall sales of such facility, as determined by the Secretary of the Treasury.

(c) RULE OF CONSTRUCTION.—This section shall not be construed to exempt any food, apart from distilled spirits, wine, and malt beverages, as defined in section 211 of the Federal Alcohol Administration Act (27 U.S.C. 211), from the requirements of this Act and the amendments made by this Act.

TITLE I—FOOD SAFETY

Subtitle A—Prevention

SEC. 101. CHANGES IN REGISTRATION OF FOOD FACILITIES.

(a) MISBRANDING.—Section 403 (21 U.S.C. 343) is amended by adding at the end the following:

“(z) If it was manufactured, processed, packed, or held in a facility that is not duly registered under section 415, including a facility whose registration is canceled or suspended under such section.”.

(b) ANNUAL REGISTRATION.—

(1) DEFINITION OF FACILITY.—Paragraph (1) of section 415(b) (21 U.S.C. 350d(b)) is amended to read as follows:

“(1)(A) The term ‘facility’ means any factory, warehouse, or establishment (including a factory, warehouse, or establishment of an importer) that manufactures, processes, packs, or holds food.

“(B) Such term does not include farms; private residences of individuals; restaurants; other retail food establishments; nonprofit food establishments in which food is prepared for or served directly to the consumer; or fishing vessels (except such vessels engaged in processing as defined in section 123.3(k) of title 21, Code of Federal Regulations, or any successor regulations).

“(C)(i) The term ‘retail food establishment’ means an establishment that, as its primary function, sells food products (including those food products that it manufactures, processes, packs, or holds) directly to consumers (including by Internet or mail order).

“(ii) Such term includes—

“(I) grocery stores;

“(II) convenience stores;

“(III) vending machine locations; and

“(IV) stores that sell bagged feed, pet food, and feed ingredients or additives over-the-counter directly to consumers and final purchasers for their own personal animals.

“(iii) A retail food establishment’s primary function is to sell food directly to consumers if the annual monetary value of sales of food products directly to consumers exceeds the annual monetary value of sales of food products to all other buyers.

“(D)(i) The term ‘farm’ means an operation in one general physical location devoted to the growing and harvesting of crops, the raising of animals (including seafood), or both.

“(ii) Such term includes—

“(I) such an operation that packs or holds food, provided that all food used in such activities is grown, raised, or consumed on such farm or another farm under the same ownership;

“(II) such an operation that manufactures or processes food, provided that all food used in such activities is consumed on such farm or another farm under the same ownership;

“(III) such an operation that sells food directly to consumers if the annual monetary value of sales of the food products from the farm or by an agent of the farm to consumers exceeds the annual monetary value of sales of the food products to all other buyers;

“(IV) such an operation that manufactures grains or other feed stuffs that are grown and harvested on such farm or another farm under the same ownership and are distributed directly to 1 or more farms for consumption as food by humans or animals on such farm; and

“(V) a fishery, including a wild fishery, an aquaculture operation or bed, a fresh water fishery, and a saltwater fishery.

“(iii) Such term does not include such an operation that receives manufactured feed from another farm as described in clause (ii)(IV) if the receiving farm releases the feed to another farm or facility under different ownership.

“(iv) The term ‘harvesting’ includes washing, trimming of outer leaves of, and cooling produce.

“(E) The term ‘consumer’ does not include a business.”.

(2) REGISTRATION.—Section 415(a) (21 U.S.C. 350d(a)) is amended—

(A) in the first sentence of paragraph (1)—

(i) by striking “require that” and inserting “require that, on or before December 31 of each year,”; and

(ii) by striking “food for consumption in the United States” and inserting “food for consumption in the United States or for export from the United States”;

(B) in subparagraphs (A) and (B) of paragraph (1), by inserting “and pay the registration fee required under section 743” after “submit a registration to the Secretary” each place it appears;

(C) in the first sentence of paragraph (2), by inserting “in electronic format” after “submit”; and

(D) in paragraph (4), by inserting after the first sentence the following: “The Secretary shall remove from such list the name of any facility that fails to reregister in accordance with this section, that fails to pay the registration fee required under section 743, or whose registration is canceled by the registrant, canceled by the Secretary in accordance with this section, or suspended by the Secretary in accordance with this section.”.

(3) CONTENTS OF REGISTRATION.—Paragraph (2) of section 415(a) (21 U.S.C. 350d(a)), as

amended by paragraph (1), is amended by striking “containing information” and all that follows and inserting the following: “containing information that identifies the following:

“(A) The name, address, and emergency contact information of the facility being registered.

“(B) The primary purpose and business activity of the facility, including the dates of operation if the facility is seasonal.

“(C) The general food category (as defined by the Secretary by guidance) of each food manufactured, processed, packed, or held at the facility.

“(D) All trade names under which the facility conducts business related to food.

“(E) The name, address, and 24-hour emergency contact information of the United States distribution agent for the facility, which agent shall have access to the information required to be maintained under section 414(d) for food that is manufactured, processed, packed, or held at the facility.

“(F) If the facility is located outside of the United States, the name, address, and emergency contact information for a United States agent.

“(G) The unique facility identifier of the facility, as specified under section 1011.

“(H) Such additional information pertaining to the facility as the Secretary may require by regulation.

The registrant shall notify the Secretary of any change in the submitted information not later than 30 days after the date of such change, unless otherwise specified by the Secretary.”.

(4) SUSPENSION AND CANCELLATION AUTHORITY.—Section 415(a) (21 U.S.C. 350d(a)), as amended by paragraphs (1) and (2), is further amended by adding at the end the following:

“(5) SUSPENSION OF REGISTRATION.—

“(A) IN GENERAL.—The Secretary may suspend the registration of any facility registered under this section for a violation of this Act that could result in serious adverse health consequences or death to humans or animals.

“(B) NOTICE OF SUSPENSION.—Suspension of a registration shall be preceded by—

“(i) notice to the facility of the intent to suspend the registration; and

“(ii) an opportunity for an informal hearing, as defined in guidance or regulations issued by the Secretary, concerning the suspension of such registration for such facility.

“(C) REQUEST.—The owner, operator, or agent in charge of a facility whose registration is suspended may request that the Secretary vacate the suspension of registration when such owner, operator, or agent has corrected the violation that is the basis for such suspension.

“(D) VACATING OF SUSPENSION.—If, based on an inspection of the facility or other information, the Secretary determines that adequate reasons do not exist to continue the suspension of a registration, the Secretary shall vacate such suspension.

“(6) CANCELLATION OF REGISTRATION.—

“(A) IN GENERAL.—Not earlier than 10 days after providing the notice under subparagraph (B), the Secretary may cancel a registration if the Secretary determines that—

“(i) the registration was not updated in accordance with this section or otherwise contains false, incomplete, or inaccurate information; or

“(ii) the required registration fee has not been paid within 30 days after the date due.

“(B) NOTICE OF CANCELLATION.—Cancellation shall be preceded by notice to the facility of the intent to cancel the registration and the basis for such cancellation.

“(C) TIMELY UPDATE OR CORRECTION.—If the registration for the facility is updated or corrected no later than 7 days after notice is provided under subparagraph (B), the Secretary shall not cancel such registration.

“(7) REPORT TO CONGRESS.—Not later than March 30th of each year, the Secretary shall submit to the Congress a report, based on the registrations on or before December 31 of the previous year, on the following:

“(A) The number of facilities registered under this section.

“(B) The number of such facilities that are domestic.

“(C) The number of such facilities that are foreign.

“(D) The number of such facilities that are high-risk.

“(E) The number of such facilities that are low-risk.

“(F) The number of such facilities that hold food.

“(8) LIMITATION ON DELEGATION.—The authority conferred by this subsection to issue an order to suspend a registration or cancel a registration shall not be delegated to any officer or employee other than the Commissioner of Food and Drugs, the Principal Deputy Commissioner, the Associate Commissioner for Regulatory Affairs, or the Director for the Center for Food Safety and Applied Nutrition, of the Food and Drug Administration.”.

(c) REGISTRATION FEE.—Chapter VII (21 U.S.C. 371 et seq.) is amended by adding at the end of subchapter C the following:

“PART 6—FEES RELATING TO FOOD

“SEC. 743. FACILITY REGISTRATION FEE.

“(a) IN GENERAL.—

“(1) ASSESSMENT AND COLLECTION.—Beginning in fiscal year 2010, the Secretary shall assess and collect an annual fee for the registration of a facility under section 415.

“(2) PAYABLE DATE.—A fee under this section shall be payable—

“(A) for a facility that was not registered under section 415 for the preceding fiscal year, on the date of registration; and

“(B) for any other facility—

“(i) for fiscal year 2010, not later than the sooner of 90 days after the date of the enactment of this part or December 31, 2009; and

“(ii) for a subsequent fiscal year, not later than December 31 of such fiscal year.

“(b) FEE AMOUNTS.—

“(1) IN GENERAL.—The registration fee under subsection (a) shall be—

“(A) for fiscal year 2010, \$500; and

“(B) for fiscal year 2011 and each subsequent fiscal year, the fee for fiscal year 2010 as adjusted under subsection (c).

“(2) ANNUAL FEE SETTING.—The Secretary shall, not later than 60 days before the start of fiscal year 2011 and each subsequent fiscal year, establish, for the next fiscal year, registration fees under subsection (a), as described in paragraph (1).

“(3) MAXIMUM AMOUNT.—Notwithstanding paragraph (1), a person who owns or operates multiple facilities for which a fee must be paid under this section for a fiscal year shall be liable for not more than \$175,000 in aggregate fees under this section for such fiscal year.

“(c) INFLATION ADJUSTMENT.—For fiscal year 2011 and each subsequent fiscal year, the fee amount under subsection (b)(1) shall be adjusted by the Secretary by notice, published in the Federal Register, to reflect the greater of—

“(1) the total percentage change that occurred in the Consumer Price Index for all urban consumers (all items; U.S. city average) for the 12-month period ending June 30

preceding the fiscal year for which fees are being established;

“(2) the total percentage change for the previous fiscal year in basic pay under the General Schedule in accordance with section 5332 of title 5, United States Code, as adjusted by any locality-based comparability payment pursuant to section 5304 of such title for Federal employees stationed in the District of Columbia; or

“(3) the average annual change in the cost, per full-time equivalent position of the Food and Drug Administration, of all personnel compensation and benefits paid with respect to such positions for the first 5 years of the preceding 6 fiscal years.

The adjustment made each fiscal year under this subsection shall be added on a compounded basis to the sum of all adjustments made each fiscal year after fiscal year 2010 under this subsection.

“(d) LIMITATIONS.—

“(1) IN GENERAL.—Fees under subsection (a) shall be refunded for a fiscal year beginning after fiscal year 2010 unless appropriations for salaries and expenses of the Food and Drug Administration for such fiscal year (excluding the amount of fees appropriated for such fiscal year) are equal to or greater than the amount of appropriations for the salaries and expenses of the Food and Drug Administration for fiscal year 2010 (excluding the amount of fees appropriated for such fiscal year) multiplied by the adjustment factor applicable to the fiscal year involved.

“(2) AUTHORITY.—If the Secretary does not assess fees under subsection (a) during any portion of a fiscal year because of paragraph (1) and if at a later date in such fiscal year the Secretary may assess such fees, the Secretary may assess and collect such fees, without any modification in the rate, for registration under section 415 at any time in such fiscal year.

“(3) ADJUSTMENT FACTOR.—In this subsection, the term ‘adjustment factor’ applicable to a fiscal year is the Consumer Price Index for all urban consumers (all items; United States city average) for October of the preceding fiscal year divided by such Index for October 2009.

“(e) CREDITING AND AVAILABILITY OF FEES.—

“(1) IN GENERAL.—Fees authorized under subsection (a) shall be collected and available for obligation only to the extent and in the amount provided in advance in appropriations Acts. Such fees are authorized to remain available until expended. Such sums as may be necessary may be transferred from the Food and Drug Administration salaries and expenses appropriation account without fiscal year limitation to such appropriation account for salaries and expenses with such fiscal year limitation.

“(2) COLLECTIONS AND APPROPRIATIONS ACTS.—The fees authorized by this section—

“(A) shall be retained in each fiscal year in an amount not to exceed the amount specified in appropriation Acts, or otherwise made available for obligation, for such fiscal year; and

“(B) shall only be collected and available to defray the costs of food safety activities.

“(3) AUTHORIZATION OF APPROPRIATIONS.—For each of fiscal years 2010 through 2014, there are authorized to be appropriated for fees under this section such sums as may be necessary.

“(4) PUBLIC MEETINGS.—For each fiscal year, the Secretary shall hold a public meeting on how fees collected under this section will be used to defray the costs of food safety activities in order to solicit the views of the

regulated industry, consumers, and other interested stakeholders.

“(f) COLLECTION OF UNPAID FEES.—In any case where the Secretary does not receive payment of a fee assessed under subsection (a) within 30 days after it is due, such fee shall be treated as a claim of the United States Government subject to subchapter II of chapter 37 of title 31, United States Code.

“(g) CONSTRUCTION.—This section may not be construed to require that the number of full-time equivalent positions in the Department of Health and Human Services, for officers, employees, and advisory committees not engaged in food safety activities, be reduced to offset the number of officers, employees, and advisory committees so engaged.

“(h) ANNUAL FISCAL REPORTS.—Beginning with fiscal year 2011, not later than 120 days after the end of each fiscal year for which fees are collected under this section, the Secretary shall prepare and submit to the Committee on Energy and Commerce of the House of Representatives and the Committee on Health, Education, Labor, and Pensions of the Senate a report on the implementation of the authority for such fees during such fiscal year and the use, by the Food and Drug Administration, of the fees collected for such fiscal year.

“(i) DEFINITIONS.—In this section:

“(1) The term ‘costs of food safety activities’ means the expenses incurred in connection with food safety activities for—

“(A) officers and employees of the Food and Drug Administration, contractors of the Food and Drug Administration, advisory committees, and costs related to such officers, employees, and committees and to contracts with such contractors;

“(B) laboratory capacity;

“(C) management of information, and the acquisition, maintenance, and repair of technology resources;

“(D) leasing, maintenance, renovation, and repair of facilities and acquisition, maintenance, and repair of fixtures, furniture, scientific equipment, and other necessary materials and supplies; and

“(E) collecting fees under this section and accounting for resources allocated for food safety activities.

“(2) The term ‘food safety activities’ means activities related to compliance by facilities registered under section 415 with the requirements of this Act relating to food (including research related to and the development of standards (such as performance standards and preventive controls), risk assessments, hazard analyses, inspection planning and inspections, third-party inspections, compliance review and enforcement, import review, information technology support, test development, product sampling, risk communication, and administrative detention).”

(d) TRANSITIONAL PROVISIONS.—

(1) FEES.—The Secretary of Health and Human Services shall first impose the fee established under section 743 of the Federal Food, Drug, and Cosmetic Act, as added by subsection (c), for fiscal years beginning with fiscal year 2010.

(2) MODIFICATION OF REGISTRATION FORM.—Not later than 180 days after the date of the enactment of this Act, the Secretary of Health and Human Services shall modify the registration form under section 415 of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 350d) to comply with the amendments made by this section.

(3) APPLICATION.—The amendments made by this section, other than subsections (b)(2)

and (c), shall take effect on the date that is 30 days after the date on which such modified registration form takes effect, but not later than 210 days after the date of the enactment of this Act.

(4) SUNSET DATE.—Section 743 of the Federal Food, Drug, and Cosmetic Act, as added by subsection (c), does not authorize the assessment or collection of a fee for registration under section 415 of such Act (21 U.S.C. 360) occurring after fiscal year 2014.

SEC. 102. HAZARD ANALYSIS, RISK-BASED PREVENTIVE CONTROLS, FOOD SAFETY PLAN, FINISHED PRODUCT TEST RESULTS FROM CATEGORY 1 FACILITIES.

(a) HAZARD ANALYSIS, RISK-BASED PREVENTIVE CONTROLS, FOOD SAFETY PLAN.—

(1) ADULTERATED FOOD.—Section 402 (21 U.S.C. 342) is amended by adding at the end the following:

“(j) If it has been manufactured, processed, packed, transported, or held under conditions that do not meet the requirements of sections 418 and 418A.”

(2) REQUIREMENTS.—Chapter IV (21 U.S.C. 341 et seq.) is amended by adding at the end the following:

“SEC. 418. HAZARD ANALYSIS AND RISK-BASED PREVENTIVE CONTROLS.

“(a) IN GENERAL.—The owner, operator, or agent of a facility shall, in accordance with this section—

“(1) conduct a hazard analysis (or more than one if appropriate);

“(2) identify and implement effective preventive controls;

“(3) monitor preventive controls;

“(4) institute corrective actions when—

“(A) monitoring shows that preventive controls have not been properly implemented; or

“(B) monitoring and verification show that such controls were ineffective;

“(5) conduct verification activities;

“(6) maintain records of monitoring, corrective action, and verification; and

“(7) reanalyze for hazards.

“(b) IDENTIFICATION OF HAZARDS.—

“(1) IN GENERAL.—The owner, operator, or agent of a facility shall evaluate whether there are any hazards, including hazards due to the source of the ingredients, that are reasonably likely to occur in the absence of preventive controls that may affect the safety, wholesomeness, or sanitation of the food manufactured, processed, packed, transported, or held by the facility, including—

“(A) biological, chemical, physical, and radiological hazards, natural toxins, pesticides, drug residues, filth, decomposition, parasites, allergens, and unapproved food and color additives; and

“(B) hazards that occur naturally or that may be unintentionally introduced.

“(2) IDENTIFIED BY THE SECRETARY.—The Secretary may, by regulation or guidance, identify hazards that are reasonably likely to occur in the absence of preventive controls.

“(3) HAZARD ANALYSIS.—The owner, operator, or agent of a facility shall identify and describe the hazards evaluated under paragraph (1) or identified under paragraph (2), to the extent applicable to the facility, in a hazard analysis.

“(c) PREVENTIVE CONTROLS.—

“(1) IN GENERAL.—The owner, operator, or agent of a facility shall identify and implement effective preventive controls to prevent, eliminate, or reduce to acceptable levels the occurrence of any hazards identified in the hazard analysis under subsection (b)(3).

“(2) IDENTIFIED BY THE SECRETARY.—

“(A) ESTABLISHMENT.—The Secretary may establish by regulation or guidance preventive controls for specific product types to prevent unintentional contamination throughout the supply chain. The owner, operator, or agent of a facility shall implement any preventive controls identified by the Secretary under this paragraph.

“(B) ALTERNATIVE CONTROLS.—Such regulation or guidance shall allow the owner, operator, or agent of a facility to implement an alternative preventive control to one established by the Secretary, provided that, in response to a request by the Secretary, the owner, operator, or agent can present to the Secretary data or other information sufficient to demonstrate that the alternative control effectively addresses the hazard, including meeting any applicable performance standard.

“(C) LIMITATION.—Subparagraph (B) shall not apply to any preventive control described in subparagraph (A), (B), or (E) of subsection (i)(2).

“(d) MONITORING.—The owner, operator, or agent of a facility shall monitor the implementation of preventive controls under subsection (c) to identify any circumstances in which the preventive controls are not fully implemented or verification shows that such controls were ineffective.

“(e) CORRECTIVE ACTIONS.—The owner, operator, or agent of a facility shall establish and implement procedures to ensure that, if the preventive controls under subsection (c) are not fully implemented or are not found effective—

“(1) no affected product from such facility enters commerce; and

“(2) appropriate action is taken to reduce the likelihood of recurrence of the implementation failure.

“(f) VERIFICATION.—The owner, operator, or agent of a facility shall ensure that—

“(1) the system of preventive controls identified under subsection (c) has been validated as scientifically and technically sound so that, if such system is implemented, the hazards identified in the hazard analysis under subsection (b)(3) will be prevented, eliminated, or reduced to an acceptable level;

“(2) the facility is conducting monitoring in accordance with subsection (d);

“(3) the facility is taking effective corrective actions under subsection (e); and

“(4) the preventive controls are effectively preventing, eliminating, or reducing to an acceptable level the occurrence of identified hazards, including through the use of environmental and product testing programs and other appropriate means.

“(g) REQUIREMENT TO REANALYZE AND REVISE.—

“(1) REQUIREMENT.—The owner, operator, or agent of a facility shall—

“(A) review the evaluation under subsection (b) for the facility and, as necessary, revise the hazard analysis under subsection (b)(3) for the facility—

“(i) not less than every 2 years;

“(ii) if there is a change in the process or product that could affect the hazard analysis; and

“(iii) if the Secretary determines that it is appropriate to protect public health; and

“(B) whenever there is a change in the hazard analysis, revise the preventive controls under subsection (c) for the facility as necessary to ensure that all hazards that are reasonably likely to occur are prevented, eliminated, or reduced to an acceptable level, or document the basis for the conclusion that no such revision is needed.

“(2) NONDELEGATION.—Any revisions ordered by the Secretary under this subsection

shall be ordered by the Secretary or an official designated by the Secretary. An official may not be so designated unless the official is the director of the district under this Act in which the facility involved is located, or is an official senior to such director.

“(h) RECORDKEEPING.—The owner, operator, or agent of a facility shall maintain, for not less than 2 years, records documenting the activities described in subsections (a) through (g).

“(i) DEFINITIONS.—For purposes of this section:

“(1) FACILITY.—The term ‘facility’ means a domestic facility or a foreign facility that is required to be registered under section 415.

“(2) PREVENTIVE CONTROLS.—The term ‘preventive controls’ means those risk-based procedures, practices, and processes that a person knowledgeable about the safe manufacturing, processing, packing, transporting, or holding of food would employ to prevent, eliminate, or reduce to an acceptable level the hazards identified in the hazard analysis under subsection (b)(3) and that are consistent with the current scientific understanding of safe food manufacturing, processing, packing, transporting, or holding at the time of the analysis. Those procedures, practices, and processes shall include the following, as appropriate to the type of facility or food:

“(A) Sanitation procedures and practices.

“(B) Supervisor, manager, and employee hygiene training.

“(C) Process controls.

“(D) An allergen control program to minimize potential allergic reactions in humans from ingestion of, or contact with, human and animal food.

“(E) Good manufacturing practices.

“(F) Verification procedures, practices, and processes for suppliers and incoming ingredients, which may include onsite auditing of suppliers and testing of incoming ingredients.

“(G) Other procedures, practices, and processes established by the Secretary under subsection (c)(2).

“(3) HAZARD THAT IS REASONABLY LIKELY TO OCCUR.—A food safety hazard that is reasonably likely to occur is one for which a prudent person who, as applicable, manufactures, processes, packs, transports, or holds food, would establish controls because experience, illness data, scientific reports, or other information provides a basis to conclude that there is a reasonable possibility that the hazard will occur in the type of food being manufactured, processed, packed, transported, or held in the absence of those controls.

“SEC. 418A. FOOD SAFETY PLAN.

“(a) IN GENERAL.—Before a facility (as defined in section 418(i)) introduces or delivers for introduction into interstate commerce any shipment of food, the owner, operator, or agent of the facility shall develop and implement a written food safety plan (in this section referred to as a ‘food safety plan’).

“(b) CONTENTS.—The food safety plan shall include each of the following elements:

“(1) The hazard analysis and any reanalysis conducted under section 418.

“(2) A description of the preventive controls being implemented under subsection 418(c), including those to address hazards identified by the Secretary under subsection 418(b)(2).

“(3) A description of the procedures for monitoring preventive controls.

“(4) A description of the procedures for taking corrective actions.

“(5) A description of verification activities for the preventive controls, including valida-

tion that the system of controls, if implemented, will prevent, eliminate, or reduce to an acceptable level the identified hazards, review of monitoring and corrective action records, and procedures for determining whether the system of controls as implemented is effectively preventing, eliminating, or reducing to an acceptable level the occurrence of identified hazards, including the use of environmental and product testing programs.

“(6) A description of the facility’s record-keeping procedures.

“(7) A description of the facility’s procedures for the recall of articles of food, whether voluntarily or when required under section 422.

“(8) A description of the facility’s procedures for tracing the distribution history of articles of food, whether voluntarily or when required under section 414.

“(9) A description of the facility’s procedures to ensure a safe and secure supply chain for the ingredients or components used in making the food manufactured, processed, packed, transported, or held by such facility.

“(10) A description of the facility’s procedures to implement the science-based performance standards issued under section 419.”

(3) GUIDANCE OR REGULATIONS.—

(A) IN GENERAL.—The Secretary of Health and Human Services (referred to in this subsection as the “Secretary”) shall issue guidance or promulgate regulations to establish science-based standards for conducting a hazard analysis, documenting hazards, identifying and implementing preventive controls, and documenting the implementation of the preventive controls, including verification and corrective actions under sections 418 and 418A of the Federal Food, Drug, and Cosmetic Act (as added by paragraph (2)).

(B) INTERNATIONAL STANDARDS.—In issuing guidance or regulations under subparagraph (A), the Secretary shall review international hazard analysis and preventive control standards that are in existence on the date of the enactment of this Act and relevant to such guidelines or regulations to ensure that the programs under sections 418 and 418A of the Federal Food, Drug, and Cosmetic Act (as added by paragraph (2)) are consistent, to the extent the Secretary determines practicable and appropriate, with such standards.

(C) AUTHORITY WITH RESPECT TO CERTAIN FACILITIES.—The Secretary may, by regulation, exempt or modify the requirements for compliance under this section and the amendments made by this section with respect to facilities that are solely engaged in—

(i) the production of food for animals other than man or the storage of packaged foods that are not exposed to the environment; or

(ii) the storage of raw agricultural commodities for further distribution or processing.

(D) SMALL BUSINESSES.—The Secretary—

(i) shall consider the impact of any guidance or regulations under this section on small businesses; and

(ii) shall issue guidance to assist small businesses in complying with the requirements of this section and the amendments made by this section.

(4) NO EFFECT ON EXISTING HACCP AUTHORITIES.—Nothing in this section or the amendments made by this section limits the authority of the Secretary under the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 301 et seq.) or the Public Health Service Act (42 U.S.C. 201 et seq.), as in effect on the day before the date of the enactment of this Act, to

revise, issue, or enforce product- and category-specific regulations, such as the Seafood Hazard Analysis Critical Controls Points Program, the Juice Hazard Analysis Critical Control Program, and the Thermally Processed Low-Acid Foods Packaged in Hermetically Sealed Containers standards.

(5) **CONSIDERATION.**—When implementing sections 418 and 418A of the Federal Food, Drug, and Cosmetic Act, as added by paragraph (2), the Secretary may take into account differences between food intended for human consumption and food intended for consumption by animals other than man.

(6) **EFFECTIVE DATE.**—

(A) **GENERAL RULE.**—The amendments made by subsection (a) and this subsection shall take effect 18 months after the date of the enactment of this Act.

(B) **EXCEPTIONS.**—Notwithstanding subparagraph (A)—

(i) the amendments made by subsection (a) and this subsection shall apply to a small business (as defined by the Secretary) after the date that is 2 years after the date of the enactment of this Act; and

(ii) the amendments made by subsection (a) and this subsection shall apply to a very small business (as defined by the Secretary) after the date that is 3 years after the date of the enactment of this Act.

(b) **FINISHED PRODUCT TEST RESULTS FROM CATEGORY 1 FACILITIES.**—

(1) **ADULTERATION.**—Section 402 (21 U.S.C. 342), as amended by subsection (a), is amended by adding at the end the following:

“(k) If it is manufactured or processed in a facility that is in violation of section 418B.”.

(2) **REQUIREMENTS.**—Chapter IV (21 U.S.C. 341 et seq.), as amended, is further amended by adding at the end the following:

“SEC. 418B. FINISHED PRODUCT TEST RESULTS FROM CATEGORY 1 FACILITIES.

“(a) **AUTHORITY.**—Beginning on the date specified in subsection (c), the Secretary shall require, after public notice and an opportunity for comment, the submission to the Secretary of finished product test results by the owner, operator, or agent of each category 1 facility subject to good manufacturing practices regulations documenting the presence of contaminants in food in the possession or control of such facility posing a risk of severe adverse health consequences or death.

“(b) **CONSIDERATIONS.**—The Secretary shall require submissions under subsection (a)—

“(1) as the Secretary determines feasible and appropriate; and

“(2) taking into consideration available data and information on the potential risks posed by the facility.

“(c) **BEGINNING DATE.**—The date specified in this subsection is the sooner of—

“(1) the date of completion of the pilot projects and feasibility study under subsections (d) and (e); and

“(2) the date that is 2 years after the date of the enactment of this section.

“(d) **PILOT PROJECTS.**—The Secretary shall conduct 2 or more pilot projects to evaluate the feasibility of collecting positive finished product testing results from category 1 facilities, including the value and feasibility of reporting corrective actions taken when positive finished product test results are reported to the Secretary.

“(e) **FEASIBILITY STUDY.**—The Secretary shall assess the feasibility and benefits of the reporting by facilities subject to good manufacturing practices regulations of appropriate finished product testing results from category 1 facilities to the Secretary, including the extent to which the collection

of such finished product testing results will help the Secretary assess the risk presented by a facility or product category.

“(f) **LIMITATIONS.**—Nothing in this section shall be construed—

“(1) to require the Secretary to mandate testing or submission of test results that the Secretary determines would not provide useful information in assessing the potential risk presented by a facility or product category; or

“(2) to limit the Secretary’s authority under any other provisions of law to require any person to provide access, or to submit information or test results, to the Secretary, including the ability of the Secretary to require field or other testing and to obtain test results in the course of an investigation of a potential food-borne illness or contamination incident.

“(g) **DEFINITION.**—In this section, the term ‘category 1 facility’ means a category 1 facility within the meaning of section 704(h).”.

(c) **FOOD DEFENSE.**—

(1) **ADULTERATION.**—Section 402(j), as added by subsection (a), is amended by striking “and 418A” and inserting “, 418A, or 418C”.

(2) **REQUIREMENTS.**—Chapter IV (21 U.S.C. 341 et seq.), as amended, is further amended by adding at the end the following:

“SEC. 418C. FOOD DEFENSE.

“(a) **IN GENERAL.**—Before a facility (as defined in section 418(i)) introduces or delivers for introduction into interstate commerce any shipment of food, the owner, operator, or agent of the facility shall develop and implement a written food defense plan (in this section referred to as a ‘food defense plan’).

“(b) **CONTENTS.**—The food defense plan shall include each of the following elements:

“(1) A food defense assessment to identify conditions and practices that may permit a hazard that may be intentionally introduced, including by an act of terrorism. This assessment shall evaluate processing security, cybersecurity, material security (including ingredients, finished product, and packaging), personnel security, storage security, shipping and receiving security, and utility security.

“(2) A description of the preventive measures being implemented as a result of such assessment to minimize the risk of intentional contamination.

“(3) A description of the procedures to check for and identify any circumstances in which the preventive measures are not fully implemented or were ineffective.

“(4) A description of the procedures for taking corrective actions to ensure that when preventive measures have not been properly implemented or have been ineffective, appropriate action is taken—

“(A) to reduce the likelihood of recurrence of the failure; and

“(B) to assess the consequences of the failure.

“(5) A description of evaluation activities for the preventive measures, including a review of records provided for under paragraph (6) and procedures to periodically test the effectiveness of the plan.

“(6) A description of the facility’s record-keeping procedures, including records documenting implementation of the procedures under paragraphs (3), (4), and (5).

“(c) **HAZARD.**—For purposes of this section, the term ‘hazard that may be intentionally introduced, including by an act of terrorism’ means a hazard for which a prudent person who, as applicable, manufactures, processes, packs, transports, or holds food, would establish preventive measures because the hazard has been identified by a food defense assessment by application of—

“(1) a targeting assessment tool recommended by the Secretary by guidance; or

“(2) a comparable targeting assessment tool.

“(d) **FOOD DEFENSE HAZARDS IDENTIFIED BY THE SECRETARY.**—

“(1) **ESTABLISHMENT.**—The Secretary may establish by regulation or guidance preventive measures for specific product types to prevent intentional contamination throughout the supply chain. The owner, operator, or agent of a facility shall implement any preventive measures identified by the Secretary under this paragraph.

“(2) **ALTERNATIVE MEASURES.**—Such regulation or guidance shall allow the owner, operator, or agent of a facility to implement an alternative preventive measure to one established by the Secretary, provided that, in response to a request by the Secretary, the owner, operator, or agent can present to the Secretary data or other information sufficient to demonstrate that the alternative measure effectively addresses the hazard.

“(e) **REQUIREMENT TO REASSESS AND REVISE.**—

“(1) **REQUIREMENT.**—The owner, operator, or agent of a facility shall—

“(A) review the food defense assessment under subsection (b)(1) for the facility and, as necessary, revise the food defense assessment under subsection (b)(1) for the facility—

“(i) not less than every 2 years;

“(ii) if there is a change in the process or product that could affect the food defense assessment; and

“(iii) if the Secretary determines that it is appropriate to protect public health; and

“(B) whenever there is a change in the food defense assessment, revise the preventive measures under subsection (b)(2) for the facility as necessary to ensure that for all hazards identified, the risk is minimized, or document the basis for the conclusion that no such revision is needed.

“(2) **NONDELEGATION.**—Any revisions ordered by the Secretary under this subsection shall be ordered by the Secretary or an official designated by the Secretary. An official may not be so designated unless the official is the director of the district under this Act in which the facility involved is located, or is an official senior to such director.

“(f) **RECORDKEEPING.**—The owner, operator, or agent of a facility shall maintain, for not less than 2 years, records documenting the activities described in subsections (b) and (e).

“(g) **ACCESS TO PLAN.**—

“(1) **ON INSPECTION.**—An officer or employee of the Secretary shall have access to the food defense plan of a facility under section 414(a) only if the Secretary, through an official who is the director of the district under this Act in which the facility is located or an official who is senior to such a director, provides notice under section 414(a)(1)(C).

“(2) **NONDISCLOSURE.**—A food defense plan, and any information derived from such a plan, shall be exempt from disclosure under section 552 of title 5, United States Code.”.

(3) **PROHIBITION.**—Section 301(j) (21 U.S.C. 331(j)) is amended by inserting after “entitled to protection” the following: “or a food defense plan, or any information derived from such a plan, under section 418C”.

SEC. 103. PERFORMANCE STANDARDS.

(a) **ADULTERATED FOOD.**—Section 402 (21 U.S.C. 342), as amended by section 102, is amended by adding at the end the following:

“(1) If it has been manufactured, processed, packed, transported, or held under conditions that do not meet the standards issued under section 419.”.

(b) REQUIREMENTS.—Chapter IV (21 U.S.C. 341 et seq.), as amended by section 102(b), is further amended by adding at the end the following:

“SEC. 419. PERFORMANCE STANDARDS.

“(a) PERFORMANCE STANDARDS.—The Secretary shall, not less frequently than every 2 years, review and evaluate epidemiological data and other appropriate sources of information, including research under section 123 of the Food Safety Enhancement Act of 2009, to identify the most significant food-borne contaminants and the most significant resulting hazards. The Secretary shall issue, as soon as practicable, through guidance or by regulation, science-based performance standards (which may include action levels) applicable to foods or food classes, as appropriate, to minimize to an acceptable level, prevent, or eliminate the occurrence of such hazards. Such standards shall be applicable to foods and food classes. Notwithstanding the timelines set forth in this paragraph, the Secretary shall as appropriate establish such science-based performance standards for identified contaminants as necessary to protect the public health.

“(b) LIST OF CONTAMINANTS.—Following each review under subsection (a), the Secretary shall publish in the Federal Register a list of food-borne contaminants that have the greatest adverse impact on public health. In determining whether a particular food-borne contaminant should be added to such list, the Secretary shall consider the number and severity of illnesses and the number of deaths associated with the foods associated with such contaminants.

“(c) SAMPLING PROGRAM.—In conjunction with the establishment of a performance standard under this section, the Secretary may make recommendations to industry for conducting product sampling.

“(d) REVOCATION BY SECRETARY.—All performance standards of the Food and Drug Administration applicable to foods or food classes in effect on the date of the enactment of this section, or issued under this section, shall remain in effect until revised or revoked by the Secretary.”.

(c) REPORT TO CONGRESS.—The Secretary of Health and Human Services shall submit to the Congress by March 30th of the year following each review under section 419 of the Federal Food, Drug, and Cosmetic Act, as added by subsection (b), a report on the results of such review and the Secretary's plans to address the significant food-borne hazards identified, or the basis for not addressing any significant food-borne hazards identified, including any resource limitations or limitations in data that preclude further action at that time.

SEC. 104. SAFETY STANDARDS FOR PRODUCE AND CERTAIN OTHER RAW AGRICULTURAL COMMODITIES.

(a) ADULTERATED FOOD.—Section 402 (21 U.S.C. 342), as amended by sections 102 and 103(a), is amended by adding at the end the following:

“(m) If it has been grown, harvested, processed, packed, sorted, transported, or held under conditions that do not meet the standards established under section 419A.”.

(b) STANDARDS.—Chapter IV (21 U.S.C. 341 et seq.), as amended by sections 102(b) and 103(b), is amended by adding at the end the following:

“SEC. 419A. SAFETY STANDARDS FOR PRODUCE AND CERTAIN OTHER RAW AGRICULTURAL COMMODITIES.

“(a) STANDARDS.—The Secretary, in coordination with the Secretary of Agriculture, shall establish by regulation scientific and risk-based food safety standards for the growing, harvesting, processing, packing, sorting, transporting, and holding of those types of raw agricultural commodities—

“(1) that are a fruit, vegetable, nut, or fungus; and

“(2) for which the Secretary has determined that such standards are reasonably necessary to minimize the risk of serious adverse health consequences or death to humans or animals.

“(b) CONTENTS.—The regulations under subsection (a)—

“(1) may set forth such procedures, processes, and practices as the Secretary determines to be reasonably necessary—

“(A) to prevent the introduction of known or reasonably foreseeable biological, chemical, and physical hazards, including hazards that occur naturally, may be unintentionally introduced, or may be intentionally introduced, including by acts of terrorism, into raw agricultural commodities that are a fruit, vegetable, nut, or fungus; and

“(B) to provide reasonable assurances that such commodity is not adulterated under section 402;

“(2) may include, with respect to growing, harvesting, processing, packing, sorting, transporting, and storage operations, standards for safety as the Secretary determines to be reasonably necessary;

“(3) may include standards addressing manure use, water quality, employee hygiene, sanitation and animal control, and temperature controls, as the Secretary determines to be reasonably necessary;

“(4) may include standards for such other elements as the Secretary determines necessary to carry out subsection (a);

“(5) shall provide a reasonable period of time for compliance, taking into account the needs of small businesses for additional time to comply;

“(6) may provide for coordination of education and enforcement activities;

“(7) shall take into consideration, consistent with ensuring enforceable public health protection, the impact on small-scale and diversified farms, and on wildlife habitat, conservation practices, watershed-protection efforts, and organic production methods;

“(8) may provide for coordination of education and training with other government agencies, universities, private entities, and others with experience working directly with farmers; and

“(9) may provide for recognition through guidance of other existing publicly available procedures, processes, and practices that the Secretary determines to be equivalent to those established under paragraph (1).

“(c) EDUCATION AND COMPLIANCE.—The Secretary shall coordinate with the Secretary of Agriculture to provide for effective implementation of education and compliance activities. The Secretary may contract and coordinate with the agency or department designated by the Governor of each State to perform activities to ensure compliance with this section.”.

(c) TIMING.—

(1) PROPOSED RULE.—Not later than 18 months after the date of enactment of this Act, the Secretary of Health and Human Services shall issue a proposed rule to carry out section 419A of the Federal Food, Drug,

and Cosmetic Act, as added by subsection (b).

(2) FINAL RULE.—Not later than 3 years after such date, the Secretary of Health and Human Services shall issue a final rule under such section.

(d) NO EFFECT ON EXISTING HACCP AUTHORITIES.—Nothing in this section or the amendments made by this section limits the authority of the Secretary under the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 301 et seq.) or the Public Health Service Act (42 U.S.C. 201 et seq.), as in effect on the day before the date of the enactment of this Act, to revise, issue, or enforce product- and category-specific regulations, such as the Seafood Hazard Analysis Critical Controls Points Program, the Juice Hazard Analysis Critical Control Program, and the Thermally Processed Low-Acid Foods Packaged in Hermetically Sealed Containers standards.

(e) UPDATE EXISTING GUIDANCE.—Not later than 1 year after the date of the enactment of this Act, the Secretary of Health and Human Services shall update the guidance document entitled “Guidance For Industry: Guide To Minimize Microbial Food Safety Hazards For Fresh Fruits And Vegetables” (issued on October 26, 1998) in accordance with this section and the amendments made by this section.

SEC. 105. RISK-BASED INSPECTION SCHEDULE.

(a) IN GENERAL.—Section 704 (21 U.S.C. 374) is amended by adding at the end the following:

“(h)(1) Each facility registered under section 415 shall be inspected—

“(A)(i) by one or more officers duly designated under section 702 or other statutory authority by the Secretary;

“(ii) for domestic facilities, by a Federal, State, or local official recognized by the Secretary under paragraph (2); or

“(iii) for foreign facilities, by an agency or a representative of a country that is recognized by the Secretary under paragraph (2); and

“(B) at a frequency determined pursuant to a risk-based schedule.

“(2) For purposes of paragraph (1)(A), the Secretary—

“(A) may recognize Federal, State, and local officials and agencies and representatives of foreign countries as meeting standards established by the Secretary for conducting inspections under this Act; and

“(B) may limit such recognition to inspections of specific commodities or food types.

“(3) The risk-based schedule under paragraph (1)(B) shall be implemented beginning not later than 18 months after the date of the enactment of this subsection.

“(4) Such risk-based schedule shall provide for a frequency of inspections commensurate with the risk presented by the facility and shall be based on the following categories and inspection frequencies:

“(A) CATEGORY 1.—A category 1 food facility is a high-risk facility that manufactures or processes food. The Secretary shall randomly inspect a category 1 food facility at least every 6 to 12 months.

“(B) CATEGORY 2.—A category 2 food facility is a low-risk facility that manufactures or processes food or a facility that packs or labels food. The Secretary shall randomly inspect a category 2 facility at least every 18 months to 3 years.

“(C) CATEGORY 3.—A category 3 food facility is a facility that holds food. The Secretary shall randomly inspect a category 3 facility at least every 5 years.

“(5) The Secretary—

“(A) may, by guidance, modify the types of food facilities within a category under paragraph (4);

“(B) may alter the inspection frequencies specified in paragraph (4) based on the need to respond to food-borne illness outbreaks and food recalls; and

“(C) may inspect a facility more frequently than the inspection frequency provided by paragraph (4);

“(D) beginning 6 months after submitting the report required by section 105(b)(2) of the Food Safety Enhancement Act of 2009, may—

“(i) publish in the Federal Register adjustments to the inspection frequencies specified in subparagraphs (B) and (C) of paragraph (4) for category 2 and category 3 food facilities, which adjustments shall be in accordance with the Secretary’s recommendations in such report; and

“(ii) after such publication, implement the adjustments; and

“(E) except as provided in subparagraphs (B) and (C), may not alter the inspection frequency specified in paragraph (4)(A) for category 1 food facilities.

“(6) In determining the appropriate frequency of inspection, the Secretary shall consider—

“(A) the type of food manufactured, processed, packed, or held at the facility;

“(B) the compliance history of the facility;

“(C) whether the facility importing or offering for import into the United States food is certified by a qualified certifying entity in accordance with section 801(q); and

“(D) such other factors as the Secretary determines by guidance to be relevant to assessing the risk presented by the facility.

“(7) Before establishing or modifying the categorization under paragraph (4) of any food facility or type of food facility, the Secretary shall publish a notice of the proposed categorization in the Federal Register and provide a period of not less than 60 days for public comment on the proposed categorization.”

(b) REPORTS ON RISK-BASED INSPECTIONS OF FOOD FACILITIES.—

(1) ANNUAL REPORT.—Not later than December 31 of each year, the Secretary of Health and Human Services shall submit a report to the Committee on Energy and Commerce of the House of Representatives and the Committee on Health, Education, Labor, and Pensions of the Senate describing—

(A) the number of foreign and domestic facilities, by risk category, inspected under the risk-based inspection schedule established under section 704(h) of the Federal Food, Drug, and Cosmetic Act, as added by subsection (a), in the preceding fiscal year; and

(B) the costs of implementing the risk-based inspection schedule for the preceding 12 months.

(2) THIRD-YEAR REPORT.—Not later than 3 years after the date of the enactment of this Act, the Secretary of Health and Human Services shall submit a report to the Committee on Energy and Commerce of the House of Representatives and the Committee on Health, Education, Labor, and Pensions of the Senate describing recommendations on the risk-based inspection schedule under section 704(h) of the Federal Food, Drug, and Cosmetic Act, as added by subsection (a), including recommendations for adjustments to the timing of the schedule and other ways to improve the risk-based allocation of resources by the Food and Drug Administration. In making such recommendations, the Secretary shall consider—

(A) the nature of the food products being processed, stored, or transported;

(B) the manner in which food products are processed, stored, or transported;

(C) the inherent likelihood that the products will contribute to the risk of food-borne illness;

(D) the best available evidence concerning reported illnesses associated with the foods processed, stored, held, or transported in the category of facilities; and

(E) the overall record of compliance with food safety law among facilities in the category, including compliance with applicable performance standards and the frequency of recalls.

SEC. 106. ACCESS TO RECORDS.

(a) RECORDS ACCESS.—Subsection (a) of section 414 (21 U.S.C. 350c) is amended to read as follows:

“(a) RECORDS ACCESS.—

“(1) RECORDS ACCESS DURING AN INSPECTION.—

“(A) IN GENERAL.—Except as provided in paragraph (3), each person who manufactures, processes, packs, transports, distributes, receives, or holds an article of food in the United States or for import into the United States shall, at the request of an officer or employee duly designated by the Secretary, permit such officer or employee, upon presentation of appropriate credentials, at reasonable times and within reasonable limits and in a reasonable manner, to have access to and copy all records relating to such article bearing on whether the food may be adulterated, misbranded, or otherwise in violation of this Act, including all records collected or developed to comply with section 418 or 418A.

“(B) SCOPE OF RECORDS.—The requirement under subparagraph (A) applies to all records relating to the manufacture, processing, packing, transporting, distribution, receipt, holding, or importation of such article maintained by or on behalf of such person in any format (including paper and electronic formats) and at any location.

“(C) IMMEDIATE AVAILABILITY WITH NOTICE.—Records not required to be made available immediately on commencement of an inspection under subparagraph (A) shall nonetheless be made available immediately on commencement of such an inspection if, by a reasonable time before such inspection, the Secretary by letter to the person identifies the records to be made available during such inspection. Nothing in this subparagraph shall be construed as permitting a person to refuse to produce records required under and in accordance with subparagraph (A) due to failure of the Secretary to provide notice under this paragraph.

“(2) ADDITIONAL AUTHORITIES TO ACCESS RECORDS REMOTELY; SUBMISSION OF RECORDS TO THE SECRETARY.—

“(A) REMOTE ACCESS IN EMERGENCIES.—If the Secretary has a reasonable belief that an article of food presents a threat of serious adverse health consequences or death to humans or animals, the Secretary may require each person who manufactures, processes, packs, transports, distributes, receives, holds, or imports such article of food, or any article of food that the Secretary determines may be affected in a similar manner, to submit to the Secretary all records reasonably related to such article of food as soon as is reasonably practicable, after receiving written notice (including by notice served personally and outside normal business hours to an agent identified under subparagraph (E) or (F) of section 415(a)(2)) of such requirement.

“(B) REMOTE ACCESS TO RECORDS RELATED TO FOOD SAFETY PLANS.—With respect to a facility subject to section 418 and 418A, the Secretary may require the owner, operator,

or agent of such facility to submit to the Secretary, as soon as reasonably practicable after receiving written notice of such requirement, the food safety plan, supporting information relied on by the facility to select the preventive controls to include in its food safety plan, and documentation of corrective actions, if any, taken under section 418(e) within the preceding 2 years.

“(C) ELECTRONIC SUBMISSION.—If the records required to be submitted to the Secretary under subparagraph (A) or (B) are available in electronic format, such records shall be submitted electronically unless the Secretary specifies otherwise in the notice under such subparagraph.

“(3) LIMITED RECORDS ACCESS ON FARMS.—

“(A) APPLICATION.—Paragraphs (1) and (2) do not apply with respect to farms, except as provided in this paragraph.

“(B) IN GENERAL.—A person who is the owner, operator, or agent of a farm (as defined in section 415) shall, at the request of an officer or employee duly designated by the Secretary, permit such officer or employee, at reasonable times and within reasonable limits and in a reasonable manner, to have access to and copy all records relating to an article of food produced, manufactured, processed, packed, or held on such farm as specified in paragraphs (1) and (2) if—

“(i) such article of food is a fruit, vegetable, nut, or fungus that is the subject of a standard issued under section 419A; or

“(ii) such article of food is the subject of an active investigation by the Secretary of a food borne illness outbreak and is not a grain or similarly handled commodity as defined in subsection (c)(4)(C)(ii).

“(C) RECORDS ACCESS ON FARMS PRIOR TO RULEMAKING.—

“(i) IN GENERAL.—As soon as practicable after the enactment of this paragraph, the Secretary shall, in coordination with the Secretary of Agriculture, identify 1 or more fruits, vegetables, nuts, or fungi for which the Secretary shall have access to records on farms. Such identification shall be made by guidance, following notice and public comment.

“(ii) IDENTIFICATION OF RAW AGRICULTURAL COMMODITIES.—The Secretary, in coordination with the Secretary of Agriculture, shall make the identification in clause (i), based on any past food borne illness outbreak attributed to the fruit, vegetable, nut, or fungus—

“(I) in the United States and the risk that a similar outbreak could occur again in the United States; or

“(II) in a foreign country and the risk that a similar outbreak could occur in the United States.

“(iii) DURATION OF AUTHORITY.—The authority to have access to records for a fruit, vegetable, nut, or fungus under this subparagraph shall begin on the date on which the Secretary identifies such fruit, vegetable, nut, or fungus under clause (i) and shall terminate on the effective date of a final rule issued by the Secretary under section 419A.

“(iv) SCOPE OF RECORDS ACCESS.—In the guidance under clause (i), and for the period specified in clause (iii), the Secretary, in coordination with the Secretary of Agriculture, shall determine the scope of the records to which the Secretary shall have access under this subparagraph.

“(D) RULE OF CONSTRUCTION.—This paragraph shall not be construed as limiting access to any records authorized under—

“(i) this Act or the Public Health Service Act, as in effect on the day before the date of the enactment of this paragraph; or

“(ii) regulations issued under such Acts on any date before the date of the enactment of this paragraph.”.

(b) REGULATIONS CONCERNING RECORD-KEEPING.—

(1) AMENDMENT.—Subsection (b) of section 414 (21 U.S.C. 350c) is amended to read as follows:

“(b) REGULATIONS CONCERNING RECORD-KEEPING.—The Secretary, in consultation and coordination, as appropriate, with other Federal departments and agencies with responsibilities for regulating food safety, shall by regulation establish requirements regarding the establishment and maintenance, for not longer than 3 years, of records by persons who manufacture, process, pack, transport, distribute, receive, or hold food in the United States or for import into the United States. The Secretary shall take into account the size of a business in promulgating regulations under this subsection. The Secretary shall consult with the Secretary of Agriculture in promulgating regulations with respect to farms under this subsection and shall take into account the nature of and impact on farms in promulgating such regulations. The only distribution records which may be required of restaurants under this subsection are those showing the restaurant's suppliers and subsequent distribution other than to consumers.”.

(2) APPLICATION.—The Secretary of Health and Human Services shall promulgate revised regulations to implement section 414(b) of the Federal Food, Drug, and Cosmetic Act, as amended by this subsection. Section 414(b) of the Federal Food, Drug, and Cosmetic Act and regulations thereunder, as in effect on the day before the date of the enactment of this Act, shall apply to acts and omissions occurring before the effective date of such revised regulations.

(c) CONFORMING AMENDMENTS.—Section 704(a)(1) (21 U.S.C. 374(a)(1)) is amended—

(1) in the second sentence—

(A) by striking “(excluding farms or restaurants)” and inserting “(excluding farms, except as provided in section 414(a)(3))”;

(B) by inserting “receives,” before “holds”;

(C) by striking “described in section 414” and inserting “described in or required under section 414”; and

(D) by striking “when the Secretary has a reasonable belief that an article of food is adulterated and presents a threat of serious adverse health consequences or death to humans or animals” and inserting “bearing on whether such food is adulterated, misbranded, or otherwise in violation of this Act, including all records collected or developed to comply with section 418 or 418A”; and

(2) in the fourth sentence—

(A) by striking “the preceding sentence” and inserting “either of the preceding two sentences”; and

(B) by inserting “recipes for food,” before “financial data.”.

SEC. 107. TRACEABILITY OF FOOD.

(a) PROHIBITED ACT.—Section 301(e) (21 U.S.C. 331(e)) is amended by inserting “, the violation of any requirement of the food tracing system under section 414(c);” before “or the refusal to permit access to or verification or copying of any such required record”.

(b) IMPORTS.—Section 801(a) (21 U.S.C. 381(a)) is amended by inserting “or (4) the requirements of section 414 have not been complied with regarding such article,” before “then such article shall be refused admission”.

(c) PRODUCT TRACING FOR FOOD.—Section 414 (21 U.S.C. 350c), as amended by section 106, is amended—

(1) by redesignating subsections (c) and (d) as subsections (d) and (e), respectively; and

(2) by inserting after subsection (b) the following:

“(c) TRACING SYSTEM FOR FOOD.—

“(1) IN GENERAL.—The Secretary shall by regulation establish a tracing system for food that is located in the United States or is for import into the United States.

“(2) INFORMATION GATHERING.—

“(A) TRACING TECHNOLOGIES.—Before issuing a proposed regulation under this subsection, the Secretary shall—

“(i) identify technologies and methodologies for tracing the distribution history of a food that are, or may be, used by members of different sectors of the food industry, including technologies and methodologies to enable each person who produces, manufactures, processes, pack, transports, or holds a food to—

“(I) maintain the full pedigree of the origin and previous distribution history of the food;

“(II) link that history with the subsequent distribution of the food;

“(III) establish and maintain a system for tracing the food that is interoperable with the systems established and maintained by other such persons; and

“(IV) use a unique identifier for each facility owned or operated by such person for such purpose, as specified under section 1011; and

“(ii) to the extent practicable, assess—

“(I) the costs and benefits associated with the adoption and use of such technologies;

“(II) the feasibility of such technologies for different sectors of the food industry; and

“(III) whether such technologies are compatible with the requirements of this subsection.

“(B) PUBLIC MEETINGS.—Before issuing a proposed regulation under this subsection, the Secretary shall conduct not less than 2 public meetings in diverse geographical areas of the United States to provide persons in different regions an opportunity to provide input and information to the Secretary.

“(C) PILOT PROJECTS.—Before issuing a proposed regulation under this subsection, the Secretary shall conduct 1 or more pilot projects in coordination with 1 or more sectors of the food industry to explore and evaluate tracing systems for food. The Secretary shall coordinate with the Secretary of Agriculture in conducting pilot projects with respect to farms under this subsection.

“(3) REGULATION.—

“(A) IN GENERAL.—Taking into account information obtained through information gathering under paragraph (2), the Secretary shall issue regulations establishing a tracing system that enables the Secretary to identify each person who grows, produces, manufactures, processes, packs, transports, holds, or sells such food in as short a timeframe as practicable but no longer than 2 business days.

“(B) SCOPE OF REGULATION.—The Secretary may include in the regulations establishing a tracing system—

“(i) the establishment and maintenance of lot numbers;

“(ii) a standardized format for pedigree information; and

“(iii) the use of a common nomenclature for food.

“(C) COORDINATION REGARDING FARM IMPACT.—In issuing regulations under this paragraph that will impact farms, the Secretary—

“(i) shall coordinate with the Secretary of Agriculture; and

“(ii) take into account the nature of the impact of the regulations on farms.

“(4) EXEMPTIONS AND LIMITATIONS.—

“(A) DIRECT SALES BY FARMS.—Food is exempt from the requirements of this subsection if such food is—

“(i) produced on a farm; and

“(ii) sold by the owner, operator, or agent in charge of such farm directly to a consumer or to a restaurant or grocery store.

“(B) FISHING VESSELS.—Food is exempt from the requirements of this subsection if such food is produced through the use of a fishing vessel as defined in section 3(18) of the Magnuson-Stevens Fishery Conservation and Management Act until such time as the food is sold by the owner, operator, or agent in charge of such fishing vessel.

“(C) GRAINS AND SIMILARLY HANDLED COMMODITIES.—

“(i) LIMITATION ON EXTENT OF TRACING.—In addition to the exemption under subparagraph (A), any tracing system established under this subsection with regard to any grain or similarly handled commodity shall be limited to enabling the Secretary to identify persons who received, processed, packed, transported, distributed, held, or sold the grain or similarly handled commodity from the initial warehouse operator that held the grain or similarly handled commodity for any period of time to the ultimate consumer.

“(ii) DEFINITIONS.—In this subparagraph:

“(I) The term ‘grain or similarly handled commodity’ means wheat, corn, grain sorghum, barley, oats, rice, wild rice, rye, soybeans, legumes, sugar cane, sugar beets, sunflower seed, rapeseed, canola, safflower, flaxseed, mustard seed, crambe, sesame seed, camelina, cottonseed, cocoa beans, grass hay, and honey. The term may include any other commodity as determined by the Secretary in coordination with the Secretary of Agriculture.

“(II) The term ‘warehouse operator’ has the meaning given that term in section 2 of the United States Warehouse Act (7 U.S.C. 241), except that the term also includes any person or entity that handles or stores agricultural products for other persons or entities or, in the case of a cooperative, handles or stores agricultural products for its members, as determined by the Secretary in coordination with the Secretary of Agriculture.

“(D) EXEMPTION OF OTHER FOODS.—The Secretary may by notice in the Federal Register exempt a food or a type of facility, farm, or restaurant from, or modify the requirements with respect to, the requirements of this subsection if the Secretary determines that a tracing system for such food or type of facility, farm, or restaurant is not necessary to protect the public health.

“(E) RECORDKEEPING REGARDING PREVIOUS SOURCES AND SUBSEQUENT RECIPIENTS.—For a food or person covered by a limitation or exemption under subparagraph (B), (C), or (D), the Secretary shall require each person who produces, receives, manufactures, processes, packs, transports, distributes, or holds such food to maintain records to identify the immediate previous sources of such food and its ingredients and the immediate subsequent recipients of such food.

“(F) RECORDKEEPING BY RESTAURANTS AND GROCERY STORES.—For a food covered by an exemption under subparagraph (A), restaurants and grocery stores shall keep records documenting the farm that was the source of the food.

“(G) RECORDKEEPING BY FARMS.—For a food covered by an exemption under subparagraph

(A), farms shall keep records, in electronic or non-electronic format, for at least 6 months documenting the restaurant or grocery store to which the food was sold.”

SEC. 108. REINSPECTION AND FOOD RECALL FEES APPLICABLE TO FACILITIES.

(a) IN GENERAL.—Part 6 of subchapter C of chapter VII (21 U.S.C. 371 et seq.), as added by section 101(c), is amended by adding at the end the following:

“SEC. 743A. REINSPECTION AND FOOD RECALL FEES APPLICABLE TO FACILITIES.

“(a) IN GENERAL.—The Secretary shall assess and collect fees from each entity in a fiscal year—

“(1) that—

“(A) during such fiscal year commits a violation of any requirement of this Act relating to food, including any such requirement relating to good manufacturing practices; and

“(B) because of such violation, undergoes additional inspection by the Food and Drug Administration; or

“(2) during such fiscal year is subject to a food recall.

“(b) AMOUNT OF FEES.—The Secretary shall set the amount of the fees under this section to fully cover the costs of—

“(1) in the case of fees collected under subsection (a)(1), conducting the additional inspections referred to in such subsection; and

“(2) in the case of fees collected under subsection (a)(2), conducting food recall activities, including technical assistance, follow-up effectiveness checks, and public notifications, during the fiscal year involved.

“(c) CREDITING AND AVAILABILITY OF FEES.—

“(1) IN GENERAL.—Fees authorized under subsection (a) shall be collected and available for obligation only to the extent and in the amount provided in advance in appropriations Acts. Such fees are authorized to remain available until expended. Such sums as may be necessary may be transferred from the Food and Drug Administration salaries and expenses appropriation account without fiscal year limitation to such appropriation account for salaries and expenses with such fiscal year limitation.

“(2) COLLECTIONS AND APPROPRIATIONS ACTS.—The fees authorized by this section—

“(A) shall be retained in each fiscal year in an amount not to exceed the amount specified in appropriation Acts, or otherwise made available for obligation, for such fiscal year; and

“(B) shall only be collected and available to defray the costs referred to in subsection (b).

“(3) AUTHORIZATION OF APPROPRIATIONS.—For each of fiscal years 2010 through 2014, there are authorized to be appropriated for fees under this section such sums as may be necessary.

“(d) WAIVER.—The Secretary shall waive and, if applicable, refund the amount of any fee collected under this section from an entity as a result of a food recall that the Secretary determines was inappropriately ordered.”

(b) EFFECTIVE DATE.—The amendment made by subsection (a) shall apply to additional inspections and food recall activities occurring after the date of the enactment of this Act.

SEC. 109. CERTIFICATION AND ACCREDITATION.

(a) MISBRANDING.—

(1) IN GENERAL.—Section 403 (21 U.S.C. 343), as amended by section 101(a), is amended by adding at the end the following:

“(aa) If it is part of a shipment offered for import into the United States and such ship-

ment is in violation of section 801(q) (requiring a certification of compliance for certain food shipments).”

(2) EFFECTIVE DATE.—The amendment made by paragraph (1) shall apply to shipments offered for import on or after the date that is 3 years after the date of the enactment of this Act.

(b) CERTIFICATION OF COMPLIANCE FOR IMPORTS.—Chapter VIII (21 U.S.C. 381 et seq.) is amended—

(1) in section 801(a), as amended by section 107(b), by inserting after the third sentence the following: “If such article is food being imported or offered for import into the United States and is not in compliance with the requirement of subsection (q) (relating to certifications of compliance with this Act), then such article shall be refused admission.”;

(2) in the second sentence of section 801(b), by striking “the fourth sentence” and inserting “the fifth sentence”; and

(3) by adding at the end of section 801 the following:

“(q) CERTIFICATIONS CONCERNING IMPORTED ARTICLES.—

“(1) IN GENERAL.—

“(A) REQUIREMENT.—The Secretary may require, as an additional condition of granting admission to an article of food being imported or offered for import into the United States, that a qualified certifying entity provide a certification that the article complies with requirements of this Act as specified by the Secretary if—

“(i) for food imported from a particular country, territory, or region, the Secretary finds, based on scientific, risk-based evidence, that the government controls in such country, territory, or region are inadequate to ensure that the article is safe and that certification would assist the Secretary in determining whether to refuse to admit such article under subsection (a);

“(ii) for a type of food for which there is scientific evidence that there is a particular risk associated with the food that presents a threat of serious adverse health consequences or death, the Secretary finds that certification would assist the Secretary in determining whether to refuse to admit such article under subsection (a); or

“(iii) for an article imported from a particular country or territory, there is an agreement between the Secretary and the government of such country or territory providing for such certification.

“(B) FORM OF CERTIFICATION.—A certification under subparagraph (A) may take the form of a statement that the article or the facility or farm that manufactured, processed, packed, held, grew, harvested, sorted, or transported the article, as the case may be, complies with requirements of this Act as specified by the Secretary, or any other form as the Secretary may specify, including a listing of certified facilities or other entities. The Secretary may require that the certification include additional information regarding compliance.

“(C) ADEQUATE GOVERNMENT CONTROLS.—

“(i) PROCESS.—Before requiring a certification under clause (ii) of subparagraph (A) with respect to a food, the Secretary shall establish a process by which a country or territory may demonstrate that its government controls are adequate to ensure that such food exported from its territory to the United States is safe.

“(ii) DEMONSTRATION.—The Secretary shall not require a certification under clause (ii) of subparagraph (A) for a food exported from a country or territory, if that country or ter-

ritory has demonstrated, pursuant to the process established by the Secretary under clause (i), that its government controls are adequate to ensure that such food exported from its territory to the United States is safe.

“(D) NOTICE OF CANCELLATION OR SUSPENSION OF CERTIFICATION.—As a condition on acceptance of certifications from a qualified certifying entity, the Secretary shall require the qualified certifying entity to notify the Secretary whenever the qualified certifying entity cancels or suspends the certification of any facility or other entity included in a listing under subparagraph (B).

“(E) CONSISTENCY WITH INTERNATIONAL OBLIGATIONS.—The Secretary shall apply this paragraph consistently with United States obligations under international agreements.

“(2) QUALIFIED CERTIFYING ENTITY.—For purposes of this subsection, the term ‘qualified certifying entity’ means—

“(A) an agency or a representative of the government of the country from which the article originated, as designated by such government or the Secretary; or

“(B) an individual or entity determined by the Secretary or an accredited body recognized by the Secretary to be qualified to provide a certification under paragraph (1).

“(3) NO CONFLICTS OF INTEREST.—

“(A) IN GENERAL.—The Secretary shall issue regulations to ensure that any qualified certifying entity and its auditors are free from conflicts of interest. In issuing these regulations, the Secretary may rely on or incorporate international certification standards.

“(B) REGULATIONS.—Such regulations shall require that—

“(i) the qualified certifying entity shall have a committee or management structure for safeguarding impartiality;

“(ii) conflict of interest policies for a qualified certifying entity and auditors acting for the qualified certifying entity shall be written;

“(iii) the qualified certifying entity shall not be owned, operated, or controlled by a producer, manufacturer, processor, packer, holder, supplier, or vendor of any article of the type it certifies;

“(iv) the qualified certifying entity shall not have any ownership or financial interest in any product, producer, manufacturer, processor, packer, holder, supplier or vendor of the type it certifies;

“(v) no auditor acting for the qualified certifying entity (or spouse or minor children) shall have any significant ownership or other financial interest regarding any product of the type it certifies;

“(vi) the qualified certifying entity shall—

“(I) obtain and maintain annual declarations from all personnel who may be directly involved in the performance of audits as to whether they do or do not have direct financial interests in any producer, manufacturer, processor, packer, holder, supplier, or vendor of foods, and a list of any such companies in which they do have financial interests or by which they were employed in the past year; and

“(II) when an auditor is assigned to audit a facility, require that individual to affirm that he or she has no financial interest in the company that owns or operates that facility and was not employed by that facility in the previous year;

“(vii) neither the qualified certifying entity nor any of its auditors acting for the qualified certifying entity shall participate in the production, manufacture, processing, packing, holding, promotion, or sale of any product of the type it certifies;

“(viii) neither the qualified certifying entity nor any of its auditors shall provide consultative services to any facility certified by the qualified certifying entity, or the owner, operator, or agent in charge of such a facility, unless the qualified certifying entity has procedures in place, approved by the Secretary, to ensure separation of functions between auditors providing consultative services and auditors providing certification services under this subsection;

“(ix) no auditors acting for the qualified certifying entity shall participate in an audit of a facility they were employed by within the last 12 months;

“(x) fees charged or accepted shall not be contingent or based upon the report made by the qualified certifying entity or any personnel involved in the audit process;

“(xi) neither the qualified certifying entity nor any of its auditors shall accept anything of value from anyone in connection with the facility being audited other than the audit fee;

“(xii) the qualified certifying entity shall not be owned, operated, or controlled by a trade association whose member companies operate facilities that it certifies;

“(xiii) the qualified certifying entity and its auditors shall be free from any other conflicts of interest that threaten impartiality;

“(xiv) the qualified certifying entity and its auditors shall sign a statement attesting to compliance with the conflict of interests requirements under this paragraph; and

“(xv) the qualified certifying entity shall ensure that any subcontractors that might be used (such as laboratories and sampling services) provide similar assurances, except that it shall not be a violation of this subsection to the extent such subcontractors perform additional nutritional testing services unrelated to the testing under this subsection.

“(C) DEFINITIONS.—In this paragraph:

“(i) The term ‘anything of value’ includes gifts, gratuities, reimbursement of non-audit-related expenses, entertainment, loans, or any other form of compensation in cash or in kind.

“(ii) The term ‘direct financial interest’ does not include any ownership of mutual funds that have a financial interest in a company.

“(4) RENEWAL AND REFUSAL OF CERTIFICATIONS.—The Secretary shall—

“(A) require that, to the extent applicable, any certification provided by a qualified certifying entity be renewed by such entity at such times as the Secretary determines appropriate; and

“(B) refuse to accept any certification if the Secretary determines that such certification is no longer valid or reliable.

“(5) ON-SITE AUDITS.—In evaluating whether an accreditation body meets, or continues to meet, the standards for recognition under this subsection, or whether to accept certifications from a qualified certifying entity, the Secretary may—

“(A) observe on-site audits of qualified certifying entities by such accreditation body; or

“(B) for any facility that is certified by a qualified certifying entity, upon request of an officer or employee designated by the Secretary and upon presentation of appropriate credentials, at reasonable times and within reasonable limits and in a reasonable manner, conduct an on-site audit of the facility, which shall include access to, and copying and verification of, any related records.

“(6) ELECTRONIC SUBMISSION.—The Secretary shall provide, in coordination with

the Commissioner responsible for Customs and Border Protection, for the electronic submission of certifications under this subsection.

“(7) NO LIMIT ON AUTHORITY.—This subsection shall not be construed to limit the authority of the Secretary to conduct random inspections of imported articles or facilities of importers, issue import alerts for detention without physical examination, require submission to the Secretary of documentation or other information about an article imported or offered for import, or to take such other steps as the Secretary deems appropriate to determine the admissibility of imported articles.”.

SEC. 110. TESTING BY ACCREDITED LABORATORIES.

(a) PROHIBITED ACT.—Section 301 (21 U.S.C. 331) is amended by adding at the end the following:

“(uu) The violation of any requirement of section 714 (relating to testing by accredited laboratories).”.

(b) LABORATORY ACCREDITATION.—Subchapter A of chapter VII (21 U.S.C. 371 et seq.) is amended by adding at the end the following:

“SEC. 714. TESTING BY ACCREDITED LABORATORIES.

“(a) IN GENERAL.—

“(1) REQUIREMENT.—Whenever analytical testing of an article of food is conducted as part of testimony for the purposes of section 801(a), or for such other purposes as the Secretary deems appropriate through regulation or guidance, such testing shall be conducted by a laboratory that—

“(A) is accredited, for the analytical method used, by a laboratory accreditation body that has been recognized by the Secretary; and

“(B) samples such article with adequate controls for ensuring the integrity of the samples analyzed.

“(2) INDEPENDENCE OF LABORATORY.—

“(A) CERTAIN TESTS.—Tests required for purposes of section 801(a) or in response to a finding of noncompliance by the Secretary shall be conducted by a laboratory independent of the person on whose behalf such testing is conducted and analyzed.

“(B) CERTAIN PRODUCTS.—The Secretary may require that testing for certain products under paragraph (1) be conducted by a laboratory independent of the person on whose behalf such testing is conducted.

“(b) RECOGNITION OF LABORATORY ACCREDITATION BODIES.—The Secretary shall establish and implement a program for the recognition, based on standards the Secretary deems appropriate, of laboratory accreditation bodies that accredit laboratories to perform analytical testing for the purposes of this section. The Secretary shall issue regulations or guidance to implement this program.

“(c) ONSITE AUDITS.—In evaluating whether an accreditation body meets, or continues to meet, the standards for recognition under subsection (b), the Secretary may—

“(1) observe onsite audits of laboratories by such accreditation bodies; or

“(2) for any laboratory that is accredited by such accreditation body under this section, upon request of an officer or employee designated by the Secretary and upon presentation of appropriate credentials, at reasonable times and within reasonable limits and in a reasonable manner, conduct an on-site audit of the laboratory, which shall include access to, and copying and verification of, any related records.

“(d) PUBLICATION OF LIST OF RECOGNIZED ACCREDITATION BODIES.—The Secretary shall

publish and maintain on the public Web site of the Food and Drug Administration a list of accreditation bodies recognized by the Secretary under subsection (b).

“(e) NOTIFICATION OF ACCREDITATION OF LABORATORY.—An accreditation body that has been recognized pursuant to this section shall promptly notify the Secretary whenever it accredits a laboratory for the purposes of this section and whenever it withdraws or suspends such accreditation.

“(f) ADVANCE NOTICE.—Whenever analytical testing is conducted pursuant to subsection (a), the person on whose behalf the testing is conducted shall notify the Secretary before any sample of the article is collected. Such notice shall contain information the Secretary determines is appropriate to identify the article, the location of the article, and each laboratory that will analyze the sample on the person's behalf.

“(g) CONTENTS OF LABORATORY PACKAGES.—Whenever analytical testing is conducted pursuant to subsection (a), the laboratory conducting such testing shall submit, directly to the Secretary—

“(1) the results of all analyses conducted by the laboratory on each sample of such article; and

“(2) all information the Secretary deems appropriate to—

“(A) determine whether the laboratory is accredited by a recognized laboratory accreditation body;

“(B) identify the article tested;

“(C) evaluate the analytical results; and

“(D) determine whether the requirements of this section have been met.

“(h) EXIGENT CIRCUMSTANCES.—The Secretary may waive the requirement of subsection (a)(1)(A) (relating to analytical methods) on a laboratory or method basis due to exigent or other circumstances.

“(i) FEDERAL LABORATORY TESTING.—If Customs and Border Protection laboratory testing concludes that an article of food is adulterated or misbranded, the Secretary shall consider and utilize as appropriate the testing results issued by the Customs and Border Protection laboratories in making a decision about the admissibility of the product.

“(j) NO LIMIT ON AUTHORITY.—Nothing in this section shall be construed to limit—

“(1) the ability of the Secretary to review and act upon information from the analytical testing of food (including under this section), including determining the sufficiency of such information and testing; or

“(2) the authority of the Secretary to conduct, require, or consider the results of analytical testing pursuant to any other provision of law.”.

SEC. 111. NOTIFICATION, NONDISTRIBUTION, AND RECALL OF ADULTERATED OR MISBRANDED FOOD.

(a) PROHIBITED ACTS.—Section 301 (21 U.S.C. 331), as amended by section 110, is amended by adding at the end the following:

“(vv)(1) The failure to notify the Secretary in violation of section 420(a).

“(2) The failure to comply with any order issued under section 420.”.

(b) NOTIFICATION, NONDISTRIBUTION, AND RECALL OF ADULTERATED OR MISBRANDED FOOD.—Chapter IV (21 U.S.C. 341 et seq.), as amended by sections 102, 103, and 104, is amended by adding at the end the following:

“SEC. 420. NOTIFICATION, NONDISTRIBUTION, AND RECALL OF ADULTERATED OR MISBRANDED FOOD.

“(a) NOTIFICATION, NONDISTRIBUTION, AND RECALL OF ADULTERATED OR MISBRANDED FOOD.—

“(1) IN GENERAL.—A responsible party as that term is defined in section 417(a)(1) or a person required to register under section 801(s) that has reason to believe that an article of food when introduced into or while in interstate commerce, or while held for sale (regardless of whether the first sale) after shipment in interstate commerce, is adulterated or misbranded in a manner that presents a reasonable probability that the use or consumption of, or exposure to, the article (or an ingredient or component used in any such article) will cause a threat of serious adverse health consequences or death to humans or animals shall, as soon as practicable, notify the Secretary of the identity and location of the article.

“(2) MANNER OF NOTIFICATION.—Notification under paragraph (1) shall be made in such manner and by such means as the Secretary may require by regulation or guidance.

“(b) VOLUNTARY RECALL.—The Secretary may request that any person who distributes an article of food that the Secretary has reason to believe is adulterated, misbranded, or otherwise in violation of this Act voluntarily—

“(1) recall such article; and

“(2) provide for notice, including to individuals as appropriate, to persons who may be affected by the recall.

“(c) ORDER TO CEASE DISTRIBUTION.—If the Secretary has reason to believe that the use or consumption of, or exposure to, an article of food may cause serious adverse health consequences or death to humans or animals, the Secretary shall have the authority to issue an order requiring any person who distributes such article to immediately cease distribution of such article.

“(d) ACTION FOLLOWING ORDER.—Any person who is subject to an order under subsection (c) shall immediately cease distribution of such article and provide notification as required by such order, and may appeal within 24 hours of issuance such order to the Secretary. Such appeal may include a request for an informal hearing and a description of any efforts to recall such article undertaken voluntarily by the person, including after a request under subsection (b). Except as provided in subsection (f), an informal hearing shall be held as soon as practicable, but not later than 5 calendar days, or less as determined by the Secretary, after such an appeal is filed, unless the parties jointly agree to an extension. After affording an opportunity for an informal hearing, the Secretary shall determine whether the order should be amended to require a recall of such article. If, after providing an opportunity for such a hearing, the Secretary determines that inadequate grounds exist to support the actions required by the order, the Secretary shall vacate the order.

“(e) ORDER TO RECALL.—

“(1) AMENDMENT.—Except as provided under subsection (f), if after providing an opportunity for an informal hearing under subsection (d), the Secretary determines that the order should be amended to include a recall of the article with respect to which the order was issued, the Secretary shall amend the order to require a recall.

“(2) CONTENTS.—An amended order under paragraph (1) shall—

“(A) specify a timetable in which the recall will occur;

“(B) require periodic reports to the Secretary describing the progress of the recall; and

“(C) provide for notice, including to individuals as appropriate, to persons who may be affected by the recall.

In providing for such notice, the Secretary may allow for the assistance of health professionals, State or local officials, or other individuals designated by the Secretary.

“(3) NONDELEGATION.—An amended order under this subsection shall be ordered by the Secretary or an official designated by the Secretary. An official may not be so designated unless the official is the director of the district under this Act in which the article involved is located, or is an official senior to such director.

“(f) EMERGENCY RECALL ORDER.—

“(1) IN GENERAL.—If the Secretary has credible evidence or information that an article of food subject to an order under subsection (c) presents an imminent threat of serious adverse health consequences or death to humans or animals, the Secretary may issue an order requiring any person who distributes such article—

“(A) to immediately recall such article; and

“(B) to provide for notice, including to individuals as appropriate, to persons who may be affected by the recall.

“(2) ACTION FOLLOWING ORDER.—Any person who is subject to an emergency recall order under this subsection shall immediately recall such article and provide notification as required by such order, and may appeal within 24 hours after issuance such order to the Secretary. An informal hearing shall be held within as soon as practicable but not later than 5 calendar days, or less as determined by the Secretary, after such an appeal is filed, unless the parties jointly agree to an extension. After affording an opportunity for an informal hearing, the Secretary shall determine whether the order should be amended pursuant to subsection (e)(1). If, after providing an opportunity for such a hearing, the Secretary determines that inadequate grounds exist to support the actions required by the order, the Secretary shall vacate the order.

“(3) NONDELEGATION.—An order under this subsection shall be issued by the Commissioner of Food and Drugs, the Principal Deputy Commissioner, or the Associate Commissioner for Regulatory Affairs of the Food and Drug Administration.

“(g) NOTICE TO CONSUMERS AND HEALTH OFFICIALS.—The Secretary shall, as the Secretary determines to be necessary, provide notice of a recall order under this section to consumers to whom the article was, or may have been, distributed and to appropriate State and local health officials.

“(h) SAVINGS CLAUSE.—Nothing contained in this section shall be construed as limiting—

“(1) the authority of the Secretary to issue an order to cease distribution of, or to recall, an article under any other provision of this Act or the Public Health Service Act; or

“(2) the ability of the Secretary to request any person to perform a voluntary activity related to any article subject to this Act or the Public Health Service Act.”

(c) ARTICLES SUBJECT TO REFUSAL.—The third sentence of subsection (a) of section 801 (21 U.S.C. 381), as amended by section 107(b), is amended by inserting “or (5) such article is subject to an order under section 420 to cease distribution of or recall the article,” before “then such article shall be refused admission”.

(d) EFFECTIVE DATE.—Sections 301(vv)(1) and 420 of the Federal Food, Drug, and Cosmetic Act, as added by subsections (a) and (b), shall apply with respect to articles of food as of such date, not later than 1 year after the date of the enactment of this Act,

as the Secretary of Health and Human Services shall specify.

SEC. 112. REPORTABLE FOOD REGISTRY; EXCHANGE OF INFORMATION.

(a) REPORTABLE FOOD REGISTRY.—Section 417 (21 U.S.C. 350f) is amended—

(1) in subsection (a)(1), by striking “means a person” and all that follows through the end of paragraph (1) and inserting the following: “means—

“(A) a person who submits the registration under section 415(a) for a food facility that is required to be registered under section 415(a), at which such food is manufactured, processed, packed, or held;

“(B) a person who owns, operates, is an agent of, or is otherwise responsible for such food on a farm (as such term is defined in section 1.227(b)(3) of title 21, Code of Federal Regulations, or successor regulations) at which such food is produced for sale or distribution in interstate commerce;

“(C) a person who owns, operates, or is an agent of a restaurant or other retail food establishment (as such terms are defined in section 1.227(b)(11) and (12), respectively, of title 21, Code of Federal Regulations, or successor regulations) at which such food is offered for sale; or

“(D) a person that is required to register pursuant to section 801(s) with respect to importation of such food.”;

(2) in subsection (b), by adding at the end the following:

“(3) REPORTING BY FARMS, RESTAURANTS, AND RETAIL FOOD ESTABLISHMENTS.—In addition to the electronic portal described in paragraph (1), the Secretary shall make available alternative means of reporting under this section with respect to farms, restaurants, and other retail food establishments with limited ability for such reporting.”;

(3) in subsection (d)(1)—

(A) in the matter preceding subparagraph (A), by inserting “following a timely review of any reasonably available data and information,” after “reportable food.”;

(B) in subparagraph (A), by striking “and” at the end;

(C) by redesignating subparagraph (B) as subparagraph (C); and

(D) by inserting after subparagraph (A) the following:

“(B) submit, with such report, through the electronic portal, documentation of results from any sampling and testing of such article, including—

“(i) analytical results from testing of such article conducted by or on behalf of the responsible party under section 418, 418A, 419, 419A, or 714;

“(ii) analytical results from testing conducted by or on behalf of such responsible party of a component of such article;

“(iii) analytical results of environmental testing of any facility at which such article, or a component of such article, is manufactured, processed, packed, or held; and

“(iv) any other information the Secretary determines is necessary to evaluate the adulteration of such article, any component of such article, any other article of food manufactured, processed, packed or held in the same manner as, or at the same facility as, such article, or any other article containing a component from the same source as a component of such article; and”;

(4) in subsection (e)—

(A) in paragraph (1), by inserting “if the responsible party is required to register” after “415(a)(3)”;

(B) by adding at the end the following:

“(12) Such additional information as the Secretary deems appropriate.”.

(b) EXCHANGE OF INFORMATION.—Section 708 (21 U.S.C. 379) is amended—

(1) by striking “The Secretary” and inserting “(a) The Secretary”; and

(2) by adding at the end the following:

“(b)(1)(A) The Secretary may provide to any Federal agency acting within the scope of its jurisdiction any information relating to food that is exempt from disclosure pursuant to subsection (a) of section 552 of title 5, United States Code, by reason of subsection (b)(4) of such section, or that is referred to in section 301(j) or 415(a)(4).

“(B) Any such information provided to another Federal agency shall not be disclosed by such agency except in any action or proceeding under the laws of the United States to which the receiving agency or the United States is a party.

“(2)(A) In carrying out this Act, the Secretary may provide to a State or local government agency any information relating to food that is exempt from disclosure pursuant to section 552(a) of title 5, United States Code, by reason of subsection (b)(4) of such section, or that is referred to in section 301(j) or 415(a)(4).

“(B) Any such information provided to a State or local government agency shall not be disclosed by such agency.

“(3) In carrying out this Act, the Secretary may provide to any person any information relating to food that is exempt from disclosure pursuant to section 552(a) of title 5, United States Code, by reason of subsection (b)(4) of such section, if the Secretary determines that providing the information to the person is appropriate under the circumstances and the recipient provides adequate assurances to the Secretary that the recipient will preserve the confidentiality of the information.

“(4) In carrying out this Act, the Secretary may provide any information relating to food that is exempt from disclosure pursuant to section 552(a) of title 5, United States Code, by reason of subsection (b)(4) of such section, or that is referred to in section 301(j)—

“(A) to any foreign government agency; or

“(B) any international organization established by law, treaty, or other governmental action and having responsibility—

“(i) to facilitate global or regional harmonization of standards and requirements in an area of responsibility of the Food and Drug Administration; or

“(ii) to promote and coordinate public health efforts, if the agency or organization provides adequate assurances to the Secretary that the agency or organization will preserve the confidentiality of the information.

“(c) Except where specifically prohibited by statute, the Secretary may disclose to the public any information relating to food that is exempt from disclosure pursuant to section 552(a) of title 5, United States Code, by reason of subsection (b)(4) of such section, if the Secretary determines that such disclosure is necessary to protect the public health.

“(d) Except as provided in subsection (e), the Secretary shall not be required to disclose under section 552 of title 5, United States Code, or any other provision of law any information relating to food obtained from a Federal, State, or local government agency, or from a foreign government agency, or from an international organization described in subsection (b)(4), if the agency or organization has requested that the information be kept confidential, or has precluded such disclosure under other use limitations, as a condition of providing the information.

“(e) Nothing in subsection (d) authorizes the Secretary to withhold information from the Congress or prevents the Secretary from complying with an order of a court of the United States.

“(f) This section shall not affect the authority of the Secretary to provide or disclose information under any other provision of law.”.

(c) CONFORMING AMENDMENT.—Section 301(j) (21 U.S.C. 331(j)) is amended by striking “or to the courts when relevant in any judicial proceeding under this Act,” and inserting “to the courts when relevant in any judicial proceeding under this Act, or as specified in section 708.”.

SEC. 113. SAFE AND SECURE FOOD IMPORTATION PROGRAM.

Chapter VIII (21 U.S.C. 381 et seq.) is amended by adding at the end the following:

“SEC. 805. SAFE AND SECURE FOOD IMPORTATION PROGRAM.

“(a) IN GENERAL.—The Secretary may establish by regulation or guidance in coordination with the Commissioner responsible for Customs and Border Protection a program that facilitates the movement of food through the importation process under this Act if the importer of such food—

“(1) verifies that each facility involved in the production, manufacture, processing, packaging, and holding of the food is in compliance with the food safety and security guidelines developed under subsection (b) with respect to such food;

“(2) ensures that appropriate safety and security controls are in place throughout the supply chain for such food; and

“(3) provides supporting information to the Secretary.

“(b) GUIDELINES.—

“(1) DEVELOPMENT.—For purposes of the program established under subsection (a), the Secretary shall develop in consultation with the Commissioner responsible for Customs and Border Protection safety and security guidelines applicable to the importation of food taking into account, to the extent appropriate, other relevant Federal programs, such as the Customs-Trade Partnership Against Terrorism (C-TPAT) programs under section 211 of the Security and Accountability for Every Port Act of 2006.

“(2) FACTORS.—Such guidelines shall take into account the following factors:

“(A) The personnel of the person importing the food.

“(B) The physical and procedural safety and security of such person's food supply chain.

“(C) The sufficiency of preventive controls for food and ingredients purchased by such person.

“(D) Vendor and supplier information.

“(E) Other programs for certification or verification by a qualified certifying entity used by the importer.

“(F) Such other factors as the Secretary determines necessary.”.

SEC. 114. INFANT FORMULA.

(a) MISBRANDING.—Section 403 (21 U.S.C. 343), as amended by sections 101(a) and 109(a), is amended by adding at the end the following:

“(bb) If it is a new infant formula and—

“(1) it is not the subject of a registration made pursuant to section 412(c)(1)(A);

“(2) it is not the subject of a submission made pursuant to section 412(c)(1)(B), or

“(3) at least 90 days have not passed since the making of such registration or of such submission to the Secretary.”.

(b) REQUIREMENTS.—Section 412 (21 U.S.C. 350a) is amended—

(1) in subsection (c)(1)(B), by striking “(c)(1)” at the end and inserting “(d)(1), subject to subsection (d)(2)(B)”;

(2) in subsection (d)(1)—

(A) by striking “and” at the end of subparagraph (C);

(B) by striking the period at the end of subparagraph (D) and inserting “, and”; and

(C) by adding at the end the following:

“(E) information on any new ingredient in accordance with paragraph (2)(A).”;

(3) in subsection (d), by redesignating paragraphs (2) and (3) as paragraphs (3) and (4), respectively; and

(4) by inserting after paragraph (1) of subsection (d) the following:

“(2)(A) The description of any new infant formula required under paragraph (1) shall include, for any new ingredient for use in the formula—

“(i) a citation to a prior approval by the Secretary of the new ingredient for use in infant formula under section 409;

“(ii) a citation to or information showing a prior consideration of the new ingredient for use in infant formula under any program established by the Secretary for the review of ingredients used in food; or

“(iii) for a new ingredient that is not a food additive or a color additive, information equivalent to that provided under any program established by the Secretary for the review of ingredients used in food.

“(B) If the information submitted under subparagraph (A) is the information described in clause (iii) of such subparagraph, the 90 day period provided by subsection (c)(1)(B) shall not commence until the Secretary has completed review of the information submitted under such clause and has provided the submitter notice of the results of such review.”.

Subtitle B—Intervention

SEC. 121. SURVEILLANCE.

(a) DEFINITION OF FOOD-BORNE ILLNESS OUTBREAK.—In this section, the term “food-borne illness outbreak” means the occurrence of 2 or more cases of a similar illness resulting from the ingestion of a food.

(b) FOOD-BORNE ILLNESS SURVEILLANCE SYSTEMS.—The Secretary of Health and Human Services (in this subtitle referred to as the “Secretary”), acting through the Director of the Centers for Disease Control and Prevention, shall enhance food-borne illness surveillance systems to improve the collection, analysis, reporting, and usefulness of data on food-borne illnesses by—

(1) coordinating Federal, State, and local food-borne illness surveillance systems, including complaint systems, and increasing participation in national networks of public health and food regulatory agencies and laboratories;

(2) facilitating sharing of findings on a more timely basis among governmental agencies, including the Food and Drug Administration, the Department of Agriculture, and State and local agencies, and with the public;

(3) developing improved epidemiological tools for obtaining quality exposure data, and microbiological methods for classifying cases;

(4) augmenting such systems to improve attribution of a food-borne illness outbreak to a specific food;

(5) expanding capacity of such systems, including fingerprinting and other detection strategies for food-borne infectious agents, in order to identify new or rarely documented causes of food-borne illness;

(6) allowing timely public access to aggregated, de-identified surveillance data;

(7) at least annually, publishing current reports on findings from such systems;

(8) establishing a flexible mechanism for rapidly initiating scientific research by academic institutions;

(9) integrating food-borne illness surveillance systems and data with other bio-surveillance and public health situational awareness capabilities at the Federal, State, and local levels; and

(10) other activities as determined appropriate by the Secretary.

(c) IMPROVING FOOD SAFETY AND DEFENSE CAPACITY AT THE STATE AND LOCAL LEVEL.—

(1) IN GENERAL.—The Secretary shall develop and implement strategies to leverage and enhance the food safety and defense capacities of State and local agencies in order to achieve the following goals:

(A) Improve food-borne illness outbreak response and containment.

(B) Accelerate food-borne illness surveillance and outbreak investigation, including rapid shipment of clinical isolates from clinical laboratories to appropriate State laboratories, and conducting more standardized illness outbreak interviews.

(C) Strengthen the capacity of State and local agencies to carry out inspections and enforce safety standards.

(D) Improve the effectiveness of Federal, State, and local partnerships to coordinate food safety and defense resources and reduce the incidence of food-borne illness.

(E) Share information on a timely basis among public health and food regulatory agencies, with the food industry, with health care providers, and with the public.

(2) REVIEW.—In developing the strategies required by paragraph (1), the Secretary shall, not later than 1 year after the date of enactment of this Act, complete a review of State and local capacities, and needs for enhancement, which may include a survey with respect to—

(A) staffing levels and expertise available to perform food safety and defense functions;

(B) laboratory capacity to support surveillance, outbreak response, inspection, and enforcement activities;

(C) information systems to support data management and sharing of food safety and defense information among State and local agencies and with counterparts at the Federal level; and

(D) other State and local activities and needs as determined appropriate by the Secretary.

SEC. 122. PUBLIC EDUCATION AND ADVISORY SYSTEM.

(a) PUBLIC EDUCATION.—The Secretary, in cooperation with private and public organizations, including the appropriate State entities, shall design and implement a national public education program on food safety. The program shall provide—

(1) information to the public so that individuals can understand the potential impact and risk of food-borne illness, take action to reduce their risk of food-borne illness and injury, and make healthy dietary choices;

(2) information to health professionals so that they may improve diagnosis and treatment of food-related illness and advise individuals whose health conditions place them in particular risk; and

(3) such other information or advice to consumers and other persons as the Secretary determines will promote the purposes of this Act.

(b) HEALTH ADVISORIES.—The Secretary shall work with the States and other appropriate entities to—

(1) develop and distribute regional and national advisories concerning food safety;

(2) develop standardized formats for written and broadcast advisories; and

(3) incorporate State and local advisories into the national public education program required under subsection (a).

SEC. 123. RESEARCH.

The Secretary shall conduct research to assist in the implementation of this Act, including studies to—

(1) improve sanitation and food safety practices in the production, harvesting, and processing of food products;

(2) develop improved techniques for the monitoring of food and inspection of food products;

(3) develop efficient, rapid, and sensitive methods for determining and detecting the presence of contaminants in food products;

(4) determine the sources of contamination of food and food products, including critical points of risk for fresh produce and other raw agricultural commodities;

(5) develop consumption data with respect to food products;

(6) draw upon research and educational programs that exist at the State and local level;

(7) utilize the DNA matching system and other processes to identify and control pathogens;

(8) address common and emerging zoonotic diseases;

(9) develop methods to reduce or destroy pathogens before, during, and after processing;

(10) analyze the incidence of antibiotic resistance as it pertains to the food supply and evaluate methods to reduce the transfer of antibiotic resistance to humans; and

(11) conduct other research that supports the purposes of this Act.

Subtitle C—Response

SEC. 131. PROCEDURES FOR SEIZURE.

Section 304(b) (21 U.S.C. 334(b)) is amended by inserting “and except that, with respect to proceedings relating to food, Rule G of the Supplemental Rules of Admiralty or Maritime Claims and Asset Forfeiture Actions shall not apply in any such case, exigent circumstances shall be deemed to exist for all seizures brought under this section, and the summons and arrest warrant shall be issued by the clerk of the court without court review in any such case” after “in any such case shall be tried by jury”.

SEC. 132. ADMINISTRATIVE DETENTION.

(a) AMENDMENTS.—Section 304(h) (21 U.S.C. 334(h)) is amended—

(1) in paragraph (1)(A), by striking “credible evidence or information indicating” and inserting “reason to believe”;

(2) in paragraph (1)(A), by striking “presents a threat of serious adverse health consequences or death to humans or animals” and inserting “is adulterated, misbranded, or otherwise in violation of this Act”;

(3) in paragraph (2), by striking “30” and inserting “60”;

(4) in paragraph (3), by striking the third sentence; and

(5) in paragraph (4)(A) by striking the terms “five” and “five-day” and inserting “fifteen” and “fifteen-day”, respectively.

(b) REGULATIONS.—The Secretary shall issue regulations or guidance to implement the amendments made by this section.

(c) EFFECTIVE DATE.—The amendments made by this section shall take effect 180 days after the date of the enactment of this Act.

SEC. 133. AUTHORITY TO PROHIBIT OR RESTRICT THE MOVEMENT OF FOOD.

(a) PROHIBITED ACT.—Section 301 (21 U.S.C. 331), as amended by sections 110 and 111, is

amended by adding at the end by adding the following:

“(ww) The violation of a prohibition or restriction under section 304(i).”.

(b) IN GENERAL.—Section 304 (21 U.S.C. 334) is amended by adding at the end the following:

“(i) AUTHORITY TO PROHIBIT OR RESTRICT THE MOVEMENT OF FOOD WITHIN A STATE OR PORTION OF A STATE.—

“(1) AUTHORITY TO PROHIBIT OR RESTRICT THE MOVEMENT OF FOOD.—

“(A) IN GENERAL.—

“(i) After consultation with the Governor or other appropriate official of an affected State, if the Secretary determines that there is credible evidence that an article of food presents an imminent threat of serious adverse health consequences or death to humans or animals, the Secretary may prohibit or restrict the movement of an article of food within a State or portion of a State for which the Secretary has credible evidence that such food is located within, or originated from, such State or portion thereof.

“(ii) In carrying out clause (i), the Secretary may prohibit or restrict the movement within a State or portion of a State of any article of food or means of conveyance of such article of food, if the Secretary determines that the prohibition or restriction is a necessary protection from an imminent threat of serious adverse health consequences or death to humans or animals.

“(2) NOTIFICATION PROCEDURES.—Subject to paragraph (3), before any action is taken in a State under this subsection, the Secretary shall—

“(A) notify the Governor or other appropriate official of the State affected by the proposed action;

“(B) issue a public announcement of the proposed action; and

“(C) publish in the Federal Register—

“(i) the findings of the Secretary that support the proposed action;

“(ii) a statement of the reasons for the proposed action; and

“(iii) a description of the proposed action, including—

“(I) the area affected; and

“(II) an estimate of the anticipated duration of the action.

“(3) NOTICE AFTER ACTION.—If it is not practicable to publish in the Federal Register the information required under paragraph (2)(C) before taking action under paragraph (1), the Secretary shall publish the information as soon as practicable, but not later than 10 business days, after commencement of the action.

“(4) APPLICATION OF LEAST DRASTIC ACTION.—No action shall be taken under paragraph (1) unless, in the opinion of the Secretary, there is no less drastic action that is feasible and that would be adequate to prevent the imminent threat of serious adverse health consequences or death to humans or animals.

“(5) NONDELEGATION.—An action under paragraph (1) may only be ordered by the Secretary or an official designated by the Secretary. An official may not be so designated unless the official is the Commissioner of Food and Drugs or the Principal Deputy Commissioner.

“(6) DURATION.—Fourteen days after the initiation of an action under paragraph (1), and each 14 days thereafter, if the Secretary determines that it is necessary to continue the action, the Secretary shall—

“(A) notify the Governor or other appropriate official of the State affected of the continuation of the action;

“(B) issue a public announcement of the continuation of the action; and

“(C) publish in the Federal Register the findings of the Secretary that support the continuation of the action, including an estimate of the anticipated duration of the action.

“(7) RULEMAKING.—The Secretary shall, consistent with national security interests and as appropriate for known hazards, establish by regulation standards for conducting actions under paragraph (1), including, as appropriate, sanitation standards and procedures to restore any affected equipment or means of conveyance to its status prior to an action under paragraph (1).”.

SEC. 134. CRIMINAL PENALTIES.

Section 303(a) (21 U.S.C. 333) is amended—

(1) in paragraph (1), by striking “Any” and inserting “Except as provided in paragraph (2) or (3), any”; and

(2) by adding at the end the following:

“(3) Notwithstanding paragraph (1), any person who knowingly violates paragraph (a), (b), (c), (k), or (v) of section 301 with respect to any food that is misbranded or adulterated shall be imprisoned for not more than 10 years or fined in accordance with title 18, United States Code, or both.”.

SEC. 135. CIVIL PENALTIES FOR VIOLATIONS RELATING TO FOOD.

(a) IN GENERAL.—Paragraph (2) of section 303(f) (21 U.S.C. 331 et seq.) is amended to read as follows:

“(2)(A) Any person who violates a provision of section 301 relating to food shall be subject to a civil penalty for each such violation of not more than—

“(i) \$20,000 in the case of an individual, not to exceed \$50,000 in a single proceeding; and

“(ii) \$250,000 in the case of any other person, not to exceed \$1,000,000 in a single proceeding.

“(B) Any person who knowingly violates a provision of section 301 relating to food shall be subject to a civil penalty for each such violation of not more than—

“(i) \$50,000 in the case of an individual, not to exceed \$100,000 in a single proceeding; and

“(ii) \$500,000 in the case of any other person, not to exceed \$7,500,000 in a single proceeding.

“(C) Each violation described in subparagraph (A) or (B) and each day during which the violation continues shall be considered to be a separate offense.”.

(b) EFFECTIVE DATE.—The amendment made by subsection (a) applies to violations committed on or after the date of the enactment of this Act.

SEC. 136. IMPROPER IMPORT ENTRY FILINGS.

(a) PROHIBITED ACTS.—Section 301 (21 U.S.C. 331), as amended by sections 110, 111, and 133, is amended by adding at the end the following:

“(xx) The submission of information relating to food that is required by or under section 801 that is inaccurate or incomplete.

“(yy) The failure to submit information relating to food that is required by or under section 801.”.

(b) DOCUMENTATION FOR IMPORTS.—Section 801 (21 U.S.C. 381), as amended by section 109, is amended by adding at the end the following:

“(r) DOCUMENTATION.—

“(1) SUBMISSION.—The Secretary may require by regulation or guidance the submission of documentation or other information for articles of food that are imported or offered for import into the United States. When developing any regulation or guidance in accordance with this paragraph, to the extent that the collection of documentation or

other information involves Customs and Border Protection efforts or resources, the Secretary shall consult with Customs and Border Protection.

“(2) FORMAT.—A regulation or guidance under paragraph (1) may specify the format for submission of the documentation or other information.”.

TITLE II—MISCELLANEOUS

SEC. 201. FOOD SUBSTANCES GENERALLY RECOGNIZED AS SAFE.

Section 409 (21 U.S.C. 348) is amended by adding at the end the following:

“Substances Generally Recognized as Safe

“(k)(1) Not later than 60 days after the date of receipt by the Secretary, after the date of the enactment of this subsection, of a determination that a substance is a GRAS food substance, the Secretary shall post notice of such determination and the supporting scientific justifications on the Food and Drug Administration’s public Web site.

“(2) Not later than 60 days after the date of receipt of a request under paragraph (1), the Secretary shall acknowledge receipt of such request by informing the requester in writing of the date on which the request was received.

“(3) In this subsection, the term ‘GRAS food substance’ means a substance excluded from the definition of the term ‘food additive’ in section 201(s) because such substance is generally recognized, among experts qualified by scientific training and experience to evaluate its safety, as having been adequately shown through scientific procedures (or, in the case of a substance used in food prior to January 1, 1958, through either scientific procedures or experience based on common use in food) to be safe under the conditions of its intended use.”.

SEC. 202. COUNTRY OF ORIGIN LABELING.

(a) MISBRANDING.—Section 403 (21 U.S.C. 343), as amended by sections 101(a), 109(a), and 114(a), is amended by adding at the end the following:

“(cc) In the case of a processed food, if the labeling of the food fails to identify the country in which the final processing of the food occurs.

“(dd) In the case of nonprocessed food, if the labeling of the food fails to identify the country of origin of the food.”.

(b) REGULATIONS.—

(1) PROMULGATION.—Not later than 180 days after the date of the enactment of this Act, the Secretary of Health and Human Services shall promulgate final regulations to carry out paragraphs (cc) and (dd) of section 403 of the Federal Food, Drug, and Cosmetic Act, as added by subsection (a).

(2) RELATION TO OTHER REQUIREMENTS.—Regulations promulgated under paragraph (1) shall provide that labeling meets the requirements of paragraphs (cc) and (dd) of section 403 of the Federal Food, Drug, and Cosmetic Act, as added by subsection (a), if—

(A) in the case of a processed food, the label of the food informs the consumer of the country where the final processing of the food occurred in accordance with country of origin marking requirements of the United States Customs and Border Protection; or

(B) in the case of a nonprocessed food, the label of the food informs the consumer of the country of origin of the food in accordance with labeling requirements of the Department of Agriculture.

(c) EFFECTIVE DATE.—The requirements of paragraphs (cc) and (dd) of section 403 of the Federal Food, Drug, and Cosmetic Act, as added by subsection (a), take effect on the date that is 2 years after the date of the enactment of this Act.

SEC. 203. EXPORTATION CERTIFICATE PROGRAM.

Section 801(e)(4) (21 U.S.C. 381) is amended—

(1) in the matter preceding clause (i) in subparagraph (A)—

(A) by inserting “from the United States” after “exports”; and

(B) by striking “a drug, animal drug, or device” and inserting “a food (including animal feed), drug, animal drug, or device”; and

(2) in subparagraph (A)(i)—

(A) by striking “in writing”; and

(B) by striking “exported drug, animal drug, or device” and inserting “exported food, drug, animal drug, or device”; and

(3) in subparagraph (A)(ii)—

(A) by striking “in writing”; and

(B) by striking “the drug, animal drug, or device” and inserting “the food, drug, animal drug, or device”; and

(C) by striking “the drug or device” and inserting “the food, drug, or device”; and

(4) by redesignating subparagraph (B) as subparagraph (C);

(5) by inserting after subparagraph (A) the following:

“(B) For purposes of this paragraph, a certification by the Secretary shall be made on such basis and in such form (such as a publicly available listing) as the Secretary determines appropriate.”; and

(6) by adding at the end the following:

“(D) Notwithstanding subparagraph (C), if the Secretary issues an export certification within the 20 days prescribed by subparagraph (A) with respect to the export of food, a fee for such certification shall not exceed such amount as the Secretary determines is reasonably related to the cost of issuing certificates under subparagraph (A) with respect to the export of food. The Secretary may adjust this fee annually to account for inflation and other cost adjustments. Fees collected for a fiscal year pursuant to this subparagraph shall be credited to the appropriation account for salaries and expenses of the Food and Drug Administration and shall be available in accordance with appropriations Acts until expended, without fiscal year limitation. Such fees shall be collected in each fiscal year in an amount equal to the amount specified in appropriations Acts for such fiscal year and shall only be collected and available for the costs of the Food and Drug Administration to cover the cost of issuing such certifications. Such sums as necessary may be transferred from such appropriation account for salaries and expenses of the Food and Drug Administration without fiscal year limitation to such appropriation account for salaries and expenses with fiscal year limitation.”.

SEC. 204. REGISTRATION FOR COMMERCIAL IMPORTERS OF FOOD; FEE.

(a) REGISTRATION.—

(1) PROHIBITIONS.—Section 301 (21 U.S.C. 331), as amended by sections 110, 111, 133, and 136, is amended by adding at the end the following:

“(zz) The failure to register in accordance with section 801(s).”.

(2) MISBRANDING.—Section 403 (21 U.S.C. 343) as amended by sections 101(a), 109(a), 114(a), and 202, is amended by adding at the end the following:

“(ee) If it is imported or offered for import by an importer not duly registered under section 801(s).”.

(3) REGISTRATION.—Section 801, as amended by sections 109 and 136, is amended by adding at the end the following:

“(s) REGISTRATION OF IMPORTERS.—

“(1) REGISTRATION.—The Secretary shall require an importer of food—

“(A) to be registered with the Secretary in a form and manner specified by the Secretary; and

“(B) consistent with section 1011, to submit appropriate unique facility identifiers as a condition of registration.

“(2) GOOD IMPORTER PRACTICES.—The maintenance of registration under this subsection is conditioned on compliance with good importer practices in accordance with the following:

“(A) The Secretary, in consultation with Customs and Border Protection, shall promulgate regulations to establish good importer practices that specify the measures an importer shall take to ensure imported food is in compliance with the requirements of this Act.

“(B) The measures under subparagraph (A) shall ensure that the importer of a food—

“(i) has adequate information about the food, its hazards, and the requirements of this Act applicable to such food;

“(ii) has adequate information or procedures in place to verify that both the food and each person that produced, manufactured, processed, packed, transported, or held the food, including components of the food, are in compliance with the requirements of this Act; and

“(iii) has adequate procedures in place to take corrective action, such as the ability to appropriately trace, withhold, and recall articles of food, if a food imported by the importer is not in compliance with the requirements of this Act.

“(C) In promulgating good importer practices regulations, the Secretary may, as appropriate—

“(i) incorporate certification of compliance under section 801(q) and participation in the safe and secure food importation program under section 805; and

“(ii) take into account differences among importers and the types of imports, including based on the level of risk posed by the imported food.

“(3) SUSPENSION OF REGISTRATION.—

“(A) IN GENERAL.—Registration under this subsection is subject to suspension upon a finding by the Secretary, after notice and an opportunity for an informal hearing, of—

“(i) a violation of this Act; or

“(ii) the knowing or repeated making of an inaccurate or incomplete statement or submission of information relating to the importation of food.

“(B) REQUEST.—The importer whose registration is suspended may request that the Secretary vacate the suspension of registration when such importer has corrected the violation that is the basis for such suspension.

“(C) VACATING OF SUSPENSION.—If the Secretary determines that adequate reasons do not exist to continue the suspension of a registration, the Secretary shall vacate such suspension.

“(4) CANCELLATION OF REGISTRATION.—

“(A) IN GENERAL.—Not earlier than 10 days after providing the notice under subparagraph (B), the Secretary may cancel a registration that the Secretary determines was not updated in accordance with this section or otherwise contains false, incomplete, or inaccurate information.

“(B) NOTICE OF CANCELLATION.—Cancellation shall be preceded by notice to the importer of the intent to cancel the registration and the basis for such cancellation.

“(C) TIMELY UPDATE OR CORRECTION.—If the registration for the importer is updated or corrected no later than 7 days after notice is provided under subparagraph (B), the Secretary shall not cancel such registration.

“(5) EXEMPTIONS.—The Secretary, by notice published in the Federal Register—

“(A) shall establish an exemption from the requirements of this subsection for importations for personal use; and

“(B) may establish other exemptions from the requirements of this subsection.”

(4) REGULATIONS.—Not later than 36 months after the date of the enactment of this Act, the Secretary of Health and Human Services in consultation with the Commissioner responsible for Customs and Border Protection shall promulgate the regulations required to carry out section 801(s) of the Federal Food, Drug, and Cosmetic Act, as added by paragraph (3). In establishing the effective date of a regulation promulgated under section 801(s), the Secretary shall, in consultation with the Commissioner responsible for Customs and Border Protection, as appropriate, provide a reasonable period of time for importers of food to comply with good importer practices, taking into account differences among importers and the types of imports, including based on the level of risk posed by the imported food.

(5) EFFECTIVE DATE.—The amendments made by this subsection shall take effect on the date that is 24 months after the date of enactment of this Act.

(b) FEE.—Subchapter C of chapter VII (21 U.S.C. 379f et seq.) as added and amended by sections 101 and 108, is amended by adding at the end the following:

“PART 7—IMPORTERS OF FOOD

“SEC. 744. IMPORTERS OF FOOD.

“(a) IMPORTERS.—The Secretary shall assess and collect an annual fee for the registration of an importer of food under section 801(s).

“(b) AMOUNT OF FEE.—

“(1) BASE AMOUNTS.—The registration fee under subsection (a) shall be—

“(A) for fiscal year 2010, \$500; and

“(B) for fiscal year 2011 and each subsequent fiscal year, the fee for fiscal year 2010 as adjusted under paragraph (2).

“(2) ADJUSTMENT.—For fiscal year 2011 and subsequent fiscal years, the fees established pursuant to paragraph (1) shall be adjusted by the Secretary by notice, published in the Federal Register, for a fiscal year to reflect the greater of—

“(A) the total percentage change that occurred in the Consumer Price Index for all urban consumers (all items; United States city average), for the 12-month period ending June 30 preceding the fiscal year for which fees are being established;

“(B) the total percentage change for the previous fiscal year in basic pay under the General Schedule in accordance with section 5332 of title 5, United States Code, as adjusted by any locality-based comparability payment pursuant to section 5304 of such title for Federal employees stationed in the District of Columbia; or

“(C) the average annual change in the cost, per full-time equivalent position of the Food and Drug Administration, of all personnel compensation and benefits paid with respect to such positions for the first 5 years of the preceding 6 fiscal years.

“(3) COMPOUNDED BASIS.—The adjustment made each fiscal year pursuant to this subsection shall be added on a compounded basis to the sum of all adjustments made each fiscal year after fiscal year 2010 under this subsection.

“(4) WAIVER FOR IMPORTERS REQUIRED TO PAY REGISTRATION FEE.—In the case of a person who is required to pay both a fee under section 743 for registration of one or more facilities under section 415 and a fee under this

section for registration as an importer of food under section 801(s), the Secretary shall waive the fees applicable to such person under section 743 or the fee applicable to such person under this section.

“(c) CREDITING AND AVAILABILITY OF FEES.—

“(1) IN GENERAL.—Fees authorized under subsection (a) shall be collected and available for obligation only to the extent and in the amount provided in advance in appropriations Acts. Such fees are authorized to remain available until expended. Such sums as may be necessary may be transferred from the Food and Drug Administration salaries and expenses appropriation account without fiscal year limitation to such appropriation account for salaries and expenses with such fiscal year limitation.

“(2) COLLECTIONS AND APPROPRIATIONS ACTS.—The fees authorized by this section—

“(A) shall be retained in each fiscal year in an amount not to exceed the amount specified in appropriation Acts, or otherwise made available for obligation, for such fiscal year; and

“(B) shall only be collected and available to cover the costs associated with registering importers under section 801(s) and with ensuring compliance with good importer practices respecting food.

“(3) AUTHORIZATION OF APPROPRIATIONS.—For each of fiscal years 2010 through 2014, there are authorized to be appropriated for fees under this section such sums as may be necessary.”

(c) INSPECTION.—Section 704 (21 U.S.C. 374), as amended by section 105, is amended by adding at the end the following:

“(i) IMPORTERS.—Every person engaged in the importing of any food shall, upon request of an officer or employee designated by the Secretary, permit such officer or employee at all reasonable times to inspect the facilities of such person and have access to, and to copy and verify, any related records.”

SEC. 205. REGISTRATION FOR CUSTOMS BROKERS.

(a) REGISTRATION.—

(1) PROHIBITIONS.—Section 301(zz) (21 U.S.C. 331), as added by section 204, is amended by inserting “or 801(t)” after “801(s)”.

(2) MISBRANDING.—Section 403(ee) (21 U.S.C. 343), as added by section 204, is amended—

(A) by inserting “or a customs broker” after “by an importer”; and

(B) by inserting “or 801(t)” after “801(s)”.

(3) REGISTRATION.—Section 801, as amended by sections 109, 136, and 204, is amended by adding at the end the following:

“(t) REGISTRATION OF CUSTOMS BROKER.—

“(1) REGISTRATION.—The Secretary shall require a customs broker, with respect to the importation of food—

“(A) to be registered with the Secretary in a form and manner specified by the Secretary; and

“(B) consistent with section 1011, to submit appropriate unique facility identifiers as a condition of registration.

“(2) CANCELLATION OF REGISTRATION.—

“(A) IN GENERAL.—Not earlier than 10 days after providing the notice under subparagraph (B), the Secretary may cancel a registration that the Secretary determines was not updated in accordance with this section or otherwise contains false, incomplete, or inaccurate information.

“(B) NOTICE OF CANCELLATION.—Cancellation shall be preceded by notice to the customs broker of the intent to cancel the registration and the basis for such cancellation.

“(C) TIMELY UPDATE OR CORRECTION.—If the registration for the customs broker is updated or corrected no later than 7 days after

notice is provided under subparagraph (B), the Secretary shall not cancel such registration.

“(3) NOTIFICATION.—The Secretary shall notify the Commissioner responsible for Customs and Border Protection whenever the Secretary cancels a registration under this subsection.

“(4) EXEMPTIONS.—In consultation with the Commissioner responsible for Customs and Border Protection, the Secretary, by notice published in the Federal Register—

“(A) shall establish an exemption from the requirements of this subsection for importations for personal use; and

“(B) may establish other exemptions from the requirements of this subsection.

“(5) CIVIL PENALTIES.—Notwithstanding any other provision in this Act, a customs broker who violates section 301 because of a violation of section 403(ee), or who violates section 301(xx), 301(yy), or 301(zz), shall not be subject to a civil penalty under section 303(f)(2).”

(4) REGULATIONS.—Not later than 24 months after the date of the enactment of this Act, the Secretary of Health and Human Services, in consultation with the Commissioner responsible for Customs and Border Protection, shall promulgate the regulations required to carry out section 801(t) of the Federal Food, Drug, and Cosmetic Act, as added by paragraph (2).

(5) EFFECTIVE DATE.—The amendments made by this subsection shall take effect on the date that is 24 months after the date of enactment of this Act.

(b) INSPECTION.—Section 704 (21 U.S.C. 374), as amended by sections 105 and 204, is amended by adding at the end the following:

“(j) BROKERS.—Every customs broker required to be registered with the Secretary shall, upon request of an officer or employee designated by the Secretary, permit such officer or employee at all reasonable times to inspect the facilities of such person and have access to, and to copy and verify, any related records.”

SEC. 206. UNIQUE IDENTIFICATION NUMBER FOR FOOD FACILITIES, IMPORTERS, AND CUSTOM BROKERS.

Chapter X (21 U.S.C. 391 et seq.) is amended by adding at the end the following:

“SEC. 1011. UNIQUE FACILITY IDENTIFIER.

“(a) REGISTRATION OF FACILITY OR ESTABLISHMENT.—A person required to register a facility pursuant to section 415 shall submit, at the time of registration, a unique facility identifier for the facility or establishment.

“(b) REGISTRATION OF IMPORTERS AND CUSTOM BROKERS.—A person required to register pursuant to section 801(s) or 801(t) shall submit, at the time of registration, a unique facility identifier for the principal place of business for which such person is required to register under section 801(s) or 801(t).

“(c) GUIDANCE.—The Secretary may, by guidance, and, with respect to importers and customs brokers, in consultation with the Commissioner responsible for Customs and Border Protection, specify the unique numerical identifier system to be used to meet the requirements of subsections (a) and (b) and the form, manner, and timing of a submission under such subsections. Development of such guidelines shall take into account the utilization of existing unique identification schemes and compatibility with customs automated systems, such as integration with the Automated Commercial Environment (ACE) and the International Trade Data System (ITDS), and any successor systems.

“(d) IMPORTATION.—An article of food imported or offered for import shall be refused

admission unless the appropriate unique facility identifiers, as specified by the Secretary, are provided for such article.”

SEC. 207. PROHIBITION AGAINST DELAYING, LIMITING, OR REFUSING INSPECTION.

(a) ADULTERATION.—Section 402 (21 U.S.C. 342), as amended by section 102, 103(a), and 104(a), is amended by adding at the end the following:

“(n) If it has been produced, manufactured, processed, packed, or held in any farm, factory, warehouse, or establishment and the owner, operator, or agent of such farm, factory, warehouse, or establishment, or any agent of a governmental authority in the foreign country within which such farm, factory, warehouse, or establishment is located, delays or limits an inspection, or refuses to permit entry or inspection, under section 414 or 704.”

(b) FOREIGN INSPECTIONS.—Section 704(a)(1) (21 U.S.C. 374(a)(1)), as amended by section 106(c), is amended—

(1) in the first sentence, by inserting “, including any such food factory, warehouse, or establishment whether foreign or domestic,” after “factory, warehouse, or establishment”; and

(2) in the third sentence, by inserting “, including any food factory, warehouse, establishment, or consulting laboratory whether foreign or domestic,” after “factory, warehouse, establishment, or consulting laboratory”.

SEC. 208. DEDICATED FOREIGN INSPECTORATE.

Section 704 (21 U.S.C. 374), as amended by sections 105, 204, and 205, is amended by adding at the end the following:

“(k) DEDICATED FOREIGN INSPECTORATE.—The Secretary shall establish and maintain a corps of inspectors dedicated to inspections of foreign food facilities. This corps shall be staffed and funded by the Secretary at a level sufficient to enable it to assist the Secretary in achieving the frequency of inspections for food facilities as described in this Act.”

SEC. 209. PLAN AND REVIEW OF CONTINUED OPERATION OF FIELD LABORATORIES.

(a) SUBMISSION OF PLAN.—Not later than 90 days before the Secretary terminates or consolidates any laboratory, district office, or the functions (including the inspection and compliance functions) of any such laboratory or district office, specified in subsection (b), the Secretary shall submit a reorganization plan to the Comptroller General of the United States, the Committee on Energy and Commerce of the House of Representatives, and the Committee on Health, Education, Labor, and Pensions of the Senate.

(b) SPECIFIED LABORATORIES AND OFFICES.—The laboratories and offices specified in this subsection are the following:

(1) Any of the 13 field laboratories responsible for analyzing food that were operated by the Office of Regulatory Affairs of the Food and Drug Administration as of January 1, 2007.

(2) Any of the 20 district offices of the Food and Drug Administration with responsibility for food safety functioning as of January 1, 2007.

(c) CONGRESSIONAL REVIEW.—A reorganization plan described in subsection (a) is deemed to be a major rule (as defined in section 804(2) of title 5, United States Code) for purposes of chapter 8 of such title.

SEC. 210. FALSE OR MISLEADING REPORTING TO FDA.

(a) IN GENERAL.—Section 301(q)(2) (21 U.S.C. 331(q)(2)) is amended by inserting after “device” the following: “, food,”

(b) EFFECTIVE DATE.—The amendment made by subsection (a) shall apply to sub-

missions made on or after the date of the enactment of this Act.

SEC. 211. SUBPOENA AUTHORITY.

(a) PROHIBITED ACT.—Section 301(f) is amended by inserting before the period “or the failure or refusal to obey a subpoena issued pursuant to section 311”.

(b) AMENDMENT.—Chapter III (21 U.S.C. 331 et seq.) is amended by adding at the end the following:

“SEC. 311. EXERCISE OF SUBPOENA AUTHORITY.

“(a) IN GENERAL.—For the purpose of—

“(1) any hearing, investigation, or other proceeding respecting a violation of a provision of this Act, the Public Health Service Act, or the Federal Anti-Tampering Act, relating to food; or

“(2) any hearing, investigation, or other proceeding to determine if a person is in violation of a specific provision of this Act, the Public Health Service Act, or the Federal Anti-Tampering Act, relating to food, the Commissioner may issue subpoenas requiring the attendance and testimony of witnesses and the production of records and other things.

“(b) TIMING OF COMPLIANCE.—When the Commissioner deems that immediate compliance with a subpoena issued under this section is necessary to address a threat of serious adverse health consequences or death, the subpoena may require immediate production.

“(c) SERVICE OF SUBPOENA.—

“(1) IN GENERAL.—Subpoenas of the Commissioner shall be served by a person authorized by the Commissioner by delivering a copy thereof to the person named therein or by certified mail addressed to such person at such person's last known dwelling place or principal place of business.

“(2) CORPORATIONS AND OTHER ENTITIES.—Service on a domestic or foreign corporation, partnership, unincorporated association, or other entity that is subject to suit under a common name may be made by delivering the subpoena to an officer, a managing or general agent, or any other agent authorized by appointment or by law to receive service of process.

“(3) PERSON OUTSIDE U.S. JURISDICTION.—Service on any person not found within the territorial jurisdiction of any court of the United States may be made in any manner as the Federal Rules of Civil Procedure prescribe for service in a foreign nation.

“(4) PROOF OF SERVICE.—A verified return by the person so serving the subpoena setting forth the manner of service, or, in the case of service by certified mail, the return post office receipt therefor signed by the person so served, shall be proof of service.

“(d) PAYMENT OF WITNESSES.—Witnesses subpoenaed under subsection (a) shall be paid the same fees and mileage as are paid witnesses in the district courts of the United States.

“(e) ENFORCEMENT.—In the case of a refusal to obey a subpoena duly served upon any person under subsection (a), any district court of the United States for the judicial district in which such person charged with refusal to obey is found, resides, or transacts business, upon application by the Commissioner, shall have jurisdiction to issue an order compelling compliance with the subpoena and requiring such person to appear and give testimony or to appear and produce records and other things, or both. The failure to obey such order of the court may be punished by the court as contempt thereof. If the person charged with failure or refusal to obey is not found within the territorial jurisdiction of the United States, the United States District

Court for the District of Columbia shall have the same jurisdiction, consistent with due process, to take any action respecting compliance with the subpoena by such person that such district court would have if such person were personally within the jurisdiction of such district court.

“(f) **NONDISCLOSURE.**—A United States district court for the district in which the subpoena is or will be served, upon application of the Commissioner, may issue an ex parte order that no person or entity disclose to any other person or entity (other than to an attorney to obtain legal advice) the existence of such subpoena for a period of up to 90 days. Such order may be issued on a showing that the records or things being sought may be relevant to the hearing, investigation, proceeding, or other matter and that there is reason to believe that such disclosure may result in—

“(1) furtherance of a potential violation under investigation;

“(2) endangerment to the life or physical safety of any person;

“(3) flight or other action to avoid prosecution or other enforcement remedies;

“(4) destruction of or tampering with evidence; or

“(5) intimidation of potential witnesses.

An order under this subsection may be renewed for additional periods of up to 90 days upon a showing that any of the circumstances described in paragraphs (1) through (5) continue to exist.

“(g) **RELATION TO OTHER PROVISIONS.**—The subpoena authority vested in the Commissioner and the district courts of the United States by this section is in addition to any such authority vested in the Commissioner or such courts by other provisions of law, or as is otherwise authorized by law.

“(h) **NONDELEGATION.**—The authority to issue a subpoena under this section is limited to the Secretary or an official designated by the Secretary. An official may not be so designated unless the official is the director of the district under this Act in which the article involved is located, or is an official senior to such director.”.

SEC. 212. WHISTLEBLOWER PROTECTIONS.

Chapter X (21 U.S.C. 391 et seq.), as amended by section 206, is amended by adding at the end the following:

“SEC. 1012 PROTECTIONS FOR EMPLOYEES WHO REFUSE TO VIOLATE, OR WHO DISCLOSE VIOLATIONS OF, THIS ACT.

“(a) **IN GENERAL.**—No person who submits or is required under this Act or the Public Health Service Act to submit any information related to a food, or any officer, employee, contractor, subcontractor, or agent of such person may discharge, demote, suspend, threaten, harass, or in any other manner discriminate against an employee in the terms and conditions of employment because of any lawful act done by the employee, including within the ordinary course of the job duties of such employee—

“(1) to provide information, cause information to be provided, or otherwise assist in any investigation regarding any conduct which the employee reasonably believes constitutes a violation of this Act, or any other provision of Federal law relating to the safety of a food, if the information or assistance is provided to, or an investigation stemming from the provided information is conducted by—

“(A) a Federal regulatory or law enforcement agency;

“(B) any Member of Congress or any committee of Congress; or

“(C) a person with supervisory authority over the employee (or such other person

working for the employer who has the authority to investigate, discover, or terminate the misconduct);

“(2) to file, cause to be filed, testify, participate in, or otherwise assist in a proceeding filed, or about to be filed (with any knowledge of the employer), in any court or administrative forum relating to any such alleged violation; or

“(3) to refuse to commit or assist in any such violation.

“(b) **ENFORCEMENT ACTION.**—

“(1) **IN GENERAL.**—An employee who alleges discharge or other discrimination in violation of subsection (a) may seek relief in accordance with the provisions of subsection (c) by—

“(A) filing a complaint with the Secretary of Labor; or

“(B) if the Secretary of Labor has not issued a final decision within 210 days of the filing of the complaint and there is no showing that such delay is due to the bad faith of the claimant, or within 90 days after receiving a final decision or order from the Secretary, bringing an action at law or equity for de novo review in the appropriate district court of the United States, which court shall have jurisdiction over such action without regard to the amount in controversy, and which action shall, at the request of either party to such action, be tried by the court with a jury.

“(2) **PROCEDURE.**—

“(A) **IN GENERAL.**—Any action under paragraph (1) shall be governed under the rules and procedures set forth in section 42121(b) of title 49, United States Code.

“(B) **EXCEPTION.**—Notification in an action under paragraph (1) shall be made in accordance with section 42121(b)(1) of title 49, United States Code, except that such notification shall be made to the person named in the complaint, the employer, and the Commissioner of Food and Drugs.

“(C) **BURDENS OF PROOF.**—An action brought under paragraph (1)(A) or (1)(B) shall be governed by the legal burdens of proof set forth in section 42121(b) of title 49, United States Code.

“(D) **STATUTE OF LIMITATIONS.**—An action under paragraph (1)(A) shall be commenced not later than 180 days after the date on which the violation occurs.

“(c) **REMEDIES.**—

“(1) **IN GENERAL.**—An employee prevailing in any action under subsection (b)(1) shall be entitled to all relief necessary to make the employee whole.

“(2) **ISSUANCE OF ORDER.**—If, in response to a complaint filed under paragraph (b)(1), the Secretary of Labor or the district court, as applicable, determines that a violation of subsection (a) has occurred, the Secretary or the court shall order the person who committed such violation—

“(A) to take affirmative action to abate the violation;

“(B) to—

“(i) reinstate the complainant to his or her former position together with compensation (including back pay); and

“(ii) restore the terms, conditions, and privileges associated with his or her employment; and

“(C) to provide compensatory damages to the complainant.

If such an order is issued under this paragraph, the Secretary or the court, at the request of the complainant, shall assess against the person against whom the order is issued a sum equal to the aggregate amount of all costs and expenses (including attorney and expert witness fees) reasonably incurred,

as determined by the Secretary, by the complainant for, or in connection with, the bringing of the complaint upon which the order was issued.

“(d) **RIGHTS RETAINED BY EMPLOYEE.**—Nothing in this section shall be deemed to diminish the rights, privileges, or remedies of any employee under any Federal or State law or under any collective bargaining agreement. The rights and remedies in this section may not be waived by any agreement, policy, form, or condition of employment.”.

SEC. 213. EXTRATERRITORIAL JURISDICTION.

(a) **PROHIBITED ACT.**—Section 301 (21 U.S.C. 331), as amended by sections 110, 111, 133, 136, and 204, is amended by adding at the end the following:

“(aaa) The production, manufacture, processing, preparation, packing, holding, or distribution of an adulterated or misbranded food with the knowledge or intent that such article will be imported into the United States.”.

(b) **JURISDICTION.**—Chapter III (21 U.S.C. 331 et seq.), as amended by section 211, is amended by adding at the end the following:

“SEC. 312. EXTRATERRITORIAL JURISDICTION.

“There is extraterritorial Federal jurisdiction over any violation of this Act relating to any article of food if such article was intended for import into the United States or if any act in furtherance of the violation was committed in the United States.”.

SEC. 214. SUPPORT FOR TRAINING INSTITUTES.

The Secretary of Health and Human Services, acting through the Commissioner of Food and Drugs, shall provide financial and other assistance to appropriate entities to establish and maintain one or more university-affiliated food protection training institutes that—

(1) conduct training related to food protection activities for Federal, State, local, territorial, and tribal officials; and

(2) meet standards developed by the Secretary.

SEC. 215. BISPHENOL A IN FOOD AND BEVERAGE CONTAINERS.

(a) **NOTICE OF DETERMINATION.**—No later than December 31, 2009, the Secretary of Health and Human Services shall notify the Congress whether the available scientific data support a determination that there is a reasonable certainty of no harm, for infants, young children, pregnant women, and adults, for approved uses of polycarbonate plastic and epoxy resin made with bisphenol A in food and beverage containers, including reusable food and beverage containers, under the conditions of use prescribed in current Food and Drug Administration regulations.

(b) **NOTICE OF ACTIONS TO BE TAKEN.**—If the Secretary concludes that such a determination cannot be made for any approved use, the Secretary shall notify the Congress of the actions the Secretary intends to take under the Secretary's authority to regulate food additives to protect the public health, which may include—

(1) revoking or modifying any of the approved uses of bisphenol A in food and beverage containers, including reusable food and beverage containers; and

(2) ensuring that the public is sufficiently informed of such determination and the steps the public may take in response to such determination.

(c) **RULE OF CONSTRUCTION.**—Nothing herein is intended or shall be construed to modify existing Food and Drug Administration authority, procedures, or policies for assessing scientific data, making safety determinations, or regulating the safe use of food additives.

SEC. 216. LEAD CONTENT LABELING REQUIREMENT FOR CERAMIC TABLEWARE AND COOKWARE.

(a) IN GENERAL.—Section 403 (21 U.S.C. 343), as amended by sections 101(a), 109(a), 114(a), 202, and 204, is amended by adding at the end the following:

“(ff) If it is ceramic tableware or cookware and includes a glaze or decorations containing lead for an intended functional purpose, unless—

“(1) the product and its packaging bear the statement: ‘This product is made with lead-based glaze consistent with Food and Drug Administration guidelines for such lead.’; or

“(2) the product is in compliance with the requirements applicable to ornamental and decorative ceramicware in section 109.16 of title 21, Code of Federal Regulations (or any successor regulation).”.

(b) EFFECTIVE DATE.—Section 403(ff) of the Federal Food, Drug, and Cosmetic Act, as added by subsection (a), shall apply only to ceramic tableware or cookware that is manufactured on or after the date that is 1 year after the date of the enactment of this Act.

(c) CONSUMER EDUCATION.—Chapter IV (21 U.S.C. 341 et seq.), as amended by sections 102, 103, 104, and 111, is amended by adding at the end the following:

“SEC. 421. CONSUMER EDUCATION ON THE CONTENT OF LEAD IN CERAMICWARE AND APPLICABLE LABELING REQUIREMENTS.

“(a) IN GENERAL.—The Secretary shall educate consumers on the safety of ceramicware for food use by posting information on the Web site of the Food and Drug Administration with regard to—

“(1) the content of lead in ceramicware and its glaze;

“(2) existing Federal laws and regulations governing lead in ceramicware;

“(3) as appropriate, existing industry practices and guidelines; and

“(4) the labeling requirements applicable under this Act.

“(b) TOPICS.—The education under this section shall address—

“(1) the broad range of ceramicware types, including traditional pottery, ornamental and decorative ceramicware, cookware, and everyday dinnerware;

“(2) the safety of ceramicware that is aged or damaged;

“(3) the use of ceramicware in microwave ovens;

“(4) the storage of foods in ceramicware;

“(5) the use of home lead test kits by consumers;

“(6) the use of ceramicware by children and women of childbearing age; and

“(7) issues that are especially relevant to subpopulations of consumers who may preferentially use certain types of ceramicware made with lead.”.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from Michigan (Mr. DINGELL) and the gentleman from Texas (Mr. BARTON) each will control 20 minutes.

The Chair now recognizes the gentleman from Michigan.

Mr. BARTON of Texas. Before we recognize Chairman DINGELL, I would ask unanimous consent that Mr. LUCAS, the ranking member of the Agriculture Committee, control 10 minutes of my time.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Texas?

There was no objection.

GENERAL LEAVE

Mr. DINGELL. Mr. Speaker, I ask unanimous consent that all Members have 5 legislative days in which to revise and extend their remarks and insert extraneous matter into the RECORD.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Michigan?

There was no objection.

Mr. DINGELL. Mr. Speaker, I yield myself 2 minutes.

Mr. Speaker, this is a remarkable piece of bipartisan work. I want to pay tribute to my dear friend Mr. BARTON, the ranking minority member of the committee; my good friend, the chairman of the committee, for his outstanding leadership on this, Mr. WAXMAN; and also Mr. PALLONE, as chairman of the subcommittee, for their leadership.

I want to tell the House how important the labors of my dear friend Mr. STUPAK have been in the Oversight Investigations Committee in creating the basis from which this legislation can move forward. This has been a piece of legislation which moved unanimously out of the committee. It is something which we would hope this House would always be able to emulate.

I want to congratulate Representatives SUTTON, NATHAN DEAL, and JOHN SHIMKUS for their labors, and the outstanding staff on both sides of the Commerce Committee.

I want to express my appreciation to COLLIN PETERSON and Mr. CARDOZA of California for their labors, and Representative DELAURO and President Obama and the White House food safety group.

The legislation is supported by the Consumers Union, the Centers for Science and Public Interest, the National Consumers League, and a large number of other organizations, including the Grocery Manufacturers, GMA, and United Fresh Produce. Jeanie Ireland and my good friend Virgil Miller have worked very hard at the staff level, and they deserve thanks.

This is a piece of legislation that will stop Americans being killed by bad foods. It is a piece of legislation that will see to it that the Food and Drug Administration has both the authority and the funds to address not only American foods but foods being imported from places like China. It will stop harmful seafood, E. coli in spinach, tainted peppers from Mexico, and a large number of other things.

I urge my colleagues to support this legislation.

I reserve the balance of my time.

Mr. BARTON of Texas. Mr. Speaker, I want to yield 2 minutes to the ranking member of the Health Subcommittee, Mr. DEAL of Georgia.

Mr. DEAL of Georgia. I thank the gentleman for yielding.

I, too, want to thank the sponsor of this legislation and our committee for

working in a bipartisan fashion. As many of you will recall, earlier this year, our Nation was rocked with a peanut butter contamination that involved salmonella, and it became very apparent very shortly after the investigation started that a rogue operator, the Peanut Corporation of America, had risked the well-being of thousands of Americans.

In addition, it resulted in millions of dollars of loss to an industry that is very important to my State of Georgia. Peanut sales plummeted. It was in an effort to shore up the company's individual bottom line that PCA had recklessly jeopardized both peanut farmers and processors and the public in this country.

Now, this is a piece of legislation that is designed to try to correct some of those problems because they are not unique just to the peanut industry. We've seen them in the tomato, jalapeno pepper, the pistachio nuts, the contamination of spinach and many others. This legislation requires the development and implementation of a hazard analysis and food safety plan with regular updating, a requirement which is already in place for USDA-regulated facilities, such as poultry processing that is in my district. These plans have proved to be effective in reducing the hazard of food-borne contamination.

This legislation also implements a risk-based inspection schedule, which improves today's unacceptable status quo and targets our most vulnerable facilities for greater oversight. I know there's been concern about the overlap into USDA activities. There is language in the bill that would exclude the inclusion of farms within the bill. They are excluded. They are not required to register. They're not required to pay a registration fee. Livestock and poultry are also exempt. It does not allow the FDA to regulate what are now USDA-regulated facilities and products.

I commend this legislation and urge my colleagues to adopt it.

Mr. DINGELL. Mr. Speaker, I yield 2 minutes to the distinguished chairman of the Committee on Energy and Commerce, Mr. WAXMAN, whose leadership in this matter has been appreciated.

Mr. WAXMAN. Mr. Speaker, a series of food-borne disease outbreaks in spinach, peanuts, and peppers, to name a few, have not only just sickened and killed American consumers, they've laid bare the unacceptable gaps in our food safety laws. And today, the House will act to close those gaps, give FDA new authorities, new tools, and a new source of funding to carry out this vital mission.

This legislation contains policy solutions that come from many Members on both sides of the aisle. It's largely based on legislation introduced by Chairman Emeritus JOHN DINGELL,

Subcommittee Chairmen PALLONE and STUPAK. These three Members have played an instrumental role in this legislation, as have Representatives SUTTON and DEGETTE on our committee.

In addition, I want to single out Chairwoman ROSA DELAURO who introduced the landmark legislation which contributed in a substantial way to this bill. I want to thank our full committee Ranking Member BARTON and subcommittee Ranking Members SHIMKUS and DEAL for their contributions to the legislation as well, and Chairman PETERSON and Chairman RANGEL who gave suggestions to make the bill a better bill.

The coalition of food safety groups worked with the Members to develop and maintain the strong, public health protections in this bill. I think that they deserve an enormous amount of recognition, but I want to thank Rachel Sher of my staff for her thoughtful work and countless hours on this bill. Other key staff on the effort include Eric Flamm, Virgil Miller, Elana Leventhal, and Erika Orloff, as well as several individuals from the minority staff, including Ryan Long, Clay Alspach, Blake Fulenwider, and Chris Sarley.

And finally, I want to thank President Obama and his administration for their contributions to this legislation. The safety of the food supply is a critical issue, and this legislation will give the administration the tools they need to keep this food supply safe.

I urge a "yes" vote for the bill.

Mr. LUCAS. I yield myself 5 minutes.

Mr. Speaker, I truly regret that I must rise in opposition to this legislation, H.R. 2749, the Food Safety Enhancement Act of 2009.

Let me begin by saying that I believe our Nation has the safest food supply in the world. I also believe that we must continually examine our food production and regulatory system and look for ways to improve food safety. However, the bill before us today does little to accomplish the goal of enhancing food safety. One glaring example is the fact that the authors of the bill did not require the U.S. Food and Drug Administration—"require" being the operative phrase—to spend one additional penny on the inspection of food.

□ 1415

The bill before us today is the product of a flawed process. This is just another example of Federal power without the benefit of careful consideration. It is what we have come to expect from the majority leadership of the 111th Congress. We could point to the stimulus package, cap-and-trade, and soon the health care bill as examples of a blatant disregard for the legislative process and for the American people, for whom we work. As of last night, no one had seen a copy of this bill.

It is tragic that despite a clear jurisdictional claim, the chairman of the House Agriculture Committee did not demand that the bill be referred, conduct hearings on its provisions and work at the committee's will to make improvements.

But this is not just a matter of jurisdiction between two committees. The real losers today are farmers, ranchers, and, yes, consumers. During a recent committee hearing on the general topic of food safety, not a single producer witness would support this bill in its current form. This is a stunning failure to fulfill our legislative responsibility.

One provision of particular concern would mandate that the Food and Drug Administration set on-farm production performance standards. For the first time, we would have the Federal Government prescribing how our farmers grow crops. Farming, the growing of crops and the raising of livestock, is one of the first organized activities pursued by man. We have been doing it for a very long time, and we have been doing it without the FDA.

New language to the bill would exclude row crop producers from FDA regulatory authority over growing and harvesting crops. Language was also approved that would relieve livestock producers from some of the burdens of the law. Although these are needed changes, they do not go far enough to make the bill acceptable.

This bill still leaves our Nation's fruit and vegetable producers subject to objectionable regulatory burdens.

There are other problems in the bill as well. New registration authorities for food processing facilities create what amounts to a Federal license to be in the food business. Hundreds of millions of dollars in associated fees represented by a new tax on food production, along with regulatory burdens, will increase the cost of food for consumers, increasingly forcing food production out of this country, unfortunately.

New quarantine authorities for FDA will undermine animal and plant inspection control programs that have been in place at USDA for decades.

The vast majority of these provisions, along with new penalties, record-keeping requirements, traceability, labeling, country-of-origin labeling, will do absolutely nothing to prevent food-borne disease outbreaks, but will do plenty to keep the Federal bureaucracy busy. These issues can be worked out through the normal legislative process, but only if there is a process.

Mr. Speaker, let me return to where I started. We have the safest food supply in the world. Anyone following current events knows that our food production system faces ongoing food safety challenges, and I stand ready to work with my colleagues to address these challenges. But this is not the way to create law.

We should not suspend the rules to pass this bill. Our Nation's farmers, ranchers and consumers deserve better, Mr. Speaker.

Mr. Speaker, I reserve the balance of my time.

Mr. DINGELL. Mr. Speaker, I will have a full rebuttal for the remarks of the gentleman who has just spoken.

I yield 1 minute at this time to my dear friend, the chairman of the subcommittee, the gentleman from New Jersey (Mr. PALLONE).

Mr. PALLONE. Mr. Speaker, I thank the chairman.

I rise in strong support of H.R. 2749, the Food Safety Enhancement Act of 2009. It is time that we put in place a stronger and more thorough system to prevent food-borne illness rather than continuing to simply react to outbreak after outbreak of contaminated products.

This bill will require that food manufacturers put in place preventive controls to monitor the production lines and identify, prevent or eliminate hazards, should they arise. It requires them to have food safety plans detailing all the food safety activities that the company is undertaking to ensure the safety of their products.

Under the bill, the FDA will have the authority to set performance standards that companies must incorporate into their food safety plans; it requires the FDA to put in place a traceability system for food products. It requires the FDA to inspect facilities according to a minimum inspection frequency, and it provides the FDA with enhanced enforcement authorities.

Mr. Speaker, this is the strongest bill it can be. It will catapult the FDA into the 21st century, and it will arm the agency with the necessary authorities and enforcement power to protect our Nation's food supply.

Mr. BARTON of Texas. Mr. Speaker, I yield 2 minutes to the gentleman from Illinois (Mr. SHIMKUS).

Mr. SHIMKUS. Mr. Speaker, I want to thank Chairman Emeritus DINGELL for his work on this bill. I also want to thank Chairman WAXMAN.

Mr. DINGELL. If the gentleman will yield, I want to tell the House how important the labors of the gentleman have been, and also those of Mr. BARTON and Mr. DEAL. We owe a great debt to the gentleman.

Mr. SHIMKUS. Thank you very much. I also want to thank Chairman WAXMAN for mentioning Chris Sarley, who did yeoman's work with the majority staff, and I appreciate their kindness and work effort.

This is a model for what we can do on energy and what we can do on health if we would move in that direction. We can't defend the current system. As a former ranking member on Oversight and Investigations, there are fixes that have to be made.

This bill provides a risk-based inspection regime and gives the FDA flexibility to change the frequency of inspections to lower-risk facilities. It allows FDA access to records. It gives companies flexibility to use different preventative control systems. And where things are working, we let existing authority remain with respect to USDA.

I am an ag Republican, so I understand the concerns of my colleagues on the Ag Committee. But this bill does not require farms to register with the FDA; and as a result, farms do not have to pay a registration fee.

Access to farm records is significantly restricted. Livestock and poultry are exempt from the bill. Grain and related commodities are exempt from produce standards. USDA-regulated farms, facilities and products are not subject to this bill. It allows farms to be exempt from any traceability requirements.

But I will pledge to continue to work with any ag Republican colleagues as this process moves forward to try to address some of the remaining concerns. I do appreciate the majority and their work on this. Again, I think it is a good method for which we can move on energy and health care when we get to a point where we want to do that.

Mr. DINGELL. Mr. Speaker, I am very delighted at this time to yield 1 minute to the distinguished gentleman from Michigan (Mr. STUPAK), chairman of the Subcommittee on Oversight and Investigations, who has done so much to make the investigations which have brought us to the point where people understand the need for this legislation.

Mr. STUPAK. Mr. Speaker, I rise in support of H.R. 2749, the Food Safety Enhancement Act. As chairman of the Subcommittee on Oversight and Investigations, I, along with Ranking Members WHITFIELD, SHIMKUS and WALDEN, have held 10 hearings over the past 2 years to examine the safety and security of our Nation's food supply.

This investigation takes important steps towards addressing the gaping holes in our Nation's food supply by recognizing that the food industry and the FDA must share responsibility for securing our Nation's food supply. Provisions granting the FDA additional authorities, such as quarantine, recall, subpoena power and access to records, are all addressed in H.R. 2749.

I want to thank my colleagues and friends, Chairman DINGELL, Chairman PALLONE and Chairman WAXMAN, for all their hard work on this issue. I also wish to thank their staffs, who have worked diligently to see this bill come before us today. Plus I want to thank the Obama administration for working with us.

All the dedication of all the individuals have paid off with a piece of legislation that will help protect and ensure

all Americans have access to safe food. I am proud to be part of such great legislation. I urge all of my colleagues to support its passage.

Mr. LUCAS. Mr. Speaker, I wish to yield 1¼ minutes to the gentleman from Kansas (Mr. MORAN).

Mr. MORAN of Kansas. Mr. Speaker, I thank the gentleman for yielding.

Do not vote in favor of H.R. 2749 thinking that today's vote is a throw-away one to demonstrate one's support for food safety.

We are all interested in food safety. It matters. Those of us involved in agriculture care about food safety. It is a matter of life and health for our consumers, and for the farmers and ranchers it is a matter of their livelihood. Even the rumor of unsafe food causes commodity prices to fall and farm incomes to decline.

While I am unable to tell my colleagues the exact details of this bill, I can say with certainty there are significant adverse consequences to farmers, especially our smallest ones, and those consequences include on-farm performance standards, record-keeping requirements, arbitrary record access requirements and registration fees, none of which may actually improve food safety.

The reason I am unable to describe the details of this bill is that those details became available only this morning. The bill before us was amended, striking everything after the enacting clause and inserting a new text. The entire bill as it existed yesterday was deleted and new language put in its place. There have been few hearings on this bill, constant redrafting by a few people outside the committees, and no referral to the Committee on Agriculture.

Do not let the Suspension Calendar fool you. This bill is substantive legislation with uncertain consequences. Vote "no."

Mr. DINGELL. Mr. Speaker, I yield 1 minute to the distinguished gentleman from Connecticut (Ms. DELAURO).

Ms. DELAURO. Mr. Speaker, I rise in support of this bill and thank Chairman WAXMAN and Chairman Emeritus DINGELL for their hard work.

The bill begins a long task of rectifying decades of neglect by updating FDA's ancient tools and outdated mandates. It gives the FDA the means to deal with dangers imposed by a global food system and enhances the agency's ability to prevent food contamination.

It incorporates key provisions from legislation I introduced this year and moves the FDA to a risk-based inspection system. It requires the agency to inspect the highest-risk facilities once every 6 months to a year, rather than once a decade.

It enhances reporting requirements for companies and establishes performance standards for fighting food-based

pathogens. Performance standards form the backbone for monitoring the effectiveness of process control systems and identifying the foods at greatest risk.

I continue to strongly believe that the best way to protect our food supply is to streamline the FDA into two separate agencies within Health and Human Services so that food and drug safety both get the full and comprehensive attention they deserve.

This bill is a strong, solid first step in creating a comprehensive food safety system that can protect American families from the many dangers of contaminated food. I urge my colleagues to support this bill.

Mr. BARTON of Texas. I yield 2 minutes to the gentleman from Oregon (Mr. WALDEN), the ranking member of the Oversight Subcommittee of the Committee on Energy and Commerce.

Mr. WALDEN. Mr. Speaker, this really ought to be called Jake's Law, after 3-year-old Jake Hurley of Wilsonville, Oregon. In February, before the Oversight and Investigations Subcommittee, Jake's father, Peter, testified about how Jake contracted salmonella from eating peanut butter products from Peanut Corporation of America in Georgia.

In January, Jake became sick. His doctors asked his parents, what does he like to eat? They recommended some food products. As it turned out, those very food products in their home were contaminated with salmonella that came about because of PCA.

So when Stewart Parnell, the PCA president, testified before our Oversight Committee, I asked him, Would you like to sample some of the products that you sent out to little kids like Jake and other Americans to eat? His response? He took the Fifth Amendment.

Thankfully, Jake recovered. But nine people died from the outbreak, and at least 691 people, half of them children, were sickened.

If PCA had to follow a law like this that would require a fully-functioning food safety plan at food production facilities, traceability of the food chain, increased inspection and recall authority from FDA, there is a good chance that the salmonella outbreak could have been avoided and Jake and hundreds of others never would have been poisoned.

Because of Jake's story and others like it we uncovered in bipartisan O&I food safety hearings since 2007, we now have a bipartisan piece of legislation here to pass the House of Representatives; and I urge your support for it, for the food safety of our country and the citizens that live here.

Mr. DINGELL. If the gentleman will yield, I want to compliment the gentleman on his comments and I want to praise him for his valuable and important contribution to the legislation. As

he has said, this is how legislation should be done, bipartisan; and we have gone across the aisle. But we have also gone between committees, working with the distinguished chairman of the Agriculture Committee. I commend the gentleman and thank him.

Mr. WALDEN. I thank the gentleman for his comments.

Mr. DINGELL. Mr. Speaker, I yield 1 minute to my distinguished friend, the gentlewoman from California (Ms. DEGETTE), a Member who has worked very hard on this legislation for a long time and who was one of the original sponsors and has been a valuable contributor to the process of bringing it forward.

□ 1430

Ms. DEGETTE. Mr. Speaker, many of us have been talking about comprehensive food safety for years. Our Nation's business community is calling for it. Our constituents are begging for it. I am so pleased that today, at long last, we are considering this bill on the House floor on a bipartisan basis.

The bill before us will strengthen our food supply in a number of areas. It will transform our system into one that focuses on prevention, rather than reaction. It will provide the FDA with the resources it has lacked; and by giving it mandatory recall authority and subpoena authority, it will give the FDA the tools it needs to deal with an emergency.

Mr. Speaker, this bill also will give the FDA the ability to track our food products along the supply chain, enabling targeted and speedier recalls that will benefit business and consumers alike. This traceability provision of the legislation, we know we can't do it overnight, but it will require the FDA to write regulations undertaking a pilot project, cost-benefit analysis, feasibility studies and public meetings to make sure that we can track food from field to fork. This will improve consumer safety and we exempt the family farm.

I urge adoption of this important bill.

Mr. LUCAS. Mr. Speaker, I yield 1 minute to the gentleman from Ohio (Mr. LATTA).

Mr. LATTA. Mr. Speaker, I thank the gentleman for yielding.

Mr. Speaker, section 101 of the bill requires an annual registration for a facility. The term "facility" means any factory, warehouse or establishment, including a factory, warehouse or establishment of an importer that manufactures, processes, packs or holds foods.

The user fees under this section require registration each year starting in 2010 to be \$500 and each subsequent year to be adjusted for inflation. This will affect small businesses and impose tax increases. For companies and individuals that own or operate multiple

facilities, a maximum level for total fees per year is set at \$175,000. These will have to be passed on to the consumer and will raise the price of food to cover the fees associated under this bill.

I encourage my colleagues to vote "no" on this bill under suspension so that Congress may debate food safety and come to an agreement on how to protect our Nation's farmers and food facilities in order to maintain the United States as having the world's safest, most economically viable food source.

The SPEAKER pro tempore. The Chair will note that the gentleman from Texas has 4 minutes remaining, the gentleman from Oklahoma has 3¼ minutes remaining, and the gentleman from Michigan has 12 minutes remaining.

Mr. DINGELL. Mr. Speaker, just for administrative purposes, does my friend on the Republican side have a sufficiency of time? I speak about Mr. BARTON.

Mr. BARTON of Texas. Mr. Chairman, we could use another 2 to 3 minutes, if you have it.

Mr. DINGELL. I will try to see if we can share, if it is necessary.

Mr. Speaker, at this time I yield to one of the original sponsors of the legislation, the distinguished gentlelady who has done much work to get this legislation to the floor, the distinguished gentlewoman from Ohio (Ms. SUTTON) 1 minute.

Ms. SUTTON. Mr. Speaker, I rise today as a proud cosponsor of the Food Safety Enhancement Act of 2009, and I commend the distinguished Chair Emeritus, JOHN DINGELL, for his dedication to formulating and passing this bill, which is so sorely needed to protect the safety of our food supply.

This year alone, we have experienced a series of outbreaks of food-borne illnesses. These outbreaks have taken a disproportionate toll on our State of Ohio. The peanut-related salmonella outbreak affected 92 individuals in Ohio, and, sadly, resulted in three tragic deaths. Nellie Napier, a constituent of mine, died from salmonella poisoning that she contracted in a nursing facility.

This bill is an essential step toward lowering these tragic numbers and restoring consumer confidence in our food supply. It will increase inspections of food facilities, improve traceability, and provide needed funding to the FDA for food safety activities. And with the increased globalization of our food supply—close to 13 percent of the food we eat comes from abroad—and this bill will help protect consumers from unsafe imported foods.

Mr. BARTON of Texas. I yield 2 minutes to the former Republican Conference chairman and probably future Governor of Florida (Mr. PUTNAM).

Mr. PUTNAM. I thank my friend from Texas.

I rise to support this bill which is built on a bipartisan foundation. I thank my friend from California (Mr. COSTA) who worked with a number of us to put together a strong food safety bill, and many of the key principles embedded in that bill have been built into the bill that we're debating here today. This is an issue that brings together America's farmers, ranchers and the consumers. There is no difference or distinction between the interests of those two parties. As the FDA's false information about the tomatoes implicated in the food-borne illness outbreak illustrates, when there is false information out there, the industry suffers; and when there is food-borne illness out there, consumer confidence is eroded. Both of those outcomes are unacceptable. So there is a need for both sides to come together on this, and I am proud that this is a bipartisan effort.

I would highlight some issues, though, that need additional work as this moves into the Senate. Most importantly, the quarantine and traceability issues need further work as well as the work that is done by our State and local Departments of Health and Departments of Agriculture. They are delegated 80 percent of FDA's authority to implement most of this bill and the other responsibilities of FDA. They must have better coordination and cooperation from the FDA in implementing this legislation as well as the rest of the food safety mandates already in the law. But overall, it is important that this Nation move forward with a modernization of the food safety system, some of which has not been built upon since the Teddy Roosevelt administration. It is important to our farmers and ranchers, and it is important to our consumers.

So for that reason, I am proud to stand in support of this bill and urge its passage, recognizing that there are issues that we need to continue to work with our friends and colleagues in the Senate on.

Mr. DINGELL. At this time I yield 1 minute to the distinguished chairman of the Agriculture Committee's subcommittee on food safety, the gentleman from Georgia (Mr. SCOTT), with thanks and appreciation for his good work.

Mr. SCOTT of Georgia. Thank you so much, Chairman DINGELL. I appreciate that so much. I really, quite honestly, can't understand how anybody could vote against this bill. We've already had three outbreaks that have definitely taken lives of the American people. But I want to thank, Chairman PETERSON on our Agriculture Committee, as well as Chairman DINGELL; and I certainly want to congratulate and thank our staff on my own subcommittee, Chandler Goule and Gary Woodward, for the excellent job that they have done. And to the gentleman

on the other side, we've had hearings on this; but the greatest hearing we've had on this has been the threats to the safety of the American people. If we enact these measures in this bill, we will save American lives.

Let me just tell you about one example: Better access to records in order to prevent the outbreaks. This bill will give the FDA access to the records of food producers and manufacturers during the time that they are inspecting the plants. Under current law, the FDA must wait for the food-borne illness to occur before they can even access the records. Now, ladies and gentlemen, if this had been in place, eight people would be alive today from the peanut outbreak in my district of Georgia. This is an important bill, it's timely, and I urge its passage.

Mr. LUCAS. Mr. Speaker, I yield 1 minute to the gentleman from Iowa (Mr. KING).

Mr. KING of Iowa. I thank the gentleman from Oklahoma for yielding, and I rise in opposition to this food safety bill, as it's labeled. It will provide some more food safety. I won't dispute that. But the point is that it grows government regulation, and it broadens the FDA's regulations over what I think, if it's going to be regulated, should be USDA.

We are looking at two, three or four individual food safety problems; and instead of looking at that and trying to solve the problem, first, we should try to solve it without legislation. Second, it should be specific to the food rather than the broad stroke that this bill is. I know that there are exemptions for feed grains; but in the end, this is a growth of regulation. It's a burden on our farmers and our food producers. It's a tax on our food producers. It's going to come out of the pockets of the American consumers, and it will diminish the smaller operations among us.

We have here a solution in search of a problem. We can solve this problem without new extra regulatory authority for the FDA. I rise in opposition to this bill, and I believe it should be Ag Committee jurisdiction.

Mr. DINGELL. Mr. Speaker, at this time I yield 2 minutes to the distinguished gentleman from California (Mr. COSTA), one of the great leaders in food safety, a distinguished member of the Committee on Agriculture, a man who has worked very closely with me and with the others who have been working on this, including the distinguished chairman of the Agriculture Committee.

Mr. COSTA. I want to start by thanking Chairman Emeritus JOHN DINGELL for his hard work on this effort, as he does in so many pieces of legislation that have been a part of his legacy; Chairman WAXMAN and Chairman PETERSON for their support and efforts to ensure that we come together in a collective effort; Ranking Member

BARTON and my colleague and friend Congressman ADAM PUTNAM from Florida.

We introduced this legislation in the last session of Congress, working to try to put together a bipartisan effort, understanding that food safety is job number one for all American farmers, ranchers and dairymen because they are consumers, their families consume their products, and they must ensure, as we all must ensure, that America's food on our dinner tables is the safest it can possibly be.

Our farmers are to be commended for their tireless efforts to produce the world's safest and most wholesome food, but we can always do better. This legislation intends to address that. Our food safety laws have not been updated for nearly 50 years. They're in need of modernization, both to protect the consumers and to protect our farmers from the loss of the markets. When an outbreak occurs, they're the first to be impacted; and obviously food safety is job number one for all consumers in America. I think it's important for us to note that there is not a one-size-fits-all approach to food safety; therefore, working together with the United States Department of Agriculture and the Food and Drug Administration is critical to making this legislation work.

What does it establish? It establishes science-based, risk-based standards for both producers and processors here and abroad; and let me underline abroad. Any food products that come into this country ought to meet the same standards that we require of our farmers and food processors here in America. This legislation attempts to do that. It means that ensuring our foreign partners, whether they are growing leafy greens or peppers or anything else, that they meet the same standards that American farmers must meet to put those products on the table.

Is this a perfect bill? No. It's a work in progress, but I think it's a good bipartisan bill. I would urge my colleagues to support this measure, and I thank the chairmen for their good work.

Mr. BARTON of Texas. Mr. Speaker, I'm the last speaker on my side in support of the bill, so I'm going to reserve the balance of my time.

Mr. DINGELL. With a great deal of pleasure and pride, at this time I yield 2 minutes to the gentleman from Minnesota (Mr. PETERSON), my good friend, the distinguished chairman of the Committee on Agriculture who has worked so hard not only on food safety but also with us to make this bill something which is acceptable to the House, to him and to American agriculture.

Mr. PETERSON. I thank the gentleman from Michigan for recognizing me, and I want to thank him for his hard work and his practical way of approaching legislation, which is the right way to do things.

I rise today in support of this legislation. Our committee has had hearings regarding food safety, and we had some concerns about the bill as it came out of the Energy and Commerce Committee. Mr. DINGELL was kind enough to sit down and work with us on those concerns; and out of that we were able to especially address the concerns of the livestock industry and the grain industry who were concerned that there may be unintended consequences. So we were able to get exemptions in those areas and also make other changes to make sure that the bill didn't interfere with the production and harvesting parts of agriculture.

□ 1445

We had, at the beginning of this, a number of groups that were concerned or even opposed to this legislation. And now, because of the changes that we have been able to work through with Mr. DINGELL and others, I am happy to report that these organizations are either now neutral or dropped their opposition or are supporting the bill: the United Fresh Fruit and Vegetable folks, Western Growers, the American Farm Bureau Federation, National Wheat Growers, the National Cattlemen's Beef Association, the National Turkey Federation, the National Chicken Council, the National Pork Producers Council, National Corn Growers, the American Soybean Association, the U.S. Rice Federation, American Feed Industry, United Egg Producers, and the American Sheep Industry.

I think this demonstrates that we have been able to move this legislation in a direction where we in agriculture are comfortable. I agree with Mr. PUTNAM that there is some additional work that can be done on this, and we intend to do that. So I encourage my colleagues to support this legislation.

The SPEAKER pro tempore. The gentleman's time has expired.

Mr. DINGELL. I yield the gentleman 30 seconds.

Would the gentleman yield to me?

Mr. PETERSON. I will yield.

Mr. DINGELL. I would just observe to my good friend that we have talked about this before, and I have assured the gentleman that we will continue to work together to address the concerns that he and the very able gentleman from Florida (Mr. PUTNAM) have expressed their concerns about. It has been a privilege to work with the gentleman, and I thank him.

Mr. PETERSON. I thank the gentleman. And I know that he will work with us as he has through this part of the process.

Mr. DINGELL. I thank the gentleman.

Mr. LUCAS. Mr. Speaker, I yield 1 minute to the gentleman from Ohio, the minority leader, Mr. BOEHNER.

Mr. BOEHNER. Mr. Speaker and my colleagues, here we go again. This is a

major piece of legislation that was introduced last night at the Rules Committee about 12:15. Then about 9:36 this morning we saw another version of this bill introduced to replace the first version. And then at 10:50 this morning we see a third version of this same bill. Now, this may be a great bill. I have no idea. But the fact is that introducing three different versions of the bill yet this day and then bringing it to the floor some 4 hours later begins to ask the question, Did anybody read the bill?

Now, I think the chairman and the ranking member and the chairman of the subcommittee probably did read the bill and understand what's in it, but how about the other 431 of us who serve in this House who are expected to vote on this?

And my second complaint about this bill is the fact that we are considering it here in the House under a procedure where there is a whopping 40 minutes of debate, 20 minutes on each side, 40 minutes, and no amendments are allowed to be offered. We've got this major food safety bill here on the floor, and nobody gets to offer an amendment, nobody gets to have a debate about it, and nobody, clearly, has much of an idea of what's in the bill.

Now, as a longtime member of the House Ag Committee, I understand that we've got the safest food supply in the world. It's probably not perfect, but it is the safest food supply in the world, and we can do better. But to legislate in this manner under these conditions without Members having a clue about what's in the bill is not, in my view, in the best interest of the House.

Mr. DINGELL. Mr. Speaker, at this time, I am happy to yield 1 minute to the distinguished gentlewoman from Illinois (Ms. SCHAKOWSKY).

Ms. SCHAKOWSKY. I thank the chairman emeritus for yielding, and I thank him for his leadership in creating this bipartisan bill that passed unanimously out of our committee and is so important.

This is very personal to me. My dear friend, Nancy Donley, lost her son, Alex, in 1993, her only child, after he ate ground beef contaminated with E. coli. And we heard testimony from people whose children have died and whose family members and loved ones have become sick and died.

Finally, we are able to pass, in a bipartisan way, an overhaul of our food safety system. And so I am pleased to be able to join in this bipartisan agreement to support this legislation. I am also glad that it includes some language directing the FDA to examine antibiotic resistance as it relates to the food supply. I hope we will continue to move forward.

But I urge all of my colleagues to take this great opportunity so never again do we have to look at a victim, a family member of a victim or someone

who has died because food that they believed was safe actually killed them. Let's vote for this.

The SPEAKER pro tempore. The Chair will note that the gentleman from Michigan has 4½ minutes remaining, the gentleman from Texas has 2 minutes remaining, and the gentleman from Oklahoma has 1¼ minutes remaining.

The gentleman from Oklahoma is recognized.

Mr. LUCAS. Mr. Chairman, I rise to yield 1 minute to the gentleman from Pennsylvania (Mr. THOMPSON).

Mr. THOMPSON of Pennsylvania. Mr. Speaker, as a member of the Agriculture Committee, I rise in strong opposition to this bill. We all agree that food safety is an extremely important issue, and improvements can be clearly made to our system, but this legislation concerns me for a number of reasons.

First of all, it will do little to actually increase food safety, and it will add new burdens to many small businesses and farms across the country. One provision this bill contains is an expanded registration requirement which creates a license to be in the food industry. The license is expensive, and the provision will make it unlawful to sell food without it. And this bill would have significant impacts on agriculture sectors, particularly with fruits and vegetables.

Fundamentally, I take issue with this legislation because it opens our farms to the Food and Drug Administration. Farms and agricultural activities are already regulated by the USDA. The FDA does not, and should not, have jurisdiction over farms or agricultural practices.

Good policy makes for good politics, and that can only occur with a real, full debate on this issue, which would occur if this bill would have stayed within the jurisdiction of the Agriculture Committee.

I urge my colleagues to vote "no" on this misguided legislation.

Mr. DINGELL. Mr. Speaker, I am the last speaker on this side, so I am going to reserve my time, but I want to yield 2 minutes to my dear friend, Mr. BARTON. And I want to commend him for his courage, his decency, and the extraordinary way in which he has worked with the distinguished Agriculture Committee and its great chairman, and also with me and the Democrats. We are handling this bill the way it should be handled, in a proper bipartisan fashion, and I want to commend him.

Mr. BARTON of Texas. I want to inquire of the Chair, with his yielding, I have 4 minutes; is that correct?

The SPEAKER pro tempore. The gentleman now has 4 minutes, yes.

Mr. BARTON of Texas. Thank you, Chairman DINGELL.

First, I want to acknowledge the strong staff work on both sides on this

legislation. It has been a debate whether we would get the bill to the floor or whether Rachel Sher would have her baby first, and I am proud to report that we have gotten the bill to the floor. So we are birthing the food safety bill before she gives birth to another lovely human being.

What our minority leader said just a minute ago is absolutely true in the technical sense about different versions of the bill being introduced at different times, but that is not all of the story, as Paul Harvey used to say in his radio commentary. Those different versions have been introduced in the last day because of changes that I have asked for and other Republican Members have asked for to improve the bill at the request of Congressman LUCAS and his staff on the Agriculture Committee. We have been improving the bill to make it more supportive of agriculture.

I want to read part of a letter that we just got today from the Sheep Industry, the Cattlemen's Association and the Pork Council. It says: "America's livestock and poultry producers support the tightening of language recognizing the U.S. Department of Agriculture's authorities regarding products, facilities and farms raising animals from which meat and eggs are regulated under the Federal Meat Inspection Act, the Poultry Products Inspection Act or the Egg Products Inspection Act. There have also been great improvements made to the traceability language, the record-keeping provisions, as well as a more targeted approach for the new authority granted to the Food and Drug Administration to prohibit or restrict the movement of food. We also appreciate the strengthening of language that requires the Secretary of Health and Human Services to consult with the Secretary of Agriculture."

All of these changes were made at the suggestion of Congressman LUCAS and his staff, working through myself and my staff, through Mr. WAXMAN and Mr. DINGELL's staff.

This is a strong food safety bill. This is a necessary improvement to food safety. We have had outbreaks in the last several years in the peanuts industry, in the pepper industry, and in seafood products that have been imported. We need to bring the FDA authority into the 21st century.

I want to specifically go through some of the things that we have done with regard to agriculture. This bill does not require farms to register with the FDA. Under section 415 of the Food, Drug and Cosmetic Act, farms are not considered facilities, therefore, they do not have to register with the FDA.

This bill does not require farms to pay a registration fee. This bill does not apply to livestock and poultry. This bill does not apply to USDA-regulated farms, facilities and products.

This bill allows farms to be exempted from traceability requirements and greatly limits access to records. This bill exempts specifically grains and related commodities from produce standards. This bill does not apply to farmers markets.

So I understand that my friends on the Ag Committee did not have a legislative markup of this bill; they should have, I understand that. I have been in a situation in the Energy and Commerce Committee this year on the climate change bill and the health care bill where we on the Republican side have not been allowed to negotiate in the room. But on this bill, in this case, Chairman WAXMAN, Chairman DINGELL, Chairman STUPAK and Chairman PALLONE have worked with myself and Mr. DEAL and Mr. SHIMKUS and Mr. WALDEN and others. We have had an open, bipartisan process. We've had hearings going back to the prior Congress.

The process is fair on this bill. The product is fair on this bill. We do need an improved food safety bill.

I strongly recommend a "yes" vote on this legislation.

The SPEAKER pro tempore. The gentleman from Oklahoma has 15 seconds remaining.

Mr. LUCAS. I yield the entire sum to myself, Mr. Speaker.

I want to thank the chairman emeritus of the Energy and Commerce Committee and the ranking member, Mr. BARTON. You were kind to help us. You were kind to work with us. But the bottom line is the minority party of the Ag Committee should not have to go to the Energy and Commerce committee to work on an ag-related section of the bill.

Thank you, gentlemen. I appreciate you. But you shouldn't have had to have done it.

The SPEAKER pro tempore. The gentleman from Michigan has 2½ minutes remaining.

Mr. DINGELL. Mr. Speaker, I yield myself the balance of the time to close.

Mr. Speaker, this is a bipartisan bill. It has been worked on long and hard by three committees, including the Ways and Means. The chairman, Mr. RANGEL, and subcommittee chairman, Mr. LEVIN, have been extremely cooperative in resolving questions between the two committees.

I would note that staff at all levels of our committee, in the minority and on the majority—Rachel Sher and Eric Flamm—have been of enormous value in these discussions.

The complaint made by my colleague about exclusion of Members I can't comment on. I can only say we have tried to include everybody in this process as much as we could, and we have brought in industry, which supports the bill. But more importantly—and I say this to my friend with affection and respect—the reason for a lot of the changes that they're talking about

have been that, right up to the time that we have brought this bill to the floor, we have sought to see to it that we included everyone and took advantage of the wisdom of all the Members that we could possibly take advantage of.

The legislation will address from the point of origin to the consumer's table. It will enable us to get at unsafe foods, not just in this country, but in China, in India, and other places where these foods are coming in. It will provide Food and Drug with the resources they need to address these problems in terms of personnel and money. It will also keep their laboratories open. More importantly, it will see to it that the public comes first, and for the first time in years, know that the foods that we are bringing into this country and that are being made available to the American people are in fact safe. No major reviews of the food provisions of the Food and Drug Act have been done since 1938, and, as was wisely pointed out by my colleagues, some not back to 1912.

This is an important step which will protect the American people, who are today being killed, sickened, and hurt by unsafe foods brought in by unscrupulous people.

□ 1500

It will do something more than this. It will protect the American food industry, the processors, the manufacturers, and the growers, against unfair competition in places like China where they are adding melamine to food and delivering patently unsafe food.

Mr. VAN HOLLEN. Mr. Speaker, I rise in strong support of the Food Safety Enhancement Act of 2009. This bipartisan legislation will address and reform the shortcomings in our food supply system.

Serious gaps have been exposed in the Food and Drug Administration's ability to protect the American public due to recent outbreaks and recalls of food-borne diseases in spinach, peanuts, peppers, and other foods that many Americans depend on daily. These outbreaks have not only shaken consumer confidence in the industry that produces one of our most basic and important commodities, but it has also caused sickness and even death.

We need to ensure that FDA has the necessary tools and resources to fulfill its vital mission in protecting the American public from unsafe products. The Food Safety Enhancement Act will accomplish this by bringing the FDA into the 21st century so that it can address the challenges and problems created by a global food system and to prevent the causes associated with food-borne illnesses. Currently, FDA is only able to inspect approximately one percent of imported food at the border. The bill will require the FDA to inspect high-risk facilities once every six months to a year and create a system to prevent contamination of imported and domestically produced food from occurring.

Mr. Speaker, American consumers should not live in fear of the food they eat. I want to

thank Chairman WAXMAN and Chairman DINGELL for their leadership on this very important issue. I urge my colleagues to join me in supporting this much-needed legislation.

Mr. HOYER. Mr. Speaker, I rise in strong support of the Food Safety Enhancement Act of 2009, and I thank Chairman Emeritus DINGELL, Chairmen WAXMAN, PALLONE, and STUPAK, and Representatives DEGETTE and SUTTON for their hard work to bring it to the floor today. This bill gives the Food and Drug Administration the authority and resources it needs to ensure that all Americans can be confident that the food they are putting on their family tables is free of contamination.

A string of recent food safety scares shows that this bill is overdue—from the discovery of E. coli in spinach to salmonella in peppers and peanut butter. In fact, Time magazine reports that contaminated food causes 5,000 deaths and 325,000 hospitalizations each year. Unsafe food does not only put health and lives at risk; it undermines confidence across the board and poses a real threat to Americans' trust in our food industry. And that lack of trust is harmful to both families' peace of mind and the food industry's economic future. So it is in the interest of consumers and industry alike to see safety regulations faithfully enforced.

This bill speeds up the inspection schedule, ensuring that the FDA checks up on high-risk food facilities every six to 12 months, and on lower-risk facilities at least once every 18 months to three years. It requires all food facilities operating in the U.S. or exporting to the U.S. to develop and submit food safety plans. It strengthens safeguards against unsafe imported food products. And it provides for a faster, more effective FDA response in case we do see a food emergency: with an up-to-date registry of food facilities, better traceability of contaminated food, and stronger authority to quarantine and recall dangerous products, the FDA will be empowered to take quick action that can nip outbreaks in the bud and save lives.

These steps, and more, combine to make this what many have called the most sweeping reform of food safety laws in 50 years. One only needs to watch the news to see that this reform is highly needed. I urge my colleagues to support it.

Mr. MARKEY of Massachusetts. Mr. Speaker, I rise in support of the Food Safety Enhancement Act of 2009, and commend Chairmen WAXMAN, BARTON, PALLONE, DINGELL, DEAL and STUPAK for all of their bipartisan and extensive work on this important legislation.

The Food Safety Enhancement Act is a critical part of protecting the health and wellbeing of our citizens from food-borne illnesses and negligent food manufacturers. This bill strengthens the FDA's oversight of our nation's food supply by increasing inspections, improving traceability, and empowering the agency to order mandatory recalls when necessary.

The FDA is responsible for the safety of 80 percent of our nation's food supply, but only has the resources to inspect food-manufacturing facilities once every 10 years. Over the past several years we have seen an increase in outbreaks of Salmonella, resulting in recalls of tainted food, health problems, and sadly,

deaths. The FDA under the Bush Administration failed to take the steps necessary to ensure the safety of our food supply, but this bill, which was approved by the Energy and Commerce Committee with bipartisan support, will change that.

I am pleased that the bill we are considering today also includes a modified version of my bill, the Ban Poisonous Additives—or BPA Act.

BPA is a ubiquitous chemical found in most food and beverage cans and many reusable plastic containers. It was also found in most baby bottles until recently, when major baby bottle manufacturers agreed to voluntarily stop using it because of concerns about its effects on health, which are many: BPA can be linked to increases in breast and prostate cancer risk, heart disease, liver abnormalities and diabetes; BPA can result in adverse impacts to reproductive health; BPA can be linked to increases in obesity, attention deficit and hyperactivity disorder, brain damage, altered immune function and other problems; BPA can be found at dramatically higher levels in infants than in the rest of the population, and is also found in placental tissue and umbilical cord blood; BPA has been found at higher levels in women with a history of repeated spontaneous miscarriages; and BPA has been shown to alter the effectiveness of chemotherapy in cancer patients.

The Food Safety Enhancement Act of 2009 calls on FDA to evaluate the approved uses of BPA in food and beverage containers and to tell the Committee on Energy and Commerce whether each use is safe by the end of this year. If FDA finds that BPA isn't safe, it is additionally directed to tell Congress how it plans to protect public health—which could include banning the chemical as well as efforts such as placing warning labels on products that contain it so that the most vulnerable populations will be better able to avoid it.

Not all industries are as receptive to addressing health concerns as the baby bottle manufacturers were. In fact, just recently, the food and packaging industry convened a meeting in Washington at which they devised an expensive public relations claim to combat their consumer confidence crisis. They even concluded that their “holy grail” spokesperson would be a pregnant woman who could publicly extol the virtues of BPA, and thought about how to create fears that its removal would lead to scarce or unsafe food products.

Although the baby bottle manufacturers' voluntary action and a variety of State laws banning its use are helpful, what we really need is federal leadership on this vital public health issue, and I am pleased that the FDA has commenced a scientific review of all the data. The language in this bill will ensure that the review occurs quickly and that appropriate steps will be taken to protect public health.

I thank my colleagues for working with me to craft this compromise provision, and I urge support for the underlying bill.

Mr. WAXMAN. Mr. Speaker, I submit the following exchange of letters:

HOUSE OF REPRESENTATIVES,
COMMITTEE ON WAYS AND MEANS,
Washington, DC, July 27, 2009.

Hon. HENRY A. WAXMAN,
Chairman, Committee on Energy and Commerce,
Rayburn House Office Building, Washington, DC.

DEAR MR. CHAIRMAN: The Committee on Ways and Means applauds your efforts to improve and ensure the security and safety of food offered for consumption and consumed in the United States and appreciates your willingness to work with us to satisfactorily resolve a number of trade-related issues falling within our jurisdiction. Such issues include the regulation of importers and brokers, Customs and Border Protection (CBP) implementation and enforcement of U.S. laws, and compliance with U.S. international trade obligations. In particular, we appreciate your efforts to address our concerns with respect to sections 204 and 205 of your bill, H.R. 2749, the Food Safety Enhancement Act of 2009, regarding the registration of importers and brokers, respectively.

In light of the agreed upon changes, the Committee will forgo action on this bill and will not oppose its consideration on the Suspension Calendar. These changes ensure that the application of the Food Safety Enhancement Act on the registration of importers is carried out in consultation with CBP, taking into consideration time needed for CBP and importers to make necessary adjustments to comply with the new requirements of the Act, and that the registration of customs brokers is consistent with and does not extend beyond current requirements set forth in current law, including granting new authority to any other agency to regulate customs brokers.

This is being done with the understanding that it does not in any way prejudice the Committee with respect to the appointment of conferees or the full exercise of its jurisdictional prerogatives on this bill or similar legislation in the future.

The Committee intends to look for opportunities to improve the safety of imported food and the safety of imported goods overall, in accordance with the existing statutory and regulatory scheme under CBP. We look forward to soliciting your suggestions for reform.

Sincerely,

CHARLES B. RANGEL,
Chairman.

HOUSE OF REPRESENTATIVES,
COMMITTEE ON ENERGY AND COMMERCE,
Washington, DC, July 29, 2009.

Hon. CHARLES B. RANGEL,
Chairman, Committee on Ways and Means,
Longworth House Office Building, Washington, DC.

DEAR MR. CHAIRMAN: Thank you for your letter regarding H.R. 2749, the “Food Safety Enhancement Act of 2009.” I appreciate your work and thoughtful input on this bill.

Your letter noted that certain provisions of the bill are within the jurisdiction of the Committee on Ways and Means. The Committee on Energy and Commerce recognizes the jurisdictional interest of the Committee on Ways and Means in this bill. We appreciate your agreement to forgo action on the bill, and I concur that this agreement does not in any way prejudice the Committee on Ways and Means with respect to its jurisdictional prerogatives on this bill or similar legislation in the future.

As the bill moves through the legislative process, we will continue to work with you to ensure that the concerns raised by the

Committee on Ways and Means have been addressed to your satisfaction. I will include our letters in the Congressional Record during consideration of the bill on the House floor.

Again, I appreciate your cooperation regarding this important legislation and I look forward to working with the Committee on Ways and Means as the bill moves through the legislative process.

Sincerely,

HENRY A. WAXMAN,
Chairman.

HOUSE OF REPRESENTATIVES,
COMMITTEE ON AGRICULTURE,
Washington, DC, July 28, 2009.

Hon. HENRY A. WAXMAN,
Chairman, Committee on Energy and Commerce,
Rayburn HOB, Washington, DC.

DEAR MR. CHAIRMAN: I am writing regarding H.R. 2749, the Food Safety Enhancement Act of 2009, which may be considered this week on the floor, and which contains provisions within the jurisdiction of the Committee on Agriculture.

I would note that our Committees have had a history of working cooperatively on matters that generally concern food safety. In order to permit floor consideration of this bill, the Committee will forgo action with the understanding that it does not prejudice the Committee with respect to the appointment of conferees or its jurisdictional prerogatives on this bill or similar legislation in the future.

I would appreciate your response to this letter, confirming this understanding with respect to H.R. 2749, and would ask that a copy of our exchange of letters on this matter be included in the Congressional Record during consideration on the House floor.

Sincerely,

COLLIN C. PETERSON,
Chairman.

HOUSE OF REPRESENTATIVES,
COMMITTEE ON ENERGY AND COMMERCE,
Washington, DC, July 29, 2009.

Hon. COLLIN C. PETERSON,
Chairman, Committee on Agriculture, Longworth HOB, Washington, DC.

DEAR MR. CHAIRMAN: Thank you for your letter of July 28, 2009, indicating your jurisdictional interest in H.R. 2749, the Food Safety Enhancement Act of 2009. I acknowledge that the bill contains provisions within the jurisdiction of the Committee on Agriculture, and appreciate your willingness to work with us to permit consideration of this bill, which will enhance food safety for all Americans. I understand that this action will in no way waive your Committee's jurisdiction in the subject matter of the legislation.

Furthermore, in the event that a conference with the Senate is requested on this matter, I would support naming Committee on Agriculture Members to the conference committee. A copy of our exchange of letters regarding this bill will be inserted into the Congressional Record during floor consideration.

Sincerely,

HENRY A. WAXMAN,
Chairman.

Mr. GENE GREEN of Texas. Mr. Speaker, I rise today in support of H.R. 2749, the Food Safety Enhancement Act.

Over the past year or so there have been several high profile food contamination incidents in the U.S. involving: spinach, cantaloupes, peanut butter, and tomatoes.

Congress has diligently investigated all of these incidents and found FDA simply does not have the resources, funding, manpower, or technology it needs to protect the American food supply and fulfill its mission.

This bill finally gives the FDA the authority to conduct mandatory recall. We should not to rely on the voluntary efforts of food manufacturers to ensure the safety of their product.

H.R. 2749 will also require the FDA to inspect high-risk facilities once every six months to a year. FDA now inspects food production facilities once a decade on average.

The one shortcoming of the bill is that funding is not dedicated to the creation of additional FDA labs, but it does allow for third party inspection by accredited labs.

The Port of Houston does not have an FDA lab and in fact there is no FDA lab in the entire state of Texas even though we share the longest border with Mexico.

Right now, the FDA is only able to inspect approximately 1 percent of imported food at the border. With its level of trade and southern border with Mexico, it is a glaring hole in the system that Texas does not have an FDA lab. In fact, there are over 300 ports of entry in the U.S. and only 13 ports actually have FDA labs.

It is my hope that we will be able to provide additional funds for the creation of these labs in the future.

H.R. 2749 provides some of those funds to get the FDA moving in the correct direction, and we will have to appropriate more, but I am happy the Food Safety Enhancement Act finally gives the FDA the authority and improved systems to protect our food supply.

I am pleased that after two years of hard work we will finally be moving a comprehensive food safety bill out of House.

I want to commend Chairman Emeritus DINGELL, Chairman WAXMAN, Chairman PALLONE, and Chairman STUPAK for their continued and dedicated work on this issue.

Mr. MATHESON. Mr. Speaker, I would like to thank Chairman WAXMAN and especially Chairman Emeritus DINGELL and his staffer, Virgil Miller, for their work to include an amendment I authored regarding lead in ceramic ware.

A couple years ago in Utah, a young mother used ceramic plates to heat her food in the microwave. Her infant became very sick. Doctors discovered that the baby was suffering from lead poisoning because lead had leached out of the ceramic plates she used. Most of us are unaware of this risk and most people don't know that lead can leach out of ceramic ware when the glaze is improperly fired or when the glaze has broken down over time. When lead is released into food and drink from ceramics, hazardous levels can contaminate food substances and expose children and adults to toxic levels.

FDA regulates the lead levels of ceramic ware and has set acceptable levels of lead-allowed ceramic ware used in food preparation and currently has a safety warning designating ceramic items not intended for food use. However, there is currently no label alerting consumers that the ceramic products they purchase for food use/preparation (i.e. plates, cups, etc.) contain any lead.

My language requires labels on plates and packaging for ceramic ware/cookware con-

taining lead for an intended functional purpose. It focuses on the glazing because all ceramic ware has trace amounts of lead in clay and those trace amounts do not contribute to lead poisoning. Problems arise when ceramicware contains lead-based glaze that is either fired incorrectly or contains high amounts of lead (above safe levels).

This language doesn't affect ornamental plates or decorative ceramics, which are already regulated by FDA and which are not considered safe for food use because of their lead levels.

Finally, my provision requires FDA to set up an educational program on its website to further educate consumers about these issues and about safe practices.

I am hopeful that these measures will enable us to better protect children and families from the potential problems caused by incorrectly fired ceramic ware and lead leaching from ceramics.

Ms. SCHAKOWSKY. Mr. Speaker, the use of massive amounts of human antibiotics for non-therapeutic purposes in industrial food animal production is seriously jeopardizing the health of Americans. This practice is contributing to the emergence and spread of antibiotic-resistant bacteria, often rendering ineffective human life-savings drugs.

I am submitting for the record a letter to the White House, signed by twenty reputable organizations such as the Infectious Diseases Society of America, American Medical Association, American Academy of Pediatrics, and Pew Charitable Trusts, which supports the Food and Drug Administration's early steps to phase out the use of antibiotics for growth promotion and feed efficiency in food animals, and calls on the Administration to go further.

JULY 24, 2009.

Ms. MELODY BARNES,

Assistant to the President for Domestic Policy, The White House, Washington, DC.

DEAR MS. BARNES: As organizations committed to protecting patients, public health, animal health, and food safety, the undersigned groups are writing to express our grave concern about the misuse of antibiotics in agriculture and our strong support for the Administration's new "public health approach to antimicrobial use in animals," which was articulated by the Food and Drug Administration (FDA) in its July 13th statement before the Rules Committee of the U.S. House of Representatives. The Obama Administration's leadership in providing a clear path forward on this highly politically charged issue is very much welcomed after decades of inertia.

Our combined memberships include the country's foremost scientific and medical experts and represent more than eleven million concerned Americans and health professionals. Our position is based on objective health interests and concerns that dangerous drug resistant infections are rapidly increasing in hospitals and community settings adding to the economic burden of the U.S. healthcare costs.

Specifically, we support the FDA's calls for phasing out the use of antimicrobial drugs for growth promotion and feed efficiency, and for requiring that all other uses of these drugs be carried out under the supervision of a veterinarian and within the boundaries of a valid veterinarian-client-patient relationship—which we expect will end over-the-counter sales of tons of antimicrobial drugs

annually. We also support the agency's expressed intent to clearly define the limited instances where antimicrobials may be used judiciously in food animals for purposes of disease prevention and control and are eager to work with FDA to ensure that the policy developed is the most protective of public health. We also urge the agency to make the new antimicrobial policy mandatory, retroactive to already-approved drugs, and enforceable, in order to best guarantee a significant reduction in antimicrobial use. The Administration's statement clearly demonstrates a commitment to sound and science-based policies that are backed up by scores of scientific and medical publications and will protect the health of every American.

The development of antimicrobial agents to treat life-threatening infections has been one of the most notable medical achievements of the past century. Physicians, healthcare professionals, and public health and food safety advocates are greatly concerned about the growing body of scientific evidence demonstrating that antimicrobial drug use in livestock and poultry contributes to the spread of drug-resistant bacteria to people. Drug-resistant organisms are plaguing Americans, including otherwise healthy individuals, in healthcare settings and communities across the country. We are pleased that these concerns finally are being recognized and addressed by the federal government to forestall epidemics of untreatable infections.

Fundamental to FDA's new approach—and our support for it—are the principles that: "protecting public health requires the judicious use in animal agriculture of those antimicrobials of importance in human medicine" and that "purposes other than for the advancement of animal and human health should not be considered judicious use."—Dr. Joshua Sharfstein, FDA's Principal Deputy Commissioner, July 13, 2009.

The Administration's vision to eliminate non-judicious uses of antimicrobial drugs, including for purposes of growth promotion and feed efficiency and non-judicious disease prevention which have been practiced in animal agriculture for several decades, demonstrates a critical public policy shift that will better protect the public against resistant infections and preserve the power of existing antibiotics. In addition, we urge FDA to formalize its position on veterinary supervision of all antimicrobial uses and ending the over-the-counter sale of antibiotics for animal agricultural uses, which are long-overdue. The sale of antimicrobials for use in human medicine requires a prescription; there is no reason to permit a lower standard for agricultural purposes where considerably more antimicrobial drugs are used annually.

The Administration's new policy direction appears intended to reflect the concerns of a broad consensus of the scientific, medical, public health and international health communities. Such consensus is buttressed by the actions of expert bodies and governments. For example:

Since 2002, the World Health Organization (WHO) has called upon all nations to shift from use of antimicrobials in non-human medicine.

In 2003, the Institute of Medicine (IOM) of the National Academies of Science called on the FDA to ban the use of antimicrobials for growth promotion in animals, if those drugs were also used in human medicine.

In 2006, the European Union banned non-therapeutic use of antimicrobials, because such use was found to raise food safety concerns, and the ban was instituted to protect

against further development of antimicrobial resistance.

We recognize that phasing out of antimicrobials for non-judicious uses in animals will require changes in the agricultural industry. But protection of the public's health must come first, and the phase out can be conducted in a way that that minimizes costs to the agriculture industry. Farmers in Europe have adapted to such a policy without undue disruption of production or increased consumer costs; the United States can learn from that experience while also protecting American lives. In addition, the U.S. Department of Agriculture has recognized that various production methods used in the United States today are viable alternatives to non judicious antimicrobial uses and such alternatives are employed with little negative—or even with somewhat positive—economic impact to producers.

We urge you to maintain the scientifically sound positions the Administration already has taken in support of phasing out growth promotion and feed efficiency uses, and to finalize a policy that will strictly manage a narrow set of prophylactic uses while mandating veterinary-patient relationships and eliminating the over-the-counter sale of antibiotics for use in animals.

We remain committed to working with the Administration to implement these new approaches in ways that will best protect the lives and health of both humans and animals.

Sincerely,

Alliance for the Prudent Use of Antibiotics.

Union of Concerned Scientists.

Mrs. BACHMANN. Mr. Speaker, I rise today in reluctant support of H.R. 2749, the Food Safety Enhancement Act of 2009. While I support the legislation, it is by no means perfect and it is my sincere hope that the concerns I share with my colleagues in the House will be addressed as the bill moves through the legislative process.

Ensuring the safety of America's food supply is a critical issue, which warrants our utmost attention. In light of recent outbreaks of food-borne illnesses that have caused sickness and death in our country, I believe it is imperative the action be taken to restore confidence to the American people in the food they eat. This task requires careful analysis of

our current food supply dynamic, as well as thoughtful consideration of implications of any potential solutions. Our constituents deserve no less.

Indeed, every link in the food supply chain from the farm to the shelf plays a valuable role in delivering a safe product to consumers, and I believe each link requires flexibility in order to continue to provide high-quality, competitively priced goods to American consumers. A dutiful producer should expect unwarranted government intrusion no more than a consumer should expect their next meal will make them sick.

The detrimental consequences of an overly onerous federal government and bureaucratic red-tape must be carefully weighed against the need for regulation to ensure safe foods. That being said, H.R. 2749 does attempt to find a balance. As a result, the bill has earned the support of a wide range of stakeholders from farm groups to distributors.

Mr. Speaker, while I stress the importance of continued work to improve the bill, I support its passage and urge my colleagues to do the same.

Mr. DINGELL. Mr. Speaker, I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Michigan (Mr. DINGELL) that the House suspend the rules and pass the bill, H.R. 2749, as amended.

The question was taken.

The SPEAKER pro tempore. In the opinion of the Chair, two-thirds being in the affirmative, the ayes have it.

Mr. BARTON of Texas. Mr. Speaker, I object to the vote on the ground that a quorum is not present and make the point of order that a quorum is not present.

The SPEAKER pro tempore. Evidently a quorum is not present.

The Sergeant at Arms will notify absent Members.

Pursuant to clause 8 of rule XX, this 15-minute vote will be followed by 5-minute votes on suspending the rules and passing:

H.R. 1665, if ordered; and

House Resolution 373, if ordered.

The vote was taken by electronic device, and there were—yeas 280, nays 150, not voting 3, as follows:

------------	---------------	--------

□ 1529

Messrs. WAMP, DAVIS of Kentucky, BROWN of South Carolina, WELCH, Ms. BEAN and Ms. WOOLSEY changed their vote from “yea” to “nay.”

Messrs. MARCHANT, TERRY, ROGERS of Kentucky, ROSKAM, BUYER, CAO, FRELINGHUYSEN, GINGREY of Georgia and Mrs. BACHMANN changed their vote from “nay” to “yea.”

So (two-thirds not being in the affirmative) the motion was rejected.

The result of the vote was announced as above recorded.

COAST GUARD ACQUISITION REFORM ACT OF 2009

The SPEAKER pro tempore. The unfinished business is the question on suspending the rules and passing the bill, H.R. 1665, as amended.

The Clerk read the title of the bill.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Maryland (Mr. CUMMINGS) that the House suspend the rules and pass the bill, H.R. 1665, as amended.

The question was taken.

The SPEAKER pro tempore. In the opinion of the Chair, two-thirds being in the affirmative, the ayes have it.

RECORDED VOTE

Mr. HASTINGS of Florida. Mr. Speaker, I demand a recorded vote.

A recorded vote was ordered.

The SPEAKER pro tempore. This will be a 5-minute vote.

The vote was taken by electronic device, and there were—ayes 426, noes 0, not voting 7, as follows:

[Roll No. 658]

NOT VOTING—7

Abercrombie	Davis (TN)	Schrader
Bonner	McCarthy (NY)	
Cooper	McHugh	

□ 1537

So (two-thirds being in the affirmative) the rules were suspended and the bill, as amended, was passed.

The result of the vote was announced as above recorded.

A motion to reconsider was laid on the table.

SUPPORTING NATIONAL HYDRO- CEPHALUS AWARENESS MONTH

The SPEAKER pro tempore. The unfinished business is the question on suspending the rules and agreeing to the resolution, H. Res. 373.

The Clerk read the title of the resolution.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Missouri (Mr. CLAY) that the House suspend the rules and agree to the resolution, H. Res. 373.

The question was taken; and (two-thirds being in the affirmative) the rules were suspended and the resolution was agreed to.

A motion to reconsider was laid on the table.

FISCAL SOLVENCY OF CERTAIN TRUST FUNDS

Mr. LEWIS of Georgia. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 3357) to restore sums to the Highway Trust Fund and for other purposes, as amended.

The Clerk read the title of the bill.

The text of the bill is as follows:

H.R. 3357

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. FUNDING OF THE HIGHWAY TRUST FUND.

Subsection (f) of section 9503 of the Internal Revenue Code of 1986 (relating to determination of trust fund balances after September 30, 1998) is amended—

(1) by striking paragraph (2), and

(2) by adding at the end the following new paragraph:

“(2) INCREASE IN FUND BALANCE.—Out of money in the Treasury not otherwise appropriated, there is hereby appropriated (without fiscal year limitation) to the Highway Trust Fund \$7,000,000,000.”.

SEC. 2. ADVANCES TO THE UNEMPLOYMENT TRUST FUND AND OTHER FUNDS.

The item relating to “Department of Labor—Employment and Training Administration—Advances to the Unemployment Trust Fund and Other Funds” in title I of division F of the Omnibus Appropriations Act, 2009 (Public Law 111-8; 123 Stat. 754) is amended by striking “to remain available through September 30, 2010” and all that follows (before the heading for the following item) and inserting “such sums as may be necessary”.

SEC. 3. FHA MORTGAGE INSURANCE COMMITMENT AUTHORITY.

The item relating to “Federal Housing Administration—Mutual Mortgage Insurance Program Account” in title II of division I of the Omnibus Appropriations Act, 2009 (Public Law 111-8; 123 Stat. 966) is amended by striking “\$315,000,000,000” and inserting “\$400,000,000,000”.

SEC. 4. GNMA MORTGAGE-BACKED SECURITIES GUARANTEE COMMITMENT AUTHORITY.

The item relating to “Government National Mortgage Association—Guarantees of Mortgage-Backed Securities Loan Guarantee Program Account” in title II of division I of the Omnibus Appropriations Act, 2009 (Public Law 111-8; 123 Stat. 967) is amended by striking “\$300,000,000,000” and inserting “\$400,000,000,000”.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from Georgia (Mr. LEWIS) and the gentleman from Michigan (Mr. CAMP) each will control 20 minutes.

The Chair now recognizes the gentleman from Georgia.

GENERAL LEAVE

Mr. LEWIS of Georgia. Mr. Speaker, I ask unanimous consent that Members have 5 legislative days to revise and extend their remarks on the bill H.R. 3357, as amended.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Georgia?

There was no objection.

Mr. LEWIS of Georgia. I yield myself such time as I may consume.

Mr. Speaker, transportation is one of the most important issues in our country, so I am proud to have served on both the Ways and Means Committee and on what was then the Public Works and Transportation Committee.

I would like to thank Chairman RANGEL and Chairman OBERSTAR for their leadership on this important issue.

The bipartisan bill before the House today will provide the necessary funds to keep important transportation projects operating in States around the country. As we all know, the Highway Trust Fund will run out of funding by September. We must act, and we must act now.

In 1998, Congress passed a highway bill that took more than \$8 billion out of the trust fund and put it in the Treasury. In addition, Congress stopped the Highway Trust Fund from earning interest on its investment. If these steps had not been taken, the balance in the Highway Trust Fund would be nearly \$20 billion more than it is now.

□ 1545

Last year we transferred \$8 billion back, and the legislation we are considering today would transfer \$7 billion more.

I want to be clear, Mr. Speaker. No new money is spent under this bill. This bill should keep the Highway Trust Fund fully funded until 2009. If we fail to act today, our people, our States, and our economy will be harmed. In Georgia, where unemployment is already above 10 percent, we cannot afford to lose another 8,500 jobs because of failure to act.

Last year, all sides understood how critical highway funding is to our economy. I hope the legislation we are considering today will enjoy similar bipartisan support. I urge all of my colleagues on both sides of the aisle to support this important legislation.

I reserve the balance of my time.

Mr. CAMP. I yield myself such time as I may consume.

Last week, we appropriated an unlimited amount of general funds to the unemployment trust funds throughout fiscal year 2010, which starts in October, and today we're doing the same thing for the last 2 months of this year, ensuring these funds don't run out while Congress is on district work period. Both actions are needed because the Democrats' economic policy has resulted in record job loss, record deficits, and none of the job creation they promised.

Democrats predicted unemployment would top out at 8 percent if the stimulus passed; instead, it's 9.5 percent and rising. In Michigan, it's above 15 percent. There are now a record 9.2 million collecting unemployment checks instead of paychecks. That's 1.1 million more than when the stimulus was passed. So if the stimulus is stimu-

lating anything, it's record unemployment, not jobs.

Where are the jobs? Americans can surely see the record unemployment, but they cannot see where the jobs are. That's because millions of jobs are disappearing, not being created. What's more, since President Obama was sworn in, the Nation's public debt and unemployment, combined, has risen by a shocking 40 percent. And that's before literally trillions of dollars in additional spending under the Democrats' stimulus, energy, and health plans, and whatever higher unemployment lies ahead.

This bill reflects the continued failure of Democratic economic policy to save or create millions of jobs they promised that would flow quickly from their stimulus bill. More unemployment benefits instead of paychecks have led directly to more State insolvency and more Federal loans to those insolvent States. And that has drained the Federal bailout funds so much, it now needs its own bailout. That's what this bill does.

We had a choice when it came to the stimulus last February. We could have chosen a better policy of stimulating private-sector growth creating twice the jobs at half the price. That was the Republican plan. Instead, Democrats insisted on their government focus plan, which has produced no jobs and a mountain of debt. Today, in my view, we don't really have a choice but to support this bill; otherwise, in the next 2 months, laid-off workers will not get the unemployment benefits they were promised. American workers should not be forced to pay for the mistakes and failures of the Democrats' so-called stimulus bill. So this bill is necessary.

But in the longer run, we need to work together to create jobs so Americans can receive more paychecks, not more unemployment checks.

I would also note, Mr. Speaker, that this bill provides an emergency transfer of \$7 billion in the general fund revenue to prop up the Highway Trust Fund for the remainder of this fiscal year. This is not the first time Congress has had to fill a year-end shortfall in the trust fund to ensure that State highway projects can go forward. And unless we get serious about enacting long-term structural reforms as we move ahead with the next reauthorization bill, it surely won't be the last bill, either.

I don't think anyone in this Chamber thinks that yet another short-term general fund transfer is the ideal solution to these chronic shortfalls, and I certainly hope that going forward, the majority focuses its attention on long-term structural reforms and not just on higher and higher spending levels.

With that, I reserve the balance of my time.

Mr. LEWIS of Georgia. Mr. Speaker, I'm pleased to yield 2 minutes to the

gentleman from Minnesota, the Chair of the Transportation Committee, Mr. OBERSTAR.

Mr. OBERSTAR. I thank the gentleman for the time and his leadership on this issue and Mr. NEAL, the Chair of the subcommittee, who spent a great amount of time in hearings last month and this month on the current status and future of the Highway Trust Fund.

I would just like to underscore, in response to the gentleman from Michigan, we share the pain of the drop in VMT on the miles traveled throughout the Nation and the consequent loss of revenue in the Highway Trust Fund. It started in 2007, and by 2008 we had registered, for the first time in the history of the Highway Trust Fund and the interstate highway program, a drop of 60 billion vehicle miles traveled. That had never happened before in the history of the Highway Trust Fund because of the condition of the national economy.

We are beginning to recover. We're beginning to see the statistics going in the right direction. VMT, reported by the Department of Transportation on a monthly basis, shows increases in January, February, March, April, and May. And all of the indicators, the rural interstate, the rural arterial, rural NHS, National Highway System rose, the urban interstate. All are a percentage, a small percentage, but percentage increases over the months a year ago.

There are two indicators that are down. Urban arterial and various urban roads are down about a half percent and 1.3 percent, respectively. The trend is in the right direction. I regret, too, that we have to take this step. We should have spent this week passing the committee's bill for the future of surface transportation. We do have a bipartisan product.

The SPEAKER pro tempore. The time of the gentleman has expired.

Mr. LEWIS of Georgia. I yield the gentleman another 1 minute.

Mr. OBERSTAR. And I welcome the support of the gentleman from Michigan for that initiative. It will address the long-term future, the 6-year future of transportation. It will totally transform the Department of Transportation, Federal Highway Administration, Federal Transit Administration, make it easier to move projects into operation, and much more that is in our 775-page bill. We will do that in September.

This is an infusion, not an extension. We are not standing for the wish of the other body or of the administration for an extension of time. We're not going to let that happen. This committee has done and will continue to do its work in a partnership within our committee. And I hope the bill comes to the floor within the entire body.

Meanwhile, this \$7 billion infusion will carry the trust fund through the end of the fiscal year and into October

against any unforeseen drop in VMT or loss in revenue into the trust fund. I think the trends are all in the right direction and that we are not going to be losing revenue.

Mr. Speaker, I rise today in strong support of H.R. 3357, to restore sums to the Highway Trust Fund.

This legislation, introduced by Chairman RANGEL, Chairman OBEY, and me, includes a provision restoring \$7 billion to the Highway Account of the Highway Trust Fund to ensure that the U.S. Department of Transportation (DOT) can meet its existing commitments under the Federal-aid Highway program.

According to DOT, the Highway Account of the Trust Fund may run out of cash as early as the beginning of September and may not have enough funding to fully reimburse States for their Federal highway investments.

This situation makes clear that we have reached the logical conclusion of the course set by the Safe, Accountable, Flexible, Efficient Transportation Equity Act: A Legacy for Users (SAFETEA-LU). Unfortunately, the legacy that has been left for users is an over-extended Trust Fund, uncertainty, and potential funding cuts.

SAFETEA-LU intentionally put the Highway Trust Fund on the path to a zero cash balance. Recent declines in vehicle miles traveled due to high fuel prices and the weak economy have merely exacerbated a pre-existing imbalance between Trust Fund revenues and expenditures that was created by SAFETEA-LU.

The previous administration's unwillingness to make hard choices has left the 111th Congress, and particularly the Committee on Ways and Means and the Committee on Transportation and Infrastructure, with the unenviable task of finding a way to finance the existing program level, in addition to much-needed increases in investment.

Since taking office, the Obama administration has implemented a system to closely track actual Trust Fund revenues, outlays, and balances, and has been communicating with Congress the need to take steps to address this situation before we reach the crisis point.

According to DOT, by September 4, the Highway Account will not have sufficient funds to fully reimburse States for highway projects (–\$285 million), and DOT will immediately begin rationing reimbursements to States, creating cash flow problems for States and significant uncertainty for the future of the program.

By October 1, DOT estimates that, without action by Congress, the Highway Account balance will be –\$1.9 billion.

However, this shortfall amount is only an estimate and the estimate is subject to a series of revenue and outlay adjustments that occur in August and September that could cause negative adjustments to the Trust Fund balance, including: the "true-up" of the account in which the Trust Fund will have to reimburse the General Fund if previous payments of estimated fuel taxes into the Trust Fund are greater than the taxes actually owed; the annual mid-session review of the President's Budget which updates economic assumptions and can affect vehicle miles travelled estimates; the receipt of actual revenues and out-

lays that differ from DOT's current estimates; and the need to maintain a minimum balance in the Trust Fund to continue daily reimbursements for the States.

In fact, last August, reconciling Trust Fund revenue receipts with prior revenue projections caused a downward adjustment in the Trust Fund balance of –\$3.2 billion.

While such a dramatic swing in Trust Fund revenues is unlikely under the procedures adopted by the current administration, restoring \$7 billion to the Highway Account of the Trust Fund will cover the projected shortfall and provide a cash balance to offset any additional shortfall if the DOT estimates are in error.

Failure to act will mean that the Federal Government will be unable to pay all of the bills submitted by the States for reimbursement under the Federal-aid highway program. If that were to occur, under current law, the Federal Government will be required to pay interest on unpaid bills.

In addition, many states would begin to experience immediate cash flow problems if they are not fully reimbursed for Federal-aid highway projects.

We must enact this critical legislation this week to avoid slowdowns or reductions in infrastructure investment, and the loss of any more American construction jobs.

Both the Congressional Budget Office and the Joint Committee on Taxation have determined that this proposal does not constitute a spending outlay, would not violate pay-go, and will have no revenue effect.

Enactment of this legislation will ensure full funding of the highway investment levels authorized by current law, and prevent devastating slowdowns or cuts in each state's Federal highway funds.

While H.R. 3357 is a short-term solution, it is essential that we resolve this immediate crisis. As we proceed with consideration of the "Surface Transportation Authorization Act of 2009", we will continue to work with the Committee on Ways and Means to develop a sustainable financing proposal to address the future of surface transportation.

I thank the gentleman from New York (Mr. RANGEL), the distinguished Chairman of the Committee on Ways and Means, for his leadership in ensuring that these funds are provided to sustain the Highway Trust Fund.

I strongly urge my colleagues to join me in supporting H.R. 3357.

Mr. CAMP. I yield 3 minutes to the distinguished gentleman from Florida (Mr. MICA).

Mr. MICA. I thank the gentleman for yielding.

I want to join my Democrat counterpart who leads the Transportation and Infrastructure Committee, Mr. OBERSTAR, in requesting the \$7 billion transfer. If we do not transfer these funds to keep the Highway Trust Fund secure through September 30, the consequences for the Nation at this time of economic difficulty would be an absolute disaster. In fact, we would close down probably every major highway transportation project in the Nation. That's how serious this is.

Unfortunately, as the Republican leader of the Ways and Means Committee, Mr. CAMP, said, we've been here

and, unfortunately, had to do this before. This is the second bailout of the fund.

Mr. OBERSTAR has been working non-stop for months even before this session of Congress to bring forth a responsible bill. We've tried to act in a bipartisan administration. The day that we were about to announce our policy and plans for reauthorization, the administration came in and undermined the whole effort with an 18-month extension.

We need the transportation bill now. Unfortunately, we need this gap of money through September 30 or we will really see economic difficulty across this land. So this is a Band-Aid approach. I'm sorry that we have to do it. I know there are some Members that are concerned about this. We do need a long-term solution. We will work together to get that done. The minute this passes, we'll continue our efforts.

But if we do not act, it will have devastating consequences in every one of the States across this Nation as far as closing down transportation projects and closing down jobs at the most difficult time in the country's recent economic history.

So I want a long-term solution. I join Mr. OBERSTAR in requesting that we pass this measure. And unfortunately, we are put in this position of being between a rock and a hard place.

I would be glad to yield to the chairman.

Mr. OBERSTAR. Thank you for yielding.

Mr. Speaker, I want to compliment my colleague on the committee, Mr. MICA, for the splendid partnership we have had personally and staff-to-staff in crafting this bill, and the gentleman has stated the case right on. And were it not for the intrusion of the administration, we would be on the floor this week with that 6-year authorization. And I thank the gentleman for that splendid partnership that we have had.

Mr. LEWIS of Georgia. Mr. Speaker, I am pleased to yield 2 minutes to the gentleman from Washington, the Chair of the Income Security Subcommittee of the Ways and Means Committee, Congressman McDERMOTT.

Mr. McDERMOTT. Mr. Speaker, this legislation will allow the Federal unemployment trust funds to receive interest-bearing loans from the general Treasury. These loans will be repaid when the unemployment trust funds once again have adequate reserves.

Currently, the single biggest draw on Federal trust funds are loans to States' unemployment programs. Eighteen States already have loan balances exceeding \$12 billion, and more are expected to request assistance in the coming weeks and months. This recession, which started in December of 2007, has placed enormous strains on State unemployment programs. But truth be told, too many State pro-

grams had inadequate reserves to provide benefits even in a mild downturn. In the future, more should be done to promote long-term solvency for the unemployment system; however, right now, our mandate is to ensure that the States can continue to pay their unemployment benefits to those entitled to them.

When economists and historians look back at this moment in history, I believe one of the things they will agree, what we did right was to reach out and help those Americans who lost their jobs through no fault of their own.

Last June, we enacted the quickest ever extension of unemployment benefits relative to the start of the recession. In November, we further extended benefits to dislocated workers. And earlier this year, we enacted a historic package of unemployment insurance reforms as part of the Recovery Act, including maintaining the availability of extended benefits, increasing the weekly UI benefit amount, and providing grants to States that modernize their unemployment programs.

Under these reforms, over half the States have enacted improvements to their unemployment programs such as improving coverage for low-wage and part-time workers. In addition, over 9 million UI recipients are receiving \$100 more a month as we speak in order to help buy groceries and other necessities, and 3 billion unemployed workers are now receiving extended benefits.

The SPEAKER pro tempore (Mr. CAPUANO). The time of the gentleman has expired.

Mr. LEWIS of Georgia. I yield an additional 1 minute.

Mr. McDERMOTT. Many of our economists, as well as the stock market, believe our economy is now turning the corner to more prosperous days. Helping the unemployed has been a crucial part of the path to that recovery. But millions of jobs will not be restored overnight. We will continue to ensure a real safety net for the jobless Americans, and I expect Congress will continue this work in the fall.

□ 1600

Mr. CAMP. Mr. Speaker, I yield 2 minutes to the gentleman from Florida (Mr. MARIO DIAZ-BALART).

Mr. MARIO DIAZ-BALART of Florida. Mr. Speaker, I want to thank the ranking member.

Look, it is too bad that we have to be here now. This is another Band-Aid. It is a necessary Band-Aid, unfortunately, to fix the Transportation trust fund. But it is imperative that we fix this trust fund once and for all.

Now, let me tell you, Chairman OBERSTAR has been working on a bill, a bipartisan bill. He has been working on it for a long, long time; and because of his leadership, his committee, along with Ranking Member MICA, are ready

to go. They are ready to go. We are ready to go. I am privileged to be on that committee. They are ready to go right now.

Again, it is unfortunate that we are not doing that, because we also can't afford to lose any more jobs. And there is one thing we all agree on, that one way to create jobs is through transportation infrastructure. Unfortunately, we are not doing that.

It is pretty evident that the so-called stimulus bill has proven to be a dismal failure. That is why I introduced legislation to rescind the unspent stimulus money, so-called stimulus money, the nontransportation, unspent stimulus money, and put it into the DOT trust fund; to not continue to borrow more money and put more borrowing on our kids' and grandchildren's credit cards.

But, unfortunately, we are not discussing that either here today. Instead, we continue to waste billions of dollars and more, frankly, on the so-called stimulus, which is nothing more than a sham. We need to invest it in real job creation, focus on real job creation; and among the things that create jobs is transportation and infrastructure.

So, again, I hope that we finally get down to business. This is a Band-Aid. But we are ready to continue to work to fix this, to really fix it. One way to do it, while not indebting this country further, is to use those unspent stimulus moneys, to take away that sham and put it in transportation funding that will create jobs and help the country.

Mr. LEWIS of Georgia. Mr. Speaker, I am pleased to yield 3 minutes to the gentleman from Massachusetts (Mr. NEAL), the Chair of the Select Revenue Measures Subcommittee of the Ways and Means Committee.

Mr. NEAL of Massachusetts. Mr. Speaker, I want to thank Mr. LEWIS for bringing this legislation to the floor. I am in full support of this proposal, and I want to speak additionally in support of the transfer of the Highway Trust Fund as it appears before us.

None of us would like to see pink slips issued around the country at vital road and bridge building projects, including about 4,000 jobs in Massachusetts. We are doing our best to create more of these jobs, not to end the current ones.

Last week, my subcommittee, the Select Revenue Measures Subcommittee, held a 4-hour, four-panel hearing on long-term financing options for the Highway Trust Fund. The consistent statement we heard was that States are desperate for funding.

We heard that roads and bridges are deteriorating at such a pace that current funding will not cover the maintenance, let alone the improvements that are needed. That is why our colleague, Mr. OBERSTAR, has pushed for a short-term patch while we continue to sort out the longer-term solutions for our

transportation infrastructure. I am in support of the Oberstar position.

I understand the hesitance of some of our colleagues to talk about increasing fund revenues in this economy. I want to assure you, they will be at every groundbreaking and they will be at every ribbon cutting, even though they question the financing we propose down the road.

But the reality of this situation is simple: we need to pay for these repairs. There were a variety of proposals discussed at our hearing, last week, good ones, by Republicans and Democrats. Good options were offered: tolls, vehicle miles traveled, excise taxes, the gas and diesel tax, among other ideas.

I want to say of interest, the United States Chamber of Commerce last week proposed a 10 cent increase in the gasoline tax for many of these long-term needs. I think that in and of itself speaks to the bipartisan nature of what we are trying to do now, and I hope in about another month a long-term proposal as well.

Now, whether these proposals are through triggers, indexing or commissions, we need to start working on the long-term plan in whatever politically feasible way we can find a way forward. Kicking the can down the road on infrastructure needs will not work. Our highways, our roadways, our airports, our bridges and our railroads are all in need of an infusion of public support. We all ought to be able to agree on that basic responsibility as Members of this House.

As one witness told us last week, the costs of delaying the longer-term bill are higher than the costs to pass it. A reminder as well, there is an opportunity in this atmosphere with the downturn to get some great pricing, and we should take advantage of that as well.

So I want to urge support of this proposal today, and I hope it takes us on to a longer-term solution.

Mr. CAMP. Mr. Speaker, I yield 2 minutes to the gentleman from Arizona (Mr. FLAKE).

Mr. FLAKE. I thank the gentleman for yielding.

Here we are again: the second bout of highway robbery, taking money back into the trust fund from the general Treasury. We are told, well, sometime back in 1998, some money was taken from the trust fund into the general fund, so this is just payback.

How many times can we keep saying that? It may have made some sense the first time. It doesn't the second time. It won't the third or fourth time we do this. Yet we are told we are bemoaning the fact we don't have the reauthorization on the floor this week.

Thank goodness we don't. If you think we overspent what we had in the trust fund before, we are really going to do it the next time. A bill has been

proposed that has twice the spending we currently have in the Highway Trust Fund, without revenue to pay for it. We don't have the revenue to pay for the one we have got. How can we double it with no revenue source?

Let's get serious about things here. If we really need a place for the money to come from, I would suggest, as the gentleman did before, take it from the stimulus. But part of the problem is that we are spending for things in this bill, or in the highway program, that are probably worth spending some of the things we have seen in the stimulus.

In the current highway program that we are taking money from the general fund to now fund, there is \$3 million for a parking garage in suburban Chicago; \$1.6 million for a bike path in Wisconsin; \$1.2 million for improvements in the Blue Ridge Music Center in Virginia; \$1 million for improvements to the Police Touch Museum in Pennsylvania. Why don't we rescind some of these programs in the highway bill, and we won't have to take so much money from the general fund?

We can't continue to do this, Mr. Speaker. We are spending money on a suspension bill. We are suspending the rules and passing a bill that is going to cost us \$7 billion. I think the limit on suspension bills used to be something like \$50 million. If it does more than that, you come under a general rule; \$7 billion we are spending here, and it will go almost without dissent.

And that is a shame, Mr. Speaker.

Mr. LEWIS of Georgia. Mr. Speaker, I am pleased to yield 1 minute to the gentleman from Massachusetts (Mr. NEAL).

Mr. NEAL of Massachusetts. I thank the gentleman.

Mr. Speaker, I understand the desire of an individual or individuals to be professional scolds on any and every issue that comes to this floor. But the obligation that we have today is far greater than the examples that he cited.

To argue that we ought to hold up a Federal highway bill that benefits this entire Nation because of a handful of initiatives he doesn't like, the truth is he won't vote for the final bill anyway, and time and again we have rejected the proposals that he has come forward with, largely because there was a process and procedure for vetting these differences. And when we buy into the end-game solution, that is part of our responsibility as Members of Congress.

Let me close quickly on this note. One of the reasons that our highway system is the envy of the world is because we have not given in to the temptation to fall easy prey to demagoguery that surrounds some of these proposals. Scolding is one thing. Offering positive suggestions is quite another.

Mr. CAMP. Mr. Speaker, I yield 1 minute to the gentleman from Arizona (Mr. FLAKE).

Mr. FLAKE. I thank the gentleman for yielding.

You know, some of us did stand up and vote against the initial authorization back in 2005, I believe it was, because we were told by our Appropriations Committee chairman, we don't have the money to pay for this. We knew it. Everybody knew it. But the reason that passed, we all know, is because there were 6,300 earmarks in it. You spread enough of that around and people are going to vote for it. There were only eight votes against it here in the House, three in the Senate. And we will likely do the same again.

At some point we have got to say, let's pay for it. And for a State like Arizona, let me tell you, where we give a dollar to Washington for this highway bill and only get about 92 cents back, it is not a very good deal. We would rather keep the tax money and spend it on our own. We could get a lot more infrastructure for that, and that is our complaint, more than anything.

Money is sent here, then it comes back 92 cents on the dollar, and that that does come back is restricted in ways that diminish the value of the dollar, and then it is earmarked completely. It is simply not a good deal for people around the country. So we need a new model.

Mr. LEWIS of Georgia. Mr. Speaker, I am now pleased to yield 2 minutes to the gentleman from Oregon (Mr. BLUMENAUER), a member of the Ways and Means Committee, who long has been active in highways, waterways and many environmental efforts.

Mr. BLUMENAUER. I appreciate the courtesy of my good friend permitting me to speak on behalf of this.

I listened to my friend from Arizona. The fact is the last bill was paid for, but because of the Republican refusal to right-size the trust fund, it was scaled down. But it was paid for. It wasn't right-sized for America. Mr. OBERSTAR and the committee are working to try to do this.

I hope this is the last time we come to the floor to deal with the short-term deficit in the Highway Trust Fund; but, unfortunately, we are going to come back again. Mr. OBERSTAR and his Chair, my good friend Mr. DEFAZIO, have been working for months on a new vision for transportation; and I hope we have that on the floor sooner rather than later.

Along with this is the notion of how we squeeze more value out of each Federal dollar invested. That is part of the work of the new Department of Transportation. It is part of what the committee is working on, and we as Congress need to be involved with that.

New vision, more value, but, frankly, we are going to need more money. We haven't raised the gas tax since 1993. There aren't the resources available to meet what we are seeing in every community across the country. That is

why there is a consensus that is building, as Mr. NEAL said, from the chamber of commerce, to the garden club, to the Sierra Club, unions, environmentalists, local government officials, Republican and Democrat alike, who say come forward with a long-term funding proposal.

What we are going to have to do sometime this decade is increase the gas tax for inflation. What we are going to have to do sometime this decade is have a new mechanism in place that is a true user fee that will enable us to match the people who use the roads or the people who benefit with the financing.

This is within our capacity. And this is one area where I hope that we can get past some of the partisan bickering.

The SPEAKER pro tempore. The time of the gentleman from Oregon has expired.

Mr. LEWIS of Georgia. I am pleased to yield to the gentleman an additional 1 minute.

Mr. BLUMENAUER. Thank you, sir.

I hope that every Member will take the time to go back to their districts this next month and talk to the local chamber of commerce, talk to local government, talk to local business people that are attempting to solve these problems, and find out the support there is for Congress to be able to move forward with a broader vision for finance. It is there, if we will do it. And if we do, it is going to have more long-term impact on the financial health of this country than anything else that we will do.

I urge people to do their homework at home so they can come back and support the financing that is necessary for the long-term vision that Mr. OBERSTAR and Mr. DEFAZIO will give us in the months ahead.

□ 1615

Mr. CAMP. I yield 3 minutes to the gentleman from Iowa (Mr. LATHAM).

Mr. LATHAM. I thank the gentleman from Michigan for the time.

Mr. Speaker, I rise in reluctant support of this bill. I also rise to point out that what we're doing today, in considering the increase for the Highway Trust Fund, is exactly what I sought to do last week through an amendment presented to the Rules Committee. My amendment was aimed at employing a little common sense and transferring excessive resources in the rapid rail appropriations to the much-needed resource category in the Highway Trust Fund. I was seeking to transfer to the trust fund \$3 billion of the \$4 billion that is currently in the rapid rail appropriations in the House version of the FY 2010 transportation appropriations bill. That amendment would have left the \$1 billion for rail that the President had requested. As things now stand, the \$4 billion on top of the \$8 bil-

lion in the stimulus package remains in the rail account, and at least \$2 billion of that is parked for a future infrastructure bank, which is only just an idea, no authorization, nothing. It may be at least a year, and probably much longer, before any of these funds can be spent; and the Highway Trust Fund needs money now, which is what I said last week.

Had my amendment been made in order, it would have passed and been offset. Had it passed, we would be dealing with a much smaller amount today. Unfortunately, the Rules Committee didn't see fit to make the amendment in order and, in the process, make use of funding authority that will not be needed for some time. So once again, politics governed the process. It's very unfortunate. I think it is worth pointing out today to all the Members here that in a June 4 hearing this year, Secretary LaHood, in response to my question regarding offsets for the Highway Trust Fund bailout said, "We have to pay for this. I mean, the administration is committed to paying for the \$5 billion to \$7 billion that is needed to plus up the trust fund in 2009, and it is about \$8 billion or \$10 billion for 2010. We are committed to paying for it; and I hope sooner rather than later, we will be coming back to all of you and saying, here is how we think we should do it."

To my knowledge, in this bill there are no offsets. I know that technically this is an intergovernmental transfer, so there's no PAYGO and technically no scoring on this. But the money will soon be spent by the Treasury.

Just so folks understand what is going on here with this shell game, I will give you an example. I'm the government. I've got \$1 in this pocket—in this case, we're talking about 7 billion of these, which would go to the Moon—and what we're doing is saying that we are transferring this dollar from the right pocket to the left pocket, even though we know that it's already spent in the left pocket. But it doesn't cost anything. It's free money. Why don't we transfer \$1 trillion? It's all free, right? No offset. It's just from one pocket to another. The problem is, folks, we know this is being spent; and there's nothing in this pocket. We're borrowing from our kids and our grandchildren because there is nothing here. We're \$2 trillion in deficit this one year and we're talking about, We don't have to pay for anything. It's all free money. In conclusion, I would just hope that we bring some sanity to this process.

Mr. LEWIS of Georgia. Mr. Speaker, I am pleased to yield 2 minutes to the gentleman from Oregon, Congressman DEFAZIO, the Chair of the Highways and Transit Subcommittee of the Transportation Committee.

Mr. DEFAZIO. I thank the gentleman and my friend for the time. Five years

ago, an obstinate penny-wise, pound-foolish Bush administration stonewalled a bipartisan proposal in Congress to increase trust fund revenues. They sent us on this path to insolvency. At the same time, they condemned us to a transportation system in America that is headed toward third-world status. On the National Highway System, 150,000 bridges are either functionally obsolete or structurally deficient. That means they could fall down. Then we have 40 percent of the pavement on the National Highway System in fair or poor condition. Billions of gallons of fuel wasted in congestion and traffic, Americans wasting their lives sitting, frustrated. Businesses losing tens of billions of dollars because of delayed deliveries in a just-in-time competitive world economy.

We need a 6-year investment in our transportation system with new policies and a new vision to move us toward a competitive 21st century transportation system, not living off the dregs of one that we built in the fifties. But on the way to that new future, we need this infusion of cash. The States are out there in good faith, putting millions of people to work, rebuilding as much as they can with inadequate resources. They're bringing in bills for over \$1 billion a week. That's a lot of jobs, folks, out there in America going on today, rebuilding our infrastructure. We need to make good on those obligations with this infusion of money.

I'm willing to pay for the enhanced investment in the coming legislation, and I'd urge my Republican colleagues to keep an open mind. They're either going to deny us the investment we need and condemn us to a transportation system that can't meet America's needs, or they're going to join us in a 6-year bill with adequate investment and funding, fully paid for, investing in the future of America.

Mr. CAMP. I yield myself such time as I may consume.

I would just say that the Obama administration famously predicted that its so-called stimulus plan would save or create 3.5 million jobs. The gentleman referred to millions of jobs being created repairing our infrastructure. However, the unemployment rate is now at 9.5 percent, well above the 8 percent the administration projected if the stimulus passed. That means 2.5 million more Americans are unemployed than the President promised. So not only have no jobs been created in the private sector, in just 4 months, 2 million private sector jobs have been destroyed. Meanwhile, jobs in government have grown slightly, according to the Bureau of Labor Statistics.

At this time, I reserve the balance of my time.

Mr. LEWIS of Georgia. Mr. Speaker, may inquire about how much time I have left?

The SPEAKER pro tempore. The gentleman from Georgia has 3½ minutes remaining, and the gentleman from Michigan has 5 minutes remaining.

Mr. CAMP. I will say that we have no further speakers, and I believe the gentleman has the right to close.

Mr. LEWIS of Georgia. I thank the gentleman from Michigan.

Mr. Speaker, having one speaker remaining, I would like to yield 2 minutes to the gentleman from Massachusetts, Congressman OLVER from the Appropriations Committee.

Mr. OLVER. I thank the gentleman for yielding.

As I think we all know, with the collapse of the subprime market and the steep drop in private mortgages available, 25 percent of mortgages written today are backed by FHA. That's up from just 3 percent 2 years ago; and because Ginnie Mae securitizes FHA loans, their volume has increased threefold. With that increased demand, both FHA and Ginnie Mae will reach their loan ceilings in the next few weeks and will be forced to stop operating unless we act today. With the housing market just starting to show some signs of growth and home sales rising for 3 straight months, a first since the year 2004, cutting out 25 percent of available mortgages would be a disaster, decimating the market and hurting million of prospective homeowners out shopping today. This bill ensures that FHA and Ginnie Mae can continue to play their important roles in the mortgage market.

The bill also transfers funds to the Highway Trust Fund to keep it solvent through the end of the fiscal year. Without that transfer, the Department of Transportation will not be able to continue reimbursing States for their highway projects; and States would likely have to scale back on the work they are now doing and would be doing in August and September. There is no question that we will have to eventually do something to guarantee the long-term solvency of the Highway Trust Fund; but we made infrastructure development an important part of the Economic Recovery Act; and it would be foolish and unwise for us to leave town without ensuring that States can continue with their highway projects as we are on recess in this next month. This needs to be done as quickly as possible. I would urge my colleagues to support this bill by voting "yes."

Mr. CAMP. Mr. Speaker, I have no further speakers on my side, so I will yield back the balance of my time.

Mr. LEWIS of Georgia. Mr. Speaker, I fully support H.R. 3357. In the future, the Ways and Means Committee will need to look at different funding proposals and administrative changes to keep the Highway Trust Fund running for the long term. Today we need to make sure it doesn't run out of money.

This very simple bill does not cost a single dollar, and I urge all of my colleagues to support this commonsense, bipartisan piece of legislation.

Mr. LEWIS of California. Mr. Speaker, if there was ever a time when the American public needed to pay close attention to the spending decisions being made in Congress, it is now.

It's ironic that in the week following the adoption of so-called "Pay-Go Rules," the House would be debating a measure to set aside more than \$14 billion—without offsets—to pay for two so-called trust funds that have run dry. "Pay as we Go" has been replaced with "Spend as we Borrow."

Today, the House will vote to borrow another \$7 billion—that's \$7 billion—out of the general fund to replenish the Highway Trust Fund which has become insolvent as a result of high gas prices and the sluggish economy. By this time next month, without a congressional bailout, the so-called Highway Trust Fund will be unable to reimburse states for their highway investments. It was only last year that Congress set aside \$8 billion from the general fund to keep the highway fund solvent.

Clearly, this band-aid approach to fixing this re-occurring problem is not working. One more time, the House is voting to bail out another sector of the economy with money it does not have. This is on the heels of the bank bailout. It's on the heels of the so-called "Recovery Act" which has succeeded in spending billions but has thus far failed to create jobs. It's on the heels of the bailout of automakers in Detroit. And it follows another year of astronomical spending increases for every major government program run out of Washington, DC.

It was only last month that our former colleague, and the present Secretary of Transportation, Ray LaHood, testified before the House Transportation Appropriations Committee. "I want to assure you that we will soon have a plan to address the potential Trust Fund shortfall this summer," he said. "We believe very strongly that any Trust fund fix must be paid for."

An effort was made by the THUD-Appropriations Ranking Member, TOM LATHAM of Iowa, to pay for a solution to the Highway Trust Fund shortfall. But, because my friend Mr. LATHAM is a Republican, his amendment was rejected on a party-line vote in the full Appropriations Committee. In a sign of just how desperate the majority party in the House has become, Mr. LATHAM wasn't even allowed to offer his amendment during consideration of the transportation funding bill last week.

If the bailout of the Highway Trust Fund wasn't enough, Congress is also being called upon to replenish both the Unemployment Trust Fund and increase the limits for two mortgage lending programs under HUD. In the case of the unemployment trust fund, states have been hit with a double whammy of a halting economy and job losses causing more and more people to line up for unemployment benefits.

Over \$400 million was appropriated through the so-called Recovery Act to address this shortfall but those funds have now been depleted. And, to this point, the authorizing committees have failed to take any action to help

those presently receiving benefits or newly unemployed.

Mr. Speaker, with each passing day it's becoming increasingly clear that the public is growing ever more wary about the reliance of this Congress on government spending as a solution to every problem facing our country.

As the Congress spends trillions on bailouts and borrowing—and our record national deficit increases by the day—the President's response thus far has been almost laughable. Yesterday, with much fan fare, the White House proposed saving taxpayers money by double-sided copying of government documents and eliminating unused government e-mail accounts and phone lines. These examples hardly qualify as profiles in courage.

The President and this majority leadership have promised fiscal discipline and a return to economic prosperity. And yet, the record thus far shows nothing but one bailout after another and rising levels of government spending as far as the eye can see.

Mr. RYAN of Wisconsin. Mr. Speaker: I rise in support of H.R. 3357, a bill that would ensure the Unemployment Insurance Trust Fund has the resources it needs to help those who have been hit the hard by the economic recession and are jobless.

However, I am concerned about a provision in this bill that would provide another General Fund transfer to the Highway Trust Fund and increase the deficit.

I support a strong highway program. It's important to our nation's economy and to my home state of Wisconsin that we have world class roads that let goods and people get where they need to go safely and efficiently.

The highway fund was intended to be user financed. Last year we transferred \$8 billion from the General Fund to patch last year's shortfall. Earlier this year we provided \$27 billion in stimulus funds from the General Fund for highways. Now the Highway Trust Fund would get another \$7 billion under this legislation to pay its bills for the rest of Fiscal Year 2009.

Despite claims to the contrary, the real world impact of these transfers is an increase in the deficit, which is already over \$1 trillion and is projected to reach \$1.8 trillion by the end of this fiscal year under the President's budget.

The Highway Trust Fund is broken and needs to be permanently fixed. I want to find a solution that supports critical highway spending but does so responsibly, without adding more debt and deficits.

Mrs. BACHMANN. Mr. Speaker, I rise in support of H.R. 3357, however I do so with great hesitation.

This legislation infuses the Highway Trust Fund with \$7 billion from the Treasury in order to prevent a shortfall that will impact the fund in only a few short weeks. The Highway Trust Fund, which is financed by the gas tax, is facing insolvency, again. For months it has brought in less revenue than previously expected as families have felt the pinch at the pump and were forced to conserve more than ever before.

Important transportation projects across Minnesota would be seriously jeopardized or delayed should this fund go bankrupt. That is simply not something we can allow. And that is why I must vote for this legislation.

You will recall that we faced this very same Hobson's choice last year. Transferring funds from general revenue to cover the HTF shortfall must not become a precedent and Congress must set itself seriously to the task of reforming the way it pays for infrastructure improvements.

Furthermore, this is a stark reminder of the dramatic ripple effect our dependence on foreign oil continues to have throughout our nation. Our failure to aggressively pursue energy independence hurts all aspects of our economy. We must implement an "all of the above" energy strategy and increase our domestic supply of energy resources now so that we do not continue to band-aid this transportation crisis time and again.

Perhaps most disappointing in this specific instance is that the majority also loaded up this legislation with a hodgepodge of entirely unrelated spending, increasing spending levels for three other government programs facing shortfalls. It increased the Federal Housing Administration's capital fund to \$400 billion, from \$315 billion, thereby increasing the fund's statutory floor. It increased Ginnie Mae's guarantee of mortgage-backed securities by \$100 billion, from \$300 billion to \$400 billion. And, finally, it authorized "such sums as necessary" to shore up the Federal Unemployment Account which may encounter a shortfall due to rising claims for unemployment benefits.

Talk about a blank check. In one fell swoop, and after only 40 minutes of debate on the House floor, this bill spends billions upon billions of dollars. Members barely had a chance to know what was being voted on as the text of the legislation was not even available until the very last minute.

We must restore the integrity of this House and stop shoving legislation through that Members have not even had a chance to read and fully digest. I hope that the Majority will work with the Minority in the future to ensure more time and transparency is allotted throughout the legislative process.

And, I hope that we will have an opportunity to address the long-term flaws in each of these programs so that taxpayers are properly protected from these emergency shortfalls.

Mr. HENSARLING. Mr. Speaker, as a member of the House Budget Committee and House Financial Services Committee, one of my top priorities is to get the job engine running again in America. Over the past year, Congress has spent over \$1 trillion to get the economy moving again, but 2.6 million Americans have lost their jobs since President Obama took office and we have the highest unemployment rate in 25 years. Clearly, Washington Democrats' plan for economic recovery has been an abject failure.

I support policies that will provide struggling Texas small businesses with tax relief, enabling small businesses, which create 2 of every 3 jobs in America, to begin hiring workers. But we also must ensure that those who have lost their jobs through no fault of their own have a temporary safety net to help them weather this economic storm. That is why I voted for H.R. 6867 on October 3, 2008. H.R. 6867 provides up to 59 weeks of unemployment compensation benefits, and I was pleased that it was signed into law on November 21, 2008.

The House recently considered H.R. 3357, which transferred \$7 billion from the General Fund to the Highway Trust Fund to cover a projected shortfall of funds. This legislation also would provide funds for the Unemployment Trust Fund.

I support those provisions that would ensure the Unemployment Trust Fund, which is the funding mechanism for federal unemployment compensation benefits, has the resources it needs. In these tough economic times, I know how important unemployment benefits are to those who have lost their job. I do not, however, support provisions of H.R. 3357 that would transfer \$7 billion from the General Fund to the Highway Trust Fund, as this would add \$7 billion to the deficit and send the bill to our children and grandchildren. While I support a first-class highway system and would not want to see the Highway Trust Fund run short of funds, simply adding \$7 billion to the deficit was not the solution to the Highway Trust Fund's problems. This \$7 billion is on top of an \$8 billion transfer in 2008 and the \$27 billion provided to the Highway Trust Fund in the so-called stimulus bill.

Unfortunately, Members of Congress have wasted billions of taxpayer dollars on transportation earmarks over the last decade, helping lead to the depletion of the fund. While not all earmarks are bad, too many have diverted funds from the fund to pay for the Bridge to Nowhere, parking garages and bike paths. Had Members of Congress spent Highway Trust Fund money more wisely, we may not have been forced to replenish the fund.

Even though I support the Unemployment Trust Fund provision of H.R. 3357, at a time when the federal government is running a record debt in excess of \$11 trillion, a projected record deficit of \$1.8 trillion, and a 9.5 percent unemployment rate that is the highest unemployment rate in over 25 years, I simply could not support a bill that would borrow \$7 billion and send the bill to future generations.

Mr. LEWIS of Georgia. Mr. Speaker, I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Georgia (Mr. LEWIS) that the House suspend the rules and pass the bill, H.R. 3357, as amended.

The question was taken.

The SPEAKER pro tempore. In the opinion of the Chair, two-thirds being in the affirmative, the yeas have it.

Mr. CAMP. Mr. Speaker, on that I demand the yeas and nays.

The yeas and nays were ordered.

The SPEAKER pro tempore. Pursuant to clause 8 of rule XX, this 15-minute vote on suspending the rules and passing H.R. 3357, as amended, will be followed by 5-minute votes on motions to suspend the rules with regard to:

H. Res. 496, by the yeas and nays;

H.R. 3072, de novo;

H. Res. 483, de novo.

The vote was taken by electronic device, and there were—yeas 363, nays 68, not voting 2, as follows:

NOT VOTING—2

Bishop (UT) McCarthy (NY)

□ 1649

Messrs. BACHUS and COFFMAN of Colorado changed their vote from “yea” to “nay.”

Messrs. YOUNG of Alaska, SPRATT, BURTON of Indiana, CRENSHAW, HOEKSTRA, and JONES changed their vote from “nay” to “yea.”

So (two-thirds being in the affirmative) the rules were suspended and the bill, as amended, was passed.

The result of the vote was announced as above recorded.

A motion to reconsider was laid on the table.

RECOGNIZING THE 20TH ANNIVERSARY OF THE FALL OF THE BERLIN WALL

The SPEAKER pro tempore. The unfinished business is the vote on the motion to suspend the rules and agree to the resolution, H. Res. 496, as amended, on which the yeas and nays were ordered.

The Clerk read the title of the resolution.

The SPEAKER pro tempore. The question is on the motion offered by

the gentleman from American Samoa (Mr. FALEOMAVAEGA) that the House suspend the rules and agree to the resolution, H. Res. 496, as amended.

This will be a 5-minute vote.

The vote was taken by electronic device, and there were—yeas 432, nays 0, not voting 1, as follows:

NOT VOTING—1

McCarthy (NY)

ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore (during the vote). There are 2 minutes remaining in the vote.

□ 1656

So (two-thirds being in the affirmative) the rules were suspended and the resolution, as amended, was agreed to.

The result of the vote was announced as above recorded.

A motion to reconsider was laid on the table.

COACH JODIE BAILEY POST OFFICE BUILDING

The SPEAKER pro tempore. The unfinished business is the question on suspending the rules and passing the bill, H.R. 3072.

The Clerk read the title of the bill.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Missouri (Mr. CLAY) that the House suspend the rules and pass the bill, H.R. 3072.

The question was taken; and (two-thirds being in the affirmative) the rules were suspended and the bill was passed.

A motion to reconsider was laid on the table.

SUPPORTING VETERANS OF FOREIGN WARS DAY

The SPEAKER pro tempore. The unfinished business is the question on suspending the rules and agreeing to the resolution, H. Res. 483.

The Clerk read the title of the resolution.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Missouri (Mr. CLAY) that the House suspend the rules and agree to the resolution, H. Res. 483.

The question was taken; and (two-thirds being in the affirmative) the rules were suspended and the resolution was agreed to.

A motion to reconsider was laid on the table.

□ 1700

GENERAL LEAVE

Mr. MURTHA. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks and include tabular and extraneous material on H.R. 3326.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Pennsylvania?

There was no objection.

DEPARTMENT OF DEFENSE APPROPRIATIONS ACT, 2010

The SPEAKER pro tempore. Pursuant to House Resolution 685 and rule XVIII, the Chair declares the House in the Committee of the Whole House on the State of the Union for the consideration of the bill (H.R. 3326) making appropriations for the Department of De-

fense for the fiscal year ending September 30, 2010, and for other purposes.

□ 1704

IN THE COMMITTEE OF THE WHOLE

Accordingly, the House resolved itself into the Committee of the Whole House on the State of the Union for the consideration of the bill (H.R. 3326) making appropriations for the Department of Defense for the fiscal year ending September 30, 2010, and for other purposes, with Ms. BALDWIN in the chair.

The Clerk read the title of the bill.

The CHAIR. Pursuant to the rule, the bill is considered read the first time. The gentleman from Pennsylvania (Mr. MURTHA) and the gentleman from Florida (Mr. YOUNG) each will control 30 minutes.

The Chair recognizes the gentleman from Pennsylvania.

Mr. MURTHA. Madam Chairman, yesterday I was out at Bethesda, and I saw a young fellow that was wounded 2 years ago. And when he was wounded, his internal organs were outside the body for almost 10 days. And he's been putting up with that ever since, until he came back to Bethesda and had an operation just recently, where they were able to take the bag away that he had and restore his internal organs. That's what this bill's all about.

This Defense bill is all about taking care of the troops, making sure they have what they need. BILL YOUNG and I work together, going to the hospital, seeing the wounded. We listen to what they say and what they need. We listen to them at the bases. We had 37 hearings this year, 51 trips that the staff made all over the country to visit the various installations to find out what the problems were.

I was out at Fort Carson where the commanding officer—and this is not something that I'm divulging, this is something that's already known—his one boy was killed in Iraq, and his other son committed suicide before he was sworn in. So he's been emphasizing how do you reduce suicides in the military. The units that came back, we've just found, have had some terrible problems with people, robberies and actually homicide, some of the actual

units, at least allegedly. That's what we've seen in the newspaper.

These troops are under a tremendous strain. They're deployed too often. When I talked to the 12 troops there at Fort Carson and Fort Benning, they all told me the biggest single problem is the long deployments and the lack of time at home. And JERRY LEWIS, who was chairman of the subcommittee—and BILL will tell you the same thing—when we talk to the troops, they talk about how they need more time at home. They need to spend some time at home. And even when they're home, they're training. They don't have an opportunity to visit with their families as long as they would like.

We've had hundreds of meetings with Members of Congress, hundreds of input from Members of Congress on the floor and in the committee room, trying to make sure we put a bill together that was bipartisan. We've been partners in this thing the whole way through. And we've tried to make sure—and the thrust of this bill has been for the Department to start hiring more people and getting rid of the contractors, in other words, get rid of contractors and hire people because contractors cost \$44,000 more.

Well, we just find every time we turn around we find somebody at the lower level is making all kinds of changes in that policy, and we worry about it. In this bill, we have a number of things that we've done that help, not only military families, but do research for long term. We put the first money in, for instance, military pay. We raised them five tenths of a percent above the request.

First-class medical care is one of the things that we stress. Peer-reviewed research programs. \$150 million for breast cancer research, \$80 million for prostate cancer research, \$30 million for orthopedic research. An amazing thing, the military didn't have any money in for these kinds of things until we stepped in in the subcommittee in the forefront of making sure that that gets done. \$472.4 million for family advocacy programs. I could go on and on. I don't want to go too long on this debate.

FOOTNOTES:

- 1/ Included in Budget under Procurement title.
 2/ Budget proposed Overseas Contingency Operations.
 3/ Contributions to Department of Defense Retiree Health Care Fund (Sec. 725, P.L. 108-375) (CBO est)

Let me reserve the balance of my time.

Mr. YOUNG of Florida. Madam Chairman, I yield myself such time as I might consume, and I would like to state my support for this bill. As Chairman MURTHA, has said, the subcommittee worked together without any regard to politics or Republican or Democrat to build a legislative appropriation bill that we thought would take care of training requirements for our military, equipment requirements for our military, and force protection requirements for our military; and we did the best we could with the money that we had available, and we did it together. And we did it in a totally non-political way.

So I rise in strong support of this bill. There will likely be several amendments that we may not be able to agree with, and we'll talk about those a little bit later. But one thing I wanted to mention is, I said that we did the best we could with what we had to work with. We were under the President's budget request. Our 302(b) allocation was reduced. We're over last year by about 4 percent, so that's a plus.

It disturbs me a little bit, though, when I see that the foreign aid bill was 33 percent above last year's bill, and our national defense appropriations bill is only 4 percent above last year's bill. But still we did the best that we could with what we had to work with.

Now, we will have amendments that will be offered. I suspect they're not going to be offered tonight, though. I suspect sometime tomorrow they'll be offered. And there will be some disagreement on some of those amendments. We'll discuss those later. But

one thing I wanted to mention is air superiority. We're not going to have enough time on the amendment that's offered to deal with the future of air superiority for the American military. Mr. MURTHA and I and many of our Members have traveled to far-flung parts of the world where our troops were deployed. We have talked personally to thousands of our men and women in uniform, not only here at home but in places like Korea, like Bosnia, like Kosovo, like Afghanistan and Iraq and Kuwait and all of these places.

And our soldiers tell us, we'll go anywhere. We'll fight whatever battle we're told to fight. But please make sure that if there's an airplane above the battlefield, that it belongs to the United States, that it does not belong to a threatening enemy. And that's one of the things that we will be talking about with the issue of the F-22. The air superiority, the F-22 is supposedly our air superiority aircraft. It will replace the F-15, which is today's tremendous airplane, but it's our air superiority aircraft. We cannot afford to take a chance and risk the lives of troops on the ground if we don't secure the air overhead.

The Defense Department has suggested that, with the limit of 187 new F-22s, or a total of 187 F-22s, that this is a medium to high risk for air superiority on the part of the United States. I think we ought to take that, despite the fact that there's a veto threat on going above the 187. If the Defense Department believes that this is a medium to high risk, I think we ought to pay close attention to that. But we'll talk more in detail about that when we

deal with the amendment that we expect to deal with.

We're told that the Joint Strike Fighter is coming on board and will fill up the gap if we don't have enough F-22s. But to begin with, the Joint Strike Fighter is a different mission aircraft than the F-22, just like the F-16 was a different mission aircraft than the F-15, but they work together in partnership.

□ 1715

If the F-35, the Joint Strike Fighter, is going to pick up the gap, we'd better do some serious thinking, because the F-35 is not ready to fight. It is not ready to do its mission, let alone the mission of air superiority. We have spent some \$37 billion in the development of the Joint Strike Fighter, and we have been in development and have been ready to go to production just now, this year, with funding for the production. We started in 1997 to create this aircraft, and here it is 2009, and the aircraft is still not ready to be deployed.

So how is that aircraft going to fill the gap if we need fighters to maintain air superiority?

There is a lot more on this issue that we'll talk about later. The bill today provides for additional F-22s, and that's the way we like it.

I reserve the balance of my time.

Mr. MURTHA. Madam Chair, I reserve the balance of my time.

Mr. YOUNG of Florida. Madam Chair, I would like to yield 2 minutes to the gentleman from California (Mr. LEWIS), the former chairman of the subcommittee and the now ranking member on the full Appropriations Committee.

Mr. LEWIS of California. Madam Chair, I rise simply to express the House's deep appreciation for the work that Mr. MURTHA and Mr. YOUNG do together on behalf of our troops. It's a fabulous display of the way the place should work, and I want you to know that I extend my congratulations.

I have similar reservations, Chairman MURTHA, that have been expressed by my colleague Mr. YOUNG about the F-22. You know of the history when I chaired the committee and when we examined that program very, very carefully. My difficulty is I just can't project out there what the challenges are going to be. If China, for example, should join with Russia and come on line with tactical aircraft, we've got to think ahead, and I'm worried that we may not be doing that.

Mr. YOUNG of Florida. Madam Chairman, I would be happy to yield at this time 4 minutes to the distinguished gentleman from New Jersey, a very important member of the subcommittee, Mr. FRELINGHUYSEN.

Mr. FRELINGHUYSEN. I thank the gentleman for yielding.

Madam Chairman, I want to echo the comments of our ranking member, Mr. YOUNG, and I want to thank Mr. MURTHA for a good bill. I do rise to support it.

Clearly, if I'd written the bill, I would have written it differently in certain areas. Overall, I wish our subcommittee could have done more, but I recognize we did the best with the allocation we have. The bill is \$3.5 billion short of the President's request despite the fact that we're engaged in two hard-fought wars in Afghanistan and Iraq that are hardly over. In fact, the President has obligated us to a rather open-ended commitment in Afghanistan where casualties have been rising and where more money may be needed.

Madam Chairman, the first time America tangled with extremists overseas, President John Adams was confronted by partisans who chanted, "Millions for defense, not a penny for tribute." That was then and this is now.

At a time when Congress has found the "will and the wallet" to throw billions of borrowed dollars at every domestic program under the sun, some are finding ways to cut defense spending—sometimes subtly, sometimes not so subtly. I tell my colleagues who have pledged to support a strong national defense that this bill is the high watermark. In fact, it's all downhill from here.

I do support the reform of our military acquisition processes, which have come under examination. I do support Secretary Gates' program to reexamine our national security priorities in light of new, irregular challenges and threats that are proliferating well beyond Iraq and Afghanistan.

Take a look at a more belligerent Russia. Take a look at the Chinese ca-

pabilities in terms of their Navy, their air and their cyberattacks. Take a look at the things that are happening on the Korean peninsula, at the things that are happening in Africa and at the things that are happening in our own hemisphere.

I do worry about this administration's apparent obsession with this war-ism. I urge my colleagues to make sure we make enough investments today to ensure that we will be prepared to defend our interests against all threats in the years to come.

I do support the legislation, and as Mr. MURTHA and Mr. YOUNG have said, there is a pay increase in here for all of our troops, all volunteering. There is first-class medical care, a lot more money, more money for shipbuilding, more money for the procurement of fighters, more money for MRAPs in Afghanistan, and importantly, there is \$500 million for the National Guard equipment for both overseas and home-state missions.

Madam Chairman, I wish we could restore the cuts to our missile defense. I wish we could ensure that our F-22 assembly line could keep going. I wish we had an immediate substitute for our future combat system. These are important elements that need to be addressed. All in all, this is a good bill.

I congratulate the chairman for his leadership, and I congratulate the ranking member. I am pleased to support it.

Mr. MURTHA. Madam Chairman, I yield 1 minute to the gentleman from Ohio (Mr. KUCINICH).

Mr. KUCINICH. Madam Chairman, I want to thank Mr. MURTHA and the ranking member for the work that they've done for our country, and my remarks are in no way in disrespect of that.

We are talking about \$636 billion, which will help, among other things, to empower the continuation of the war in Iraq and Afghanistan. We will have a brief debate here about \$636 billion. The Congress has been gripped by the debate over health care for months now. We really need to have a serious discussion and debate about both the wars in Iraq and Afghanistan—the wars which are causing casualties to the troops that Mr. MURTHA is so dedicated to. We really need to look at that and figure out when we are going to get out of there.

We need to set a time to get out of Iraq for real, not just the so-called combat troops and leave detachments there, but to get out of Iraq for real and to get out of Afghanistan, where the casualties are increasing. We need to start coming back home and taking care of things here. We need to plus-up our military so we can be strong in defense but not cause our strength to be wasted in wars that are unnecessary.

I really appreciate the work you do, Mr. MURTHA, but I also will tell you

that we really need to have a much bigger debate about whether we should continue to be in that war. I'm going to vote against this bill just on principle. We should get out of Iraq and Afghanistan, and I have the same love for those troops that you have.

ANNOUNCEMENT BY THE CHAIR

The CHAIR. Members are reminded to direct their remarks to the Chair.

Mr. YOUNG of Florida. Madam Chairman, I am very pleased to yield 2 minutes to the distinguished gentleman from California (Mr. CALVERT), who also is the ranking member of the Select Intelligence Oversight Panel.

Mr. CALVERT. Madam Chair, I am certainly proud to support H.R. 3326, the 2010 Defense Appropriations bill.

I represent four military installations, thousands of military personnel and their families, and I am pleased that this bill includes the \$8.2 billion increase for military personnel accounts from last year. It also includes a 3.4 percent pay raise, which I wholeheartedly support and certainly believe that our troops deserve.

The bill also includes funding for three C-17s, which are vital to our airlift capability. While I am pleased with the additional procurement, I believe that Congress must continue to fund this additional aircraft that is necessary for additional airlift capability.

The C-17 aircraft plays a central role both in the ongoing global war on terror and in the humanitarian relief missions around the world. The three C-17s will be a welcomed addition to the fleet, which includes 8 C-17s attached to March Air Reserve Base's 452nd Air Mobility Wing, which is in my district in California. These will accelerate efforts to ensure that America's airlift needs are met in upcoming years.

I also support the removal of \$100 million, requested by the administration, which would have been used to move detainees out of the Guantanamo Bay detention facility. I commend the language in the bill, which was truly the result of a bipartisan effort. It prevents a single detainee from being released or transferred until the administration produces an acceptable plan—one that includes an assessment of the risks to the American people and that requires that our citizens be informed of any transfers so they will be ensured of their safety. It also requires a certification that any release or transfer of prisoners will not place our troops in harm's way or will hinder their efforts abroad. The language is similar to my bill, H.R. 1069, which I introduced in February of this year. I am hopeful we can work this out in a planned process.

Again, I commend the subcommittee and the full committee chairmen and ranking members for a bipartisan bill that meets the needs of our troops and that provides funding for vital missions around the world.

Mr. YOUNG of Florida. Madam Chairman, I yield 2 minutes now to the

gentleman from Georgia (Mr. GINGREY).

Mr. GINGREY of Georgia. Madam Chair, I rise today to discuss an issue vital to American air superiority.

First, I want to thank Chairman MURTHA and Ranking Member YOUNG for their tireless efforts in support of those who bravely defend us at home and abroad.

While there is much to applaud in this bill, I am very concerned about any steps to remove advanced procurement funds for the F-22A Raptor. Currently, H.R. 3326 contains \$370 million for long lead supplies needed to procure 12 F-22 aircraft in fiscal year 2011. Preserving this funding, Madam Chair, is absolutely critical.

Unfortunately, President Obama and Secretary Gates have expended great capital in recent weeks to ensure that the F-22 program ends at 187 aircraft once and for all. However, their position is not driven by military requirements but, rather, by budget constraints.

The facts are that the F-22 has a flyaway cost of \$142 million—this is a 35 percent decrease since its inception—and the next F-22 will actually be cheaper than the next Joint Strike Fighter.

Madam Chair, is this how we should determine how best to defend our Nation and to ensure American air superiority, or should we rely on the results of over 30 air campaign studies that have been conducted over the last 15 years, which validate a requirement for far more than 187 F-22 Raptors to replace the original force of 800 F-15 A-D Eagles?

We should also listen to those who fly these fighters, Madam Chair. A June 9, 2009, letter from General John Corley, the commander of Air Combat Command, states, "At Air Combat Command, we have held the need for 381 F-22s to deliver a tailored package of air superiority to our Combatant Commanders and provide a potent, globally arrayed, asymmetric deterrent against potential adversaries. In my opinion, a fleet of 187 F-22s puts execution of our current national military strategy at high risk in the near to mid-term."

The CHAIR. The time of the gentleman has expired.

Mr. YOUNG of Florida. I yield the gentleman an additional 30 seconds.

Mr. GINGREY of Georgia. Madam Chair, General Corley goes on to state, "There are no studies that demonstrate 187 F-22s are adequate to support our national military strategy."

I would like to submit this letter for the RECORD, Madam Chair.

DEPARTMENT OF THE AIR FORCE,
HEADQUARTERS AIR COMBAT COMMAND
Langley Air Force Base, VA, June 9, 2009.

Hon. SAXBY CHAMBLISS,
Russell Office Building, U.S. Senate,
Washington, DC.

DEAR SENATOR CHAMBLISS: Thank you for your letter and the opportunity to comment

on the critical issue of F-22 fleet size. At Air Combat Command we have held the need for 381 F-22s to deliver a tailored package of air superiority to our Combatant Commanders and provide a potent, globally arrayed, asymmetric deterrent against potential adversaries. In my opinion, a fleet of 187 F-22s puts execution of our current national military strategy at high risk in the near to mid-term.

To my knowledge, there are no studies that demonstrate 187 F-22s are adequate to support our national military strategy. Air Combat Command analysis, done in concert with Headquarters Air Force, shows a moderate risk force can be obtained with an F-22 fleet of approximately 250 aircraft.

While OSD did not solicit direct input from Air Combat Command, we worked closely with our Headquarters in ensuring our views were available. We realize the tough choices our national leadership must make in balancing current warfighting needs against the fiscal realities our Nation faces.

The F-22, a critical enabler of air dominance, plays a vital role and indispensable role in ensuring joint freedom of action for all forces and underpins our ability to dissuade and deter. Thank you for your continued support of the US Air Force and Air Combat Command.

Sincerely,

JOHN D.W. CORLEY
General, USAF Commander.

I also would like to submit for the RECORD a letter that I sent to President Obama and to Secretary Gates. It's signed by 199 of my House colleagues. It concludes that continued F-22 production is in the national economic interest of the United States.

CONGRESS OF THE UNITED STATES,
Washington, DC, January 21, 2009.

President BARACK OBAMA,
The White House,
1600 Pennsylvania Avenue, NW
Washington, DC.

DEAR MR. PRESIDENT: The Fiscal Year 2009 National Defense Authorization act requires your certification on continued F-22A Raptor production by March 1, 2009. We strongly urge your certification of continued production of this vital program.

Continued F-22 production is critical to the security of our nation. The F-22 is the nation's most capable fighter and the world's only operation 5th generation fighter aircraft in full-rate production. It is the weapon system we need to respond to potential adversaries who are increasing their air combat capabilities both in terms of technology and numbers of aircraft. Several nations have announced that they are developing stealthy, twin-engine, high-altitude, 5th generation fighters that will reach production within the next five to ten years. Additionally, sophisticated and highly lethal air defense systems such as the SA-20 and S-300/400 are proliferating worldwide.

Our nation has committed to procuring a total of just 183 F-22 aircraft. We are convinced that this number is insufficient to meet potential threats. After accounting for test, training, and maintenance aircraft, only about 100 F-22s will be immediately available for combat at any given time. Given that over 30 air campaign studies completed over the last 15 years have validated a requirement for far more than 183 F-22 Raptors to replace the original force of 800 F-15 A-D Eagles, it is clear that such a lean F-22 fleet is not consistent with America's national security interest.

The F-22 is a model production line. Since full-rate production began, the unit flyaway cost has decreased by 35 percent. If this certification is delayed, layoffs will begin as this critical supplier base shuts down. Once we begin to lose the F-22 industrial base that was created with billions of dollars of investment over many years, it will quickly become virtually impossible to reconstitute a production capability.

The F-22 program annually provides over \$12 billion of economic activity to the national economy. As our nation faces one of the most trying economic times in recent history, it is imperative to preserve existing high paying, specialized jobs that are critical to our national defense. Over 25,000 Americans working for more than 1,000 suppliers in 44 states manufacture this aircraft. Moreover, it is estimated that another 70,000 Americans indirectly owe their jobs to this program.

The Honorable Blaine Luetkemeyer (MO-09); The Honorable Tim Ryan (OH-17); The Honorable Grace Napolitano (CA-38); The Honorable Maxine Waters (CA-35); The Honorable Darrell Issa (CA-49); The Honorable Jeff Miller (FL-01); The Honorable Mike McIntyre (NC-07); The Honorable Dutch Ruppersberger (MD-02); The Honorable Ileana Ros-Lehtinen (FL-18); The Honorable George Radanovich (CA-19); The Honorable Gregg Harper (MS-03); The Honorable Doc Hastings (WA-04); The Honorable Christopher Lee (NY-26); The Honorable Carolyn McCarthy (NY-04); The Honorable Dennis Rehberg (MN-At Large); The Honorable Randy Forbes (VA-04); The Honorable John Shimkus (IL-19); The Honorable Steve Israel (NY-02); The Honorable Mike Ross (AR-04); The Honorable Steve Buyer (IN-04); The Honorable Paul Tonko (NY-21)

The Honorable Tom Cole (OK-04); The Honorable Donna Christensen (VI); The Honorable Sam Johnson (TX-03); The Honorable Brian Bilbray (CA-50); The Honorable John Fleming (LA-04); The Honorable Mike Coffman (CO-06); The Honorable Henry Cuellar (TX-28).

Madam Chair, I ask all of my colleagues to reject the Obama administration's posture on the F-22 and to support continued F-22 production as we consider this bill.

Mr. YOUNG of Florida. Madam Chair, I yield now 2 minutes to the distinguished gentleman from Georgia (Mr. BROWN).

Mr. BROWN of Georgia. I thank the gentleman for yielding.

Madam Chairman, yet again, the Democratic leadership has decided to close down this process. I have submitted an amendment to the Rules Committee to prohibit funding in this bill from being used to standardize ground combat uniforms across the military services. The House version of the defense authorization has language that was slipped in to require one standardized future ground combat

uniform for the military to eliminate the uniqueness of the branches.

The Marine Corps has stated, "A standardized ground uniform will negatively impact USMC recruiting, retention, and tactical/operational employment for deploying forces." Given the unique and differing missions of each of the branches, I believe that the leadership of each Service should maintain the flexibility to determine what uniform is best-suited for the specific role for its members.

I am very disappointed that we have been denied the opportunity to debate my amendment here today. I want to say I'm a strong supporter of H.R. 3326. I am a marine. Once a marine, always a marine. I am also one who believes in a very strong national defense. I believe the Founding Fathers meant for a strong national defense to be the major function of the Federal Government.

□ 1730

I applaud this bill, and I applaud the leaders on both sides for bringing this strong bill. I want to say I agree with my colleague, Mr. GINGREY, that I believe very firmly that we need to continue funding the F-22 and the C-17.

Mr. YOUNG of Florida. At this time, I yield 2 minutes to the distinguished gentleman from Utah (Mr. BISHOP).

Mr. BISHOP of Utah. I appreciate the gentleman from Florida for yielding me time and also the entire committee. Putting this particular budget together is not an easy task, and I'm very proud of most of the things that are in this particular budget. I, too, though, have a couple of concerns, as was originally indicated by the ranking member as well as the ranking member of the full committee, that deal with air superiority.

I'm just an old history teacher, but I realize in the 1930s this country decided to save money by cutting back on the P-35 construction. When World War II began, our bombers taking bomber runs were suffering casualty rates well over 20 percent. It was to the point we actually suspended some of those runs until we could go into an emergency production to build enough fighters to accommodate the bombers that we had. The bottom line is we were unprepared for a future we had not anticipated.

We don't have the luxury anymore to be in that type of a situation, which is why the air superiority which we've had since the Korean War is such an essential element of our defense structure and our defense posture.

And there are two elements that are essential for our air superiority. One is technical advancement. The other is production. The numbers that we have is as important as the technology. We cannot afford to find ourselves on the wrong side of history again. The world moves much too rapidly for that.

I have a great deal of gratitude for the long hours that were put in for this

budget, and with a couple of exceptions in there where I have great concerns, I applaud the efforts and would like us to look seriously at that particular element of air superiority one more time.

Mr. YOUNG of Florida. Madam Chairman, I yield myself such time as I may consume.

Since we have talked so much about the F-22, I thought I would compare just briefly some of the history of our fighter aircraft.

For example, the F-4, which was one of the major aircraft fighters in the Vietnam War, we produced over 4,000 of those airplanes, yet we're only talking about 187 of the F-22s. Of the F-15s, we built 1,118 F-15s. We only have about half of them left today, and they're being phased out. The F-16. We built 2,230 F-16s. Today we only have about half of those left, and one day we will phase those out when Joint Strike Fighter comes on line.

But the history of buying and building the fighter aircraft and losing fighter aircraft when we are involved in hostilities is very, very telling. And it, again, we must say, it is important that our soldiers fighting on the ground have an American airplane overhead and not an enemy airplane with bombs and strafing guns, et cetera. So we'll discuss this more in detail when the amendment is offered.

At this point, I yield back the balance of my time.

Mr. MURTHA. Let me just conclude by thanking BILL YOUNG on all of the work he did and all of the rest of the subcommittee on the work they did.

And let me reiterate this is all about the troops being taken care of, making sure they have what they need. We put the full amount that the President requested for the people in Iraq and Afghanistan, and we made sure that we gave them a pay raise. And when I see those troops—whether it's in the field, at the bases, whether I see them overseas or I see the troops in the hospitals—I have such great admiration for what they do. And we're just trying to make sure they have everything that they need.

The F-22, as the gentleman from Florida says, we're going to argue that later. We would have to have 292 votes in the House; we'd have to have 66 votes in the Senate, so you can see the position I'm in and the problems that we would have if we were to go forward. I just want to make sure that the planes we have are robustly funded.

Ms. LEE of California. Madam Chair, I rise today in opposition to H.R. 3326, the Department of Defense Appropriations Act for FY 2010.

At a time when our nation is facing an unprecedented series of challenges, I believe we must do more to curb the runaway growth in defense spending.

Instead of spending a staggering 52 percent of the federal discretionary budget for the Pentagon, we should be using this money to fund

universal health care for all Americans, or to reform our educational system and train and prepare the next generation to run the green economy of the future, or to reorder our foreign policy around a smart security strategy that emphasizes development and diplomacy.

We cannot and should not continue to throw money at billion dollar cold-war era weapon systems while ignoring the needs and priorities of the American people.

I must note that it is about time we have included the full costs of our overseas deployments and other activities in the regular budget process and Defense Appropriations bill after years of the Bush Administration insisting the costs of the wars in Iraq and Afghanistan be kept from view.

Although I am pleased to see that H.R. 3326 includes language prohibiting the establishment of permanent military bases in Iraq or Afghanistan, it should come as no surprise that I believe the situation in Iraq and in Afghanistan does not lend itself to a military solution.

Madam Chair, I cannot support the \$128 billion included in this bill for overseas operations which may further entrench the United States in conflict and continue us down a path to war without end.

As the daughter of a military veteran, let me close by saying I strongly support our troops as well as respect the necessity of adequately equipping them for the threats they face around the globe.

In the case of this bill, I strongly support the recommendation of our President and our military leadership to halt production of the F-22 at 187 planes.

I urge my colleagues to oppose this bill, and to support the Murtha amendment to reallocate funds away from the F-22 advance procurement program.

Mr. TIAHRT. Madam Chair, I rise in support of H.R. 3326, the Fiscal Year 2010 Defense Appropriations bill. Although I am concerned that advanced capabilities are short-changed in the bill. Overall, the Defense Appropriations Subcommittee has worked in a bi-partisan manner to craft a very good bill. I urge my colleagues to join with me in supporting this legislation.

First, I want to highlight one important provision in this bill regarding the KC-X Tanker Acquisition. Over the past seven years, I have worked with my colleagues on both sides of the aisle to address the real and growing need to recapitalize our aging KC-135 Tanker fleet. The committee has shown a real commitment to this vital program by providing \$440 million in funding and instructive language.

Specifically, the directive language:

Recommends procuring 36 aircraft a year, over the current 12–15 a year. With over 500 KC-135 aircraft, it would take 40 years to replace these aircraft at 12 a year.

Requires production aircraft to be built in the United States—to strengthen our industrial base;

Ensures that any competition includes a 40-year life-cycle cost—to guarantee the American taxpayer get the best return on their investment.

This is the right direction to move the program forward.

Unfortunately the President, in his Statement on Administration Policy, has expressed

strong opposition to the Buy-America language directing that production KC-X aircraft be built in the United States. This comes as both competitors—Boeing and Airbus—have already committed to building their tanker in America.

This provision is essential because Airbus has a history of promising American jobs and then shipping the jobs back to Europe when it suits their interests—as they did with the Light Utility Helicopter. I hope the President drops his opposition to the American worker and stand with us in demanding that the promises defense contractors make to this Congress and the American people are kept.

Second, as I previously stated, I am concerned with the lackluster investment in procurement and research and development accounts in this bill. In 1985, military modernization was around 45 percent of the defense budget. This year the modernization budget is set to represent only 31 percent of the budget request. It appears another defense procurement holiday is on the horizon.

The Obama administration has already slashed procurement budgets along with research and development of almost a dozen advanced weaponry systems our nation will likely need in the future. Some of these cuts include the Airborne Laser, the Future Combat Systems, the C-17, the Navy's next-generation cruiser, the Multiple Kill Vehicle, and the Kinetic Energy Interceptor.

In my opinion, this bill fails to make the adequate investments so our children and grandchildren will have the resources they need to protect this nation in the decades to come.

Despite my concerns, I believe this bill is still worth supporting. I will continue to work for additional resources for our military when we move to conference. In the meantime I urge my colleagues to join me in supporting this important legislation.

Mr. GENE GREEN of Texas. Madam Chair. I rise today in strong support of this bill. The Defense Appropriations bill funds a number of research and education programs, but most importantly it provides for the defense of our nation and for the men and women who serve in our Armed Forces.

This bill includes a pay raise and other benefits for our soldiers, sailors, airmen, and marines, making sure we provide them what they need and deserve. It provides a 3.4 percent military pay increase and \$122.4 billion to fully fund the requested end strength levels for personnel. The bill continues efforts to end the practice of "stop loss" and includes funding to pay troops \$500 for every month their term of service is involuntarily extended in 2010.

The bill also provides for those that have been injured defending our country by including \$500 million for traumatic brain injury and psychological health. The bill also includes a total of \$2.2 billion for the wounded, ill and injured programs. The bill includes \$636 million for peer-reviewed research programs: \$150 million for breast cancer research; \$80 million for prostate cancer research; \$30 million for orthopedic research; \$25 million for ovarian cancer research; \$15 million for spinal cord research; and \$10 million for ALS research.

I would also like to express support for the inclusion of The Science, Technology, Engineering and Mathematics (STEM.) Initiative to

be administered by HoustonWorks USA. Federal support is necessary, because this program will support the national agenda to promote STEM programs and increase exposure to careers in engineering among at-risk or hard-to-serve youth, an untapped human resource in our country's quest to increase the numbers of American engineers. The outcome of STEM awareness programs like this one is part of the process to grow the engineering pipeline, a critical step to answer some of the world's most important questions in science today. This project will benefit numerous individuals in the 29th District, and I thank the Committee for including funding for the project.

I am disappointed, however, funding was not included for restoration of the Battleship Texas. The historic Battleship Texas is the only surviving naval vessel that served in both World War I & II. In order to keep her from deteriorating further, the Battleship Texas Foundation in conjunction with the Parks and Wildlife Department, will permanently remove the USS Texas from the water and construct a dry berth at a cost of \$29,000,000—we have secured funding in the past to assist with this project, but did not receive funding this year for our request. I ask that the Chair reconsider as future bills move forward, and I look forward to working with him on this project.

Madam Chair, overall this is a good bill that provides for the defense of our nation, our troops and their families, and a number of other critical projects and research initiatives. I urge my colleagues to join me in supporting H.R. 3326.

Mr. STARK. Madam Chair, I rise in opposition to the Defense Appropriations bill. As families and businesses struggle in this recession, this bill spends money on the wrong priorities for our Nation and the world.

The legislation provides \$128.3 billion to fund wars in Afghanistan and Iraq that never should have been waged, as well as \$9.3 billion for missile defense funding that doesn't work. According to the Washington Post, over \$6.9 billion in funding is for new ships, planes, helicopters and armored vehicles that the Pentagon doesn't want.

We are wasting money on these projects as defense eats up a larger share of our budget—58 percent of all discretionary spending, up from 51 percent four years ago.

This giveaway to defense contractors comes at the same time that Members of Congress are balking at health care reform that will cost a fraction of our defense spending over the same time period. I urge my colleagues to join me in voting no.

Mr. ETHERIDGE. Madam Chair, I rise today in support of H.R. 3326 the Fiscal Year 2010 Defense Appropriations Act. This bill makes important investments to keep the American people safe, strengthen our military, and support our troops.

This bill contains \$636.3 billion for the Department of Defense next year to provide funding for our troops in Iraq and Afghanistan, enhance recruitment, address critical equipment needs at home, and, perhaps most importantly, support our troops and their families who give so much in defense of our nation. As a Member of the House Budget Committee, I am pleased that H.R. 3326 is fiscally respon-

sible, for the first time including funding for ongoing needs for the war in Iraq and Afghanistan in the regular budgeting process. The decision to hide funding for our engagement abroad in "emergency" spending led to financial mismanagement, and it ends this year. The bill also calls for additional contracting reform and other efficiencies, while ensuring sufficient support for our men and women in uniform.

As a veteran of the U.S. Army, and the representative of Fort Bragg and Pope Air Force Base, I am proud of our troops who serve our country so bravely. Whether in the Army, Air Force or Navy, the Coast Guard, or the Marines; whether in the National Guard or in the Reserves; each soldier deserves our full support and respect. This bill provides our troops with a 3.4 percent pay raise and recognizes the hardship of stop-loss deployment by providing an additional \$500 per month for involuntary extensions of active duty. It provides significant funding for readiness training and medical care, often overlooked aspects of our military support. Knowing that the mission at home for military families is often critical to the soldier's mission abroad, I am pleased that H.R. 3326 fully funds Family Support and Yellow Ribbon programs, as well as providing \$472 million for family advocacy initiatives.

Madam Chair, there is no more important function for Congress than to protect the American people. This bill ensures our troops in Iraq and Afghanistan have the funding and equipment they need, provides support for our troops at home, and improves the health of our entire military. I urge my colleagues to join me in support of H.R. 3326.

Mr. VAN HOLLEN. Madam Chair, I rise in support of the 2010 Department of Defense Appropriations Act. This bill provides \$636.3 billion to fund the defense, military family support, humanitarian assistance and oversight priorities of the American people.

This bill provides the resources to implement President Obama's national security strategy, including the new approach he is taking with respect to Iraq and Afghanistan. The bill also provides funding to support the general quality-of-life needs of our troops and their families. Specifically, the measure provides a 3.4 percent pay increase for military personnel; \$8.3 billion in additional funds to compensate personnel subject to "stop loss" requirements; and \$2.6 billion to support military families—including \$472 million for family advocacy programs that help children and families manage the many challenges of military service.

The bill also provides \$29.9 billion for the defense health program, including \$500 million for traumatic brain injury treatments and funds to treat Post-traumatic Stress Syndrome. And finally, the Defense Appropriations Act includes a number of provisions to improve oversight of defense contractors and \$110 million for international humanitarian assistance including foreign disaster and emergency relief assistance.

Mr. BLUMENAUER. Madam Chair, it was my hope that this year would mark a turning point in the type and amount of we spend on the Department of Defense. Oregonians know I frequently vote against Defense Appropriations bills as spending too much money for the wrong priorities.

I was pleased to see the traditional military pay raise included, as well as an extension of current stop loss compensation to troops extended tours in 2010. I also continue to strongly support provisions that prohibit permanent bases in Iraq and Afghanistan and torture.

Yet the bill also includes funding for programs that have been outdated since the end of the Cold War two decades ago, and which even the Secretary of Defense would like to terminate. The list of these programs funded here is long and runs into the billions: \$80 million for the Missile Defense, Kinetic Energy Interceptor Program, \$369 million for parts for the F-22 and C-17, an extra \$3 billion for Navy ships, and \$674 million for still more unrequested C-17 planes.

These programs come at the expense of other, more worthy projects and investments. I offered two amendments to the Rules Committee for this bill, both of which would have shifted funding to environmental programs. My first amendment would have shifted \$100 million from the unnecessary Joint Strike Fighter (F-35) Alternate Engine Program and toward the chronically-underfunded Defense Department's Environmental Restoration Program. These programs, responsible for the cleaning of toxic wastes and leftover bombs from all active bases and Formerly Used Defense Sites, will receive less funds than they did last year even though the number of sites needing clean up has increased.

My second amendment would have created a small pilot program to fund a practical demonstration of ordnance discrimination technology. Currently over 75 percent of material uncovered during the clearing of leftover and still dangerous bombs and shells is non-dangerous scrap metal. This type of technology, once proven through a live demonstration, would cut cleanup costs by two to three times.

These amendments were commonsense ways to reduce Pentagon liability, save money and resources in the long run, and make our lands safer for our communities and military personnel. I was extremely disappointed that these amendments were unable to receive an up-or-down vote. But I will continue to work to ensure the Federal government is a better partner to communities.

The Administration is moving in the right direction by being willing to make tough decisions to cut or terminate certain favored, yet expensive and unnecessary, programs. It is my hope that Congress can craft a bill in conference that more closely adheres to this principled and practical stance and that meets the needs of our military and our communities.

Mr. MURTHA. I yield back the balance of my time.

The CHAIR. All time for general debate has expired.

Mr. MURTHA. Madam Chairman, I move that the Committee do now rise.

The motion was agreed to.

Accordingly, the Committee rose; and the Speaker pro tempore (Ms. TITUS) having assumed the chair, Ms. BALDWIN, Chair of the Committee of the Whole House on the State of the Union, reported that that Committee, having had under consideration the bill (H.R. 3326) making appropriations for

the Department of Defense for the fiscal year ending September 30, 2010, and for other purposes, had come to no resolution thereon.

HONORING THE MEMORY AND LASTING LEGACY OF SALLY CROWE

Mr. BRADY of Pennsylvania. Madam Speaker, I ask unanimous consent to discharge the Committee on House Administration from further consideration of House Resolution 682 and ask for its immediate consideration in the House.

The Clerk read the title of the resolution.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Pennsylvania?

There was no objection.

The text of the resolution is as follows:

H. RES. 682

Whereas Sally Crowe's career spanned 52 years of service, beginning in 1957 as a cashier in the Longworth cafeteria;

Whereas Sally moved to the Members' Dining Room in the U.S. Capitol in the 1960s and remained on the job there until her passing on June 28, 2009;

Whereas throughout her career she provided a warm and personal welcome to generations of Members, staff, and guests;

Whereas regardless of who managed the Members' Dining Room, Sally remained a fixture, serving with distinction and making a special effort to know every Member by name; and

Whereas Sally will be remembered for her sense of humor, her strong work ethic, and her unwavering commitment to serving the House of Representatives: Now, therefore, be it

Resolved, That the House of Representatives honors the memory and lasting legacy of Sally Crowe, extends its gratitude for her decades of exemplary service, and expresses its condolences to her family and friends at this time of loss.

The resolution was agreed to.

A motion to reconsider was laid on the table.

AUTHORIZING PRINTING OF THE POCKET VERSION OF THE UNITED STATES CONSTITUTION

Mr. BRADY of Pennsylvania. Mr. Speaker, I ask unanimous consent that the Committee on House Administration be discharged from further consideration of Senate Concurrent Resolution 35 and ask for its immediate consideration in the House.

The Clerk read the title of the concurrent resolution.

The SPEAKER pro tempore (Mr. DRIEHAUS). Is there objection to the request of the gentleman from Pennsylvania?

There was no objection.

The text of the concurrent resolution is as follows:

S. CON. RES. 35

Resolved by the Senate (the House of Representatives concurring),

SECTION 1. POCKET VERSION OF THE UNITED STATES CONSTITUTION.

(a) IN GENERAL.—The 24th edition of the pocket version of the United States Constitution shall be printed as a Senate document under the direction of the Joint Committee on Printing.

(b) ADDITIONAL COPIES.—In addition to the usual number, there shall be printed the lesser of—

(1) 551,000 copies of the document, of which 441,000 copies shall be for the use of the House of Representatives, 100,000 copies shall be for the use of the Senate, and 10,000 copies shall be for the use of the Joint Committee on Printing; or

(2) such number of copies of the document as does not exceed a total production and printing cost of \$218,379, with distribution to be allocated in the same proportion as described in paragraph (1), except that in no case shall the number of copies be less than 1 per Member of Congress.

The concurrent resolution was concurred in.

A motion to reconsider was laid on the table.

JUDICIAL SURVIVORS PROTECTION ACT OF 2009

Mr. JOHNSON of Georgia. Mr. Speaker, I ask unanimous consent that the Committee on the Judiciary be discharged from further consideration of the bill (S. 1107) to amend title 28, United States Code, to provide for a limited 6-month period for Federal judges to opt into the Judicial Survivors' Annuities System and begin contributing toward an annuity for their spouse and dependent children upon their death, and for other purposes, and ask for its immediate consideration in the House.

The Clerk read the title of the bill.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Georgia?

There was no objection.

The text of the bill is as follows:

S. 1107

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the "Judicial Survivors Protection Act of 2009".

SEC. 2. DEFINITIONS.

In this Act:

(1) The term "judicial official" refers to incumbent officials defined under section 376(a) of title 28, United States Code.

(2) The term "Judicial Survivors' Annuities Fund" means the fund established under section 3 of the Judicial Survivors' Annuities Reform Act (28 U.S.C. 376 note; Public Law 94-554; 90 Stat. 2611).

(3) The term "Judicial Survivors' Annuities System" means the program established under section 376 of title 28, United States Code.

SEC. 3. PERSONS NOT CURRENTLY PARTICIPATING IN THE JUDICIAL SURVIVORS' ANNUITIES SYSTEM.

(a) ELECTION OF JUDICIAL SURVIVORS' ANNUITIES SYSTEM COVERAGE.—An eligible judicial official may elect to participate in the Judicial Survivors' Annuities System during the open enrollment period specified in subsection (d).

(b) MANNER OF MAKING ELECTIONS.—An election under this section shall be made in writing, signed by the person making the election, and received by the Director of the Administrative Office of the United States Courts before the end of the open enrollment period.

(c) EFFECTIVE DATE FOR ELECTIONS.—Any such election shall be effective as of the first day of the first calendar month following the month in which the election is received by the Director.

(d) OPEN ENROLLMENT PERIOD DEFINED.—The open enrollment period under this section is the 6-month period beginning 30 days after the date of enactment of this Act.

SEC. 4. JUDICIAL OFFICERS' CONTRIBUTIONS FOR OPEN ENROLLMENT ELECTION.

(a) CONTRIBUTION RATE.—Every active judicial official who files a written notification of his or her intention to participate in the Judicial Survivors' Annuities System during the open enrollment period shall be deemed thereby to consent and agree to having deducted from his or her salary a sum equal to 2.75 percent of that salary or a sum equal to 3.5 percent of his or her retirement salary, except that the deduction from any retirement salary—

(1) of a justice or judge of the United States retired from regular active service under section 371(b) or 372(a) of title 28, United States Code;

(2) of a judge of the United States Court of Federal Claims retired under section 178 of title 28, United States Code; or

(3) of a judicial official on recall under section 155(b), 373(c)(4), 375, or 636(h) of title 28, United States Code,

shall be an amount equal to 2.75 percent of retirement salary.

(b) CONTRIBUTIONS TO BE CREDITED TO JUDICIAL SURVIVORS' ANNUITIES FUND.—Contributions made under subsection (a) shall be credited to the Judicial Survivors' Annuities Fund.

SEC. 5. DEPOSIT FOR PRIOR CREDITABLE SERVICE.

(a) LUMP SUM DEPOSIT.—Any judicial official who files a written notification of his or her intention to participate in the Judicial Survivors' Annuities System during the open enrollment period may make a deposit equaling 2.75 percent of salary, plus 3 percent annual, compounded interest, for the last 18 months of prior service, to receive the credit for prior judicial service required for immediate coverage and protection of the official's survivors. Any such deposit shall be made on or before the closure of the open enrollment period.

(b) DEPOSITS TO BE CREDITED TO JUDICIAL SURVIVORS' ANNUITIES FUND.—Deposits made under subsection (a) shall be credited to the Judicial Survivors' Annuities Fund.

SEC. 6. VOLUNTARY CONTRIBUTIONS TO ENLARGE SURVIVORS' ANNUITY.

Section 376 of title 28, United States Code, is amended by adding at the end the following:

"(y) For each year of Federal judicial service completed, judicial officials who are enrolled in the Judicial Survivors' Annuities System on the date of enactment of the Judicial Survivors Protection Act of 2009 may purchase, in 3-month increments, up to an additional year of service credit, under the terms set forth in this section. In the case of judicial officials who elect to enroll in the Judicial Survivors' Annuities System during the statutory open enrollment period authorized under the Judicial Survivors Protection Act of 2009, for each year of Federal judicial service completed, such an official

may purchase, in 3-month increments, up to an additional year of service credit for each year of Federal judicial service completed, under the terms set forth in section 4(a) of that Act.”.

SEC. 7. EFFECTIVE DATE.

This Act, including the amendment made by section 6, shall take effect on the date of enactment of this Act.

The bill was ordered to be read a third time, was read the third time, and passed, and a motion to reconsider was laid on the table.

JOHN ARTHUR “JACK” JOHNSON POSTHUMOUS PARDON

Mr. JOHNSON of Georgia. Mr. Speaker, I ask unanimous consent that the Committee on the Judiciary be discharged from further consideration of the concurrent resolution (S. Con. Res. 29) expressing the sense of the Congress that John Arthur “Jack” Johnson should receive a posthumous pardon for the racially motivated conviction in 1913 that diminished the athletic, cultural, and historic significance of Jack Johnson and unduly tarnished his reputation, and ask for its immediate consideration in the House.

The Clerk read the title of the concurrent resolution.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Georgia?

Mr. JACKSON of Illinois. Mr. Speaker, I reserve the right to object.

While it is not my intention to object to the bill, I wanted to thank Representative PETER KING for introducing this legislation in the House, and I was honored to join him as a cosponsor of this bill.

Mr. Speaker, Jack was the first African American to win the world heavyweight boxing championship and was a trailblazer. After defeating Tommy Burns and winning the world heavyweight boxing title in 1908, resentment grew as his wins continued and his flamboyant behavior unfairly earned him the disdain of many. In fact, it was his interracial relationships that led to his arrest on charges of violating the Mann Act’s prohibition against “transporting women across State lines for immoral purposes.”

Mr. Speaker, I felt compelled to come back to this floor because one of the chief advocates of this legislation is the late Vernon Forrest who came to this Congress 3 years ago, met with Members of the Congress in the House, met with Senator McCain in the Senate, we had a press conference in the “swamp” to support this posthumous legislation on behalf of the late Jack Jackson. Vernon Forrest in Atlanta was shot this week 8 times in the back, and he will be memorialized, I believe, later this week or sometime this week-end.

I wanted to say on behalf of a grateful Nation and grateful Congress to the

Forrest family how grateful we were for his conscientiousness, for his willingness to fight for something bigger than himself, and for the extraordinary legacy that he has left us all.

I want to thank the Judiciary Committee and Representative PETER KING for their extraordinary leadership in bringing this very timely bill to the Congress. And, as Ken Burns states, Jack Johnson’s story was “about freedom and one black man’s insistence that he be able to live a life nothing short of a free man.”

Mr. Speaker, I withdraw my reservation and urge the immediate passage of S. Con. Res. 29.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Georgia?

There was no objection.

The text of the concurrent resolution is as follows:

S. CON. RES. 29

Whereas John Arthur “Jack” Johnson was a flamboyant, defiant, and controversial figure in the history of the United States who challenged racial biases;

Whereas Jack Johnson was born in Galveston, Texas, in 1878 to parents who were former slaves;

Whereas Jack Johnson became a professional boxer and traveled throughout the United States, fighting White and African-American heavyweights;

Whereas after being denied (on purely racial grounds) the opportunity to fight 2 White champions, in 1908, Jack Johnson was granted an opportunity by an Australian promoter to fight the reigning White titleholder, Tommy Burns;

Whereas Jack Johnson defeated Tommy Burns to become the first African-American to hold the title of Heavyweight Champion of the World;

Whereas the victory by Jack Johnson over Tommy Burns prompted a search for a White boxer who could beat Jack Johnson, a recruitment effort that was dubbed the search for the “great white hope”;

Whereas in 1910, a White former champion named Jim Jeffries left retirement to fight Jack Johnson in Reno, Nevada;

Whereas Jim Jeffries lost to Jack Johnson in what was deemed the “Battle of the Century”;

Whereas the defeat of Jim Jeffries by Jack Johnson led to rioting, aggression against African-Americans, and the racially motivated murder of African-Americans nationwide;

Whereas the relationships of Jack Johnson with White women compounded the resentment felt toward him by many Whites;

Whereas between 1901 and 1910, 754 African-Americans were lynched, some for simply for being “too familiar” with White women;

Whereas in 1910, Congress passed the Act of June 25, 1910 (commonly known as the “White Slave Traffic Act” or the “Mann Act”) (18 U.S.C. 2421 et seq.), which outlawed the transportation of women in interstate or foreign commerce “for the purpose of prostitution or debauchery, or for any other immoral purpose”;

Whereas in October 1912, Jack Johnson became involved with a White woman whose mother disapproved of their relationship and sought action from the Department of Justice, claiming that Jack Johnson had abducted her daughter;

Whereas Jack Johnson was arrested by Federal marshals on October 18, 1912, for transporting the woman across State lines for an “immoral purpose” in violation of the Mann Act;

Whereas the Mann Act charges against Jack Johnson were dropped when the woman refused to cooperate with Federal authorities, and then married Jack Johnson;

Whereas Federal authorities persisted and summoned a White woman named Belle Schreiber, who testified that Jack Johnson had transported her across State lines for the purpose of “prostitution and debauchery”;

Whereas in 1913, Jack Johnson was convicted of violating the Mann Act and sentenced to 1 year and 1 day in Federal prison;

Whereas Jack Johnson fled the United States to Canada and various European and South American countries;

Whereas Jack Johnson lost the Heavyweight Championship title to Jess Willard in Cuba in 1915;

Whereas Jack Johnson returned to the United States in July 1920, surrendered to authorities, and served nearly a year in the Federal penitentiary at Leavenworth, Kansas;

Whereas Jack Johnson subsequently fought in boxing matches, but never regained the Heavyweight Championship title;

Whereas Jack Johnson served his country during World War II by encouraging citizens to buy war bonds and participating in exhibition boxing matches to promote the war bond cause;

Whereas Jack Johnson died in an automobile accident in 1946; and

Whereas in 1954, Jack Johnson was inducted into the Boxing Hall of Fame: Now, therefore, be it

Resolved by the Senate (the House of Representatives concurring), That it is the sense of Congress that Jack Johnson should receive a posthumous pardon—

(1) to expunge a racially motivated abuse of the prosecutorial authority of the Federal Government from the annals of criminal justice in the United States; and

(2) in recognition of the athletic and cultural contributions of Jack Johnson to society.

Mr. KING of New York. Mr. Speaker, today I rise in support of S. Con. Res. 29 (the companion bill to H. Con. Res. 91), a resolution granting a posthumous pardon to John Arthur “Jack” Johnson for his 1913 racially motivated conviction. On April 1, 2009, I introduced my resolution with Congressman JESSE JACKSON, Jr. and I join today with my colleagues in urging the House to support this effort.

Jack Johnson became the first black World Heavyweight Boxing Champion in 1908 after defeating Tommy Burns in Australia and kept the title until 1915. He was a flamboyant and controversial figure in American history who paved the way for African-American athletes to participate and succeed in racially integrated professional sports in the United States.

Prompted by his success in the boxing ring and his relationship with a white woman, Jack Johnson was wronged by a racially motivated conviction under the Mann Act. He was convicted in 1913 after fleeing to Canada, Europe and South America and served one year in prison. Being convicted ruined his career and wrongly destroyed his reputation.

Because of this, we believe the President should grant a posthumous pardon to Jack

Johnson to clear his name and recognize his athletic and cultural contributions to society. I am proud to have sponsored this resolution on his behalf.

Mr. Speaker, I urge all my colleagues to support this resolution.

The concurrent resolution was concurred in.

A motion to reconsider was laid on the table.

EXPRESSING CONDOLENCES TO THE FAMILY AND LOVED ONES OF BORDER PATROL AGENT ROBERT ROSAS

Ms. TITUS. Mr. Speaker, I ask unanimous consent that the Committee on Homeland Security be discharged from further consideration of the resolution (H. Res. 681) expressing condolences to the family and loved ones of Agent Robert Rosas and standing in solidarity with the brave men and women of the United States Border Patrol as they remember the service and sacrifice of Agent Rosas and continue their mission to preserve and defend our borders, and ask for its immediate consideration in the House.

The Clerk read the title of the resolution.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Nevada?

There was no objection.

The text of the resolution is as follows:

H. RES. 681

Whereas since 1919, 108 United States Border Patrol agents have died in the line of duty;

Whereas, on July 23, 2009, on the Shockey Truck Trail near Campo, California, agent Robert Rosas Junior, a member of the United States Border Patrol since May 22, 2006, was killed by gunfire while serving in the line of duty;

Whereas since 2008, more than 50 Border Patrol agents have been targeted by gun fire while hundreds of others have been subject to other forms of attack;

Whereas since 2006, over 10,000 individuals have been killed as a result of ongoing violence on the Southwest border;

Whereas, despite an increased security presence along the Southwest border in recent years, Border Patrol agents are under constant threat of violence and contact with drug, weapons, and human smugglers, drug cartels and other organized crime, and transnational criminals;

Whereas the killing of Agent Rosas represents the ever-present danger associated with the Southwest border, affecting law enforcement and communities in both the United States and Mexico;

Whereas agent Rosas' death serves as an important reminder that we are engaged in a serious effort to secure the Southwest border, led by the approximate 17,000 agents currently stationed along our Nation's 1,969-mile land boundary with Mexico;

Whereas the bravery and devotion to duty demonstrated by agent Rosas has forever earned him a place in the hearts and memory of his fellow Americans and the men and women of the United States Border Patrol who risk their lives daily to protect the safety and security of the United States people;

Whereas agent Rosas, after starting his law enforcement career in 2001 as a reserve officer in El Centro, California, aspired to be a member of the United States Border Patrol;

Whereas agent Rosas was beloved for his desire and dedication to serving others, earning the respect and admiration of his colleagues, but most of all by his devotion to his wife, Rosalie, and their two children; and

Whereas in the face of this loss, the Department of Homeland Security and law enforcement immediately reaffirmed that acts of violence against Border Patrol agents will not stand: Now, therefore, be it

Resolved, That the House of Representatives expresses its condolences to the family and loved ones of Agent Robert Rosas and stands in solidarity with the brave men and women of the United States Border Patrol as they remember the service and sacrifice of Agent Rosas and continue their mission to preserve and defend our borders.

Mr. REYES. Mr. Speaker, it is with deep sadness that I rise today in support of H. Res. 681, a resolution which expresses condolences to the family and loved ones of U.S. Border Patrol Agent Robert Rosas. On July 23, 2009, Agent Rosas was killed by gunfire while protecting our nation's southwest border.

Agent Rosas began his law enforcement career in 2001 as a reserve officer in El Centro, California. His desire to one day become a member of the U.S. Border Patrol was fulfilled on May 22, 2006 when he officially joined the Border Patrol family. Agent Rosas was deeply admired and respected by his colleagues for his generosity and service to others and for his dedication to his family. He fully embraced the Border Patrol's mission of securing our nation's borders, and he served with honor and distinction.

Agent Rosas' death serves as a reminder of the many risks that confront Border Patrol agents each day and why we owe them our sincere gratitude for their bravery, service and sacrifice. Before coming to Congress, I served for 26½ years in the Border Patrol, and I will always remain a part of that special family. I know first-hand the challenges and dangers that the agents face each day, and as a Member of Congress, I remain committed to ensuring that they have the resources and support that they need. My thoughts and prayers are with Agent Rosas' family—his wife Rosalie and his two children, Robert and Kayla Alisa. During this extremely difficult time, it is my hope that the family will find some comfort in knowing that Agent Rosas served his country with distinction and that he will be remembered in the hearts of the American people.

The resolution was agreed to.

A motion to reconsider was laid on the table.

□ 1745

ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore (Mr. TONKO). Pursuant to clause 8 of rule XX, proceedings will resume on motions to suspend the rules previously postponed.

Votes will be taken in the following order:

House Resolution 508, de novo;

H.R. 2093, de novo;

House Resolution 675, de novo;

House Concurrent Resolution 159, de novo.

RECOGNIZING GENERAL AVIATION

The SPEAKER pro tempore. The unfinished business is the question on suspending the rules and agreeing to the resolution, H. Res. 508.

The Clerk read the title of the resolution.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Maryland (Mr. CUMMINGS) that the House suspend the rules and agree to the resolution, H. Res. 508.

The question was taken; and (two-thirds being in the affirmative) the rules were suspended and the resolution was agreed to.

A motion to reconsider was laid on the table.

CLEAN COASTAL ENVIRONMENT AND PUBLIC HEALTH ACT OF 2009

The SPEAKER pro tempore. The unfinished business is the question on suspending the rules and passing the bill, H.R. 2093, as amended.

The Clerk read the title of the bill.

The SPEAKER pro tempore. The question is on the motion offered by the gentlewoman from Texas (Ms. EDDIE BERNICE JOHNSON) that the House suspend the rules and pass the bill, H.R. 2093, as amended.

The question was taken; and (two-thirds being in the affirmative) the rules were suspended and the bill, as amended, was passed.

A motion to reconsider was laid on the table.

CONDEMNING TERRORIST ATTACK IN INDONESIA

The SPEAKER pro tempore. The unfinished business is the question on suspending the rules and agreeing to the resolution, H. Res. 675.

The Clerk read the title of the resolution.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from American Samoa (Mr. FALEOMAVAEGA) that the House suspend the rules and agree to the resolution, H. Res. 675.

The question was taken; and (two-thirds being in the affirmative) the rules were suspended and the resolution was agreed to.

A motion to reconsider was laid on the table.

RECOGNIZING THE FIFTH ANNIVERSARY OF THE U.S. DECLARATION OF GENOCIDE IN DARFUR

The SPEAKER pro tempore. The unfinished business is the question on

suspending the rules and agreeing to the concurrent resolution, H. Con. Res. 159.

The Clerk read the title of the concurrent resolution.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from American Samoa (Mr. FALEOMAVAEGA) that the House suspend the rules and agree to the concurrent resolution, H. Con. Res. 159.

The question was taken; and (two-thirds being in the affirmative) the rules were suspended and the concurrent resolution was agreed to.

A motion to reconsider was laid on the table.

STIMULUS PACKAGE SAVING AND CREATING JOBS IN CINCINNATI

(Mr. DRIEHAUS asked and was given permission to address the House for 1 minute.)

Mr. DRIEHAUS. Mr. Speaker, if you want to see where the stimulus package is saving and creating jobs, come to Cincinnati.

Yesterday, the Department of Justice announced \$17 million in grants for local law enforcement in my district. These grants will help local governments that are struggling to maintain services. But more than that, this funding is going to keep 66 full-time officers on the streets protecting the people of greater Cincinnati.

Some of my friends in this Chamber have said that the stimulus isn't working. Ask the 66 officers who will still have their jobs whether or not the stimulus is working. Ask their families. Ask people in the neighborhoods they are protecting.

Public safety matters, and the stimulus is working to keep our communities safe.

TRIBUTE TO AMBER AIMAR

(Mr. ROE of Tennessee asked and was given permission to address the House for 1 minute.)

Mr. ROE of Tennessee. Mr. Speaker, I rise today to honor a great American who also happens to be a member of my staff.

Mr. Speaker, we all know the vital role our staff members play in our individual offices and in the U.S. Congress as a whole. My scheduler and office manager, Amber Aimar, was instrumental in getting me, a new Member, off the ground and running. I found out firsthand that success of the first few weeks has a huge impact on the months to follow. We succeeded, and it was due in large part to Amber.

Amber has been essential to me, but her contributions have reached far beyond the confines of my office. Numerous times constituents have called with an urgent problem; and, because of Amber, they have found a solution that saved the day.

She began her career working with my colleague and friend, JOE WILSON from South Carolina. Amber was just as instrumental in South Carolina's Second District, and I was very fortunate to get her into the Tennessee delegation.

Amber and her husband, Allen, and their son Alexander are moving to Ohio. This move will begin a new chapter in their lives. We wish them only the best and look forward to their future success.

Mr. Speaker, we will all miss them greatly.

SPECIAL ORDERS

The SPEAKER pro tempore. Under the Speaker's announced policy of January 6, 2009, and under a previous order of the House, the following Members will be recognized for 5 minutes each.

STRUGGLES AND HARDSHIPS FACING KEY WEST, FLORIDA

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from Florida (Ms. ROS-LEHTINEN) is recognized for 5 minutes.

Ms. ROS-LEHTINEN. Mr. Speaker, yesterday, the host of "The Today Show" profiled Key West, a city in my congressional district. It is a city of natural beauty, coupled with a history that is quite unique. And while viewers were able to see the TV host ride rickshaws and tour many sites, such as Ernest Hemingway's home, and I am glad they featured my good friend from Key West, Tom Oosterhoudt, there is another side of Key West off of Duval Street that warrants attention.

While Key West is a great place to get a slice of key lime pie, it is also a city with high unemployment, high insurance rates, and one of the largest homeless populations for its size. According to recent numbers, the Florida Keys has over 1,000 individuals who are homeless. The reality is that off of Duval Street, there are struggling individuals and struggling families.

Thankfully, there are several noteworthy organizations which serve the Keys community with a selfless dedication to those at-risk individuals. One example is Samuel's House. This is a beacon of hope for those who need help.

Founded in 1985, Samuel's House provides a nurturing environment for homeless women and women with children. It also affords them resources that are beneficial to their physical, mental, emotional and spiritual well-being.

I had the privilege to meet with several staffers from Samuel's House this week here in D.C., and I heard the firsthand account from a mother whose daughter was saved due to the assistance and care provided to her by Samuel's House.

Samuel's House also runs Kathy's Hope, another Key West facility, which

provides permanent housing for women who are chronically homeless and in recovery from alcohol and drug addiction. It is a safe haven where women can go through recovery while also remaining self-sufficient and pursuing their life goals to better themselves.

Key West is also blessed to have the Southernmost Homeless Assistance League, SHAL. Under the direction of Reverend Steven Braddock, SHAL is a community coalition dedicated to the special needs of people who are homeless or at risk of homelessness.

SHAL provides grants to shelters and organizations like Samuel's House so that they can continue their good work for all of us in the community. SHAL also provides housing assistance, medical assistance, substance abuse programs, and job training resources to at-risk individuals and their families.

I am grateful for the dedication and caring exhibited by their staff, and they deserve our recognition.

Another problem unique to the Florida Keys is one of housing. We have a problem with nonconforming downstairs enclosures. Through years of mismanagement and lax oversight by Monroe County and FEMA, many Keys homeowners built what they considered legal downstairs enclosures.

Residents with nonconforming disclosures are denied the ability to acquire flood insurance. In an area with a long history of hurricanes and other severe weather events, this is intolerable. Florida Keys homeowners are required to bear the price of mistakes made by the county and FEMA for structures that were issued permits and were legally constructed.

□ 1800

This is a community which cannot afford the expense of renovating existing structures while they struggle to make ends meet week in and week out. While homeowners continue to struggle with onerous regulations, the issue of water quality is also a major concern for Key West and the entire Keys. The Florida Keys serve as the entry point to Everglades National Park. It's surrounded by the National Marine Sanctuary as well as one of the largest and most vibrant coral reef systems in the world. This is an area of national treasure; and as such, ensuring the cleanliness of the waters surrounding these important ecosystems should be a national concern. Since being elected to represent the Florida Keys in 2002, I have fought hard to bring Federal funding from Washington to the Florida Keys for its wastewater project. To date, the area has received more than \$35 million in congressionally appropriated dollars. I am pleased to note that construction has already started throughout the Florida Keys. And yes, while more Federal funding is needed, I am thankful for the commitment made by Florida Keys residents and the

elected officials to utilize existing Federal funds in the near term. The Florida Keys is an area of great beauty, but we must be aware that even in paradise, people go through struggles and through hard times. These hardships take many faces: an individual on the brink of homelessness, a homeowner who is unable to obtain flood insurance due to a downstairs enclosure, or a community worrying about the cleanliness of their water supply. These are some of the daily trials and tribulations that Keys residents sometimes face off of Duval Street.

Thank you, Mr. Speaker, for the time.

DENOUNCING THE ATTACK ON CAMP ASHRAF

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from Florida (Mr. DIAZ-BALART) is recognized for 5 minutes.

Mr. LINCOLN DIAZ-BALART of Florida. Mr. Speaker, I rise to condemn the brutal attack on the residents of Camp Ashraf, Iranian exiles, by the Iraqi police forces. Yesterday I learned that Iraqi police forces are beating unarmed Camp Ashraf residents and that they have been brutally assaulting them. I have been informed that this attack has resulted in at least eight deaths and over 400 injuries. This beating of unarmed men and women is despicable, and my understanding is that the unjustifiable attack is still underway.

These Iranian exiles are unarmed today because they voluntarily surrendered their weapons to United States forces in exchange for a U.S. guarantee of their security in 2003. They are protected persons under Article 27 of the Fourth Geneva Convention. The attack on these unarmed persons violates not only international law but also basic human rights. The European Parliament, Amnesty International and other international organizations have expressed deep concern about the safety of these Iranian exiles. Furthermore, when United States forces withdrew from Camp Ashraf, the United States and Iraq signed an agreement that the Iraqi Government would guarantee their safety. The Iraqi Government is not keeping its promise, and it is not upholding its obligations under international law.

The Iranian dictatorship's fingerprints are all over this attack. The residents of Camp Ashraf are enemies of the Iranian regime. Camp Ashraf residents have been a vital source of intelligence information on the Iranian regime's nuclear, chemical and biological weapons programs and other important intelligence information. As a result, the Iranian regime, under the direction of the tyrannical so-called Supreme Leader, is putting immense pressure on the Iraq Government to

hand over the Iranian exiles in Camp Ashraf. In a meeting on February 28 of this year, the Supreme Leader urged the Iraqi president to expel the Iranian exiles at Camp Ashraf immediately.

This incursion by Iraqi forces appears to be an ugly attempt by the Iraqi Government to appease the Iranian regime. They may even return these exiles to Iran. That would be a condemnable and cowardly act. In a public statement on August 28, 2008, Amnesty International expressed profound concern that those Iranian exiles would suffer torture and even death if they were forced to return. And as we've seen since the sham election on June 12 of this year, the Iranian dictatorship's deep hatred of those who oppose its cruelty and repression would mean almost certain death for the Iranian exiles and their families if they are repatriated to Iran. We must do everything in our power to prevent such an atrocity from taking place.

Already, the Congressional Iran Human Rights and Democracy Caucus, the chairman and ranking member of the House Committee on Foreign Affairs, the European Parliament's Friends of a Free Iran, the European Parliament's International Committee in Search of Justice and others have expressed deep concern over the treatment of Camp Ashraf residents at the hands of the Iraqi Government. Today Iranian Americans from around the United States have begun a hunger strike at the White House to demand that these attacks be stopped, that abducted Camp Ashraf residents be returned and that international groups such as the United Nations and the Red Cross who want to be able to get into Camp Ashraf be permitted to do so.

I call on President Obama to demand that the Iraqi Government immediately put an end to this attack. We must not stand by and allow physical aggression against unarmed Iranians in exile. We must stand with the Iranian pro-democracy activists, both in exile and inside Iran, who work for the day when the people of Iran can live free, free from fear and free from oppression. We must ensure that the protection that the Iranian exiles were promised by the United States is given to them and that this aggression cease.

DO NOT CUT THE PRODUCTION OF F-22 AIRCRAFT SHORT

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from Utah (Mr. BISHOP) is recognized for 5 minutes.

Mr. BISHOP of Utah. The Obama administration and Secretary Gates have gone to great lengths to say that they want to stop the production of the F-22 for the Air Force. I have made a mistake. I have to admit, I have been reading some of the blogs on the comment board, and I am amazed at some of the

shallow analysis of this particular decision. So since tomorrow we are going to be debating and discussing the Defense appropriations bill, I would like to take just a few moments today and simply talk about this issue, the F-22 and the Air Force, along four areas. One is the military necessity for this plane; two and three are the ways we keep our air superiority, both by technology and the number of planes we have; and then finally, the priorities and what it says about this particular Nation.

Two years ago the military was unanimous when they came before our committees and said that we need 381 F-22s and that 250 put us at a moderate risk. Now today Secretary Gates will tell us we only need 187, not the 381 planes. One has to ask, what has changed? Has the threat this Nation faces changed? Or is it simply the political climate that may have changed? In the last 15 years, there have been 30 independent separate studies, all of which say the same thing: 243 is the minimum number of F-22s we need; and at that, our air superiority faces a moderate risk. Air Combat Command General Corley has written a letter saying he needs at least 243 planes, F-22s, and that his command was not consulted when the decision to cap at 187 was actually made. The Air National Guard General Wyatt has also written a letter to our colleagues in the Senate, saying he needs at least 243 to 250 F-22s. General Schwartz, Chief of the Air Force, has already publicly stated that 243 is the minimum we need; and when asked in front of our committee, Is 187, that particular number, a military decision of what we need or is it the political decision of what we can afford?, he simply said, It is what we think we can afford.

The bottom line is that nowhere has there been any study conducted to say that 187 is the correct number. In fact, that number has been contradicted. General Corley of Air Combat Command clearly said that with 187, the Air Combat Command could not fulfill its air force function. Is this a military decision? Does the military still want the F-22? And the answer is clearly, yes. Secretary Gates does not want the F-22. The 187 F-22s is a political, not a military, number; and the House, who has already voted to maintain the higher number should not back off in relationship to what the Senate has particularly done.

Let me go also to this concept of air superiority. The United States has had air superiority since the Korean War, and there are two aspects of that: technology as well as the numbers that we have. I hate to say this, but before I came to Congress, there were air games that the United States engaged in with the Air Force of India. We used F-15s. We didn't use everything at our disposal; but the only reason we won

those air games is because of the ability of our pilots, not because we have the technology to do it. The technology level of the United States, as good as the 15 and the 16 airplanes are—which are 30 years old—is that we still have the same technology advantage as a third-world Air Force. The F-22 moves us forward in that technology debate. However, just having the technology doesn't work if you don't have the numbers. The Russians are already building their fifth generation, and they are scheduled to build about 600 of their next-generation fighters. They will only keep about 350 for themselves. You have to ask the logical question, What will they do with the others? They will sell them. And where will they go? The bidders right now are countries like Venezuela and Iran, countries that are not necessarily friends of ours, but countries that could become a problem with this new generation of fighter that they buy from the Russians.

We have been told that the F-35 is enough for what we need. However, the F-35 is not a replacement for the F-22. And the problem is, we won't even get an F-35 under the best of circumstances before the year 2014, and there is some indication that it may be the year 2016 before that takes place. We are in a situation where this administration clearly puts \$5 billion in programs like ACORN but doesn't want to put \$2 billion to continue the production of the F-22, vital to the defense of this particular country.

Is this plane expensive? Yes. Is this plane militarily required? Yes. Is it useless? No. Is it a Cold War element? Well, actually, almost everything we have is a Cold War element. We just simply try to improve them as time goes on. What we are dealing with now, Mr. Speaker, is simply the concept that we are dealing with what we need in the next 15 to 20 years. And in that particular situation, the F-22 is what we need for the future defense of this country.

REPORT ON RESOLUTION PROVIDING FOR CONSIDERATION OF H.R. 2749, FOOD SAFETY ENHANCEMENT ACT OF 2009

Mr. HASTINGS of Florida, from the Committee on Rules, submitted a privileged report (Rept. No. 111-235) on the resolution (H. Res. 691) providing for consideration of the bill (H.R. 2749) to amend the Federal Food, Drug, and Cosmetic Act to improve the safety of food in the global market, and for other purposes, which was referred to the House Calendar and ordered to be printed.

RECOGNIZING THE ANNIVERSARY OF THE ENACTMENT OF MEDICAID AND MEDICARE

The SPEAKER pro tempore (Mr. SCHAUER). Under a previous order of the House, the gentleman from Illinois (Mr. DAVIS) is recognized for 5 minutes.

Mr. DAVIS of Illinois. Mr. Speaker, as we continue with the debate surrounding health reform, I wish to take a moment to recognize the anniversary of the enactment of Medicare and Medicaid into law. Since July 30, 1965, when Lyndon Johnson signed the bill creating these fundamental health initiatives, these two programs have evolved together to reliably meet the demands of aging and medically vulnerable Americans who may not have had access to medical attention otherwise. Medicare and Medicaid currently provide a lifeline to over 100 million Americans. In my district, I can attest that Medicare and Medicaid serve as an indispensable safety net for many constituents. The Seventh Congressional District of Illinois includes some of the most medically underserved communities in America. Census data show that 24 percent of families and 44 percent of children under 18 live below the poverty line. In fact, some communities on Chicago's west side experience infant mortality rates comparable with third-world countries. In the State of Illinois, 14 percent of all residents are enrolled in Medicare and 19 percent in Medicaid. Clearly these government health programs provide vital health care coverage to Illinoisians when almost one-fifth of the State is covered by Medicaid and one-sixth by Medicare. Indeed, Illinois' mothers and children are the biggest beneficiaries of Medicaid. This Federal program finances 40 percent of total births in Illinois and helps ensure that over 1 million children in Illinois receive access to affordable health care. It is this commitment to our citizens that drives Congress to work actively for comprehensive health reform. We must provide a public option within that reform. Further, we must continue to support and expand community health centers as outstanding deliverers of primary care. These providers are proven to reap solid benefits to our patients, communities, and State and local governments in terms of efficiency. For example, Medicaid beneficiaries relying on health centers for usual care were 19 percent less likely to use the emergency department than Medicaid beneficiaries using outpatient and office-based physicians for usual care. Overall, health centers save the health care system between \$9.9 billion and \$17.6 billion annually, a figure that will grow.

I acknowledge the tremendous step that Lyndon B. Johnson took 44 years ago when he signed the Medicare and Medicaid bills into law as titles XVIII and XIX of the Social Security Act. We

must continue to make use of these programs because they have served us well and will continue to do so.

□ 1815

HONORING OUR BORDER PATROL AGENTS

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from California (Mr. BILBRAY) is recognized for 5 minutes.

Mr. BILBRAY. Mr. Speaker, on the 23rd of this month, Rosalie Rosas watched her husband go off to work. She stayed at home with Robert, her son, 2, and Alesa, an 11-month-old baby, thinking that the next morning her husband, Agent Rosas, would be back at home with the family. Sadly, that wasn't to be.

Agent Rosas was in the Campo area of southern California serving a nation that he looked forward to serving for so long; a young man who had grown up in the Imperial Valley area, had served as a reservist, always looked forward to being a Border Patrol agent. While alone, he detected individuals crossing the border. Somewhere in the process of confronting the illegals crossing the border, Agent Rosas was murdered by those illegals.

Mr. Speaker, Agent Rosas' situation, and more importantly, the situation of Rosalie and the two children, is something that all Americans should remember, that there are Americans every day that are not only defending this country far, far away, but there are agents every day and every night that stand on the border, stand in ports of entry or throughout this country, standing up and defending this country from incursions from across the border and from foreign lands.

Agent Rosas died in the service of this country, was murdered in the service of this country, and Rosalie and the two kids will never be the same, and neither should this country.

Mr. Speaker, there are Border Patrol agents today that are in the sweltering heat of Yuma, Arizona, across the Texas frontier, that confront smugglers every day from New Mexico to San Diego. And they do not know which one of the individuals they are confronting, if it's just an innocent illegal who happens to not realize that you can't come into this country illegally anymore, somebody that may not mean harm but is being brought in by vicious, terrible smugglers who not only smuggle illegals, but smuggle drugs. That agent doesn't know if the person they're confronting is going to surrender or draw a firearm and kill him immediately.

Agent Rosas was shot in the head and killed. But he was able to wound one of his assailants, and the assailant later was detected as far up as northern California, and he was arrested there. With

the cooperation of Mexican officials, we were able to apprehend individuals in Mexico.

But I think that more important than talking about the crime that was committed at our border—something that I think all Americans should have known was coming when we've seen the violence that has occurred on the other side of the border for far too long—Americans should have known this violence was going to cross over, while we continued to turn a blind eye to the illegal activity along our border, because it just wasn't politically proper to raise the issue that crime and violence is occurring along our frontier.

No, the thing that I would like to remember tonight is that Agent Rosas is just one of many that are out there in the terrible heat of the summer, the terrible cold of the winter, through rain and sleet and snow and whatever it takes to do their duty, and doing it in a nation that tends not to recognize their true service.

Mr. Speaker, we use the word "hero" a lot of times in this country and, sadly, we use it too often instead of using the word victim. But there is a big difference, Mr. Speaker, between a victim and a hero. A victim is someone who is at the wrong place at the wrong time and suffers for it. But a hero is someone who willfully puts themselves in harm's way at the wrong time and suffers for it. And I do not think we should, as a society, ever forget the difference between a victim and a hero.

Agent Rosas is a true hero, somebody who served this country. And we should all remember, as his services are held this week, that his services are in recognition of not only his sacrifice and his family's sacrifice, but of the sacrifice of men and women around this country that defend us along our borders.

I think it goes without saying that all of us in Congress want to send out our heartfelt sympathies to Rosalie and Rob and Alesia for their great loss and their great contribution by losing their father. I hope we all remember that there are fathers and mothers around this country that we ought to appreciate while they're alive and not just honor them when we lose them.

HEALTH CARE

The SPEAKER pro tempore. Under the Speaker's announced policy of January 6, 2009, the gentleman from Missouri (Mr. AKIN) is recognized for 60 minutes as the designee of the minority leader.

Mr. AKIN. Mr. Speaker, I appreciate your recognizing us on a very interesting and important topic, something that I believe that anybody who pays much attention to what is happening in Washington, D.C., is quite aware of. That is the subject of health care, something that impacts every single

American in our country, affects our budget, and affects our family members, and is something of great interest.

I would like to start tonight by just backing up, though, about 4 weeks or so to this very Chamber that we are meeting in, that we are talking in today. It was here, during a day that we were debating a bill that was called cap-and-tax, and it was the largest tax increase in the history of our country.

Now, what happened right before that was of interest because at 3 o'clock in the morning a 300-page amendment was passed to an 1,100-page bill. And as we were debating this bill on the floor, because of the speed with which the Democrats moved we didn't even have a copy of the bill on the floor. You are supposed to have a copy at least so in case somebody wants to check a fine point, they could read it.

Of course no one had read the 1,100-page bill. And certainly what was happening right behind me at the dais, we had good staff people hurriedly trying to put those 300 pages of amendments in the 1,100-page bill, and we are debating a bill and there's no copy on the floor. And the thing was passed without, as I recall it, a single Republican voting for it, and Democrats all voted for it.

Now, the public doesn't like it when we pass bills that we don't know what's in them or haven't read them, and we've been embarrassed a number of times this year by that same process. Why do you pass a bill that people haven't had a chance to read or don't know what happened in the dark of night, or the amendments?

Mr. HOEKSTRA. If the gentleman will yield?

Mr. AKIN. I do yield to my very good friend from Michigan. Please jump in.

Mr. HOEKSTRA. I thank my colleague for yielding. But I think the issue that we see in front, that you've highlighted with the cap-and-trade bill, actually begins much earlier in the new Congress and the new administration. It was only the second day of the new administration when the President indicated that we are going to close Gitmo, we are going to close Guantanamo. He announced a whole series of task forces that were going to evaluate and present a plan as to how this was going to happen.

The first thing is, you don't set a deadline without a plan. And the President is now finding out that perhaps he got out in front of himself because a couple of the task forces were supposed to report within the last couple of weeks, and they've missed their deadlines. And the reason they've missed their deadlines is that they started looking at closing Guantanamo—an objective that President Bush had before him—it's like, whoa, this is more difficult than what we thought, and we may not be able to do it. So we had an

objective without a plan. And I'm not sure what's going to happen here, but we may get to the same point where we get to January of 2010, and we won't be able to accomplish it.

Then you go again, before cap-and-trade, \$787 billion in a stimulus plan that was rushed through the House, rushed through the Senate, made its way to the President's desk, and he signed it. And here we are now, what, 4 months—

Mr. AKIN. And just reclaiming my time for a minute, that was the stimulus plan, as I recall—was that the one that had the special bonuses for insurance executives and it was a finger-pointing deal as to who put this in in the dark of night?

Mr. HOEKSTRA. It is. And we're trying to find out exactly who put it in. But it was \$787 billion, and I think the promise was something like, this is going to ensure that the unemployment rate will not exceed 8 or 8.5 percent on a national basis. We are now at 9.5 percent; in Michigan we're at 15.2 percent. The money is going out a lot slower than what people anticipated. It's going to a lot of questionable projects that we are now starting to find out where this money is going. It's \$787 billion on the backs of our kids and our grandkids. We now, last month—

Mr. AKIN. This is exactly the same bill, just to put this in perspective, this is a bill that if we didn't pass it, we might see unemployment at 8 percent, right? Is that the same bill?

Mr. HOEKSTRA. That's right. It's the same bill.

Mr. AKIN. Now unemployment is whatever it is, 9 something.

Mr. HOEKSTRA. 9.5 percent. And I believe next week we will see a new number, and it will probably be somewhat higher.

But we've seen higher unemployment numbers than what was promised under this bill. We see people questioning whether the bill is working or not. It's being spent out slower than what people expected it to be spent out. And last month, at the end of June, think about it, we have, for the first time, exceeded \$1 trillion for a deficit for 1 year.

And then we hurry through and we do cap-and-trade, which, again, you can argue about the bill, but it was passed. And it wasn't passed in the middle of the night—although 350 pages of it were inserted in the middle of the night. And now we are in this mad rush to pass health care. And every day we're hearing about there is going to be this new markup or that new markup. And this affects 16 to 18 percent of the U.S. economy, and it is going to be done without a full hearing.

Mr. AKIN. Just reclaiming my time, what you're saying is pretty incredible. What you're saying is a bill that we've been working on for some number of

weeks that is going to put the government in charge of all of health care in America, basically the government is going to be taking over, what is it, just under 20 percent of the U.S. economy—

Mr. SCALISE. Would the gentleman yield?

Mr. AKIN. I do yield to my friend from Louisiana.

Mr. SCALISE. And I appreciate my friend from Missouri yielding.

Of course when President Obama brought that stimulus bill and he said that this would stave off the unemployment rate that was approaching 8 percent—of course now at 9.5, approaching 10 percent—added \$800 billion to our national debt, a real offshoot of that stimulus bill since the President passed his stimulus bill, 2 million more Americans have lost their jobs. And so we see more people unemployed, in large part because of this big-government approach like the stimulus bill, then that cap-and-trade energy tax that they brought, and now we see this health care bill.

I'm on the Energy and Commerce Committee. We were supposed to have another meeting tonight to take up amendments to this proposal by President Obama and Speaker PELOSI to have a government takeover of health care—a devastating approach to really addressing the problems that we can address in a very specific way instead of this government takeover. But now they're short on votes, and they're definitely having problems getting the votes, which is, I think, in large part because Americans across the country have started to see some of the details of this bill, and they realize how bad of an approach it is.

Just the other day when they canceled the vote on the House floor that was supposed to occur this week, you saw the stock market actually take off. So American families out there who have retirement accounts and pension funds actually saw an increase, not because of the policies of this administration working, but because Americans finally saw that some of this Big Government approach, this government takeover of health care, actually is in trouble, and that's what really got the economy back going again. So I think you can see their approach is actually hurting the economy instead of helping the economy.

And so I yield back to my friend from Missouri.

Mr. AKIN. Reclaiming my time, in summary, then, we've just been taking a look at the last 6 months—and it has been a scary 6 months—but we've seen a pattern. We've seen a pattern of rushing to spend a tremendous amount of money, or rushing to tax the taxpayers a whole lot, without letting people be aware of what's in the bills. And we've had a pattern of a lot of fiscal mistakes.

□ 1830

We have a pattern of an unprecedented level of spending and taxation. But there is also the pattern of doing it in the dark of night, and that's what I wanted to get to on this health care thing.

What I would like to do is let's talk a little bit about whom do you want to keep in the dark on this? Who would naturally be opposed to a government takeover of health care? That's where I would like to go, because I think a lot of people are interested. Well, hey, if I were a congressman or how would I want my congressman to vote or what's my position on this? Well, there are a lot of groups of people that are going to be affected very seriously by this government takeover of health care, and I think that's what we need to talk about.

I yield to my good friend from Michigan.

Mr. HOEKSTRA. I would put forth the premise that maybe we should just set health care aside for a period of time and take a look at this \$800 billion that we have put on the backs of our kids. I mean, if we have committed to spending \$800 billion to stimulate the economy and it's not working—

Mr. AKIN. Unemployment is still going up.

Mr. HOEKSTRA. Unemployment is still going up. Maybe Congress ought to stay in session, and rather than taking a look at another massive program that we're not sure whether it's going to work or not—I am not saying health care reform is not important. It's essential. It's vital that we do it, but—

Mr. AKIN. How you do it is important.

Mr. HOEKSTRA. How we do it is important. But let's step back. Maybe Congress ought to stay in session for the month of August, and rather than doing another half-baked idea, let's take a look at this stimulus program worth another \$800 billion—

Mr. AKIN. Fix the other four or five half-baked ideas we've already started.

Mr. HOEKSTRA. And finish the half-baked ideas that we have started.

Too often we think here in Washington that if we pass the bill, we have solved the problem. In the business community, if you get the agreement from the board of directors and say, okay, PETE, you've got the approval to move ahead with this new product launch. We are going to invest \$2 million to build this product to do the marketing campaign, and you just kind of walk away from it and say, well, I guess I have that one done. No. What the board of directors would ask you is, by the way, we are investing \$3 million, \$4 million, \$5 million on this. We want an update every quarter. As a matter of fact—

Mr. AKIN. So we passed the stimulus bill. The purpose is to make sure that we don't have unemployment and that

we've got plenty of jobs. And here we are, whatever it is 4, 5 months later, and the board of directors, which is the public, is saying we're at 9 percent unemployment, which is a conservative number, and rising, and you guys just spent whatever it was, almost \$800 billion, to make sure this doesn't happen.

Mr. HOEKSTRA. You spent \$800 billion of our money, the public's money, to deliver a result of 8 percent unemployment or less. You're clearly missing the targets. Maybe you ought to go back and reevaluate, and reevaluate the \$800 billion rather than talking about a second stimulus package which is going to spend even more money.

Mr. AKIN. The funny thing is that these are not Republican targets. These are not our targets. This is the President's target. He's saying 8 percent if you don't give me the stimulus. He gets the stimulus bill and now it's 9.

I yield to my friend from Louisiana.

Mr. SCALISE. Back in Louisiana there's something called the "rule of holes." And what the rule of holes says is if you find yourself in a hole, the first thing you do is you stop digging. And here they are. They brought this bill, the stimulus bill, \$800 billion of debt for our children and grandchildren that's actually led to increased unemployment. Clearly their approach didn't work, as many of us predicted it wouldn't. You would think the first thing they would do is say, okay, yes, that was something that they did wrong. Maybe we should go look at some of these Republicans who put alternative ideas on the table and suggested and maybe we'll look at their ideas. And instead they talk about spending even more money. In fact, the Vice President just 2 weeks ago said that they need to keep spending even more money to keep from going bankrupt, as if anybody can make any sense out of that. But then they filed this bill to propose a government takeover of our health care system.

And I want to show you right here, this is a depiction of the actual organizational chart of their proposal.

Mr. AKIN. That actually looks like a structure that will—

Mr. SCALISE. If you look at this, I think—and, clearly, we have reforms that we need to make in our health care system. Commonsense ideas like allowing portability so if somebody leaves a job, they can take their health care with them, or removing the discrimination against preexisting conditions. I don't think it's fair that if somebody gets cancer that they can literally be discriminated against in their health plan. We addressed that in our proposals. Unfortunately, what they proposed is this new system where they have dozens of new bureaucracies.

Mr. AKIN. I hate to interrupt, but I've got this chart up here and you've got that chart up there, and the two charts aren't the same. Even though I

don't like reading complicated charts, it's obvious to me there's a red box on your chart that isn't on my chart. This is my understanding of the Democrat proposal for health care, to take over 20 percent of the economy. And this is very much of a simplified chart of what is being proposed. When the government takes something over, they have got an awful lot of different things to connect. And yet your chart has got this big red box on it. I would like you to explain where that thing came from.

Mr. SCALISE. I think the gentleman from Missouri makes a very important point. We put this chart together based on their bill, the bill that President Obama, Speaker PELOSI, and many of the other liberals who are running Congress put this bill together, proposed a government takeover of health care. They create all these new dozens of bureaucracies.

I think the most important relationship in health care is that relationship between the patient and the doctor. And look at what their bill does to create dozens of new Federal bureaucratic agencies that come in between the doctor and the patient.

So when we put this chart together to actually show what their bill does, the Speaker censored this document, literally said we can't send this out to the public.

Now, I'm holding this up because I have the ability because we're here on the floor, but I, by the rule of the Speaker, can't even send this to my constituents back home. People want to know what their bill does, and they're trying to censor that information from being shown to the public. But the public is figuring it out anyway, and they see dozens of new bureaucrats. A health care czar that can ration care.

Mr. AKIN. Reclaiming my time, what you're saying goes to a little bit more even than the health care debate. We are talking about the right to free speech. What you just said, as a Member of the U.S. Congress from the State of Louisiana, if you'd like to communicate to your constituents a flowchart of the bill that the Democrats proposed, they will not allow you to do that, and if you were to send that to them, they would make you pay for the thing personally. Is that what you're saying?

Mr. SCALISE. That's exactly what I'm saying. I represent about 650,000 people in Southeast Louisiana, people who are starting to look at the details of this bill, and they don't like what they see because what they see is government bureaucrats in Washington telling them which doctor they can see or even if they can get a medical procedure and the ability by this new health care czar that you can't even see because it's censored by the Speaker to ration care—

Mr. AKIN. Reclaiming my time, you're getting at the very heart of

what I want to talk about today, and that is there's a reason to censor something, because you don't want somebody to know something. There is somebody who is not going to like this bill, and you just told us one of the groups.

Mr. HOEKSTRA. Will the gentleman yield?

Mr. AKIN. I would like to yield to my friend, who is actually the top guy in the Intelligence Committee. We need to pay attention to him, my good friend Congressman HOEKSTRA.

Mr. HOEKSTRA. I think one of the things that we need to be a little careful about, we keep talking about "the bill." And being a member of the Energy and Commerce Committee, you know very well that the bill that you have today may be very different than the bill you will see tomorrow if you mark it up because there are all these negotiations going on behind closed doors, very limited groups, that by the time you start working on this bill tomorrow, it may be a very, very different bill than what you think it is today.

So not only is it this bureaucracy, but it is something that is very much in flux, out of the public eye, and you may have to vote on that bill coming out of committee, which is going to be probably very different than what you're looking at right now, by what, maybe Friday?

Mr. SCALISE. I sit on the committee, and yet I'm not even privy to these discussions, these secretive backroom discussions that are going on. This is coming from the administration that said they would be the most transparent in history.

In fact, on this health care bill just 2 weeks ago, we had a hearing with the head of the Congressional Budget Office talking about the cost of the bill. This is a bill in its current form that adds over 240 billion more dollars to our national debt, and we're concerned about the cost. We had the head of the Congressional Budget Office come to our committee to talk about the cost.

Mr. AKIN. I need to reclaim my time again. You're going awfully fast for us.

The first thing you said was if you don't like government bureaucracy and you don't want a government bureaucrat between you and your doctor, then you probably don't like this flowchart. You want something a little simpler where it's you and your doctor making the health care decisions.

You also said if you're worried about fiscal responsibility, you're not going to like this bill, too. That's another group, because you're worried about the government spending. This thing here, even when they try to use every gimmick in the book, it's over a trillion dollars more spending. So if you're worried about that, you don't like it.

I would like to recognize my friend from California. You've been dealing

with this chart, and if you could share it, because you've gotten into the details.

What are we trying to hide here?

Mr. DANIEL E. LUNGREN of California. I don't know.

I appreciate the gentleman's using my chart up here because we have tried to work this out with the majority. In the past on the Franking Commission, we have attempted to allow Members to be involved in vigorous and full debate but not put out what would be considered campaign material. And all of a sudden, the goalposts have been moved on us.

Now, this may not be of interest to the average citizen except for this fact: What we have presented is what we believe to be a reasonable interpretation of the bill as we know it now.

Now, I do know that there was mentioned just a moment ago by the gentleman from Michigan, before he left, that we're talking about "the bill," and that can be a bit of a moving target. In fact, I just left my office and there was a group of reporters hanging around outside my office, not for me, but for a meeting, they said, of the Progressive Democrats. They used to be called liberals. They are now Progressives, who are concerned about what the Blue Dogs are asking for on the Democratic side, and so maybe there will be some changes from what we've seen.

But this is an accurate portrayal from our standpoint of the bureaucratic morass that will result from the grand outlines of the bill as articulated by the President and as presented by the Democratic leadership in the House of Representatives.

And so they objected to this diagram and basically censored it, as we said, because, first of all, they said we called it the House Democrat plan. First of all, they said it wasn't true, and now we have shown that it is a reasonable interpretation of the facts. Secondly, they said there wasn't enough attribution there, and we suggested that it very clearly states that this is developed by the Republicans. Then they said, well, wait a second. You say it's the Democratic health plan but not all Democrats support the health plan. So if they would give us the list of those Democrats they have not yet been able to corral to support it, we'd be happy to talk to those individuals.

Mr. AKIN. Reclaiming my time, you've used a couple of terms that I think some people might not be as familiar with. You talked about a thing called the Franking Commission.

Mr. DANIEL E. LUNGREN of California. Yes.

Mr. AKIN. The Franking Commission is a group of Republicans and Democrats that meet together, and when you're going to send a piece of mail to your district or do something using government money to do the printing

and mailing, it's an agreement that what's going to be there is going to be at least reasonably accurate. It's not a political piece and you're not slamming, but you're trying to simply communicate some information.

Mr. DANIEL E. LUNGREN of California. Yes. We've done things in the past by limiting the number of references you can make to yourself. There are only so many times you can mention your name or say "I," and that's so—

Mr. AKIN. Reclaiming my time, the idea is to have kind of a fair standard so people can communicate with their constituents. We think of it as the First Amendment, just speaking to your constituents.

Mr. DANIEL E. LUNGREN of California. Of course, I have only been here 15 years, but in my 15 years, spread over 30, I have not seen this happen before.

Mr. AKIN. Where something was censored.

Mr. DANIEL E. LUNGREN of California. Well, it's censored. And when you compare it with those things that we have approved on the Democratic side, we had the controversy over President Bush's recommendations to try to, as he saw it, save Social Security and make some recommendations for it. They very strongly criticized the President's package in terms that I would disagree with, but we on the Republican side on the Franking Commission did not say you cannot say that because we don't like the way you said it. When they talked about the prescription pharmacy section of Medicare, the new section that came in, we approved of news letters that went out on the Democratic side that criticized the President's plan and said it didn't do what was needed to do for seniors. They called it the Republican majority plan. And yet they object to our calling this the Democratic plan.

You know, I have said when I first came to Congress, there was something raging at that time called the cold war, and it just reminded me of something in the cold war. There is a word we don't see in the lexicon anymore. So I went and looked it up and tried to make sure people understand what it is. It's called "samizdat," s-a-m-i-z-d-a-t. And samizdat is defined as a system in the USSR and countries within its orbit by which government-suppressed literature was clandestinely printed and distributed.

Now, what does that mean? That means those who were known as refusniks at that time, those who were in disfavor, to say the least, with the government were not allowed to publish anything that could be handed out, whether it was charged for or not. So the freedom underground, if you will, went and had their own printing and they would clandestinely put these things out so that they could get their message of free speech.

□ 1845

So my suggestion is that maybe we re-title our particular—and call it American Samizdat. We're the freedom fighters here, trying to express what we believe to be a reasonably intelligent analysis of a bill that's presented to us, which is going to affect 18 percent of the economy of the United States, which is going to, if it is enacted, forever, at least for our lifetimes, cement the relationship you will have with your doctor and the relationship that government will have in that. And our argument has been that that chart precisely shows the interference of the government which will exist between you and your doctor with some 50-plus organizations, agencies, task forces, czars, bodies of different types.

Mr. AKIN. We've been joined, as you note this evening, by my good friend, Congressman BISHOP, and I'd like to recognize him and let you jump in here in just a minute.

Mr. DANIEL E. LUNGREN of California. But he has no charts.

Mr. AKIN. Well, but he maybe has a couple of ideas about your charts, gentleman. I yield.

Mr. BISHOP of Utah. This is one of the few times I am here without charts, and I feel totally naked on the floor. I apologize for that. But I also appreciate the chart that was here and any effort that you can get to maybe publicize that because it speaks to the problem that we have if, indeed, this kind of expansion of the government takes place.

That chart is the reason why the Federal code of our laws cover 35 volumes, one-sixth of which is about the Federal regulations and bureaucracy, but the Federal regulations is a 200-volume document, and why it has grown from John F. Kennedy's time of 15,000 words to 77,000 words; why Kennedy was able to appoint within 2 months about 300 officials that ran the bureaucracy.

For George W. Bush, it took him almost a year because he had to do 3,300 officials appointed, having been subjected to advice and consent from the Senate. We are expanding this thing enormously. And in this particular project, because my committee, unfortunately, spent 20 hours going through the organizational part, most of the questions that our side had of how this plan worked was, we will have to work that out. Somehow, the new commissioner will solve that problem.

Let me just give you one example, and you can play with this one. In this plan is supposedly a position of a new national ombudsman whose job is to meet with individuals to help them work through their health options. However, the law says that this ombudsman must speak in a linguistically appropriate manner. Now, my problem was, what is a linguistically appropriate manner? It's not defined any-

where in the pages that are in that bill. It's someone's poetic idea of being politically correct. But when you don't have definitions, it opens us up to lawsuits galore. And, once again if we, as Congress, don't take the time and the ability to solve these problems and answer these questions, some bureaucrat, in this case the commissioner, is going to be able to make more and more regulations. And that's why the bureaucracy is sometimes called the unelected faceless people in Washington because there is no interface between people and the bureaucracy.

Mr. AKIN. And, gentleman, just reclaiming my time, what you've just said to us is, again, when we take a look at why do you want to keep this thing secret, why would you want to censor it, why would you want to tell us we couldn't send a flow chart out, part of the reason is because when the American public sees things like that there are going to be people who get worried about it. They're going to vote "no," particularly every single one of us that some day is going to get sick and we're going to want a doctor to help us, and I'm not sure that we really want to have somebody going in between in the Government, some part of this organization, second guessing the doctor the way the insurance companies do too much in our own day.

So if you really like your doctor/patient relationship, then this thing is bad news. That's why they're wanting to censor it. Do you believe that's right, gentleman?

Mr. BISHOP of Utah. I believe it's so. But I will tell the gentleman from Missouri that at least when they are interfering with your doctor, they will do it in a linguistically appropriate way.

Mr. AKIN. A linguistically appropriate way.

Mr. BISHOP of Utah. That gives me confidence.

Mr. AKIN. In other words, if you're like I am, an old geezer at 62 years of age, and you need a new hip the way I do, they're going to say, we're putting you out to pasture; take a few pain pills. But they're going to say that in a really nice way, though, at least. So I hope it's linguistically appropriate, but my hip's still going to be sore anyway.

Mr. DANIEL E. LUNGREN of California. Would the gentleman yield for just one moment? I just wanted to make one reference. I talked about the Cold War a minute ago. It also reminds me what Ronald Reagan said when he was negotiating with the Soviet Union and they asked for trust. And his response was trust, but verify. And what we're here to do is to be the verifiers for the American people. We're being asked to trust the bureaucracy to deliver medical care without interference. We're here to verify whether that is or is not true. And to deny us the opportunity to provide, in a very easily understood way, the information

that undergirds this tremendous bureaucratic morass is unworthy of this place.

We ought to be able to debate it vigorously, and the American people ought to expect that we are looking out for them, rather than for some formless bureaucracy that's going to take on dimensions that we can only imagine today.

Mr. AKIN. We've been joined this evening on the floor by a couple of very distinguished Congressmen, a couple of my very good friends, the gentleman from Texas and also the gentleman from Indiana. I'm going to recognize the gentleman from Texas who seems like he's got really something he's got to say. And I'll go right back over to my good friend, Congressman PENCE from Indiana, highly respected on the floor, for your perspective on this.

Mr. GOHMERT. I appreciate the gentleman yielding, because in the discussion about what's linguistically appropriate, and the discussion about how political, supposedly, it is, how politically inappropriate to have a chart that lists all the levels of bureaucracy that the new bill is going to propose and how they think it may be a bit too political to say that it's government-run health care.

Mr. AKIN. Just reclaiming, gentleman, what you just said, I think, is another censored phrase, government-run health care. We're not allowed to say that. And our constituents say, why don't you say something more? And they're telling us if we print "government-run" health care, then we can't, then we have to pay for the mailing out of our own pocket. Isn't that weird?

Mr. GOHMERT. That's what they're saying. But I just went and printed this off Speaker PELOSI's own Web site, and I apparently need help with what's linguistically appropriate. This is on the official Speaker's Web site under the title, "Honest Leadership and Open Government." The first sentence is, the culture of corruption practiced under the Republican-controlled Congress was an affront to the idea of a representative democracy, and its consequences were devastating.

Now, I have a little trouble, and I'm glad I'm here with such bright minds, including our wonderful chairman of our conference. But how is it a little bit too political to use government resources to say the words government-run health care, but it is entirely appropriate for the Speaker of the House to say the culture of corruption practiced under the Republican-controlled Congress was an affront to the idea of representative democracy, and its consequences?

But that's not all. Led by the House Democrats on the other hand, and apparently this is not considered political, this statement, House Democrats have acted to make this Congress the

most honest and open Congress in history. Well, besides being factually wrong, that's—

Mr. AKIN. But you've got to be up at 3:00 in the morning to hear what's going on in committee.

Mr. GOHMERT. Yeah. Let me just read another statement. With honest leadership and open government, America's leaders can, once again, focus on the needs of the American people. So that's as political, it seems to me, as could be.

Mr. AKIN. Reclaiming my time, you're talking about honest leadership and they're saying, as they take a look at this incredible flow chart, they're saying that if you've got a good relationship with your insurance company and your doctor and you like what you have, you can keep what you have. And yet listed in the bill is specific language that says you can't. That doesn't seem to me like they're following what the Web site says.

I'd like to recognize our conference chairman. Maybe you could get us out of this morass, gentleman, because we're a little confused between the politically appropriate language which seems to be okay for Democrats but not for Republicans to call this a Democrat health plan. But I yield to my good friend from Indiana.

Mr. PENCE. First, let me commend the gentleman from Missouri (Mr. AKIN) for his yeoman's work in bringing these important discussions to the floor of the House of Representatives. Judging from YouTube, it appears people in Missouri are pretty interested in the subject of health care reform. And not surprisingly, in the "Show Me State" there seems to be a fair amount of skepticism out there about it. I'd like to speak to this whole business of government takeover, but I won't take more than just a couple of minutes of the gentleman's time.

First, let me say emphatically to anyone that might be looking in, Mr. Speaker, House Republicans support health care reform. We've been calling for health savings accounts to be greatly expanded to small businesses around this country for years. We've been calling for association health plans that would allow people to pool together resources around the country, the way Federal employees do to purchase private health insurance.

We've been talking about trying to end the age of defensive medicine by allowing for the adoption of medical malpractice reform in this country. All these kinds of changes, we believe, would reduce the cost of health insurance, reduce the cost of health care in this country in the long term. What the Democrat plan, even as it's being modified at this very hour, continues to include is a government-run insurance plan that would lead to a government takeover of our health care economy, paid for with nearly \$1 trillion in tax increases.

Now, I saw the President of the United States today on the television giving a speech expressing, with a rather uncharacteristic passion, his frustration with two things, and I wanted to speak to those in the few minutes that I have. First, the President said no one wants to have a government takeover of health care. Well, I don't doubt the President doesn't want it to happen, but there's something about bureaucracy that when, it is unleashed in certain ways, it takes over areas of our economy. It's an unbroken truth of the history of governments around the world that unchecked, unlimited government expands.

And whatever the President's intention, the reality is that should this government create a government-run insurance option to so-called compete with the private sector, that government option would compete with the private sector the way an alligator competes with a duck. It would consume it. And most Americans know that. Now, the other thing the President had a problem with—

Mr. AKIN. Just reclaiming my time a moment, what you just said is mirrored—just a week or so ago we had about 1,100 pages of the bill. I started reading it and it said the commissioner shall, we go to another page, the commissioner shall, and we had page after page, the commissioner shall do this, the commissioner shall do that. It may not be his intention to have the government run it all.

He could have called it the czar. We had some discussion whether it's a commissioner or a czar or a commissar. We weren't sure what. But anyway it was one after the other pages. That's what the bill says. And just to your point. Sorry to interrupt. I yield back.

Mr. PENCE. Well, I thank the gentleman for yielding. But let me say, the other point the President expressed was that some of us, and some independent organizations were trying to scare the American people by suggesting that if the government introduces a government-run insurance option, that you'll lose your health insurance. But the Lewin Group, which has been praised by Republicans and Democrats over the years, actually estimated 114 million Americans would likely lose their health insurance if the Democrat health care plan and the administration's plan were actually to be adopted.

But why is that? Now, to be perfectly fair, the President did make the point today at the podium that nothing in this plan will make people give up their private insurance. And I want to grant that point, Mr. Speaker, for anyone that might be looking in. That's not really the point, though.

What the administration and some of our colleagues fail to understand is that as soon as Uncle Sam offers health insurance, a government health insurance for every American employee for

free, there's almost no employer in America who's not going to sit their employees down during this worst recession in 25 years and say something like, look, I love you; we appreciate your being here, but we're trying to keep the lights on and the doors open at this business, so you know what? We're going to cancel the health insurance that we have through this company, and we're going to send you down to Uncle Sam to apply for it.

□ 1900

That's why the Lewin Group, which is an independent organization, and common sense should tell the American people, if the government introduces an insurance program to compete with the private sector, tens of millions of Americans will lose the health insurance they have.

So, whether it's the intention that we have a government takeover, the fact is, if we insist, as the Democrats in Congress and the administration are, on a government option, even with the tweaks they're putting around the edges, it will result in a government takeover, because tens of millions of Americans will be relegated to that new government program.

That's why I really believe that we have to oppose this program, that we have to scrap this government takeover with its \$1 trillion tax increase and that we have to start over and come around to those bipartisan solutions that Republicans are prepared to work on today.

I yield.

Mr. AKIN. I really appreciate the gentleman's points that have been made here, explaining the fact that one of the people who is not going to like this is somebody who has an insurance policy that he likes, because when the government offers something for free, one can bet that what's going to happen is that the insurance policy is going to go away.

Now, it isn't as though the ideas that are being advocated in this bill are particularly new. They've been tried in other places. Here is one. Massachusetts tried. Basically, everybody has to have insurance, and the government is offering health care. What was the end result? I mean we don't have to reinvent the wheel. We see that what happened was, first of all, Massachusetts took a huge hit financially, and health care access is down because patients have to wait 70 days to see a doctor in Boston.

So, first of all, it is the typical red tape in government. You've got to wait in a line, but what's more, it costs a whole lot of money to wait in line because now your health care costs in Massachusetts are 133 percent more than what the average is. So it's not like we haven't tried this before. It has been tried; yet we're going to want to try and do the exact same thing.

It has been tried in other places. It was tried over here in Europe. We can take a look at that. What happens with cancer? I happen to be a cancer survivor. I'm not a wizard doctor; I'm not even a wizard economist, but I know a little bit about cancer because I survived it.

I see my good friend from California. If you'd like to jump in here, we'd be delighted to yield you time.

Mr. DANIEL E. LUNGREN of California. Yes.

I would like to just follow up on what Mr. PENCE said, which is, if you are concerned that there is the possibility that a public option will lead to a government takeover, you need look no further than at what happened with the student loan program.

The student loan program has a government option, but what is happening now with this Congress and with this President? We are eliminating the private option, and we're going totally to the public option, which now becomes a public monopoly.

Mr. AKIN. Can you get a private student loan now or is it that, basically, you can't get them anymore?

Mr. DANIEL E. LUNGREN of California. The way we are phasing them out, you will not be able to get those. They will be, basically, the Federal student loan programs.

Mr. AKIN. So it's like Henry Ford and his car. You can get any color you want as long as it's black.

So the only kind of student loan you're going to get is a government student loan because we've basically chased the private sector out.

Mr. DANIEL E. LUNGREN of California. Well, we do have a Member on the other side of the aisle, a distinguished Member on the other side of the aisle, who in a townhall meeting admitted that this is going to lead inevitably to a public takeover of health care, and he said, yes, that is a good thing.

Mr. AKIN. A lot of them are quite happy with the idea of socialized health care. They acknowledge that.

Mr. DANIEL E. LUNGREN of California. You can't use that word.

Mr. AKIN. I'm not allowed to say "socialized"? Socialized. Socialized. Socialized.

Mr. DANIEL E. LUNGREN of California. You can't say it in print.

Mr. AKIN. Oh.

Mr. DANIEL E. LUNGREN of California. We're not allowed to say that. We're not allowed to say it on our particular chart of the Democratic health plan. We've been told that that is not allowed if we're going to print it and send it out to our constituents.

The last thing I would just say is this: Look, I happen to be the son of a doctor. My dad was my hero growing up. I used to go on house calls with him. I'd make rounds with him. I thought I was going to be a doctor

until, as I like to say, God sent me a strong message during my sophomore year at Notre Dame called "organic chemistry."

Mr. AKIN. Organic chemistry. As an engineer, I feel your pain, my friend.

Mr. DANIEL E. LUNGREN of California. But I never lost the sense of service that my dad had as a doctor. From my observation of the way he practiced medicine, he taught me that the doctor-patient relationship was paramount. I heard him many times on the phone, arguing on behalf of a patient with somebody who was employed by the insurance company. I heard him arguing with hospitals. I heard him arguing with nurses if he didn't think they were doing a great job. I heard him praise the nurses when they did a great job for his patients. I heard him praise the hospital.

His whole focus was on his patients. He was not only his patients' greatest diagnostician, and not only the greatest doctor they could have, but he was their greatest advocate. That's what I don't want to lose in this or in any other plan.

Mr. AKIN. I think you just put your heart right on what this debate is about.

Mr. DANIEL E. LUNGREN of California. I don't want the government to be my advocate. I want my doctor to be my advocate. I want my family to be my advocate. Listen to what the President said in that interview on television when asked about the 100-year-old woman.

Mr. AKIN. Go through that again.

Mr. DANIEL E. LUNGREN of California. The 100-year-old woman, who was an extraordinary person with great verve in her life, who also had tremendous health, needed a pacemaker. Her doctor thought she should have it because he knew her. He called a specialist who would actually do the implantation of the pacemaker, but he was skeptical. He said he wasn't going to do it on a 100-year-old lady.

He said, Just meet her. Examine her.

He examined her, and his position was changed. She received it at 100. She is now a very active 105-year-old.

It was presented to the President, and it was said, Mr. President, will my 100-year-old mother still be able to have a pacemaker?

The President gave a long, long convoluted answer. At the end, he said this: It may mean that, instead of some sort of surgical procedure, we will give your mother painkillers, pain pills.

Mr. AKIN. What we're really talking about—and this isn't politically correct. I guess I've never learned that very well. We're talking about government-rationed health care, aren't we?

Mr. DANIEL E. LUNGREN of California. Here is the deal. If you're concerned about cost, you can do it in one of two ways to limit cost: competition or rationing.

Now, competition has some premises involved in it. One of them is that we need greater transparency. There's no doubt about it. We need to know what it costs with certain doctors or charges. We need to know, when we go in the hospital, what the infection rates are. It's those sorts of things. Competition from doctors and competition from medical health care providers and from insurance companies will give us tremendous options so that we can make the decision, and that tends to keep costs down.

In a government system, when you have a monopoly, there is only one way you keep costs down. It is called rationing. If you don't believe it, look at England; look at Canada; look at France; look at all of those other systems.

Mr. AKIN. Reclaiming my time, gentlemen, that's what I'd like to do because I have a chart here.

I would also like to recognize my good friend from Texas, Congressman GOHMERT, who is noted, actually, for being, in spite of his humble demeanor, really an expert when it comes to knowing how to phrase things in a tactful and direct kind of way.

Mr. GOHMERT. Well, I appreciate the gentleman for yielding.

I'm still perplexed. Since Republicans are not allowed to comment on anything that's a governmental resource, and so I am wondering, if we phrase in any mail-out or on any Web site, if we say that the Democrat-controlled Congress is taking the Nation in the wrong direction and that too many Americans are paying a heavy price for those wrong choices, including paying record costs for health care, I'm wondering if that would be something that would also be found objectionable for its being a little too political.

I'll yield to find out what you think.

Mr. AKIN. It seems like the basic principle should be to respect your other colleagues and, at the same time, to also tell the truth. It sounded like what you said would be my idea of what the truth is, but then I may not pass the political correctness test.

Let's take a look at this.

Mr. GOHMERT. If the gentleman would yield, let me just say that that's on the Speaker's Web site in the reverse, meaning the Republicans took the Nation in the wrong direction, and too many Americans are paying a heavy price.

So, anyway, it sounds like, if Republicans said that about Democrats, as my friend says, it's probably true, and it would be politically inappropriate under the Franking determination, but it's okay if the Speaker does it, apparently.

Mr. AKIN. I'd like to take a look, though.

You were just talking about there being different ways to control costs.

One of them is, when the government does it, they ration health care or they make various decisions to keep costs down. Here is the result of a comparison. These are 5-year survival rates for all different kinds of cancers.

This is the European Union average. They all have socialized medicine. I guess they do call it "socialized medicine." Here is the U.S. system, which at least is, largely, more of a free enterprise system. It's the beige.

Now, if you'll take a look at these different kinds of cancers, one of the things that you'll notice is that the survival rates are a whole lot better in the U.S. than they are with these socialized systems, and I don't think that that's a coincidence. It's just a fact that free enterprise works a lot better than socialism does.

The particular cancer I had here was called "prostate cancer." Let me see if I can see where it is. Here is "prostate" down here. You've got the survival rate in the United States at 90-something percent. Back over in Europe, it's only at 78 percent. I'll tell you, if I were to have prostate cancer, which I had, I'd want to be treated in America. That's what I'd want.

Mr. DANIEL E. LUNGREN of California. Will the gentleman yield for just a moment.

Mr. AKIN. We know that, for the British, for the European Union—in England—this is a 50 percent number.

Now, if I were sick, you could talk to me all you want about the government's giving me free health care, but it wouldn't do me any good if I were dead. This shows you what happens when we go to a government-run system.

I would be happy to yield to my friend.

Mr. DANIEL E. LUNGREN of California. This points out vividly the difference between a system where competition exists and where a monopoly by government exists. Where a monopoly by government exists, inevitably to attempt to try and control costs, you have to impose rationing. That's why you have these variations of survival rates among cancer patients, because they are not getting the care in those other countries that we get here, and they're not getting the care in a timely fashion.

Mr. AKIN. Timeliness. You know, in cancer, they always say, if you can diagnose it early, your probability of success goes up. As for that timely thing, you know, I think the socialized medical system says, We'll give you a free C-section, ma'am, as long as you're willing to wait 12 months.

Mr. DANIEL E. LUNGREN of California. Well, I happen to be someone who had a hip replacement about a year and a half ago. Under the rules that prevail in at least one of those countries, I would not have been able to have it because I'm not 65 years of

age. Had I needed it when I was 80, I would have been too old to get it. They have defined by age the category of people who can receive that operation. It's not just a limitation on time, on how long it's going to be.

The point is, if you look at our younger generation today and look at how active they are in certain sports, with repetitive actions affecting their joints, we are going to have younger people being in need of the replacement of joints—of knees and hips. That runs precisely contrary to what you see as being available in these other countries. That's why this debate is so important.

If, in fact, as we believe, the plan presented by the majority would inevitably lead to government-run health care, these are the consequences. That's why we ought to be able to debate that. They can argue with us and say, No, it's not government-run. We can argue how we believe it is, but at least we ought to be allowed to have that debate so that people can see what the consequences of our actions here in the House are on them and on their personal lives.

Mr. AKIN. I yield.

Mr. GOHMERT. Thank you for yielding.

I wanted to have time to ask my friend from California: Do I sense there is a concern that, if someone with the Federal bureaucracy had seen you move athletically before the hip replacement, they would have said giving you a hip would have been wasted?

Mr. DANIEL E. LUNGREN of California. Only a Texas Aggie would ask that question, and I will take that as a rhetorical question that needs no response.

Mr. AKIN. Well, gentlemen, I would call your attention to another colleague of ours, Congressman ROGERS, from Michigan.

He told the story the other day of when he was, I believe, 18 or 19 years old and had bladder cancer. Now, his doctor didn't know that, of course. He had some blood in the urine. He went to his doctor, who had known him and who had known his family for some period of time. The statistical probability of his having bladder cancer at that age was almost nothing. Yet, because he had that relationship with his doctor, she didn't let it go.

It was just like your father wouldn't, my friend.

She didn't let that thing go. There was something about her intuitive sense of knowing there was a problem there. They checked it out, and found out that he had bladder cancer. He's a Congressman now. This was some 40 years ago.

□ 1915

But you know when you have these statistics saying it just fits in this category, he held up a calculator and he

said, There's nothing in this government calculator that knows anything about health care. All it is is some government agent running statistics.

There was a guy from Canada that I just read about, and he was younger than you are. He was in his fifties, and the Canadians said, You can't have a hip replacement. You're too old. So of course he used the option. He came to America and got it—the free enterprise system.

My good friend from Texas.

Mr. GOHMERT. And I do appreciate you yielding. And obviously I was being facetious and perhaps rhetorical for my friend from California because the point is no government bureaucrat should ever be able to look at any American and say, I don't think you ought to get this treatment. I don't think you ought to get this surgery. That is the last thing you want is the government intervening.

And what has really gotten outrageous and got my attention is when we got the latest numbers we could for 2007 and the total amount of Medicare and Medicaid tax dollars spent and you divide it by the number of households in America, it's about \$9,200, over \$9,200 per household. You look at what President Obama is proposing. CBO says it will be between \$1 trillion and \$2 trillion, \$1 trillion to \$1.6 trillion? You divide just a very conservative amount of that by 117 million households that are estimated right now in America by Census, and you have \$10,000 more per household for every household in America they have to come up with to pay for this plan on top of the \$9,200 in Federal tax dollars they are paying now.

Mr. AKIN. Let's do this again. Every single household in America is going to get hit with an additional \$10,000 per household to make this transition to a socialized medical system that produces this kind of result? Is that what you're saying?

Mr. GOHMERT. That's on top of the \$9,200 average per household in America right now. Around \$19,000 per household.

Mr. AKIN. Here's something that I think is kind of amazing. Take a look at this statement. This was an amendment that was offered to the Democrats' health plan: Nothing in this section shall be construed to allow any Federal employee or political appointee to dictate how a medical provider practices medicine.

Now, I would say I think that's something that a lot of my constituents would say I don't want some bureaucrat telling some doctor what he can and can't do to take care of me. Take a look at the vote when this was done in committee. This was an amendment that was proposed by Dr. GINGREY. He spent his life going to medical school and taking care of patients. And look at the votes. Republicans, 23 votes say-

ing we don't want to put a bureaucrat between you and your doctor, and zero voted against this, of the Republicans. Of the Democrats, only one Democrat voted for this amendment and 32 of them voted against that.

Now, I think a lot of people on Main Street America think why can't we just get along as Republicans and Democrats and just solve problems. But this is a very fundamental difference between the two parties, isn't it? This is what we've been talking about. Do we really want a Federal bureaucrat? And what they just voted to say was we think that in order to control costs, you're going to have to let some government bureaucrat make those decisions and tell a doctor and a patient that they can't get the care.

Mr. DANIEL E. LUNGREN of California. This makes about as much sense as the Vice President's recent statement that in order to avoid bankruptcy, we have to spend more Federal money.

Mr. AKIN. That's not intuitively obvious, in order to avoid bankruptcy, we've gotta spend more money.

Mr. DANIEL E. LUNGREN of California. And the President is basically telling us, by entering the Federal Government in the largest way in the history of the United States into medical care, it is going to cost less and provide more accessibility.

And I think that is—well, what I'm finding from my town hall meetings, my teletown halls, my discussion with people back home, they're not buying it because they know it just doesn't seem to make sense. Just as the gentleman has pointed out on this amendment, if in fact they're not going to put anything between you and your doctor, why would they reject an amendment that says just that?

Mr. AKIN. With only one exception of one Democrat, a straight party-line vote saying we want to put Federal employees between your doctor and you as a patient.

This is pretty serious stuff. This is very serious stuff to me. Because as I said, when I came to Congress, I had a poor health care plan. I came to Congress and found out there were some Navy doctors in this building, and those Navy doctors gave me a physical. I felt bulletproof and everything at 52. I found out that I was bulletproof and doing great except one little detail: I had cancer. And the fact that they discovered that and were able to get treatment without some bureaucrat taking that away from me, that's why I'm alive today.

I can understand why people are going to be very, very cautious entering some government-run plan that produces results for people, something like what the European Union is doing.

I yield to my good friend from Texas.

Mr. GOHMERT. Our time has expired, and I appreciate being a part of

this. This is too serious to let the bureaucrats control people's lives.

Mr. AKIN. I thank you very much. I thank my many good friends who've joined us here for this discussion. I think many understand it's a very serious issue. It's better to go slow and get it right and don't mess it up as we have some of the things that have been passed at 3 o'clock in the morning.

WHERE ARE THE JOBS?

The SPEAKER pro tempore. Under the Speaker's announced policy of January 6, 2009, the gentlewoman from Ohio (Mrs. SCHMIDT) is recognized for 60 minutes.

Mrs. SCHMIDT. Mr. Speaker, I rise today to continue to ask the question, where are the jobs?

Well, I can tell you where they're not. They're not in my district in southern Ohio because I just got an announcement on Monday night that really shocked me and made my blood boil. I found out that the Department of Energy was going to strip away thousands of jobs in my district.

Now, I just want to give you a little background. Ohio is one of those States that has high unemployment. We're the seventh highest in the Nation. But when you look at my district, what you see is I've got really high unemployment in my district. In fact, two of my counties, Pike and Adams, have over 15 percent unemployment. Scioto County has almost 13 percent unemployment. Much higher than the national average, even higher than our State average of 11.2 percent. So we really need jobs. We need them badly.

And what has occurred to me is that I think there must be a disconnect with the administration and the President. Let me go back and explain what's going on.

I have a facility in my district in Pike County, the county that has 15½ percent unemployment, called the American Centrifuge Plant, and this represents a very early use of commercial—use of new technology that would significantly reduce emissions of air pollutants and greenhouse gasses.

The United States Enrichment Corporation, called USEC, is deploying American Centrifuge technology to provide the dependable, long-term, U.S.-owned and developed nuclear fuel production capability needed to support the country's nuclear power plants, nuclear submarines, and a robust nuclear deterrent.

Mr. Speaker, we have dozens of nuclear power plants in this country that all require nuclear fuel. And we have a Navy who, as I speak, is sailing in every ocean across the globe. And we have weapons of mass destruction that will become a useless deterrent without fresh tritium.

Without the American Centrifuge Plant, in 5 years' time, we will have no

ability in the United States to enrich uranium to keep our lights on, our ships at sea, or a deterrent potential.

In 5 years, we will be forced to purchase uranium from foreign suppliers as we do with most of our oil. I don't want to depend on foreigners for this kind of product.

The American Centrifuge Plant holds great promise. Unfortunately, in order to meet this promise, USEC needed a loan guarantee from the Federal Government. Now, I want to repeat that. It needed a loan guarantee from the Federal Government. You see, USEC has already invested \$1.5 billion and has offered another billion dollars of corporate support. It did this with the expectation that the Department of Energy would make available a \$2 billion loan guarantee needed to finance the full-scale deployment of the American Centrifuge Plants.

Now, I want to refer to this chart here. Why were they so confident in that? Well, you see on September 2, 2008, when President Obama was running for election, he wrote a letter to our Governor, Ted Strickland. This is the full letter so you can see it. I'm not taking it out of context.

He said, Under my administration, energy programs that promote safe and environmentally sound technologies and are domestically produced, such as the enrichment facility in Ohio, will have my full support. I will work with the Department of Energy to help make loan guarantees available for this and other advanced energy programs that reduce carbon emissions and break the tie to high-cost and foreign-energy sources.

This is what this letter said.

So you understand that USEC was very, very confident that they were going to get that loan guarantee. But instead, on Monday night, the Department of Energy really pulled the rug out from all of us. I got a phone call asking me to call the White House, and I learned Monday night that the Department of Energy was going to withdraw its promise and they were actually asking USEC to withdraw its application and to try it again in 18 months.

I was actually told on the phone that if they did that, then the Department of Energy would give them \$45 million, \$30 million, and another \$15 million if they would rescind this. And that kind of shocked me.

The next day it also shocked the folks at USEC because, you see, they had this letter that the President had given to our Governor, Ted Strickland, that said those loan guarantees would be given.

Mr. Speaker, the American Centrifuge Plant currently supports more than 5,700 jobs and will help create 2,300 more within a year of commencement of the loan-guarantee funding. That's 2,300 additional jobs to my district.

Now, because the Department of Energy has contradicted a promise that our President made in September of last year to our Governor and to those men and women in this area of the State, those jobs are in jeopardy. And I was on the phone with one of my constituents earlier today. Pink slips are being given out at the USEC plant.

The Department of Energy has told the media the reasons for their denial were threefold: the cost subsidy estimate, a new requirement for another \$300 million of capital, and the questions of technology.

Well, the first question offered by the DOE is a little laughable. It turns out that the government isn't really backing these loans. Instead, the Department of Energy is charging a risk-of-failure fee to each of the folks that agrees to back the loans. These fees are pulled together to eliminate any risk to the taxpayers that actually have been given a loan guarantee.

They determined that the fee for this loan would be \$800 million on a \$2 billion loan. So USEC is supposed to come up with \$800 million on a \$2 billion loan. I don't know about you, but in my neck of the woods, we call that like loan sharking.

The second reason for denying the guarantee is a new need to set aside an additional 300 million for contingencies. Well, I can think where you and I see that that is headed. After the risk premium is paid, apparently USEC still has to come up with more money to make the Department of Energy feel more comfortable about giving these loans.

□ 1930

But the last question, I think, is the most surprising, because the last reason is one where they say they have got technical questions, and this is the one that is the most absurd of all, because, quite frankly, this technology is out there. France is using it, England is using it. Would it surprise you to know, Mr. Speaker, that Iran is using it?

But what I found most disturbing is that the Department of Energy hired a technology expert, as required by law, and they went through the technology and wrote a long report, and in fact the guy ran back to give it to the Department of Energy on Tuesday. That was the day after the Department of Energy made their decision. They made that decision on Monday night. They made it without any regard for the report they were relying on for this very important project.

It is not just a project, Mr. Speaker, that continues to help the folks in my district. And it is important to me, because, Mr. Speaker, this is my district, and these are my folks and these are my friends. I have become friends with these people.

This is the part of my community that doesn't have a lot of job opportu-

nities, and they welcomed this job opportunity. They embraced it. And I believe that the President believes in this project, as he stated on September 2, 2008. But I think there must be some sort of disconnect with the Department of Energy.

There is a chart here, and I would like to go through the chart a little bit again so we can clearly understand what is going on.

The issue: credit subsidy cost estimated by the DOE to be \$800 million. Well, let me be a little clearer. The estimate was never provided in writing. The methods of calculation were never disclosed or explained. An \$800 million subsidy cost is not reasonable. I think it is outrageous, given USEC's fully collateralized \$1 billion parent guarantee, standard credit, and, yes, yield exposures of \$24 million to \$74 million based on credit ratings of C to BB-minus and assets recoveries of only 20 to 30 percent of the cost.

The DOE calculation clearly ignores the value of \$1.5 billion invested by USEC to date and another billion of non-project collateral offered by USEC, consisting primarily of natural and enriched uranium inventories.

The second issue, an additional need for \$300 million of additional capital. USEC offered a legally binding capital commitment, which DOE agreed met statutory and regulatory requirements.

USEC's fully collateralized \$1 billion parent guarantee designed to permit loan to commerce while USEC raised additional equity while fully protecting the taxpayers. USEC's financial adviser stated that with the loan guarantee, \$100 million to \$150 million of capital could be raised in the public market. USEC has commenced discussions with strategic suppliers to obtain vendor financing for the balance.

And the final, the technical readiness of American Centrifuge Technology. The DOE LGPO concluded that ACT was not ready to move to commercial scale operations prior to receiving the independent engineer's written assessment. The independent engineer had only been working for 12 days when DOE acted. DOE was scheduled to review the classified independent engineer report on July 28, and the DOE representative traveled to Tennessee to do so, unaware of the LGPO's decision the night before.

American Centrifuge is based on technology which DOE initially developed in the 1970s and the 1980s and subsequently operated it for 10 years. USEC-approved centrifuges have been operating in the Lead Cascade for over 225,000 hours. The DOE has acknowledged that USEC met the milestone under the 2002 agreement between DOE and USEC, which requires obtaining satisfactory reliability and performance data from Lead Cascade operations, the last requirement to be met besides obtaining financing prior to

commencing commercial plant construction and operations.

Mr. Speaker, I don't understand what is going on here, I don't think that this body understands what is going on here, and I am not even sure that the President even understands what is going on here with the Department of Energy.

But I am very confused. More than that, I am very outraged because I believe that we have to have energy independence, but we also have to have security for this Nation. Energy independence depends upon a variety of sources of energy, including nuclear power, but you have to have the stuff to make that nuclear power. In 5 years, we will no longer be the people that are producing the stuff that it takes to make that nuclear power. That is why this project is so important, not just for the 2,000 jobs that will be lost.

Mr. SPACE, can you join me here today? One of the other folks that is affected is my very good friend from a district right across from me, ZACK SPACE.

ZACK, I just laid out what has gone on with the Department of Energy. I have laid out the fact that our President promised that the Department of Energy would give out these loans to Governor Strickland on September 2. I have laid out what I think is a disconnect between the Department of Energy and our President, because I just truly believe the President wants to make good on this promise. I have laid out the impact it has to your community and my community in southern Ohio and also to our security across the Nation.

So, whatever you would like to add, I welcome you to the discussion.

Mr. SPACE. I thank the gentlelady. I appreciate the work that you have done in bringing attention to this very important issue. There are a couple of things I would like to speak about, and I will be as brief as I can.

Mrs. SCHMIDT. Take as much time as you want, ZACK. It is fine with me.

Mr. SPACE. First of all, what is happening in Appalachian Ohio, in fact what is happening in Appalachia America, is the same thing that John Kennedy drew attention to in the early 1960s when he visited Appalachia. He drew attention to poverty and hopelessness, suffering, a lack of infrastructure, a lack of opportunity. I think it is very important not just for you and I to understand this, we do, JEAN, but for our President and the Department of Energy and the American public in general to understand that many of those same needs that Kennedy identified so many years ago still exist.

This Piketon facility has the potential to help breathe new life into a large region in southern Ohio, a region where unemployment rates now are typically on a county-by-county basis reaching 16 percent; a region in which

poverty rates in some of those counties exceed 30 percent; a region where families, working families, men and women, have to take their children to soup kitchens to eat. This is happening in America; this is happening in southern Ohio.

The second thing I would like to point out is this is our future. We have heard so much about the promise afforded by energy-related jobs, the new economic sector in our economy that I believe holds so much potential, so much potential to put people back to work, to provide good wages, to allow families to buy homes, send their kids to college and save for retirement. This project falls squarely within the promise afforded by that new economic sector.

I would like to take this brief moment that you have so graciously allotted me, JEAN, to urge the Department of Energy to reconsider, to look at this situation as one which can provide hope to many Ohioans, many Americans who don't have it right now.

I commend you again for bringing attention to this matter, to advocating for it with the passion that you have, and I pledge to work with you moving forward as we do everything we can to bring vibrancy back to the economy of southern Ohio.

Mrs. SCHMIDT. May I ask you to engage in a little conversation on this. I think it is very important, Mr. Speaker, to note that Mr. SPACE and I, while our districts do connect, we are from different sides of the aisle, and yet I find oftentimes there is as much agreement on both sides of the aisle, far from the rancorous debate that occurs on some of the issues that folks might hear.

This is an issue that is very important to not just me, but to ZACK SPACE as well, because we understand Appalachia. We understand the needs of this community and how when you lose a job in this community, it is so hard to get it back. It is not like other communities, where when you lose one, in time it can be replaced. When you lose one in this part of the world, it doesn't get replaced.

Do you agree, ZACK?

Mr. SPACE. JEAN, I see it and you see it and we all see it far too often where we allow ourselves to be separated by a political divide. This aisle that runs between us now is nothing but an empty space, and when we talk about things like this project, we are not talking about what is right for Democrats or what is right for Republicans, what is right for those who are liberal versus those who are conservative. We are talking about what is right for America.

I think not just in this case, but in all cases we should explore every opportunity to bridge that divide, to forget about the party politics, whether it is energy or health care or job opportu-

nities, like we have here. All of us need to strive much harder to overcome those ideological differences, find common ground and work for what is right for this country.

Mrs. SCHMIDT. Mr. SPACE, I have been reminded that we are on the House floor, and my apologies that I didn't refer to you as Congressman SPACE or Mr. SPACE and talked to you as we do off the floor in a friendly tone. So now I will refer to you as Mr. SPACE.

But you and I agree on this. I think, Mr. SPACE, you will also agree about the importance of this not just to our community, but to the Nation. We need to have uranium enrichment in order to develop nuclear energy in order to keep our lights on in this country. And I don't think you and I want to rely on getting this product from a foreign nation.

We rely too much on getting our oil from foreign governments. We don't want to rely on foreign governments for this, which is so important to keeping our lights on, to our Navy, to our ability to keep the bad guys out of the United States.

Mr. SPACE. I thank the gentlelady for bringing up such an important subject, and that subject is one of national security. There are a lot of different components that go into what makes us strong as a country. Certainly the size of our Army, the money and the resources we allocate to military defense are very important. But perhaps there is no greater ingredient to our national security than developing right here at home within our borders energy independence. We have as a nation waited far too long to aggressively address this issue.

I think many of the painful votes, if you will, many of the divisive issues, many of the arguments that we have on this floor of this great House are happening right now because we have as a nation waited far too long to address the issue of energy independence.

The gentlelady and I are both old enough to remember what it was like in this country back in the early 1970s when OPEC first formed its embargo on oil. It was like a slap in the face to our country. Suddenly, and without warning, we found ourselves almost wholly dependent upon not just other nations, but other nations who meant to do us harm, for something so fundamentally important as our energy needs.

As we look back today to 35 years ago, almost 40 years ago, we think of this: What if, what if we would have done the right thing and aggressively pursued energy independence? What if we would have approached that issue like this Nation has with other issues in the past, the Manhattan Project, the Apollo project, where failure was not an option? What if we had done that?

I will tell you, we would not be having the debate, we would not be having the struggles, we would not be having

the problems with our foreign relations. We would not be having nearly the problems we are experiencing today with our economy if we had done the right thing.

Now is the time to act. This project fits perfectly with what should be all of our priorities, and that is an aim toward energy independence.

□ 1945

Mrs. SCHMIDT. I totally agree with my good colleague and friend from Ohio. The time is now. I remember the seventies. I remember standing in line—because I was the even day, and my friends were the odd day—to get gasoline. We can't do that again. You and I have seen the price of gasoline last summer be twice the price that it is this summer. Thank heavens it's lower, but we can't afford the opportunity for them to put the squeeze on us and on our economy. While this isn't going to remove our dependence on foreign oil, this project is going to remove our dependence on using oil for things that we don't need to use it for.

That's why we need a total comprehensive energy policy. It has to include nuclear, and we have to have not just the technology but the stuff that it takes to make that technology happen. All I can say is, this project, the American Centrifuge Plant, is producing the uranium enrichment that we need; and if we don't allow this project to go forward, in 5 years you and I are going to be standing here screaming at the well because we're going to be beholden to France or England or another country for this uranium enrichment that we so sorely need right now.

I am so thankful that you are joining me in this fight. I don't know what we can do besides calling the Department of Energy, maybe asking our friends to call the Department of Energy, maybe asking our friends to call the President. I don't know what else you and I can do. But I'm going to fight until we can fight no more, and then I am going to continue on.

Mr. SPACE. In yielding back to the gentlelady, my friend and colleague from Ohio, I would submit that we have taken one very important step in moving in that direction, and that is by ridding ourselves of our partisan bonds and working together in a common cause. You and I both know that oftentimes we do not agree on the issues, but this is one where we can find common ground. Let this be not just the beginning of a rectification of a wrong in southern Ohio with respect to USEC plants, but the beginning of a new relationship, a new day in American politics where Democrats and Republicans work together in solving not Democratic problems, not Republican problems, but American problems.

Mrs. SCHMIDT. I thank the gentleman. I just want to say, Mr. Speak-

er, that I believe we can work across the aisle. I have seen us work across the aisle on other issues. This one is a very, very important issue. I am not going to belabor this point too much longer, but only to say that if we don't act now and ask the Department of Energy to reverse its course, this isn't just something that's going to put a further blight on my district, my good colleague Mr. SPACE's district and the rest of Appalachia and Ohio, but this is going to really put a cloud across our economic security, our national security and our Nation. The Department of Energy can go back. They can look at the technical data, which they didn't do when they issued their decision. They can go back and look at what they're asking USEC to cough up and recognize what USEC has already put on the table. They can go back and understand that the President made this promise to our Governor on September 2. They can go back, and they can do the right thing because it's not just the right thing for my community, Mr. SPACE's community or Ohio. It's not just the right thing because our President made a pledge to our Governor. It's the right thing for our Nation.

I yield back the balance of my time.

OMISSION FROM THE CONGRESSIONAL RECORD OF THURSDAY, JULY 16, 2009, AT PAGE 18127

REMOVAL OF NAME OF MEMBER AS COSPONSOR OF H. RES. 648

Mr. KAGEN. Mr. Speaker, I ask unanimous consent to withdraw my cosponsorship of H. Res. 648.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Wisconsin?

There was no objection.

MESSAGE FROM THE PRESIDENT

A message in writing from the President of the United States was communicated to the House by Ms. Wanda Evans, one of his secretaries.

SPECIAL ORDERS

The SPEAKER pro tempore. Under the Speaker's announced policy of January 6, 2009, and under a previous order of the House, the following members will be recognized for 5 minutes each.

SPECIAL ORDERS GRANTED

By unanimous consent, permission to address the House, following the legislative program and any special orders heretofore entered, was granted to:

(The following Members (at the request of Ms. TITUS) to revise and extend their remarks and include extraneous material:)

Ms. WOOLSEY, for 5 minutes, today.

Mr. DAVIS of Illinois, for 5 minutes, today.

Ms. KAPTUR, for 5 minutes, today.

Mr. GRAYSON, for 5 minutes, today.

(The following Members (at the request of Ms. ROS-LEHTINEN) to revise and extend their remarks and include extraneous material:)

Mr. LINCOLN DIAZ-BALART of Florida, for 5 minutes, today.

Mr. BISHOP of Utah, for 5 minutes, today and July 30.

Mr. FORBES, for 5 minutes, July 30.

Mr. OLSON, for 5 minutes, today and July 30.

(The following Member (at his request) to revise and extend his remarks and include extraneous material:)

Mr. BILBRAY, for 5 minutes, today.

SENATE JOINT RESOLUTION REFERRED

A joint resolution of the Senate of the following title was taken from the Speaker's table and, under the rule, referred as follows:

S.J. Res. 19. Joint resolution granting the consent and approval of Congress to amendments made by the State of Maryland, the Commonwealth of Virginia, and the District of Columbia to the Washington Metropolitan Area Transit Regulation Compact; to the Committee on the Judiciary.

ADJOURNMENT

Mrs. SCHMIDT. Mr. Speaker, I move that the House do now adjourn.

The motion was agreed to; accordingly (at 7 o'clock and 49 minutes p.m.), the House adjourned until tomorrow, Thursday, July 30, 2009, at 10 a.m.

EXECUTIVE COMMUNICATIONS, ETC.

Under clause 2 of Rule XXIV, executive communications were taken from the Speaker's table and referred as follows:

2868. A letter from the Director, Regulatory Management Division, Environmental Protection Agency, transmitting the Agency's final rule — Fenamidone; Pesticide Tolerances [EPA-HQ-OPP-2008-0458; FRL-8423-8] received July 15, 2009, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Agriculture.

2869. A letter from the Director, Regulatory Management Division, Environmental Protection Agency, transmitting the Agency's final rule — Dichloromethane; Time-Limited Pesticide Tolerances [EPA-HQ-OPP-2005-0477; FRL-8422-2] received July 24, 2009, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Agriculture.

2870. A letter from the Director, Regulatory Management Division, Environmental Protection Agency, transmitting the Agency's final rule — Ethylene oxide adducts of 2,4,7,9-tetramethyl-5-decynediol, the ethylene oxide content averages 3.5, 10, or 30 moles; Exemption from the Requirement of a Tolerance [EPA-HQ-OPP-2008-0710; FRL-8425-7] received July 24, 2009, pursuant to 5 U.S.C.

801(a)(1)(A); to the Committee on Agriculture.

2871. A letter from the Director, Regulatory Management Division, Environmental Protection Agency, transmitting the Agency's final rule — Fenpyroximate; Pesticide Tolerances [EPA-HQ-OPP-2008-0556; FRL-8420-6] received July 24, 2009, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Agriculture.

2872. A letter from the Director, Regulatory Management Division, Environmental Protection Agency, transmitting the Agency's final rule — N,N,N',N'-Tetrakis-(2-Hydroxypropyl) Ethylenediamine; Exemption from the Requirement of a Tolerance [EPA-HQ-OPP-2009-0130; FRL-8429-3] received July 24, 2009, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Agriculture.

2873. A letter from the Director, Regulatory Management Division, Environmental Protection Agency, transmitting the Agency's final rule — Sodium monoalkyl and dialkyl (C6-C16) phenoxybenzenedisulfonates and related acids; Exemption from the Requirement of a Tolerance [EPA-HQ-OPP-2008-0665; FRL-8421-7] received July 24, 2009, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Agriculture.

2874. A letter from the Director, Regulatory Management Division, Environmental Protection Agency, transmitting the Agency's final rule — Sodium N-oleoyl-N-methyl taurine; Exemption from the Requirement of a Tolerance [EPA-HQ-OPP-2008-0725; FRL-8426-8] received July 24, 2009, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Agriculture.

2875. A letter from the Secretary, Department of Defense, transmitting authorization of 7 officers to wear the authorized insignia of the grade of major general, pursuant to 10 U.S.C. 777; to the Committee on Armed Services.

2876. A letter from the Chairman and President, Export-Import Bank, transmitting a report on transactions involving U.S. exports to Arab Emirates pursuant to Section 2(b)(3) of the Export-Import Bank Act of 1945, as amended; to the Committee on Financial Services.

2877. A letter from the Asst. Secy. for Communications & Information, Department of Commerce, transmitting the Department's final rule — State Broadband Data and Development Grant Program (RIN: 0660-ZA29) received July 13, 2009, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Energy and Commerce.

2878. A letter from the Director, Regulatory Management Division, Environmental Protection Agency, transmitting the Agency's final rule — Approval and Promulgation of Air Quality Implementation Plans; Rhode Island; Correction of Effective Date Under Congressional Review Act [EPA-R01-OAR-2008-0796; A-1-FRL-8930-2] received July 15, 2009, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Energy and Commerce.

2879. A letter from the Director, Regulatory Management Division, Environmental Protection Agency, transmitting the Agency's final rule — Approval and Promulgation of Implementation Plans; Texas; Revision to General Air Quality Rules and the Mass Emissions Cap and Trade Program [EPA-R06-OAR-2007-0905; FRL-8931-1] received July 15, 2009, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Energy and Commerce.

2880. A letter from the Director, Regulatory Management Division, Environmental Protection Agency, transmitting the Agency's final rule — Lead; Minor Amendments

to the Renovation, Repair, and Painting Program [EPA-HQ-OPPT-2005-0049; FRL-8422-7] [EPA-HQ-OPPT-2005-0049; FRL-8422-7] (RIN: 2070-AJ48) received July 15, 2009, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Energy and Commerce.

2881. A letter from the Director, Regulatory Management Division, Environmental Protection Agency, transmitting the Agency's final rule — Approval and Promulgation of Air Quality Implementation Plans, Alabama; Birmingham 1997 8-Hour Ozone Contingency Measures [EPA-R04-OAR-2008-0592(a); FRL-8937-2] received July 24, 2009, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Energy and Commerce.

2882. A letter from the Director, Regulatory Management Division, Environmental Protection Agency, transmitting the Agency's final rule — Approval and Promulgation of Air Quality Implementation Plans; Iowa; Update to Materials Incorporated by Reference [FRL-8933-5] received July 24, 2009, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Energy and Commerce.

2883. A letter from the Director, Regulatory Management Division, Environmental Protection Agency, transmitting the Agency's final rule — Approval and Promulgation of Air Quality Implementation Plans; Nebraska; Update to Materials Incorporated by Reference [FRL-8933-4] received July 24, 2009, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Energy and Commerce.

2884. A letter from the Director, Regulatory Management Division, Environmental Protection Agency, transmitting the Agency's final rule — Revisions to the California State Implementation Plan, San Joaquin Valley Air Pollution Control District [EPA-R09-OAR-0296; FRL-8936-6] received July 24, 2009, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Energy and Commerce.

2885. A letter from the Chairman, Nuclear Regulatory Commission, transmitting proposed legislation authorizing appropriations for FY 2010, pursuant to 42 U.S.C. 2017; to the Committee on Energy and Commerce.

2886. A letter from the Assistant Attorney General, Legislative Affairs, Department of Justice, transmitting the Department's report on the use of the Category Rating System during calendar year 2007, pursuant to 5 U.S.C. 3319(d); to the Committee on Oversight and Government Reform.

2887. A letter from the Director, Regulatory Management Division, Environmental Protection Agency, transmitting the Agency's final rule — Acquisition Regulation: Guidance on Technical Direction [EPA-HQ-OARM-2007-1115; FRL-8935-6] (RIN: 2030-AA96) received July 24, 2009, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Oversight and Government Reform.

2888. A letter from the General Counsel, Federal Retirement Thrift Investment Board, transmitting the Board's final rule — Employee Contribution Elections and Contribution Allocations — received July 1, 2009, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Oversight and Government Reform.

2889. A letter from the Secretary to the Board, Railroad Retirement Board, transmitting the Board's Draft Strategic Plan for 2009 through 2014; to the Committee on Oversight and Government Reform.

2890. A letter from the Chair, Election Assistance Commission, transmitting the Commission's final rule — Reorganization of National Voter Registration Act Regulations [Notice 2009 — 17] received July 24, 2009, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on House Administration.

2891. A letter from the Chair, Vice Chair and Commissioner, Election Assistance Commission, transmitting the Commission's reports entitled, "The Election Data Collection Grant Program Evaluation" and "The Impact of the National Voter Registration Act (NVRA)", pursuant to Omnibus Appropriation Act for FY 2008 HAVA Section 802; to the Committee on House Administration.

2892. A letter from the Director, Office of Sustainable Fisheries, Department of Commerce, transmitting the Department's final rule — Magnuson-Stevens Act Provisions; Fisheries off West Coast States; Pacific Coast Groundfish Fishery; Biennial Specifications and Management Measures; Inseason Adjustments [Docket No.: 0809121213-9221-02] (RIN: 0648-AX96) received July 21, 2009, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Natural Resources.

2893. A letter from the Director, Office of Sustainable Fisheries, Department of Commerce, transmitting the Department's final rule — Magnuson-Stevens Fishery Conservation and Management Act Provisions; Fisheries of the Northeastern United States; Northeast (NE) Multispecies Fishery; Closure of the Eastern U.S./Canada Area [Docket No.: 080521698-9067-02] (RIN: 0648-XQ01) received July 21, 2009, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Natural Resources.

2894. A letter from the Deputy Assistant Administrator for Regulatory Programs, National Marine Fisheries Service, Department of Commerce, transmitting the Department's final rule — Fisheries of the Northeastern United States; Spiny Dogfish; Framework Adjustment 2 [Docket No.: 090129076-9926-02] (RIN: 0648-AX56) received July 27, 2009, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Natural Resources.

2895. A letter from the Deputy Assistant Administrator for Regulatory Programs, National Marine Fisheries Service, Department of Commerce, transmitting the Department's final rule — Fisheries of the Northeastern United States; Recreational Management Measures for the Summer Flounder, Scup, and Black Sea Bass Fisheries; Fishing Year 2009 [Docket No.: 090211163-9795-02] (RIN: 0648-AX69) received July 27, 2009, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Natural Resources.

2896. A letter from the Acting Director, Office of Sustainable Fisheries, National Marine Fisheries Service, Department of Commerce, transmitting the Department's final rule — Fisheries off West Coast States; Pacific Coast Groundfish Fishery; Closure of the Pacific Whiting Primary Fishery for the Mothership Sector [Docket No.: 090428799-9802-01] (RIN: 0648-XP82) received July 27, 2009, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Natural Resources.

2897. A letter from the Deputy Assistant Administrator of Operations, National Marine Fisheries Service, Department of Commerce, transmitting the Department's final rule — Fisheries of the Caribbean, Gulf of Mexico, and South Atlantic; Snapper-Groupers Fishery off the Southern Atlantic States; Amendment 16 [Docket No. 0808041045-9796-02] (RIN: 0648-AW64) received July 27, 2009, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Natural Resources.

2898. A letter from the Deputy Assistant Administrator of Operations, National Marine Fisheries Service, Department of Commerce, transmitting the Department's final rule — Fisheries off West Coast States; Coastal Pelagic Species Fisheries; Annual Specifications Modification [Docket No.

090421699-91029-02] (RIN: 0648-XO74) received July 27, 2009, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Natural Resources.

2899. A letter from the Director, Office of Sustainable Fisheries, National Marine Fisheries Service, Department of Commerce, transmitting the Department's final rule — Fisheries of the Caribbean, Gulf of Mexico, and South Atlantic; Reef Fish Fishery of the Gulf of Mexico; Closure of the 2009 Deepwater Grouper Commercial Fishery [Docket No.: 040205043-4043-01] (RIN: 0648-XP56) received July 27, 2009, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Natural Resources.

2900. A letter from the Director, Office of Sustainable Fisheries, National Marine Fisheries Service, Department of Commerce, transmitting the Department's final rule — Magnuson-Stevens Fishery Conservation and Management Act Provisions; Fisheries of the Northeastern United States; Atlantic Sea Scallop Fishery; Closure of the Closed Area II Scallop Access Area to Scallop Vessels [Docket No.: 071130780-8013-02] (RIN: 0648-XQ05) received July 27, 2009, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Natural Resources.

2901. A letter from the Acting Director, Office of Sustainable Fisheries, National Marine Fisheries Service, Department of Commerce, transmitting the Department's final rule — Fisheries of the Exclusive Economic Zone off Alaska; Greenland Turbot, Arrowtooth Flounder, and Sablefish by Vessels Participating in the Amendment 80 Limited Access Fishery in Bering Sea and Aleutian Islands Management Area [Docket No.: 0810141351-9087-02] (RIN: 0648-XP97) received July 27, 2009, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Natural Resources.

2902. A letter from the Major General, AUS (Retired), Deputy Executive Director, Reserve Officers Association, transmitting the Association's Report of Audit for the year ending 31 March 2009, pursuant to Section 16, P.O. 90-595; to the Committee on the Judiciary.

2903. A letter from the Attorney — Advisor, Department of Homeland Security, transmitting the Department's final rule — Safety Zones: Summer 2009 Fireworks, Coastal Massachusetts [Docket No.: USCG-2009-0422] (RIN: 1625-AA08, 1625-AA00) received July 16, 2009, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Transportation and Infrastructure.

2904. A letter from the Attorney — Advisor, Department of Homeland Security, transmitting the Department's final rule — Safety Zone; Thunder on Niagara, Niagara River, North Tonawanda, NY [Docket No.: USCG-2009-0110] (RIN: 1625-AA00) received July 16, 2009, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Transportation and Infrastructure.

2905. A letter from the Attorney — Advisor, Department of Homeland Security, transmitting the Department's final rule — Safety Zone; Southside Summer Fireworks St. Clair River, Port Huron, MI [Docket No.: USCG-2009-0478] (RIN: 1625-AA00) received July 16, 2009, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Transportation and Infrastructure.

2906. A letter from the Attorney — Advisor, Department of Homeland Security, transmitting the Department's final rule — Safety Zone; Sigma Gamma Fireworks, Lake St. Clair, Grosse Pointe Farms, MI [Docket No.: USCG-2009-0477] (RIN: 1625-AA00) received July 16, 2009, pursuant to 5 U.S.C.

801(a)(1)(A); to the Committee on Transportation and Infrastructure.

2907. A letter from the Attorney — Advisor, Department of Homeland Security, transmitting the Department's final rule — Safety Zone: San Clemente Island Northwest Harbor August and September Training; Northwest Harbor, San Clemente Island, CA [Docket No.: USCG-2009-0522] (RIN: 1625-AA00) received July 16, 2009, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Transportation and Infrastructure.

2908. A letter from the Attorney — Advisor, Department of Homeland Security, transmitting the Department's final rule — Anchorage Regulations; Port of New York [Docket No.: USCG-2009-0045] (RIN: 1625-AA01) received July 16, 2009, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Transportation and Infrastructure.

2909. A letter from the Attorney, Department of Homeland Security, transmitting the Department's final rule — Safety Zone; Ohio River, Mile 460.0 to 470.5, Cincinnati, OH [Docket No.: USCG-2009-0310] (RIN: 1625-AA00) received June 22, 2009, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Transportation and Infrastructure.

2910. A letter from the Attorney — Advisor, Department of Homeland Security, transmitting the Department's final rule — Safety Zone; Sea World Summer Nights Fireworks; Mission Bay, San Diego, California [Docket No.: USCG-2009-0268] (RIN: 1625-AA00) received June 29, 2009, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Transportation and Infrastructure.

2911. A letter from the Program Analyst, Department of Transportation, transmitting the Department's final rule — Modification of Class E Airspace; Twin Falls, ID [Docket No.: FAA-2009-0253; Airspace Docket No.: 09-ANM-2] received July 22, 2009, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Transportation and Infrastructure.

2912. A letter from the Program Analyst, Department of Transportation, transmitting the Department's final rule — Modification of Class E Airspace; Montrose, CO [Docket No.: FAA-2009-0042; Airspace Docket No.: 09-ANM-1] received July 22, 2009, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Transportation and Infrastructure.

2913. A letter from the Program Analyst, Department of Transportation, transmitting the Department's final rule — Amendment of Class E Airspace; Port Clinton, OH [Docket No.: FAA-2009-0188; Airspace Docket No.: 09-AGL-5] received July 22, 2009, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Transportation and Infrastructure.

2914. A letter from the Program Analyst, Department of Transportation, transmitting the Department's final rule — Amendment of Class E Airspace; Devine, TX [Docket No.: FAA-2009-0089; Airspace Docket No.: 09-ASW-4] received July 22, 2009, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Transportation and Infrastructure.

2915. A letter from the Program Analyst, Department of Transportation, transmitting the Department's final rule — Establishment, Revision, and Removal of Area Navigation (RNAV) Routes; Alaska [Docket No.: FAA-2008-0926; Airspace Docket No.: 08-AAL-24] (RIN No.: 2120-AA66) received July 22, 2009, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Transportation and Infrastructure.

2916. A letter from the Program Analyst, Department of Transportation, transmitting the Department's final rule — Removal and Modification of VOR Federal Airways; Alaska [Docket No.: FAA-2008-0940; Airspace

Docket No.: 08-AAL-25] (RIN No.: 2120-AA66) received July 22, 2009, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Transportation and Infrastructure.

2917. A letter from the Program Analyst, Department of Transportation, transmitting the Department's final rule — Reduction of Fuel Tank Flammability in Transport Category Airplanes [Docket No.: FAA-2005-22997; Amendment Nos. 26-3, 121-345, 125-57, and 129-47], pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Transportation and Infrastructure.

2918. A letter from the Program Analyst, Department of Transportation, transmitting the Department's final rule — Standard Instrument Approach Procedures, and Takeoff Minimums and Obstacle Departure Procedures; Miscellaneous Amendments [Docket No.: 30675; Amdt. No. 2239], pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Transportation and Infrastructure.

2919. A letter from the Program Analyst, Department of Transportation, transmitting the Department's final rule — Airworthiness Directives; Airbus Model A330-200 and -300, and A340-200 and -300 Series Airplanes [Docket No.: FAA-2009-0137; Directorate Identifier 2008-NM-201-AD; Amendment 39-15967; AD 2009-15-04] (RIN: 2120-AA64) received July 22, 2009, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Transportation and Infrastructure.

2920. A letter from the Program Analyst, Department of Transportation, transmitting the Department's final rule — Airworthiness Directives; Bombardier Model BD-700-1A10 and BD-700-1A11 Airplanes [Docket No.: FAA-2009-0138; Directorate Identifier 2008-NM-216-AD; Amendment 39-15966; AD 2009-15-03] (RIN: 2120-AA64) received July 22, 2009, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Transportation and Infrastructure.

2921. A letter from the Program Analyst, Department of Transportation, transmitting the Department's final rule — Airworthiness Directives; Airbus Model A318, A319, A320, and A321 Airplanes [Docket No.: FAA-2008-0832; Directorate Identifier 2008-NM-067-AD; Amendment 39-15965; AD 2009-15-02] (RIN: 2120-AA64) received July 22, 2009, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Transportation and Infrastructure.

2922. A letter from the Program Analyst, Department of Transportation, transmitting the Department's final rule — Airworthiness Directives; Cessna Aircraft Company Models 208 and 208B Airplanes [Docket No.: FAA-2009-0638; Directorate Identifier 2009-CE-038-AD; Amendment 39-15968; AD 2009-15-05] (RIN: 2120-AA64) received July 22, 2009, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Transportation and Infrastructure.

2923. A letter from the Program Analyst, Department of Transportation, transmitting the Department's final rule — Airworthiness Directives; Hawker Beechcraft Corporation (Type Certificate previously held by Raytheon Aircraft Company) Model G36 Airplanes [Docket No.: FAA-2009-0633; Directorate Identifier 2009-CE-037-AD; Amendment 39-15964; AD 2009-15-01] (RIN: 2120-AA64) received July 22, 2009, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Transportation and Infrastructure.

2924. A letter from the Program Analyst, Department of Transportation, transmitting the Department's final rule — Airworthiness Directives; PILATUS AIRCRAFT LTD. Models PC-12, PC-12/45, PC-12/47, and PC-12/47E Airplanes [Docket No.: FAA-2009-0437; Directorate Identifier 2009-CE-018-AD; Amendment 39-15963; AD 2009-14-13] (RIN: 2120-AA64) received July 22, 2009, pursuant to 5 U.S.C.

801(a)(1)(A); to the Committee on Transportation and Infrastructure.

2925. A letter from the Program Analyst, Department of Transportation, transmitting the Department's final rule — Airworthiness Directives, Turbomeca S.A. ARRIUS 2F Turboshift Engines [Docket No.: FAA-2009-0330; Directorate Identifier 2008-NE-43-AD; Amendment 39-15961; AD 2009-14-11] (RIN 2120-AA64) received July 22, 2009, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Transportation and Infrastructure.

2926. A letter from the Program Analyst, Department of Transportation, transmitting the Department's final rule — Airworthiness Directives; Sikorsky Aircraft Corporation Model S-92A Helicopters [Docket No.: FAA-2009-0518; Directorate Identifier 2009-SW-22-AD; Amendment 39-15940; AD 2009-13-01] (RIN: 2120-AA64) received July 22, 2009, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Transportation and Infrastructure.

2927. A letter from the Program Analyst, Department of Transportation, transmitting the Department's final rule — Airworthiness Directives; Pratt & Whitney Models PW2037, PW2037(M), and PW2040 Turbofan Engines [Docket No.: FAA-2009-0417; Directorate Identifier 2009-NE-13-AD; Amendment 39-15955; AD 2009-14-05] (RIN: 2120-AA64) received July 22, 2009, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Transportation and Infrastructure.

2928. A letter from the Program Analyst, Department of Transportation, transmitting the Department's final rule — Airworthiness Directives; EADS-PZL "Warszawa-Okecie" S.A. Model PZL-104 WILGA 80 Airplanes [Docket No.: FAA-2009-0446; Directorate Identifier 2009-CE-024-AD; Amendment 39-15960; AD 2009-14-10] (RIN: 2120-AA64) received July 22, 2009, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Transportation and Infrastructure.

2929. A letter from the Program Analyst, Department of Transportation, transmitting the Department's final rule — Airworthiness Directives; Bombardier Model CL-600-1A11 (CL-600), CL-600-2A12 (CL-601), CL-600-2B16 (CL-601-3A, CL-601-3R, and CL-604) Airplanes [Docket No.: FAA-2009-0044; Directorate Identifier 2008-NM-132-AD; Amendment 39-15953; AD 2009-14-03] (RIN: 2120-AA64) received July 22, 2009, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Transportation and Infrastructure.

2930. A letter from the Program Analyst, Department of Transportation, transmitting the Department's final rule — Airworthiness Directives; Boeing Model 737-100, -200, -300, -400, and -500 Series Airplanes [Docket No.: FAA-2008-1116; Directorate Identifier 2007-NM-231-AD; Amendment 39-15954; AD 2009-14-04] (RIN: 2120-AA64) received July 22, 2009, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Transportation and Infrastructure.

2931. A letter from the Program Analyst, Department of Transportation, transmitting the Department's final rule — Airworthiness Directives; Dassault Model Falcon 2000EX Airplanes [Docket No. FAA-2009-0380; Directorate Identifier 2008-NM-153-AD; Amendment 39-15959; AD 2009-14-09] (RIN: 2120-AA64) received July 22, 2009, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Transportation and Infrastructure.

2932. A letter from the Program Analyst, Department of Transportation, transmitting the Department's final rule — Airworthiness Directives; Boeing Model 777 Airplanes [Docket No.: FAA-2008-0933; Directorate Identifier 2007-NM-261-AD; Amendment 39-15956; AD 2009-14-06] (RIN: 2120-AA64) received

July 22, 2009, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Transportation and Infrastructure.

2933. A letter from the Administrator, Research and Innovative Technology Administration, Department of Transportation, transmitting the Transportation Statistics Annual Report 2008, pursuant to 49 U.S.C. 111(f); to the Committee on Transportation and Infrastructure.

2934. A letter from the Program Analyst, Department of Transportation, transmitting the Department's final rule — Airworthiness Directives; Pratt & Whitney Canada Corp. (P&WC) Models PW305A and PW305B Turbofan Engines [Docket No.: FAA-2009-0046; Directorate Identifier 2008-NE-05-AD; Amendment 39-15962; AD 2009-14-12] (RIN: 2120-AA64) received July 22, 2009, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Transportation and Infrastructure.

2935. A letter from the Program Analyst, Department of Transportation, transmitting the Department's final rule — Airworthiness Directives; Dassault Model Mystere-Falcon 20-C5, 20-D5, 20-E5, and 20-F5 Airplanes [Docket No.: FAA-2009-0263; Directorate Identifier 2008-NM-137-AD; Amendment 39-15957; AD 2009-14-07] (RIN: 2120-AA64) received July 22, 2009, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Transportation and Infrastructure.

2936. A letter from the Chief Privacy Officer, Department of Homeland Security, transmitting the Department's third quarterly report for fiscal year 2009 from the Office of Security and Privacy, pursuant to Public Law 110-53, section 803; to the Committee on Homeland Security.

REPORTS OF COMMITTEES ON PUBLIC BILLS AND RESOLUTIONS

Under clause 2 of rule XIII, reports of committees were delivered to the Clerk for printing and reference to the proper calendar, as follows:

Mr. WAXMAN: Committee on Energy and Commerce. H.R. 2749. A bill to amend the Federal Food, Drug, and Cosmetic Act to improve the safety of food in the global market, and for other purposes; with an amendment (Rept. 111-234). Referred to the Committee of the Whole House on the State of the Union.

Ms. SLAUGHTER: Committee on Rules. House Resolution 691. Resolution providing for consideration of the bill (H.R. 2749) to amend the Federal Food, Drug, and Cosmetic Act to improve the safety of food in the global market, and for other purposes (Rept. 111-235). Referred to the House Calendar.

PUBLIC BILLS AND RESOLUTIONS

Under clause 2 of rule XII, public bills and resolutions of the following titles were introduced and severally referred, as follows:

By Mr. DAVIS of Alabama (for himself and Mr. BOUSTANY):

H.R. 3370. A bill to permit qualified withdrawals from a capital construction fund account for the maintenance or repair of United States-flag vessels provided that the maintenance or repair is performed within the United States; to the Committee on Ways and Means, and in addition to the Committee on Transportation and Infrastructure, for a period to be subsequently determined by the Speaker, in each case for consideration of such provisions as fall within the jurisdiction of the committee concerned.

By Mr. COSTELLO (for himself, Mr. OBERSTAR, Mr. MICA, Mr. PETRI, Mr. CARNAHAN, Mr. COBLE, Mr. MCMAHON, Mr. DUNCAN, Mr. DEFAZIO, Mr. EHLERS, Mr. FILNER, Mrs. CAPITO, Mr. HOLDEN, Mr. GERLACH, Mr. CAPUANO, Mr. DENT, Mr. LIPINSKI, Mrs. SCHMIDT, Mr. HALL of New York, Mr. COHEN, Mr. ALTMIRE, Mr. SCHAUER, Ms. SLAUGHTER, Mr. LEE of New York, Mr. HIGGINS, Mr. HOLT, Mr. PASCARELL, Ms. NORTON, and Ms. HIRONO):

H.R. 3371. A bill to amend title 49, United States Code, to improve airline safety and pilot training, and for other purposes; to the Committee on Transportation and Infrastructure.

By Mr. PRICE of Georgia:

H.R. 3372. A bill to establish Medicare performance-based quality measures, to establish an affirmative defense in medical malpractice actions based on compliance with best practices guidelines, and to provide grants to States for administrative health care tribunals; to the Committee on Energy and Commerce, and in addition to the Committee on Ways and Means, for a period to be subsequently determined by the Speaker, in each case for consideration of such provisions as fall within the jurisdiction of the committee concerned.

By Mr. CHAFFETZ:

By Ms. JENKINS (for herself, Mr. MORAN of Kansas, Mr. MOORE of Kansas, and Mr. TIAHRT):

H.R. 3391. A bill to allow for the continuation of critical access hospital designation for certain hospitals in geographic areas experiencing population growth; to the Committee on Ways and Means.

By Ms. KOSMAS (for herself, Ms. TITUS, Mr. KLEIN of Florida, Mr. MICA, Mr. GRAYSON, Ms. CORRINE BROWN of Florida, and Mr. POSEY):

H.R. 3392. A bill to prohibit any department or agency of the Federal Government from establishing a travel or conference policy that takes into account the perception of a location as a resort or vacation destination in determining the location for an event; to the Committee on Oversight and Government Reform.

By Mr. PATRICK J. MURPHY of Pennsylvania (for himself and Mr. BILBRAY):

H.R. 3393. A bill to amend the Improper Payments Information Act of 2002 (31 U.S.C. 3321 note) in order to prevent the loss of billions in taxpayer dollars; to the Committee on Oversight and Government Reform.

By Mr. PAUL (for himself and Mr. BURTON of Indiana):

H.R. 3394. A bill to amend the Federal Trade Commission Act concerning the burden of proof in false advertising cases involving dietary supplements and dietary ingredients; to the Committee on Energy and Commerce.

By Mr. PAUL (for himself and Mr. BURTON of Indiana):

H.R. 3395. A bill to amend the Federal Food, Drug, and Cosmetic Act concerning claims about the effects of foods and dietary supplements on health-related conditions and disease, and for other purposes; to the Committee on Energy and Commerce.

By Mr. PAUL:

H.R. 3396. A bill to amend title 5, United States Code, to prohibit agencies from enforcing rules that result in a specified economic impact until the requirements of those rules are enacted into law by an Act of Congress, and for other purposes; to the Committee on the Judiciary.

By Mr. SABLAN:

H.R. 3397. A bill to establish a program that enables college-bound residents of the Northern Mariana Islands to have greater choices among institutions of higher education, and for other purposes; to the Committee on Education and Labor.

By Mr. TIERNEY:

H.R. 3398. A bill to establish partnerships to create or enhance educational and skills development pathways to 21st century careers, and for other purposes; to the Committee on Education and Labor.

By Mr. KLEIN of Florida:

H. Con. Res. 171. Concurrent resolution authorizing the use of the Capitol Grounds for

an event to honor military personnel who have died in service to the United States and to acknowledge the sacrifice of the families of those individuals as part of the National Weekend of Remembrance; to the Committee on Transportation and Infrastructure.

By Mr. POSEY (for himself, Mr. DANIEL E. LUNGREN of California, Mr. SHAD-EGG, Mr. HERGER, Mr. MCCAUL, Mr. PITTS, Mr. BARTLETT, Mr. PUTNAM, Mr. BRADY of Texas, Mr. LINDER, Mr. BURTON of Indiana, Mr. BURGESS, Mr. SOUDER, Mr. LUCAS, Mr. BOOZMAN, Mr. WILSON of South Carolina, Mr. GRAVES, Mr. LATHAM, Mr. SULLIVAN, Mr. INGLIS, Mr. BILBRAY, Mr. BROWN of South Carolina, Mrs. BACHMANN, Mr. LAMBORN, Mr. COFFMAN of Colorado, Mr. KLINE of Minnesota, Mr. LUTKEMEYER, Mr. LATTI, Mr. MCHENRY, Mr. BROUN of Georgia, Ms. FALLIN, Mr. SCALISE, Mr. FLEMING, and Mrs. LUMMIS):

H. Res. 689. A resolution amending the Rules of the House of Representatives to ensure that Members, Delegates, and the Resident Commissioner have a reasonable amount of time to read legislation that will be voted upon, and for other purposes; to the Committee on Rules.

By Mr. BOEHNER:

H. Res. 690. A resolution raising a question of the privileges of the House.

By Mr. ARCURI (for himself, Mr. HASTINGS of Florida, Mr. MCGOVERN, Mrs. LOWEY, and Mr. CARDOZA):

H. Res. 692. A resolution supporting the goals and ideals of Tay-Sachs Awareness Month; to the Committee on Energy and Commerce.

By Mr. BRADY of Pennsylvania (for himself, Mr. GERLACH, Ms. SCHWARTZ, Mr. ANDREWS, Mr. SESTAK, Mr. LOBI-ONDO, Mr. DENT, Mr. HOLDEN, Mr. FATTAH, Mr. CASTLE, and Mr. PATRICK J. MURPHY of Pennsylvania):

H. Res. 693. A resolution honoring the life and accomplishments of Jim Johnson and extending the condolences of the House of Representatives to his family on the occasion of his death; to the Committee on Oversight and Government Reform.

By Mr. FORBES:

H. Res. 694. A resolution amending the Rules of the House of Representatives to require a two-thirds vote on a rule or order that dispenses with the first reading or considers a measure as read; to the Committee on Rules.

By Mr. RODRIGUEZ:

H. Res. 695. A resolution supporting an international park between Big Bend National Park in the United States and the protected areas of the Coahuila and Chihuahua States across the border in Mexico; to the Committee on Foreign Affairs.

MEMORIALS

Under clause 4 of Rule XXII, memorials were presented and referred as follows:

139. The SPEAKER presented a memorial of the Senate of the State of Michigan, relative to Senate Resolution No. 62 MEMORIALIZING CONGRESS TO PROVIDE FOR WAIVERS FROM REQUIREMENTS ATTACHED TO STIMULUS FUNDING THAT WOULD HAMPER THE STATE'S EFFORTS TO MEET ITS CONSTITUTIONAL OBLIGATION TO BALANCE FUTURE BUDGETS; to the Committee on Appropriations.

140. Also, a memorial of the House of Representatives of the Commonwealth of Penn-

sylvania, relative to HOUSE RESOLUTION No. 275 memorializing the Congress of the United States to designate the Honor and Remember Flag as a national emblem of service and sacrifice by the brave men and women of the United States Armed Forces who have given their lives in the line of duty; to the Committee on Armed Services.

141. Also, a memorial of the House of Representatives of the Commonwealth of Pennsylvania, relative to HOUSE RESOLUTION No. 311 urging the Congress of the United States to pass and the President to sign legislation instituting a national maximum interest rate for credit cards; to the Committee on Financial Services.

142. Also, a memorial of the House of Representatives of the State of Texas, relative to HOUSE RESOLUTION No. 798 expressing opposition to any federal legislation that would create an optional federal charter for insurers; to the Committee on Financial Services.

143. Also, a memorial of the Senate of the State of Illinois, relative to Senate Resolution No. 244 urging the United States Congress to designate the month of March, 2010 as National Essential Tremor Awareness Month for the purpose of raising awareness about the nation's number one neurological condition, affecting approximately 10 million Americans; to the Committee on Energy and Commerce.

144. Also, a memorial of the Legislature of the State of California, relative to Assembly Joint Resolution No. 11 declaring the week of April 19 to 25, 2009, inclusive, as "National Multicultural Cancer Awareness Week", and encouraging promotion of policies and programs that seek to reduce cancer disparities and as a result, improve cancer prevention, detection, treatment, and followup care for all Californians; to the Committee on Energy and Commerce.

145. Also, a memorial of the Senate of the State of Louisiana, relative to SENATE CONCURRENT RESOLUTION NO. 137 memorializing the Congress of the United States to enact legislation preventing unintended consequences of the Medicaid Federal Medical Assistance Percentage calculation on Louisiana's and other states' Medicaid programs caused by the substantial and temporary infusion of the public and private funds into state economics following major disasters such as hurricanes, floods and earthquakes; to the Committee on Energy and Commerce.

146. Also, a memorial of the Legislature of the State of California, relative to Assembly Joint Resolution No. 2 urging the United States government to urge the Mexican government to extend the deadline for submitting a claim; and urging the United States government to urge the Mexican government to accept a variety of documents, including, but not limited to, affidavits or copies of original documents, to prove that a bracero or his or her heir or beneficiary has a valid claim; to the Committee on Foreign Affairs.

147. Also, a memorial of the Legislature of the State of Arizona, relative to HOUSE CONCURRENT MEMORIAL 2009 URGING THE UNITED STATES CONGRESS TO OPPOSE ANY FEDERAL LEGISLATION THAT IMPINGES ON THE INDIVIDUAL RIGHT TO KEEP AND BEAR ARMS; to the Committee on the Judiciary.

148. Also, a memorial of the House of Representatives of the State of Michigan, relative to House Resolution No.: 106 MEMORIALIZING THE CONGRESS OF THE UNITED STATES TO RECTIFY THE IMBALANCE IN FEDERAL TRANSPORTATION FUNDING

THAT HAS CONSISTENTLY PUT MICHIGAN NEAR THE BOTTOM OF THE 50 STATES IN THE PERCENTAGE OF FEDERAL TRANSPORTATION TAX DOLLARS RETURNED TO THIS STATE EACH YEAR; to the Committee on Transportation and Infrastructure.

149. Also, a memorial of the House of Representatives of the State of Louisiana, relative to HOUSE RESOLUTION NO. 120 memorializing the United States Congress to establish an additional classification for airports; to the Committee on Transportation and Infrastructure.

150. Also, a memorial of the House of Representatives of the State of Louisiana, relative to HOUSE CONCURRENT RESOLUTION NO. 173 memorializing the United States Congress to take such actions as are necessary to restore the Medicare-Medicaid crossover payments nationally so all Medicare beneficiaries in Louisiana and nationwide have equal access to Medicare benefits; jointly to the Committees on Energy and Commerce and Ways and Means.

PETITIONS, ETC.

Under clause 1 of Rule XXII,

62. The SPEAKER presented a petition of City of Miami Commission, FL, relative to Resolution: R-09-0283 URGING PRESIDENT OBAMA TO GRANT TEMPORARY PROTECTIVE STATUS TO HAITIANS IN THE UNITED STATES; DIRECTING THE CITY CLERK TO TRANSMIT A COPY OF THIS RESOLUTION TO THE OFFICIALS AS STATED HEREIN; which was referred to the Committee on the Judiciary.

SENATE—Wednesday, July 29, 2009

The Senate met at 9:30 a.m. and was called to order by the Honorable TOM UDALL, a Senator from the State of New Mexico.

PRAYER

The Chaplain, Dr. Barry C. Black, offered the following prayer:

Let us pray.

God, our Father, thank You for eyes to see and hearts to feel the wonders of Your world. Fill our Senators today with fresh faith in Your power to protect and sustain our Nation and world. May they face challenges with the triumphant confidence that no weapon that has been formed can prevail against Your eternal purpose. Lord, keep them calm in temper, clear in mind, sound in heart, and strong in faith. Enable them to perform faithfully and well what You require, even to do justly, to love mercy, and to walk humbly with You. When this day's work is done, give them refreshment of mind, spirit, and body.

We pray in Your sacred Name. Amen.

PLEDGE OF ALLEGIANCE

The Honorable TOM UDALL led the Pledge of Allegiance, as follows:

I pledge allegiance to the Flag of the United States of America, and to the Republic for which it stands, one nation under God, indivisible, with liberty and justice for all.

APPOINTMENT OF ACTING PRESIDENT PRO TEMPORE

The PRESIDING OFFICER. The clerk will please read a communication to the Senate from the President pro tempore (Mr. BYRD).

The assistant legislative clerk read the following letter:

U.S. SENATE,
PRESIDENT PRO TEMPORE,
Washington, DC, July 29, 2009.

To the Senate:

Under the provisions of rule I, paragraph 3, of the Standing Rules of the Senate, I hereby appoint the Honorable TOM UDALL, a Senator from the State of New Mexico, to perform the duties of the Chair.

ROBERT C. BYRD,
President pro tempore.

Mr. UDALL of New Mexico thereupon assumed the chair as Acting President pro tempore.

RECOGNITION OF THE MAJORITY LEADER

The ACTING PRESIDENT pro tempore. The majority leader is recognized.

SCHEDULE

Mr. REID. Mr. President, this morning, following the remarks of the two leaders, the Senate will resume consideration of the Energy and Water appropriations bill. Cloture motions were filed last night. As a result, there is a 1 p.m. filing deadline for first-degree amendments. Rollcall votes are possible throughout the day. I would hope that people who want to offer amendments will do so, so we can complete this legislation. There is no reason we should not finish it today.

As I announced last night, I am going to turn to the Agriculture appropriations bill as soon as we complete the action on the bill that is now on the floor of the Senate.

RECOGNITION OF THE MINORITY LEADER

The ACTING PRESIDENT pro tempore. The Republican leader is recognized.

HEALTH CARE WEEK VIII, DAY III

Mr. MCCONNELL. Mr. President, throughout the debate on health care reform, the administration has made a point of asking various stakeholders to come together and do their part: Doctors and hospitals are being asked to find significant savings, seniors are being asked to make major sacrifices, and so are the States. Every week, it seems, the White House hosts an event aimed at showcasing some sacrifice being made by one group or another—every group, that is, except personal injury lawyers.

It is a glaring omission, since everyone knows that the constant threat of lawsuits is one of the reasons health care premiums for families have skyrocketed more than 100 percent over the past decade and the primary reason many doctors today spend a literal fortune on malpractice insurance even before they open their doors for business. To take just one example, neurosurgeons in Miami can expect to spend more on malpractice insurance every single year than many families in Miami can expect to spend on a new home.

This is a very serious problem, and everyone knows it. Yet we do not hear a word about it—not a word—from any of the Democratic-led committees in Congress that are working on reform. It is not because the administration has not raised the issue. Last month, the President himself acknowledged the widespread use of so-called defen-

sive medicine or the practice of prescribing drugs or tests that are not really needed just to protect oneself from the threat of a lawsuit. During the same speech, the President said we need to explore a whole range of ideas about how to scale back defensive medicine. Well, Democrats in Congress must not have been paying much attention to that part of the speech because I have not heard a single word on this issue from any Democrat since—not one. One exception was the recent suggestion by some in the administration that doctors are performing unnecessary surgeries just to make an extra buck. I think a better explanation is the one the President gave last month when he said doctors often perform certain procedures just to protect themselves from frivolous lawsuits.

The costs associated with ever-increasing malpractice insurance and defensive medicine are indeed substantial, and both are simply, of course, passed along to consumers in the form of higher costs for even basic treatments and procedures. Many Americans pay an even higher price when doctors decide the threat of lawsuits and the cost of insurance just is not worth it and decide to close down their practices altogether. Every State feels the effect of out-of-control malpractice suits. One study suggests that Kentucky alone is 2,300 doctors short of the national average—a shortage that could be reduced, in part, by getting a handle on malpractice suits.

I have spoken before about the effects a culture of jackpot lawsuits has on everyday Americans, on people such as Rashelle Perryman of Crittenden County, KY. According to an article in the Louisville Courier Journal, Rashelle's first two babies were born at Crittenden County Hospital, which is about a 10-minute ride from her home. But her third child had to be delivered about 40 miles away. Why? Well, the rising malpractice rates had forced doctors at Crittenden County Hospital to stop delivering babies altogether. They just could not afford the malpractice insurance.

When the threat of lawsuits drives insurance premiums so high that many doctors are forced to go out of business, that mothers across the country cannot find a local obstetrician, and that health insurance costs for everyone continue to go up, we have a problem that needs to be addressed. Yet every single one of the so-called comprehensive health care reform proposals Democrats are currently putting together in Congress completely and totally ignores this issue.

The only people who benefit from the current system are the personal injury lawyers who can end up taking up to a third of every settlement and, frankly, if it is appealed, an even greater percentage, and protecting them is not what health care reform was supposed to be about. Yet it is hard to escape the conclusion that this is precisely what is going on here. If the administration wants to be comprehensive in its approach, it should ask the personal injury lawyers to make a sacrifice, just as they have asked America's seniors, doctors, Governors, and small business owners to make a sacrifice.

Americans do not want a government takeover of health care. They want reforms that everyone can understand and that all of us can agree on. And nothing could be simpler or more straightforward than putting an end to the junk lawsuits that drive up costs and put doctors out of business. Americans do not want grand schemes, they want commonsense proposals. Medical liability reform would be a very good place to start.

Mr. President, I yield the floor.

RESERVATION OF LEADER TIME

The ACTING PRESIDENT pro tempore. Under the previous order, the leadership time is reserved.

ENERGY AND WATER DEVELOPMENT AND RELATED AGENCIES APPROPRIATIONS ACT, 2010

The ACTING PRESIDENT pro tempore. Under the previous order, the Senate will resume consideration of H.R. 3183, which the clerk will report.

The assistant legislative clerk read as follows:

A bill (H.R. 3183) making appropriations for energy and water development and related agencies for the fiscal year ending September 30, 2010, and for other purposes.

Pending:

Dorgan amendment No. 1813, in the nature of a substitute.

Reid amendment No. 1846 (to amendment No. 1813), to modify provisions relating to the Department of the Interior.

Alexander amendment No. 1862 (to amendment No. 1813), to limit disbursement of additional funds under the Troubled Asset Relief Program to certain automobile manufacturers, to impose fiduciary duties on the Secretary of the Treasury with respect to shareholders of such automobile manufacturers, to require the issuance of shares of common stock to eligible taxpayers which represent the common stock holdings of the United States Government in such automobile manufacturers.

The ACTING PRESIDENT pro tempore. The Senator from North Dakota.

HEALTH CARE

Mr. DORGAN. Mr. President, we are waiting to proceed on the legislation that has come from the Appropriations Subcommittee on Energy and Water, which I chair. We are on the bill, but

we are waiting for amendments and discussion.

But I want to make a point. We have had people coming to the floor of the Senate yesterday, now this morning, incessantly over a long period of time, talking about health care. Health care is, obviously, very important; no question about that. The relentless increase in the cost of health care hurts families. It hurts business. It hurts government programs that provide for health care. So we need to do something about that.

But it is interesting. What I hear on the floor of the Senate from the critics of these issues is: What is wrong? What is wrong? Well, it does not take a lot of energy or a lot of time to determine what is wrong and be a critic. I understand that.

I have often told the story of Mark Twain, who was asked to debate once, and he said: Of course I will be engaged in that debate, as long as I can take the negative side.

They said: Well, we have not even told you the subject of the debate.

He said: Oh, it doesn't matter. The negative side will take no preparation.

So it is with these discussions on the floor that I have just heard a moment ago and heard all day yesterday as I sat here on the floor, talking about what is wrong. Well, do you know what, we know what is wrong. What is wrong is that we have this relentless rise of health care costs. We spend more on health care than anybody else in the world, by far, and we rank somewhere around 41st in life expectancy. We spend twice as much per person than almost everybody else in the world spends on health care.

I notice that all those critics who come out here talking about what is wrong with this plan or that plan never talk about prescription drugs because most of those who have been out here criticizing the various plans are people who vote against legislation to put downward pressure on prescription drugs. Yet one of the fastest rising areas of health care costs is prescription drugs.

Let me, if I might, ask unanimous consent to show on the floor of the Senate two bottles that would contain prescription drugs.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

Mr. DORGAN. These two bottles I hold in my hand, which I have shown many times, contain Lipitor. It is medicine produced in Ireland and then shipped all around the world. This Lipitor, as you can see, comes from identical bottles. The same tablet, the same medicine, produced in the same plant by the same company, FDA-approved by our Food and Drug administration in our country, is put in two different bottles. One is shipped to the United States, this one, and the other

is shipped to Canada. What is the difference? Well, there is no difference in the medicine. It came from the same place, produced by the same company. The difference is price. The Canadians get to pay half the price the Americans pay.

It is not just Lipitor, the most popular cholesterol-lowering drug that exists out there. It is not just Lipitor. It is prescription drug after prescription drug. The American people get to pay the highest prices in the world. You want to talk about how you cut health care costs? How about taking a whack at this and saying it is not fair that the American people should pay the highest prices in the world for prescription drugs. Why are they required to pay the highest price in the world? Because there is kind of a sweetheart deal in law that says the only entity that can reimport prescription drugs is the drug manufacturer itself.

Much of the ingredients in these drugs come from all around the world—China, just as an example. The manufacturers can produce these drugs in Ireland, using ingredients from all around the world, and then bring them in to sell to the American consumer. But the American consumer cannot access the same FDA-approved drug sold in virtually every other industrial country at a fraction of the price the American consumer is charged.

Why, when we hear these critics come to the floor on health care issues, do we not hear them suggest: Here is an area where we could substantially cut costs and give the American consumer the opportunity everybody else has; that is, to shop for these FDA-approved drugs in areas where you see much lower prices?

The pharmaceutical industry will say: Well, if you allow the American people to do that and if we can't charge the highest prices to the American people for prescription drugs, we will not have the money to do our research to find new drugs. Well, that is not true. The fact is, the pharmaceutical industry spends more money on research in Europe than they do in the United States and in virtually every European country, the European consumers get to pay less money for the same drugs that American consumers are now charged.

A bipartisan group of us has offered legislation to give the American consumer the right to access these lower cost prescription drugs from areas where you can pay a fraction of the price for the identical drug the American consumer pays the highest price in the world for. But we have a staunch bunch of folks in this Chamber who support the pharmaceutical industry and who decide that the American people shouldn't have this right. I would say to those who are the critics of virtually anything anybody talks about in health care: Maybe you ought to decide

to support those of us who have introduced bipartisan legislation to deal with the issue of the prescription drug prices in which the American people are charged the highest prices in the world. It is not fair; it has gone on too long; and it needs to be changed.

With respect to health care, generally, this issue is one of those issues that is very important. We are in the middle of a very deep recession. I think job one in this country, by far, is to put the country back on track so people can get back on payrolls, get back to work, and have jobs. That makes almost everything else possible. This is the deepest recession since the Great Depression, and we have a lot of work to do. This President inherited a mess, no question about that. He inherited a \$1.3 trillion deficit this year. It is now going to be \$1.9 trillion because the President advanced and the Congress passed an economic recovery program to try to stimulate the economy. But we need to get this economy back on track and then we need to begin trimming back these budget deficits. We cannot, for any length of time, continue to provide a level of government the American people are either unable or unwilling to pay for. That is not a path that is sustainable. It is not a path that works. But the President, when he took office, said there are a number of other things we need to do—one of which is to try to get some control over these escalating health care costs.

I don't know exactly how this is going to end up. I don't know what plan might or might not exist at the end of the day, but I think Congress is going to find a way through this. I think it is useful and important and productive for us to be working and working hard to see: What are the solutions? How do we put downward pressure on prices? How do we try to provide broader coverage for those who don't now have health care coverage? I think we can do this. It might well be it has to be done in a couple phases, the first of which is to put downward pressure on the pricing and the second of which is to extend coverage. However we do it, we need to decide that health care costs are rising far more rapidly than is sustainable. They blow a hole in the federal budget deficit because the Federal Government, through Medicare and through Medicaid, is the largest consumer of health care, so we don't have much choice but to find a way to do this.

I understand there is a lot in this health care system that wants to protect what is, one of which is prescription drugs. I mentioned this prescription drug called Lipitor. Most people would know the name of this. Why? Because when they leaf through Newsweek or Time magazine, they will see a full-page ad for Lipitor. When they shave in the morning or brush their

teeth in the morning, if they have a television near their bathroom, they will understand about Lipitor. They will understand about the purple pill. They will understand about prescription drugs because relentless advertising is driven toward the consumer to say: Go ask your doctor if you shouldn't be taking this drug. Go check with your doctor. Isn't the purple pill right for you? There is relentless consumer advertising for something you can't buy unless a doctor believes you need it and a doctor prescribes it for you. Is that something we ought to take care of maybe? I think so.

There are a whole range of areas that I think are very important in health care that we need to try to do something about. I think we can. It is horribly complicated, very difficult, a very heavy lift, and we need to do it in a way that first and foremost puts downward pressure on health care pricing. The fact is we cannot and should not be spending twice as much as anybody else in the world per capita on health care only to find out that we rank 41st in life expectancy. That means we are spending much more than anybody else and not getting the outcome or the results.

So I would say to the people—including this morning, the first thing out of the box is the critics of health care, once again, relentlessly on the floor telling us what is wrong. As I have said, Mark Twain knew the negative side requires no preparation. So I am not sure these are well-prepared arguments, but they are certainly relentless. It is nice to hear what is wrong. Maybe as 100 Senators who dress up in suits in the morning, we could come and spend the entire day talking about what is right. This is a great country, one of which we have the privilege to live in freedom, we have the privilege to be engaged in public debate. Maybe let's spend a little more time trying to figure out what is right about this country and find out what kinds of solutions can unite us rather than divide us and find out how we get the best of each rather than the worst of both when we talk about the political parties.

If we can do that, maybe we will advance this country's interests.

The fact is we all stand in the same hole. It is a very deep economic hole, the deepest since the Great Depression, and we will all be well advised, it seems to me, to find ways to begin working together to address these issues.

I yield the floor and suggest the absence of a quorum.

The ACTING PRESIDENT pro tempore. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. CORKER. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

Mr. CORKER. Mr. President, I ask unanimous consent to set aside the pending amendment, in no way to disrupt the order—to come back to that.

The ACTING PRESIDENT pro tempore. Is there objection?

Mr. DORGAN. Mr. President, reserving the right to object, and I will not object, let me further ask unanimous consent that following the presentation of this amendment, we have a unanimous consent agreement to set aside this amendment for a Democratic amendment that is about to be offered.

The ACTING PRESIDENT pro tempore. Is there objection?

Without objection, it is so ordered.

The Senator from Tennessee is recognized.

AMENDMENT NO. 1865 TO AMENDMENT NO. 1813

Mr. CORKER. Mr. President, I thank the Senator from North Dakota for his agreeing to let me do this.

I wish to call up amendment No. 1865.

The ACTING PRESIDENT pro tempore. The clerk will report.

The assistant legislative clerk read as follows:

The Senator from Tennessee [Mr. CORKER] proposes an amendment numbered 1865 to Amendment No. 1813.

Mr. CORKER. Mr. President, I ask unanimous consent that the reading of the amendment be dispensed with.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

The amendment is as follows:

(Purpose: To authorize the Secretary of the Treasury to delegate management authority over troubled assets purchased under the Troubled Asset Relief Program, to require the establishment of a trust to manage assets of certain designated automobile manufacturers, and for other purposes)

At the appropriate place, insert the following:

SEC. ____ AUTHORITY OF THE SECRETARY OF THE TREASURY TO DELEGATE TARP ASSET MANAGEMENT; CREATION OF MANAGEMENT AUTHORITY FOR AUTOMOBILE MANUFACTURERS ASSISTED UNDER TARP.

(a) **AUTHORITY TO DESIGNATE MANAGEMENT.**—Section 106(b) of the Emergency Economic Stabilization Act of 2008 (12 U.S.C. 5216(b)) is amended by inserting before the period at the end the following: “, and the Secretary may delegate such management authority to a private entity, as the Secretary determines appropriate, with respect to any entity assisted under this Act”.

(b) **FEDERAL ASSISTANCE LIMITED.**—Notwithstanding any provision of the Emergency Economic Stabilization Act of 2008, or any other provision of law, no funds may be expended under the Emergency Economic Stabilization Act of 2008 (Public Law 110-343) or to carry out the Advanced Technology Vehicles Manufacturing Incentive Program established under section 136 of the Energy Independence and Security Act of 2007 (42 U.S.C. 17013) on or after the date of enactment of this Act, until the Secretary of the Treasury transfers all voting, nonvoting, and

common equity in any designated automobile manufacturer to a limited liability company established by the Secretary for such purpose, to be held and managed in trust on behalf of the United States taxpayers.

(C) APPOINTMENT OF TRUSTEES.—

(1) IN GENERAL.—The President shall appoint 3 independent trustees to manage the equity held in the trust, separate and apart from the United States Government.

(2) CRITERIA.—Trustees appointed under this subsection—

(A) may not be elected or appointed Government officials;

(B) shall serve at the pleasure of the President, and may be removed for just cause in violation of their fiduciary responsibilities only; and

(C) shall serve without compensation for their services under this section.

(d) DUTIES OF TRUST.—Pursuant to protecting the interests and investment of the United States taxpayer, the trust established under this section shall, with the purpose of maximizing the profitability of the designated automobile manufacturers—

(1) exercise the voting rights of the shares of the taxpayer on all core governance issues;

(2) select the representation on the boards of directors of any designated automobile manufacturer; and

(3) have a fiduciary duty to the American taxpayer for the maximization of the return on the investment of the taxpayer made under the Emergency Economic Stabilization Act of 2008, in the same manner and to the same extent that any director of an issuer of securities has with respect to its shareholders under the securities laws and all applications of State law.

(e) LIQUIDATION.—The trustees shall liquidate the trust established under this section, including the assets held by such trust, not later than December 24, 2011.

(f) DEFINITIONS.—As used in this section—

(1) the term “designated automobile manufacturer” means an entity organized under the laws of a State, the primary business of which is the manufacture of automobiles, and any affiliate thereof, if such automobile manufacturer—

(A) has received funds under the Emergency Economic Stabilization Act of 2008 (Public Law 110-343), or funds were obligated under that Act, before the date of enactment of this Act; and

(B) has filed for bankruptcy protection under chapter 11 of title 11, United States Code, during the 90-day period preceding the date of enactment of this Act;

(2) the term “Secretary” means the Secretary of the Treasury or the designee of the Secretary; and

(3) the terms “director”, “issuer”, “securities”, and “securities laws” have the same meanings as in section 3 of the Securities Exchange Act of 1934 (15 U.S.C. 78e).

Mr. CORKER. Mr. President, this is an amendment to deal with the ownership that I think many Americans have concerns about in private companies. What this amendment would do is for any company that the U.S. Government owns more than 20 percent of, it would place—such as, by the way, General Motors—what it would do is place those companies into a trust and that trust would be managed by three very professional individuals known to be leaders; people such as, I would hope, Jack Welch and others who have

shown—Warren Buffett—people who have shown the ability to actually look at assets of this nature and they would manage this particular stock ownership through December 24 of 2011. They would dispense these assets in a way that benefits the U.S. taxpayers. In the event that at that time they were able to come to Congress and let us know it was not in the taxpayers’ interests for this to be done, then we could certainly grant an extension.

The point is to make sure the taxpayers benefit from what has happened but at the same time keep all of us—as the Senator from North Carolina alluded to the other day, 100 people in suits—from actually being involved and keeping the administration from being involved, in any way, from managing these companies. I think all of us are very concerned about governmental ownership. This amendment, again, would allow the taxpayers who were sold TARP on the basis that they would get a return on their investment—and, in essence, this company—for instance, General Motors has over \$50 billion in taxpayer money in it today. What this amendment would do is it would separate the line between government and these companies but at the same time allow the taxpayers of this country and our U.S. Government to recoup those moneys to pay down this ever-building debt that our country has.

Other companies would come into this category once we got to the 20-percent level: Citigroup, AIG, obviously, would fall into this category. This amendment solves the issue for the long haul because as companies such as General Motors and others come into ownership by U.S. taxpayers—again, we are uncomfortable with that—it separates that ownership and puts it into a trust. It would be something the administration and this Congress can have nothing to do with. Yet the taxpayers’ assets, these companies that we put lots of money in, are managed to the best interest of the U.S. taxpayer.

With that, I thank my colleague for letting me call up this amendment. I realize this will be set aside, and we will be moving to other business. I hope, at some point during this debate, we will have a vote on this amendment.

I thank you very much for the time and I yield the floor.

Mr. DORGAN. Mr. President, I make a point of order that a quorum is not present.

The ACTING PRESIDENT pro tempore. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. CORKER. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

AMENDMENT NO. 1865, AS MODIFIED

Mr. CORKER. Mr. President, I ask that amendment No. 1865, which I called up earlier, be modified as presented at the desk.

The PRESIDING OFFICER. The amendment is so modified.

The amendment (No. 1865), as modified, is as follows:

At the appropriate place, insert the following:

SECTION 1. SHORT TITLE.

This Act may be cited as the “TARP Recipient Ownership Trust Act of 2009”.

SEC. 2. AUTHORITY OF THE SECRETARY OF THE TREASURY TO DELEGATE TARP ASSET MANAGEMENT.

Section 106(b) of the Emergency Economic Stabilization Act of 2008 (12 U.S.C. 5216(b)) is amended by inserting before the period at the end the following: “, and the Secretary may delegate such management authority to a private entity, as the Secretary determines appropriate, with respect to any entity assisted under this Act”.

SEC. 3. CREATION OF MANAGEMENT AUTHORITY FOR DESIGNATED TARP RECIPIENTS.

(a) FEDERAL ASSISTANCE LIMITED.—Notwithstanding any provision of the Emergency Economic Stabilization Act of 2008, or any other provision of law, no funds may be expended under the Troubled Asset Relief Program, or any other provision of that Act, on or after the date of enactment of this Act, until the Secretary of the Treasury transfers all voting, nonvoting, and common equity in any designated TARP recipient to a limited liability company established by the Secretary for such purpose, to be held and managed in trust on behalf of the United States taxpayers.

(b) APPOINTMENT OF TRUSTEES.—

(1) IN GENERAL.—The President shall appoint 3 independent trustees to manage the equity held in the trust, separate and apart from the United States Government.

(2) CRITERIA.—Trustees appointed under this subsection—

(A) may not be elected or appointed Government officials;

(B) shall serve at the pleasure of the President, and may be removed for just cause in violation of their fiduciary responsibilities only; and

(C) shall serve without compensation for their services under this section.

(c) DUTIES OF TRUST.—Pursuant to protecting the interests and investment of the United States taxpayer, the trust established under this section shall, with the purpose of maximizing the profitability of the designated TARP recipient—

(1) exercise the voting rights of the shares of the taxpayer on all core governance issues;

(2) select the representation on the boards of directors of any designated TARP recipient; and

(3) have a fiduciary duty to the American taxpayer for the maximization of the return on the investment of the taxpayer made under the Emergency Economic Stabilization Act of 2008, in the same manner and to the same extent that any director of an issuer of securities has with respect to its shareholders under the securities laws and all applications of State law.

(d) LIQUIDATION.—The trustees shall liquidate the trust established under this section, including the assets held by such trust, not later than December 24, 2011, unless the trustees submit a report to Congress that

liquidation would not maximize the profitability of the company and the return on investment to the taxpayer.

SEC. 4. DEFINITIONS.

As used in this Act—

(1) the term “designated TARP recipient” means any entity that has received financial assistance under the Troubled Asset Relief Program or any other provision of the Emergency Economic Stabilization Act of 2008 (Public Law 110-343), such that the Federal Government holds or controls not less than a 20 percent ownership stake in the company as a result of such assistance;

(2) the term “Secretary” means the Secretary of the Treasury or the designee of the Secretary; and

(3) the terms “director”, “issuer”, “securities”, and “securities laws” have the same meanings as in section 3 of the Securities Exchange Act of 1934 (15 U.S.C. 78c).

Mr. CORKER. I thank the Chair.

If there is no objection from the managers, I might expand on the amendment one more time, since there is no activity on the floor.

Mr. DORGAN. If the Senator will yield, let me say that I happen to be a cosponsor of the amendment. It is being offered to the Energy and Water appropriations bill. There may well be a rule XVI against it. It appears to be legislating on an appropriations bill.

Before the Senator expands on his remarks, I think he and Senator WARNER have offered a constructive idea, one that I support and have cosponsored prior to it being on the floor. I think it is useful for Senators to hear a complete description of the proposal. If it is not resolved on this bill—and it probably will not be—my hope is it will be resolved on another piece of legislation.

The ACTING PRESIDENT pro tempore. The Senator from Tennessee is recognized.

Mr. CORKER. Mr. President, I thank the Senator for his comments. What I have tried to do in this amendment with Senator WARNER—both of us serving on the Banking Committee—is to create a solution that solves the issue of us having U.S. Government ownership in companies, which I think makes most everybody in this body very uncomfortable.

At the same time, we can deal with the issue of this massive Federal deficit. I mentioned earlier that the taxpayers of this country were sold the TARP package, and we voted it into activity last fall on the fact that this \$700 billion that was being invested in financial institutions at the time—as we know, it evolved to General Motors and other companies—that money was going to be invested in these companies, and 100 percent of the repayment was going to be used to pay down the Federal deficit. That is what we all thought we were doing at that time. That bill passed out of this body with 74 or 75 votes, with all of us present in the Chamber.

Again, the American people and all of us in this body have become concerned

about what types of political activities can take place when the U.S. Government owns a bank or automobile company. I have seen it up close and personal, and I understand that political decisions can be made that are not in the best interests of the company and certainly not in the best interests of the taxpayers.

How do you solve that, create a scenario where these companies are separate from us, where Representatives and Senators are not calling up trying to help the companies decide what transactions they are going to be involved in but at the same time make sure the proceeds of sales from these companies or the securities we own in them actually end up reducing the deficit?

This is a balanced approach. Senator WARNER has joined me in this, a bipartisan effort to, again, move away from this body, move away from the administration and the House of Representatives any ability to affect these companies politically but at the same time to ensure that any proceeds coming from the sale of these securities ends up going to pay down the Federal deficit, which I think all of us are concerned about.

We are all aware that under the 10-year budget that is proposed, our deficit doubles from what it has been the entire history of our country—doubles over 5 years and triples over 10 years. I think people around this country, rightly so, are worried. I got a town-hall phone call last night, and people are concerned about the deficit. We are all concerned. This bill will help solve that, not make it worse, and at the same time remove us from any kind of politicization of these companies.

With that, I yield the floor and suggest the absence of a quorum.

The ACTING PRESIDENT pro tempore. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. WYDEN. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

HEALTH CARE REFORM

Mr. WYDEN. Mr. President, I wish to spend a few minutes this morning talking about some of the positive developments that are taking place right now on this issue of health care reform. For example, this morning, the President is out talking to workers who already have insurance about how health care reform will work for them. He is spending his political capital. He is using the bully pulpit that is the White House. It is clear that this is a priority for the President of the United States.

A second positive development is in the Senate Finance Committee. We have a bipartisan group of six Senators. They are putting in killer hours

at this point. I have been kidding them that I suspect they are being fed intravenously, but they are trying to put together a bipartisan health reform effort, and I appreciate what they are doing.

Third, I note my good friend from Utah on the floor of the Senate this morning. He and I have made it clear that the sponsors of the Healthy Americans Act, a bipartisan group of 15 of senators, are very open to working with Chairman BAUCUS, Chairman DODD, and the President of the United States in a bipartisan fashion to fix health care.

So the question that is front and center in all of these discussions with the President, with the bipartisan group in the Finance Committee, with the bipartisan group of Healthy Americans Act sponsors that Senator BENNETT and I are part of, is how we control costs in health care. What are we going to do to make health care more affordable?

It is our judgment that the key to making health care more affordable is to make sure people have bargaining power and people have choice—the same choice that Members of Congress have. The distinguished Senator from New Mexico, the Senator from Utah, and myself actually belong to something that is pretty much an exchange, which is like a farmers market for health insurance. But essentially what we in the Senate have is the opportunity to choose from a menu of private health policies. We get rewarded for making an economical selection to save on our premiums, and we get rewarded when we choose a program that puts more emphasis on prevention and health. So when Senators shop wisely, they end up being wealthier and healthier as a result of being able to participate in a big exchange.

What Senator BENNETT and I wish to do today is extend that kind of bargaining power to everybody in our country. After a period of time, a phase-in over a few years, everybody in our country ought to have a chance to have the kind of bargaining power and the kind of clout that Members of Congress have. Everybody in our country ought to be in a position to choose a policy that works for them. And when they make a good choice, when they shop wisely, the extra money should go into their own pockets. That is the kind of approach Senator BENNETT and I have advocated. It is a way to focus on these exchanges, these farmers markets which, in my view, are the key to getting health reform right.

What these exchanges do, if we set it up right, is they give all the middle-class people who are insured today in New Mexico, Utah, and Oregon a chance to come out winners under health reform at the get-go. And if you are already insured, the President has said he is going to let you keep the

coverage you have. Now that makes a lot of sense. We senators hear that at every meeting back in our states.

But if, for example, in Utah, Oregon, or New Mexico, you don't like the coverage you have and you can get a better deal at the exchange, something that puts more money in your pocket, something that helps you and your family, let's let people do that under Free Choice.

Under the Free Choice proposal Senator BENNETT and I have advocated, that we have presented to Chairman BAUCUS, Chairman DODD, and the President of the United States, this is something we can do for the insured that helps them save money right at the get-go.

Regrettably, a number of the bills that have been considered in the Congress do not give people those kinds of choices. And when we look at how these bills are set up, there are what are called "firewalls" that restrict people from getting these choices. A lot of the people who are advocating for a public option are not even going to get the choice to enroll in one.

The key to helping people who already have insurance, the 160 million who get coverage through their employer today, is to get these exchanges right and to make sure that everybody has bargaining power within these exchanges as part of a big group.

I have a private policy as a Member of Congress. The people in Oregon, in effect, are my employer. They pay a portion of it. We have a million people in our group. That is the way to spread a lot of cost and risk through a group so you can get real value. Let's set these exchanges up at least so they contain big groups through a regional approach. Senator BENNETT and I said we are open to a variety of ways of doing this. But let's make sure that everybody has some clout in the marketplace. If you are a small business in New Mexico today, you get strangled by the administrative costs of health care. You don't have much clout in the marketplace. As a small employer, you may be paying 30 percent of your health care dollar for administration. It should not be that way. We should be giving those small businesses relief.

What Senator BENNETT and I have said with our free choice proposal is if you are an employer in New Mexico or elsewhere in this country, you may want to take your workers to the exchange. This is employer-sponsored insurance. This is an employer taking their workers to the exchange. As an employer, you can go to the exchange in New Mexico and say you want a discount because you are taking your group of workers to the exchange. That is playing hard ball with the private insurance business. That is saying to the insurers in New Mexico you are not doing good enough; you are not giving me a good enough deal, so I am going

to have a chance to go to the insurance exchange and get a better one. We call it Free Choice: more options for employers and more options for workers. Options that look like what Members of Congress have.

I fear if we do not set up a system that gets this exchange right so that people have bargaining power—employers and employees—we are not going to be able to get the kind of cost containment the President of the United States has identified correctly as the heart of health care reform. It is about holding down costs. It is about making coverage more affordable.

I urge colleagues to look at the article that was written in this morning's Washington Post by Ezra Klein talking about the importance of the exchange and what it can mean for the bargaining power of middle-class people and businesses if it is set up right.

We know how to set it up right because it resembles the system that all of us enjoy in the Senate. At the beginning of the year, senators have a choice, a menu of options. If you make a good one, the money goes right into your pocket.

One last point with respect to Free Choice. Sometimes the best choices are not the most expensive choices. Senator BENNETT knows a lot about this because in Utah they have a system, intermountain, that has illustrated that the best choices are not always the expensive choices. Let's make it easier for people to choose an Intermountain program or a Mayo program or any of the other integrated systems that are regarded as the gold standard in terms of quality.

One of the concerns I have about all of these firewalls in the legislation that is being considered is that Americans around this country, after a big push in the Congress to choose quality, are not even going to have the opportunity to choose a program like Mayo or Intermountain that gets more value for the health care dollar.

There are some positive developments in the health care debate going on today. To highlight some of these developments, the President is out talking to workers; negotiations are going on in the Senate Finance Committee; and there is the very gracious approach that Senator BENNETT and a number of Republicans are taking in terms of saying: Look, we want this to be bipartisan, we want to meet the President halfway.

Each of those developments, it seems to me, is very positive. Fixing health care is absolutely key to fixing the economy.

As Ezra Klein pointed out this morning in the Washington Post, the reason people's take-home pay isn't going up is because medical costs are gobbling up everything in sight. So the key to fixing health care is promoting free choice; getting these exchanges right

so employers and employees have more opportunities to hold costs down.

I think, in view of these positive developments I have highlighted, there is reason for Senators to stay at it and keep working in a bipartisan way, and real progress is going to be made before this body leaves for the August break.

I yield the floor.

The ACTING PRESIDENT pro tempore. The Senator from Utah.

Mr. BENNETT. Mr. President, I have listened with interest to my friend from Oregon outline his relentless determination to get a solution to this problem, and I pay tribute to him for his willingness to do that. I am happy to follow his leadership, as we do our best to support what has been known colloquially around the country as the Wyden-Bennett bill, although in Utah we refer to it as the Bennett-Wyden bill.

We have heard a lot of debate during the time when we should have been dealing with energy and water. Senator after Senator comes down and asks for permission to speak as in morning business, and they always speak about health care. Since we haven't anybody else to speak about the bill on the floor, Chairman DORGAN has indulged them in that bit of morning business.

The one thread that has run through much of the statements about health care has been that we must get rid of the present system, as if that were a debatable issue. Everybody recognizes we must get rid of the present system. The proposal Senator WYDEN and I have been behind gets rid of the present system. And coming to the floor and giving example after example of how the present system has failed Americans is not the same as putting forward a legitimate proposal as to how to deal with the present system. We discussed that a little yesterday, so I will not go into it again.

I wish to make one slight addition to the comments Senator WYDEN made with respect to choice. When I first got here, and the First Lady of the United States, Hillary Clinton, was proposing a health care program, one of the mantras we heard on the street from people who would demonstrate was: We want what Members of Congress have. We want the plan you have.

And I said—half facetiously but half seriously—I want the plan I had before I came here. Because the plan I had was better than the one we got as Members of Congress.

I point out the reason I wanted that plan is that I got to pick what that plan would be. How did I get to pick what that plan would be? I got to pick because I was the CEO of the company that made the choice. I was the only person in that company who got to pick, because once I made the decision that this is what we will have in the company, everybody else in the company was dependent upon my wisdom.

Senator WYDEN has pointed out we do have a wide range of choices in the plan that are available to us as Federal employees. I underscore, when I discuss this with people in Utah, that because I am a Senator, I have the same plan people at Hill Air Force Base have. This is the plan of all Federal employees. Yes, there are a number of choices and, yes, I am satisfied with it and I like it. But it is still true it is my employer—in this case the Federal Government—who designed the plan.

I am glad it is a good plan. I don't think I would want to change it. I think I would take advantage of the promises that have been made in this debate; that if you like what you have, you can keep it. But the point is that someone who is an employer, who has not made that available, is frozen out of the opportunity for choice by virtue of the decision that the CEO of his company made. The one sure-fire question I can ask and know the answer I will get at every town meeting I hold on this is to say: How many of you—in the group gathered—either know somebody or are somebody trapped in a job he or she hates because they are afraid to lose their health care benefits? Every time I ask that question, hands go up all over the room.

That is the kind of thing Senator WYDEN and I are trying to change. These people are locked in a job they hate because they are afraid they will lose their health care. They are not allowed the choice of deciding what their health care dollars will be spent for. It is determined for them by their employer. If we go the direction in which Senator WYDEN and I want to go, employers that continue to offer plans the employees like will find that their employees will exercise their right of choice to stay with that plan. But employers that say: No, we are going to cut corners a little and cut back on things, just because we think it would be better for our bottom line if we do this, will discover that if our legislation passes, their employees will be empowered to say we are taking our health care dollars and going somewhere else and making another choice.

That is the fundamental reason why we have been scored as having the bill that will turn the cost curve down rather than up. We change the present system in a way that will allow market forces to get into the mix and allow people to exercise their free choice and start to save money as a consequence; whereas, all the other plans that are being scored as turning the cost curve up do so because they eliminate any power of individuals in the marketplace to exercise their choice.

I wish we were discussing energy and water. We seem to have turned this into a discussion of health care because the other folks will not come down. I won't intrude upon that any further. But having heard my colleague, I felt it

appropriate for me to make these additional comments.

With that I yield the floor.

The ACTING PRESIDENT pro tempore. The Senator from North Dakota.

Mr. DORGAN. Mr. President, let me make a point because we have heard a lot of discussion about health care. My colleague from Oregon and my colleague from Utah talked about this yesterday and today and I think it is important to point out.

When people talk about the choices Members of Congress have, I think it is giving the impression that somehow Members of Congress have some gold-plated health care system that other Federal employees do not have. In fact, I believe the choices available to Members of Congress are the choices available in the Federal Employees Health Benefit system for millions of other Federal employees.

The reason I make that point is we have had a lot of people talk about the choices Members of Congress have with their health plan. This Federal Employees Health Benefit Plan is available to all Federal employees. All Federal employees have the same choices, by and large, and those are the choices Members of Congress have.

Last weekend, I had several people talk to me about the extraordinary health insurance Members of Congress have, and I think part of that comes from this discussion about Members of Congress have all these choices. It is very important for people to understand that we have the same health care plan other Federal employees have—millions of them—and the same choices they have. I just wanted to make sure the RECORD shows that because I think it is important.

The ACTING PRESIDENT pro tempore. The Senator from Oregon.

Mr. WYDEN. Mr. President, let me pick up on the point made by the Senator from North Dakota because he is very accurate in his assessment.

One of the reasons they like so much this idea of trying to set up a model as we have in the Congress, with our exchanges, is because, for example, somebody who is working for the Forest Service in the State of Oregon has essentially the same kinds of choices I have for the Wyden family.

I think Senator DORGAN's point about trying to make clear to the American people that these choices Members of Congress have, somebody, for example, who works for the Forest Service in Oregon, has essentially the same choices, which involve basic health care—what we think of as preventive care, primary care, being able to go see a doctor, being able to get hospital coverage, and a reasonable catastrophic benefit. That is what Members of Congress can essentially choose from, and that is what somebody has an opportunity to get if they work at the Forest Service.

I think Senator DORGAN's point is very valid. The reason I have come

back to this is because, under our free choice proposal, people in this country would, in effect, be able to go to one of these exchanges, which is similar to a farmer's market, and choose from a menu of private policies, not unlike what a Member of Congress has and somebody who works for the Forest Service. So I think the Senator from North Dakota has made a good point.

We, of course, have a lot of bargaining power because we go into these big groups, and that bargaining power can hold down administrative costs and get a better deal for somebody who has insurance. I would like to see, as we go forward with this legislation, that these exchanges are set up around a lot of the same principles Members of Congress have. Because if you do that, that is going to hold costs down for people who have insurance, and it is going to make their coverage more affordable. For example, the workers the President is going to see today would have additional choices in the future and save money when they are purchasing quality health care.

With that, I thank the Senator from North Dakota for making an important point.

The PRESIDING OFFICER (Mr. BENNET). The Senator from North Dakota.

AMENDMENT NO. 1846 TO AMENDMENT NO. 1813

Mr. DORGAN. Mr. President, we are ready to clear several cleared amendments, so I ask unanimous consent to immediately consider amendment No. 1846, which is already pending.

The PRESIDING OFFICER. Is there further debate on the amendment?

Mr. DORGAN. My understanding is the amendment is cleared on both sides. I believe there is no further debate, and I ask for its immediate consideration.

The PRESIDING OFFICER. If there is no further debate, the question is on agreeing to the amendment.

The amendment (No. 1846) was agreed to.

AMENDMENTS NOS. 1844 AND 1845, EN BLOC

Mr. DORGAN. Mr. President, I ask unanimous consent to call up amendments Nos. 1844 and 1845, en bloc; further, I ask unanimous consent to dispense with the reading of the amendments.

I believe there is no further debate. These are technical amendments that have been cleared by both sides, and I ask for their immediate consideration.

The PRESIDING OFFICER. Is there objection? Without objection, it is so ordered.

The amendments (Nos. 1844 and 1845) were agreed to, as follows:

AMENDMENT NO. 1844

(Purpose: Provides a technical correction to a Corps of Engineers project)

Provided further, That the Chief of Engineers is directed to use \$1,500,000 of funds available for the Greenbrier Basin, Marlinton, West Virginia, Local Protection Project to continue engineering and design

efforts, execute a project partnership agreement, and initiate construction of the project substantially in accordance with Alternative 1 as described in the Corps of Engineers Final Detailed Project Report and Environmental Impact Statement for Marlinton, West Virginia Local Protection Project dated September 2008:

AMENDMENT NO. 1845

(Purpose: Provides transfer authority for the Corps of Engineers and the Bureau of Reclamation)

SEC. ____ Title IV of division A of the American Recovery and Reinvestment Act of 2009 (Public Law 111-5) is amended by adding at the end of the Title, the following new section 411:

‘Section 411.— Up to 0.5 percent of each amount appropriated to the Department of the Army and the Bureau of Reclamation in this title may be used for the expenses of management and oversight of the programs, grants, and activities funded by such appropriation, and may be transferred by the Head of the Federal Agency involved to any other appropriate account within the department for that purpose: Provided, That the Secretary will provide a report to the Committees on Appropriations of the House of Representatives and the Senate 30 days prior to the transfer: *Provided further*, That funds set aside under this section shall remain available for obligation until September 30, 2012.’

Mr. DORGAN. Mr. President, I believe we will have an amendment by the Senator from Nebraska in a few minutes. But let me say, with the Senator from Utah, we need to have Senators come over and offer amendments. If you have amendments you want to add to this bill, offer, and debate, we expect you to be here. Ultimately, those who have amendments and don't come to offer them are probably going to be precluded at some point because we will move to complete this bill.

We have sat here the day before yesterday, yesterday, and now today. This is a very important piece of legislation that deals with the energy and water projects across the country, and we want to complete this bill, preferably this evening, if we can. In order to do that, we need to at least have some semblance of cooperation, which has been little evident, at least in the past couple days.

The PRESIDING OFFICER. The Senator from Utah.

Mr. BENNETT. Mr. President, I would ask the chairman, since cloture has been filed, doesn't there arise a time at which there is a cutoff by which amendments can be offered?

Mr. DORGAN. I would say to the Senator from Utah there is a 1 p.m. filing deadline today. But the fact is we already have amendments filed but aren't offered. So I expect we will get additional amendments filed. The key is to get people down here to offer their amendments, but there is a 1 p.m. filing deadline.

The cloture motion was filed last evening, and I understand why the Senator from Nevada, the majority leader, filed it. I don't think he had much choice. We bring an appropriations bill

to the floor that has very widespread support and then it largely comes to a standstill. It would not make much sense for us to be here in this position all week.

I think Senator REID had very little choice but to file a cloture motion. My hope is we would not need it. If people will come and offer their amendments, we will work with them. Senator BENNETT and I will work to accept the amendments we can and get the votes and perhaps this evening get this bill completed.

The PRESIDING OFFICER. The Senator from Nebraska is recognized.

Mr. NELSON of Nebraska. Mr. President, I ask to set aside the pending amendment.

The PRESIDING OFFICER. Without objection, it is so ordered.

AMENDMENT NO. 1874 TO AMENDMENT NO. 1813

Mr. NELSON of Nebraska. Mr. President, I call up my amendment.

The PRESIDING OFFICER. The clerk will report.

The legislative clerk read as follows:

The Senator from Nebraska [Mr. NELSON] proposes an amendment numbered 1874 to amendment No. 1813.

The amendment is as follows:

(Purpose: To express the sense of the Senate that the investment by the Federal Government in the automotive industry of the United States is temporary)

In the appropriate place, insert the following:

SEC. ____ (a) The Senate finds that—

(1) the United States is facing a deep economic crisis that has caused millions of workers in the United States to lose their jobs;

(2) the collapse of the automotive industry in the United States would have dealt a devastating blow to an already perilous economy;

(3) on December 19, 2008, President George W. Bush stated: “The actions I’m announcing today represent a step that we wish were not necessary. But given the situation, it is the most effective and responsible way to address this challenge facing our nation. By giving the auto companies a chance to restructure, we will shield the American people from a harsh economic blow at a vulnerable time and we will give American workers an opportunity to show the world, once again, they can meet challenges with ingenuity and determination and bounce back from tough times and emerge stronger than before.”;

(4) on March 30, 2009, President Barack Obama stated: “We cannot, and must not, and we will not let our auto industry simply vanish. This industry is like no other—it’s an emblem of the American spirit; a once and future symbol of America’s success. It’s what helped build the middle class and sustained it throughout the 20th century. It’s a source of deep pride for the generations of American workers whose hard work and imagination led to some of the finest cars the world has ever known. It’s a pillar of our economy that has held up the dreams of millions of our people. . . . These companies—and this industry—must ultimately stand on their own, not as wards of the state.”;

(5) the Federal Government is a reluctant shareholder in General Motors Corporation and Chrysler Motors LLC in order to provide economic stability to the United States;

(6) the Federal Government should work to protect the investment of the taxpayers of the United States;

(7) the Federal Government should not intervene in the day-to-day management of General Motors or Chrysler; and

(8) the Federal Government should closely monitor General Motors and Chrysler to ensure that they are being responsible stewards of taxpayer dollars and are taking all practicable steps to expeditiously return to viability.

(b) It is the sense of the Senate that—

(1) the Federal government is only a temporary stakeholder in the automotive industry of the United States and should take all practicable steps to protect the taxpayer dollars of the United States and to divest the ownership interests of the Federal Government in automotive companies as expeditiously as practicable; and

(2) the Comptroller General of the United States, the Congressional Oversight Panel, and the Special Inspector General for the Troubled Assets Relief Program should continue to oversee and report to Congress on automotive companies receiving financial assistance so that the Federal Government may complete divestiture without delay.

Mr. NELSON of Nebraska. Mr. President, the amendment I propose serves to address the government's significant ownership and puts the Senate on record and makes absolutely clear that the Federal Government is a temporary shareholder in General Motors and Chrysler and should divest its shareholder position as expeditiously as possible.

It is pretty clear no one ever wanted the government to be in the car business, but the alternative was worse and the turmoil in the auto industry extends far beyond Detroit, as most Americans know.

Dealerships across my State of Nebraska, and I am assuming across your State as well, are feeling the impacts of decisions made by automakers following their bankruptcies. Chrysler has terminated franchise agreements with 9 dealerships in Nebraska, and GM is terminating franchise agreements with 21 dealerships in Nebraska. These decisions are affecting dealerships, their employees, and communities across my State.

However, now that investment has been made, we owe it to the American taxpayer to be clear about what will happen with their money. My amendment states that the Federal Government is only a temporary stakeholder in the American automotive industry and should take all possible steps to protect American taxpayer dollars and divest its ownership interests in such companies as expeditiously as possible.

The government should not be involved in day-to-day operations, and as soon as the auto companies have regained their financial footing, the government must divest.

Further, this resolution calls on the Government Accountability Office and inspector general for the Troubled Assets Relief Program, or TARP, to continue to provide oversight and report

to Congress on the automakers' progress so the Federal Government may complete divestiture without delay.

This is not a partisan issue. We have had Presidents of both political parties recognize the need to address the current downfall of the auto industry and recognize the need to remove government involvement as quickly as possible.

Our sense-of-the-Senate resolution affirms what the President has already made clear. Taxpayers should be protected and the government should get out of the auto business as soon as possible. Through this amendment, the Senate leaves no question about the government's future role in the U.S. auto industry. In the event there has been an uncertainty about that ownership, this resolution will clear that up.

I yield the floor.

Mr. BENNETT. Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. DORGAN. Mr. President, I ask unanimous consent the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. DORGAN. Mr. President, we are awaiting some word from Senator ALEXANDER. He was here earlier this morning to offer an amendment. We indicated we would very much like to have a vote at 11:30 this morning. We are trying to contact Senator ALEXANDER and his staff. There will be a budget point of order against the amendment offered by Senator ALEXANDER, so the vote would be on the point of order that will be made with respect to the budget.

Senator BENNETT and I hope we can get this vote so we can get people to the floor and determine which amendments are going to be offered and when. The majority leader has been extraordinarily patient. He is trying to schedule bills to the floor of the Senate. We bring an Energy and Water appropriations bill to the floor of the Senate, people say they have amendments but they do not come to the floor to offer them, so the majority leader filed cloture last evening, a cloture motion that will ripen tomorrow.

He did not have much choice but to do that, and I think what is happening today demonstrates the requirement that the majority leader had to file a cloture motion. It would be far better for everybody if we can dispose of the amendments.

I think we have three amendments dealing with TARP funds. I think we can dispose of the three of them. If we can have Senator ALEXANDER come and reach an agreement on time and have a vote at 11:30, at least we would at that point get Senators to the floor, dispose

of that amendment on a budget point of order. There will be points of order against the other two TARP amendments as well—different points of order, I might add.

Mr. BENNETT. Mr. President, I have just spoken with Senator ALEXANDER. He is on his way over and is amenable to having a rapid vote. So he would come over and discuss with us the unanimous consent agreement with respect to time.

Mr. DORGAN. Mr. President, we appreciate the cooperation of Senator ALEXANDER. I know he cares a lot about his amendment. As I indicated, there will be a budget point of order that lies against the amendment. I will make that point of order, but then we will have a recorded vote on that point of order. My hope would be that we can do that at 11:30 this morning, for the information of other Senators and their staffs, and we will determine that when Senator ALEXANDER arrives on the floor momentarily.

I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. DORGAN. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

AMENDMENT NO. 1862

Mr. DORGAN. Mr. President, I ask unanimous consent that the Senate now resume consideration of the Alexander amendment No. 1862 and that Senator DORGAN be recognized to raise a Budget Act 302(f) point of order against the amendment; that once Senator ALEXANDER has moved to waive the relevant point of order, debate on the waiver extend to 11:25 a.m., with the time equally divided and controlled between Senators DORGAN and ALEXANDER or their designees; that at 11:25 a.m., the Senate proceed to vote on the motion to waive, with no amendments in order to the amendment during its pendency.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. DORGAN. Mr. President, I make a point of order that the pending amendment violates section 302(f) of the Congressional Budget Act of 1974.

Mr. ALEXANDER. Mr. President, I move to waive the applicable section of the Budget Act with respect to my amendment and ask for the yeas and nays.

The PRESIDING OFFICER. Is there a sufficient second?

There appears to be. The yeas and nays are ordered.

The Senator from Tennessee is recognized.

Mr. ALEXANDER. Mr. President, we have the time equally divided between now and 11:25; is that correct?

The PRESIDING OFFICER. The Senator is correct.

Mr. ALEXANDER. I would like to reserve the last minute of my time, if I may, for use before the vote. But I will go ahead now.

I thank the managers of the bill for creating the opportunity for this vote. The American people want the government, the Federal Government, out of the auto business. I believe Democrats and Republicans in the Senate would like to have the government out of the auto business. President Obama has said he would like to have the government out of the auto business. Yet we are in the auto business in a big way for the foreseeable future unless we take some action.

The taxpayers have paid almost \$70 billion for 60 percent of the stock in General Motors and about 8 percent of the stock in Chrysler. My amendment is identical to legislation which is co-sponsored by the distinguished Senator from Utah, Mr. BENNETT, and Senator MCCONNELL, Senator KYL, and others. What this amendment would do, most importantly, is have the Treasury, within a year, to declare a stock dividend, which means to give the stock the government owns in General Motors and Chrysler to the 120 million Americans who pay taxes on April 15.

They paid for it. They should own it. Why is that a good idea? Polls show that 95 percent of Americans disagreed "that the government is a good overseer of corporations such as General Motors and Chrysler." We know that. We have seen the incestuous relationship that develops. We own the company, so we call up the managers and say: Change your dealer contracts. Don't close a warehouse in my district. Put your plant in my State. Why are you buying a battery from South Korea when you could be buying one from my congressional district?

We can, and are, summoning the executives of General Motors and Chrysler to the more than 60 committees and subcommittees in Congress that have some say-so over these companies we own, one of which we own a big majority of. So the executives have to drive in their congressionally approved methods of transportation to Washington, DC, and spend time talking to us, who know nothing about building cars, but that doesn't stop us from giving them a lot of advice. Then these executives go back. During that day they have talked to us, they haven't designed or built or sold a car.

We need to get the stock out of the hands of the government and into the hands of the taxpayers. Several Senators have suggested a way to do that. The simplest way is the corporate spin-off or spinout. A spinoff is a new organization or entity formed by a split from a larger one. It typically happens when we have a corporation that has a subsidiary which increasingly doesn't have any relevance to the major corporation's business, so we simply give

the ownership to the owners of the major corporation. That is what Procter & Gamble did with Clorox in 1969. Procter & Gamble decided Clorox didn't have anything to do with Procter & Gamble anymore, so they gave all the stock in Clorox to the owners of Procter & Gamble. In March 2009, Time Warner gave all the stock in Time Warner Cable to the people who paid for the stock in Time Warner. In 1997, PepsiCo gave all the stock in KFC and Pizza Hut and Taco Bell to the people who own stock in PepsiCo. Why should we not do that with General Motors and Chrysler? The taxpayers paid for it. They own it. We should give the stock back to all the taxpayers who paid for it on April 15. We should stop this incestuous political meddling with major American corporations. The only alternative, other than this, is to slowly sell down the stock over a period of years. Over that time, we will meddle so much, General Motors will never survive.

This is the best thing for General Motors. It is the best thing for the country. If we want to reverse this trend of Washington takeovers of banks, insurance companies, and car companies, this is the simplest thing to do.

I urge colleagues to vote yes on the motion to waive the budget point of order.

I yield the floor.

THE PRESIDING OFFICER (Mr. KAUFMAN). The Senator from Illinois.

Mr. DURBIN. Mr. President, I commend my colleague from Tennessee for his ingenuity, creativity, but not necessarily for his wisdom. I don't agree with this amendment, and I am going to oppose it and urge my colleagues to do the same.

The U.S. Government never wanted to get in the automobile business. President Obama has said that. He said he will not run these companies. That is not why he ran for President. What he tried to do is to save some major companies in America and, more importantly, save jobs as well. What he tried to do was create incentives for the companies to make some decisions they needed to make: Chrysler to ally with Fiat for the future; General Motors to basically gear down the number of cars they are going to make and the number of brands, try to be a leaner company that is going to be more responsive to American consumers. That is why we are in the automobile business. The President, nor any member of his Cabinet, is not sitting down on a day-to-day basis making decisions when it comes to the future of the automobile companies.

The Senator from Tennessee wants to take the taxpayers' investment in General Motors and other companies and basically turn it into a couple shares of stock, maybe 10, 20—I am not sure—for every American. That may be an approach, but I don't think it is one that

is well thought out. What happens then at the next General Motors shareholders meeting, after Senator ALEXANDER's wish comes true? Who stands up to the management of the company? Does each of us give up a day of work and go to the meeting to sit down and help make these decisions? Not likely. What is more likely to occur is that the ownership of General Motors will feel no obligation. This stock ownership being distributed across America is going to dilute the impact of shareholder rights and the impact of shareholder power. I would rather have at least the prospect and the possibility that if the administration and management of General Motors goes too far in one direction, they know that TARP, the money being spent there, is going to be a factor they have to take into consideration.

What could they possibly do that would enrage the taxpayers of America who have saved their company? They could do what some of the banks did: They could declare multimillion-dollar bonuses for the people who work for them. What is holding them back? Their largest lender, the U.S. Government, which doesn't exactly like that idea, as most Americans do not. This is going to end up liberating General Motors in many respects—maybe some positive but also some negative, terrible decisions which they could make with impunity after the amendment passes.

There is a reason this was defeated in the Appropriations Committee. There is a reason it should be defeated on the floor of the Senate. Before we embark on this idea of providing a couple shares of stock to every citizen, we ought to step back and ask ourselves: Is this the best outcome to make sure this company and its workers' and retirees' rights survive or is this kind of an ingenuous, creative idea that ought to be thought through? This needs to be kept in the pot, boiling on the stove a little bit longer, before we decide we are going to embark on what is a first of its kind in America. Every example Senator ALEXANDER gave involved shareholders receiving shares in companies. They weren't given to the public at large, which is what he is proposing here. That is a dramatic difference. We are diluting the impact on the shareholders with the Alexander amendment. I hope my colleagues will join me in opposing it.

THE PRESIDING OFFICER. The Senator from Tennessee.

Mr. ALEXANDER. The Senator from Illinois made an eloquent argument about why he believes it is better for the government to run the auto companies. I believe it is better to put it in the hands of the stockholders. Those are the people who pay taxes on April 15.

THE PRESIDING OFFICER. The time of the Senator has expired.

Mr. DORGAN. How much time remains?

THE PRESIDING OFFICER. A minute and a half remains under the control of the Senator from North Dakota.

Mr. DORGAN. I understand what Senator ALEXANDER wants to do. I have some of the same instincts. The President does as well. I don't want the Federal Government running America's corporations. We want to divest as quickly as we can. We want the companies to recover. But whatever we do here, we need to do it in a way that protects the interests of the taxpayers. Theirs are the interests that are at risk. To set a date within 1 year does not protect the interests of the taxpayers.

I happen to support a Corker amendment. I was a cosponsor of the Corker amendment that talks about the establishment of trustees, three trustees to actually be engaged in running these companies so the government is not running them. It talks about liquidating that trust by December 2011. But they would submit a report to Congress. That liquidation would not happen unless it maximizes the profitability of the company and the return to the shareholder. That is one thing missing in the Alexander amendment, the question of what maximizes the return to the American taxpayer. They are the ones who are at risk. What do we do to maximize the return, or are we going to leave tens of billions of dollars on the table because somebody simply wants to pass a piece of legislation with an artificial end date?

I don't disagree with the intent of wanting to get out from under this issue of the Federal Government being engaged in these corporations. That is why I cosponsored the Corker amendment.

Mr. LEVIN. Mr. President, I strongly oppose Senator ALEXANDER's amendment, No. 1862. This amendment would undermine the hard work and painful sacrifices that have been made over the last several months by GM, Chrysler, hundreds of auto parts suppliers, thousands of dealerships, and millions of families. It would destroy the viability of the domestic automotive manufacturers, and would cost America thousands of jobs at precisely a time when unemployment is sky-high, and likely to go higher.

This amendment would force the government to divest its interests within an arbitrary timeframe, even if doing so would be detrimental to the taxpayers, the automobile companies, and the country as a whole. If the government has not divested its interest within that timeframe, it would be faced with a choice: it could divest the government's ownership quickly—before the reorganization efforts are complete and benefits realized—or be forced to direct the companies to issue millions of fractional ownership interests to taxpayers.

Approximately 138 million Americans file tax returns, and under this amendment, they would all become shareholders. The automakers will be faced with enormous administrative difficulties and unknown tax consequences. For example, how much would it cost to distribute proxy materials to 140 million "owners"? How about keeping track of ownership interests and tax filings? Berkshire Hathaway famously hosts its annual meetings in a massive sports and entertainment complex. There is not a venue on the planet that could host a shareholder meeting with nearly 140 million owners.

Further, an extremely diffuse ownership base could lead to significant corporate governance concerns, with a management structure that may be less accountable to shareholders, not more. Because there would be so many shareholders, each would have extremely limited ability to affect change. That is exactly the wrong direction. The taxpayers deserve to have a strong voice in return for their significant investments. These penalties would be disastrous for the taxpayers and could be fatal to the companies.

This amendment would impose fiduciary duties onto administration officials, with their goals to be "maximization of the return." The amendment would then also subject these officials to potential civil suits. This obvious attempt to co-opt traditional corporate law fiduciary duties is simply inappropriate here. The Secretary and his designees have duties to uphold the Constitution and the laws of the United States; they are not simply members of boards of directors. They are officials of the government. And they cannot be forced to take actions that may be contrary to their governmental duties.

Of course, imposing this liability would also come with some great costs. The legal costs on the companies would likely be enormous, as would the time demands upon the administration officials, which would keep them from their critical governmental duties.

The amendment would also prohibit the Secretary of the Treasury from spending or obligating any more funds under the Emergency Economic Stabilization Act of 2008 to any automobile manufacturer. Restructuring an entire industry takes patience, sacrifices, and capital. And while we all hope that the capital requirements are behind us, the administration's ability to ensure the success of the restructurings should not be unnecessarily and arbitrarily restricted.

This amendment is a recipe for disaster that could undo the efforts that have gone into preserving the domestic auto industry these past several months, and I urge my colleagues to join me in voting against it.

Ms. STABENOW. I wonder if I might ask unanimous consent for 1 minute before we go to a vote?

The PRESIDING OFFICER. Is there objection?

Mr. ALEXANDER. If I may have an additional minute?

The PRESIDING OFFICER. Is there objection to the unanimous consent request, as modified?

Without objection, it is so ordered.

The Senator from Michigan.

Ms. STABENOW. Mr. President, I know there is a point of order against this amendment, but despite the intent, which I appreciate and agree with, of protecting taxpayer dollars, unfortunately, the way this is designed, it would actually put taxpayer dollars at risk by creating an end deadline so that we would have all of the taxpayers' interests coming up at the same time. It would lower the value. It would put the companies at risk of a takeover, which I don't believe my colleague or anyone in this body would want.

It is incredibly important that we not try to intervene with end dates that are, in a way, going to backfire in terms of putting taxpayer investment in these companies at risk.

The PRESIDING OFFICER. The Senator from Tennessee has 1 minute.

Mr. ALEXANDER. Mr. President, I am surprised by this. I thought we all wanted to get the stock out of the government and into the hands of the taxpayers. The argument I am hearing is that the government is wiser than the marketplace, that it is dangerous to give the stock to the 120 million taxpayers who paid for it. It is their taxpayer money. They should own it. General Motors had 610 million shares before it went bankrupt and 51 percent of American families own stock. This is a classic difference of opinion. Do we want the government to run companies? Do we trust the government or do we trust the shareholders? I trust the shareholders.

I urge colleagues to vote aye.

The PRESIDING OFFICER. The question is on agreeing to the motion to waive the Budget Act in relation to the Alexander amendment No. 1862. The yeas and nays have been ordered. The clerk will call the roll.

The assistant legislative clerk called the roll.

Mr. DURBIN. I announce that the Senator from West Virginia (Mr. BYRD), the Senator from Massachusetts (Mr. KENNEDY), and the Senator from Maryland (Ms. MIKULSKI) are necessarily absent.

The PRESIDING OFFICER. Are there any other Senators in the Chamber desiring to vote?

The yeas and nays resulted—yeas 38, nays, 59, as follows:

[Rollcall Vote No. 244 Leg.]

YEAS—38

Alexander	Brownback	Coburn
Barrasso	Bunning	Cochran
Bennett	Burr	Collins
Bond	Chambliss	Cornyn

Crapo	Inhofe	Risch
DeMint	Isakson	Roberts
Ensign	Johanns	Sessions
Enzi	Klobuchar	Shelby
Graham	Kyl	Snowe
Grassley	Martinez	Thune
Gregg	McCain	Vitter
Hatch	McConnell	Wicker
Hutchison	Murkowski	

NAYS—59

Akaka	Franken	Nelson (NE)
Baucus	Gillibrand	Nelson (FL)
Bayh	Hagan	Pryor
Begich	Harkin	Reed
Bennet	Inouye	Reid
Bingaman	Johnson	Rockefeller
Boxer	Kaufman	Sanders
Brown	Kerry	Schumer
Burris	Kohl	Shaheen
Cantwell	Landrieu	Specter
Cardin	Lautenberg	Stabenow
Carper	Leahy	Tester
Casey	Levin	Udall (CO)
Conrad	Lieberman	Udall (NM)
Corker	Lincoln	Voinovich
Dodd	Lugar	Warner
Dorgan	McCaskill	Webb
Durbin	Menendez	Whitehouse
Feingold	Merkley	Wyden
Feinstein	Murray	

NOT VOTING—3

Byrd	Kennedy	Mikulski
------	---------	----------

The PRESIDING OFFICER. On this vote, the yeas are 38, the nays are 59. Three-fifths of the Senators duly chosen and sworn not having voted in the affirmative, the motion is rejected. The point of order is sustained, and the amendment fails.

Mr. DORGAN. Mr. President, I move to reconsider the vote.

Mr. BENNETT. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

Mr. DORGAN. Mr. President, I note the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. VITTER. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

UNANIMOUS CONSENT REQUEST—S. 1344

Mr. VITTER. Mr. President, I rise to talk about something I have brought up several times on the floor of the Senate, which is the fact that the highway trust fund, essential to continuing to build out our highway infrastructure, and particularly essential in the midst of a recession, is about to run out of money. We need to do something about that and we need to act responsibly; not merely increase debt, increase deficits, borrow more money but act responsibly to replenish this trust fund in a way that doesn't drive up yet more the public debt and the Federal Government debt. I have a proposal to do that, but it is essential we consider this issue now, this week, and not wait until next week when the House of Representatives will not even be in session so we can correctly address this issue and act in a responsible way.

Again, it is very clear the highway trust fund is running out of money. I

think it is a near universal consensus that we need to act, we need to do something about it so the highway program doesn't end and essential construction in all our States around the country doesn't come to a screeching halt. But how do we do that? That is the issue.

There is absolutely no reason we need to do this by driving up the debt yet more, borrowing yet more money from our lenders, whoever they may be, including the Chinese Government. We can do this with already appropriated dollars. How do we do it? Well, let's move some of the stimulus dollars—a very small percentage of the stimulus bill which is already passed, dollars which have already been appropriated—to the highway trust fund. This solves the problem and does it in a responsible way, without increasing our debt level, without borrowing yet more money from all sorts of sources, including foreign sources.

I summarized this proposal in a letter to Senator REID, cosigned by about 35 of my colleagues, and we sent the distinguished majority leader this letter on July 21. We urged him to get behind in support of this proposal, but we also urged him to take up this matter of the highway trust fund now—sooner, not later—so we can have a full and fair debate on the issue and come to a proper resolution.

Why does it matter when we take this up? Well, for a very simple reason: This week we could address the issue; we could have a full, fair debate; we could amend House action and send it back to the House and include the proposal that funds be shifted from the stimulus to meet this essential need. Next week, we can do the same thing, but I can tell my colleagues the first thing that will come out of the mouth of the majority leader and others will be: Well, the House is gone. The House has left town. It is take it or leave it. It is accede to everything they want. We can't amend it one comma, one period.

That is bogus. We can amend it. We can, in particular, amend it if we act this week. That is what we should do, as soon as we conclude consideration of the Energy and Water appropriations bill, which is on the floor now.

I urge all my colleagues to come together in a reasonable, responsible debate to consider this commonsense solution of replenishing the highway trust fund but doing it out of stimulus dollars, so we don't increase the debt yet more. After all, highway construction is exactly the sort of stimulus we can all agree on. It is precisely the sort of stimulus spending that has very broad, near universal, bipartisan support. So it is fully consistent with the broad goals of the stimulus.

With all that in mind, I would repeat a unanimous consent request that I proffered several days ago. Several

days ago, I asked for unanimous consent that the Senate call up and pass S. 1344, my bill to use stimulus funds to protect the solvency of the highway trust fund. This request was objected to on the Democratic side.

I would now renew that request and specifically ask unanimous consent that the Senate enter a unanimous consent agreement that would provide for a time certain, immediately following the conclusion and consideration of the Energy and Water appropriations bill, to consider this bill and allow for relevant amendments.

The PRESIDING OFFICER. Is there objection?

Mrs. BOXER. Mr. President, reserving the right to object, I wish to spend about a minute to explain why I will object.

The PRESIDING OFFICER. The Senator from California.

Mrs. BOXER. Mr. President, I know Senator VITTER serves on the Environment and Public Works Committee with me. We have worked closely on many issues. I know he is aware that our committee has already voted out an 18-month extension of our highway program, our transportation programs, and he also knows other committees have acted on that same extension—the Banking Committee as well as the Finance Committee.

The Finance Committee has already made sure they can find about \$27 billion and they have acted on that. So the first thing I wish to say is nobody should worry about this. This Senate is acting and we have acted responsibly to extend the fund for 18 months while we write a transformational bill.

I think the Senator knows there is a lot of what he says that has merit.

I certainly say that at the end of the 18-month period, after which the stimulus program was supposed to act, if there are funds left over, I think it makes eminent sense to put them into the trust fund. But to take them out at this time, while we are in this deep recession—and my friend says what better way than to put it in the highway trust fund. We have billions going to highways that have yet to be spent. There could be money taken out of that.

I am going to object to this. The Senate is doing its work. We voted for the 18-month extension. The Finance Committee has come up with \$27 billion of the trust fund assigned. We always have the opportunity to look back when the stimulus program is set to complete and see if there are leftover dollars. Why would we want to take money out of this economy right now, when we still have the job loss rate going up, when we found the money—Senator BAUCUS did—as an intergovernmental transfer of funds.

Therefore, I object to this.

The PRESIDING OFFICER. Objection is heard.

Mr. VITTER. Will the Senator yield before she gets off the floor?

Mrs. BOXER. Sure.

Mr. VITTER. I ask the Senator, through the Chair, to consider the fact that if we don't take up this matter—however you want to fund it or consider it—take it up now, this week, then the argument will be made next week that we have to accede to whatever the House has done, and we cannot do anything differently. That includes a much shorter extension.

I support the idea of an extension for 18 months, as does the distinguished chair of the authorizing committee. But the House is going to pass and is passing now a much shorter extension.

Would the Senator not agree it is a good idea to take up the general matter now, immediately following the Energy and Water bill, and not have the terms of our action dictated to us next week simply because the House has gone out of session?

Mrs. BOXER. Mr. President, I respond to the Senator this way: I agree we should take up the highway bill now with the fix as proposed by Senator BAUCUS. I think it is totally responsible. We have hotlined this reauthorization. If we can get some cooperation on both sides of the aisle not to load that measure with extraneous amendments and we can reach a time agreement, Senator REID has told me to come to him. So we have, in fact, sent out a hotline on both sides.

I would be happy to work with Senator VITTER to see if we can clear the way for a time agreement because, as he knows, these appropriations bills are very important. The first people to object that we are not doing our appropriations bills are some of my friends on the other side. So if we are going to take time out and do the highway bill reauthorization—and I hope it would be 18 months—believe me, I want to do it as much as anybody here, if not more, given that I am chairman of the committee responsible for ensuring that the fund is viable. I hope the Senator can help me.

I ask him, through the Chair, if he would be willing to work with me to get a clean bill forward and a time agreement that we can get moving on this. I agree it is a great idea to do it.

Mr. VITTER. I very much agree with that plan forward. In that cooperative spirit, I would amend my unanimous consent request and ask unanimous consent that immediately following consideration of the Energy and Water appropriations bill, the Democratic proposal the Senator is referring to, which has been hotlined, be made the order on the floor and a time certain to consider that bill and allow relevant amendments, including the Vitter amendment.

The PRESIDING OFFICER. Is there objection?

Mrs. BOXER. Reserving the right to object, first, I asked if we could get

something done without amendment, and now my friend says we have to have the Vitter amendment. What about the Boxer amendment, the Landrieu amendment, and the rest of the amendments?

Maybe my friend misunderstood me. I said I want to go to a clean 18-month extension, the way it passed out of all the committees, get this done, and have a time agreement on both sides. What my friend is proposing is that we allow amendments, and we don't have the agreement.

I will object to this in the hopes that we can work it out between us and the leaders—a time agreement, hopefully, with no amendments; and that if we have to have one or two, we have agreements on those, with side by sides. Then I think Senator REID would be very open to it.

Obviously, if we are going to bring this up and have 30 Senators filibustering here, that will not help the highway trust fund. I think what we need to do is work together to get a bipartisan agreement, where we can get a time agreement, a couple narrow amendments, if we have to, and then have a vote.

So I will object. I will not object if we can come back with a time agreement, but I object at this time.

Mr. VITTER. Mr. President, I renew the plea that we work on that sort of agreement to consider the matter this week immediately following the Energy and Water appropriations bill.

Yes, I absolutely want a Vitter amendment considered because that is the whole issue I have been pushing—to fund this out of the stimulus, not to run up debt. I believe we can have an agreement for a very limited number of germane amendments. But it is essential for that discussion to be meaningful and that it happen this week.

I renew my encouragement of the chairman to help put together an agreement for consideration of the bill this week, a limited number of amendments, including the concept of funding it out of the stimulus. I believe that is the way we can act responsibly and not be held hostage and be married to whatever the House says is the right answer, simply because they are leaving town at the end of this week.

I look forward to working with the chair of the authorizing committee toward that end. With that, I yield the floor.

Mrs. BOXER. Mr. President, to tie this up, let me make it clear that I have been working with the majority leader. He is very anxious to get this done. If we can get cooperation on both sides of the aisle on a time agreement, we can move this very quickly.

I think Senator VITTER makes the point that is urgent and important. I agree. That is why we hotlined this, and any Senators listening, please don't object to letting us go to this 18-

month extension. We have it figured out and paid for. Let's move forward on it.

Mr. DORGAN. Mr. President, what is the pending business?

The PRESIDING OFFICER. Amendment No. 1874.

Mr. DORGAN. Mr. President, pursuant to the Lott precedent, I make a point of order that the amendment is not germane.

The PRESIDING OFFICER. Pursuant to the precedent of May 17, 2000, the amendment violates rule XVI. The point of order is sustained and the amendment falls.

Mr. DORGAN. Mr. President, what is the pending business?

The PRESIDING OFFICER. Amendment No. 1865, as modified, offered by Senator CORKER.

Mr. DORGAN. I make a point of order that the amendment is legislation on appropriations.

The PRESIDING OFFICER. The amendment violates rule XVI. The point of order is sustained and the amendment falls.

Mr. DORGAN. Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mrs. SHAHEEN. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mrs. SHAHEEN. Mr. President, I ask unanimous consent to speak for up to 10 minutes as in morning business.

The PRESIDING OFFICER. Without objection, it is so ordered.

HEALTH CARE REFORM

Mrs. SHAHEEN. Mr. President, time and time again, we have heard that our health care system is not working. Costs are too high, outcomes are too poor, and access is too limited. I agree with so many of my colleagues who have spoken out over the last several weeks that the status quo is not sustainable. We must take action. We must all work together to ensure that every American has access to quality and affordable health care.

Everyone deserves stable health care coverage that they can count on, regardless of the job they hold or the curveballs that life may throw. All Americans should be able to count on insurance premiums and deductibles that will not continue to rise and eat away more and more of their paychecks. All Americans deserve stable health care that lets them keep their doctor and their health care plan, especially if they trust their doctor and their plan and they have built a relationship with both.

Let me be clear. Health care costs are too high. Every day, in New Hampshire and across our country, families are struggling. The crushing costs of

health care threaten their financial stability, threaten leaving them exposed to higher premiums and deductibles, and put them at risk for possible loss of health insurance coverage and, too often, even bankruptcy. Studies have shown that medical problems contribute to over 40 percent of the personal bankruptcies in the United States today.

Unfortunately, too many of us are just one heart attack away from a potential personal financial disaster due to the cost of health care and inadequate coverage.

In 2007, our Nation spent \$2.2 trillion, or 16.2 percent of the gross domestic product, on health care. This is twice the average of other developed nations. As a country, the quality of care we receive is no better. We still lag behind other countries when it comes to efficiency, access, patient safety, and adoption of information technology.

I have one proposal that I think will help with our current health care situation and, along with Senator SUSAN COLLINS, we have introduced a bipartisan piece of legislation that we are calling the Medicare Transitional Care Act of 2009. It would help address our health care crisis.

The Medicare Transitional Care Act would improve quality of care while saving money. This bill aims to reduce costly hospital readmission and improves the care patients receive while cutting Medicare costs. The legislation will help keep seniors who are discharged from the hospital from having to go back. Simply put, it provides transition planning for seniors on Medicare who are leaving the hospital and, in doing so, it will improve the health care we offer our seniors, while saving money; savings that experts estimate to be \$5,000 per Medicare beneficiary.

According to a report from the New England Journal of Medicine, almost one third of Medicare beneficiaries discharged from the hospital were rehospitalized within 90 days. One-half of the individuals rehospitalized had not visited a physician since their discharge, indicating a real lack of followup care.

The study also estimated that, in 2004, Medicare spent \$17.4 billion on these unplanned rehospitalizations. This problem is costly for our government and troublesome for our seniors. The good news is, it is avoidable.

Research shows the transition from the hospital to the patient's next place of care—whether that is home, a nursing facility or a rehabilitation center—can be complicated and risky. This is especially true for older individuals with multiple chronic illnesses. These patients talk about difficulty in remembering instructions for medications, confusion over the correct use of medications, and general uncertainty about their own condition. Seniors

need support and assistance to manage their health during the vulnerable time after discharge from a hospital to ensure they are not rehospitalized. This legislation provides that support. This is the type of commonsense legislation that needs to be included in our health reform. It saves money and it improves quality.

I am proud that in New Hampshire we have two exciting health reform initiatives underway to address health care costs and improve quality. We have a medical home pilot project with close to 40,000 patients across the State. The medical home pilot is changing the way health care is delivered and the way we think about health care, making it much more patient centered. It is encouraging doctors to collaborate with other providers to create health care plans for each patient. They also utilize electronic medical records to reduce errors, improve quality, and contain costs. It is a new way of practicing medicine, and it is one that will deliver better care for less money.

New Hampshire is also the home for the Dartmouth Institute for Health Policy, which is the leader in comparative effectiveness research. It helps empower patients to make vital health care decisions.

The research provided by the Dartmouth Atlas Project has provided critical analysis about the difference in the amounts of money we spend on health care in different regions of the country. The research also shows that these differences in spending have no impact on health outcomes. I want to repeat that because I think this goes to the crux of one of the problems we are having with our health care system. What the research at the Dartmouth Atlas Project and other places around the country has shown is that differences in spending have no impact on health outcomes.

It is amazing to me that regions that spend more money on health care do not necessarily produce better health care results. We must address this inadequacy as we turn to health care reform, and we must empower patients to make them equal partners in their health care decisions. Research supports this point. In fact, it shows that up to 40 percent of the time, patients who participate in decisions related to their care will choose procedures that are less invasive and less costly. These choices produce better outcomes with higher rates of satisfaction. We must remember to keep patients at the center of this debate on health care reform.

Finally, people are struggling because of the high cost of health insurance. It is a burden to families in New Hampshire and across the country. In my State, there are nearly 150,000 people who have no health insurance, even more who are underinsured with poli-

cies that do not provide the coverage they need. For those who do have insurance, the costs are very high.

Over the past 9 years, premiums for employer-sponsored health insurance have more than doubled—a growth rate that is four times faster than cumulative wage increases. This has created a huge burden on middle-class families.

In my State of New Hampshire, from 2002 to 2006, there was a 41.6-percent increase in the premiums businesses paid for an individual plan for their workers. For our smallest businesses, those with fewer than 10 employees, the increase was almost double that, a 70.6-percent increase. That is staggering, and that disturbing increase in premiums caused what one would expect: Many small businesses dropped their coverages. That is unacceptable. Health care costs and insurance costs must be contained.

Chuck Engborg from Ashland, NH, talked about the high cost of insurance and the instability of the insurance market at a recent health care roundtable I attended in New Hampshire.

Almost 30 years ago, Chuck was diagnosed with type 2 diabetes. He suffered a mild stroke, a heart attack, and he has had five bypass surgeries. He also developed a complication from his diabetes that required him to walk on crutches for 3 years. Despite all of that, Chuck has lived to tell his tale, but the turning point for him came 2 years ago when his wife Kathy was laid off from her job. They had to purchase COBRA health insurance and found that the cost of COBRA, plus high copays, amounted to 50 percent of their annual income. In the meantime, Kathy also suffered a heart attack that resulted in her own bypass surgery. They are two of the lucky ones because Kathy has found new employment and they have health insurance through her job. But that health insurance comes with a very high annual deductible.

I heard a similar situation from a woman named Laura Mick from Manchester who also struggles with high insurance costs. While she has not had surgery in 16 years, the insurance companies are able to target her and charge her outrageous rates under a preexisting condition loophole.

Laura was born with a cyst on her brain. Fortunately, it was recognized by doctors a few weeks after she was born, and at 1 month old she underwent surgery. A shunt was inserted into her brain to drain fluid and another surgery at 16 years old to relieve the pressure. She is currently an active young woman in her late twenties, and she works hard to maintain a healthy lifestyle. But she is not being rewarded for it. She has been denied from every insurance company in New Hampshire unless she accepts the high-premium, high-deductible plans.

We need to enact health care reform to help people like Chuck and Laura.

We need to ensure that every American has access to affordable, quality health care they can count on when they need it. This is a basic principle on which many business groups, labor organizations, and medical professionals now agree. We must take steps as a nation to reduce the costs of health care while improving the quality of care Americans receive.

Health care reform is economic reform, and I believe that for our economy to truly recover and prosper, we must help middle-class families, businesses, and Federal, State, and local governments cope with the skyrocketing health care costs. The status quo is not working, and it is clearly not sustainable.

We need to act, and we need to act soon. I look forward to working with my colleagues on both sides of the aisle to enact health reform that addresses the health care cost crisis and ensures quality, affordable health care for everyone in New Hampshire and across this country.

I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. CASEY. Madam President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER (Mrs. HAGAN). Without objection, it is so ordered.

Mr. CASEY. Mr. President, I rise today to join my colleagues in addressing one of the biggest issues facing our economy and our country; that is, the threat posed by global warming. This challenge presents us with an opportunity as well. It is the opportunity to revitalize our economy while simultaneously changing our national energy policy to reduce our dependence on foreign oil and to increase our energy efficiency and conservation, which will save money for the people of Pennsylvania, as well as people across the United States.

We have a long debate ahead and a lot of issues to discuss, but I believe it is critically important, in these weeks in the summer leading up to the break Congress will take, to begin the debate, which I know will continue into the fall and maybe beyond that.

I do agree with a majority of accredited climatologists and scientists that human-caused global warming is a threat. Specifically, global warming is a threat to our economic and national security. It threatens our economic security because the problems we face become more expensive the longer we do not act.

If the past is any indicator of our future, we should be concerned that over the past 28 years—1980 to 2008—the cost of the 90 largest weather events that happened in that time period was \$700 billion—\$700 billion attributable to

those weather events. If we do nothing and the worst-case scenarios become a reality, mitigating the change in our climate will be expensive and difficult.

Global warming threatens our national security by setting off a chain of events that could lead to decreased food production, relocation of large numbers of people, an increase in extreme weather events, and a rise in sea levels.

Like many Americans, I came to understand this challenge in a way that was very poignant. I remember reading a *Time* magazine story a few years back, and it talked about the percentage of the Earth that has been the subject of drought. That percentage of the Earth's surface that has been the subject of drought doubled in about 30 years. That is all we need to know. We know what drought means: it means disease and hunger and darkness and death. That is the threat posed by global warming.

The threat is real enough that we are now currently assessing the readiness of our military to protect us and keep the peace should global warming continue unchecked. One area of the world we are examining in that analysis to determine the impacts is the region that encompasses Pakistan, India, Afghanistan, and the Indus River that is fed by the Himalayan glacier which all three countries share. The changing global climate is causing that glacier to retreat; that is, to melt and disappear. Once the glacier is gone, the Indus River is expected to lose 30 to 40 percent of its waterflow. India, Pakistan, and Afghanistan are already water-stressed countries that rely heavily on that river. I don't think I have to explain to this Chamber or anybody else the national security implications of that threat, especially with regard to Afghanistan and Pakistan.

What a permanent drought would mean for countries is those countries not having enough drinking water and not able to grow food in those countries as a result of that threat.

I understand this may seem a long way off to the people in Pennsylvania or in other States around the country who at this time, and at a time of economic stress, are leading lives of struggle and sacrifice and real hardship. They are struggling to keep their jobs, pay their mortgages, put their kids through college, or pay for this week's groceries. What we do on climate change does affect their lives directly—not indirectly, directly.

I wish to talk this morning about the economy and jobs as it relates to this issue. We all know things are tough for so many people right now in our country. We are suffering through the worst recession since the Great Depression. But I think it is time—instead of talking about how we got here on a day like today—to focus on the future.

One of the solutions is transforming the way we produce and use energy, which saves bill payers money and creates new jobs along the way. The good news is that these jobs are not the same hazy concept as relates to the future. We are creating clean energy jobs right now in Pennsylvania. To give one example among many I could cite, Aztec Solar Power in Philadelphia employs a team of solar experts, certified electricians, installers, and energy consultants to build systems for residential and commercial buildings. Not only is Aztec employing Pennsylvanians in clean energy jobs now, they plan to expand their business. The company is constructing a \$10 million manufacturing facility in York, PA, and will create over 100 new jobs.

I believe we in this country on this issue are right at a crossroads. One direction we could take—and some people in Washington want to take this direction—is business as usual, keep losing jobs, keep losing our competitive edge to countries such as China, which is outinvesting us and outinnovating us when it comes to new energy technologies and the jobs that come from that.

I believe we can take a different direction. We should move down a different path, a path where America will reclaim its competitive edge, bring manufacturing jobs back home to Pennsylvania and States across the country, give us the opportunity to manufacture new technologies for exporting those technologies to other countries, and create a new economic engine that will put people back to work.

This is a strategy for economic renewal. Creating a new energy policy with a focus on building clean energy jobs and innovative energy technologies will take time. Indeed, it will take time, but it will also take leadership. It will take the dedication, the know-how, the ingenuity, and the innovative skills of the American worker. A lot of those workers are in Pennsylvania.

So the choice before us is clear: We can stay on the road we have been on, which we know leads to not just more drought and darkness and death but also leads to job loss in the end because our economy won't have the dynamism to compete with places such as China, or we can take a different path—the path of change, the path of reform, the path of not doing business as usual. I think it is time we create policies that will rebuild our economy and create permanent new energy technology jobs in Pennsylvania and in States across the country. We know how to do this. We have done it before, throughout our entire history in our State as well as States across the country. We have to do it again.

Madam President, I yield the floor, and I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. KAUFMAN. Madam President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. KAUFMAN. Madam President, I ask unanimous consent to speak as in morning business for up to 10 minutes.

The PRESIDING OFFICER. Without objection, it is so ordered.

IN PRAISE OF DAVE DIBETTA

Mr. KAUFMAN. Madam President, I rise once more to recognize our great Federal employees. Many Americans can recall from memory the acronyms of several Federal law enforcement agencies—FBI, DEA, ATF, and TSA, to name a few. These are more than just acronyms. These agencies are composed of thousands of hard-working men and women who risk their lives to ensure our safety. Today I will share the story of one such law enforcement agent from my home State of Delaware.

When speaking about someone from Delaware who has spent a career risking his life in service to others, I cannot help but think of the generation of Delawareans who fought for independence. They, in particular, are part of the tradition of public service and courageous sacrifice that has always characterized the people of the First State.

I am reminded of Caesar Rodney who, on the 1st of July, 1776, rode his horse 80 miles through a thunderstorm from Dover to Philadelphia to cast a decisive vote in favor of independence. I can only imagine the look on the faces of the other delegates when Rodney burst into Independence Hall, soaking wet in his riding boots, eager to do his part for liberty.

Rodney had already risked his life for the cause of American independence. A month before his famous night ride to Philadelphia, he joined with fellow patriot Thomas McKean at the old courthouse in New Castle. There, before the Delaware Colonial Assembly, the two made the case for separation from Great Britain.

The unanimous resolution by the Delaware Assembly in favor of separation was the first of its kind. By this brave act, its members became traitors to the Crown, punishable by death. This went a long way in encouraging the delegates to the Continental Congress to vote for independence.

Delaware has a long legacy as a pioneer among States. We are recognized as the First State because, as many Americans know, Delaware was the first to ratify the Constitution. Just as we took the first step toward independence, we led the way in accepting the ideas about government that were radical in 1787 but which are recognized today as fundamental to preserving our liberty.

So many Delawareans continue in this tradition of service today. One of them is Dave DiBetta of Wilmington, who has been a special agent for the Bureau of Alcohol, Tobacco, Firearms, and Explosives for over 20 years.

Prior to his service with the ATF, Dave served as a military policeman in the U.S. Army, stationed at Fort Miles in Lewes, DE. He also worked as a customs inspector at JFK in New York. In 1988, Dave joined the ATF as a special agent in New York. Two years later, he was transferred to the Houston Division's Special Response Team, which focuses on high-risk missions.

While serving as an agent in New York and Texas, Dave participated in over 350 high-risk operations, and he was decorated with the ATF's Distinguished Service Medal in 1993. In 1996, Dave began work at ATF headquarters, helping to lead large-scale investigations and managing the bureau's photography program with a \$57 million budget. He also taught undercover investigation techniques at the Federal Law Enforcement Training Center.

Dave returned to Delaware in 1999, where he continues his work in the Delaware office, overseeing tobacco and firearm investigations. Dave has assisted in providing security for the 1996 Republican Convention, the 2000 Democratic Convention, as well as the 1996 and 2004 Olympic Games. In the days following the September 11 attacks, Dave was assigned to special duty as air marshal for 6 months, helping to restore public confidence in air travel and serving on the front line against terror.

As part of his duties in Wilmington, Dave represents the ATF at the Dover Downs raceway. He has trained staff how to identify and prevent improvised explosive devices, ensuring the safety of spectators.

Over the course of his two-decade career, Dave has been awarded eight special service awards, the ATF Director's Award, and several letters of commendation. He currently represents the ATF in the leadership of the Federal Law Enforcement Officer Association, and he helped restart the association's Delaware chapter.

When asked about why he decided to work in public service, Dave pointed to the value of voluntarism he learned as an Eagle Scout. He also said he wanted a life characterized by a sense of adventure. Dave said:

I have never had 2 days in my career that were the same. I have traveled to just about every State, been overseas to four countries, I have seen the good and the bad, but one thing I can never say is that it was boring.

Dave and his wife are active in the Wilmington community, volunteering their time for community service projects with St. Anthony's Church and a number of charitable organizations. I had the privilege of meeting Dave last month at the St. Anthony's Italian

Festival in Wilmington, and I am so glad he and his family could be here today at the Capitol.

Dave DiBetta's story is one of so many in Delaware and across the country. His willingness to risk his own safety and serve the common good recalls the heroism of our revolutionary forebears, such as Caesar Rodney, Thomas McKean, and those other Delawareans who were the first to vote for separation and who fought for freedom.

I hope my colleagues will join me in honoring the contribution made by Dave and other Federal law enforcement agents who daily risk their lives to keep our citizens safe. They all deserve our gratitude.

Madam President, I yield the floor.

The PRESIDING OFFICER. The Senator from Connecticut.

Mr. DODD. Madam President, before he departs from the floor, I commend our colleague from Delaware, our new colleague from Delaware, Senator KAUFMAN.

Senator KAUFMAN was appointed to fill the seat of my great friend and colleague and seatmate for many years, JOE BIDEN. And while he has only been here about 6 months as a new Member of the Senate, what a wonderful contribution he has made. I have watched him over the last number of weeks, with his focus and attention on people who work for our country every single day but who probably will never get much credit for showing up every day and doing a wonderful job on behalf of the American people. Whether they be civil servants, police officers or others—the military—the fact he has taken as much time—almost on a daily basis, I say to my colleagues and others who may be watching these proceedings—Senator TED KAUFMAN of Delaware has made it his business to express our collective gratitude to these people who serve our country every single day to keep us safe and secure and to keep us functioning as a society.

It may not seem like much to some, but I will guarantee there are thousands of people today who are at work who appreciate it. And there are millions more, I suspect, whose family members, whose neighbors, whose co-workers, and others appreciate the recognition he has given them, as well as some ideas he has brought to the table legislatively to make a difference for people.

So I commend my fellow colleague. For a relative newcomer and a short timer, he has made a substantial contribution to our country, and I thank him for it.

The PRESIDING OFFICER. The Senator from Delaware.

Mr. KAUFMAN. Madam President, I wish to say that this has been a labor of love for me, talking about great Federal employees. And I must admit that one of the truly great Federal employ-

ees, who embodies everything I talk about when I talk about the other Federal employees—in terms of dedication, in terms of sacrifice, in terms of commitment, in terms of intellect, in terms of participation—is the Senator from Connecticut. I have admired him for many years, and watched how he has done us all proud, and makes every Federal employee proud of the fact that they are a Federal employee, and demonstrates how important our Federal employees are.

I thank the Senator from Connecticut for his kind remarks and for his long and honorable service.

Mr. DODD. I thank the Senator. I did not intend to turn this into a recipient compliment, but I thank him tremendously, and if he wants to talk a little longer, that is fine.

Mr. DODD. Madam President, I ask unanimous consent to speak as in morning business.

The PRESIDING OFFICER. Without objection, it is so ordered.

HEALTH CARE REFORM

Mr. DODD. Madam President, I have been on the floor every day and speaking about health care, for a few minutes anyway, although I know there are other matters of business before this body.

I am privileged to work with the Presiding Officer on the Health, Education, Labor, and Pensions Committee—a new member who has made a tremendous contribution as well to our efforts—and as she knows, back a few weeks ago, we went through that marathon session to try to at least fulfill our obligation on the health care debate and to deal with the matters over which we have jurisdiction—things such as prevention and the quality of health care, the workforce issues, the fraud and abuse questions, as well as other matters. Obviously, the Finance Committee has to grapple with these as well. So I thought it would be worthwhile, over these last number of days, to talk about things we have done in our bill. It will be a part, I hope, of a combination of efforts when we meet hopefully in the next few weeks, depending upon the outcome of the efforts in the Finance Committee, which we are all waiting for with anticipation, and confidence, I might add, as well.

I have a lot of confidence in KENT CONRAD, and MAX BAUCUS, CHUCK GRASSLEY, and JEFF BINGAMAN, and others involved in these negotiations to try to reach some understanding that will allow us to move forward. But I thought in the meantime it would be helpful to talk about various constituencies in the country and what this means to them. Because I think we all want to know how does this affect me and my family—what we are doing here. People are saying: I know you are talking about access, and you are talking about quality of health care, talking about the cost of health care, but I

wish to get some idea of what are you doing and how it affects me and my family, and where is this all heading.

So while we are only in the first stages of developing what we hope will be a comprehensive proposal on health care reform, it is important that we at least communicate with people where we are coming from and how we look at these issues.

We have all heard the numbers, that 47 million Americans have lost or do not have health care today—a statistic I bring up every day, because I think it is important to point out. We completed our work about 2 weeks ago on the Affordable Health Choices Act. Since we completed our work 2 weeks ago, 196,000 fellow citizens have lost their health insurance. About 14,000 a day lose their health care coverage. About 100 people in Connecticut lose their health coverage, for one reason or another—they lose their jobs or their employers decide to drop their coverage; all sorts of reasons that can cause someone to lose their health care. Overall, it is about 14,000 a day.

These are people who have health insurance but are losing it. These are not people who have no insurance. They are just added to the rolls. And some people get health insurance as well and come off the rolls. So it is important to point out that happens as well.

But it is worthwhile to note that every single day we go forward in this process—and it is an important and deliberative process. I am not in favor of rushing something through. We need to get this thing right. It is a terribly complex matter. We have all noted that almost every single Congress over the last 70 years, along with almost every administration over the last 70 years, has tried to solve this issue. Some have succeeded in part. But there is a reason this has not happened up to now. It is because it is not easy. I commend our colleagues for trying as well as commend the Obama administration for insisting this issue be such a high priority.

Why is that the case? It is not just because it would be nice to get it done. It is because if we do not get something done, the status quo is debilitating, to put it mildly—first, in macroeconomic terms of what it does to our country, in terms of consuming such a large part of our gross domestic product, that easily could jump to 35 percent. What does that mean to the average family? That gross domestic product number, which may not mean much to many people—what does that mean? It means the average family could, in 8 to 10 years, if we did nothing and let the status quo continue, that about 50 percent of your gross income would be consumed in paying for health care premiums if you wish to have your family covered. Obviously, that is unacceptable and unsustainable. If we were to end up consuming that much of our

gross domestic product and our incomes each year, families could not survive.

Today I would like to speak for a few minutes about a group of Americans who are being cheated by the current system. Those are the very people who are affected by this number, people who have health coverage but lose it every day because of various economic circumstances or other problems they face and for whom I would also say the status quo is unacceptable. These are Americans who have insurance but are underinsured. Their numbers are roughly 25 to 30 million of our fellow citizens. Obviously, it changes every day as many lose their coverage. These are about 25 to 30 million people who cannot get the care they need. These people paid good money for health insurance, and they think in exchange they are going to receive at least some guarantee that if things go wrong—if someone in their family gets a cancer diagnosis or is hit by an automobile or some other injury occurs—at least they will not have to be concerned about whether they can afford to pay for the care they need.

They worry, obviously, about getting better, getting back on their feet. But there is that sense of stability and certainty that I have a health care plan. I am not going to get wiped out. I am not going to get ruined economically. I have insurance. It may not be great, but I am in pretty good shape. I feel pretty confident, if something tragic happens, I will be OK. That is what insurance literally is supposed to mean.

Life is uncertain. Unfortunately, things happen to all of us. People get ill, injured, people get hurt. While you expect to get better, you want to be sure you are not going to get wiped out. But in our Nation, the wealthiest in the world, of course, nobody should lose their home or their economic security because of an illness or injury, in my view. We write checks to insurance companies every month or see premiums deducted from our paycheck and what do we expect in return? We expect that if something happens, we at least will not have to worry about anything but getting better, getting back on our feet again.

Unfortunately, for tens of millions of our fellow citizens, that is not how it works at all. These are people who have insurance, but they cannot be sure about anything. There is the uncertainty of what will happen. Some find out the hard way that their insurance does not cover what they thought it covered. That fine print you kind of glazed over when you signed onto that contract, I know we all wish we had read it better, understood it better, but the reality is, when you finally are in some situation and you go to this company and say I think I am covered, they say: I am sorry, but if you had read this more carefully you would

have understood that fact situation is not covered, that your preexisting condition that you didn't properly let us know about excludes you from the kind of coverage in these situations. You may have high deductibles and copays. You may have an injury that can be taken care of for \$5,000 or \$10,000, but your insurance doesn't kick in until after that.

Five or ten thousand dollars may not seem like much for some, but for a working family, that can also be a major economic crisis.

Some who suffer from serious illnesses, such as cancer, hit an annual or lifetime benefit cap; thus, the sickest Americans find themselves cut off entirely.

Our legislation, by the way, that we adopted, the Presiding Officer, myself, and 21 other Members of the Senate, we eliminate preexisting conditions so you never again have to be excluded from coverage because of that preexisting condition. We will not exclude you because of portability. Today if you moved you could lose your coverage. And we will not allow these caps either. Today you could find out that while you have a serious illness, your coverage will take care of you for a week or two, or three or four or five visits, but that is it. Our legislation eliminates those kinds of concerns that people have worried about for a long time.

Many of our fellow citizens, of course, have children. Children have different health care needs than adults. For millions of children who fall under insurance provided by their parents' employer, those needs are not covered. Some have that coverage taken away by a profit-hungry bureaucrat at the moment when they need it the most, and many of our fellow citizens watch as skyrocketing premiums slowly consume more and more of their family budget until they have to choose between having their kids uninsured or having them receive the kind of benefits they ought to be receiving as children.

When we talk about health care reform, we are not talking about a free gift for the American people. We are talking about keeping a promise to our fellow citizens. We are talking about guaranteeing that insurance actually insures against economic ruin for working families. As it stands today, millions of our fellow citizens with health insurance are spending their life savings on care; 50.7 million insured Americans spent more than a dime out of every \$1 they earned on health care last year. That is, more than 10 percent of their income today is spent on health care; last year, more than 50 million of our fellow citizens. For almost 14 million of our fellow insured Americans it was more than 25 cents out of every \$1 of their income that was spent on health care. As it stands,

millions of our fellow citizens, not just the uninsured, are unable to get the care they need when they need it.

Let me share some numbers, if I can. I am always reluctant to do this because numbers can glaze over the eyes of people, but people can find themselves in these situations. These numbers affect people with insurance primarily. Some here are without insurance but primarily with insurance. Today I wish to focus on the underinsured—not the people, the 47 million without insurance, I am talking about the 30 million now underinsured or those who have insurance but have high deductibles and expect out-of-pocket expenses.

Thirty-seven percent of people insured in our country took home remedies or over-the-counter drugs instead of seeing a doctor. They decide to go that route rather than getting the kind of care that would reduce their health care problems; or 31 percent postponed getting health care they need because of cost; or they skipped a recommended test or treatment, 27 percent; or they did not get a prescription filled, around 25 percent; and close to 20 percent cut pills in half or skipped doses altogether in order to try to meet their health care obligations. Obviously, in doing so they put themselves at greater risk for even more problems medically, thus raising the cost for care when they end up going back in to treat a problem that could have been contained if, in fact, they were taking the medication as prescribed.

This gives you some idea of the kind of choices people make who are insured. These are not the uninsured now, these are insured. This is in terms of what they need in order to provide for themselves.

When we talk about health care reform, I think it is very important we talk about the many people in this country who believe they are in good shape and are not worried they are going to lack coverage if, in fact, a health care crisis confronts them. The reality is, this constituency of our fellow citizens with insurance has much to worry about with the status quo; thus, the necessity for reforming a system in areas where it is broken and leaving alone those areas where it works pretty well.

This is not just people, again, who do not have insurance. These numbers include people, obviously, who have insurance. Americans with health insurance are forced into bankruptcy, as we know, as well. The numbers are not ones I make up; 62 percent of the bankruptcies in our country over the last several years occur because of a health care crisis in that family. That statistic is alarming. The next statistic is even more alarming to me—75 percent of that 62 percent are people with insurance. Here are people with insurance who ended up in bankruptcy be-

cause of a health care crisis. That is the last thing you would assume to have happen to you. If you have health insurance and you run into a major health care problem, you are assuming because you paid those premiums you are not going to be put into bankruptcy or financial ruin. Three out of four people in that 62-percent number had health insurance and still ended up being bankrupt or put into a bankruptcy situation.

Fifty percent of foreclosures—there are 10,000 foreclosure notices every day in the country, roughly. Those have been rather static for a long time. But 50 percent of those notices went out to families who are losing their homes because of a health care crisis.

I don't know the number of how many of that 50 percent had insurance or not. I don't have the same statistic as I did for the numbers of bankruptcies. We ought to try to get that number if we can, to find out what percentage of the 50 percent actually had insurance at the time they got the foreclosure notice.

Americans with health insurance give up the financial foundation they have worked a lifetime to build because we have not taken the action to fix the system that too often is designed to deprive them of the coverage they thought they bought at the very critical moment they need it. What I discovered over the years is there are sort of two groups of people within the insured category. Everyone in that category has insurance. As long as you have never had to deal with it, then you feel pretty secure about it—and you should—because you think you are covered. If all of a sudden you find yourself dealing with it and you thought you had the coverage, that is when it drives you to frustration, to put it mildly, when you discover that condition was a preexisting condition; there were caps on how much you could get for that; that, in fact, the very illness you have was never covered under the insurance policy.

That is where an awful lot of people discover, despite that sense of security they had, that the present system is more designed to deprive them of the coverage they need rather than to help out during those crises. That is why this issue is so important.

Again, this is a complicated one. There are no simple answers to it. We are not going to resolve all those problems even with one bill. It will be a perpetual struggle for us to get this right in the years ahead, but we need to from an economic standpoint, as well as serving the needs of individual people.

This debate is not just about the uninsured. I think we make a huge mistake if we leave that impression with our fellow citizens. This is not just about the 47 million without insurance. We would all like to do something to

see to it that people who are uninsured get coverage, but it is about the millions of people who have insurance, the 30 million underinsured, and the many more who have insurance but could find themselves without the kind of coverage they anticipate having.

Each one of us, of course, insured or not, is hurt by inaction. Premiums are rising faster than wages. One insurance company in my State of Connecticut the other day announced they were raising their rates by 32 percent. Imagine that, a 32-percent increase in premium cost for health insurance coverage.

The average family writes a check for \$1,100 in our country, \$1,100 to cover the uninsured because we in this country take care of people. If you are uninsured in Connecticut or North Carolina and something terrible happens to you and you show up in a hospital in Charlotte or Hartford, we take care of people. That is because of who we are. If you walk into the emergency room, we do not throw you out, we take care of you. I am proud I live in a country that does that. But Americans need to know it is not free when people show up without insurance, with no ability to pay for the care they get in North Carolina, Connecticut or anywhere else. That bill gets passed on.

To whom does it get passed on? To the insured who get added costs in premiums to get covered. That is a tax you are paying each year, about \$1,100 to pay because of uncompensated care. We try to address that because we ought to.

That is one way to bring down the costs for the insured in our country. There are other ideas as well that our committee worked on: prevention; the quality of care; reducing some of the problems with the five chronic illnesses that consume 75 cents of every \$1 in our Nation for health care. These are measures we take to try to move that curve, if you will, downward when it comes to affordability and cost, as well as, of course, improving the quality of health for all our fellow citizens.

Of course, in this body, we all have health insurance—I made that point over and over again, every Member of Congress, every Member of this body. I never had to go to bed at night with one eye open, wondering whether, if something happened to my 4-year-old or 7-year-old daughters, I would be able to pay for it in the morning with the policies we have. I am glad we do have good health insurance. I just think it is important, as we are here, to remember a lot of the people we represent are not in that situation, to remember the uncertainty and lack of stability they live with. When a crisis happens—and it happens every single day to people—when that happens, they ought not to have a sense of free-fall: I will get wiped out; I can't possibly take care of this; I can't even provide the care my child needs.

I will never forget Senator KENNEDY—who is the chairman of the committee I have been asked to help, to temporarily step in and write this legislation because of his own illness. Senator KENNEDY has told the story over the years of when his 11- or 12-year-old son, Teddy Kennedy, Jr., developed cancer, and it was a serious form of cancer, one that was very dangerous and could take his life. He had to have his leg amputated. But there were some protocols to determine whether they could treat that cancer. They let Senator KENNEDY's son be part of that protocol because during that kind of test they welcome you into it. It doesn't cost anything.

Halfway through that test, that protocol, it was determined that treatment actually worked. It could save Senator KENNEDY's son's life, as it could the lives of the other children who were utilizing that drug. The difference was, of course, once the protocol was determined to be successful, it no longer was free, and it was very expensive—thousands and thousands of dollars.

Senator KENNEDY, obviously, as he tells the story, comes from a family who had the resources to be able to write that check to continue to make sure his son would get the treatment that allowed Teddy, Jr. to recover, to lead a very healthy life. Today he lives in my State of Connecticut with his wife Kiki and their children, and he got that kind of medicine.

But he tells the story of other families at that time, years ago now, who did not have the money and begged the hospitals and doctors: Could they get a quarter of the treatment, could they get a half of it, to see that their child may have the same chance to succeed and recover as Senator KENNEDY's son did.

It was that moment that Senator KENNEDY, some 40 years ago, 35 years ago, decided this would be the cause of his life, when his child, because they had the resources to get the treatment, could get back on his feet but some other child, through economic circumstances, could not.

In the United States of America, no child ought to be deprived the opportunity—or that family—to get back on his or her feet again. I think that is what joins us here together. I think this is hard. We realize that. It is difficult. But I believe it demands our attention and time.

So for those who are insured today, and while they are feeling pretty secure—and I hope you do—understand that these moments can happen. If you are uninsured, obviously it is a frightening feeling of what can happen in your family. I know these are difficult questions and there are not going to be easy answers. There is going to be some shared responsibility in all of this. But I believe we have an obliga-

tion, as U.S. Senators, at this moment in our history, to rise to that challenge and not to fail, as others have in years past because it is too hard.

There was a great line Edward R. Murrow once used when talking about another subject matter. He said: The one excuse history will never forgive you for is that the problem was too difficult.

I do not think history will forgive us if the answer we give is: It was just too hard. We just could not figure out how to come together. I think history will judge us harshly if that is the excuse we use for not rising to the moment and dealing with this issue in a comprehensive and thoughtful manner. It can never be too difficult. It is hard. We ought to have the ability to resolve this issue. That is my plea today.

I yield the floor, and I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. SCHUMER. Madam President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. SCHUMER. First, let me compliment my colleague from Connecticut for his great leadership on the issue of health care. As the acting head of the HELP Committee, he has done a great job on a bill that has garnered wide support and praise from the one end of the country to the other. So I salute him for his work and his diligence.

I rise today to speak in support of the critical resources provided in the Energy and Water bill, the bill we are debating, for Federal hydrogen and fuel cell research technology which will give America's automotive industry a much needed shot in the arm that it needs to revitalize and compete in the global market for fuel-efficient vehicles.

In June, I joined a bipartisan coalition of 17 Senators, and we wrote to protect the funding for this critical technology after hearing that the administration had significantly cut the budget for hydrogen research.

I generally agree with the administration on energy policy, but in this area, they are wrong. Hydrogen research is one of our futures. As a result, I thank Chairman DORGAN for helping. The fiscal year 2010 Energy and Water appropriations bill contains \$190 million in much needed investment in hydrogen technology and fuel research and development. The \$190 million that is included in the bill for hydrogen technology and fuel cell research is \$37 million more than the House appropriations bill.

It is my hope that some of this money, particularly given the fact that we have added extra money, will go to

the General Motors Honeoye Falls, NY, fuel cell facility. It has the potential to create 400 clean energy jobs. The facility is ideally situated to play a leadership role in transforming this technology into reliable and affordable options for all American drivers.

The bottom line is, the facility at Honeoye Falls is the only GM hydrogen fuel cell research facility in North America. There will not be another facility with its potential or progress. It is one of only four facilities in the world that can go from research to application in fuel cell development, and the only one in America. There is one in Germany and there are two in Japan.

If we are going to abandon this vital area of research, several years from now it will create real problems for our automobile companies which we hope can get back on their feet.

This is the only facility in the United States that can go directly from science to vehicle, as it did for General Motors in Project Driveway, where at Honeoye Falls the researchers there developed, designed, and engineered GM's Equinox fuel cell fleet. As I said, these are good-paying jobs in the Rochester area. Honeoye Falls is a suburb of Rochester where we desperately need jobs and have a great educated workforce. It will keep us globally competitive with Japan and Germany, which are ahead of us in fuel cell development and infrastructure—something we cannot afford. At Honeoye Falls, zero tailpipe emissions and research, development, and engineering are all under one roof and are an American treasure.

Let me now talk a little more generally, not simply about Honeoye Falls but about hydrogen fuel research and the need for us to move forward.

As the United States forges a global relationship role in the development of new energy ideas and initiatives, it is critical that we protect the areas where we are already leading the competition. That includes hydrogen and fuel cell technologies. Any compromise in our Nation's investment in this cutting-edge area of research will diminish our accomplishments to date, hamper our ability to compete with other nations, and hamper the ability of companies such as General Motors and Chrysler to come back and be at the competitive edge. We have come too far to close the door on this important research, only to hand over the gains we have made to other nations such as Japan and Germany. By cutting this kind of research, by not funding Honeoye Falls, we would do just that.

In confronting the daunting challenge of climate change and dependence on foreign oil from dangerous areas of the world, we need to have all of the tools in our arsenal to achieve our long-term goals. No one should question the fact that hydrogen technology has a clear and important role to play.

As we all know, hydrogen is the most plentiful element in the universe. We are never going to run out of it. Fuel cell vehicles are gasoline free, representing a dramatic opportunity to break from our current addiction to foreign oil. And fuel cell vehicles are emission free.

The National Research Council found that fuel cell vehicle technology should be a necessary part of our energy portfolio for achieving the target of 80 percent global greenhouse reduction in 2050. In fact, it is hard to see, if we do not do this, how we will meet that goal. That is an important goal.

In short, cars running on hydrogen have the potential to revolutionize on-road transportation, change our everyday travel experience, and clean up our environment by eliminating tailpipe emissions. Our Nation's automotive companies have made significant strides in meeting or exceeding the administration's interim goals for fuel cell cost, but they still have much work to do.

Meanwhile, while the United States—and I have just seen the chairman of the Energy and Water Subcommittee come on the floor, and I salute him for understanding the need for hydrogen fuel cells. As I said, this is one area where the administration has a hard-to-explain blindspot.

While we are twiddling our thumbs in this area, debating whether we should fund it, other countries understand the importance of this technology and are aggressively moving ahead to develop hydrogen vehicles. By protecting our Nation's investment in this program, we can protect our current leadership position and develop hydrogen and fuel cells on a faster timeline than competing nations. The alternative—to abandon a promising technology and allow our work to be the foundation of our competitors' success—is not acceptable.

In conclusion, I hope this legislation, with its increase in hydrogen fuel cell funding, passes. I hope that in its wisdom the Energy Department will understand the necessity of continuing the research at Honeoye Falls and fund it accordingly.

I yield the floor.

The PRESIDING OFFICER. The Senator from Ohio.

HEALTH CARE REFORM

Mr. BROWN. Madam President, in 1945, President Truman delivered a speech to a joint session of Congress in which he declared:

Millions of our citizens do not have a full measure of opportunity to achieve and enjoy good health. Millions do not now have protection or security against the economic effects of sickness. The time has arrived for action to help them attain that opportunity and that protection.

Unfortunately, little happened after President Truman's speech. It is my hope that 64 years later, we will finally

be able to achieve the health reform President Truman envisioned and our country deserves. We cannot settle for marginal improvements. We must fight for substantial reforms that significantly improve our health insurance system.

Every day, Ohioans are frustrated with health insurance that is nearly impossible to afford. Every day, Ohioans are stuck with health insurance that fails to protect them from catastrophic health costs. Every day, Ohioans deal with health insurance that too often discriminates based on age and gender and location and medical history. Millions of Americans are one illness away from financial ruin. Some 14,000 Americans lose their coverage every day, and 45 million Americans are uninsured and tens of millions more are underinsured.

We can find a way for Americans who have coverage to keep it and for those Americans who lack coverage to buy it. We can find the will to boost our health care system so that it is far less costly, is inclusive, and it is far more patient centered. We can make historic improvements in our health care system which harken back to the day, 44 years ago tomorrow, July 30, 1965, when President Johnson signed Medicare into law.

What lessons can we learn from Medicare and from its passage? The Medicare experience taught us that progress in this country does not come easily, especially in the face of false claims, inflammatory rhetoric, and twisted facts. It also taught us that progress is not always a function of bipartisanship, as much as we would like it to be. Most Republicans today will not support fundamental reform regardless of what form it takes. We learned that lesson from Medicare. If you go back to key congressional votes on Medicare in 1965, an overwhelming number of Republicans voted no and an overwhelming number of the Democratic majority vote yes. Gerald Ford voted no, Strom Thurmond voted no, Donald Rumsfeld voted no, and Bob Dole voted no. In fact, Bob Dole said in the 1965 debate, speaking for the great majority of Republicans in the House and Senate—he bragged:

Fighting . . . voting against Medicare . . . because we knew it wouldn't work.

It is no surprise that the only time Republicans had a chance to make meaningful reform to Medicare, when the stars aligned, when they had a conservative Republican President and large Republican majorities in both Houses for the first time since Medicare was formed—in 2003, they partially privatized Medicare. They did it—I was there in the House of Representatives—literally in the middle of the night, literally by one vote, when most Americans were asleep. I do not blame them in those days for hiding that bill from the American people. It

was a Medicare bill written for the insurance companies and by the insurance companies, and it, purely and simply, started Medicare down the road to privatization 6 years ago when it happened.

We are seeing the same tactics today. Many Republicans want to defeat health care reform in order to break President Obama, making it, in the words of one of my conservative colleagues, his Waterloo—a fine example of partisanship trumping the national interest. Special interests groups, the health insurance industry, and the drug industry are spending millions of dollars—millions of dollars—to influence health reform legislation. They are deriding anything that does not inflate their profits. Special interests are pulling out all of the stops to subvert sound public policy.

It is the same page out of a tired playbook that informed then-private citizen Ronald Reagan in the early 1960s when he warned Americans that if Medicare were enacted, “one of these days, you and I are going to spend our sunset years telling our children and our children's children what it was like to live in America when men were free.” That is what he thought of Medicare.

The American people didn't share Ronald Reagan's opposition to Medicare but influential special interests did. They played every card in an attempt to derail health care coverage for seniors. Before Medicare was signed into law, 50 percent of senior citizens were uninsured; 44 years ago today, 50 percent of senior citizens were uninsured. Today only 3 percent are.

In 1995, Speaker of the House Newt Gingrich said he wished Medicare would “wither on the vine.” That was the beginning of privatization efforts.

Progress has never come easily in our history. Passage of the Civil Rights Act in 1964 was not easy. Passage of the Voting Rights Act in 1965 was not easy. Enactment of Medicare and Medicaid in 1965 was not easy. Every major step forward in our Nation's history, every progressive move forward is never easy.

As Senator HARKIN said, passage of legislation to prohibit discrimination against women, the elderly, and people with disabilities was not easy. That doesn't mean we stand down. It doesn't mean a popular President or Democratic majorities in Congress should give in on every major principle as we enact health care reform. Medicare changed our Nation. It helped pull millions of seniors out of poverty, fostered independence, helped fuel our economy, and helped retirees live long and healthy lives. The United States does not rank particularly high in life expectancy compared to other rich industrial democracies, but if you reach 65 in America, we rank near the top for life expectancy. So if you get to be 65 in the United States, you are likely to

live a longer, healthier life than the great majority of people around the world, even in rich industrial countries.

Health care reform will change our Nation. It will end uncertainty about health care coverage because public and private insurance will always be available. That is why we have the public option that is supported by so many of us, including the Presiding Officer. It will confront the needless redtape, medical errors and the fraud and abuse that inflate health care costs and compromise quality. It will harness the power of market competition to drive premiums down and customer satisfaction up. We want competition. We want a public option competing with private plans. Both will get better as a result. It will finally allow our Nation to move on from the human tragedy, from health care-related bankruptcies, from the endless march of double-digit premium increases, from the competitive disadvantages American businesses face as health care expenses explode.

The HELP Committee made the first strong step toward health insurance reform that keeps what works and fixes what is broken. Our work will not be done until crucial national priorities are no longer crowded out by health care spending. Our work will not be done until exploding health care costs no longer cut into family budgets, no longer weigh down businesses, and no longer drain tax dollars from local and State coffers and from the Federal budget. We must keep working and keep fighting for the change people demand.

We will keep fighting for the Ohioans I met in Cleveland last week at MedWorks, where hundreds of people were provided free medical care from volunteer doctors, nurses, and hospitals, when Zac Ponsky, a young banker in Cleveland, decided to put this MedWorks program together.

None of this will be easy. When President Johnson signed Medicare 44 years ago tomorrow in Independence, with Harry Truman alongside him, he demonstrated that the hardest fought battles yield the greatest victories. When our 44th President signs health care reform into law later this year, we will finally realize Harry Truman's vision six decades and 10 Presidents later.

I yield the floor.

AMENDMENT NO. 1855 TO AMENDMENT NO. 1813

The PRESIDING OFFICER. The Senator from North Dakota.

Mr. DORGAN. Madam President, I ask unanimous consent to set aside the pending business and call up amendment No. 1855.

The PRESIDING OFFICER. Without objection, it is so ordered.

The clerk will report.

The assistant legislative clerk read as follows:

The Senator from North Dakota [Mr. DORGAN] proposes an amendment numbered 1855 to amendment No. 1813.

Mr. DORGAN. I ask unanimous consent that reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment is as follows:

(Purpose: To require all agencies to include a separate category for administrative expenses when submitting their appropriation requests to the Office of Management and Budget for fiscal year 2011 and each fiscal year thereafter, and for other purposes)

At the appropriate place, insert the following:

SEC. ____ . AGENCY ADMINISTRATIVE EXPENSES.

(a) DEFINITIONS.—In this section:

(1) ADMINISTRATIVE EXPENSES.—The term “administrative expenses” has the meaning as determined by the Director under subsection (b)(2).

(2) AGENCY.—The term “agency”—

(A) means an agency as defined under section 1101 of title 31, United States Code, that is established in the executive branch; and

(B) shall not include the District of Columbia government.

(3) DIRECTOR.—The term “Director” means the Director of the Office of Management and Budget.

(b) ADMINISTRATIVE EXPENSES.—

(1) IN GENERAL.—All agencies shall include a separate category for administrative expenses when submitting their appropriation requests to the Office of Management and Budget for fiscal year 2011 and each fiscal year thereafter.

(2) ADMINISTRATIVE EXPENSES DETERMINED.—In consultation with the agencies, the Director shall establish and revise as necessary a definition of administrative expenses for the purposes of this section. All questions regarding the definition of administrative expenses shall be resolved by the Director.

(c) BUDGET SUBMISSION.—Each budget of the United States Government submitted under section 1105 of title 31, United States Code, for fiscal year 2011 and each fiscal year thereafter shall include the amount requested for each agency for administrative expenses.

Mr. DORGAN. Madam President, this amendment has been cleared on both sides. I believe there is no further debate. I ask for its immediate consideration.

The PRESIDING OFFICER. The question is on agreeing to amendment No. 1855.

The amendment (No. 1855) was agreed to.

Mr. DORGAN. I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. DORGAN. I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. DORGAN. While Senator BENNETT and I await our colleagues to offer amendments on the underlying appropriations bill, I ask unanimous consent to speak in morning business for 10 minutes.

The PRESIDING OFFICER. Without objection, it is so ordered.

THE ECONOMY

Mr. DORGAN. Madam President, our country is in a very deep economic hole, the most significant economic decline since the Great Depression. Much of it is attributable to the fact that we have created an economy in recent years, especially the last two decades, in which we have responsible business men and women engaged in casino-like gambling. They do it under the rubric of business.

In 1994, I wrote a cover story for the Washington Monthly magazine titled “Very Risky Business.” The subtitle of that article was about the banks trading very risky derivatives, which I said I believed could lead to taxpayers being on the hook for a bailout. That was 15 years ago. At that point, there was \$16 trillion of notional value in derivatives. And banks, even then, which prompted me to write the article, were trading very risky derivatives on their own proprietary accounts, which I believed was unbelievably ignorant of the risk involved.

The \$16 trillion in notional value of derivatives exploded way beyond anyone's expectation. Then at the same time that the trading of derivatives was exploding, new instruments were being developed, credit default swaps and CDOs and all kinds of exotic instruments to be traded back and forth, creating a dramatic amount of additional risk.

Even as that was occurring, we saw the development of a subprime loan scandal in which we were watching brokers and mortgage banks provide entreaties to those who had homes or those who wished to buy homes: Come and get a mortgage from us. You have bad credit, slow pay, no pay, you have been bankrupt, come to us. We would like to give you a loan. Subprime home loans—some called liars loans—you don't even have to tell the person giving you the loan what your income is. By the way, you don't have to pay any principle. We will wrap that around the backside, just pay interest. Can't pay interest, then name your own payment. Don't want to do that, then don't pay any principle and don't pay all your interest. We will wrap it around the backside, and you don't even have to describe what your income is. By the way, when you get a mortgage from us, we will not tell you it is going to reset in 2–3 years because we are giving you a 2-percent teaser rate right now, which means your home loan payment will be way down here, and it is going to look good. But the reset that will happen in 24 or 36 months, you will never be able to make the payments.

Everybody was fat and happy, making a lot of money putting out bad loans and then slicing them up into mortgage-backed securities and then trading them up to the hedge funds and investment banks, and everybody was making a lot of money, not asking any

questions. Then the whole thing collapsed. And it is derivatives, it is swaps, it is mortgage-backed securities. It all collapsed in a sea of greed with unbelievable risk, and it brought down with it some of America's largest financial institutions.

I describe all of that gambling and all of that risk because something else happened last year that has the American people concerned and worried—and they should be wondering: What was the cause of it?

Here is what happened last year. I have this chart in the Chamber that shows the price of crude oil. It actually went from \$60 a barrel, in October of 2006, up to \$147 a barrel in July of 2008. It went up like a Roman candle, and then came right back down. By the way, the same folks who made the money on the upside made the money going back the other way, starting last July. It was unbelievable speculation in a market called the oil futures market.

This is not an abstract graph. This means right up here someplace, as shown on the chart, every American who went to the gas pump to fill up their vehicle with gasoline was paying through the nose—\$4, \$4.50 a gallon.

So the question for them, and the question for other users—airlines, for example, were hemorrhaging in red ink, unable to pay the cost of this kind of oil price—the question was: What has caused all of this? What has resulted in this unbelievable spike in oil prices?

The answer? An orgy of speculation in the oil futures market by interests that were never before—at that point—manipulating that marketplace. Investment banks, for the first time, were actually buying oil storage and holding it off the marketplace until the price rose, as an example.

The oil futures market, it is estimated, was populated in terms of the trades by somewhere between two-thirds to three-fourths of the trades coming from speculators—not people who were moving the physical commodity back and forth, at least people who would want to sell the physical commodity to somebody who wanted to buy the physical commodity because they want oil. Instead, it was speculators who were simply betting on this. They could have gone to Las Vegas. They did not need to. They were able to go to the oil futures market and make a lot of money going up and a lot of money going down; and, meanwhile, the victims were the American drivers who had to fill their gas tanks with gasoline.

I am describing this because yesterday there was a hearing in this town by the Commodity Futures Trading Commission, a commission that has largely been dead from the neck up for some while, uninterested in regulating—despite the fact that is their charge—sit-

ting on their hands, doing nothing. And all of last year while this was going on, while the price of oil was going up, up, up, the CFTC largely explained it away as saying: Well, this is supply and demand. That is what is going on.

There is another agency other than the Commodity Futures Trading Commission that did not do its job. This is an agency we are actually funding. Senator BENNETT and I are actually funding it in this bill. It is called EIA, the Energy Information Administration. It has several hundred people working there. It is a very important agency. It provides substantial amounts of information to our country, to policymakers, about what is happening with energy.

I want to show you what has happened with the EIA. We spend about \$110 million a year on this agency with several hundred people. They are good people, smart people, the best in the business, we assume. Here is what happened. In May of 2007, they had to make an estimate. That is what they do. They make an estimate: What is the price of oil going to be? Well, they started here, as shown on the graph, and they said: Here is where we think the price of oil is going, right that way. So in May of 2007—I do not know what they had to eat back then, but something was affecting the brain. Here is what happened to the price of oil. Here is where they estimated the price of oil would be.

These are smart people. These are the best. We are spending a lot of money getting their advice. So let's pick January of 2008. They made a new estimate: Here is where we think the price of oil is going to go. Well, the price of oil did not do this. The price of oil went like this—almost straight up. So what did they get wrong? In April of 2008: Here is what we think the price of oil will be. Here is what it was.

My point is, this agency, along with the Commodity Futures Trading Commission, would come to our committee at a hearing, and I would say: Why is it that you get it so unbelievably wrong? They said: Well, it is supply and demand.

That is total rubbish. The fact is, even while this was happening, the supply was going up and demand was going down, which meant that the price of oil would not be going up like a Roman candle. In fact, the price would be moderating. Instead, speculators captured that market. That is why EIA got it so wrong. They did not have the foggiest idea what they were doing. Supply and demand—total nonsense. But we know what happened to these prices.

The reason I want to discuss this for a moment is because yesterday the Wall Street Journal had a story. The Commodity Futures Trading Commission—this is the commission that last year spent all of their time telling us this was just supply and demand. We

knew better. But either they knew better as well and would not admit it or they did not know better. That agency was insisting it was supply and demand. Well, the very same agency now, with a new head, is going to issue a report next month, according to the Wall Street Journal, "suggesting speculators played a significant role in driving wild swings in oil prices."

Three people in my hometown café—I come from a small town of 300 people—3 people, over a strong cup of coffee, knew that last year. Wild swings in oil prices as a result of speculators.

Last year, the same U.S. futures market agency pinned oil price swings primarily on supply and demand. But the new report will say that analysis was based on "deeply flawed data."

So the question is, What does all this mean? It means if we are going to have some impact on an economy where we put it back on some solid foundation, we have to have markets that work, and we have to have regulators who are not blind.

I happen to think the free market system is the best system of allocating goods and services that I know of. I taught economics ever so briefly in college, and I always say I was able to overcome that, nonetheless, and lead a productive life. But the field of economics is something that is so important in terms of understanding how markets work. I believe the free market system is an incredibly good system—not perfect. The free market system needs effective oversight and regulation from time to time. That means we have regulators who are supposed to be wearing the striped shirts, blowing the whistle, and calling the fouls because, yes, there are fouls in the free market system.

Go back and ask Teddy Roosevelt, when he was a big trust buster. What was he doing? He was busting those interests that were trying to subvert the free market system. The same thing happens today. We have interests—and I described it earlier—that want to subvert the system by getting engaged in substantial risk and establishing mechanisms by which they can control a market at the expense of the rest of the American people.

That is what I believe has happened in the oil futures market. The oil futures market is very important, and we need to make it work the right way. It ought to work responding to the urges of supply and demand. But, regrettably, that has not been the case. My hope is now the Commodity Futures Trading Commission will be able to take the kind of action necessary to straighten this market out.

Every market needs liquidity. That means some speculators will play a role in the market. But when speculators capture the market, and begin to play the kind of games that were played last year, that has a profound

impact on this country's economy. We should expect the agencies that are hired to do the regulatory oversight do their jobs, and do it properly. That has not been the case for some while.

So my hope will be—with the new report coming out that will finally assign the responsibility of excess speculation in this perversion of the marketplace—my hope will be we will have effective regulators who will take action. What should that action be? My own view is the Commodity Futures Trading Commission should designate a distinction between the traders in this marketplace: those who are truly trading a physical commodity because they are engaged in the marketplace because that is the business they are in and those who are just speculators. The Commodity Futures Trading Commission could at that point determine what kind of margin requirements, what kind of speculative limits should exist so that activity does not subvert the marketplace.

Let me be quick to say there are people who will listen to me, and who hear what I say, and they will say: Do you know what. You don't have the foggiest idea what you are talking about. All of this system works. None of that which you describe existed. All of that risk by the smartest people in the room, the top investment banks that took on this massive amount of risk, the investment banks that were buying oil storage, to buy oil and take it off the market until it goes up in price—all of that is just business.

It is not just business. Just business is running a business the right way. Does anybody believe it was just business to have the biggest financial enterprises in the country run into the ditch because of bad behavior by those who were running the companies—by the way, some of whom are still running the same companies?

By the way, with respect to solutions, does anybody think it is just business to decide we had institutions in this country that were too big to fail—that loaded up with risk and then failed—and the taxpayer is told they cannot be allowed to fail, they are too big, and you have to bail them out? And now we say to those same businesses: We are not going to get rid of "too big to fail." In fact, we are going to allow you to merge with other firms, which makes you much too big to fail—too much bigger to fail.

We have a lot of work to do this year to address these issues and address some of the causes that caused the economic collapse last year. I want us to put this economy back on track. First and foremost, it starts with jobs and restoring confidence. Confidence is everything about this economy. When people have confidence, they will do the things that are expansive to this economy: buy clothes, buy a car, take a trip, buy a house. That expands the

economy. When they are not confident, they do exactly the opposite.

I want the American people to have confidence. I want them to have confidence in believing that Federal agencies that hire regulators are going to look over their shoulder and provide the oversight to make sure this is not going to happen again, to make sure someone is not going to subvert a marketplace that makes the rest of the American people victims.

All of this, in my judgment, with good government, can be done. But it will not be done if we have regulators who boast about being willfully blind. It will be done if we understand our responsibility to make sure the free market system is indeed free.

Madam President, I yield the floor.

I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. DORGAN. Madam President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. DORGAN. Madam President, it is nearly 2 o'clock on Wednesday. We have been on this bill since Monday. Senator BENNETT and I have spent a lot of time on the floor waiting for amendments to be offered. We have had several and we appreciate that, but we have many filed but not offered.

I know the majority leader has filed a cloture motion which would ripen tomorrow, so we would have a cloture vote tomorrow. Our hope has been we would not get to that point.

Inasmuch as we have waited and waited very patiently for Senators who do have amendments that they wish to offer but have not come to offer them, Senator BENNETT and I have talked about perhaps going to third reading this afternoon at 5 o'clock. So I ask, if there are those Senators and/or staff who have amendments they wish to have considered on this legislation they would keep that in mind.

We have a couple of hours here. Senator BENNETT and I have talked about going to third reading by 5 o'clock. I would ask people to come and offer amendments, let's have debates on the amendments and have votes and see if we can resolve this legislation this afternoon.

I make a point of order that a quorum is not present.

The PRESIDING OFFICER. The clerk will call the roll.

The bill clerk proceeded to call the roll.

Mr. CARDIN. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

Mr. CARDIN. Mr. President, I ask unanimous consent to speak as in morning business.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

HEALTH CARE REFORM

Mr. CARDIN. Mr. President, I have taken the floor before to talk about the need for health insurance reform, health care reform. I talked about the high cost of health care and how we need to get a handle on the amount of resources we spend as a nation on health care. I have talked about the need to improve prevention and wellness programs. I have talked about the public insurance option and why I think it is so important to have a public insurance option.

But today I want to talk about a different issue. I want to talk about what happens if we do nothing because I think the people of this Nation need to understand that our current health care system is causing huge challenges for the people of our Nation. Whether you have health insurance or do not have health insurance, you are impacted by the fact that your options are limited.

Let me give an example. Maryland citizens will continue to lose health care coverage every day if we do not reform our health care system. There are currently 760,000 Marylanders who have no health insurance. That number has been growing during this economic crisis. And now 230 Marylanders are losing their coverage every single day.

There are people in our community who currently have adequate health insurance—at least they think they do—but they are liable to wake up tomorrow and find out that because their company is going out of business or because their employer can no longer afford to provide health coverage for their employees, they no longer have health insurance to count on.

Marylanders have seen an 11-percent increase in the number of uninsured since 2007. What does this mean? As the number of uninsured increases, there is more and more cost shift. That means those of us who have health insurance are paying higher premiums than we otherwise would have to pay because we are paying for those who do not have health insurance. It means those of us who pay our doctor bills or our hospital bills are paying more than we should because we are paying for those who cannot pay their bills, who have no health insurance, who are part of uncompensated care. It is a never-ending struggle because as we cost shift more to those who have insurance, insurance becomes more expensive, and therefore fewer people can afford insurance and we have a higher number of uninsured. And that is happening today.

Marylanders with health insurance are paying more. If we do not fix the system, those in my community and in your community who have health insurance are going to end up paying more.

The average family premium in Maryland costs \$1,100 more each year because our health care system fails to cover everybody, because we have the cost shifting, because we have not gotten health care costs under control. The fact is, health insurance premiums for Maryland families have been increasing rapidly over the last 8 years, going up by 64 percent from 2000 to 2007. Whether you pay that premium directly or your employer helps contribute to it, it is part of your family cost. It reflects in the compensation you would otherwise receive in salaries as an employee. It has been a 64-percent increase for Marylanders since 2000.

For family health care coverage, the average annual premium rose from \$7,200 to almost \$12,000 during that period of time from 2000 to 2007. For individual health coverage, the average premium rose from \$2,600 to \$4,100.

If we fail to enact health care reform and if we do nothing to control the escalating cost of health care, if we do nothing to deal with those who are uninsured and an increasing number of those who do not have health insurance, if we do not deal with wellness and prevention, if we do not deal with medical technology and with a more cost-effective system, then these trends are going to continue and we are going to see these types of double-digit increases in health care costs, which means more Marylanders, more people in this country will not be able to afford their current insurance coverage.

Let me mention one other fact which is something we all talk about. We want to maintain choice. One of the prime objectives of health care reform is to maintain choice—choice so you can choose your doctor; choice so you and your doctor make decisions concerning your medical needs; and choice, I would hope, in terms of what type of health coverage is out there to meet your needs.

Right now, two insurance companies in Maryland hold 71 percent of the Maryland market. For most Marylanders who have health insurance through work, they do not have a choice today. We want to offer more choice so we can keep costs down. You can tailor a health care plan to meet your family needs.

We can do better. The current status quo should be unacceptable to everyone in my State, whether they currently have good health care insurance or they are uninsured, whether they are a small business owner or work for a large company.

Let me give a couple examples of stories from Maryland. Let me give you this one. A constituent named Catherine from Baltimore wrote me a letter:

Mr. CARDIN: I just received my health insurance bill from [an insurance company]. The premium for next year went from \$666 to

\$968. This is a quarterly bill. . . . We have high medical expenses and I cannot afford this increase. I cannot go to another insurance company because I am high risk and I have been turned down from other medical insurance [companies]. I cannot receive medical assistance because they say we make too much. . . . I am 51 years old. When I called my insurance carrier and asked about the increase, I was laughed at and told either accept it or go somewhere else. When I asked if I could pay monthly, I was told, "Indeed not." What am I to do? I need medical help, but no one wants to help. Please, could you please look into this matter and see what you can do for me?

This is a person who has health insurance, and if we don't do anything, that person is going to lose her health insurance and, quite frankly, access to quality care will also be jeopardized.

I will give another story about a small business owner, Alexis from Baltimore, who owns a small software production company that oversees IT for the city of Baltimore. He competes against much larger companies for business. He wants to do the right thing, so he has health insurance for his employees. He has 20 employees. He paid half of the cost of the employees' coverage. Some of his employees came in and said: Hey, look, can't you help us with family coverage? He would like to provide family coverage for his employees; he just cannot afford to do it and be able to compete against larger companies. He goes on to tell me that his premiums are increasing much faster than what is happening with the larger companies against which he has to compete. He doesn't have the options the larger companies have. The status quo discriminates against small companies in their health care plans.

What we need to do in health reform is to deal with these issues. That is why I come to the floor. I know there are different views as to what we need to do with health care reform, but I hope the one option that would not be on the table is the status quo. We cannot say to the Catherine's of our community: We are not going to do anything to help you. We have to listen to the Catherine's who are telling us: Look, get a handle on what is happening with health costs, whether we have health insurance or we do not have health insurance. Get a handle on helping those who don't have insurance so we don't have the cost shifting that goes on, that we can provide quality health care for all, that we can bring down the cost of health care in our community. Listen to Alexis, who says: Help the small business owner do the right thing for their employees. Help bring down the cost of health care.

I urge my colleagues, we can have a robust debate as to what should be included in health care reform, but I hope at the end of the day we will listen to our constituents and provide the type of reform that will allow for people in our communities to have access to affordable, quality health care,

make health care costs manageable, bring down the cost of health care, and provide prevention and wellness programs to keep people healthy. If we do that, then we are really listening to our constituents and will help our economy and help our Nation.

Mr. President, I yield the floor.

The ACTING PRESIDENT pro tempore. The Senator from Oregon.

Mr. MERKLEY. Mr. President, I ask unanimous consent to speak as in morning business.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

Mr. MERKLEY. Mr. President, I rise today to address one of the defining challenges of our time—the restructuring of our Nation's energy supply. Reforming our energy policy is critical for multiple reasons: to improve our national security, to create jobs and rebuild our economy, and to protect our children and our communities from the damaging effects of carbon pollution. Today I want to focus on just the first of these—improving our national security.

It has been said before and it will be said again, but it deserves repeating until we in Congress act to change it: Our Nation is addicted to foreign oil. This dependence makes us vulnerable to the whims of nations that do not have our best interests at heart.

This afternoon, I will examine this problem in some detail and consider the implications for a national energy policy that will strengthen our national security and end our addiction to imported oil. I emphasize that there is a cure. If we as a nation focus on smarter, wiser use of energy and aggressive development of homegrown renewable energy sources, we can indeed greatly reduce or eliminate dependence on imported oil, improve our national security, and strengthen our national economy, all at the same time.

Well, let's talk about dependence on foreign oil. Our dependence on foreign oil comes from two intertwined factors: First, our economy depends upon oil for transportation. Cars, trucks, trains, planes, boats that we use to move ourselves and our goods around the country are entirely dependent on oil. Indeed, 95 percent of the energy used in our transportation sector comes from oil. Second, our oil addiction relies on foreign imports: 58 percent of the oil we consume is imported. Thus, access to foreign oil is essential to the vitality of our economy. The result is that maintaining access to this oil becomes a very high priority for our national security.

Exactly whom do we depend on? The good news is, nearly 30 percent of our imported oil comes from our democratic neighbors to the north and south in North America. But that is where the good news ends. Take a look at this chart. Seventy percent of our imported

oil comes from outside North America, and this chart shows the top four nations outside North America from which we import oil.

All four of these countries represent security challenges for the United States. Saudi Arabia is No. 1 on the list. It is the source of one in nine barrels of imported oil. Before addressing the fact that it presents national security challenges, it should be noted Saudi Arabia has often been a significant ally to the United States in our interests, in a relationship going back decades. Nevertheless, the dependency on their oil creates two national security issues:

First, the oil infrastructure and delivery systems of Saudi Arabia are vulnerable to terrorist attack or to manipulation by governments in the region. Consider the Strait of Hormuz. The Strait of Hormuz is a vulnerability for all Persian Gulf oil, 90 percent of which moves through the Strait. The Strait is 21 miles wide, with a narrow shipping channel. So, geographically, it is vulnerable to disruption, and Iran has explicitly threatened to put pressure on traffic going through the Strait or attempt to control it outright.

Second, the wealth we send to Saudi Arabia in exchange for petroleum has not always served us well. Former CIA Director James Woolsey testified in the Senate a few years ago that over the last three decades the Saudis have spent between \$70 billion and \$100 billion to support conservative institutions that often promulgate viewpoints and actions hostile to the United States. The wealth dispensed in this manner has, in some cases, migrated into terrorist organizations such as al-Qaida to recruit and build institutional capacity. This has led former CIA Director Woolsey to say of our current military conflicts: This is the first time since the Civil War that we have financed both sides of a conflict.

Venezuela is No. 2 on the list. It is, of course, led by President Hugo Chavez, a vocal critic of our country who has expressly threatened to cut off U.S. oil supplies. He told an Argentine newspaper that Venezuela has:

A strong oil card to play on the geopolitical stage . . . a card that we are going to play with toughness against the toughest country in the world, the United States.

The third nation on this list is Nigeria. Nigeria has had a series of disruptions just this year due to civil unrest. In February, oil companies reported to Reuters that 17 percent of the country's oil capacity was cut off from export because of attacks and sabotage by militants. According to testimony given to our Senate Foreign Relations Committee by the National Defense Council Foundation in 2006, Nigeria loses 135,000 barrels per day to theft.

Iraq, No. 4 on our list, has gone through enormous upheavals. Saddam Hussein's forces destroyed much of the

nation's oil infrastructure when President Bush launched the Iraq war in 2003. That infrastructure has been subject to ongoing sabotage over the last 6 years. A significant share of Iraqi oil, similar to its neighbors, moves through the Strait of Hormuz, an additional point of vulnerability. Moreover, Iraq has not succeeded yet in passing a national law to share oil wealth among the ethnic groups in the nation, and the friction that comes from this continues to allow the possibility of factional conflict and disruptions in supply.

Iran isn't on this list. We have an embargo against Iran. We don't import oil from there, but it is still worth mentioning. Many of our allies get oil from Iran and their oil supplies are large enough to affect the world markets and thereby the stability and cost of our own supply. Again, turning to former CIA Director Woolsey testifying in the Senate, he noted that Iran derives 40 percent of its government budget from oil exports. According to the RAND Corporation, higher oil revenues have not just emboldened the Iranian Government to defy the United Nations regarding their nuclear program but also helped Iran to finance the activities of Hezbollah and Hamas.

Our dependence on foreign oil makes us vulnerable to a disrupted energy supply, and the risk is heightened because most of the world's proven reserves are controlled by just a few governments. State control means countries can and do manipulate energy supply. We had a case this last year when Russia manipulated gas markets to dominate new democracies in Eastern Europe.

The Energy Modeling Forum at Stanford University brought together a group of leading experts to assess the chances of a major oil supply disruption. They identified major areas of the globe where oil disruptions are most likely due to geopolitical, military or terrorist threats. Those areas include Saudi Arabia, the rest of the Persian Gulf, Russia, the Caspian states, and a group of nations in Africa and South America—which account for 60 percent of world oil production.

So the threat of disrupted supply is a serious one for our economy, as we found out during the oil shocks of the 1970s, which cost our economy about \$2.5 trillion. If repeated today, such a crisis would cost our American economy about \$8 trillion. We were reminded of the threat of supply disruption again when Hurricanes Katrina and Rita disrupted supplies and caused price spikes here in our Nation.

These don't supply the United States, but they do supply our allies, and in a global oil market these supplies are interdependent. A disruption of European oil supplies would have effects on our economy.

We also expend extraordinary resources to maintain our access to for-

eign oil because it is so important. It is important to the success of our economy. While estimates vary, according to a study produced by the National Defense Council Foundation, the indirect security and military costs relating to securing our access to oil amount to about \$825 billion. That equates to more than \$5 a gallon, on top of the price we pay at the pump. So we cannot allow our Nation's security and the health of the American economy to rely on the whims of unstable, unreliable, even hostile governments.

If we refuse to address our single greatest point of vulnerability, we fail in our most fundamental duty to protect this Nation. It is clear we need to end this addiction. We need to be energy self-sufficient. But how are we going to get there? One answer, which we heard chanted in rallies across America last year, was: Drill, baby, drill.

It is true we could increase production from American reserves in the short term with an aggressive drilling strategy. In fact, I support changing leases on hundreds of thousands of acres already approved for petroleum drilling and converting those into "use it or lose it" leases because major oil companies have secured those leases, and they are sitting on them without doing a thing.

Nevertheless, drilling is not, and cannot be, a long-term strategy for the security of our Nation for one simple reason: America uses a lot of oil but has, globally speaking, limited reserves. In fact, the United States has just 2 percent of the world's oil reserves, as this chart shows right here. Here we are, down here at the small end, with Mexico and Europe. Then, we see Eurasia, with 7 percent; Africa, with 9 percent; Central and South America, with a little bit more; then Canada; and then the whopper, the Middle East, which makes my point about security for our supplies.

The ACTING PRESIDENT pro tempore. The Senator's time has expired.

Mr. MERKLEY. I thank the Chair.

The ACTING PRESIDENT pro tempore. The Senator from Rhode Island is recognized.

Mr. WHITEHOUSE. Mr. President, if the distinguished Senator from Oregon would care to complete his remarks, I would have no objection. I don't suspect anyone else would.

Mr. MERKLEY. I thank the Senator for that offer. I think that would be a period of about 5 or 6 more minutes, if that would be acceptable.

Mr. WHITEHOUSE. Absolutely.

The ACTING PRESIDENT pro tempore. The Senator from North Dakota.

Mr. DORGAN. Mr. President, I would have no objection. We are limiting morning statement business up to 10 minutes. We are on the business of the energy and water appropriations bill, waiting for amendments to be filed. So

we have a general order on this bill that morning business speeches will be 10 minutes.

I have no objection if the Senator wishes to take a few minutes extra, but I did want both Senators to understand that we are on the energy and water appropriations bill, and morning business is done under the consideration of that legislation. So I have no objection.

The ACTING PRESIDENT pro tempore. The Senator from Oregon is recognized.

Mr. MERKLEY. I would certainly defer to the Senator from North Dakota, if he feels there is other business he wishes to conduct. But I will proceed if he feels that is acceptable.

I thank my colleague.

Mr. President, we have looked at the reserves side of this, but now let's look at the consumption side. As this chart shows, America, which has only 2 percent of the reserves, consumes 24 percent of the world's oil. So we only have one-fifth of the supply but we consume one-fourth of the output. That is a formula for trouble. A nation would be in a strong position if it had very high reserves and very low consumption, but it is vulnerable if it has very low reserves and high consumption. Unfortunately, that is right where America is.

To make things worse, the price of petroleum is going to continue to rise as the thirst from China and India increases. Because of the position we are in, our addiction to imported oil will only grow if we don't significantly change our energy strategy.

So what about other fossil fuels? In my home State, energy speculators are looking to build terminals to import LNG or liquefied natural gas. There are vulnerabilities there as well. Where does LNG come from? Top producers include Qatar, Indonesia, Malaysia, United Arab Emirates, and Oman.

Other folks argue we can extract more oil from Canadian tar sands or turn our abundant oil into transportation fuel. But it is worth observing that these strategies require extraordinary energy to produce fuel and emit extraordinary amounts of pollution in the process. So we have to look elsewhere to find a solution, and the place to look is energy efficiency and renewable energy.

Energy efficiency is the fastest and cheapest way out of our dependence, and we know it works. In response to the 1970s oil crisis, the Nation doubled the required gas mileage performance of our cars and trucks and saw per capita oil consumption plummet, even as our economy grew. Our progress in this area has not been steady, however. It has stagnated over the last two decades.

Progress resumed this year, when President Obama made the announcement that we would increase gas mileage standards to more than 35 miles

per gallon 5 years ahead of the date scheduled. But we can do better. China will beat us to 35 miles per gallon, and 35 miles per gallon is not sufficient. We could aggressively develop and employ plug-in hybrid technology—cars with highly regenerative braking that can go at least 30 miles on a charge, enough to cover the daily commute, with no petroleum at all.

We need to deploy efficient strategies for the trucks that carry out our commerce—similar strategies with efficient body design. We need to move goods by rail and barge. A barge can move a ton of cargo 576 miles on a gallon of fuel, and a train can move a ton of cargo 413 miles on a gallon of fuel.

We should give our families and workers better transportation options, better access to rail and bus lines. We know from experience that with the right policy choices, we can use far less energy to power our economic activity.

We use a fraction of the energy today for gross domestic product that we did 30 years ago. If we give American scientists, engineers, and businesses the right incentives, tomorrow's economy will be orders of magnitude more efficient.

The other half of the equation is renewable energy, produced right here in America. It is the second major weapon in the war against oil addiction. Renewable electric energy can replace oil by providing power for plug-in electric vehicles.

I have heard Senator REID describe Nevada as the Saudi Arabia of solar power renewable electric energy, and I have heard the good Senator from North Dakota describe North Dakota as the Saudi Arabia of wind power renewable electric energy. We need to seize this Nation's potential for renewable electric in wind, solar, wave, and geothermal.

We can also transition to homegrown renewable liquid fuels in the form of biofuels. In my State of Oregon, as one example, we have lots of fiber that can be converted, forced biomass that can be converted into fuel. We can produce biobutanol, biodiesel, and bioethanol. Producing biofuels from agricultural and forestry waste and waste from cellulosic nonfood crops raised on marginal lands, we can produce significant quantities of energy and create jobs and wealth for America's farmers and timber workers.

If an American car can go 30 miles with renewable electricity and then, if needed, switch over to a 50-mile-per-gallon engine burning cellulosic biofuels derived from forest biomass, that car is not using a single drop of imported foreign oil. It is running on 100 percent red, white, and blue energy.

In energy efficiency and renewable energy, we have twin elements that can break our addiction to foreign oil, but to achieve that self-sufficiency we need a comprehensive energy policy, a

comprehensive strategy for saving energy and producing our energy here at home. That is what President Obama called for and what the Senate Committee on Environment and Public Works is developing—drafting a comprehensive system of incentives and investment that, in combination with energy policies crafted by the Senate Committee on Energy and Natural Resources, will reduce our fossil fuel dependence and put us on the track to energy self-sufficiency.

Some say that energy conservation and renewable energy are too expensive. They could not be more wrong. Every economist will tell you that the cheapest energy is the energy you never use. Even today, renewable solar, wind, and geothermal are cheaper than imported oil when you factor in the huge price we pay to maintain our access to that oil.

Let me add, when we stop spending \$2 billion a day on imported oil and spend that money on renewable fuels here in the United States, we are going to create a lot of good-paying jobs for America's families.

Depending on a few foreign nations for imported oil is a colossal mistake. We need to change course, improve our national security, and spend our energy dollars here in America to create jobs. That is why I hope every Member of the Senate will join me in supporting our 2009 clean energy and jobs bill when it comes to the Senate floor this fall.

I yield the floor.

The PRESIDING OFFICER. The Senator from North Dakota is recognized.

Mr. DORGAN. Mr. President, the 1 o'clock time has passed for the filing of amendments as a result of the cloture motion being filed last evening. I believe we now have about 90 amendments filed to this bill. Not all of them will be offered, certainly, but 90 amendments represent the determination of people who wish to alter this bill, who wish, presumably, to come and offer amendments, have a debate on amendments, and perhaps have a vote on their amendments. Yet no one arrives.

I indicated earlier that Senator BENNETT and I have talked about a third reading on this legislation to move it through the Senate. The fact is, the majority leader will not have the patience to allow us to sit here with nothing to do and people saying they want to offer amendments but not being willing to show up to offer amendments. We have been here since Monday afternoon, and very little has been done.

I again say to the staff that may be watching or Senators who are watching, I think we ought to conclude this bill. If people are not interested in offering amendments—filing amendments is not offering them. If they do not have the interest in coming to the

floor of the Senate to offer them, I am going to push very hard with the majority leader to go to third reading and finish this legislation this afternoon.

The ACTING PRESIDENT pro tempore. The Senator from Rhode Island is recognized.

Mr. WHITEHOUSE. Mr. President, while we await the arrival of Senators who may be interested in offering their amendments, I ask unanimous consent to speak for up to 12 minutes in morning business.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

Mr. WHITEHOUSE. Mr. President, I rise today to join my colleague from Oregon in discussing the challenges and opportunities America faces as we look to ensure our economic leadership and prosperity for the 21st century and beyond.

America has always been a land of innovation and entrepreneurship. We led the way during the industrial revolution, which began at Slater Mill in Pawtucket in my home State of Rhode Island. We led the way in the information technology revolution that began in Silicon Valley. It is in American DNA to think boldly and through hard work to translate bold thinking into practical solutions, solutions that improve people's lives all over the world and bring prosperity to our shores.

It is time for us to lead again. A clean energy economy beckons, and we must not, we cannot ignore the call. Congress must act to pass clean energy legislation that will promote, here at home, cleaner, cheaper renewable energy sources such as wind, solar, and biofuels. I stand here today in strong support of such legislation.

Our transition to a clean energy economy is past due. This country has run on the same fuels at basically the same efficiency levels since the start of the industrial revolution over a century and a half ago. This was acceptable in 1900, perhaps even in 1950, but where does it leave us today, in 2009?

First, it leaves us dependent on foreign oil. Approximately 40 percent of our energy needs are met through oil, and more than 70 percent of this oil, at a cost of \$630 billion out of the American taxpayers' pocket every year, comes from foreign sources including Saudi Arabia, Venezuela, and other regimes that do not wish us well. It is the largest transfer of wealth in history, and we are on the losing end of it, and international big oil is only too happy to profit off America's decline.

Second, while we enrich hostile foreign governments and international big oil, other countries have embraced the development, manufacture, and export of renewable clean energy technology, such as wind turbines and solar panels, so that now half of America's existing wind turbines are manufactured overseas. The United States invented the

first solar cell, but we now rank fifth among countries that manufacture solar components. The United States is home to only one of the world's top 10 companies manufacturing solar energy components and to only one of the world's top 10 companies manufacturing wind turbines.

Recently, two wind turbines went up in Portsmouth, RI. One was manufactured by Vestas, a Danish company, and the other by an Austrian company with a Canadian distributor that delivered the components to Rhode Island. These turbines are very welcome. It was like a barn raising when they went up. People came out to watch. As a result, Rhode Island and America got the benefit of cleaner, cheaper energy, but we missed out on the manufacturing jobs these projects should have created for American workers.

Other countries that have embraced the demand for clean energy technology, such as China, Germany, Japan, and Brazil, are all investing more per capita in clean energy than the United States.

I ask unanimous consent to have printed in the RECORD a Washington Post article dated July 16, 2009, "Asian Nations Could Outpace U.S. in Developing Clean Energy."

There being no objection, the material was ordered to be printed in the RECORD, as follows:

[From the Washington Post, July 16, 2009]

ASIAN NATIONS COULD OUTPACE U.S. IN
DEVELOPING CLEAN ENERGY
(By Steven Mufson)

President Obama has often described his push to fund "clean" energy technology as key to America's drive for international competitiveness as well as a way to combat climate change.

"There's no longer a question about whether the jobs and the industries of the 21st century will be centered around clean, renewable energy," he said on June 25. "The only question is: Which country will create these jobs and these industries? And I want that answer to be the United States of America."

But the leaders of India, South Korea, China and Japan may have different answers. Those Asian nations are pouring money into renewable energy industries, funding research and development and setting ambitious targets for renewable energy use. These plans could outpace the programs in Obama's economic stimulus package or in the House climate bill sponsored by Reps. Henry A. Waxman (D-Calif.) and Edward J. Markey (D-Mass.).

"If the Waxman-Markey climate bill is the United States' entry into the clean energy race, we'll be left in the dust by Asia's cleantech tigers," said Jesse Jenkins, director of energy and climate policy at the Breakthrough Institute, an Oakland, Calif.-based think tank that favors massive government spending to address global warming.

Energy Secretary Steven Chu and Commerce Secretary Gary Locke are visiting China this week to discuss cooperation on energy efficiency, renewable energy and climate change. But even though developing nations refused to agree to an international ceiling for greenhouse gases last week, China and other Asian nations are already devoting

more attention to cutting their use of traditional fossil fuels such as oil, natural gas and coal.

South Korea recently said it plans to invest about 2 percent of its GDP annually in environment-related and renewable energy industries over the next five years, for a total of \$84.5 billion. The government said it would try to boost South Korea's international market share of "green technology" products to 8 percent by expanding research and development spending and strengthening industries such as those that produce light-emitting diodes, solar batteries and hybrid cars.

China and India are kick-starting their solar industries. India aims to install 20 gigawatts of solar power by 2020, more than three times as much as the photovoltaic solar power installed by the entire world last year, the industry's best year ever. And China's new stimulus plan raises the nation's 2020 target for solar power from 1.8 gigawatts to 20 gigawatts. (A gigawatt is about what a new nuclear power plant might generate.)

"China is trying to catch up in a global race to find alternatives to fossil fuels," the official China Daily said in an article last week.

"A lot of people underestimate how focused China is on becoming a global leader in clean technology," said Brian Fan, senior director of research at the Cleantech Group, a market research firm. China now provides a \$3-a-watt subsidy upfront for solar projects, he said, enough to cover about half the capital cost. Fan said it is "the most generous subsidy in the world" for solar power.

China is also expected to boost its long-term wind requirement to 150 gigawatts, up from the current 100 gigawatt target, by 2020, industry sources said. Jenkins said China could provide \$44 billion to \$66 billion for wind, solar, plug-in hybrid vehicles and other projects. Fan said China also plans to make sure that many of the orders go to its own firms, Gold Wind and Sinovel.

The big Asian research and investment initiatives come as U.S. policy makers boast about their own plans, giving ammunition to those who say this country needs to do more.

"That R&D represents America's chance to become the world's leader in the most important emerging economic sector: energy technology," said House Majority Leader Steny H. Hoyer (D-Md.) in a May 13 speech to the U.S. Chamber of Commerce. "In the years to come, I hope that America will be selling clean technology to China and India and not the other way around."

Confident that the United States will develop top-notch technology, the House voted overwhelmingly on June 10 to oppose any global climate change treaty that weakens the intellectual property rights of American green technology.

"We can cede the race for the 21st century, or we can embrace the reality that our competitors already have: The nation that leads the world in creating a new clean energy economy will be the nation that leads the 21st century global economy," Obama said on June 29.

But countries in Asia are not standing still waiting for U.S. advances.

That both excites and worries U.S. manufacturers torn between opportunity and fear of a boost for Asian competitors at a time when the world's biggest market, the United States, has slowed down sharply. "This is heavy manufacturing business. The U.S. has had a great position over the last several years," said Vic Abate, vice president of renewables at General Electric, the world's

number two wind turbine company. "If it slows down and if investment doubles down in China, it will be a lot harder to catch up."

"We have already been left behind in some areas," said Mark Levine, director of the environmental energy technologies division at Lawrence Berkeley National Laboratory. "But . . . there remain many opportunities," he said, adding that "the U.S. can carve out key areas in clean energy technology."

Although GE is the only U.S. company among the world's top 10 wind turbine makers (China has two, Germany has three), Levine said "there are areas in wind energy where we are likely to develop crucial technologies that we will both exploit and likely license to others." He cited advanced materials that would permit stronger rotors and techniques for taking advantage of higher wind speeds at greater heights.

Levine said the United States is unlikely to "become the or even a leading photovoltaic manufacturer. But our scientific talent . . . has a good chance of developing the next-generation PV systems which we could either manufacture in China or another country . . . or license to foreign companies. . . . Even if the manufacturing is done abroad, this will lead to very real and large benefits to the U.S. from licensing fees, not to say sales in the U.S. and elsewhere."

Mr. WHITEHOUSE. We have some catching up to do, and while we do that catching up, millions of Americans are out of work.

My home State of Rhode Island has one of the highest unemployment rates in our country. Across my State and across our country, couples are sitting at the kitchen table at night after the kids are in bed, with the bills on the table in front of them, and they are trying to figure out how to make ends meet and it is not adding up. That is the reality many Americans face when we cling to the failed policy of the past, when we care more about keeping big oil happy than about finding new, inventive ways for the average American worker to find lasting, secure employment in the tradition of American entrepreneurship.

Remarkably, there are those in Congress who would have us do nothing, who would remain wedded to tired, centuries-old technologies and left in the dust as other nations race for leadership in the new clean energy world. I submit this do-nothing caucus is selling America short. Don't they trust that when it comes to inventing new technologies and manufacturing valuable products, we are the best in the world?

If Congress passes strong clean energy legislation that creates the necessary incentives for the research, development, manufacture, and sale of clean energy technologies, that spirit of innovation and entrepreneurialism will again lead the world, as it has so often over the centuries. We can have confidence in that.

We have already seen some progress. It is clear, at least, that people outside the beltway get it. In the last 10 years, jobs in the technology sector have grown nearly 2½ times faster than

overall. In 2006 alone, the American Solar Energy Society estimates that Federal, State, and local governments spent \$8.6 billion on energy efficiency, creating 64,000 direct jobs and 83,000 indirect jobs. Their investment of an additional \$3.2 billion in expanding new energy production created more than 7,000 direct jobs and nearly 9,000 indirect jobs.

Every day in America, real people and real companies are moving into the clean energy economy. In Rhode Island, Newport Biodiesel is producing a cheaper form of home heating oil for Rhode Island families by recycling restaurant grease. Alteris Renewables is creating jobs in Rhode Island installing solar energy systems on residential homes. I recently visited a home in Charleston, RI, where a family has a new Alteris solar energy system on their roof and heard from them about the significant energy savings they will achieve.

But this is only a fraction of the scale needed to revolutionize our economy. The American people, our researchers, entrepreneurs, and workers from the largest, most sophisticated research institutions and corporations to our smallest local businesses, can create clean energy jobs everywhere in the United States—in urban areas as well as rural, in the Rust Belt as well as the Wheat Belt, in our deserts and on our coasts. All they need is for us in Congress to set the economic parameters correctly, to level the playing field with foreign competition, to meet the market for investment in these products. America is waiting for Congress to act.

As I close, let me address a couple of the points we often hear from the do-nothing caucus and their see-nothing supporters in the boardrooms of the big polluters.

First, we simply cannot drill our way toward a secure energy future. It would take 10 years before we would see any tangible results from drilling, and the result would be negligible when it came. The United States has only 3 percent of known oil reserves. Yet we use 25 percent of the world's oil production. We cannot drill our way out of that math. The United States could supply 20 percent of our energy needs through wind power alone, not even factoring other forms of renewable energy.

The choice is a clear one for the future: Do we continue to enrich ExxonMobil and continue our dependence on foreign oil from places such as Saudi Arabia and Venezuela or do we decide to lead the world and tap into America's most abundant resource, the innovation and entrepreneurship of the American people?

We should also be skeptical of the champions of the status quo when they exaggerate the cost associated with transitioning to a clean energy econ-

omy. Our CBO has projected that clean energy jobs legislation would cost most American households on average less than a postage stamp per day, and it actually puts money back into the pockets of the poorest families, and that didn't even consider the savings to individuals and companies from energy efficiency practices and technologies. If prices go up a little but efficiency reduces demand and reduces use, families save. They always leave that part out of their see-nothing scenarios. We can easily increase our energy efficiency to cover 15 percent of our energy needs by 2020 and save American families and businesses nearly \$170 billion in electricity costs.

Of course, the do-nothing caucus overlooks the cost of doing nothing. Unchecked greenhouse gas pollution has already begun to melt our glaciers and warm our oceans, leading to stronger, more frequent storms and rising sea levels. America's insurers are worried about our coasts, home to over 53 percent of the U.S. population, where we generate over 83 percent of our gross domestic product. We put a lot at risk if we follow the lead of the do-nothing caucus.

We have heard the "Do Nothing Caucus" argue that strong environmental legislation would hurt the economy and cost us jobs. It is the same old polluters' argument. It is as wrong now as it has always been before.

In the 1990 debate on the acid rain program, manufacturers warned that the health benefits of the program were unclear and that their adoption could deal a "crushing blow to U.S. business." But when the acid rain program was enacted, the program began delivering \$70 billion annually in human health benefits, at a benefit-to-cost ratio of more than 40 to 1. Industry and environmentalists alike now agree the program was a success. Oops to that argument.

In 1995, DuPont warned the costs of phasing out ozone-depleting chemicals would exceed \$135 billion and that "entire industries would fold." But when the phaseout became law, compliance costs turned out to be less than 1 percent of the doomsday projection. DuPont made millions selling substitutes for the phased-out chemicals, and we managed to shrink the hole in the ozone layer of our Earth's atmosphere. Oops again.

We are at a crossroads. We can step toward the clean energy economy that beckons and show the world our capacity for leadership in the world economy, as we have done time and time again, or we can cling to the status quo, heads firmly wedged in the sand, and trade in our future for the well being of big oil and the Saudi Arabia royal family.

The right choice is clear, and I am confident we will make it.

I yield the floor.

The PRESIDING OFFICER (Mr. MERKLEY). The Senator from Texas is recognized.

TORT REFORM

Mr. CORNYN. I know a number of our colleagues have come to the floor and talked about health care reform. I think this is not only an important debate, I think the American people deserve our best work and certainly our closest attention to something that will impact not just some of us but literally all 300 million of us living here in the United States.

I want to focus my remarks on the next few minutes on what is missing, what is missing from the bills moving in the Senate and the House of Representatives. Millions of Americans are paying attention to what is in these bills. That is a good thing. Everybody wants to see what Congress is up to and everybody wants to understand what is in these bills and how it will impact their health care.

As I talk to my constituents in Texas, they tell me that Congress may well make the problem worse, and for good reason. Families are worried that Congress will increase the cost of their health care or force them into a government plan, a pathway to a single-payer system.

Small business owners are concerned that higher taxes and new mandates will make it harder for them to weather the current recession. Physicians and other health care providers are worried that we will not fix the problem with Medicare and Medicaid, and will make their hassles even worse by creating new government programs on top of flawed and unsustainable current government programs.

Patients—that would be all of us—are worried about the quality of care and whether the government will ultimately deny treatment or delay treatment as in Canada and the United Kingdom and other places where the government has taken over health care. And everybody is, frankly, worried about spending more taxpayer dollars, especially after the spending spree we saw earlier this year with the flawed stimulus package which spent more than \$1 trillion, including interest, of borrowed money, and which has failed so far to meet its intended goal of keeping unemployment down to 8 percent or less.

I believe the people of this country will have greater confidence in Congress if we focus on reforms that will actually lower the cost of health care and not reduce access or quality, and that will actually increase access and quality.

One proven way of doing that is not even on the table. I think the American people would be justified in asking: Why? Why is that not on the table? Why are we not talking about eliminating junk lawsuits that create the practice of defensive medicine and

which do nothing but exacerbate and worsen high health care costs in this country?

Medical liability laws exist for a very good reason, to compensate victims of negligence and other medical errors. Every victim of medical malpractice deserves access to the courts and for their case to be heard. But over the years our laws have somehow encouraged a wave of frivolous litigation which has done little but enrich trial lawyers and encourage the practice of defensive medicine and increase the cost of health care for all of us. It is estimated that defensive medicine costs the American taxpayer more than \$100 billion every year, \$100 billion of additional cost. That is according to economists Daniel P. Kessler and Mark B. McClellan.

Yet despite this potential savings of \$100 billion, trial lawyers have not been asked to make the same sacrifices as others have to lower health care costs.

We know there is a lot of arm twisting going on here in Washington these days. Hospitals, drug makers, insurers, and others have all been asked to pitch in, make a commitment to help. But so far there is one contingent that has not been asked for one dime. That is the trial lawyers. They have not been asked to step up and take one for the team.

Medical liability reform can lower costs while expanding access to care. I would respectfully suggest to my colleagues that they look to the experiment we have recently conducted in the State of Texas. It is a successful experiment to increase access and lower costs. Texas illustrates both the problem and the solution. In the early part of the decade, Texas was a trial lawyer's dream and a doctor's nightmare. Our State had become a haven for medical malpractice lawsuits. As a result, physicians' medical malpractice premiums had doubled and many insurers simply gave up and left the State and would no longer write medical malpractice insurance coverage at all. In fact, the number of physician liability insurers writing policies in Texas fell from about 17 to 4. Many doctors left the State or restricted the procedures they were willing to perform or simply retired early. This reduced access to health care as well as quality for millions of people across the State of Texas.

Our legislature and our Governor at the time saw the problem, and in a series of legislative reforms culminating in 2003, they took action. They placed a \$750,000 cap on noneconomic damages in medical malpractice cases. They required the punitive damages; that is, damages that are awarded for punishment, not as compensation, be approved by juries unanimously. They imposed a firmer statute of limitations saying you needed to bring your claim within a specified time rather than sit

on your rights and allow this claim to be stale and witnesses' memories dim. They set a higher standard for expert witnesses, the so-called out-of-town folks with a briefcase who are willing to testify for or against a particular claim depending on their compensation.

These and other reforms were designed to create an honest and predictable civil justice system, in which victims would receive just and timely compensation; bad actors would be held to account; and the good doctors could afford to practice in our State.

As I indicated, the results of this experiment have been dramatic. Average premiums for medical malpractice fell by 27 percent on average, 27 percent lower premiums, and in some cases by more than 50 percent.

Patients saw lower premiums for health care because doctors no longer had to pay skyrocketing premiums for their medical liability insurance. That translated into lower premiums for patients for their health care.

More than 400,000 Texans are now covered by health insurance because premiums have become more affordable. That is 400,000 more since these reforms took place.

Another amazing phenomenon here is that physicians literally flocked to our State. They literally returned to the Lone Star State in large numbers. We saw the overall growth rate of 31 percent in the number of new physicians moving to our State, including underserved areas such as El Paso, TX, where a 76-percent increase in that underserved area was seen as a result of this reform.

We also saw a number of key medical specialists who had simply fled critical parts of our State—such as obstetricians, neurosurgeons, orthopedic surgeons—return to practice and provide access to good quality health care.

Some Texans who had never had access to prenatal care or emergency care available in their county now have greater access, which means shorter drive times and wait times and healthier babies and happier families.

The results in Texas, I would submit, have simply been remarkable. But what a great laboratory for us to learn from in enacting commonsense medical liability reform as part of our overall health care debate. But, of course, Texas is not unique in this experience. Other States have reformed their laws as well to similar effect, including California, Colorado, Florida, Indiana, Montana, and Virginia. They have seen lower costs and greater access to health care. What works in the State can also work here in Washington, DC and around the whole country generally if we were simply to have the courage to embrace it. We must include medical liability reform in eliminating junk lawsuits and frivolous litigation as part of any comprehensive health care reform bill.

Specifically, we should enact standards that cap noneconomic damages, establish firmer statutes of limitations so that claims will be brought on a timely basis and not after memories fail and evidence is lost. We should implement several other reforms that have proved to be so successful both in Texas and around our States. These reforms will lower the cost of health care for all Americans.

But do not take my word for it. Ask the Congressional Budget Office. The nonpartisan Congressional Budget Office has been under tremendous political pressure these days, including an unprecedented invitation by the President of the United States for the current Director to come over to the White House and explain why they have come back with such eye-popping, sticker-shock numbers as they have with some of the proposals that have been made.

But the Congressional Budget Office took a look at the potential cost savings if Washington adopted national reform along the lines of what we have done in Texas. They estimated that the Federal Government alone would directly save \$5.6 billion from these types of reforms and that total health care spending could be reduced further if these reforms reduced the practice of defensive medicine.

CBO also concluded that such reforms would likely increase access to health care as we have seen in Texas, where doctors, instead of retiring, decide to continue to practice where they will feel less like hunted prey and more like the health care provider they always have wanted to be, and provide healing and comfort and care to people without access to care right now.

Medical liability reform cannot solve all of the problems in our health care system, but no health care reform bill will ever be comprehensive without it. I would ask my colleagues why it is that every other idea under the Sun seems to have made its way into the health care reform bills we have been debating except for one of the most obvious, which is medical liability reform.

Even President Obama acknowledged that huge liability judgments lead doctors to practice defensive medicine, which drives up the cost of health care for all of us.

Now is the time for Congress to reach the same conclusion and to take steps that have proven so successful in a number of States. If we reform medical liability laws nationwide, eliminating junk lawsuits and frivolous litigation, we will lower the cost of health care, we will expand access to health care, and we will show the American people that we are listening to them and focusing on solutions that will work.

I yield the floor.

AMENDMENT NO. 1903 TO AMENDMENT NO. 1813

The PRESIDING OFFICER. The Senator from Vermont.

Mr. SANDERS. Mr. President, I call up amendment No. 1903.

The PRESIDING OFFICER. The clerk will report.

The assistant legislative clerk read as follows:

The Senator from Vermont [Mr. SANDERS] proposes an amendment numbered 1903 to amendment No. 1813.

Mr. SANDERS. I ask unanimous consent that reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment is as follows:

(Purpose: To provide additional amounts for technical assistance grants)

On page 34, line 7, before the period, insert the following: “: *Provided further*, That within existing funds for industrial technologies \$15,000,000 shall be used to make technical assistance grants under subsection (b) of section 399A of the Energy Policy and Conservation Act (42 U.S.C. 6371h-1(b)):

Mr. SANDERS. Mr. President, this amendment addresses the issue of district heating which has incredible potential as a force for sustainable energy. Specifically, what this amendment would do is provide \$15 million in technical assistance grants to institutional entities such as municipal utilities, institutions of higher learning, public school districts, local government or a designee of any of these entities through section 399A of the Energy Policy and Conservation Act as incorporated by the Energy Independence and Security Act of 2007. It would do this by directing \$15 million within the \$100 million for the DOE industrial technologies program to be directed toward district energy and combined heat and power.

This Nation has a huge opportunity to reduce greenhouse gas emissions, create jobs, and provide reliable energy for heating and cooling and electricity by moving toward district energy and combined heat and power. District energy systems provide heating and cooling to two or more buildings or facilities through underground pipes. These systems can efficiently meet the heating and cooling needs of towns and cities. Much of Copenhagen, for example, is now heated through district heating. It can provide electricity and heating for college campuses, for hospitals, public buildings, and other facilities.

Combined heat and power refers to the production of both electricity and thermal energy. You are creating electricity and heat from the same powerplant. Combined heat and powerplants can provide thermal energy for district energy systems.

In my city of Burlington, VT, where I had the honor of being mayor for 8 years, we built the largest wood chip burning plant in the State of Vermont. This plant has a 50-megawatt capacity that runs on wood chips and wood waste. Roughly 60 percent of the energy produced by this plant is lost as

wasted heat. Burlington, similar to other cities around the country, could capture that waste heat and use it to provide heating and cooling to multiple buildings downtown.

According to a 2008 Department of Energy report, combined heat and power systems, particularly in coordination with district energy systems, could make a huge impact in meeting our energy needs while lowering greenhouse gas emissions. Approximately 40 percent of our energy consumption is for heating and cooling of our buildings as well as industrial process heat. Combined heat and power represents roughly 9 percent of our electric power capacity today. If we can move to 20 percent combined heat and power by 2020, we could, according to the DOE, create more than 1 million new jobs and avoid more than 800 million metric tons of carbon dioxide emissions. This would avoid more than 60 percent of the projected growth in carbon dioxide emissions between now and 2030. In other words, this is a big deal. We are talking about real technology that is deployable today, not 50 years in the future. It is here today, ready to be utilized.

In Copenhagen, district energy provides clean heating to 97 percent of the city. This has saved energy, reduced fossil fuel consumption, and avoided greenhouse gas emissions. In our own country, in St. Paul, MN, district energy and combined heat and power provide 65 megawatts of thermal energy and 25 megawatts of electricity from renewable urban wood waste. That is an extraordinary development. This heats more than 185 buildings, 300 homes, and cools an additional 95 buildings. This has reduced emissions and provided exceedingly reliable energy for St. Paul. Same story, smaller scale, Jamestown, NY.

I offer amendment No. 1903, which will provide \$15 million for technical assistance grants under a program authorized in the 2007 Energy Independence and Security Act. These grants will help with engineering studies and feasibility studies. The grants do require a match of between 25 and 60 percent so we are leveraging Federal dollars wisely. These grants were authorized but have never received funding. In fact, we have long neglected district energy and combined heat and power systems. We should be providing Federal support for these efficient technologies.

Interestingly, according to the Biomass Resource Center and the International District Energy Association, there are hundreds of shovel-ready projects that need capital for infrastructure to go forward right now. We are on the verge of putting people to work, cutting greenhouse gas emissions, making these systems more energy efficient. We also have many programs around the country that are in

need of money for feasibility studies. By providing for technical assistance grants, we are taking an important step to move these projects forward.

I ask the chairman of the committee, I have offered this amendment. How does he suggest we proceed?

Mr. DORGAN. Mr. President, I am prepared to accept the amendment. My colleague, Senator BENNETT, is as well. The amendment has been cleared. We have reviewed it. We think it has merit, and we have approved it on both sides. I suggest we ask for consideration and have a vote on the amendment at this point.

Mr. SANDERS. I thank the chairman.

The PRESIDING OFFICER. Is there further debate on the amendment?

If not, without objection, the amendment is agreed to.

The amendment (No. 1903) was agreed to.

Mr. DORGAN. I thank the Senator from Vermont. I know he cares passionately about this issue. The description he has given demonstrates the merit of this proposal. Frankly, I am happy to be supportive.

Mr. SANDERS. I thank the Senator.

AMENDMENT NO. 1895 TO AMENDMENT NO. 1813

The PRESIDING OFFICER. The Senator from Oklahoma.

Mr. COBURN. I ask unanimous consent that the pending amendment be set aside and Coburn amendment No. 1879 be called up.

Mr. DORGAN. Might I ask the Senator to yield for a question?

Mr. COBURN. I am happy to yield.

Mr. DORGAN. Senator COBURN and I and Senator BENNETT talked about the order of his amendments. I believe he has three amendments. We intend to accept one. I had indicated to him on the contracting amendment he intends to offer, I will offer an amendment as well, and we will have side-by-side votes. I wonder if I might offer my amendment to have it pending. The Senator would then offer his amendment and discuss it and I would offer my amendment on behalf of myself and Senator BENNETT. If that is acceptable to the Senator from Oklahoma, I believe my amendment is filed. I ask unanimous consent that that amendment be called up. It is amendment No. 1895. I ask that on behalf of myself and Senator BENNETT.

The PRESIDING OFFICER. Without objection, the clerk will report the Dorgan amendment.

The assistant legislative clerk read as follows:

The Senator from North Dakota [Mr. DORGAN], for himself and Mr. BENNETT, proposes an amendment numbered 1895 to amendment No. 1813.

Mr. DORGAN. I ask unanimous consent that reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment is as follows:

(Purpose: To provide requirements regarding the authority of the Department of Energy to enter into certain contracts)

On page 63, after line 23, add the following: SEC. 312. None of the funds appropriated or otherwise made available by this Act may be used by the Department of Energy to enter into any federal contract unless such contract is entered into in accordance with the requirements of the Federal Property and Administrative Services Act of 1949 (41 U.S.C. 253) or Chapter 137 of title 10, United States Code, and the Federal Acquisition Regulation, unless such contract is otherwise authorized by statute to be entered into without regard to the above referenced statutes."

AMENDMENT NO. 1879 TO AMENDMENT NO. 1813

The PRESIDING OFFICER. The clerk will report the Coburn amendment.

The assistant legislative clerk read as follows:

The Senator from Oklahoma [Mr. COBURN] proposes an amendment numbered 1879 to amendment No. 1813.

The amendment is as follows:

(Purpose: To reduce the appropriation for Departmental Administration of the Department of Energy so that the Department can set an example for all Americans by reducing unnecessary energy usage)

On page 44, line 4, strike "\$293,684,000" and insert "\$279,884,000".

The PRESIDING OFFICER. The Senator from Oklahoma.

Mr. COBURN. Let me first discuss the amendment No. 1895. The American people need to know what this is.

This is a way to say we are following the law on everything in terms of contracting except if it is an earmark. That is what this amendment does. It says we will follow all the laws on contracting except if we have an earmark that we want some company to get that might be a political friend or political donor or might be something we think is better than somebody else might think. Dorgan 1895 essentially guts transparency for this country in terms of when we buy, what we buy, and how we buy.

My amendment says anything we buy is going to be competitively bid. Senator DORGAN may have something he believes in strongly and believes should be done. There is nothing wrong with that, especially if it is authorized. But there is plenty wrong with saying who is going to get the benefit from that being done, which company, which firm, which special interest group. Most often earmarks are for the well heeled, the well connected in this body. When I bring an amendment to the floor that says we will have transparency, the American people will get value. Even if we do an earmark, at least we know we will buy that earmark at a competitive price compared to what we could have bought it for otherwise.

What the Dorgan amendment does is guts that. It says we will follow the law

all the time, the Federal contracting statutes, except when we have earmarked something. So what it does, it allows them to vote to say they are following the law with the exclusion of all earmarks. Whereas my amendment says if you are going to earmark something, at least in these times of trillions of dollars of deficit, maybe the American taxpayer ought to get the benefit of having it competitively bid so that we get real value for it. It is not any more complicated than that.

What we say in my amendment is if it is out there, get good value for the American people, competitively bid it. Make sure it is online. Make sure we follow all the rules and regs. Today it is much more important than ever because government purchasing is more important to those people whose businesses are down-sliding. So we are having many more people interested in competing for the dollars on government work. Yet we have an amendment that is going to be voted on side by side for political cover only that sounds good. It sounds good. It says:

None of the funds appropriated or otherwise made available by this Act may be used by the Department of Energy to enter into any Federal contract unless such contract is entered into in accordance with the requirements of the Federal Property and Administrative Services Act . . . or Chapter 137 of title 10, United States Code, and the Federal Acquisition Regulation, unless such contract is otherwise authorized by statute . . .

That is code word for earmark, "unless such contract is otherwise authorized by statute."

If you vote for the Dorgan amendment, you want to continue to connect the well heeled, the well connected and you don't want transparency and you don't want competitive bid prices on what we as Americans pay through our tax dollars for what the government buys. It is as simple as that. What my amendment says is, each time, every time, unless it is in the interest of national security, we will, in fact, competitively bid. We may not all agree where Senator DORGAN or I may want something done, but at least when we are doing it, we will buy it in a more efficient, more effective way and save money for the American taxpayer.

I ask for the yeas and nays on my amendment.

The PRESIDING OFFICER. Is there a sufficient second?

There appears to be.

The yeas and nays were ordered.

Mr. COBURN. Is the order that we will pool votes for a later time?

Mr. DORGAN. Mr. President, I will respond, of course, to the comments of the Senator from Oklahoma. If he would wish, it might be sensible for him to proceed to offer his other amendments, calling them up, setting aside this amendment, and we will have them all in front of us. Then we can discuss them and develop an order by which we might vote.

AMENDMENT NO. 1878 AS MODIFIED TO
AMENDMENT NO. 1813

Mr. COBURN. I ask that the pending amendment be set aside and I call up amendment 1878; further, that it be in order to modify the amendment with the change I send to the desk. I understand Senator DORGAN has approved this change.

The PRESIDING OFFICER. Without objection, it is so ordered.

The clerk will report.

The assistant legislative clerk read as follows:

The Senator from Oklahoma [Mr. COBURN] proposes an amendment numbered 1878, as modified to amendment No. 1813.

Mr. COBURN. Mr. President, I ask unanimous consent that reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment, as modified, is as follows:

(Purpose: To require public disclosure of reports required in appropriations bills)

At the appropriate place, insert the following:

SEC. _____. (a) Notwithstanding any other provision of this Act and except as provided in subsection (b), any report required to be submitted by a Federal agency or department to the Committee on Appropriations of either the Senate or the House of Representatives in an appropriations Act shall be posted on the public Website of that Agency upon receipt by the committee.

(b) Subsection (a) shall not apply to a report if—

(1) the public posting of the report compromises national security; or

(2) the report contains proprietary information.

Mr. COBURN. Mr. President, throughout this appropriations bill, we have a lot of reports we are asking agencies to come up with. This is another amendment about transparency. I appreciate the fact that the chairman and ranking member will accept this amendment.

What this says is, if we get a report, the agency has to report it to the American people. In other words, they have to publish it. We get to see what the results of that report are. There are exceptions for national intelligence and the military, but in those areas where there is not a reason for the American people not to see it in terms of national defense or our own security, what this amendment says is the agencies have to release the reports and put them online and make them available to the American people. You paid for the report; you ought to be able to see the results. Far too often around here, we get reports but only certain people get the reports. Some of us never get reports. So what this says is, the reports that come out of here that are not related to national security or defense and otherwise are appropriate will be made available by the agency to the American public.

With that, I yield to the chairman.

The PRESIDING OFFICER. The Senator from North Dakota.

Mr. DORGAN. Mr. President, Senator BENNETT and I have reviewed this amendment and think it has merit and support it and hope we could vote on this by voice vote and that we might do so immediately. So, Mr. President, if the Senator from Oklahoma is ready, I will suggest that we dispose of this amendment by consent.

Mr. COBURN. Mr. President, it is fine for us to accept it.

Mr. DORGAN. It has been cleared by both the Republican side and Democratic side.

The PRESIDING OFFICER. Is there further debate on the amendment?

If not, without objection, the amendment, as modified, is agreed to.

The amendment (No. 1878), as modified, was agreed to.

Mr. COBURN. So I understand, Mr. President, we have accepted amendment No. 1878. I also understand that amendment No. 1884, which requires contracts, has a side-by-side with Dorgan amendment No. 1895.

AMENDMENT NO. 1879

Mr. President, is amendment No. 1879 pending?

The PRESIDING OFFICER. Yes, it is.

Mr. COBURN. At the Department of Energy, one of its tasks in this country is to help us with energy efficiency, to help us with a lot of what we would expect to be within the Department of Energy. It is peculiar, however, when the Department of Energy has looked at themselves, they are highly inefficient, according to their own inspector general, with the utilization of energy. They have 9,000 buildings. The inspector general said last year they wasted at least \$13.8 million in energy costs—\$13.8 million. There is \$13.8 million they could have saved had they done some small, simple, straightforward things like they request every other agency in the Federal Government to do. Isn't it ironic that the very agency that is telling all the rest of the agencies to save money by becoming efficient with their computers, by becoming efficient with their heating and cooling systems, by becoming efficient with their utilization of lighting, does not even follow their rules they ask the rest of the agencies to follow.

This is a very simple amendment. We know at least \$13.8 million was wasted last year. That is probably just the tip of the iceberg. This amendment says we are going to reduce their funds by \$13.8 million. And I can tell them the steps tomorrow as to how they can save \$13.8 million so it will have no net effect on the agency. So with what we do, the American taxpayers get \$13.8 million, as a minimum, of energy savings out of the Department of Energy. That is as straightforward as I can say it.

Here is another one of those reports that nobody reads except our staff, and you see the IG is doing their actual work, and now we are bringing an

amendment to the floor. It has not been agreed to. It has not been accepted. But it is absolute common sense. I do not understand why it is not accepted, when the IG has plainly listed out where you can save the money and how you can do it. Why would we not reduce their funding to force them to do that?

So it is a no-net-revenue-loss for them because they are going to save the \$13.8 million as they reconfigure computers, as they follow their own regulations within the Department of Energy. I will not go on in detail. But this is the kind of commonsense amendment we need to be doing in the Senate to hold the agencies accountable to follow their own rules, as they force everybody else to follow the same set of rules. This is not "do as I do." This is "do what you see us doing." That is the model, and that is the example.

AMENDMENT NO. 1884 TO AMENDMENT NO. 1813

Mr. President, it is my understanding that amendment No. 1884 still needs to be called up. So at this time, I ask unanimous consent to set aside the pending amendment, call up amendment No. 1884, and then following its calling up, to set it aside and resume the present amendment.

The PRESIDING OFFICER. Without objection, it is so ordered.

The clerk will report.

The assistant legislative clerk read as follows:

The Senator from Oklahoma [Mr. COBURN] proposes an amendment numbered 1884 to amendment No. 1813.

Mr. COBURN. Mr. President, I ask unanimous consent that reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment is as follows:

(Purpose: To prohibit no bid contracts by requiring the use of competitive procedures to award contracts and grants funded under this Act)

At the appropriate place, insert the following:

SEC. _____. (a) Notwithstanding any other provision of this Act, none of the funds appropriated or otherwise made available by this Act may be used to make any payment in connection with a contract unless the contract is awarded using competitive procedures in accordance with the requirements of section 303 of the Federal Property and Administrative Services Act of 1949 (41 U.S.C. 253), section 2304 of title 10, United States Code, and the Federal Acquisition Regulation.

(b) Notwithstanding any other provision of this Act, none of the funds appropriated or otherwise made available by this Act may be awarded by grant unless the process used to award the grant uses competitive procedures to select the grantee or award recipient.

AMENDMENT NO. 1879

Mr. COBURN. Mr. President, it is my understanding we are back on the previous amendment.

The PRESIDING OFFICER. The Senator is correct.

Mr. COBURN. One last point I would like to make is that the Department of Energy is responsible for numerous private sector energy-efficient programs and for the enforcement of those programs. It makes sense that if they are going to be the enforcer and be responsible, they ought to follow those same energy efficiencies to regain the confidence of the very people they are saying they want change from. It is pretty hard to expect people to swallow making changes for energy efficiency in all the rest of the government agencies when the very agency that is telling you to do it does not follow its own rules. So this is straightforward.

I know the appropriators do not like somebody coming and cutting money, but this is a no-net-cost to the agency. All they have to do is about 15 small steps—very inconsequential in terms of cost—and they can save almost \$14 million next year. Probably they will save \$20 million or \$25 million, and that is just based on the two IG reports we have from the fall of last year and the spring of this year. So this is not old data. This is brandnew data. These are brandnew reports from the IG.

I hope my colleagues would reconsider and accept this amendment because it is one of the ways we can save \$13.8 million. It is an easy deal.

With that, I yield the floor.

The PRESIDING OFFICER. The Senator from North Dakota.

Mr. DORGAN. Mr. President, as always, the Senator from Oklahoma is thoughtful and courteous, and we appreciate—Senator BENNETT and I appreciate—him coming to the floor and offering his amendments.

Let me say to the Senator from Oklahoma, we cut the administration budget in the Department of Energy by \$8 million as we brought it to the floor. But even more important than that, we have cut \$643 million from the Department of Energy from the President's budget. So as CBO recalculates the President's request to the Congress, we have cut \$643 million. And we have cut \$8 million in the administration budget in the Department of Energy.

So I sympathize with his notion. I certainly strongly support what he is suggesting to the Department of Energy they should do. I just say to him, we have already made those cuts and far, far more in terms of what the President wanted for the Department of Energy. We are \$643 million below the President's request and \$8 million below in the administration accounts in the Department of Energy.

Mr. President, I will be happy to yield to the Senator.

Mr. COBURN. Mr. President, the Senator would admit, would he not, that the President's request is what he requested, it is not what was actually spent last year? That is No. 1. What you have done is cut \$8 million from actual expenditures in administration last year.

Mr. DORGAN. That is correct.

Mr. COBURN. So therefore would the Senator agree to accept my amendment to just adding \$5.5 million to the \$8 million you have already cut, because you are going to get it back in energy savings?

Mr. DORGAN. Mr. President, again, I agree that what we ought to be doing is encouraging the Department of Energy—all Departments—to be engaged in energy savings and efficiencies and so on. I will be glad to visit the Senator about cuts. But, as I said, we already made substantial cuts. I think the Senator from Oklahoma knows that the President's request, in the context of the broad range of budget requests for a broad group of Federal agencies, was what he felt he wanted and needed in order to have some sort of transformational energy future.

We are working on a wide range of new and innovative energy approaches: decarbonizing coal, additional production in wind and solar and biomass, additional production offshore in the gulf. We are working on a lot of issues, and some of that requires substantial research and development. So the President had a pretty good appetite for what he felt was needed. We cut that by \$643 million.

The reason I am emphasizing that to the Senator is Senator BENNETT and I did not just saddle up and say: Well, whatever you want, here it is. We cut it, and we cut it because we felt those cuts were deserved.

I certainly appreciate the Senator from Oklahoma coming to the floor wanting additional cuts. But \$643 million is a pretty substantial walk away from what the President had originally requested for that agency.

My hope is that we can include—we will include—certainly I will be the chairman of the conference—we will include very strong and assertive language of the type the Senator is requiring of the Department of Energy. I would insist, as well, that the Department of Energy—all agencies—demonstrate efficiencies and conservation and the kinds of things that can and should be done to address the overusage of energy.

The PRESIDING OFFICER. The Senator from Utah.

Mr. BENNETT. Mr. President, I would associate myself with the chairman's remarks and simply add a few more figures. In the energy efficiency and renewable account, we reduced funding for program direction by \$85 million, and program support funding was reduced by \$48 million. In the Office of Science, we have cut funding for field offices by \$13 million and cut headquarters funding by \$6 million. And the President's request for the personnel and program direction account we cut by \$160 million.

So these are a little more granular than the overall figure the chairman

mentioned. But I mention them to point out that we have indeed looked at each one of these individual items very carefully and produced the result the chairman described.

The PRESIDING OFFICER. The Senator from North Dakota.

Mr. DORGAN. Mr. President, let me just make a comment.

I know the Senator feels strongly about contract reform, and on the two amendments in front of us, the Senator from Oklahoma talked a lot about earmarks. But, of course, he is well aware that his amendment deals with far more than just earmarks. The issue of formula awards to State and local governments which are carried in this legislation, the issue of competitive grants, the contract competition model that the Senator seems to suggest the Senator believes is appropriate for the competition and research and development, many of which are very exotic and interesting and cutting-edge, world-class research projects in the Department of Energy—I do not know that—I guess the people who do know suggest that the contract competition model for some of those kinds of things does not work very well because you are looking at things that go well beyond just who is going to bid the lowest on the kind of research and very high-tech, exotic research we are doing in a wide range of energy fields.

I generally have always supported contract competition. There is nobody who has been tougher on the Department of Defense, for example, on some of these contracts, particularly no-bid contracts to those who are contracting in Iraq. Next Monday will be my 20th hearing on issues like that. I strongly support competition in contracting.

I think this amendment that has been offered is not an amendment that very well fits this bill and addresses, in a very broad-stroke way, some things that should not be addressed that way. So that is the reason I have offered an alternative to it. My hope is that the Senate will agree with the alternative.

I might say, I believe this exact debate was held 2 weeks ago on the Homeland Security bill and has already been resolved by the Senate.

The PRESIDING OFFICER. The Senator from Oklahoma.

Mr. COBURN. Mr. President, I enjoy my debates with the appropriators. I love you guys. I think it is great.

The one thing that was not mentioned is that in the stimulus bill the Department of Energy got an additional billion dollars. So there has been no net cut. There has actually been a massive increase in the Department of Energy when you count the stimulus bill.

No. 2 is, you have ramped up the FEMP the Federal Energy Management Program, by 50 percent, going from \$22 million to \$33 million, the very program that they are enforcing

on everybody else. Yet they won't comply with it.

I also would say the Senate is going to get to decide this every time we have an appropriations bill as far as transparency in contracting. I may get smarter at the way I write it, but the American people deserve to have great value.

If you want to change the contracting law to say there are certain times we shouldn't do that in terms of highly specific scientific things, that is fine with me; but the fact is billions and billions and billions of dollars are well placed directly to businesses in this country at higher rates than they would have been otherwise had we had competitive bidding and open contracting. Nobody can deny that fact. Nobody can deny that fact. I am talking about all across the government.

So we are going to get a vote on competitive bidding on every appropriations bill that comes before the Senate. The American people get it. It is a great defense you are offering, but it isn't going to pass the smell test with the American people. They deserve the best value they can get on every penny we spend of their money, not our money.

I understand we think we have decided it. We are going to keep voting it; we are going to keep voting against it, and we are going to keep telling the American people we are still going to connect up with our buddies, we are still going to make sure these people who are well heeled and well connected are going to get the contracts.

I will grant to the chairman there are certain things that should be outside of this that are highly scientific, that are limited to very few potential bidders, and maybe even only one. But, remember, we have FutureGen going in Chicago now, a \$2 billion earmark that is going to be a \$4 billion earmark that is going to be a \$6 billion earmark that we said only one person can do, and MIT says nobody can do it because the technology isn't finished. We have that going. That is a Department of Energy earmark. So it is not just hundreds of thousands of dollars; it is billions and billions and billions of dollars.

America should hear that what we are going to see is we have all the reasons in the world why we are not going to be competitively bid. We are going to give you all the reasons why we are not going to be efficient with your dollars, why now is not the time, why we shouldn't do this now. But the fact is that while we shouldn't be doing it, we are cutting the legs off of our children and grandchildren.

The PRESIDING OFFICER. The Senator from North Dakota.

Mr. DORGAN. Mr. President, the Senator from Oklahoma is not going to win a debate we are not having.

I agree with most of what the Senator from Oklahoma said. I support

contract—but the Senator from Oklahoma himself suggested maybe we should have a different model for the highly exotic research contracts. By the way, they are not just a few. You go to the labs and take a look at the contracts that are going on around the country in very exotic, high-tech research; cutting-edge, world-class research. If, in fact, there should be perhaps a different model for that, it is not in this amendment. That is my point.

I would be happy to sit down with the Senator from Oklahoma to bring an amendment to the floor that does address things in the right way, but to bring an amendment to the floor that has a very broad brush that covers everything when the Senator himself acknowledges that probably something other than that should be done with respect to these kinds of exotic research programs—he didn't respond to the issue of State formula grants and so on—but again, we are not having a debate about the merits of what you aspire to achieve.

I want us to have contracting rules that give the American people the best value for their dollar, that advance this country in the most significant, capable way. We want the same things. But my point is, when one offers an amendment such as this that says, All right, do it all this way, and even—I would say to the Senator from Oklahoma, even the Senator acknowledges there are areas that perhaps shouldn't be handled that way. So let's do it in a way that resolves it in the right way.

I know he is frustrated that we likely won't pass this amendment, but if he is going to bring it up time and time again, the next time or the time after, let's do it in a way that gets closer to that which we believe will address all of these issues the right way for the American taxpayer, and I will be on his side.

The PRESIDING OFFICER. The Senator from Utah.

Mr. BENNETT. Mr. President, I say to both the chairman and the Senator from Oklahoma, if there is going to be a meeting to try to write this in the proper way, I want to be a part of it, because I agree absolutely with the effort the Senator is making.

But the Senator from Oklahoma made one reference to efficiency. He said we want a bidding process that is efficient. I want to step out for a moment from the scientific debate into another circumstance that has to do with this bill, that has to do with my own State that I can give an exact example for.

We have a cleanup program in southern Utah dealing with the cleanup of an old uranium plant. The tailings from that plant are right next to the Colorado River, and the fear is that the leaching from the tailings of that plant is going into the Colorado River, not

only threatening the fish but the population downstream, downstream States, and the country of Mexico, and significant problems. All right. A contractor was necessary to clean up the tailings pile and there was competitive bidding that went on and the contractor was chosen and is now involved in a very significant, multimillion-dollar cleanup program.

As I understand the language of the amendment of the Senator from Oklahoma, because we are appropriating more money for that cleanup program in this bill, we need another competitive bidding proceeding to see if that is the right contractor. This is a contractor who is looking at 10 years, 12 years for the contract, and every time a new appropriation is necessary in each bill. It would seem to me it makes sense that once we have picked the contractor through competitive bidding, there does not have to be a competitive bid every year to see whether another contractor can now move in, take over, and make this work. It is possible we could. It is possible that this first contractor might be running up costs in fashions he shouldn't be doing and there should be a review. But I agree with the Senator from North Dakota that this is too much of a broad brush in that kind of area.

I was involved as a freshman Senator with respect to concessions at national parks, and I angered the ranking member of that committee when I sided with some other Senators in the majority—the Democrats at the time—to change the rules with respect to concessions in national parks because I said this is a rigged bidding situation where the incumbent contractor is always going to be taken care of. We finally got that done.

I am completely in sympathy with what is trying to be done here, but I discovered in going through that process—the same general idea, different set of facts—that it is more difficult than it looks on the surface. That is why I am supporting the chairman in the amendment he is offering. But if there is going to be a discussion of how this gets more efficient in the pattern in which it is written, I want to be a part of that, because I am completely sympathetic to the effort of trying to see to it that we have open contracting wherever it makes sense.

The PRESIDING OFFICER. The Senator from Oklahoma.

Mr. COBURN. The Senator from Utah mischaracterizes both the intent and the function of the amendment. If something is already contracted that has already been appropriated for, it won't be affected. It is new contracts and new bids. That is the intent.

The reason I come with this is because nothing ever changes here. If, in fact, we pass my amendment, you know what. We will have to change the

contracting. How do we change contracting with everything that is coming across the floor? How do we get it through committee? We will never move it until we are forced to move it. That is why this amendment is written this way, because all of us know the great deal of difficulty to get anything done in this body.

So if, in fact—we are going to do three bills in the next 2 weeks: one on the transportation trust fund, one on unemployment insurance, and one on HUD that has to be done. They will get done. So the reason it is written this way is because it will have to get done and we will do it. We will never get it done the other way, and both of my colleagues recognize that there is truth in that statement.

I am going to insist we have a vote on the amendment. I thank the chairman and ranking member for their debate. I remind the American people that there is always an excuse in Washington not to have transparency, not to be efficient, and not to be effective. We will always find a way not to get good value for your money.

With that, I yield the floor.

The PRESIDING OFFICER. The Senator from North Dakota.

Mr. DORGAN. Mr. President, without prolonging this debate, let me say to the Senator from Oklahoma there are other ways to get things done as well. I mean, look, some of the most significant contracts that have gone out of this town recently in the last 10 years or so—the LOGCAP contract which provides services by contractors in Iraq—sole-source contract, billions and billions of dollars—most of it went to Halliburton and KBR, by the way; not all of it but the fact is massive amounts of money.

I have held 20 hearings as of Monday on these issues. You know what. Finally, they are bidding all of those contracts. Finally, they are bidding them. When you hold up some of the abuses, you can actually require change, in my judgment. Yesterday the inspector general said those who were providing electrical services to the military bases in Iraq were responsible for the electrocution of soldiers because they were hiring third-country nationals who didn't know how to ground electrical wires, didn't know how to speak English. You know what. Those contracts are now going in other directions. There was a contract to provide water to military bases and the non-potable water was more contaminated than raw water from the Euphrates River, paid for by our taxpayers to contractors who didn't have the foggiest idea what they were doing and got billions of dollars of contracts they didn't have to bid on.

The fact is this sort of thing is despicable and needs to change. I take no backseat to any Member of the Senate about trying to change these things. I

have held 20 hearings on these contract issues in recent years. The Senator from Oklahoma comes and raises important questions, always. I understand that. My point to him was simple: This amendment, in my judgment, doesn't respond to all of the issues the Senator needs to respond to if the Senator is going to do an amendment that does reform contracting. I am very interested in working with him. He is on the right subject, in my judgment, just the wrong amendment.

I wanted to say, there are a lot of ways to change things. Yes, with an amendment here on the floor of the Senate; in committees; and I am sure the Senator from Oklahoma does that as well; pressing Federal agencies. You can get change by putting all of the spotlights on the same spot in a Federal agency to say, How do you justify this? We demand you change.

So there is a lot of good work that goes on by people who care about forcing change, and many of us have done it.

I wanted to say there are a lot of ways to do this and I encourage the Senator from Oklahoma to continue. I want to be a part of constructive change on contracting. I have been in the past and will be in the future.

Mr. COBURN. Mr. President, I ask for the yeas and nays.

Mr. DORGAN. Mr. President, let me ask if the Senator would agree, if he would withhold—I believe the Senator from Missouri wishes to make a very brief statement and she may be offering an amendment—I don't know that she is going to require a vote on it—and then we could line up—I believe we will have three recorded votes.

Mr. COBURN. That will be fine with me.

Mr. DORGAN. If we could turn to the Senator from Missouri at this point and then we could line up three successive votes on the Coburn amendments, two by Senator COBURN and one by myself and Senator BENNETT.

The PRESIDING OFFICER. The Senator from Missouri.

Mrs. MCCASKILL. Mr. President, I thank the Senator from North Dakota. I wish to agree with my friend, the Senator from Oklahoma, on his amendment on contracting competition. Maybe it is fitting that in the Energy bill, I am probably doing a Don Quixote here, tilting at a windmill.

I have learned during my time in the Senate that there are certain things that are very protected, and one of them is the earmarking process. I think most people would acknowledge that we have billions in noncompetitive contracts through earmarks, and they are not all for exotic research. Yes, we have noncompetitive contracts a lot of places and we should try to get rid of all of them, every last one of them. If it is exotic to research, then there are probably not going to be very many people who have bid on it.

So I don't agree with my friend from North Dakota on this issue of carving out earmarks as an area of noncompetite. I think—

Mr. DORGAN. Mr. President, will the Senator yield?

Mrs. MCCASKILL. Yes.

Mr. DORGAN. The Senator is not describing my position. I did not suggest carving out earmarks. The Senator has not heard that this afternoon.

Mrs. MCCASKILL. I just listened to the debate.

Mr. DORGAN. You didn't hear that during the debate.

Mrs. MCCASKILL. Let me restate what I heard. I heard the Senator from Oklahoma wants to pass an amendment that would require competition for all of the earmarks in the bill. I think that is a good idea. I think competing for all earmarks is a good idea. I think it is not correct that the non-competitive earmarks are all exotic research or any other kind of earmark that could lend itself to competition. I think there are many that could easily lend themselves to competition. I believe that once we get to competition, it is going to provide transparency the American people are aching for in this area of earmarking.

(Mr. BURRIS assumed the Chair.)

Mr. DORGAN. Will the Senator yield again?

Mrs. MCCASKILL. Yes.

Mr. DORGAN. The discussion wasn't just about earmarks. Perhaps it included them, but if the Senator is describing an amendment that only requires competition, or competitive bidding on earmarks, that is not the amendment.

Mrs. MCCASKILL. My discussion is about the noncompetitive earmarks. I think whatever amendment gets us to more competition, I am for it. I think there are way too many. I could not be a bigger fan of the Senator from North Dakota and what he has done on contracting relating to the war in Iraq. I followed those hearings before I came to the Senate, and I continue to follow them. He has been a groundbreaker in the area of wanting competition.

If you look at the billions of dollars that were wasted in the Iraq war over noncompetitive contracts, and if you look at the atrocities committed in the name of noncompetition which the Senator from North Dakota has exposed, he has been terrific on that. Some of us just disagree about whether earmarks should be competed. Although I try to agree on every bill that removes all earmarks, I generally don't go into and pick out an earmark to complain about. I generally don't vote for amendments that do, because in many ways I think the process of picking on one amendment here or there, or one earmark here and one earmark there can be as arbitrary as the process of earmarking sometimes appears to be. So I generally don't do that.

But in this instance, there is an earmark in the bill that I know a lot about. The Senator from North Dakota has done this because he believes very much in having another study on the Missouri River. We have been fighting over water in this country for as long as this country has been around. Water is very important in Missouri. Navigation of the Missouri River is incredibly important to our farmers and to our utility companies.

There was, in fact, a large study undertaken on the Missouri River that was completed in 2004. It cost the taxpayers \$35 million. It took 15 years to complete, and there were all kinds of lawsuits over it between the various States up and down the river. There were a couple of things that came out of the study. One of them was there was an agreement that began the Missouri Recovery and Implementation Committee. It is a committee that includes stakeholders from all along the river who meet several times a year to help develop a long-term management plan for the river. This process has recently begun. It hasn't even had time to work.

I feel strongly that repeating another study is unnecessary, when there is nothing that has dramatically changed since we spent the \$35 million on the study done in 2004. And now we are going to begin another \$25 million study by the same group, looking at the same issues. That, to me, is wasteful.

I think considering the fact that the Senator from North Dakota did participate aggressively in the long-term management proposal on the MRIC, Missouri Recovery and Implementation Committee, I hope we can give it time to work before we embark on another policy. I know there was a GAO study that talked about navigation, and I know that study showed there are less goods being shipped on the Missouri River. But that GAO study didn't take into account a couple of things. One was that the navigation season has been severely limited by the Corps. That drives away the shippers. The GAO study also didn't include the value of the goods shipped, the jobs associated with the shipments, or the impact on utilities.

We have, in fact, four powerplants located along the river that need the water in the Missouri River to cool their plants. I think this study is not going to end the fight over the river. I cannot fathom what a \$35 million study failed to accomplish that a new \$25 million study is now going to accomplish. This is a great example of studies to try to impact policy, so that you keep having continuous studies.

The amendment I have offered would remove the money for this study, because I think it is wasteful duplication, and I believe very strongly that, in fact, we should not be embarking on

another one of these studies. It is wasteful and it is duplicative, and I want to continue to work with the Senator from North Dakota. Obviously, we don't see eye to eye on who should get all the water on the Missouri River. I look forward to working with him and, hopefully, as we move forward with the MRIC, we can have all the stakeholders at the table and continue to negotiate in a cost-effective way for the taxpayers that doesn't harm the State of North Dakota or any of the other States along the Missouri River.

I thank the Chair and I yield the floor.

The PRESIDING OFFICER. The Senator from North Dakota is recognized.

Mr. DORGAN. Mr. President, the Senator from Missouri is an active, avid, and aggressive fighter for the interests of her State. I understand and recognize that. I would not expect anything else. But I will tell you a story about water and about the Missouri River. The Missouri River was a big old wild tangled river for a long time. It used to flood; it flooded a lot. In the spring, when the floods came from the river, it would devastate parts of my State, and South Dakota, and other States down South, and it would ruin the parks and flood them in St. Louis, MO, and so on. So some people came to North Dakota from the Federal Government and said: We would like to harness that Missouri River. They cannot play softball in the parks in St. Louis because of the flooding, and we would like to get the benefits of flood control. Our deal is this: If you will allow us, in the middle of North Dakota, to put in a flood that will come and stay forever—a big old flood, half a million acres of permanent flood, if you allow us to do that, we will allow you to have some benefits. We understand we are asking to flood your State in order to protect the downstream States. But if you allow us to do that, and if Montana and South Dakota will allow us to do that, we can put in these big old floods in the upstream States; and we understand there is a cost to you to have this flood, so we will let you move water around to benefit your State, and it will be good and you will appreciate it. The folks in my State, believing this was on the level, signed contracts and said that would be OK. They moved the Indians off the bottomland from reservations of the three affiliated tribes, and built the big old dam, and President Dwight Eisenhower came out to dedicate the dam. They backed up the water, and we have the half million acre flood. The Elbow Woods Indian Hospital is now under water, and has been for 50 years. So we have the flood that comes and stays.

The problem with the way the river is managed, after they built six main-stream dams, in order to harness the Missouri River, the way they manage it today is the way they planned to do

it 60 years ago. They said we have a vision. We will be able to navigate the river down South with barges, and we will haul material on barges. What a great thing. Think of the value of having barge navigation on the downstream reaches of the Missouri River. Do you know what. There are days when—and I can get you reports—there is only one miserable boat floating in the downstream reaches of the Missouri. Yet we are furiously releasing water from the upstream dams to support one little old barge. By the way, that barge is hauling mostly sand and gravel, which is something of relatively low value. So we have this big fight about how the river should be managed.

In the old days, they predicted a lot of commercial value of barge traffic. But, in fact, that is not the case. The upstream value of recreation, tourism, and fishing is now almost 10 times the value of the downstream value of barge traffic. Yet the river is still managed for the minnow and not the whale, which is typical of the Corps of Engineers: Never change. Resist change. Never change, no matter what.

So they did an evaluation of the river, and all of the States, except Missouri—which was an outlier, and they wouldn't agree to anything—they did an evaluation, and finally a study was developed. That study had a lot more to do with the Endangered Species Act and managing those issues than for determining whether we are making the best use of the river system in our current management scheme.

The answer is that the current management scheme makes no sense at all. We are releasing the water in the middle of a drought, which we did, by the way. It is a river system that has a capacity of around a 55 million to 58 million acre-feet of water. It was down to, I think, 35 million acre-feet of water, and we were releasing water to float one boat. That is unbelievable to me.

Last year, I included funding for a study that will study the management of this river, what is appropriate and should be done, with some semblance of common sense here. I know people objected to doing that because the answer may well be an answer that moves away from what I have called a "one State hog rule," meaning give us all you have when we need it, and keep it all when we don't want it. It is an interesting way to manage the river, but that is the way some States on the Missouri have suggested it be managed.

It is not fair to us. We are waiting, 60 years later, for all of the benefits promised us if we would allow a permanent flood to stay forever in the middle of our State. Our ancestors did that. They said we will sign up for that, but we got all of the costs and have not yet received the benefits.

With respect to the management of the Missouri River system, it is long

past time that the river be managed with the recognition of its current use. When we are still releasing water for one little barge, on 1 day, on the lower reaches of the Missouri, somebody ought to have their head examined. We cannot examine their head, but we can examine the master manual. That is what we are going to do with this study.

I have so much more to say, but let me resist and defer.

I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The bill clerk proceeded to call the roll.

Mr. DORGAN. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. DORGAN. Mr. President, I ask unanimous consent that at 5:15 p.m. today, the Senate proceed to vote in relation to the following amendments in the following order, with no amendments in order to any of the amendments covered in this agreement, with the time until then equally divided and controlled in the usual form; that after the first vote, the succeeding votes in the sequence be limited to 10 minutes each: Coburn amendment No. 1879, Dorgan amendment No. 1895—that is Dorgan-Bennett—and Coburn amendment No. 1884. Those three amendments are again No. 1879, No. 1895, and No. 1884.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. DORGAN. Mr. President, Senator BENNETT and I have discussed—and I have also visited with the majority leader within the last hour—my hope that we will be able to go to third reading, with the consent of Senator BENNETT and the majority leader, following these votes and following a period in which we would gather together whatever remains. There are a few amendments that remain that we can clear. We have waited all day, and we waited all day yesterday. Senators have had plenty of opportunity, plenty of time, and their staffs have had plenty of notice, to come and offer amendments.

For the next hour, we will be here. We will have the vote at 5:15 p.m., and following that vote, it is my intention that we finish this bill very shortly following that vote by going to third reading. We don't want to preclude opportunities for people to offer amendments, but no one can hardly come to the Senate floor with a straight face and suggest they have been precluded from anything, given the fact that Senator BENNETT and I have been sitting here patiently for well over the past 2 days.

Again, with the cooperation of our colleagues and with the hard work of our staff and our colleagues, I think we can finish this bill this evening.

Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The bill clerk proceeded to call the roll.

Mr. DORGAN. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. DORGAN. Mr. President, I ask that the time during which we are in the quorum call be equally divided between both sides.

Mr. BENNETT. Mr. President, I have no objection to that request.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. DORGAN. Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. KAUFMAN. Mr. President, I ask unanimous consent the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

AMENDMENT NO. 1891

Mr. KAUFMAN. Mr. President, I rise today to speak about an amendment Senator CARPER and I filed earlier today, amendment No. 1891. This is a simple amendment, and one I hope the Senate will support.

Our amendment addresses the Delaware River Deepening Project. This is a project to deepen the river's shipping channel from a depth of 40 feet to one of 45 feet in an effort to bring more commerce.

Twenty-nine miles of the shipping channel run through the State of Delaware on its way to the ports in Philadelphia and New Jersey.

Those of us with ties to the three States that are involved know the long history of this project. The project has had a lot of starts and stops over the years—that I won't go into now—and it was put on hold in 2002 before being restarted in 2007.

What our amendment does is prohibit the use of any funds from this bill on the portion of the deepening project that is within Delaware, until the State government issues the applicable permit.

This action is necessary for several reasons.

Earlier this month, the Delaware Department of Natural Resources and Environmental Control denied a permit for this project that had been pending for 8 years, since 2001.

During that time, the scope of the project had changed substantially, and the State was lacking current scientific data. The rejection of the old permit application, however, was made without prejudice, permitting the Corps to apply for a new permit.

Furthermore, the Army Corps has not yet provided the State with an up-

dated and detailed Environmental Assessment of the deepening, nor has the State been given any detailed information regarding the placement of the dredged soils that will result from the project.

Finally, the Government Accountability Office is undertaking a reanalysis of the costs versus benefits of the deepening project. This analysis is due out at the end of this year.

These are important questions that the people of Delaware deserve to have answered and that is why we offered this amendment.

This amendment merely prohibits funding in the bill from being used to carry out this project within Delaware, until the State government has given its approval.

This will give DNREC the opportunity to do its job—and protect the river's environment. And it will give the State the ability to obtain information vital to the citizens of Delaware prior to any deepening being done in our own State.

I would hope all of my colleagues can understand and identify with this.

If it were their State, I suspect they would feel the same way.

Again, I hope the Senate will support the adoption of the amendment, which I will introduce later.

I yield the floor and note the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant bill clerk proceeded to call the roll.

Mr. DORGAN. I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

AMENDMENT NO. 1879

The PRESIDING OFFICER. Under the previous order, the question is on agreeing to amendment No. 1879.

The yeas and nays have been ordered.

The clerk will call the roll.

The assistant legislative clerk called the roll.

Mr. DURBIN. I announce that the Senator from West Virginia (Mr. BYRD), the Senator from Massachusetts (Mr. KENNEDY), and the Senator from Maryland (Ms. MIKULSKI) are necessarily absent.

The PRESIDING OFFICER. Are there any other Senators in the Chamber desiring to vote?

The result was announced—yeas 35, nays 62, as follows:

[Rollcall Vote No. 245 Leg.]

NOT VOTING—3

Byrd

Kennedy

Mikulski

The amendment (No. 1884) was rejected.

Mr. NELSON of Nebraska. Mr. President, I move to reconsider the vote and to lay that motion on the table.

The motion to lay on the table was agreed to.

The PRESIDING OFFICER. The Senator from North Dakota.

Mr. DORGAN. Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. DORGAN. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

AMENDMENT NO. 1864, AS MODIFIED

Mr. DORGAN. Mr. President, if I might have the attention of the Senate, I wish to make a unanimous consent request.

I ask unanimous consent that we proceed with one part of my unanimous consent request and that is Senator HUTCHISON's amendment she wishes to offer, which I believe will now be a voice vote. So I ask unanimous consent that she now be recognized to offer her amendment, No. 1864, as modified.

The PRESIDING OFFICER. The Senator from Texas.

Mrs. HUTCHISON. Mr. President, I ask unanimous consent that amendment No. 1864 be called up and changed with the modifications at the desk.

The PRESIDING OFFICER. Without objection, it is so ordered. The clerk will report.

The bill clerk read as follows:

The Senator from Texas [Mrs. HUTCHISON] proposes an amendment numbered 1864, as modified.

Mrs. HUTCHISON. Mr. President, I ask unanimous consent that the reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment, as modified, is as follows:

At the appropriate place, insert the following:

Of the \$85,000,000 provided under the wind energy subaccount under Energy Efficiency & Renewable Energy, up to \$8,000,000 shall be competitively awarded to universities for turbine and equipment purchases for the purposes of studying turbine to turbine wake interaction, wind farm interaction, and wind energy efficiencies, provided that such equipment shall not be used for merchant power protection.

Mrs. HUTCHISON. Mr. President, this is an amendment that basically is to fill a needed gap in wind energy research.

I ask unanimous consent to have printed in the RECORD letters of support from the National Renewable Energy Laboratory in Colorado; from Professor Daniel Kammen at the University of California, Berkeley; and from the American Wind Energy Association.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

NATIONAL RENEWABLE
ENERGY LABORATORY,
Golden, CO, February 25, 2009.

Re: National Research Wind Farm At Pantex, Research Initiation Partnership on 20% Wind by 2030: Overcoming the Challenges DOE/EERE FOA DE-PS36-09G099009.

DEAR PROPOSAL REVIEWERS: The recent DOE WHPT 20% workshop identified the operating environment within multiple array windfarms as the most probable source of premature turbine component failures and power underperformance. The need to evolve a more comprehensive physical understanding of the causal relationships between atmospheric inflow phenomena and windfarm interaction was identified as the key remaining science issue before new technology and microclimatology concerns could be addressed.

We have been briefed in detail on the plans of Texas Tech University and Pantex/NNSA for the funding, installation and operation of a research windfarm near Amarillo, Texas to help address this technology challenge. This facility will not only meet the requirements of the President's Executive Order 13423 for the DOE it will also serve as a publicly-accessible large-scale, windfarm research vehicle addressing the principal concerns of industry in advancing operation, performance and technology. This facility is a unique opportunity to address immediate science and technology gaps while helping achieve the nation's goal of attaining 20% of its electrical energy supply from renewables by 2030.

To initiate the research planning and utilization of this facility, Texas Tech has applied for a FOA award to plan for its utilization to meet the research needs of the US wind industry and allied stakeholders. Based on preliminary discussions, we are happy to provide support during these initial planning phases and estimate our level of effort at \$50K per year for the first two years. Of course, a more detailed cost estimate will be prepared with a successful award and with concurrence of our DOE sponsors.

We strongly support the establishment of this new research facility and are looking forward to our continued and long standing RD&D relationship with Texas Tech along with other national laboratories, industry and academic partners involved with this program.

If we can answer questions about the project or how it can meet the needs of the US wind industry, please do not hesitate to contact us.

Sincerely,

MICHAEL C. ROBINSON,
Acting Center Director,
NREL's National Wind Technology Center.

UNIVERSITY OF CALIFORNIA, BERKELEY,
Berkeley, CA, July 2, 2009.

Re National Wind Resource Center, managed by Texas Tech University and Wind Farm.

Dr. STEVEN CHU,
Secretary of Energy,
Washington, DC.

DEAR SECRETARY CHU: The Renewable and Appropriate Energy Laboratory (RAEL) at the University of California, Berkeley, is a unique energy research, development, project implementation, and community outreach facility. RAEL focuses on designing, testing, and disseminating renewable and appropriate energy systems. The laboratory's mission is to help these technologies

realize their full potential to contribute to environmentally sustainable development in both industrialized and developing nations while also addressing the cultural context and range of potential social impacts of any new technology or resource management system.

I am writing to support and recommend that the Department of Energy create a world-class research wind farm and National Wind Resource Center. We believe this project will help ensure significant access to the wind farm for public research, led by Texas Tech University and supported by their research partners and alliances. The National Wind Resource will include partnerships with industry, public research institutions and members of academia and will provide an effective vehicle to help reach our renewable energy objectives as a nation. RAEL's work on integrating low-carbon energy systems fits well with the mission of Texas Tech University's project and will make the efforts of both institutions stronger in their service of national clean energy independence.

The Wind Science and Engineering Center at Texas Tech brings their 38 years of expertise as a leader in wind energy research to the partnership to create a national wind research and resources center on their 5,800 acres parcel adjacent to the Pantex site. This national center will provide multi-disciplinary research along with workforce training and development programs to address the critical issues facing the wind power industry. An important aspect of this project is the broad partnerships with other national laboratories, and academic and industry partners will be invited by Texas Tech University to collaborate and have a presence in the center.

Once again, I want to express my strong support for this innovative renewable energy project. This initiative represents an innovative approach in demonstrating the United States leadership in wind energy, and will establish a multi-faceted use of the wind farm and facility for research and workforce development. Please do not hesitate to contact me to discuss this matter further.

Sincerely,

DANIEL M. KAMMEN.

AMERICAN WIND ENERGY ASSOCIATION,
Washington, DC, July 16, 2009.

Re National Wind Resource Center, Managed by Texas Tech University.

Dr. STEVEN CHU,
Secretary of Energy,
Washington, DC.

DEAR SECRETARY CHU: AWEA is a national trade association representing wind power project developers, equipment suppliers, services providers, parts manufacturers, utilities, researchers, and others involved in the wind industry—one of the world's fastest growing energy industries. In addition, AWEA represents hundreds of wind energy advocates from around the world. With over 2,000 members & advocates, the American Wind Energy Association (AWEA) is the hub of the wind energy industry. AWEA promotes wind energy as a clean source of electricity for consumers around the world.

I am writing to encourage the efforts of Texas Tech University to develop a world class research wind farm and national wind resource center. We believe this project will help ensure significant access to the wind farm for public research, led by Texas Tech University and supported by their research partners and alliances. Though the National Wind Resource Center will focus on a variety

of issues, I understand the Center is specifically focusing on the resolution of key technological and research issues outlined by DOE. This proposed project is designed to include partnerships with industry, public research institutions and members of academia and will provide an effective vehicle to help reach our renewable energy objectives as a nation.

The Wind Science and Engineering Center at Texas Tech brings their 38 years of expertise as a leader in wind energy research to the partnership to create a national wind research and resources center on their 5,800 acres parcel. This national center will provide multi-disciplinary research along with workforce training and development programs to address the critical issues facing the wind power industry. In addition to the partnerships noted above, I understand other national laboratories, along with academic and industry partners will be invited by Texas Tech University to collaborate and have a presence in the center.

Once again, I support this innovative renewable energy project. This initiative represents an innovative approach in demonstrating the United States leadership in wind energy, and will establish a multi-faceted use of the wind farm and facility for research and workforce development. Please do not hesitate to contact me to discuss this matter further.

Sincerely,

DENISE BODE,
Chief Executive Office.

Mrs. HUTCHISON. Mr. President, I ask that we pass this amendment, which would require \$8 million of the \$85 million already in the bill for energy efficiency and renewable energy to be competitively awarded to universities for turbine equipment purchases to study turbine performance, because there is a lack of understanding about why wind farms are experiencing premature turbine component failures and power underperformance, and this is an area we need to address.

I ask my colleagues to support the acceptance of my amendment.

The PRESIDING OFFICER. The Senator from North Dakota.

Mr. DORGAN. Mr. President, I support the amendment. I would defer to Senator BENNETT, but I believe it is agreed to by myself and Senator BENNETT.

Mr. BENNETT. Mr. President, I support the amendment and hope we will now vote.

The PRESIDING OFFICER. Is there further debate on the amendment?

If not, the question is on agreeing to the amendment.

The amendment (No. 1864), as modified, was agreed to.

Mr. DORGAN. Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. DORGAN. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

AMENDMENTS NOS. 1859, AS MODIFIED, 1867, AS MODIFIED, 1842, 1888, AS MODIFIED, 1891, AND 1892, EN BLOC

Mr. DORGAN. Mr. President, I think we are very close to final passage. We need to clear that, but Senator BENNETT and I wish to proceed to the amendments that have been cleared on both sides as part of the managers' package. They have been considered by both sides and agreed to.

I ask unanimous consent to bring up, en bloc, the following amendments: 1859, as modified, and I send the modifications to the desk; 1867, as modified, and I send those modifications to the desk; 1842; 1888, as modified, and I send the modifications to the desk; 1891; and 1892.

The PRESIDING OFFICER. Is there objection? Without objection, it is so ordered.

Mr. DORGAN. Mr. President, I ask unanimous consent to dispense with the reading of the amendments that I sent to the desk.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. DORGAN. Mr. President, to clarify, I said 1892 as the last amendment.

Again, those amendments have been cleared on both sides, and I believe there is no further debate. I would yield to my colleague, Senator BENNETT, for his comments, and I would hope then for immediate consideration of the amendments.

Mr. BENNETT. Mr. President, I will confirm that the amendments have been cleared, and I appreciate the cooperative way in which the two staffs have been diligently doing this. We are glad, after the long period of wait, that we finally are hurrying up. The old army line "hurry up and wait," we have turned it around: Wait, and now we have hurried up. So I am delighted we are moving.

Mr. DORGAN. Mr. President, I ask unanimous consent for the immediate consideration of the amendments I sent to the desk, en bloc.

The PRESIDING OFFICER. The amendments are pending, en bloc.

Mr. DORGAN. Mr. President, I ask unanimous consent that they be agreed to, en bloc.

The PRESIDING OFFICER. Is there objection? Without objection, it is so ordered.

The amendments were agreed to en bloc, as follows:

AMENDMENT NO. 1859, AS MODIFIED

(Purpose: To permit certain water transfers)

On page 33, between lines 13 and 14, insert the following:

SEC. _____. (a) Section 3405(a)(1)(M) of Public Law 102-575 (106 Stat. 4709) is amended.

"(b) A transfer of water between a Friant Division contractor and a south-of-Delta CVP agricultural water service contractor approved during a two-year period beginning on the date of enactment of this Act shall be deemed to meet the conditions set forth in subparagraphs (A) and (I) of section 3405(a)(1) of Public Law 102-575 (106 Stat. 4709), if the

transfer under this clause (1) does not interfere with the San Joaquin River Restoration Settlement Act (part I of subtitle A of title X of Public Law 111-11; 123 Stat. 1349) (including the priorities described in section 10004(a)(4)(B) of that Act relating to implementation of paragraph 16 of the Settlement), and the Settlement (as defined in section 10003 of that Act)."; and (2) is completed by September 30, 2012.

(c) As soon as practicable after the date of enactment of this Act, the Secretary of the Interior, acting through the Director of the United States Fish and Wildlife Service, shall revise, finalize, and implement the applicable draft recovery plan for the Giant Garter Snake (*Thamnophis gigas*).

AMENDMENT NO. 1867, AS MODIFIED

(Purpose: To clarify that the Secretary of Energy is required to consider low-risk finance programs that substantially reduce or eliminate upfront costs for building owners to renovate or retrofit existing buildings to install energy efficiency or renewable energy technologies as eligible for certain loan guarantees)

On page 43, line 16, before the period, insert the following: "Provided further, That, in administering amounts made available by prior Acts for projects covered by title XVII of the Energy Policy Act of 2005 (42 U.S.C. 16511 et seq.), the Secretary of Energy is required by that title to consider low-risk finance programs that substantially reduce or eliminate upfront costs for building owners to renovate or retrofit existing buildings to install energy efficiency or renewable energy technologies as eligible for loan guarantees authorized under sections 1703 and 1705 of that Act (42 U.S.C. 16513, 16516)".

AMENDMENT NO. 1842

(Purpose: To extend the period for offering certain leases for cabin sites at Fort Peck Lake, Montana)

On page 33, between lines 13 and 14, insert the following:

SEC. _____. Section 805(a)(2) of Public Law 106-541 (114 Stat. 2704) is amended by striking "2010" each place it appears and inserting "2013".

AMENDMENT NO. 1888, AS MODIFIED

(Purpose: To require the Secretary of the Army to conduct a study of the residual risks associated with the options relating to the project for permanent pumps and closure structures, Lake Pontchartrain, Louisiana)

On page 17, between lines 16 and 17, insert the following:

SEC. 1. PROJECT FOR PERMANENT PUMPS AND CLOSURE STRUCTURES, LAKE PONTCHARTRAIN, LOUISIANA.

(a) DEFINITIONS.—In this section:

(1) PROJECT.—The term "project" means the project for permanent pumps and closure structures at or near the lakefront at Lake Pontchartrain and modifications to the 17th Street, Orleans Avenue, and London Avenue canals in and near the city of New Orleans that is—

(A) authorized by the matter under the heading "General Projects" in section 204 of the Flood Control Act of 1965 (Public Law 89-298; 79 Stat. 1077); and

(B) modified by—

(i) the matter under the heading "FLOOD CONTROL AND COASTAL EMERGENCIES (INCLUDING RESCISSION OF FUNDS)" under the heading "Corps of Engineers—Civil" under the heading "DEPARTMENT OF THE ARMY" under the heading "DEPARTMENT OF DEFENSE—CIVIL" of chap-

ter 3 of title II of the Emergency Supplemental Appropriations Act for Defense, the Global War on Terror, and Hurricane Recovery, 2006 (Public Law 109-234; 120 Stat. 454);

(ii) section 7012(a)(2) of the Water Resources Development Act of 2007 (Public Law 110-114; 121 Stat. 1279); and

(iii) the matter under the heading "FLOOD CONTROL AND COASTAL EMERGENCIES" under the heading "Corps of Engineers—Civil" under the heading "DEPARTMENT OF THE ARMY" under the heading "DEPARTMENT OF DEFENSE—CIVIL" of chapter 3 of title III of the Supplemental Appropriations Act, 2008 (Public Law 110-252; 122 Stat. 2349).

(2) PUMPING STATION REPORT.—The term "pumping station report" means the report—

(A) prepared by the Secretary that contains the results of the investigation required under section 4303 of the U.S. Troop Readiness, Veterans' Care, Katrina Recovery, and Iraq Accountability Appropriations Act, 2007 (Public Law 110-28; 121 Stat. 154); and

(B) dated August 30, 2007.

(3) SECRETARY.—The term "Secretary" means the Secretary of the Army, acting through the Chief of Engineers.

(b) STUDY.—

(1) IN GENERAL.—In implementing the project, not later than 1 year after the date of enactment of this Act, the Secretary shall complete a study of the residual risks associated with the options identified as "Option 1", "Option 2", and "Option 2a", as described in the pumping station report.

(2) REQUIREMENTS.—In carrying out the study under paragraph (1), the Secretary shall identify which option described in that paragraph—

(A) is most technically advantageous;

(B) is most effective from an operational perspective in providing the greatest long-term reliability in reducing the risk of flooding to the New Orleans area;

(C) is most advantageous considering the engineering challenges and construction complexities of each option; and

(D) is most cost-effective.

(3) INDEPENDENT EXTERNAL PEER REVIEW.—

(A) DUTY OF SECRETARY.—In accordance with Section 2034 of the Water Resource Development Act of 2007, the Chief shall carry out an independent external peer review of—

(i) the results of the study under paragraph (1); and

(ii) each cost estimate completed for each option described in paragraph (1).

(B) REPORT.—

(i) IN GENERAL.—Not later than 90 days after the date of completion of the independent external peer review under subparagraph (A), in accordance with clause (ii), the Secretary shall submit a report to—

(I) the Committee on Environment and Public Works of the Senate;

(II) the Committee on Appropriations of the Senate;

(III) the Committee on Transportation and Infrastructure of the House of Representatives; and

(IV) the Committee on Appropriations of the House of Representatives.

(ii) CONTENTS.—The report described in clause (i) shall contain—

(I) the results of the study described in paragraph (1); and

(II) a description of the findings of the independent external peer review carried out under subparagraph (A).

(III) a written response for any recommendations adopted or not adopted from the peer review.

(4) **SUSPENSION OF CERTAIN ACTIVITIES.**—The Secretary shall suspend each activity of the Secretary that would result in the design and construction of any pumping station covered by the pumping station report unless the activity is consistent with each option described in paragraph (1).

(5) **FEASIBILITY REPORT.**—Within 18 months of enactment of this Act, the Secretary shall submit to the Committee on Environment and Public Works of the Senate and the Committee on Transportation and Infrastructure of the House of Representatives a report that contains a feasibility level of analysis (including a cost estimate) for the project, as modified under this subsection.

(6) **FUNDING.**—In carrying out this subsection, the Secretary shall use amounts made available to modify the 17th Street, Orleans Avenue, and London Avenue drainage canals and install pumps and closure structures at or near the lakefront in the first proviso in the matter under the heading “FLOOD CONTROL AND COASTAL EMERGENCIES (INCLUDING RESCUSSION OF FUNDS)” under the heading “Corps of Engineers—Civil” under the heading “DEPARTMENT OF THE ARMY” under the heading “DEPARTMENT OF DEFENSE—CIVIL” of chapter 3 of title II of the Emergency Supplemental Appropriations Act for Defense, the Global War on Terror, and Hurricane Recovery, 2006 (Public Law 109-234; 120 Stat. 454).

AMENDMENT NO. 1891

(Purpose: To prevent Federal preemption of the planning processes of the State of Delaware regarding the Delaware River Main Channel Deepening Project)

On page 5, line 8, strike “Project.” and insert the following:

Project: *Provided further*, That none of the funds made available by this Act may be used to carry out any portion of the Delaware River Main Channel Deepening Project identified in the committee report accompanying this Act that is located in the State of Delaware until the date on which the government of the State of Delaware issues an applicable project permit for the Delaware River Main Channel Deepening Project.

AMENDMENT NO. 1892

(Purpose: To prohibit funds appropriated for the Strategic Petroleum Reserve from being made available to any person that has engaged in certain activities with respect to the Islamic Republic of Iran)

On page 63, after line 23, insert the following:

SEC. 312. (a) Except as provided in subsection (b), none of the funds appropriated or otherwise made available by this title for the Strategic Petroleum Reserve may be made available to any person that as of the enactment of this Act—

(1) is selling refined petroleum products valued at \$1,000,000 or more to the Islamic Republic of Iran;

(2) is engaged in an activity valued at \$1,000,000 or more that could contribute to enhancing the ability of the Islamic Republic of Iran to import refined petroleum products, including—

(A) providing ships or shipping services to deliver refined petroleum products to the Islamic Republic of Iran;

(B) underwriting or otherwise providing insurance or reinsurance for such an activity; or

(C) financing or brokering such an activity; or

(3) is selling, leasing, or otherwise providing to the Islamic Republic of Iran any

goods, services, or technology valued at \$1,000,000 or more that could contribute to the maintenance or expansion of the capacity of the Islamic Republic of Iran to produce refined petroleum products.

(b) The prohibition on the use of funds under subsection (a) shall not apply with respect to any contract entered into by the United States Government before the date of the enactment of this Act.

(c) If the Secretary determines a person made ineligible by this section has ceased the activities enumerated in (a)(1)–(3), that person shall no longer be ineligible under this section.

AMENDMENT NO. 1859

Mrs. BOXER. Mr. President, I rise to discuss amendment No. 1859.

This amendment, cosponsored by Senator FEINSTEIN, would allow for critical water transfers to agricultural users in California’s San Joaquin Valley.

Three years of below-average precipitation have restricted water supplies for much of California. Drought conditions have particularly affected agricultural communities in the San Joaquin Valley.

In Fresno County alone, the drought has impacted more than 450,000 acres of cropland, contributed to the loss of 3,265 jobs, and may jeopardize an additional 2,200 more jobs in the near future.

Some cities on the west side of the San Joaquin Valley are facing nearly 40 percent unemployment, and people wait in line for hours at food banks to secure basic staples to feed their families.

Working with many Members of California’s House delegation, Senator FEINSTEIN and I have worked to identify solutions to the drought.

Senator DORGAN’s subcommittee included funds in the underlying bill to expedite the timely evaluation of projects to improve operational flexibility of water management, such as the intertie between the Delta-Mendota Canal and the California Aqueduct, and “Two Gates,” the construction of two temporary gates in Old River and Connection Slough in the Sacramento-San Joaquin River Delta.

And Senator FEINSTEIN and I worked with the California delegation in the House to include language in their Energy and Water bill that would permanently allow voluntary water transfers among Central Valley Project contractors, providing operational flexibility to help get water to agricultural communities when they need it most.

The House provision would allow these transfers permanently—this is the outcome we want, and it is the outcome we will fight for in conference.

However, at this time we understand that allowing permanent water transfers is not an approach acceptable to the chairman of the Senate Energy Committee without first holding hearings on the subject.

I thank Senator BINGAMAN for working with us on an amendment that

would allow Central Valley Project water transfers to occur for a 2-year period. This amendment ensures that the Senate is not silent, and instead is taking one step forward on this critical issue.

It is critical that we continue to work on solutions for farmers in California who have lost up to 90 percent of their expected water allocations this year.

These measures alone will not solve California’s water crisis, but they are a good first step toward helping these communities as we develop long-term solutions to improve water management in California.

Mr. DORGAN. Mr. President, I believe we are again within minutes of being able to get to final passage. I make a point of order a quorum is not present.

The PRESIDING OFFICER. Does the Senator from North Dakota withhold his request?

Mr. DORGAN. I withhold my request.

Mrs. BOXER. Thank you so much. Mr. President, I wanted to take a minute, on behalf of myself and Senator FEINSTEIN, to thank the two managers. We had such an important amendment dealing with water transfers at a time of such severe drought, and both these managers have worked so hard with us to make sure we could get this done tonight.

Senator FEINSTEIN and I are very grateful. We had support in the community for this, across party lines, and it wound up that we had support across party lines here. So I wish to say to both managers, from the bottom of my heart, you are making a difference tonight. In some of these towns, we have a 40-percent unemployment rate because of the drought. So you are making a difference. We hope to get this into conference and to make this final.

So, again, my deepest thanks.

Mr. SPECTER. Mr. President, I seek recognition to briefly comment on two amendments that I filed to the fiscal year 2010 Energy and Water appropriations bill.

The first amendment deals with the Bloomsburg Flood Control Project. This project was authorized by Congress in the Water Resources Development Act of 2007 to protect the town of Bloomsburg from chronic flooding that has plagued it throughout its history. Bloomsburg has suffered 33 floods since 1990. The proposed floodwall will protect more than 400 homes, 7 businesses, and 1,200 people affected by flooding. The project was authorized at a total cost of \$44.5 million. However, I am advised that the U.S. Army Corps of Engineers Interagency Performance Evaluation Task Force issued revised criteria for floodwalls which increase the project’s cost. The amendment would raise the authorization amount to \$65 million to account for this change and proceed with this important project to protect the citizens of Bloomsburg.

The second amendment deals with the Scranton Flood Control Project. This project was initially authorized in 1992 and modified in 1996, and this amendment would further modify it so that the city of Scranton can proceed with downstream mitigation activities and construction of a recreational trail. The amendment also provides that the city shall receive credit against its nonFederal share for mitigation activities it already completed.

I urge my colleagues to adopt these amendments to improve flood protection in Pennsylvania.

Ms. SNOWE. Mr. President, I rise to speak regarding the Energy and Water Appropriations Act for fiscal year 2010 and voice my strong support for the inclusion of resources for the National Deepwater Offshore Research Center at the University of Maine, which Senator COLLINS and I jointly requested. In a time of economic distress, I believe it is even more important for Congress to focus on short-term relief as well as on a long-term comprehensive energy strategy that reduces America's dependence on foreign oil, creates jobs, embraces renewable and alternative sources of energy, and, most importantly, makes energy prices affordable for consumers.

Developing deep water offshore wind technology can transform the way we generate energy to power the planet, and Maine is uniquely poised to be a leader in this effort. In fact, within 50 miles of the coast of Maine lie wind resources that can generate the energy equivalent to approximately 40 nuclear powerplants. This is exactly the type of investment that our country must make, and I am pleased that this Appropriations bill includes \$5 million for this critical research. Without question, as President Obama stated in his speech to Congress in February, the United States must not simply follow in the wake of other nations as they develop the new clean energy technologies of the 21st century and monopolize the jobs and financial rewards that will inevitably follow. But already countries such as China, Germany, South Korea, Norway, and Denmark are boldly adopting plans to develop these technologies: energy efficiency, solar, hybrid engines, and offshore wind. In fact, a Norwegian company is now moving forward with deployment of the first deepwater offshore floating turbine, which will be located in more than 328 feet of water. Clearly, our competitors are rapidly moving forward to position themselves at the forefront as we exit this economic morass. We must expand our research into offshore wind, and Maine is uniquely positioned to be successful in the U.S. development of offshore wind energy.

The oceanographic conditions in Maine's own State waters, within 3 miles of shore, provide excellent wind resources and water deep enough to de-

ploy floating turbines. These are ideal conditions for the installation, testing, and maintenance of deepwater offshore wind turbines. In fact, Maine is the only State on the east coast with the appropriate oceanographic and meteorological conditions for such testing inside State waters. Additionally, there has been strong support by both the Governor and the Maine Legislature in their commitment to developing and deploying this technology in Maine by passing legislation earlier this summer that will allow this research off our shores.

Considering that the majority of the U.S. population lives in coastal States, offshore wind energy could be a significant part of our Nation's energy future. The U.S. has nearly 2,500 gigawatts, GW, of offshore wind potential within 50 nautical miles, but more than half of this resource, about 1,500 GW, is in waters deeper than 200 feet. Unlocking this vast energy potential requires the development of next generation fixed foundation offshore wind turbine technologies, as well as testing of floating platform prototypes.

With 80 percent of homes using heating oil, Maine is extremely vulnerable to rising crude oil prices. By 2018, the cost of energy, the sum of gasoline plus heating oil plus electricity, could consume as much as 40 percent of the average Maine household's income. Maine has, however, abundant natural resources to generate clean renewable energy, particularly wind energy. In fact, the wind is so powerful off the coast of Maine, on average, a wind turbine in the gulf of Maine can generate twice the energy that the same turbine will generate in the Kansas-Texas wind corridor.

I would like my colleagues to be aware that the Department of Energy recently released a report, "20 percent Wind Energy by 2030," which recommended seven key long-term offshore development research priorities, including the need to develop low-cost foundations, anchors, and moorings and increase the economic viability of large-scale, deepwater offshore wind turbines. The University of Maine is in a unique position to provide this critical research assistance. During the past several years, the University of Maine's Advanced Engineered Wood Composites, AEWC, Center has been solving challenges driven by the energy crisis, focusing on the vast potential of Maine's offshore wind resource and the need for expertise and innovation in advanced structures and noncorrosive composite materials to harness the wind resource in the gulf of Maine. In fact, this facility has also developed blades for wind turbines using composite materials that are stronger, lighter, and more durable than today's commercially available technology. The University of Maine is well poised, with the research and technology capa-

bilities already in place, to ensure that offshore wind development becomes a success along the east coast.

The goal of the National Deepwater Offshore Wind Research Center would be to enable the design and testing of a large-scale, floating, offshore wind platform that could serve as the basis of a large-scale offshore wind industry. This would be an opportunity for Mainers to use their skills and experience, specifically in deep water relatively close to shore, to lead the Nation in developing a new source of clean and renewable energy.

Mr. ALEXANDER. Mr. President, I want to express my disappointment that the Energy-Water appropriations bill before us today does not fully fund the administration's request for its energy innovation hubs. As my colleagues know, I have a long history of support of federal investments in science and research, and in energy research in particular. I have called for a series of "mini-Manhattan projects" on seven clean energy grand challenges: improving batteries for plug-in vehicles, making solar power cost competitive, making carbon capture a reality, safely recycling used nuclear fuel, perfecting advanced biofuels, designing green buildings, and providing energy from nuclear fusion.

It should come as no surprise, therefore, that I am a strong supporter of the administration's proposed energy innovation hubs.

In testimony earlier this year, Energy Secretary Chu has indicated that these hubs are one of his top priorities and will focus on overcoming the most significant barriers to achieving national energy and climate goals.

The challenges the Secretary has asked these hubs to address are very similar to the grand challenges I outlined last year. I believe Congress and the Federal Government should tackle these seven grand scientific challenges during the next 5 years in order to put the United States firmly on the path toward clean energy independence within a generation. If we are to end our energy dependence and make renewable energy cost-competitive then we must double our investment in energy research and development.

I believe the administration's hubs are a firm commitment to put us on this path to energy independence.

I know the energy research community is eager to compete for this funding and to meet the challenges before our Nation. The passion and commitment of our researchers is palatable both at home in Tennessee and across the country. In fact, my home State boasts some of the finest energy researchers in the country at Oak Ridge National Laboratory as well as research institutions such as Vanderbilt and the University of Tennessee. At these institutions and similar institu-

are eager to make progress on these pressing issues to improve the lives of their fellow citizens and solve some of our greatest energy challenges. It is our obligation to ensure that they have the full backing and support of the U.S. Government, which means funding these energy innovation hubs.

These multidisciplinary research hubs will harness the best and brightest researchers at our universities and national labs as well as in industry. Each one could very well become a world-class research facility in its given program of focus. They are conceived as highly collaborative, integrated centers of innovative thinking that will focus teams of researchers from multiple institutions on developing novel ideas to overcome major scientific and technological barriers. Their efforts will complement—not duplicate—other DOE programs such as the Energy Frontier Research Centers, EFRCs and the Advanced Projects Agency for Energy, ARPA-E, differing from these programs in their larger scale, their duration, and their breadth spanning basic and applied science as well as limited technological development efforts. Moreover, the hubs are designed so as to permit flexibility and to allow for the quick reallocation of funding within each topic area to pursue new research opportunities or alternatives quickly, as they emerge—without the delays that may impede other government programs.

I recognize that the Department may not have had all the details fleshed out when they initially presented the hubs to the Congress. Despite its best efforts, the Department is not yet operating with a full staff—although I hope this situation is improving daily. But my colleagues are right to ask for a fuller explanation of this concept and its role in the greater Federal research enterprise. The funding level requested is not insignificant and deserves careful scrutiny. So I am pleased to report that additional details have now been submitted which address many of the very valid questions and concerns my colleagues have raised. I hope that this additional information will permit us to move forward with full funding for all eight hubs.

Mr. NELSON of Florida. Mr. President, first, I would like to recognize the efforts of the Appropriations Committee and Chairman INOUE and Ranking Member COCHRAN and the chair and ranking member of the Energy and Water Subcommittee, Chairman DORGAN and Ranking Member BENNETT. These leaders have a hard job to balance the many interests involved in their vital legislation.

I would like to focus on the decision of the Senate Appropriations Committee to ban new Army Corps of Engineer projects from being receiving funding in this bill.

I want to make a point that, when it comes to the Comprehensive Ever-

glades Restoration Plan, CERP, a strong case can be made that the two authorized projects that this legislation does not fund are not new starts.

I am speaking of the Indian River Lagoon project and the Site One Impoundment project, both of which have been duly authorized by Congress. They are elements of the CERP that was authorized by the Water Resources Development Act of 2000. At the time of its authorization, CERP was a plan that envisioned over 60 separate modifications to the old Central and Southern Florida Flood Control Project, C&SF Project. It is clear to me that CERP is an extension of the old Central and Southern Florida Flood Control Project, C&SF Project.

The disastrous flood of 1947, which followed a severe drought in 1945, and the serious intrusion of saltwater gave rise to a demand for a new and effective water management system. In response to public demand, the Army Corps of Engineers Jacksonville District conducted public hearings throughout South Florida to collect information on how best to revamp the water management system. A comprehensive report was prepared by the Corps and submitted to Corps headquarters in December of 1947.

The report cited the problems of flood protection, drainage, and water control and determined that the St. Johns, Kissimmee, Lake Okeechobee, Caloosahatchee, and Everglades drainage areas composed a single system and economic unit. The report included a plan to deal with the problems of water management. This plan became the Central and Southern Florida Flood Control Project, C&SF Project.

The C&SF project was approved by Congress as a part of the Flood Control Act of 1948. The stated goal of the plan was to “restore the natural balance between soil and water in this area insofar as possible by establishing protective works, controls, and procedures for conservation and use of water and land.” But this project worked too well and caused far-reaching and devastating environmental impacts.

In response, Congress directed a Restudy to modify the C&SF Project and to restore the Everglades and Florida Bay ecosystems while providing for the other water-related needs of the region. The Restudy developed the Comprehensive Everglades Restoration Plan, CERP, that was submitted to Congress and authorized in the Water Resources Development Act of 2000.

This chain of events shows that indeed CERP and its individual units are part of the C&SF Project that has received hundreds of millions of dollars in Federal funding over the years. The Corps fiscal year 2009 budget request document states: “The C&SF Project includes the Comprehensive Everglades Restoration Plan (CERP).”

The language of WRDA 2007 includes the term “Central and Southern Flor-

ida” when describing the Indian River Lagoon, Picayune Strand, and Site One Impoundment projects. These projects are a modification of an existing project that remains under construction.

In its fact sheet for the fiscal year 2009 budget, the Corps states the following: “The C&SF Project includes the Comprehensive Everglades Restoration Plan (CERP)”

I also would note that in the Secretary of the Army’s Annual Report for fiscal year 2007 on Civil Works Activities the following appears in paragraph 76: “CENTRAL AND SOUTHERN FLORIDA, INCLUDING COMPREHENSIVE EVERGLADES RESTORATION PLAN”.

I think it is clear that we do not have a situation of separate projects involved in CERP. CERP is a unified and comprehensive continuation of the old Central and Southern Project.

Senator MARTINEZ and I have filed amendments to put the projects back in the bill. The Florida Congressional delegation made sure the projects were fully funded and included in the House-passed bill.

Therefore, when the legislation goes to conference, I urge the leaders of the full committee and the subcommittee to consider this unique situation involving these two components of the CERP—the Indian River Lagoon and the Site One Impoundment projects. I respectfully ask them to keep an open mind on this issue in conference and would further add the House version of the legislation would fund those projects.

Now may I say a few words about these projects.

Mr. President, I grew up on the Indian River Lagoon. It is a wonderfully diverse area. The St. Lucie River and the Indian River Lagoon are periodically devastated by discharges from Lake Okeechobee and the areas surrounding the estuaries. The local citizens of Martin County have assessed themselves to raise money to buy land to be restored and used for reservoirs for the project. So far they have spent some \$50 million. They have done their part.

The Site One Impoundment project will save water from being discharged to sea and use it to benefit the Loxahatchee National Wildlife Refuge and provide benefits, including improved water quality, to downstream estuaries. It will also improve water flow into the Everglades, protect local water supplies, and provide environmental benefits to Water Conservation Areas.

These projects are vital to restoring America’s Everglades. I again urge the leaders of the Committee to consider these facts in conference.

Mr. DURBIN. Mr. President, the fiscal year 2010 Energy and Water Development appropriations bill provides

important funding for the Department of Energy, the U.S. Army Corps of Engineers, and other agencies.

This bill starts to make good on our efforts to develop new sources of energy—clean energy, that creates jobs and cuts back on greenhouse gas emissions.

The bill would provide \$2.23 billion for the Department of Energy's energy efficiency and renewable energy programs.

For many families in Illinois and across the Nation, energy costs are a big part of the budget.

Adding insulation, sealing leaks, or upgrading the furnace can help families cut their energy bills by 30 percent—sometimes more.

The weatherization program at the Department of Energy has helped more than 6 million low-income households seal up their homes.

But many more families are eligible for this help. The President has set a goal of weatherizing 1 million American homes annually.

This bill includes \$200 million to help meet that target.

This bill also puts \$200 million into R&D to produce buildings that produce as much energy as they consume.

And another \$50 million is included for the State Energy Program to help States adopt new energy efficiency and renewable energy technologies.

The bill increases funding for research and development on clean energy technologies to power our cars, homes, and businesses.

One of the most promising areas is the \$235 million dedicated to developing electricity and high-performance fuels from agricultural and forestry residues, municipal solid waste, industrial waste, crops, and algae.

These homegrown energy sources could help us reduce carbon emissions, and the research on these fuels is creating economic opportunities in Illinois and across the country.

And to bring alternative energies mainstream, the bill provides \$255 million for R&D on solar energy, \$85 million for wind; \$50 million for geothermal; and \$60 million for water power energy.

To make use of all this new power, we need to overhaul the Nation's electric grid.

We need new transmission lines to transport energy from wind farms to population centers. We need more research on energy storage so that electricity will be available when it is needed, not just when the Sun shines or the wind blows.

The American Recovery and Reinvestment Act took a giant step toward modernizing the electric grid and integrating renewable energy sources.

This appropriations bill builds on that effort, with \$180 million to make the grid more modern, reliable and secure.

America gets more than half its electricity from coal. We have over 600 coal-based power plants—along with many thousands of power and industrial facilities—that all contribute to greenhouse gas emissions.

Most of these facilities will remain in service for 10 to 30 years to meet our energy demands, and new facilities will be constructed.

That is a reality. So we have to pursue research and development into how we can use fossil energy in a cleaner way.

Funding programs within the Department of Energy's Office of Fossil Energy will allow us to accelerate fossil energy research.

The investments made in this bill will help us shift to a clean energy economy, strengthen our national security against the threats that energy dependence creates, and protect the environment.

The Department of Energy is the largest source of Federal funding for basic physical science research in the United States.

The bill increases funding for the Department's Office of Science to \$4.899 billion. This funding will support the good work undertaken at Argonne and Fermi National Laboratories in Illinois, as well as research at laboratories and universities across the Nation.

This bill provides \$5.125 billion for the Army Corps of Engineers.

The Corps provides quality, responsive engineering services to the country. The Corps provides planning, designing, building and operating water resources. It also designs and manages the construction of military facilities for the Army and Air Force.

Every year, the Corps carries out a variety of projects through its Civil Works Program, from environmental protection and restoration to controlling flood damage.

Traveling through my State of Illinois, the work of the Corps is evident. The best place to start is the shores of beautiful Lake Michigan.

For the past decade, the Corps has worked with the Chicago Park District to rebuild the deteriorating shoreline and protect millions of dollars of property, and water supplies.

The Corps has also been working in Chicago's western suburbs to address regular flooding in Des Plaines and surrounding communities. These flood control efforts will provide safety and peace of mind for thousands of property owners in affected areas.

On the western edge of the State is the mighty Mississippi River. The Rock Island and St. Louis Corps districts ensure a majority of the Illinois portion of the river is navigable. Barges travel the length of the Mississippi, which provide an important transportation option for our agricultural producers.

It is difficult to overstate the importance of the Corps when considering

the disaster preparedness and response efforts during the historic floods of 2008. I joined sandbagging efforts in communities that were fighting rising floodwaters, and civilian and military Corps employees were providing supplies and guidance on how to prepare for the rising waters.

The Corps' mission didn't end with the flood; they have worked with the State of Illinois and FEMA to help communities recover.

The Mississippi flows south to St. Louis and my birthplace, East St. Louis. These communities are protected by several levees built and maintained by the Corps of Engineers.

In central and southern Illinois, Lake Shelbyville and Carlyle and Rend Lakes are beautiful recreational areas maintained by the Corps.

In addition to providing flood control, these areas allow for boating, camping and other activities for Illinoisans and others visiting my State. The communities around these lakes benefit as well the recreation areas boost the local economies.

In recent years, the Corps has taken a more active approach to environmental protection and restoration.

These efforts should be encouraged. The Federal Government needs to continue its investment in these areas.

Restoring wetlands can help reduce the incidence of flooding, and we need to understand that the development of acreage upstream can have significant negative impacts downstream.

The Corps' work in this area can be seen at Emiquon Refuge in Central Illinois. Since its establishment in 1993, the major habitat management efforts on Emiquon Refuge have been the restoration of the historic Illinois River floodplain and associated wildlife communities.

Through restoration of altered habitats and protection of existing areas, Emiquon Refuge will be managed to provide the diversity of native plant and animal communities found in this area prior to drainage and conversion to cropland.

I would like to thank Senator DORGAN and Senator BENNETT for their hard work on this bill. They had many competing interests to consider, but the bill we are considering today is balanced. I hope the Senate can complete work on the fiscal year 2010 Energy and Water appropriations bill in a timely manner.

Mr. AKAKA. Mr. President, I support the Energy and Water Development Appropriations Act for fiscal year 2010. This bill provides critical investments that will support the development of clean and alternative energy and utilization of domestic energy resources. Further, this legislation provides much needed resources to improve our Nation's water infrastructure.

This bill fosters American innovation in clean energy and energy efficiency.

It supports worthy programs that further hydrogen, wind, hydropower, and solar technologies, as well as weatherization assistance for families and programs for building and industrial technologies. These programs better our Nation's security and economy by putting people to work advancing energy independence and sustainability.

I am very pleased that working with the senior Senator from Hawaii, we were able to include \$6 million in this legislation for the Hawaii Energy Sustainability Program at the University of Hawaii's Hawaii Natural Energy Institute. This funding will allow for the continuation of the program's important work supporting increased use of clean, safe sources of energy. We must continue to invest in the development and implementation of systems to allow for a transition away from foreign oil. As Hawaii relies on imported oil for about 90 percent of its energy needs, work to facilitate this transition is critical to the State's energy security. Moreover, the Hawaii Energy Sustainability Program will provide economic development benefits and will further research valuable in applications both in Hawaii and nationwide.

This bill will also help address water infrastructure needs around the country. Provisions contained within the bill permit the U.S. Army Corps of Engineers to conduct essential navigation, flood control, and environmental restoration projects. Such projects are particularly important for Hawaii, given our remote geography and our interconnected and diverse ecosystems. I appreciate the inclusion of nearly \$14 million for Hawaii water development and infrastructure projects.

As Hawaii is susceptible to threats from severe weather and flooding, I was proud the bill contained specific provisions addressing this need. Working with Senator INOUE, \$1 million was included to assist the State of Hawaii and Pacific Territories with updating and preparing comprehensive flood plans. Also, much needed funding for the Ala Wai Canal and Waiakea-Palai Stream flood damage reduction projects is included in the legislation. On Oahu, accumulation of silt and debris from the Manoa, Palolo, and Makiki streams has significantly reduced the carrying capacity of the Ala Wai Canal. Funding of \$233,000 has been provided to complete necessary studies that will mitigate and reduce flooding threats to property and roads in the Waikiki and neighboring areas, while ensuring public safety and enhancing human and environmental health. Given the damage to roads, residences, bridges, drainage systems, and personal property over the years due to the flooding of Waiakea and Palai Streams, \$300,000 has been included to initiate the Preconstruction Engineering and Design phase needed to minimize flooding in the affected communities.

We know from experience that investment in wise stewardship and management at a watershed level will have a significant positive impact on numerous natural resources. For the island of Maui, I was involved in securing \$100,000 for the West Maui Watershed to initiate a study that may ultimately result in additional watershed improvements. A completed reconnaissance study for the area has already identified flood damage reduction, aquatic and marine ecosystem restoration, and shoreline protection projects that could be undertaken by the Corps of Engineers along with county and State agency partners.

Further, recognizing that shoreline erosion threatens upland development and coastal habitats along much of Hawaii's shoreline, I worked to include \$500,000 for a regional sediment management demonstration program to better understand the dynamics of complex coastal processes and promote the development of long-term strategies for sediment management. These resources will assist in protecting communities from severe weather and further conservation efforts in coastal communities.

I am encouraged by the inclusion of provisions that will invest in our science and technology sectors and enhance U.S. competitiveness. It is vital that we support the research and development of sustainable and clean energy technologies. Such efforts empower us as a country to reduce our reliability on foreign oil and strengthen our ability to meet our energy needs domestically.

In conclusion, I thank the senior Senator from Hawaii, chairman of the Appropriations Committee, as well as the chairman and ranking member of the Senate Appropriations Energy and Water Development Subcommittee for their efforts in developing and managing this bill through the legislative process.

Mrs. BOXER. Mr. President, the fiscal year 2010 Energy and Water Development appropriations bill would provide \$629,000 for Yazoo Basin—Yazoo Backwater, MS. I want to clarify that nothing in the language is intended to: (1) override or otherwise affect the final determination that was effective August 31, 2008, and published in the Federal Register on September 19, 2008, of the U.S. Environmental Protection Agency under section 404(c) of the Clean Water Act that prohibits the use of wetlands and other waters of the United States in Issaquena County, MS, as a disposal site for the discharge of dredged or fill material for the construction of the proposed Yazoo Backwater Area Pumps Project, (2) create or imply any exception with respect to the project to the requirements of the Clean Water Act, including any exceptions from the prohibitions and regulatory requirements of the Clean Water

Act under section 404(r); or (3) affect the application of any other environmental laws with respect to the project.

As chairman of the committee with jurisdiction over the Clean Water Act and authorizations for the civil works program of the Corps of Engineers, I believe it is critical that our environmental laws be adhered to in the planning, construction, and operation and maintenance of all Corps of Engineers projects.

Mr. REID. Mr. President, I am pleased that the Senate has included my amendment to allocate \$75.7 million in Desert Terminal Lakes funding as part of the Energy and Water Development Appropriations Act, 2010. The legislation builds on the many projects and research to benefit all of Nevada's desert terminal lakes—Walker, Pyramid, and Summit. I appreciate Senator ENSIGN's cosponsorship of the amendment.

Briefly, the legislation allocated \$8.5 million for continued work in the Truckee River Basin. The bill provides \$1.5 million to help the city of Fernley and the Pyramid Lake Paiutes continue their efforts towards accomplishing their mutually beneficial goals of securing a municipal water source and protecting a renowned resource, Pyramid Lake. The bill also helps the States of Nevada and California, the Truckee Meadows Water Authority, the Pyramid Lake Paiute Tribe, and the Federal watermaster implement the Truckee Settlement Act and the Truckee River Operating Agreement. I am committed to seeing the full implementation of the Operating Agreement, and my legislation supports this effort.

But I rise today primarily to discuss this legislation's \$67.2 million allocation for work in the Walker River Basin.

Over the years, money that I have secured for work in the Walker River Basin has created jobs and other opportunities for Nevadans.

For example, this funding has resulted in world-class research completed by some of Nevada's best faculty and researchers at the University of Nevada, Reno, and the Desert Research Institute. A resulting publication and international conference on desert terminal lakes will feature their work.

The Walker River Paiute Tribe has accessed funds to implement a 5-year water leasing program for its farmers, develop efforts to strengthen a fishery at Walker Lake, and work on efforts to combat invasive species along the stretch of the Walker River that runs through their reservation and to Walker Lake. Working with the tribe and others, the U.S. Fish and Wildlife Service and other Federal agencies have been able to develop long-term plans to strengthen the presence of Lahontan cutthroat trout at Walker Lake, one of

Nevada's most interesting and threatened treasures, and improving the Walker River riparian habitat. Funding is also being used to increase the instream flow of the Walker Rivers that end in Walker Lake.

But today's legislation is different. I believe it marks a new chapter of collaborative efforts in the Walker River Basin.

The legislation brings new partners to develop solutions to address competing water uses in the Walker River Basin.

Working with local partners, the National Fish and Wildlife Foundation will coordinate the Walker Basin Restoration Program, a program that includes a water rights acquisitions program, a demonstration water leasing program, various conservation and stewardship activities, and an alternative agriculture project.

Of particular importance to their efforts, the foundation brings the necessary expertise to complete complex water transactions in a way that preserves and protects the Walker River watershed. Working in the Columbia River Basin, the foundation has the experience of working with Federal and State agencies, tribes, municipalities, irrigation districts, and individual farmers and ranchers to bring about creative, business-wise, and responsible solutions to balance the many demands on water uses—for agriculture, for municipal use, and for fishing and recreation. I am pleased with their commitment to work with Federal and State agencies in Nevada, Mineral and Lyon Counties, the Walker River Irrigation District, the Walker River Paiute Tribe, and many individuals in Smith and Mason Valley and to develop a local entity to guide their efforts in the basin.

In addition, the Walker River Irrigation District has accepted a leadership role in finding a cost-effective way to increase in-stream flows in the Walker River while preserving agriculture interests. The district has agreed to administer and manage a \$25 million, 3-year demonstration leasing program that will help get water to Walker Lake while providing farmers an additional opportunity to strengthen their operations. I appreciate the years of negotiations and conversations that has led to the district taking on this important program, and I hope that it is successful in achieving its purpose.

I support the agricultural communities in northern Nevada, and I have pushed for this demonstration leasing program and \$200,000 for alternative crops and agriculture cooperatives. Providing farmers and ranchers with more resources to manage their businesses and opportunities to explore new markets will stimulate the agriculture economy in Lyon County, NV, and maintain the agricultural setting and livelihood enjoyed by generations of Nevadans.

Throughout the years, I have stated that I would work to assure the viability of agriculture in Smith and Mason Valleys. This legislation does this—by providing Nevada's hard-working farmers with more tools to make good business decisions.

While helping farmers and dedicating water rights for the benefit of Walker Lake is part of a solution to restore and maintain Walker Lake; the other part requires coordinated conservation and stewardship activities. This bill supports the National Fish and Wildlife Foundation's efforts to coordinate watershed planning, water management, and habitat restoration efforts, among other activities. It supports efforts by the U.S. Geological Survey to work with other agencies and interested entities to develop a water monitoring plan in the Walker River Basin. Of course, with this data and through other efforts, the University and Desert Research Institute will be able to assess whether these activities are successful in improving instream flows and getting water to Walker Lake.

The health of the Walker River Basin and Walker Lake depends on people working together—the Federal, State and local governments and agencies; the tribe; the Irrigation District; the National Fish and Wildlife Foundation, and others. This legislation reflects the many ways farmers, ranchers, sports men and women, and agencies can participate in this effort. The millions that will be spent in the Walker Basin—through the water leasing demonstration program, additional alternative agriculture programs, additional water acquisition funds, and broader conservation opportunities—means that willing and interested people can choose ways to participate in a solution for the basin that best serves their business, personal and community's interests.

After my years of working on efforts in the Walker River Basin, I am hopeful that this legislation will help communities work together to protect what is important to all Nevadans—preserve our unique natural resources enjoyed by sportsmen and the right of individuals and communities to choose the what will make our businesses successful, our local economies more diverse, and our resources more attractive to the public.

This is an opportunity to make significant progress in the Walker River Basin, and I am committed to seeing these Desert Terminal Lakes funding priorities signed into law by the President.

Mr. DORGAN. Mr. President, I wanted in these moments to say a special thank you to Senator BENNETT and the staff on the minority side and majority side who put this bill together and worked with us. This is a bill that funds the energy programs and water in this country. It is a bill that is very

important. It has taken us a while on the floor to get it done.

I believe we have two amendments also remaining that we are trying to clear. We hope to clear those by voice vote momentarily. Then we will go to final passage. Hopefully we will get clearance to do that so we could be done in 10 or 15 minutes. It has been a long saga on the floor of the Senate here on this bill for the last several days, but I think the work is valuable and important and useful for the country. It is a good investment in our future.

As I said when we started this process, Senator BENNETT is a great Senator to work with, a great Senator to partner with on some very important issues. He and his staff have done a great job, as has the staff on the majority side, putting this bill together. I am going to include all their names in the RECORD. I included most of their names at the start of this discussion a couple of days ago, but I want recognition paid to the people who spent time to put this bill together.

I want to alert colleagues I hope within a matter of 5 or 10 minutes to be able to do the two amendments remaining by voice and then go to final passage.

The PRESIDING OFFICER. The Senator from Utah is recognized.

Mr. BENNETT. Mr. President, I thank the chairman for his kind words and echo his comments about the staff and the hard work they have done. We are grateful to Doug Clapp and Barry Gaffney, Roger Cockrell, and Franz Wuerfmannsdobler, Brad Fuller, as well as Tyler Owens, Ben Hammond, the floor staff, and of course Scott O'Malia of the committee staff who has worked so hard with me.

This has been a challenge for Scott and others because this is my first experience as the ranking member of this subcommittee. I was far more comfortable working on agricultural matters. But to have moved from the Agriculture Subcommittee to the Energy and Water Subcommittee has been a significant challenge and I am grateful to the chairman and the others for their willingness to work with me as I have come through this maiden experience.

I agree with the chairman that this is a very important bill addressing one of the most significant challenges we face in this country, which is getting our energy policy right and getting the energy initiatives properly funded. I am grateful it has finally come to the point where we are in fact within moments of final passage.

I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. DORGAN. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. DORGAN. Mr. President, I think the Senator from Florida is going to seek recognition in a moment. I wish to mention for the RECORD the names of those staff who have contributed to the construction of this appropriations bill on the Energy and Water Subcommittee: Doug Clapp, Scott O'Malia, Roger Cockrell, Barry Gaffney, Franz Wuerfmannsdobler, Molly Barackman, Ben Hammond, Tyler Owens.

We have had a lot of staff people who have put in a great deal of time. I wished to mention them by name as my colleague has done as well. We are very grateful for the amount of time people put in to make these things happen. This bill was a very important bill. I think it was constructed very well.

We had a markup in the subcommittee, the full committee, and now good discussion on the floor of the Senate. We are very close to final passage. We are waiting because a couple Senators are asking for commitments on amendments on a bill that does not relate to this before they will agree to final passage. I think we are very close to having their appetite for that satisfied and we can go to final passage.

I believe the Senator from Florida is going to talk about two amendments that have been cleared on both sides that could then be cleared.

The PRESIDING OFFICER. The Senator from Florida is recognized.

AMENDMENTS NOS. 1852 AND 1893, AS MODIFIED

Mr. NELSON of Florida. I call up en bloc amendment Nos. 1852 and 1893, as modified.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. NELSON of FLORIDA. Mr. President, I ask unanimous consent that Senator MARTINEZ be added as a cosponsor to amendment No. 1852 and that I, Senator NELSON of Florida, be added as a cosponsor to amendment No. 1893.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. NELSON of Florida. Mr. President, it is my understanding that this has been agreed to by both sides. I would ask for a voice vote.

The PRESIDING OFFICER. The Senator from North Dakota.

Mr. DORGAN. Both the minority and majority have cleared both these amendments. I would ask for a voice vote on the amendments.

The PRESIDING OFFICER. If there is no further debate, the question is on agreeing to the amendments.

The amendments were agreed to, as follows:

AMENDMENT NO. 1852

(Purpose: To provide for the Federal share of the cost of the Ten Mile Creek Water Preserve Area)

On page 17, between lines 16 and 17, insert the following:

SEC. 1. TEN MILE CREEK WATER PRESERVE AREA.

Section 528(b)(3)(C)(ii) of the Water Resources Development Act of 1996 (110 Stat. 3769; 121 Stat. 1270) is amended—

(1) in subclause (I), by striking “subclause (II)” and inserting “subclauses (II) and (III)”;

and

(2) by adding at the end the following:

“(III) TEN MILE CREEK WATER PRESERVE AREA.—The Federal share of the cost of the Ten Mile Creek Water Preserve Area may exceed \$25,000,000 by an amount equal to not more than \$3,500,000, which shall be used to pay the Federal share of the cost of—

“(aa) the completion of a post authorization change report; and

“(bb) the maintenance of the Ten Mile Creek Water Preserve Area in caretaker status through fiscal year 2013.”.

AMENDMENT NO. 1893, AS MODIFIED

(Purpose: To ensure that previously appropriated funding for the Tampa Harbor Big Bend Channel project is used for the original intended purpose of the funding and not reprogrammed)

On page 17, between lines 16 and 17, insert the following:

SEC 1. As soon as practicable after the date of enactment of this Act, from funds made available before the date of enactment of this Act for the Tampa Harbor Big Bend Channel project, the Secretary of the Army may reimburse the non-Federal sponsor of the Tampa Harbor Big Bend Channel project for the Federal share of the dredging work carried out for the project.

Mr. DORGAN. Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. REED. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. REED. Mr. President, I wish to make a few comments on the bill. First, let me commend Chairman DORGAN and Senator BENNETT for their excellent work, not only on this legislation but also on the Recovery Act that was passed a few months ago.

Both bills apply significant money to deal with issues and infrastructure that are so important, that would promote green jobs, alternative energy and energy efficiency. They have done an extraordinary job, and I wish to thank them personally.

There is one issue I do want to address, though, and that is the issue of weatherization. In the Recovery Act, there was \$5 billion for weatherization. That is now flowing out to the States, localities. We are going to see, particularly in the next few weeks or months, an increase in activity which is going to put people to work and also to, in the long run, curb our use of energy.

This was a major accomplishment. I know Senator DORGAN and Senator BENNETT were key to getting it included in the Recovery Act. The bill we have before us now includes a very small amount, in my view—I am a pro-

ponent of weatherization—for weatherization.

Essentially, the President asked for \$220 million, the bill has \$130 million and two \$35 million pilot projects. But one of the aspects of the decrease from \$200 million to \$130 million is that every State will get a haircut, if you will. Rhode Island, for example, would have, if it was \$200 million, \$350,000 more to spend on weatherization.

Going forward with the weatherization money from the Recovery Act, this might be something we can bridge this year. But if we do not return to a base of at least \$200 million, we are going to see severe disruptions going forward.

The \$350,000 seems like a small sum. But my State has a 12-percent unemployment rate. Any money that can be used, particularly since we have geared up this program for the Recovery Act, would put people to work and would be deeply appreciated. This issue is the same for many other States. New York, they would lose \$6 million; Michigan, \$4 million; Maine, \$1 million; Nevada, \$300,000; all across the States.

I would hope we could have met the President's objective of \$220 million. But one of the other issues is that \$70 million for this funding was carved out for a pilot program. I would hope that, again, if we are doing pilot programs, we could not go after the basic weatherization fund but find them elsewhere to initiate these pilots.

One of the pilots is basically to demonstrate energy savings through the use of insulating and sealing homes built before 1980. There are many individuals and organizations that question whether this is a pilot program that is worthy of \$35 million or so.

One of the things it does is undercut the notion that the whole house should be weatherized, that there is no magic of just insulating, there are windows, there are door jams, there are energy-efficient appliances. All these things should be considered. So a single, one-dimensional approach raises question with many of the organizations that are actively engaged in weatherization.

For these reasons and more—in fact, I will mention one more that is critical, which is that, under the law, these homes that are insulated would be ineligible for additional weatherization, for weatherization treatment. That is sort of one bite at the apple.

As a result, they would not be able to perhaps be more efficiently weatherized in the future. So I think that is something that has to be considered. As a result, the National Association for State Community Services Programs, the National Community Action Foundation, both of them have written with concerns about this proposal.

I ask unanimous consent to have printed in the RECORD a letter from these two groups.

The PRESIDING OFFICER. Without objection, it is so ordered.
(See exhibit 1.)

Mr. REED. We originally, Senator SNOWE and I, filed an amendment to see if we could restore the funding. But I think at this moment, what we want to see is this bill move forward to conference. I would love to work with the chairman and the ranking member on this issue. Also, I would expect that if these pilot projects for this year are fully evaluated, that next year, we take another hard and close look, if we cannot resolve it in conference, on the use of these funds for pilot programs.

Finally, again, we are fortunate because of the work of Senators DORGAN and Senator BENNETT that we have a significant amount of weatherization money through the Recovery Act. But, again, I think we should have to insist that we maintain a good base fund, and I would hope we could do that going forward.

I yield the floor.

EXHIBIT 1

Hon. DANIEL INOUE, *Chairman, U.S. Senate Committee on Appropriations, Hart Senate Office Building, Washington, DC.*

Hon. BYRON DORGAN, *Chairman, Subcommittee on Energy and Water Development, U.S. Senate Committee on Appropriations, Hart Senate Office Building, Washington, DC.*

DEAR CHAIRMAN INOUE AND CHAIRMAN DORGAN: The National Association for State Community Services Programs (NASCSPP) represents the state administrators of the Weatherization Assistance Program and the National Community Action Foundation (NCAF) represents the local Community Action Agencies that deliver the program's services. We are very concerned about the language in the FY 2010 Committee Report, which allocates \$70 million for alternative and vaguely specified uses to be determined by the Department of Energy. Those funds could be used to weatherize nearly 11,000 low-income homes. The disappointing appropriations level of \$200 million itself is only 80% of President Obama's Request. After the funding earmarked for alternative uses is taken away from state allocations, just \$130 million would remain for the core program. This is the lowest program allocation since 1998.

This diversion of funds from the core program suggests the Committee lacks confidence in the burgeoning expansion of Weatherization service delivery. We believe such fears are not supported by the facts as laid out in the multi-year plans recently approved for state Program growth under the American Recovery and Reinvestment Act of 2009 (ARRA). Many states even plan to complete ARRA-funded work before the end of FY 2010 and are counting on the 'regular', appropriated funds to prevent the collapse of the program and moderate the loss of its workforce.

Further, we question the value of both of the alternative, federally-run projects to be funded. One tests insulation in older homes. Older homes already make up the vast majority of housing stock weatherized today. Additionally, insulation is just one component of a comprehensive weatherization project. The intent of the program may be to test new insulation materials developed by a

manufacturer; in that case, a dedicated program is unnecessary because the core program provides a path for incorporating new technologies and materials. Appendix A to Title 10, Part 440, Direct Final Rule—Federal Register, June 22, 2006, specifies how test results on materials are submitted to DOE technical review and then placed on the approved list. However, if the project is intended to test batt insulation manufacturers' suggestion of an insulation-only program rather than a systematic approach to the house as a system of space conditioning systems and baseload usage, there are better ways. One would be the long-delayed program evaluation of a sample of thousands of homes where some will have received only insulation. Another is to use the evaluations performed on similar experiments conducted by utility DSM programs and to incorporate the results into WAP practices.

The second pilot program, funds "partnerships between the Department and traditional and/or nontraditional weatherization providers" to increase private leveraged funding. In other words the program is intended to act without the states or local agencies that would, in the end, need to test and adopt innovations. It is apparently to be a new, direct federal Weatherization program with new delivery agencies which would circumvent the statutory requirement to use the experienced local network providers. It is not necessary to earmark funding for leveraging activities, as the statute allows substantial investment in activities to leverage private funding; the millions won by Weatherizers in utility rate-payer programs attest to the efficacy and frequency of states' investments in innovative private partnerships.

The Committee Report also suggests there should be a new private funding match requirement for federal funds which is not reflected in the re-authorization bill recently reported by the Energy Committee. We question the practicality of this requirement and believe hearings on the proposal's impact would be appropriate.

Thank you for considering our concerns regarding this matter.

Sincerely,

TIMOTHY R. WARFIELD,
*Executive Director,
National Association
for State Community
Service Programs.*

DAVID BRADLEY,
*Executive Director,
National Community
Action Foundation.*

The PRESIDING OFFICER. The Senator from Alabama.

Mr. SESSIONS. Mr. President, I support the expansion of nuclear power, and so do the American people. Seventy percent, according to the Nuclear Energy Institute, believe we should either build new or expand existing nuclear powerplants. It is the key to our energy future in several different ways.

I believe we ought to have a robust goal toward expanding nuclear power, and that we should work to build 100 nuclear plants as quickly as possible. We built them quickly in wave of construction, and hopefully, we will be able to have a cookie-cutter design for plants that can be used on a regular basis with good engineering, and be a step above the plants we have today.

Nuclear energy is a clean source of domestic energy. It is American-made

energy. It is the kind of energy the American people support. It has a role to play in reducing our dependence on foreign oil and bringing down the price of gasoline. If we could convert more cars to utilizing electricity through plug-in hybrids, then 24-hour-a-day base load nuclear power can charge automobile batteries at night when the grid is not at full demand and a person can drive 40 miles or so the next day without using a drop of gasoline.

Nuclear powerplants will provide long-term economic benefits. It makes great strides in reducing the amount of imported oil from foreign countries and it keeps our wealth at home. It certainly creates high-paying, clean American jobs. It is a serious solution to our energy future. New nuclear plant construction will supply as much as 50,000 megawatts of additional clean and affordable electricity to meet the demands of a growing economy.

Nuclear power is the most cost-effective way to generate electricity. While wind and solar certainly have roles, they simply will not take us far enough. The average nuclear production costs have declined more than 30 percent in the last 10 years to an average of 1.7 cents per kilowatt hour. This includes the cost of operating and maintaining the plant, purchasing the nuclear fuel, and paying for the management of used fuel. The low and stable cost of nuclear power helps to reduce the price of electricity paid by consumers. We cannot just say that we need to use energy sources that are clean; we must also produce electricity at an affordable price, and nuclear power meets both of these criteria.

One thing I am disappointed about in the bill we are working on today, is how this measure deals with the storage of nuclear waste. Yucca Mountain was chosen as the government's location for a deep geologic repository for the safe storage of used nuclear fuel. All aspects of the geological, hydrological, geochemical, and environmental impacts have been studied, including a detailed evaluation of how conditions might evolve over hundreds of thousands of years at Yucca Mountain. To date, we have spent more than 25 years and \$10 billion on these studies, and the Department of Energy has summarized these studies in several scientific reports which served as the basis for the 2002 decision to approve Yucca Mountain as a site repository. These reports, which included input from extensive public review and comment, formed the foundation of DOE's June 2008 application to the Nuclear Regulatory Commission for a license to construct the repository.

Ending Yucca Mountain could not only hinder new nuclear construction, it could also pose a serious budget question. The repository is currently financed through the Nuclear Waste Fund. Presently, ratepayers pay a one-

tenth of 1 cent fee for every kilowatt hour of nuclear power they consume. This is collected through the monthly utility bill paid by ratepayers.

Under the Nuclear Waste Policy Act, DOE must review the adequacy of the Nuclear Waste Fund fee every year. DOE last performed a fee assessment in August of 2008, when it found the fee was adequate. As a result, the total amount of money paid into the fund is approximately \$750 million per year and about \$1 billion in interest per year. The Congressional Budget Office cost estimate unit told the House Budget Committee that CBO could not estimate what the fee should be:

In light of the [Obama] Administration's policy to terminate the Yucca Mountain project and pursue an alternative means of waste disposal, there is no current basis to judge the adequacy of the fee to cover future costs because the method of disposal and its lifecycle costs are unknown.

That is certainly true. Therefore, utilities and regulators are now asking the Department of Energy to suspend the fee on nuclear power. Why should they pay a fee that is supposed to ensure their wasted nuclear fuel will be taken to a repository when this administration has sought to stop this repository and seems to be making progress in that direction?

Suspending payments of the Nuclear Waste Fund could also complicate general budget matters as the Nuclear Waste Fund is included as a part of the General Treasury Fund, not a trust fund, and can be appropriated on an annual basis. The result is that these funds are often used for purposes other than the disposal of nuclear waste, with only IOUs being held to carry out the fund's purpose. For example, according to CBO, the fund provided \$8 billion through 2006 in government spending that did not contribute to the deficit. In other words, they took this money from the fund. So we can see the issue. If the IOUs are ever paid, the money must come from somewhere, and that payment will be scored as an expenditure of the government. In fact, if lawsuits filed by utilities paying this fee to the government are successful, we are going to have to spend the money, according to the law, it seems to me, for nuclear waste disposal. If so, where will the money come from? We will have to find it in some other fashion. If we do like we do everything else around here, we will just add it to the deficit, another \$8 billion to the current debt.

Additionally, we cannot forget that the Nation's \$11 trillion deficit must also be factored into the debate. Regardless of what the President's Blue Ribbon Commission decides concerning Yucca Mountain, the DOE will have to pay for the disposal of nuclear waste. That is the legal requirement.

There are numerous lawsuits stemming from the delay. The courts have

already found DOE partially in breach of contract for not taking the used fuel from the nuclear powerplants as required in exchange for the nuclear waste fee they have been paying. This has resulted in the Federal Government paying approximately \$300 million to utilities in compensation costs, which is paid out of a judgment fund and not out of the Nuclear Waste Fund. They are not paying back the money with the funds already contributed by the utilities. They are taking it from the General Treasury, a judgment fund, and paying it out of that. And there may be more judgments coming along.

Also, DOE has appealed judgments totaling approximately \$400 million in additional cases they may well lose. That will be another \$400 million that will have to be found and there are close to 40 lawsuits that have not yet gone to trial.

According to CBO, because judicial claims for damages are made retrospectively, many more cases can be expected in the coming decades as utilities seek to recover their own costs for storing nuclear waste on site long after they expected it would be removed to a permanent disposal site.

The repository is also slated to hold high-level waste left over from the Cold War, and the government may be liable for compensation costs from States currently hosting defense waste as well. The Treasury Department has estimated it will cost DOE about \$300 billion to clean up and monitor several government sites that are contaminated with hazardous and radioactive materials.

I ask my colleagues to listen to that number. As a result of activities in early nuclear development, there are waste sites in the country. The Department of Treasury has estimated it will cost about \$300 billion to monitor and clean up several of those sites. I think that number is so breathtaking that I am amazed that more discussion has not occurred about it. I have raised the issue with the Department of Energy and the Department of Defense, as I serve on both Committees, and I believe it can be done for less than that. It has to be done for less than that. We do not have the \$300 billion. We have to look for a better and more responsible way to deal with these cleanups. The waste needs to be stored somewhere. The President has indicated that Yucca Mountain is not one of the options for disposal of nuclear waste.

I was disappointed to hear that. However, we must remember that Yucca Mountain remains the law of the land and that the administration does not have the ability to unilaterally terminate the project. In order to eliminate Yucca Mountain, Congress would have to amend the Nuclear Waste Policy Act, which set a deadline for the Federal Government to begin disposing of used fuel. However, more than a decade

later, we still have not settled on a policy for how to accomplish this, and we have sunk nearly \$10 billion into Yucca Mountain. That is a huge sum of money, even for the amounts we talk about today. Not to mention that it is the most studied geology on the planet.

I do not think we should abandon this project simply because of political pressure. Regardless of what this administration says, we will continue to face the problem of nuclear waste management. We must have a successful plan to dispose of nuclear waste, whether it is through direct disposal or recycling. I believe we need to go forward with recycling and I have offered legislation to do just that. Either way, we are going to need a site, but if we recycle this waste, it would be less toxic. It would be radioactive for far fewer years than would be the case if it were not recycled and perhaps would then be more palatable to those who object to the site.

Perhaps an answer, which to me makes sense, is to move the Nuclear Waste Fund off budget to a dedicated account so that the money will be used for what it was intended. Currently, it is being spent in other places and being replaced with an IOU. Why should utilities pay money into a fund when they are not getting any benefits that they were promised? It just lead us into liability and lawsuits, some of which are already being lost.

I believe nuclear power has proven to be exceedingly safe in America. Not one American has lost their life operating a nuclear powerplant.

The Three Mile Island situation, which caused so much fear and concern in America, did not result in even one person in the studies afterwards to have been sick. But the plants today, and the new ones we will build, will be even safer. They will be set up in such a way that even without power they would automatically shut themselves down through gravity flow into the reactor core. It is a new and safer design. They can be built in mass production quantities, resulting in lower costs per plant, and perfecting the technology and construction techniques that should result in reducing costs. It would allow the components to be produced in larger numbers, reducing costs, and help the Nuclear Regulatory Commission, because of the uniform nature of these plants, to regulate them even more effectively.

Mr. President, I thank the Presiding Officer and would say again, nuclear power produces about 20 percent of our electricity today. It emits no CO₂ or other global warming gases into the atmosphere. It is cost effective, it is all American, and it does not require us to expend large amounts of American wealth to foreign countries in order to maintain our energy supply. Nuclear power is the right thing to do, and I

hope we will continue to work on it because I believe the country is ready to move in that direction.

I thank the Chair and yield the floor.

I suggest the absence of a quorum.

The PRESIDING OFFICER (Mr. BEGICH). The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. DORGAN. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. DORGAN. Mr. President, I ask unanimous consent that no further amendments be in order; that the substitute amendment, as amended, be agreed to and the motion to reconsider be considered made and laid upon the table; that the bill, as amended, be read a third time and the Senate then proceed to vote on passage of the bill; that upon passage, the Senate insist on its amendment, request a conference with the House on the disagreeing votes of the two Houses, and that the Chair be authorized to appoint conferees on the part of the Senate; provided further that if a budget point of order is raised against the substitute amendment and the point of order is not waived, then it be in order for another substitute amendment to be offered, minus the offending provisions but including any amendments which had been agreed to previously, and that then no further amendments be in order; that the new substitute amendment, as amended, be agreed to with the remaining provisions beyond the adoption of the substitute amendment remaining in effect; further, that the subcommittee plus Senator INOUE be appointed as conferees.

The PRESIDING OFFICER. Is there objection? Without objection, it is so ordered.

The majority leader.

UNANIMOUS-CONSENT REQUEST—S. 1498

Mr. REID. Mr. President, I ask unanimous consent to proceed to the immediate consideration of Calendar No. 126, S. 1498, the Surface Transportation Extension Act of 2009; that a Boxer substitute amendment, which is at the desk, be agreed to; the bill, as amended, be read a third time and passed; and the motions to reconsider be laid upon the table with no intervening action or debate.

The PRESIDING OFFICER. Is there objection?

Mr. MCCONNELL. I object.

The PRESIDING OFFICER. Objection is heard.

Mr. REID. Mr. President, I understand my friend has objected. I would not belabor the point, but the Environment and Public Works Committee worked very hard. This is an 18-month extension of the highway bill. It is all paid for. But we understand and we will continue working on this and we will see what we can come up with at a later time.

ORDER OF PROCEDURE

Mr. REID. Mr. President, I ask unanimous consent that tomorrow, Thursday, July 30, at a time to be determined by the majority leader, following consultation with the Republican leader, the Senate proceed to H.R. 3357; and that when the bill is considered, it be considered under the following limitations: That there be general debate of 20 minutes equally divided and controlled in the usual form, with the time under the control of the leaders or their designees; that the only amendments in order be the following and that debate time on each amendment be limited to 60 minutes equally divided and controlled in the usual form; that no other amendments be in order; that upon disposition of the listed amendments, the bill, as amended, if amended, be read a third time, and the Senate then proceed to vote on passage of the bill: Ensign amendment regarding unemployment benefits, Bond amendment regarding SAFETEA-LU, the Vitter amendment regarding the highway trust fund, the DeMint amendment with the offset on the housing substitute.

Further, that upon disposition of H.R. 3357, the Senate proceed to the consideration of Calendar No. 105, H.R. 2997, the Agricultural, Rural Development, Food and Drug Administration and Related Agencies programs; that once the bill is reported, Senator KOHL be recognized to offer a substitute amendment, which is the text of the Senate committee-reported bill, S. 1406; further, that once this agreement is entered, the aforementioned amendments be filed and printed in the RECORD.

The PRESIDING OFFICER. Is there objection?

Mr. MCCONNELL. Reserving the right to object, could the majority leader give me an indication of when we might turn to this matter tomorrow?

Mr. REID. I indicated to our floor staffs that we will do our very best to get it here as early as we can tomorrow afternoon.

Mr. MCCONNELL. Early tomorrow afternoon?

Mr. REID. As early as we can get it over here. If we are fortunate, we may get it here in the morning, but we will get it here as early as we can. I would say to my friend, the bill is passed, so it is just clerical stuff. It shouldn't be difficult at all to get it over here.

The PRESIDING OFFICER. Without objection, it is so ordered.

Under the previous order, the substitute amendment, No. 1813, as amended, is agreed to, and the motion to reconsider is laid upon the table.

The question is on the engrossment of the amendment and third reading of the bill.

The amendment was ordered to be engrossed and the bill to be read a third time.

The bill was read the third time.

The PRESIDING OFFICER. The bill having been read the third time, the question is on passage of the bill, as amended.

The majority leader.

Mr. REID. Mr. President, this will be the last vote of the night, and we will then work on these issues as soon as we can. The sooner we get the stuff from the House, the sooner we can wrap up, and Senator KOHL will be here to begin work on the agricultural bill. So we should have a full load tomorrow.

Mr. DORGAN. Mr. President, I ask for the yeas and nays.

The PRESIDING OFFICER. Is there a sufficient second? There appears to be. The clerk will call the roll.

The legislative clerk called the roll.

Mr. DURBIN. I announce that the Senator from West Virginia (Mr. BYRD), the Senator from Massachusetts (Mr. KENNEDY), the Senator from Connecticut (Mr. LIEBERMAN), the Senator from New Jersey (Mr. MENENDEZ), and the Senator from Maryland (Ms. MIKULSKI) are necessarily absent.

Mr. KYL. The following Senator is necessarily absent: the Senator from Florida (Mr. MARTINEZ).

The PRESIDING OFFICER. Are there any other Senators in the Chamber desiring to vote?

The result was announced—yeas 85, nays 9, as follows:

[Rollcall Vote No. 248 Leg.]

YEAS—85

Akaka	Enzi	Nelson (NE)
Alexander	Feingold	Nelson (FL)
Barrasso	Feinstein	Pryor
Baucus	Franken	Reed
Bayh	Gillibrand	Reid
Begich	Graham	Risch
Bennet	Grassley	Roberts
Bennett	Gregg	Rockefeller
Bingaman	Hagan	Sanders
Bond	Harkin	Schumer
Boxer	Hatch	Sessions
Brown	Hutchison	Shaheen
Brownback	Inouye	Shelby
Bunning	Johanns	Snowe
Burr	Johnson	Specter
Burris	Kaufman	Stabenow
Cantwell	Kerry	Tester
Cardin	Klobuchar	Thune
Carper	Kohl	Udall (CO)
Casey	Landrieu	Udall (NM)
Cochran	Lautenberg	Vitter
Collins	Leahy	Voinovich
Conrad	Levin	Warner
Corker	Lincoln	Webb
Cornyn	Lugar	Whitehouse
Crapo	McConnell	Wicker
Dodd	Merkley	Wyden
Dorgan	Murkowski	
Durbin	Murray	

NAYS—9

Chambliss	Ensign	Kyl
Coburn	Inhofe	McCain
DeMint	Isakson	McCaskill

NOT VOTING—6

Byrd	Lieberman	Menendez
Kennedy	Martinez	Mikulski

The bill (H.R. 3183), as amended, was passed, as follows:

(The bill will be printed in a future edition of the RECORD.)

The PRESIDING OFFICER. Under the previous order, the Senate insists

on its amendment and requests a conference with the House, and the Chair is authorized to appoint the following conferees.

The Presiding Officer appointed Mr. DORGAN, Mr. BYRD, Mrs. MURRAY, Mrs. FEINSTEIN, Mr. JOHNSON, Ms. LANDRIEU, Mr. REED, Mr. LAUTENBERG, Mr. HARKIN, Mr. TESTER, Mr. INOUE, Mr. BENNETT of Utah, Mr. COCHRAN, Mr. MCCONNELL, Mr. BOND, Mrs. HUTCHISON, Mr. SHELBY, Mr. ALEXANDER, and Mr. VOINOVICH conferees on the part of the Senate.

• Mr. LIEBERMAN. Mr. President, I was unable to participate in the roll-call vote on final passage of H.R. 3183, as amended, the Energy and Water Development and Related Agencies Appropriations Act. Had I been present, I would have voted yea in support of the bill.

I would like to commend the chairman of the subcommittee, Senator DORGAN, and the ranking member, Senator BENNETT, for their bipartisan work on this important bill that will fund energy and conservation programs that are critical for my State of Connecticut and the rest of the country. •

The PRESIDING OFFICER. The Senator from Ohio is recognized.

HEALTH CARE REFORM

Mr. BROWN. Mr. President, I rise this evening before we adjourn to share some letters I have received from constituents of mine in Ohio. I represent the Buckeye State in this body.

I have received probably hundreds of letters similar to the ones I am going to read, and thousands of calls and e-mails and faxes and visits from people asking that we move forward on health insurance legislation, that we do not let special interest groups slow us down, that we do not let people who want to see this fail get in the way of its passage.

I wanted to share some of these letters, because in this body, we talk about exclusivity periods, we talk about the public option, we talk about the exchange, the gateway, employer mandates, all of those things that matter to us. They are public policy; they are important. But we do not talk enough about individuals about people in Juneau or Fairbanks, in the Presiding Officer's State, about what people in Galion, in Mansfield and Bucyrus and Crestline, and Findlay and Zanesville in my State think.

I want to share a handful of these letters I received in the last few days from people in my State.

I will start with Brenton from Franklin County. That is the Columbus area in Central Ohio:

My health care story is similar to that of many young people across the country. I am 26, healthy, college-educated. I have a full-time job. But even with these advantages I'm unable to afford health care coverage without significant help from my parents.

After graduating college 3 years ago, I took a part time job and went without

health coverage for about a year. Unfortunately, I came down with a case of strep throat and put off going to a doctor for several weeks until it became severe.

Obviously, he did not have insurance. It was expensive.

When I finally sought medical attention, my case of strep proved to be drug resistant and I had to pay for several hundred dollars in different medications. I lost my job due to medical absence before I returned to good health.

After this scare, I found a full-time job with health coverage, but I still need help from my parents to cover the high premiums. I realize I am fortunate to be healthy and insured when compared to many Americans.

But it's a shame that in a country as great as ours that there could be any question as to whether a young able-bodied man, such as myself, should feel secure in his future if presented with even a minor illness.

Think about that. This is a young man who, because he did not have insurance, even though he worked full time, was playing by the rules, could not get insurance. He gets sick. He puts off going to the doctor. It ends up costing him out of pocket in the health care system a whole lot more money. He lost his job because he missed work.

If we had our health care bill in place, the legislation that passed out of the HELP Committee, if we had that bill in place, a bill that protects what works in the system and fixes what is wrong, then Brenton would still hold his job and would be in a much better position.

Richard from Youngstown in northeast Ohio is near the Pennsylvania border. Youngstown, I might add, was voted in Entrepreneur Magazine recently as one of the 10 best places in America to start a business.

Richard writes:

I ascribe my good health to regular preventive care efforts to stay healthy: no smoking, regular exercise, weight control. But five years ago, I had surgery for early stage prostate cancer.

Fortunately, I am still cancer free. The surgery itself was a miracle of modern medicine . . . and I've enjoyed similar high standards of care from my doctors' vigilance.

Three years ago, at the age of 61, I hiked through the Appalachian Trail as well as the Pacific Crest Trail. More recently I passed my recent physical with flying colors.

Imagine my consternation when my insurance company told me the reason my premium had been raised 30 percent was because I was "in such poor health"!

The insurance company wrote that my premiums increased because I had moved up into a different age bracket and because of my cancer history. They said for me to wait until the 5 year anniversary of my cancer to shop around for a different plan.

In the past, I wouldn't hesitate to visit my doctor or a specialist to manage my care.

Now, I'm among the under-insured. As a retiree whose retirement savings has been devastated, I have to face living on a reduced income.

Now, I might put off that doctor visit.

That's why I'm so strongly in favor of a public alternative to the existing for-profit insurance companies in the health care re-

form legislation currently making its way through Congress.

Under our legislation, there would be no longer the discrimination of pre-existing condition, of cutting off people when they got their insurance. There would be no copays for preventive care, all the kinds of things that Richard talks about that were lacking in his health care plan when he had insurance are dealt with and will simply not happen in the health insurance bill passed out of our committee.

Next is Marcia from Cuyahoga County, which is Cleveland. Cleveland has become a center for alternative energy in our State. In the next couple years, there will likely be a field of wind turbines in Lake Erie, the first time that has been done anywhere in the world in freshwater. There are a lot of things going on in Cleveland that work for our State and country.

Marcia writes:

I am a 56 year old continuously insured professional female, but currently unemployed.

Since my last job, each year my health insurance has skyrocketed.

With each of these premium increases, the coverage decreases, while co-pays and more deductibles go higher and higher.

It is a slippery slope.

Last year my health insurance had a triple increase in three months, which is equal to almost 1 week of my extended unemployment.

I was on a COBRA for 18 months. Then I had to find my own private health insurance.

That allows one to buy insurance after they lose their job. But they have to pay their own premiums and they have to pay their employer premium which very few people can afford once they have lost their jobs.

Marcia continues:

I applied to 5 companies and was rejected by 4 of them.

One rejection occurred before I even filled out the application.

The application forms are so complex and time consuming to recount one's entire life's medical care.

The one company that accepted me charged a 50 percent markup due to my prior conditions. Note, I had no major diseases but a few treated conditions.

I now realize that anyone with an illness is uninsurable.

One of the most important things to realize about this health insurance legislation is not just that it provides insurance for those who are uninsured or that it will assist those who are under-insured get better insurance. It also helps those who now have insurance. It allows them to keep the insurance they have, if they are satisfied. It also says we will have consumer protections built in so insurance companies no longer are allowed to deny you care because of preexisting conditions or allowed to game the community rating system, no longer allowed to deny care for a whole host of reasons that insurance companies do now. These consumer protections will help people who are newly insured and people who are

now underinsured, as we provide more insurance, and it will help those people—these consumer protections will be built into existing insurance policies that people have today—who are generally satisfied with their insurance. They are satisfied now until they have a major claim where the insurance companies might discontinue their care and might cut them off. Under our plan, the insurance companies would not be able to do that.

My last letter is from Justin from Cincinnati. That is in southwest Ohio along the Ohio River.

Justin writes:

I am a 25-year-old software tester with a wife and two daughters that rely on my income.

I've seen my health insurance costs more than double over the last year.

This is more than my mortgage, and it is absolutely crippling.

I've been living on advances trying to make ends meet.

Please fight for me; all I can do is plead and hope that you listen.

If that doesn't remind us how important this work on providing health insurance reform is to the people of this Nation.

Justin continues:

It drives me crazy that I pay so much a month to a company that takes my money and then uses it to try to defeat legislation that will help ease my financial burden.

He has read in the paper or seen on the Internet or heard on the radio or watched on channel 9 or channel 12, he has heard about lobbyists spending \$1 million a day to lobby the House and the Senate, pharmaceutical company lobbyists, health insurance lobbyists, to weaken this bill. He resents that he is paying these companies for his insurance and prescription drugs to pay the lobbyists to lobby Congress to weaken what we ought to be doing right for Justin and so many others.

Justin concludes:

Please take a stand for me and Americans that say we need a public option. This is literally a matter of life and death for many people.

It can't fail this time, we can't afford for it to.

Justin referred to the public option. There have been a lot of things said about the public option, most of them not true. The public option is a program that will be a government option, a government insurance policy, a choice provided by the Federal Government giving people the option. You can choose Aetna, a mutual company such as Medical Mutual in Ohio or Blue Cross or you can choose to go on the public option. The public option will have lower administrative costs. The public option will keep the insurance companies honest because we know what insurance companies do when they discontinue care, when they discriminate against people because of preexisting conditions. The public option also will save money because of

competition. The public option simply makes sense.

I support strongly a public option. Senator WHITEHOUSE and I wrote the public option in the HELP Committee bill that passed. We wrote that public option because we believe in good old-fashioned American competition. I want the insurance companies to compete. I want the public option to compete. We are going to get a better public option because of private competition, and we will get better private insurance because of public option competition. It is as simple as that. It is not a big government program. It simply says: Let's inject competition into the system so we get better health insurance.

There are a lot of accusations and untruths thrown around by opponents, the same people who tried to stop the creation of Medicare years ago and the same people who tried to privatize Medicare a few years ago. We know this bill protects what works and will fix what is wrong. We will all be better off as a result.

I yield the floor and suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. BROWN. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

MORNING BUSINESS

Mr. BROWN. Mr. President, I ask unanimous consent that the Senate proceed to a period of morning business, with Senators permitted to speak for up to 10 minutes each.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. KYL. Mr. President, I ask unanimous consent that an article by Martin Feldstein, "Obama's Plan Isn't the Answer" printed in the Washington Post, Tuesday, July 28, 2009, printed in the RECORD.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

[From the Washington Post, July 28, 2009]

OBAMA'S PLAN ISN'T THE ANSWER

(By Martin Feldstein)

For the 85 percent of Americans who already have health insurance, the Obama health plan is bad news. It means higher taxes, less health care and no protection if they lose their current insurance because of unemployment or early retirement.

President Obama's primary goal is to extend formal health insurance to those low-income individuals who are currently uninsured despite the nearly \$300-billion-a-year Medicaid program. Doing so the Obama way would cost more than \$1 trillion over the next 10 years. There surely must be better and less costly ways to improve the health and health care of that low-income group.

Although the president claims he can finance the enormous increase in costs by raising taxes only on high-income individuals, tax experts know that this won't work. Experience shows that raising the top income-tax rate from 35 percent today to more than 45 percent—the effect of adding the proposed health surcharge to the increase resulting from letting the Bush tax cuts expire for high-income taxpayers—would change the behavior of high-income individuals in ways that would shrink their taxable incomes and therefore produce less revenue. The result would be larger deficits and higher taxes on the middle class. Because of the unprecedented deficits forecast for the next decade, this is definitely not a time to start a major new spending program.

A second key goal of the Obama health plan is to slow the growth of health-care spending. The president's budget calls explicitly for cutting Medicare to help pay for the expanded benefits for low-income individuals. But the administration's goal is bigger than that. It is to cut dramatically the amount of health care that we all consume.

A recent report by the White House Council of Economic Advisers claims that the government can cut the projected level of health spending by 15 percent over the next decade and by 30 percent over the next 20 years. Although the reduced spending would result from fewer services rather than lower payments to providers, we are told that this can be done without lowering the quality of care or diminishing our health. I don't believe it.

To support their claim that costs can be radically reduced without adverse effects, the health planners point to the fact that about half of all hospital costs are for patients in the last year of life. I don't find that persuasive. Do doctors really know which of their very ill patients will benefit from expensive care and which will die regardless of the care they receive? In a world of uncertainty, many of us will want to hope that care will help.

We are also often told that patients in Minnesota receive many fewer dollars of care per capita than patients in New York and California without adverse health effects. When I hear that, I wonder whether we should cut back on care, as these experts advocate, move to Minnesota, or wish we had the genetic stock of Minnesotans.

The administration's health planners believe that the new "cost effectiveness research" will allow officials to eliminate wasteful spending by defining the "appropriate" care that will be paid for by the government and by private insurance. Such a constrained, one-size-fits-all form of medicine may be necessary in some European health programs in which the government pays all the bills. But Americans have shown that we prefer to retain a diversity of options and the ability to choose among doctors, hospitals and standards of care.

At a time when medical science offers the hope of major improvements in the treatment of a wide range of dread diseases, should Washington be limiting the available care and, in the process, discouraging medical researchers from developing new procedures and products? Although health care is much more expensive than it was 30 years ago, who today would settle for the health care of the 1970s?

Obama has said that he would favor a British-style "single payer" system in which the government owns the hospitals and the doctors are salaried but that he recognizes that such a shift would be too disruptive to the

health-care industry. The Obama plan to have a government insurance provider that can undercut the premiums charged by private insurers would undoubtedly speed the arrival of such a single-payer plan. It is hard to think of any other reason for the administration to want a government insurer when there is already a very competitive private insurance market that could be made more so by removing government restrictions on interstate competition.

There is much that can be done to improve our health-care system, but the Obama plan is not the way to do it. One helpful change that could be made right away is fixing the COBRA system so that middle-income households that lose their insurance because of early retirement or a permanent layoff are not deterred by the cost of continuing their previous coverage.

Now that congressional leaders have made it clear that Obama will not see health legislation until at least the end of the year, the president should look beyond health policy and turn his attention to the problems that are impeding our economic recovery.

FURTHER CHANGES TO S. CON.
RES. 13

Mr. CONRAD. Mr. President, section 401(c)(4) of S. Con. Res. 13, the 2010 budget resolution, permits the chairman of the Senate Budget Committee to adjust the section 401(b) discretionary spending limits, allocations pursuant to section 302(a) of the Congressional Budget Act of 1974, and aggregates for legislation making appropriations for fiscal years 2009 and 2010 for overseas deployments and other activities by the amounts provided in

such legislation for those purposes and so designated pursuant to section 401(c)(4). The adjustment is limited to the total amount of budget authority specified in section 104(21) of S. Con. Res. 13. For 2009, that limitation is \$90.745 billion, and for 2010, it is \$130 billion.

On June 25, 2009, the Senate Appropriations Committee reported H.R. 2847, the Commerce, Justice, Science, and Related Agencies Appropriations Act, 2010, with an amendment in the nature of a substitute. The reported legislation contains \$126 million in funding that has been designated for overseas deployments and other activities pursuant to section 401(c)(4). The Congressional Budget Office estimates that the \$126 million in budget authority will result in \$104 million in new outlays in 2010. As a result, I am revising both the discretionary spending limits and the allocation to the Senate Committee on Appropriations for discretionary budget authority and outlays by those amounts in 2010. When combined with previous adjustments made pursuant to section 401(c)(4), \$379 million has been designated so far for overseas deployments and other activities for 2010.

In addition, section 401(c)(2)(B) of the 2010 budget resolution permits the chairman to adjust the section 401(b) discretionary spending limits, allocations pursuant to section 302(a) of the Congressional Budget Act of 1974 and aggregates for legislation making ap-

propriations for fiscal year 2010 that both appropriates \$7.1 billion and provides an additional appropriation of up to \$890 million to the Internal Revenue Service for enhanced tax enforcement to address the tax gap, the difference between the amount of taxes owed and the amount of taxes paid.

On July 9, 2009, the Senate Appropriations Committee reported S. 1432, the financial services and general government appropriations Bill, 2010. The reported bill contains \$890 million in funding that satisfies the conditions of section 401(c)(2)(B). The Congressional Budget Office estimates that the \$890 million in budget authority will result in \$837 million in new outlays in 2010. As a result, I am revising both the discretionary spending limits and the allocation to the Senate Committee on Appropriations for discretionary budget authority and outlays by those amounts in 2010.

When combining the effects of the two adjustments, I am revising today both the discretionary spending limits and the allocation to the Senate Committee on Appropriations by a total of \$1,016 million for budget authority and \$941 million for outlays.

I ask unanimous consent to have the following revisions to S. Con. Res. 13 printed in the RECORD.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

CONCURRENT RESOLUTION ON THE BUDGET FOR FISCAL YEAR 2010—S. CON. RES. 13; FURTHER REVISIONS TO THE CONFERENCE AGREEMENT PURSUANT TO SECTIONS 401(c)(4) AND 401(c)(2)(B) TO THE ALLOCATION OF BUDGET AUTHORITY AND OUTLAYS TO THE SENATE APPROPRIATIONS COMMITTEE AND THE SECTION 401(b) SENATE DISCRETIONARY SPENDING LIMITS

	In millions of dollars	Current Allocation/ Limit	Adjustment	Revised Allocation/Limit
FY 2009 Discretionary Budget Authority		1,482,201	0	1,482,201
FY 2009 Discretionary Outlays		1,247,872	0	1,247,872
FY 2010 Discretionary Budget Authority		1,086,269	1,016	1,087,285
FY 2010 Discretionary Outlays		1,306,259	941	1,307,200

WASP CONGRESSIONAL GOLD
MEDAL

Mr. DODD. Mr. President, as chairman of the Committee on Banking, Housing, and Urban Affairs, it is the responsibility of my committee colleagues and I to oversee and consider legislation to award Congressional Gold Medals to prospective candidates deemed worthy of the honor. Indeed, it is the highest honor that Congress can bestow on an individual or group, and as such, my committee has to ensure that these bills garner broad bipartisan support in the form of two-thirds co-sponsorship in the Senate before they can receive full consideration. This year, I am pleased that a bill to award a Congressional Gold Medal to the Women Airforce Service Pilots, or WASP, secured my committee's ap-

proval and passed the Senate unanimously on May 20, 2009.

This bill, authored by Senators HUTCHISON and MIKULSKI, recognizes the brave actions of more than a thousand women who served our country so courageously during World War II. Their patriotism and sacrifice were essential to our war effort. Quite simply, they were responsible for transporting critical military aircraft throughout the United States. Ferrying over 12,000 aircraft, of nearly 80 different types, these groundbreaking women operated war machines, from the fabled B-29 Superfortress to the lethal P-51 Mustang fighter. The purpose of their missions was to prepare these aircraft for combat and ensure their readiness.

The WASPs were so effective that they logged over 50 percent of these kinds of missions for our Nation, flying more than 60 million miles over the

course of the war. Their likes included Jacqueline Cochran, one of the greatest female pilots of all time, who was chosen to be the director of the WASPs flight training. Jacqueline set the women's U.S. high altitude and international speed records and was also the winner of the coveted Bendix trophy in 1938. During the famous air race, she earned an epic victory flying from Los Angeles to Cleveland in just over 8 hours. Jacqueline was further commended for her service during the war when she was awarded the Distinguished Service Medal, the highest decoration she could have received from the military without being recognized as an Active-Duty servicemember. When the war ended, Jacqueline's passion for flying would drive her to set new aviation records, becoming the first female pilot to fly a bomber across the Atlantic. Additionally, six

WASPs are still living in my home State of Connecticut. One of them, Gloria Heath, flew a dangerous mission as a B-26 bomber pilot, flying at 6,000 feet while towing a banner that fighter pilots would use for target practice during live fire exercises. Now Gloria is nationally recognized as a leader in aviation safety, having served as a founding board member of the Flight Safety Foundation. She also established an international safety information dissemination service to provide a unified, global response to emergencies on the land, in the air, and on the sea. Her pioneering efforts to ensure the safety of pilots and travelers all over the world have undoubtedly saved lives. Throughout her endeavors, Gloria never lost sight of her lifelong commitment to flying. She would become the director of summer aviation programs at Connecticut College, helping young students discover their passion for flight, just as she did half a decade before.

But these women did more than just serve our country; they were also pioneers for women's rights. They will forever have the honor of being the first female aviators in American military history, serving as the forerunners to women's equality in the Armed Forces. In doing so, they paved the way for women's rights in the military and other workforces across the country. And although much still remains to be done to eradicate gender discrimination, women military combat pilots are now flying alongside their brothers in arms a true testament to the barriers broken down by the WASPs more than six decades ago.

These women often faced scorn and ridicule, but they refused to back down in their conviction that they could fly as proficiently as men. Ultimately, they were proven right and demonstrated that success should be measured in terms of merit and talent, not by gender.

Therefore it is with great pride and honor, Mr. President, that I support this bill. I commend Senators HUTCHISON and MIKULSKI for all their hard work and join them in their gratitude for the pioneering women of the WASP program.

INSPECTORS GENERAL

Mr. GRASSLEY. Mr. President, I, Senator CHUCK GRASSLEY, intend to object to the proceeding to H.R. 885, the Improved Financial and Commodity Markets Oversight and Accountability Act, and a similar Senate bill, S. 1354, dated July 29, 2009, for the following reasons."

I object to provisions regarding inspectors general in H.R. 885, and a similar Senate bill, S. 1354, based on my reading of the language in the Improved Financial and Commodity Markets Oversight and Accountability Act.

The act is intended to require Presidential appointments and Senate confirmation for the following five inspectors general: Commodity Futures Trading Commission, CFTC; the National Credit Union Administration, NCUA; the Pension Benefit Guaranty Corporation, PBGC; the Board of Governors of the Federal Reserve System, FRB; and the Securities and Exchange Commission.

In essence, the act will change dramatically the historical and longstanding classification of these five organizations from "designated federal entities" DFE, under the original Inspector General Act of 1978, to Presidential appointees.

These IGs, who are all nonpartisan civil servants, oppose H.R. 885. I have come to agree with their conclusion that the act will neither improve the independence of the five IGs nor enhance their accountability to the American people. Requiring that these five IGs be made Presidential appointees introduces the potential for partisan politics where none currently exists. This is especially true because we have an administration that is not even a year old and three IGs have already been dismissed. I have not yet seen a consistent policy reason articulated for treating these five IGs differently from other DFE IGs. If Congress wants to increase the independence and accountability of all inspectors general, there are numerous, more effective ways of doing so, and I would be eager to work toward that common goal. However, this legislation has not had a full and, complete hearing in the Senate, targets only five of the DFE inspectors general for reasons that are unclear, and does not appear to achieve its stated purpose.

NATIONAL DEFENSE AUTHORIZATION ACT

Mr. KERRY. Mr. President, I thank Senator KYL and Senator LEVIN for working out a second-degree amendment last week to Senator KYL's earlier amendment, No. 1760, to the National Defense Authorization Act relating to the post-START agreement that the United States is negotiating with the Russian Federation. In my view, the earlier amendment—and section 1239 of the House version of the NDAA, on which that amendment was based—would have undermined the constitutional role of the Senate as the body that considers treaties, as well as the President's role in negotiating treaties. The Senate decided wisely not to adopt the House approach of trying to bar U.S. compliance with a treaty before the treaty has even been negotiated. The substitute amendment we adopted last week was a good result.

The bill approved by the Senate, as amended by Senator KYL's modified amendment, would require the Presi-

dent to report to the Congress on his plan to enhance the safety, security and reliability of the U.S. nuclear weapons stockpile, to modernize the nuclear weapons complex, and to maintain the delivery platforms. I would encourage the administration to see that requirement not as a burden, but as an opportunity. If U.S. ratification of the Comprehensive Nuclear Test-Ban Treaty is to be approved by the Senate, Members will have to be convinced that the executive branch is prepared to sustain our nuclear deterrence by maintaining a stockpile of safe, secure, and reliable nuclear weapons, without resorting to nuclear testing. This report requirement underscores that concern and the need to address it forthrightly.

I believe that this administration has the will to maintain our nuclear stockpile, and the successes of stockpile stewardship over the last decade have been greater than even its proponents predicted when we last considered CTBT. The report required by this amendment would offer an opportunity to explain to the Senate how far we have come, where we are going next, and how we will fund stockpile stewardship to ensure that we will sustain our deterrent posture even as the United States works with other countries to reduce the numbers and importance of these weapons worldwide. It may be only a preliminary report, if the National Defense Authorization Act is enacted well before the Nuclear Posture Review and the President's fiscal year 2011 budget request are completed, but it will still be an opportunity to educate the Senate.

The Kyl amendment as modified also states that the Senate urges the President to maintain his position that the post-START agreement will not contain limitations on ballistic missile defense systems, space capabilities, or advanced conventional weapons systems of the United States. I am absolutely confident, based on the Obama-Medvedev statements of April 1 and July 6, 2009, that their instructions to negotiators are not to include such limitations in the agreement.

For example, there will be "a provision on the interrelationship of strategic offensive and strategic defensive arms," but "a provision" does not mean a limitation on U.S. missile defense or space capabilities. Similarly, the existing START Treaty has "a provision" regarding antiballistic missile systems but does not limit those systems.

Regarding the Senate's desire to avoid limitations on "advanced conventional weapons," I would just emphasize that the adoption of this substitute amendment is not intended to be a backdoor way to oppose limitations on strategic delivery vehicles.

In short, I believe that the Kyl substitute amendment adopted last week

should do no harm and that the administration can use it to begin the process of educating the Senate on a matter we will have to address in any event. Again, I commend Senators KYL and LEVIN for reaching this result.

NOMINATION OF THOMAS A. SHANNON, JR.

Mr. GRASSLEY. Mr. President, I want to note for the record that I will object to any unanimous consent request relating to the nomination of Thomas A. Shannon Jr., to be Ambassador to Brazil. On July 28, I wrote a letter to Secretary of State Hillary Clinton and U.S. Trade Representative Ron Kirk asking for a clarification of the President's position regarding the U.S. ethanol tariff in light of Mr. Shannon's stated view on the tariff. I will continue to object to any unanimous consent request proffered with respect to Mr. Shannon's nomination until such time as the administration responds to my letter and I have an opportunity to review such response.

OIL SPILL PREVENTION ACT

Mr. LAUTENBERG. Mr. President, the managers' amendment to S. 685, the Oil Spill Prevention Act, will eliminate the authorization of appropriations from the international seafarer protection provision, reduce a bi-annual Coast Guard reporting requirement to an annual reporting requirement, and remove an annual Coast Guard reporting requirement that is no longer necessary or appropriate. These modifications to the committee-reported bill render it revenue neutral.

CONGRATULATING JOHN LECLAIR

Mr. LEAHY. Mr. President, I wish to congratulate St. Albans VT, native John LeClair for being chosen as a 2009 inductee into the U.S. Hockey Hall of Fame.

John LeClair had a remarkable amateur and professional hockey career. The first American-born player to record three consecutive 50-goal seasons in the National Hockey League, LeClair played 16 years in the NHL—with stops in Montreal, Philadelphia, and Pittsburgh—and he helped the Montreal Canadiens capture the Stanley Cup in 1993. He registered 406 goals and 413 assists for 819 points in 967 career games, which ranks him 13th on the NHL's alltime points list among American-born players. LeClair also was a 2-time Olympian, where he netted 34 career points, 22–12, 31 games in a Team USA uniform.

Most hockey fans remember LeClair for his dramatic two game-winning goals in overtime during the 1993 Stanley Cup Finals, for being a member of the dreaded "Legion of Doom" line

with the Philadelphia Flyers, and for leading Team USA to a Silver Medal in the 2002 Winter Olympics.

Vermonters, though, go further back with their native son. After his high school graduation from Bellows Free Academy in St. Albans, the Montreal Canadiens drafted LeClair with the 33rd pick in the 1987 entry draft. Instead of immediately going to the NHL, LeClair chose to attend the University of Vermont, where he thrilled Catamount fans for four, exciting seasons. Less than a week after playing his final collegiate game, LeClair signed with Montreal and hit the ice with the Canadiens right away.

While LeClair quickly went on to stardom and fame in the NHL, he always enjoyed a loyal following back home. Many Vermonters are naturally Canadiens fans because Montreal is so close to Vermont, but it was amazing to see how many people converted to Flyer fans when LeClair moved to Philadelphia and Penguin fans when he moved to Pittsburgh. I remember that no matter whether it was hockey season or not, it seemed like you couldn't walk down the street in St. Albans or Burlington or Rutland without seeing someone wearing some sort of Flyers paraphernalia, which stood out because of the team's distinguishing orange and black colors.

Once again, I congratulate John LeClair on this high honor of being selected as a member of the U.S. Hockey Hall of Fame. I ask unanimous consent to have a copy of a July 29 article from the Burlington Free Press printed in the RECORD.

The material was ordered to be printed in the RECORD, as follows:

[From the Burlington Free Press, July 29, 2009]

LECLAIR TO ENTER U.S. HOCKEY HALL OF FAME—ST. ALBANS NATIVE IS AMONG CLASS OF '09

COLORADO SPRINGS, COLO.—Former University of Vermont and NHL star John LeClair of St. Albans, Vt., will be inducted into the United States Hockey Hall of Fame.

USA hockey's 2009 class was announced Tuesday, and it also includes former NHL players Tony Amonte and Tom Barrasso, the 1998 U.S. Olympic women's team and the late Frank Zamboni, inventor of the storied ice resurfacing machine.

The date of the induction ceremony will be announced in August.

During an NHL career that included five seasons with the Montreal Canadiens, 10 with the Philadelphia Flyers and two as a Pittsburgh Penguin, LeClair registered 406 goals and 413 assists for 819 points in 967 career games.

The winger helped Montreal win the Stanley Cup in 1993, was the first American-born player with three straight 50-goal seasons from 1995 to 1998, and was on USA's silver-medal team at the 2002 Olympics in Salt Lake City.

LeClair is also a member of UVM's Hall of Fame. He netted 56 goals and 60 assists in four years as a Catamount.

Amonte scored the winning goal against Canada in the deciding game of the first World Cup of Hockey in 1996.

Barrasso won two Stanley Cups as a goalie for the Pittsburgh Penguins.

The 1998 U.S. Olympic Women's team won the gold medal at the Winter Games in Nagano, Japan.

ADDITIONAL STATEMENTS

75TH BIRTHDAY OF REUBEN K. HARPOLE, JR.

• Mr. KOHL. Mr. President, today I honor Reuben K. Harpole, Jr.—a man who has changed countless lives in Wisconsin through his selfless devotion to helping people.

Reuben developed an entrepreneurial spirit growing up in Milwaukee. His family worked at the family grocery store, sold their home-raised chickens in the front yard, and rented out bicycles. This work ethic went with him throughout his life. He went on to serve our Nation in Korea from 1957 to 1959. Then he came back home, earned his bachelor's degree, and began his professional life as a teacher and community activist.

With 31 years service to University of Wisconsin-Milwaukee and continued community activism, Reuben helped mold the future of Wisconsin. In the 1960s Reuben began working to direct youth away from gangs into fruitful career paths. When central Milwaukee's health services were shutting down in the 1970s, Reuben worked with local, county, and university officials to reinstate much needed assistance. He helped establish the Isaac Coggs Health Center and a coalition of neighborhood health organizations. Reuben also founded or developed the College Prep Program at Marquette University High School, the UWM Center for Urban Community Development, the Harambee Ombudsman Program, and the Children's Performing Arts Group that has evolved into the renowned Ko Thi Dance Company.

Reuben has also been an outstanding advocate for our African-American community in Milwaukee. He has written forewords for several books about African-American history in Milwaukee. He voluntarily conducts tours of Black Milwaukee, which brings a real-life perspective to his work in African-American history. A multitude of African-American programs and organizations are indebted to his service including the NTU African Rites of Passage Program, the Asentu Adult Rites of Passage Institute, the Black Holocaust Museum, and the Milwaukee 100 Black Men Group. In fact, it was on Reuben's invitation to a gathering that I met with Martin Luther King, Jr., during one of his few visits to Milwaukee many years ago.

Even after retirement, he continues to be a great leader in the community. Most notably, he joined the Helen Bader Foundation. Through this he is able to help programs and centers secure the funds they need to function

and more successfully serve the community.

The work he has done for Milwaukee continues to grow as the many people he has inspired are starting to follow in his footsteps. I would like to specifically note the Volunteer Reading Tutoring Program at the UWM Reading Clinic. A truly great person is one who not only does great works but also inspires others to do so as well.

I am proud to call Reuben a fellow Wisconsinite and a dear friend. I wish him and his lovely wife Mildred good health, happiness, and many more years to come.●

CONGRATULATING EILEEN COLLINS

● Mrs. GILLIBRAND. Mr. President, I would like to add to the RECORD my most heartfelt congratulations to Eileen Collins for her recent induction into the National Aviation Hall of Fame. As an Elmira, NY, native, Eileen is the first female pilot and commander of a NASA shuttle. She has orbited the Earth 573 times. As a child, Eileen was inspired to be a pilot by watching the planes over the Elmira-Corning Regional Airport and the Harris Hill glider field. She joined the Air Force in 1978 and was recruited to join NASA as one of its earliest female pilots in 1990. The communities of New York's Southern Tier are so proud of Eileen's historic achievements.

As the first female pilot and shuttle commander, Eileen Collins is an inspiration and true role model to girls and young women nationwide. Her achievements prove that women everywhere can, and should, reach for the stars.●

CONGRATULATING ABBY WAMBACH

● Mrs. GILLIBRAND. Mr. President, I would like to add to the RECORD my most heartfelt congratulations to Abby Wambach for her history making 100th goal. This achievement is only the fifth in women's USA soccer history that 100 goals have been scored by one player. As this goal is felt throughout the USA and worldwide soccer community, I especially want to recognize how much Abby and her remarkable achievement mean to the Rochester community. As seen by the cheering in her game on July 19, there is no more fitting place to achieve this momentous goal and Rochester could not be prouder.

Abby Wambach has made a lasting impression on the women's USA soccer team and has inspired generations of young women throughout New York and the Nation. She has helped her team win Olympic gold in Athens and countless World Cup matches. I applaud her tremendous achievement and it is my hope that her accomplishment will inspire countless generations of our youth to strive for excellence.●

MESSAGES FROM THE PRESIDENT

Messages from the President of the United States were communicated to the Senate by Mr. Williams, one of his secretaries.

EXECUTIVE MESSAGES REFERRED

As in executive session the Presiding Officer laid before the Senate messages from the President of the United States submitting sundry nominations which were referred to the appropriate committees.

(The nominations received today are printed at the end of the Senate proceedings.)

MESSAGES FROM THE HOUSE

At 12:38 p.m., a message from the House of Representatives, delivered by Mrs. Cole, one of its reading clerks, announced that the House has passed the following bills and joint resolution:

H.R. 509. An act to reauthorize the Marine Turtle Conservation Act of 2004, and for other purposes.

H.R. 556. An act to establish a program of research, recovery, and other activities to provide for the recovery of the southern sea otter.

H.R. 1035. An act to amend the Morris K. Udall Scholarship and Excellence in National Environmental and Native American Public Policy Act of 1992 to honor the legacy of Stewart L. Udall, and for other purposes.

H.R. 1293. An act to amend title 38, United States Code, to provide for an increase in the amount payable by the Secretary of Veterans Affairs to veterans for improvements and structural alterations furnished as part of home health services.

H.R. 1803. An act to amend the Small Business Act to establish a Veterans Business Center program, and for other purposes.

H.R. 1807. An act to provide distance learning to potential and existing entrepreneurs, and for other purposes.

H.R. 3325. An act to amend title XI of the Social Security Act to reauthorize for 1 year the Work Incentives Planning and Assistance program and the Protection and Advocacy for Beneficiaries of Social Security program.

H.J. Res. 44. Joint Resolution recognizing the service, sacrifice, honor, and professionalism of the Noncommissioned Officers of the United States Army.

At 2:25 p.m., a message from the House of Representatives, delivered by Ms. Niland, one of its reading clerks, announced that the House has passed the following act, without amendment:

S. 1513. An act to provide for an additional temporary extension of programs under the Small Business Act and the Small Business Investment Act of 1958, and for other purposes.

MEASURES REFERRED

The following bills and joint resolution were read the first and the second times by unanimous consent, and referred as indicated:

H.R. 509. An act to reauthorize the Marine Turtle Conservation Act of 2004, and for

other purposes; to the Committee on Environment and Public Works.

H.R. 556. An act to establish a program of research, recovery, and other activities to provide for the recovery of the southern sea otter; to the Committee on Commerce, Science, and Transportation.

H.R. 1293. An act to amend title 38, United States Code, to provide for an increase in the amount payable by the Secretary of Veterans Affairs to veterans for improvements and structural alterations furnished as part of home health services; to the Committee on Veterans' Affairs.

H.R. 1803. An act to amend the Small Business Act to establish a Veterans Business Center program, and for other purposes; to the Committee on Small Business and Entrepreneurship.

H.R. 1807. An act to provide distance learning to potential and existing entrepreneurs, and for other purposes; to the Committee on Small Business and Entrepreneurship.

H.R. 3325. An act to amend title XI of the Social Security Act to reauthorize for 1 year the Work Incentives Planning and Assistance program and the Protection and Advocacy for Beneficiaries of Social Security program; to the Committee on Finance.

H.J. Res. 44. Joint resolution recognizing the service, sacrifice, honor, and professionalism of the Noncommissioned Officers of the United States Army; to the Committee on Armed Services.

EXECUTIVE AND OTHER COMMUNICATIONS

The following communications were laid before the Senate, together with accompanying papers, reports, and documents, and were referred as indicated:

EC-2505. A communication from the Assistant Secretary, Bureau of Legislative Affairs, Department of State, transmitting, pursuant to the Arms Export Control Act, the certification of a proposed technical assistance agreement to include the export of technical data, defense services, and defense articles to Israel for equipment installation and support services related to the Digital Army Program on behalf of the Israeli Ministry of Defense in the amount of \$50,000,000 or more; to the Committee on Foreign Relations.

EC-2506. A communication from the Assistant Secretary, Bureau of Legislative Affairs, Department of State, transmitting, pursuant to the Arms Export Control Act, the certification of a proposed technical assistance agreement to include the export of technical data, defense services, and defense articles to Turkey to perform maintenance and service of F110-GE-100 and F110-GE-129 aircraft engines installed on Turkish Air Force F-16 in the amount of \$100,000,000 or more; to the Committee on Foreign Relations.

EC-2507. A communication from the Assistant Secretary, Bureau of Legislative Affairs, Department of State, transmitting, pursuant to the Arms Export Control Act, the certification of an application for a license for the export of technical data, defense services, and defense articles to Australia for future commercial activities related to the IS-22 Commercial Communications Satellite and its associated ground network in the amount of \$100,000,000 or more; to the Committee on Foreign Relations.

EC-2508. A communication from the Assistant Secretary, Bureau of Legislative Affairs, Department of State, transmitting, pursuant to the Arms Export Control Act, the certification of a proposed manufacturing license

agreement to include the export of technical data, defense services, and defense articles to Germany for the manufacture of chemical defense fabrics; to the Committee on Foreign Relations.

EC-2509. A communication from the Assistant Secretary of Legislative Affairs, Department of State, transmitting, pursuant to the Small Business Regulatory Enforcement Fairness Act of 1996, a report concerning an amendment to Part 123 of the International Traffic in Arms Regulations; to the Committee on Foreign Relations.

EC-2510. A communication from the Assistant Secretary, Bureau of Legislative Affairs, Department of State, transmitting, pursuant to the Arms Export Control Act, the certification of a proposed manufacturing license agreement for the export of defense articles, including technical data, defense services, and hardware for the manufacture of the AN/GPA-124 IFF Coder/Decoder and the AN/GPM-64 Test Set for Japan; to the Committee on Foreign Relations.

EC-2511. A communication from the Assistant Secretary, Bureau of Legislative Affairs, Department of State, transmitting, pursuant to the Arms Export Control Act, the certification of a proposed manufacturing license agreement for the export of defense articles, including technical data, defense services, and hardware to support the manufacture, modernization, upgrade, and overhaul of the M113 Family of Vehicles in Turkey in the amount of \$100,000,000 or more; to the Committee on Foreign Relations.

EC-2512. A communication from the Assistant Secretary, Bureau of Legislative Affairs, Department of State, transmitting, pursuant to the Arms Export Control Act, the certification of a proposed manufacturing license agreement for the export of defense articles, including technical data, defense services, and hardware for the manufacture of Mk 46 Torpedo assemblies and components for Japan in the amount of \$100,000,000 or more; to the Committee on Foreign Relations.

EC-2513. A communication from the Assistant Secretary, Bureau of Legislative Affairs, Department of State, transmitting, pursuant to the Arms Export Control Act, the certification of a proposed technical assistance agreement for the export of defense articles, including technical data, defense services, and hardware to Singapore, and the United Kingdom to support the manufacture of display monitors, display assembly kits, and display unit subassemblies for Raytheon Company in the amount of \$50,000,000 or more; to the Committee on Foreign Relations.

EC-2514. A communication from the Assistant Legal Adviser for Treaty Affairs, Department of State, transmitting, pursuant to the Case-Zablocki Act, 1 U.S.C. 112b, as amended, the report of the texts and background statements of international agreements, other than treaties (List 2009-0088—2009-0089); to the Committee on Foreign Relations.

EC-2515. A communication from the Assistant General Counsel of the Division of Regulatory Services, National Institute on Disability and Rehabilitation Research Projects and Centers Program, Department of Education, transmitting, pursuant to law, the report of a rule entitled "Rehabilitation Research and Training Centers" (CFDA No. 84.133B) received in the Office of the President of the Senate on July 28, 2009; to the Committee on Health, Education, Labor, and Pensions.

EC-2516. A communication from the Secretary of the Department of Health and Human Services, transmitting, pursuant to

law, the Fiscal Year 2008 Performance Report to Congress; to the Committee on Health, Education, Labor, and Pensions.

EC-2517. A communication from the District of Columbia Auditor, transmitting, pursuant to law, a report entitled, "Letter Report: Sufficiency Certification for the Washington Convention Center Authority's Projected Revenues and Excess Reserve to Meet Projected Operating and Debt Service Expenditures and Reserve Requirements for Fiscal Year 2010"; to the Committee on Homeland Security and Governmental Affairs.

EC-2518. A communication from the Chairman, Council of the District of Columbia, transmitting, pursuant to law, a report on D.C. Act 18-137, "Boys and Girls Club of Greater Washington Property Acquisition Temporary Act of 2009" received in the Office of the President of the Senate on July 27, 2009; to the Committee on Homeland Security and Governmental Affairs.

EC-2519. A communication from the Chairman, Council of the District of Columbia, transmitting, pursuant to law, a report on D.C. Act 18-139, "Closing of a Paper Alley in Square 5401, S.O. 07-121, Act of 2009" received in the Office of the President of the Senate on July 27, 2009; to the Committee on Homeland Security and Governmental Affairs.

EC-2520. A communication from the Director, Office of Personnel Management, transmitting, pursuant to law, the Annual Privacy Activity Report for 2008; to the Committee on Homeland Security and Governmental Affairs.

EC-2521. A communication from the Chairman, Council of the District of Columbia, transmitting, pursuant to law, a report on D.C. Act 18-138, "Commission on Uniform State Laws Appointment Authorization Temporary Act of 2009" received in the Office of the President of the Senate on July 27, 2009; to the Committee on Homeland Security and Governmental Affairs.

EC-2522. A communication from the Chief Counsel, Federal Emergency Management Agency, Department of Homeland Security, transmitting, pursuant to law, the report of a rule entitled "Final Flood Elevation Determinations" ((44 CFR Part 67)(Docket No. FEMA-2008-0020)) received in the Office of the President of the Senate on July 28, 2009; to the Committee on Banking, Housing, and Urban Affairs.

EC-2523. A communication from the Chief of the Publications and Regulations Branch, Internal Revenue Service, Department of the Treasury, transmitting, pursuant to law, the report of a rule entitled "Notice on Treatment of Fails Charges for Purposes of Sections 871, 881, 1441, and 1442" (Notice 2009-61) received in the Office of the President of the Senate on July 28, 2009; to the Committee on Finance.

EC-2524. A communication from the Chief of the Publications and Regulations Branch, Internal Revenue Service, Department of the Treasury, transmitting, pursuant to law, the report of a rule entitled "Certain Cost-Sharing Payments; Forest Health Protection Program" (Rev. Rul. 2009-23) received in the Office of the President of the Senate on July 28, 2009; to the Committee on Finance.

EC-2525. A communication from the Director of Regulation Policy and Management, Veterans Health Administration, Department of Veterans Affairs, transmitting, pursuant to law, the report of a rule entitled "Elimination of Requirements for Prior Signature Consent and Pre- and Post Test Counseling for HIV Testing" (RIN2900-AN20) received in the Office of the President of the

Senate on July 28, 2009; to the Committee on Veterans' Affairs.

EC-2526. A communication from the Acting General Counsel, Peace Corps, transmitting, pursuant to law, the report of a nomination in the position of Director of the Peace Corps, received in the Office of the President of the Senate on July 28, 2009; to the Committee on Foreign Relations.

REPORTS OF COMMITTEES

The following reports of committees were submitted:

By Mr. DODD, from the Committee on Banking, Housing, and Urban Affairs, without amendment:

S. 1533. An original bill to provide an extension of public transportation programs authorized under the Safe, Accountable, Flexible, Efficient Transportation Equity Act: A Legacy for Users (Rept. No. 111-61).

By Mr. INOUE, from the Committee on Appropriations:

Special Report entitled "Further Revised Allocation to Subcommittees of Budget Totals from the Concurrent Resolution, Fiscal Year 2010" (Rept. No. 111-62).

By Mr. BAUCUS, from the Committee on Finance:

Report to accompany S.J. Res. 17, A joint resolution approving the renewal of import restrictions contained in the Burmese Freedom and Democracy Act of 2003, and for other purposes (Rept. No. 111-63).

*Nomination was reported with recommendation that it be confirmed subject to the nominee's commitment to respond to requests to appear and testify before any duly constituted committee of the Senate.

(Nominations without an asterisk were reported with the recommendation that they be confirmed.)

INTRODUCTION OF BILLS AND JOINT RESOLUTIONS

The following bills and joint resolutions were introduced, read the first and second times by unanimous consent, and referred as indicated:

By Mr. REID (for himself, Mr. NELSON of Florida, Mr. ENSIGN, and Mr. MARTINEZ):

S. 1530. A bill to prohibit an agency or department of the United States from establishing or implementing an internal policy that discourages or prohibits the selection of a resort or vacation destination as the location for a conference or event, and for other purposes; to the Committee on Homeland Security and Governmental Affairs.

By Mr. PRYOR:

S. 1531. A bill to amend title 38, United States Code, to establish within the Department of Veterans Affairs the position of Assistant Secretary for Acquisition, Logistics, and Construction, and for other purposes; to the Committee on Veterans' Affairs.

By Mrs. MURRAY (for herself, Mr. BROWN, and Mr. SANDERS):

S. 1532. A bill to establish partnerships to create or enhance educational and skills development pathways to 21st century careers, and for other purposes; to the Committee on Health, Education, Labor, and Pensions.

By Mr. DODD:

S. 1533. An original bill to provide an extension of public transportation programs authorized under the Safe, Accountable, Flexible, Efficient Transportation Equity Act: A Legacy for Users; from the Committee on Banking, Housing, and Urban Affairs; placed on the calendar.

By Mr. REID (for Mr. BYRD (for himself, Mr. ROCKEFELLER, Mr. CASEY, Mr. WEBB, Mr. SHELBY, and Mr. WARNER):

S. 1534. A bill to complete construction of the 13-States Appalachian development highway system, and for other purposes; to the Committee on Environment and Public Works.

By Mrs. FEINSTEIN (for herself and Mr. CARDIN):

S. 1535. A bill to amend the Fish and Wildlife Act of 1956 to establish additional prohibitions on shooting wildlife from aircraft, and for other purposes; to the Committee on Environment and Public Works.

By Mr. SCHUMER (for himself, Mr. MENENDEZ, Mrs. HAGAN, and Ms. LANDRIEU):

S. 1536. A bill to amend title 23, United States Code, to reduce the amount of Federal highway funding available to States that do not enact a law prohibiting an individual from writing, sending, or reading text messages while operating a motor vehicle; to the Committee on Environment and Public Works.

By Mr. GRASSLEY (for himself, Mr. HARKIN, and Mr. CONRAD):

S. 1537. A bill to authorize the Secretary of the Interior, acting through the Director of the National Park Service, to designate the Dr. Norman E. Borlaug Birthplace and Childhood Home in Cresco, Iowa, as a National Historic Site and as a unit of the National Park System, and for other purposes; to the Committee on Energy and Natural Resources.

By Mr. ROCKEFELLER (for himself, Ms. CANTWELL, Mr. NELSON of Florida, and Mr. BEGICH):

S. 1538. A bill to establish a black carbon and other aerosols research program in the National Oceanic and Atmospheric Administration that supports observations, monitoring, modeling, and for other purposes; to the Committee on Commerce, Science, and Transportation.

By Mr. ROCKEFELLER (for himself and Mr. NELSON of Florida):

S. 1539. A bill to authorize the National Oceanic and Atmospheric Administration to establish a comprehensive greenhouse gas observation and analysis system, and for other purposes; to the Committee on Commerce, Science, and Transportation.

SUBMISSION OF CONCURRENT AND SENATE RESOLUTIONS

The following concurrent resolutions and Senate resolutions were read, and referred (or acted upon), as indicated:

By Mrs. LINCOLN (for herself and Mrs. HUTCHISON):

S. Res. 226. A resolution designating September 2009 as "Gospel Music Heritage Month" and honoring gospel music for its valuable contributions to the culture of the United States; to the Committee on the Judiciary.

By Mr. BROWN:

S. Res. 227. A resolution designating September 2009 as "Tay-Sachs Awareness Month"; to the Committee on the Judiciary.

By Mr. NELSON of Nebraska (for himself, Mr. KERRY, Mr. BROWNBACK, Mr. KENNEDY, Ms. COLLINS, Mr. CARPER, Mr. BUNNING, Ms. SNOWE, Mr. DODD, and Mr. SCHUMER):

S. Res. 228. A resolution designating the week beginning September 14, 2009, as "National Direct Support Professionals Recognition Week"; considered and agreed to.

By Mr. GRAHAM (for himself, Mr. ALEXANDER, Mr. BAYH, Mr. BOND, Mrs. BOXER, Mr. BROWN, Mr. BROWNBACK, Mr. BUNNING, Mr. BURR, Mr. BYRD, Mr. CARDIN, Mr. CHAMBLISS, Mr. COBURN, Mr. COCHRAN, Mr. CORKER, Mr. CORNYN, Mr. DEMINT, Mr. DURBIN, Mrs. HAGAN, Mrs. HUTCHISON, Mr. ISAKSON, Mr. KAUFMAN, Ms. LANDRIEU, Mr. LEVIN, Mrs. LINCOLN, Mr. MCCAIN, Mrs. MCCASKILL, Mr. MENENDEZ, Ms. MIKULSKI, Mr. SESSIONS, Mr. SPECTER, Ms. STABENOW, Mr. VITTER, Mr. VOINOVICH, Mr. WARNER, and Mr. WICKER):

S. Res. 229. A resolution designating the week beginning August 30, 2009, as "National Historically Black Colleges and Universities Week"; considered and agreed to.

By Mr. REID (for himself, Mr. MCCONNELL, Mr. AKAKA, Mr. ALEXANDER, Mr. BARRASSO, Mr. BAUCUS, Mr. BAYH, Mr. BEGICH, Mr. BENNET, Mr. BENNETT, Mr. BINGAMAN, Mr. BOND, Mrs. BOXER, Mr. BROWN, Mr. BROWNBACK, Mr. BUNNING, Mr. BURR, Mr. BURRIS, Mr. BYRD, Ms. CANTWELL, Mr. CARDIN, Mr. CARPER, Mr. CASEY, Mr. CHAMBLISS, Mr. COBURN, Mr. COCHRAN, Ms. COLLINS, Mr. CONRAD, Mr. CORKER, Mr. CORNYN, Mr. CRAPO, Mr. DEMINT, Mr. DODD, Mr. DORGAN, Mr. DURBIN, Mr. ENSIGN, Mr. ENZI, Mr. FEINGOLD, Mrs. FEINSTEIN, Mr. FRANKEN, Mrs. GILLIBRAND, Mr. GRAHAM, Mr. GRASSLEY, Mr. GREGG, Mrs. HAGAN, Mr. HARKIN, Mr. HATCH, Mrs. HUTCHISON, Mr. INHOFE, Mr. INOUE, Mr. ISAKSON, Mr. JOHANNES, Mr. JOHNSON, Mr. KAUFMAN, Mr. KENNEDY, Mr. KERRY, Ms. KLOBUCHAR, Mr. KOHL, Mr. KYL, Ms. LANDRIEU, Mr. LAUTENBERG, Mr. LEAHY, Mr. LEVIN, Mr. LIEBERMAN, Mrs. LINCOLN, Mr. LUGAR, Mr. MARTINEZ, Mr. MCCAIN, Mrs. MCCASKILL, Mr. MENENDEZ, Mr. MERKLEY, Ms. MIKULSKI, Ms. MURKOWSKI, Mrs. MURRAY, Mr. NELSON of Nebraska, Mr. NELSON of Florida, Mr. PRYOR, Mr. REED, Mr. RISCH, Mr. ROBERTS, Mr. ROCKEFELLER, Mr. SANDERS, Mr. SCHUMER, Mr. SESSIONS, Mrs. SHAHEEN, Mr. SHELBY, Ms. SNOWE, Mr. SPECTER, Ms. STABENOW, Mr. TESTER, Mr. THUNE, Mr. UDALL of Colorado, Mr. UDALL of New Mexico, Mr. VITTER, Mr. VOINOVICH, Mr. WARNER, Mr. WEBB, Mr. WHITEHOUSE, Mr. WICKER, and Mr. WYDEN):

S. Res. 230. A resolution designating Richard A. Baker as Historian Emeritus of the United States Senate; considered and agreed to.

ADDITIONAL COSPONSORS

S. 211

At the request of Mrs. MURRAY, the name of the Senator from South Dakota (Mr. JOHNSON) was added as a cosponsor of S. 211, a bill to facilitate nationwide availability of 2-1-1 telephone service for information and referral on human services and volunteer services, and for other purposes.

S. 259

At the request of Mr. BOND, the name of the Senator from New Jersey (Mr. LAUTENBERG) was added as a cosponsor of S. 259, a bill to establish a grant program to provide vision care to children, and for other purposes.

S. 332

At the request of Mrs. FEINSTEIN, the name of the Senator from Nebraska (Mr. NELSON) was added as a cosponsor of S. 332, a bill to establish a comprehensive interagency response to reduce lung cancer mortality in a timely manner.

S. 370

At the request of Mr. INHOFE, the names of the Senator from Tennessee (Mr. ALEXANDER), the Senator from Missouri (Mr. BOND), the Senator from North Carolina (Mr. BURR), the Senator from Texas (Mr. CORNYN), the Senator from Idaho (Mr. CRAPO), the Senator

from Georgia (Mr. ISAKSON), the Senator from Kentucky (Mr. MCCONNELL), the Senator from Idaho (Mr. RISCH), the Senator from Alabama (Mr. SESSIONS), the Senator from Louisiana (Mr. VITTER), and the Senator from Arizona (Mr. KYL) were added as cosponsors of S. 370, a bill to prohibit the use of funds to transfer detainees of the United States at Naval Station, Guantanamo Bay, Cuba, to any facility in the United States or to construct any facility for such detainees in the United States, and for other purposes.

S. 446

At the request of Mr. SPECTER, the name of the Senator from Minnesota (Ms. KLOBUCHAR) was added as a cosponsor of S. 446, a bill to permit the televising of Supreme Court proceedings.

S. 455

At the request of Mr. ROBERTS, the name of the Senator from Arkansas (Mrs. LINCOLN) was added as a cosponsor of S. 455, a bill to require the Secretary of the Treasury to mint coins in recognition of 5 United States Army Five-Star Generals, George Marshall, Douglas MacArthur, Dwight Eisenhower, Henry "Hap" Arnold, and Omar Bradley, alumni of the United States Army Command and General Staff College, Fort Leavenworth, Kansas, to coincide with the celebration of the 132nd Anniversary of the founding of the United States Army Command and General Staff College.

S. 621

At the request of Mr. DURBIN, the name of the Senator from New Jersey (Mr. LAUTENBERG) was added as a cosponsor of S. 621, a bill to amend the Public Health Service Act to coordinate Federal congenital heart disease research efforts and to improve public education and awareness of congenital heart disease, and for other purposes.

S. 654

At the request of Mr. BUNNING, the name of the Senator from Washington (Mrs. MURRAY) was added as a cosponsor of S. 654, a bill to amend title XIX of the Social Security Act to cover physician services delivered by podiatric physicians to ensure access by Medicaid beneficiaries to appropriate quality foot and ankle care.

S. 685

At the request of Mr. LAUTENBERG, the name of the Senator from New Jersey (Mr. MENENDEZ) was added as a cosponsor of S. 685, a bill to require new vessels for carrying oil fuel to have double hulls, and for other purposes.

S. 694

At the request of Mr. DODD, the name of the Senator from Massachusetts (Mr. KENNEDY) was added as a cosponsor of S. 694, a bill to provide assistance to Best Buddies to support the expansion and development of mentoring programs, and for other purposes.

S. 717

At the request of Mr. AKAKA, his name was added as a cosponsor of S. 717, a bill to modernize cancer research, increase access to preventative cancer services, provide cancer treatment and survivorship initiatives, and for other purposes.

S. 799

At the request of Mr. DURBIN, the name of the Senator from Illinois (Mr. BURRIS) was added as a cosponsor of S. 799, a bill to designate as wilderness certain Federal portions of the red rock canyons of the Colorado Plateau and the Great Basin Deserts in the State of Utah for the benefit of present and future generations of people in the United States.

S. 827

At the request of Mr. ROCKEFELLER, the names of the Senator from Massachusetts (Mr. KENNEDY) and the Senator from California (Mrs. BOXER) were added as cosponsors of S. 827, a bill to establish a program to reunite bondholders with matured unredeemed United States savings bonds.

S. 832

At the request of Mr. NELSON of Florida, the name of the Senator from Alaska (Mr. BEGICH) was added as a cosponsor of S. 832, a bill to amend title 36, United States Code, to grant a Federal charter to the Military Officers Association of America, and for other purposes.

S. 850

At the request of Mr. KERRY, the name of the Senator from New Jersey (Mr. LAUTENBERG) was added as a cosponsor of S. 850, a bill to amend the High Seas Driftnet Fishing Moratorium Protection Act and the Magnuson-Stevens Fishery Conservation and Management Act to improve the conservation of sharks.

S. 908

At the request of Mr. BAYH, the names of the Senator from Utah (Mr. HATCH) and the Senator from New Mexico (Mr. UDALL) were added as cosponsors of S. 908, a bill to amend the Iran Sanctions Act of 1996 to enhance United States diplomatic efforts with respect to Iran by expanding economic sanctions against Iran.

S. 928

At the request of Mr. PRYOR, the name of the Senator from Maine (Ms. SNOWE) was added as a cosponsor of S. 928, a bill to enhance disclosures regarding the use of funds under the Troubled Asset Relief Program, and for other purposes.

S. 979

At the request of Mr. DURBIN, the name of the Senator from Alaska (Mr. BEGICH) was added as a cosponsor of S. 979, a bill to amend the Public Health Service Act to establish a nationwide health insurance purchasing pool for small businesses and the self-employed that would offer a choice of private

health plans and make health coverage more affordable, predictable, and accessible.

S. 1065

At the request of Mr. BROWNBACK, the names of the Senator from Georgia (Mr. CHAMBLISS) and the Senator from Arkansas (Mr. PRYOR) were added as cosponsors of S. 1065, a bill to authorize State and local governments to direct divestiture from, and prevent investment in, companies with investments of \$20,000,000 or more in Iran's energy sector, and for other purposes.

S. 1076

At the request of Mr. MENENDEZ, the name of the Senator from Oregon (Mr. WYDEN) was added as a cosponsor of S. 1076, a bill to improve the accuracy of fur product labeling, and for other purposes.

S. 1157

At the request of Mr. CONRAD, the name of the Senator from North Dakota (Mr. DORGAN) was added as a cosponsor of S. 1157, a bill to amend title XVIII of the Social Security Act to protect and preserve access of Medicare beneficiaries in rural areas to health care providers under the Medicare program, and for other purposes.

S. 1171

At the request of Mr. PRYOR, the name of the Senator from New York (Mrs. GILLIBRAND) was added as a cosponsor of S. 1171, a bill to amend title XVIII of the Social Security Act to restore State authority to waive the 35-mile rule for designating critical access hospitals under the Medicare Program.

S. 1244

At the request of Mr. MERKLEY, the name of the Senator from Vermont (Mr. SANDERS) was added as a cosponsor of S. 1244, a bill to amend the Civil Rights Act of 1964 to protect breastfeeding by new mothers, to provide for a performance standard for breast pumps, and to provide tax incentives to encourage breastfeeding.

S. 1389

At the request of Mr. NELSON of Nebraska, the name of the Senator from North Carolina (Mr. BURR) was added as a cosponsor of S. 1389, a bill to clarify the exemption for certain annuity contracts and insurance policies from Federal regulation under the Securities Act of 1933.

S. 1505

At the request of Mr. PRYOR, the name of the Senator from Tennessee (Mr. ALEXANDER) was added as a cosponsor of S. 1505, a bill to provide immigration reform by securing America's borders, clarifying and enforcing existing laws, and enabling a practical employer verification program, and for other purposes.

S. 1508

At the request of Mr. CARPER, the name of the Senator from Connecticut

(Mr. LIEBERMAN) was added as a cosponsor of S. 1508, a bill to amend the Improper Payments Information Act of 2002 (31 U.S.C. 3321 note) in order to prevent the loss of billions in taxpayer dollars.

S. 1518

At the request of Mr. BURR, the name of the Senator from North Carolina (Mrs. HAGAN) was added as a cosponsor of S. 1518, a bill to amend title 38, United States Code, to furnish hospital care, medical services, and nursing home care to veterans who were stationed at Camp Lejeune, North Carolina, while the water was contaminated at Camp Lejeune.

S. CON. RES. 36

At the request of Mrs. LINCOLN, the name of the Senator from Alaska (Ms. MURKOWSKI) was added as a cosponsor of S. Con. Res. 36, a concurrent resolution supporting the goals and ideals of "National Purple Heart Recognition Day".

AMENDMENT NO. 1849

At the request of Mr. SANDERS, the names of the Senator from New Hampshire (Mrs. SHAHEEN) and the Senator from Oregon (Mr. MERKLEY) were added as cosponsors of amendment No. 1849 intended to be proposed to H.R. 3183, a bill making appropriations for energy and water development and related agencies for the fiscal year ending September 30, 2010, and for other purposes.

AMENDMENT NO. 1852

At the request of Mr. NELSON of Florida, the name of the Senator from Florida (Mr. MARTINEZ) was added as a cosponsor of amendment No. 1852 proposed to H.R. 3183, a bill making appropriations for energy and water development and related agencies for the fiscal year ending September 30, 2010, and for other purposes.

AMENDMENT NO. 1857

At the request of Mr. MENENDEZ, the name of the Senator from Vermont (Mr. SANDERS) was added as a cosponsor of amendment No. 1857 intended to be proposed to H.R. 3183, a bill making appropriations for energy and water development and related agencies for the fiscal year ending September 30, 2010, and for other purposes.

AMENDMENT NO. 1861

At the request of Mr. REED, the name of the Senator from Massachusetts (Mr. KERRY) was added as a cosponsor of amendment No. 1861 intended to be proposed to H.R. 3183, a bill making appropriations for energy and water development and related agencies for the fiscal year ending September 30, 2010, and for other purposes.

AMENDMENT NO. 1862

At the request of Mr. KYL, his name was added as a cosponsor of amendment No. 1862 proposed to H.R. 3183, a bill making appropriations for energy and water development and related agencies for the fiscal year ending September 30, 2010, and for other purposes.

At the request of Mr. GREGG, his name was added as a cosponsor of amendment No. 1862 proposed to H.R. 3183, *supra*.

At the request of Mr. BURR, his name was added as a cosponsor of amendment No. 1862 proposed to H.R. 3183, *supra*.

At the request of Mr. ROBERTS, his name was added as a cosponsor of amendment No. 1862 proposed to H.R. 3183, *supra*.

At the request of Mr. ALEXANDER, the name of the Senator from Wyoming (Mr. BARRASSO) was added as a cosponsor of amendment No. 1862 proposed to H.R. 3183, *supra*.

AMENDMENT NO. 1863

At the request of Mr. ALEXANDER, the name of the Senator from Tennessee (Mr. CORKER) was added as a cosponsor of amendment No. 1863 intended to be proposed to H.R. 3183, a bill making appropriations for energy and water development and related agencies for the fiscal year ending September 30, 2010, and for other purposes.

STATEMENTS ON INTRODUCED BILLS AND JOINT RESOLUTIONS

By Mr. REID (for himself, Mr. NELSON of Florida, Mr. ENSIGN, and Mr. MARTINEZ):

S. 1530. A bill to prohibit an agency or department of the United States from establishing or implementing an internal policy that discourages or prohibits the selection of a resort or vacation destination as the location for a conference or event, and for other purposes; to the Committee on Homeland Security and Governmental Affairs.

Mr. REID. Mr. President, I ask unanimous consent that the text of the bill be printed in the RECORD.

There being no objection, the text of the bill was ordered to be printed in the RECORD, as follows:

S. 1530

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the "Protecting Resort Cities from Discrimination Act of 2009".

SEC. 2. FINDINGS.

Congress makes the following findings:

(1) Tourism, including conventions and meetings, is an important part of the United States economy that generates billions of dollars in tax revenues for many localities.

(2) Analysts estimate that approximately 90 percent of employers in the travel industry are small businesses and more than 12 percent of United States employees are employed by the travel industry.

(3) Many local economies around the country have developed into destinations for vacationers and conventioners alike, and those local economies depend on the travel industry to support local employment, create new jobs, and generate tax revenues for critical public services.

(4) These same destinations are home to large and small businesses that have unique

skills, amenities, and resources for planning and facilitating meetings and conventions for all purposes and, consequently, may deliver value and convenience for individuals and organizations in need of a location for an official event.

(5) Locating an official event in such a city frequently may save taxpayer dollars, as compared to other locations.

(6) Agencies and departments of the United States have a responsibility to find ways to maximize taxpayer dollars in conducting official business, including planning and conducting official meetings attended by Federal employees.

(7) In deciding where to locate an official government meeting by applying this principle of maximizing taxpayer dollars, government officials often will conclude that many locations known as resort destinations also will provide the best value and convenience for official meetings and business.

(8) Resort and vacation destination cities tend to be affected disproportionately during economic downturns and, therefore, are especially vulnerable to discrimination by meeting and convention planners, which could exacerbate unemployment and related demands on United States taxpayers.

SEC. 3. LIMITATION ON CERTAIN TRAVEL AND CONFERENCES POLICIES OF AGENCIES OF THE UNITED STATES.

No agency or department of the United States may establish or implement an internal policy regarding travel, event, meeting, or conference locations that discourages or prohibits the selection of such a location because the location is perceived to be a resort or vacation destination.

By Mr. REID (for Mr. BYRD (for himself, Mr. ROCKEFELLER, Mr. CASEY, Mr. WEBB, Mr. SHELBY, and Mr. WARNER)):

S. 1534. A bill to complete construction of the 13-States Appalachian development highway system, and for other purposes; to the Committee on Environment and Public Works.

Mr. BYRD. Mr. President, today I am introducing legislation to reauthorize the Appalachian Development Highway System. This network of highways and corridors, known as the ADHS, was designed to provide access to and from communities in Appalachia. The concept of the ADHS was born 45 years ago. It was, and is, an important promise made by the Federal Government to the people of my State and the rest of Appalachia. I thank the cosponsors of my bill: Senators ROCKEFELLER, CASEY, and WEBB, and I look forward to working with Environment and Public Works Committee Chairwoman BOXER to have my legislation included in the next highway reauthorization.

While serving in the House of Representatives, I cast my vote in favor of establishing the Interstate Highway System back in 1958. I have had a long history of advancing the cause of our Nation's highway systems and of emphasizing the immense economic and safety benefits that come with the improvement of all surface transportation.

The ADHS's inception was in 1964, when it was recognized by the first Appalachian Regional Commission that,

while the Interstate Highway System would provide historic economic benefits to most of our Nation, the system was designed to bypass the Appalachian region. This was primarily due to the difficulties involved in building roads upon Appalachia's beautiful, but very rugged topography. Absent the Appalachian Development Highway System, my State, as well as the whole of the Appalachian region, would have been left solely with a transportation infrastructure of dangerous, narrow, winding roads which follow the paths of river valleys and stream beds, winding around mountains and hills. Thus, the limited access to these regions has tended to stifle economic opportunities for countless communities—a problem that still exists all these years later.

In addition to the Federal Government's responsibility to keep the promise made decades ago to the people of Appalachia, new benefits—benefits to the entire Nation—have evolved because of the ADHS. In a recent economic analysis conducted by the Appalachian Regional Commission, the study found that completion of the ADHS will result in significant reductions in travel time for personal, business, and long-distance freight trips. By 2020, the aggregate savings in travel time is estimated to be over 67 million hours, 240,000 hours daily of travel time saved, and grow to almost 180 million hours of reduced travel time by 2035.

ADHS corridor improvements will produce significant monetized travel benefits to individuals and businesses both within and outside the ARC region. Total user benefits—travel time, fuel and non-fuel operating costs, and safety—are estimated to be \$1.3 billion in 2020, the year of system completion, and grow to \$4.3 billion by 2035. Over half the benefit is expected to accrue to business-related travel—commodity-based truck flows, local nonfreight truck trips, and on-the-clock auto trips.

The reason for the existence of the Appalachian Development Highway System is no less valid today than when it was established in 1964. The benefits of completion of the ADHS are twofold: continue to make inroads into isolated communities, and address and alleviate an already overly burdened Interstate Highway System.

Unfortunately, there are still children in Appalachia who lack decent transportation routes to local schools. There are thousands upon thousands of people who cannot obtain sustainable, well-paying jobs because of poor transportation access to major employment centers. Some of the most beautiful places in the country are in Appalachia, but for tourism to thrive, Americans must be able to actually get to these beautiful destinations.

It is time for this Congress, in concert with the administration, to take the last great leap forward and to authorize sufficient contract authority to

finally complete the Appalachian Development Highway System. The legislation I am introducing today will provide sufficient contract authority to complete the system, and the completion of the system will provide additional economic opportunities, safer modes of travel, and ease the strain on our current transportation infrastructure.

By Mrs. FEINSTEIN (for herself and Mr. CARDIN):

S. 1535. A bill to amend the Fish and Wildlife Act of 1956 to establish additional prohibitions on shooting wildlife from aircraft, and for other purposes; to the Committee on Environment and Public Works.

Mrs. FEINSTEIN. Mr. President, I rise today to introduce legislation to prevent the cruel and unsportsmanlike practice of hunting from airplanes.

This practice undermines the hunting principle of a fair chase and often leads to a slow and painful death for the hunted animals.

I firmly believe that slaughter must be the very last option when it comes to wildlife management. Moreover, if slaughter must be carried out, it should be done in the most humane method possible.

In my opinion, allowing private citizens to hunt from airplanes runs contrary to this belief.

Specifically, the Protect America's Wildlife Act closes the loophole in current law that allows private citizens to hunt from aircraft. It limits airborne hunting to employees of state fish and wildlife agencies, the U.S. Department of Agriculture and the Department of the Interior.

It eliminates the practice of "land-and-shoot" hunting by prohibiting the chasing or exhausting of animals from an aircraft.

It provides an exception to allow airborne hunting during biological emergencies, which is defined as a case where a wildlife population's sustainability is significantly threatened by an excess of predators.

It also ensures that this exception only applies to when it is the only way to prevent a biological emergency, and limits the number of animals killed to a minimum.

Finally, it increases fines for violations of the Airborne Hunting Act from \$5,000 to \$50,000.

It does not preclude States or Federal agencies from carrying out responsible wildlife management programs.

Congress initially passed the Airborne Hunting Act of 1971 as a result of the public's reaction to film of this practice broadcast over television.

Currently, a loophole in the Airborne Hunting Act permits States to allow private citizens to engage in airborne hunting of wildlife—in most cases wolves and bears—under the guise of wildlife management.

It was clear in the 1970's, as it is now, that airborne hunting is inhumane and must be stopped.

In my opinion, aerial hunting methods are cruel and unnecessary for wildlife management—and undermine the principles of sportsmanship.

Since 2003, more than 1,000 wolves have been killed from the air in the State of Alaska. According to the animal welfare group the Defenders of Wildlife, more than 250 wolves have been shot dead during the current hunting season alone.

Aerial hunting is typically carried out in one of two ways:

In the first method, a hunter will shoot the wolf directly from the aircraft while flying overhead. This frequently wounds the wolf, leading to a slow, painful death.

In the second method, known as "land-and-shoot," a hunter flying in an aircraft will chase the wolf until it is exhausted, land, and kill the animal from point-blank range.

So, I am introducing a bill today to close the airborne hunting loophole that allows it to continue.

This legislation would not impinge on legitimate hunting rights.

This bill does not prohibit the use of airplanes for transportation. A hunter would still be able to legally fly anywhere, anytime, and hunt as they otherwise would.

Further, all other legal methods of transportation or hunting may also continue: on foot, by snowmobile, by all-terrain vehicle, etc.

The State of Alaska, where airborne hunting is more prevalent, argues that wolf populations must be limited to support sustainable levels of moose and caribou.

The State continues to carry out airborne hunting by private citizens with authority from the State Department of Game, which argues that the moose and caribou populations must be increased.

It is estimated that the State's resident hunters alone contribute roughly \$662 million annually to the economy. The hunting industry also sustains 10,000 jobs.

With this in mind, it is certainly not my intention to prevent Alaska, or any other state for that matter, from maintaining a robust hunting and tourism industry.

This is a balanced bill that will enable states to responsibly manage wildlife populations, while banning the most egregious cases of aerial hunting by civilians.

It limits the practice of airborne hunting to employees of State and Federal wildlife agencies without impinging on legitimate sport hunting practices.

It is also supported by former members of the Alaska Board of Game that agree this practice should be controlled.

I became concerned about inhumane wildlife management practices due to the slaughter of nonnative deer in my own State.

Beginning in the summer of 2007, the National Park Service began culling Axis and Fallow deer at Point Reyes National Seashore near San Francisco. This inhumane shooting resulted in a number of deer dying slow and painful deaths. Some were left to rot in the Park.

Hundreds of constituents from the Bay Area raised an outcry about this practice and I am pleased that the National Park Service has stopped slaughtering the deer.

In conclusion, this bill prohibits the cruel practice of aerial sport hunting, while safeguarding the rights of legitimate hunters and allowing States and the Federal Government to maintain responsible wildlife management.

I am certainly open to the suggestions of my colleagues who have ideas for improving this legislation and look forward to working with them to pass it quickly.

Mr. President, I ask unanimous consent that the text of the bill be printed in the RECORD.

There being no objection, the text of the bill was ordered to be printed in the RECORD, as follows:

S. 1535

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the "Protect America's Wildlife Act of 2009".

SEC. 2. ADDITIONAL PROHIBITIONS.

Section 13(a) of the Fish and Wildlife Act of 1956 (16 U.S.C. 742j-1(a)) is amended—

(1) in paragraph (1), by striking "or" after the semicolon;

(2) in paragraph (2), by striking "or" after the semicolon;

(3) in paragraph (3), by adding "or" after the semicolon; and

(4) by inserting after paragraph (3) the following:

"(4) knowingly violates any regulation promulgated under this Act;" and

(5) in the matter following paragraph (4) (as inserted by this section), by striking "\$5,000" and inserting "\$50,000".

SEC. 3. EXCEPTIONS TO PROHIBITIONS.

Section 13(b) of the Fish and Wildlife Act of 1956 (16 U.S.C. 742j-1(b)) is amended—

(1) in paragraph (1), by striking "This section" and inserting "Subject to paragraph (3), this section";

(2) in paragraph (2)—

(A) in the matter preceding subparagraph (A), by striking "issues a permit referred to in" and inserting "authorizes an employee, agent, or person operating under a license or permit to take an action under";

(B) in subparagraph (A), by striking "to whom a permit was issued" and inserting "so authorized";

(C) in subparagraph (B), by striking "thereunder";

(D) in subparagraph (C), by striking "to whom a permit was issued"; and

(E) in subparagraph (D), by striking "issuing the permit" and inserting "authorizing the action, including the scientific

basis for actions identified in subsection (a) that are warranted to administer or protect or aid in the administration or protection of land, water, wildlife, livestock, domesticated animals, human life, or crops"; and

(3) by adding at the end the following:

"(3) ENHANCING THE PROPAGATION AND SURVIVAL OF WILDLIFE.—No person exempted under paragraph (1) may shoot, attempt to shoot, or harass any wolf, bear, or wolverine for the purpose of enhancing the propagation and survival of wildlife, including game populations, unless—

"(A) the head of the fish and wildlife agency of the State and, for game populations on land under the jurisdiction of the Department of the Interior, the Secretary of the Interior, or for game populations on land under the jurisdiction of the Department of Agriculture, the Secretary of Agriculture, determines, based on the best scientific data available, that—

"(i) a biological emergency is imminent; and

"(ii) all other practicable means to prevent the biological emergency, including stopping regulated takes of the declining population, have been implemented;

"(B) the action is carried out—

"(i) by an officer or employee of—

"(I) the fish and wildlife agency of the State; or

"(II)(aa) for game populations on land under the jurisdiction of the Department of the Interior, the Department of the Interior; or

"(bb) for game populations on land under the jurisdiction of the Department of Agriculture, the Department of Agriculture; and

"(ii) only in the specific geographical area in which the imminent biological emergency is located; and

"(C) the action results in the removal of not more than the minimum number of predators necessary to prevent the biological emergency.

"(4) EXCEPTION RELATING TO ACTIONS AUTHORIZED BY SECRETARY OF THE INTERIOR.—The Secretary of the Interior may authorize any action described in subsection (a)—

"(A) to prevent the extinction of a species that is listed as a threatened or endangered species under section 4(c)(1) of the Endangered Species Act of 1973 (16 U.S.C. 1533(c)(1)); and

"(B) if the Secretary of the Interior determines that there is no other means available to address the threat of extinction of the species described in subparagraph (A)."

SEC. 4. DEFINITIONS.

Section 13 of the Fish and Wildlife Act of 1956 (16 U.S.C. 742j-1) is amended by striking subsection (c) and inserting the following:

"(c) DEFINITIONS.—In this section:

"(1) AIRCRAFT.—The term 'aircraft' means any contrivance used for flight in the air.

"(2) BIOLOGICAL EMERGENCY.—The term 'biological emergency' means the likely extirpation or a significant and imminent threat to the sustainability of a wildlife population due to predation by wolves, bears, or wolverines, or any combination of those animals.

"(3) HARASS.—The term 'harass' means—

"(A) chasing or exhausting an animal; and

"(B) such other activities as are determined by the Secretary."

By Mr. ROCKEFELLER (for himself, Ms. CANTWELL, Mr. NELSON of Florida, and Mr. BEGICH):

S. 1538: A bill to establish a black carbon and other aerosols research program in the National Oceanic and Atmospheric Administration that sup-

ports observations, monitoring, modeling, and for other purposes; to the Committee on Commerce, Science, and Transportation.

Mr. ROCKEFELLER. Mr. President, as our Nation wrestles with the impacts of a changing climate, we need strong science to inform our decision-making. Today, I am introducing two bills to support that effort.

The first, the Black Carbon, S. 1538, and Other Aerosols Research Act, S. 1539, would direct research dollars towards improving our understanding of a major component of climate change—atmospheric aerosols. We need more information about how aerosols, including black carbon, impact climate change and how limiting their emissions will ultimately affect the rate of melting in the Arctic and overall climate change. Emerging research shows that black carbon and other aerosols have a major impact on global climate change. In fact, the effect of black carbon is thought to be second only to carbon dioxide. In order to reduce the impacts of aerosols on climate and air quality, we need to better understand their effects. Improved aerosols monitoring, measurements, and models are therefore necessary to improve our response to climate change. This legislation would authorize a program within the National Oceanic and Atmospheric Administration to observe, monitor, and model black carbon and other aerosols to better understand the roles of black carbon and other aerosols in climate change.

Identifying and quantifying human and natural emissions of greenhouse gases are necessary to make informed decisions about emission reduction strategies. Effective policy to address climate change requires monitoring and validation of emissions from specific sources and projects. Given the investments required to meet the challenge of greenhouse gas reductions, it is critical that efforts to reduce emissions be verifiable at local, regional, national, and international levels and consistent with evidence in the atmosphere. The second bill I am introducing today, the Greenhouse Gas Observing and Analysis System Act, would establish a robust monitoring and analysis program to provide more precise and verified estimates of the amount of greenhouse gases in the atmosphere. This would help us monitor the effectiveness of programs and policies designed to reduce emissions.

We need continued research investments to answer the "hows," and the "whys," regarding climate change. How are we going to be impacted? Why is our atmosphere and planet responding the way it is? We need sound answers to these questions to be agile and to adapt to the changes our globe is experiencing. These bills will help us answer these and many other questions.

Mr. President, I ask unanimous consent that the text of the bill be printed in the RECORD.

There being no objection, the text of the bill was ordered to be printed in the RECORD, as follows:

S. 1538

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the "Black Carbon and Other Aerosols Research Act of 2009".

SEC. 2. PURPOSES.

The purposes of this Act are—

(1) to develop a monitoring and research plan—

(A) to identify natural and anthropogenic sources of black carbon and other aerosols and to monitor their atmospheric and deposited concentrations on both a temporal and a spatial scale;

(B) to measure, monitor, model, and assess black carbon and other aerosols in regard to their atmospheric concentrations and deposited forms—

(i) to establish how these substances impact regional- and global-scale climate change and air quality;

(ii) to determine their regional impacts, with a focus on the polar regions and other snow and ice covered areas; and

(iii) to estimate, in the United States and globally, spatial and temporal black carbon and other aerosol concentrations, and deposition trends in collaboration with the National Institute of Standards and Technology and other appropriate partners; and

(C) to develop models to assist policy makers and to increase understanding of—

(i) the transport and transformation of black carbon and other aerosols to improve knowledge of their distributions and climate-forcing properties; and

(ii) the individual and combined roles of black carbon and other aerosols on regional and global climate change on both a temporal and a spatial scale; and

(2) to establish a black carbon and other aerosols monitoring and research program within the National Oceanic and Atmospheric Administration.

SEC. 3. DEFINITIONS.

In this Act:

(1) ADMINISTRATOR.—The term "Administrator" means the Administrator of the National Oceanic and Atmospheric Administration.

(2) BLACK CARBON.—The term "black carbon" means the strongly light absorbing aerosol that—

(A) is composed of fine particles containing carbon produced by the incomplete combustion of fossil fuels, biofuel, and biomass and other activities;

(B) exists in both atmospheric and deposited forms; and

(C) is sometimes associated with impaired air quality and climate change.

(3) OTHER AEROSOLS.—The term "other aerosols" means the components of atmospheric aerosols, fine particles suspended in air, that contribute to climate-forcing and climate change, including inorganic, organic, dust, and carbonaceous substances, either separately or in combination.

SEC. 4. BLACK CARBON AND OTHER AEROSOLS MONITORING AND RESEARCH PLAN.

(a) IN GENERAL.—The Administrator shall develop an observation, monitoring, modeling, and research plan for black carbon and other aerosols that includes—

(1) analysis of gaps in scientific methods and research on—

(A) black carbon and other aerosols; and
(B) the effect of black carbon, both singly and in combination with other factors, on climate change and air quality on both a regional and a global scale; and

(2) identification of priorities for Federal research on black carbon and other aerosols necessary to understand their role in climate change and air quality on both a regional and a global scale;

(3) a framework for modeling—

(A) the temporal and spatial effects of black carbon and other aerosols on climate, both singly and in combination, on regional and global scales and processes;

(B) the transportation and transformation of black carbon and other aerosols to gain insight into their distribution and climate-forcing properties; and

(C) the influence of black carbon on clouds and cloud particles to understand and quantify their role in large-scale circulation and the hydrologic cycle;

(4) appropriate methods that—

(A) identify sources of black carbon and other aerosols, both anthropogenic and naturally occurring; and

(B) measure, monitor, and increase understanding of the atmospheric concentrations and properties as well as the deposited forms, on both a temporal and a spatial scale;

(5) a comparative evaluation of the global and regional climate-forcing properties of black carbon and other aerosols and their effect on regional and global climate change and the loss of Arctic sea ice; and

(6) observation systems, needs, and assets necessary to develop and implement a black carbon and other aerosols monitoring and research program within the National Oceanic and Atmospheric Administration.

(b) **ADVISORY PANEL.**—The Administrator shall establish a Black Carbon and Other Aerosols Advisory Panel to assist in the development and implementation of the plan.

(c) **REPORT.**—No later than 270 days after the date of enactment of this Act, the Administrator shall submit a report to the Senate Committee on Commerce, Science, and Transportation and the House of Representatives Committee on Science and Technology describing the plan required by subsection (a).

SEC. 5. BLACK CARBON AND OTHER AEROSOLS RESEARCH AND MONITORING PROGRAM.

(a) **IN GENERAL.**—The Administrator shall establish and maintain a black carbon and other aerosols monitoring and research program that combines observations, research, monitoring, modeling, and other activities within the National Oceanic and Atmospheric Administration, consistent with the plan required by section 4(a), that includes—

(1) coordinated monitoring and research activities to improve understanding of the sources, atmospheric concentrations, deposited forms, and interactions among black carbon and other aerosols that influence their contribution to climate change processes on both a regional and a global scale;

(2) strategic modeling activities that improve understanding of—

(A) the transportation and transformation of aerosols, to improve knowledge of their distributions and climate-forcing properties; and

(B) the separate and combined roles of black carbon and other aerosols in regional and global climate change and air quality, on regional, global and temporal scales, to

improve understanding of these substances and their roles in climate change;

(3) educational opportunities that—

(A) encourage an interdisciplinary and international approach to exploring the associated sources and impacts of black carbon and other aerosols; and

(B) increase interactions between the measurement and modeling communities in order to optimize use of available data;

(4) public outreach activities that improve understanding of the current scientific knowledge of black carbon and other aerosols and their impact on climate change;

(5) coordination of black carbon and other aerosols monitoring research with the National Institute of Standards and Technology and other appropriate international and national government agencies, private entities, and others; and

(6) an assessment of the role black carbon and other aerosols have in regional and global climate change and air quality.

(b) **GRANT PROGRAM.**—

(1) **IN GENERAL.**—The Administrator shall establish a grant program to provide grants for critical research and projects that improve the ability to measure, monitor, model, and assess black carbon and other aerosols with respect to their atmospheric concentrations and deposited forms, including research that supports means of reducing the impacts of black carbon and other aerosols on climate.

(2) **CONSULTATION WITH PANEL.**—The Administrator shall consult with the Black Carbon and Other Aerosols Advisory Panel, and shall work cooperatively with the National Institute of Standards and Technology and other Federal agencies, to establish criteria for such research and projects.

(3) **PARTICIPATION BY FEDERAL AGENCIES.**—Federal agencies may collaborate with, and participate in, such research and projects to the extent requested by the grant recipient.

(4) **AWARD PROCESS.**—Grants under this subsection shall be awarded extramurally through a competitive peer-reviewed, merit-based process that may be conducted jointly with other Federal agencies working on black carbon and aerosols and their role in and relationship to climate change.

(c) **COORDINATION WITH OTHER AGENCIES.**—The Administrator shall coordinate development of the plan under section 4 and the monitoring and research program under subsection (a) of this section with the National Institute of Standards and Technology and other relevant Federal agencies.

(d) **ADDITIONAL AUTHORITY.**—In conducting the program, the Administrator may execute and perform such contracts, leases, grants, or cooperative agreements as may be necessary to carry out the purposes of this Act on such terms as the Administrator considers appropriate.

SEC. 6. AUTHORIZATION OF APPROPRIATIONS.

There are authorized to be appropriated to the Administrator for each of fiscal years 2010 through 2015—

(1) \$10,000,000 for grants under section 5(b); and

(2) \$10,000,000 for the National Oceanic and Atmospheric Administration to carry out the other provisions of this Act.

By Mr. ROCKEFELLER (for himself and Mr. NELSON of Florida):

S. 1539. A bill to authorize the National Oceanic and Atmospheric Administration to establish a comprehensive greenhouse gas observation and analysis system, and for other pur-

poses; to the Committee on Commerce, Science, and Transportation.

Mr. ROCKEFELLER. Mr. President, I ask unanimous consent that the text of the bill be printed in the RECORD.

There being no objection, the text of the bill was ordered to be printed in the RECORD, as follows:

S. 1539

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the “Greenhouse Gas Observation and Analysis System Act”.

SEC. 2. PURPOSES.

The purposes of this Act are—

(1) to establish a comprehensive national greenhouse gas observation and analysis system to support verification of greenhouse gas emissions;

(2) to establish a baseline characterizing the influence of current and past greenhouse gas emissions on atmospheric composition; and

(3) to provide a scientifically-robust record of atmospheric greenhouse gas concentrations.

SEC. 3. ESTABLISHMENT OF GREENHOUSE GAS OBSERVATION AND ANALYSIS SYSTEM.

(a) **IN GENERAL.**—The Administrator shall establish a greenhouse gas observation and analysis system that will offer the resolution and widespread coverage required to verify reduction and mitigation of greenhouse gases. In establishing the system, the Administrator shall coordinate with the Department of Commerce’s National Institute of Standards and Technology, the National Aeronautics and Space Administration, the National Science Foundation, the Department of Energy, the Department of Agriculture, and the United States Geological Survey.

(b) **SYSTEM COMPONENTS.**—The system—

(1) shall be an operational and scientifically-robust greenhouse gas observation and analysis system that includes local and regional ground-based observations, space-based observations, carbon-cycle modeling, greenhouse gas inventories, meta-analysis, and extensive data integration and distribution to provide quantitative information about sources, sinks, and fluxes of greenhouse gases at relevant temporal and spatial scales; and

(2) shall be capable of—

(A) differentiating between source and sink exchanges;

(B) identifying types of emissions (fossil-fuel and non-fossil fuel sources); and

(C) tracking agricultural and other sinks; and

(3) shall include—

(A) sustained ground, sea, and air-based measurements;

(B) sustained space-based observations;

(C) measurements of tracer, including isotopes and non-carbon dioxide gases;

(D) carbon cycle monitoring;

(E) carbon cycle modeling;

(F) traceability to the International System of Units; and

(G) data assimilation and analysis.

(c) **COORDINATION.**—The Administrator shall, to the extent appropriate—

(1) facilitate coordination of—

(A) observations and modeling;

(B) data and information management systems, including archive and access; and

(C) the development and transfer of technologies to facilitate the evaluation of

greenhouse gas emission reductions, offsets, and other mitigation strategies;

(2) coordinate with the National Institute of Standards and Technology to make sure that the greenhouse gas observation and analysis system is based upon quantitative measurements traceable to international standards; and

(3) coordinate with other Federal agencies and international organizations and agencies involved in international or domestic programs.

SEC. 4. SYSTEM PLAN.

(a) IN GENERAL.—Not later than 1 year after the date of enactment of this Act, the Administrator shall, in coordination with the agencies described in section 3, develop and submit a plan for an integrated and comprehensive greenhouse gas observation and analysis system to the Senate Committee on Commerce, Science, and Transportation and the House of Representatives Committee on Science and Technology.

(b) PLAN REQUIREMENTS.—The plan shall—

(1) identify and describe current national and international greenhouse gas observation networks, modeling, and data analysis efforts;

(2) contain an inventory of agency data relevant to greenhouse gases;

(3) assess gaps, conflicts, and opportunities with respect to the matters described in paragraphs (1) and (2);

(4) establish priorities, define agency roles, and make recommendations on necessary capacity and capabilities for—

(A) ground, sea, air-based measurements;

(B) sustained space-based observations;

(C) measurements of tracer, including isotopes and non-carbon dioxide gases;

(D) carbon cycle monitoring;

(E) carbon cycle modeling;

(F) measurement traceability and comparability;

(G) data assimilation and analysis; and

(H) data archive management and data access; and

(5) establish and define mechanisms for ensuring continuity of domestic and international greenhouse gas measurements, and contribute to international efforts to build and operate a global greenhouse gas information system, in coordination with the World Meteorological Organization and other international organizations and agencies, as appropriate.

SEC. 5. REPORTS.

The Administrator shall, not less than every 4 years after the date of enactment of this Act and in coordination with the agencies described in section 3, submit a report to the Senate Committee on Commerce, Science, and Transportation and the House of Representatives Committee on Science and Technology that includes—

(1) an analysis of the progress made toward achieving the goals and objectives of the plan outlined in section 4;

(2) an evaluation of the effectiveness of the system;

(3) recommendations concerning modifications to the system;

(4) an analysis of the consistency of reported greenhouse gas emission reductions with independent observations of atmospheric and Earth-system trends; and

(5) an update on changes or trends in Earth-system sources and sinks of greenhouse gases.

SEC. 6. AGREEMENTS.

(a) IN GENERAL.—The Administrator may enter into and perform such contracts, leases, grants, cooperative agreements, or other agreements as may be necessary to carry out the purposes of this Act.

(b) SPECIFIC AUTHORITY.—Notwithstanding any other provision of law, the Administrator may—

(1) enter into long-term leases of up to 20 years for the use of unimproved land to site small shelter facilities, antennae, and equipment including weather, tide, tidal currents, river, and air sampling or measuring equipment;

(2) enter into long-term licenses of up to 20 years at no cost to site facilities and equipment including weather, tide, tidal currents, river, and air sampling or measuring equipment;

(3) acquire (by purchase, lease, or otherwise), lease, sell, and dispose of or convey services, money, securities, or property (whether real, personal, intellectual, or of any other kind) or an interest therein;

(4) construct, improve, repair, operate, maintain, outgrant, and dispose of real or personal property, including buildings, facilities, and land; and

(5) waive capital lease scoring requirements for any lease of space on commercial antennas to support weather radio equipment, air sampling, or measuring equipment.

(c) CERTAIN LEASED EQUIPMENT.—Notwithstanding any other provision of law, rule, or regulation, leases of antenna or equipment on towers or other structures shall be considered operating leases for the purpose of capital lease scoring.

SEC. 7. EFFECT ON OTHER LAWS.

Nothing in this Act shall be construed to supersede or alter the existing authorities of any Federal agency with respect to Earth science research or greenhouse gas mitigation.

SEC. 8. DEFINITIONS.

In this Act:

(1) ADMINISTRATOR.—The term “Administrator” means the Administrator of the National Oceanic and Atmospheric Administration.

(2) EARTH-SYSTEM.—The term “Earth-system” means the Earth’s biosphere, including the ocean, atmosphere, and soils that influence the amounts of greenhouse gas in the atmosphere.

(3) GREENHOUSE GAS.—The term “greenhouse gas” means a gas in the atmosphere that increases the radiative forcing of the Earth-atmosphere system.

(4) INTERNATIONAL SYSTEM OF UNITS.—The term “International System of Units” means the modern metric system of units established in 1960 by the 11th General Conference on Weight and Measures.

(5) RADIATIVE FORCING.—The term “radiative forcing” means the measure of the influence that a substance or process has in altering the balance of incoming and outgoing energy in the Earth-system.

(6) SINK.—The term “sink” means the removal of a greenhouse gas from the atmosphere.

(7) SOURCE.—The term “source” means the emission of a greenhouse gas into the atmosphere.

(8) SYSTEM.—The term “system” means the national greenhouse gas observation and analysis system established under section 3.

(9) TRACER.—The term “tracer” means an atmospheric substance that can be used to assess or determine the origin of a greenhouse gas.

SEC. 9. AUTHORIZATION OF APPROPRIATIONS.

There are authorized to be appropriated to the Secretary of Commerce such sums as appropriate to carry out this Act.

SUBMITTED RESOLUTIONS

SENATE RESOLUTION 226—DESIGNATING SEPTEMBER 2009 AS “GOSPEL MUSIC HERITAGE MONTH” AND HONORING GOSPEL MUSIC FOR ITS VALUABLE CONTRIBUTIONS TO THE CULTURE OF THE UNITED STATES

Mrs. LINCOLN (for herself and Mrs. HUTCHISON) submitted the following resolution; which was referred to the Committee on the Judiciary:

S. RES. 226

Whereas gospel music is a beloved art form of the United States;

Whereas gospel music is a cornerstone of the musical traditions of the United States and has spread beyond origins in African-American spirituals to achieve popular cultural and historical relevance;

Whereas gospel music has spread beyond geographic origins in the United States to touch audiences around the world; and

Whereas gospel music is a testament to the universal appeal of a historical art form of the United States that both inspires and entertains across racial, ethnic, religious, and geographical boundaries: Now, therefore, be it

Resolved, That the Senate—

(1) designates September 2009 as “Gospel Music Heritage Month”; and

(2) recognizes the valuable contributions to the culture of the United States derived from the rich heritage of gospel music and gospel music artists.

SENATE RESOLUTION 227—DESIGNATING SEPTEMBER 2009 AS “TAY-SACHS AWARENESS MONTH”

Mr. BROWN submitted the following resolution; which was referred to the Committee on the Judiciary:

S. RES. 227

Whereas Tay-Sachs disease is a rare, genetic disorder that causes destruction of nerve cells in the brain and spinal cord due to the poor functioning of an enzyme called hexosaminidase A;

Whereas there is no proven treatment or cure for Tay-Sachs disease and the disease is always fatal in children;

Whereas the disorder was named after Warren Tay, an ophthalmologist from the United Kingdom, and Bernard Sachs, a neurologist from the United States, both of whom contributed to the discovery of the disease in the 1880s;

Whereas Tay-Sachs disease often affects families with no prior history of the disease;

Whereas approximately 1 in 27 Ashkenazi Jews, 1 in 30 Louisianan Cajuns, 1 in 30 French Canadians, 1 in 50 Irish Americans, and 1 in every 250 people are carriers of Tay-Sachs disease, which means approximately 1,500,000 people in the United States are carriers;

Whereas unaffected carriers of the disease possess the recessive gene that can trigger the disease in future generations;

Whereas, if both parents of a child are carriers of Tay-Sachs disease, there is a 1 in 4 chance that the child will develop Tay-Sachs disease;

Whereas a simple and inexpensive blood test can determine if an individual is a carrier of Tay-Sachs disease, and all people in

the United States, especially those people who are members of high-risk populations, should be screened; and

Whereas raising awareness of Tay-Sachs disease is the best way to fight this horrific disease: Now, therefore, be it

Resolved, That the Senate designates September 2009 as "Tay-Sachs Awareness Month".

SENATE RESOLUTION 228—DESIGNATING THE WEEK BEGINNING SEPTEMBER 14, 2009, AS "NATIONAL DIRECT SUPPORT PROFESSIONALS RECOGNITION WEEK"

Mr. NELSON of Nebraska (for himself, Mr. KERRY, Mr. BROWNBACK, Mr. KENNEDY, Ms. COLLINS, Mr. CARPER, Mr. BUNNING, Ms. SNOWE, Mr. DODD, and Mr. SCHUMER) submitted the following resolution; which was considered and agreed to:

S. RES. 228

Whereas direct support workers, direct care workers, personal assistants, personal attendants, in-home support workers, and paraprofessionals (referred to in this preamble as "direct support professionals") are the primary providers of publicly funded long term support and services for millions of individuals;

Whereas a direct support professional must build a close, trusted relationship with an individual with disabilities;

Whereas a direct support professional assists an individual with disabilities with the most intimate needs, on a daily basis;

Whereas direct support professionals provide a broad range of support, including—

- (1) preparation of meals;
- (2) helping with medications;
- (3) bathing;
- (4) dressing;
- (5) mobility;
- (6) getting to school, work, religious, and recreational activities; and
- (7) general daily affairs;

Whereas a direct support professional provides essential support to help keep an individual with disabilities connected to the family and community of the individual;

Whereas direct support professionals enable individuals with disabilities to live meaningful, productive lives;

Whereas direct support professionals are the key to allowing an individual with disabilities to live successfully in the community of the individual, and to avoid more costly institutional care;

Whereas the majority of direct support professionals are female, and many are the sole breadwinners of their families;

Whereas direct support professionals work and pay taxes, but many remain impoverished and are eligible for the same Federal and State public assistance programs on which the individuals with disabilities served by the direct support professionals must depend;

Whereas Federal and State policies, as well as the Supreme Court, in *Olmstead v. L.C.*, 527 U.S. 581 (1999), assert the right of an individual to live in the home and community of the individual;

Whereas, in 2008, the majority of direct support professionals are employed in home and community-based settings and this trend is projected to increase over the next decade;

Whereas there is a documented critical and growing shortage of direct support profes-

sionals in every community throughout the United States; and

Whereas many direct support professionals are forced to leave jobs due to inadequate wages and benefits, creating high turnover and vacancy rates that research demonstrates adversely affects the quality of support to individuals with disabilities: Now, therefore, be it

Resolved, That the Senate—

(1) designates the week beginning September 14, 2009, as "National Direct Support Professionals Recognition Week";

(2) recognizes the dedication and vital role of direct support professionals in enhancing the lives of individuals with disabilities of all ages;

(3) appreciates the contribution of direct support professionals in supporting the needs that reach beyond the capacities of millions of families in the United States;

(4) commends direct support professionals as integral in supporting the long-term support and services system of the United States; and

(5) finds that the successful implementation of the public policies of the United States depends on the dedication of direct support professionals.

SENATE RESOLUTION 229—DESIGNATING THE WEEK BEGINNING AUGUST 30, 2009, AS "NATIONAL HISTORICALLY BLACK COLLEGES AND UNIVERSITIES WEEK"

Mr. GRAHAM (for himself, Mr. ALEXANDER, Mr. BAYH, Mr. BOND, Mrs. BOXER, Mr. BROWN, Mr. BROWNBACK, Mr. BUNNING, Mr. BURR, Mr. BYRD, Mr. CARDIN, Mr. CHAMBLISS, Mr. COBURN, Mr. COCHRAN, Mr. CORKER, Mr. CORNYN, Mr. DEMINT, Mr. DURBIN, Mrs. HAGAN, Mrs. HUTCHISON, Mr. ISAKSON, Mr. KAUFMAN, Ms. LANDRIEU, Mr. LEVIN, Mrs. LINCOLN, Mr. MCCAIN, Mrs. MCCASKILL, Mr. MENENDEZ, Ms. MIKULSKI, Mr. SESSIONS, Mr. SPECTER, Ms. STABENOW, Mr. VITTER, Mr. VOINOVICH, Mr. WARNER, and Mr. WICKER) submitted the following resolution; which was considered and agreed to:

S. RES. 229

Whereas there are 103 historically Black colleges and universities in the United States;

Whereas historically Black colleges and universities provide the quality education essential to full participation in a complex, highly technological society;

Whereas historically Black colleges and universities have a rich heritage and have played a prominent role in the history of the United States;

Whereas historically Black colleges and universities allow talented and diverse students, many of whom represent underserved populations, to attain their full potential through higher education; and

Whereas the achievements and goals of historically Black colleges and universities are deserving of national recognition: Now, therefore, be it

Resolved, That the Senate—

(1) designates the week beginning August 30, 2009, as "National Historically Black Colleges and Universities Week"; and

(2) calls on the people of the United States and interested groups to observe the week with appropriate ceremonies, activities, and programs to demonstrate support for histori-

cally Black colleges and universities in the United States.

SENATE RESOLUTION 230—DESIGNATING RICHARD A. BAKER AS HISTORIAN EMERITUS OF THE UNITED STATES SENATE

Mr. REID (for himself, Mr. MCCONNELL, Mr. AKAKA, Mr. ALEXANDER, Mr. BARRASSO, Mr. BAUCUS, Mr. BAYH, Mr. BEGICH, Mr. BENNET, Mr. BENNETT, Mr. BINGAMAN, Mr. BOND, Mrs. BOXER, Mr. BROWN, Mr. BROWNBACK, Mr. BUNNING, Mr. BURR, Mr. BURRIS, Mr. BYRD, Ms. CANTWELL, Mr. CARDIN, Mr. CARPER, Mr. CASEY, Mr. CHAMBLISS, Mr. COBURN, Mr. COCHRAN, Ms. COLLINS, Mr. CONRAD, Mr. CORKER, Mr. CORNYN, Mr. CRAPO, Mr. DEMINT, Mr. DODD, Mr. DORGAN, Mr. DURBIN, Mr. ENSIGN, Mr. ENZI, Mr. FEINGOLD, Mrs. FEINSTEIN, Mr. FRANKEN, Mrs. GILLIBRAND, Mr. GRAHAM, Mr. GRASSLEY, Mr. GREGG, Mrs. HAGAN, Mr. HARKIN, Mr. HATCH, Mrs. HUTCHISON, Mr. INHOFE, Mr. INOUE, Mr. ISAKSON, Mr. JOHANNIS, Mr. JOHNSON, Mr. KAUFMAN, Mr. KENNEDY, Mr. KERRY, Ms. KLOBUCHAR, Mr. KOHL, Mr. KYL, Ms. LANDRIEU, Mr. LAUTENBERG, Mr. LEAHY, Mr. LEVIN, Mr. LIEBERMAN, Mrs. LINCOLN, Mr. LUGAR, Mr. MARTINEZ, Mr. MCCAIN, Mrs. MCCASKILL, Mr. MENENDEZ, Mr. MERKLEY, Ms. MIKULSKI, Ms. MURKOWSKI, Mrs. MURRAY, Mr. NELSON of Nebraska, Mr. NELSON of Florida, Mr. PRYOR, Mr. REED, Mr. RISCH, Mr. ROBERTS, Mr. ROCKEFELLER, Mr. SANDERS, Mr. SCHUMER, Mr. SESSIONS, Mrs. SHAHEEN, Mr. SHELBY, Ms. SNOWE, Mr. SPECTER, Ms. STABENOW, Mr. TESTER, Mr. THUNE, Mr. UDALL of Colorado, Mr. UDALL of New Mexico, Mr. VITTER, Mr. VOINOVICH, Mr. WARNER, Mr. WEBB, Mr. WHITEHOUSE, Mr. WICKER, and Mr. WYDEN) submitted the following resolution; which was considered and agreed to:

S. RES. 230

Whereas, Richard A. Baker will retire from the United States Senate after serving with distinction as the Senate's first historian from 1975 to 2009, and as acting curator from 1969 to 1970;

Whereas, Richard A. Baker has dedicated his Senate service to preserving, protecting, and promoting the history of the Senate and its members;

Whereas, Richard A. Baker has produced or directed production of numerous books, articles, and pamphlets detailing the rich institutional history of the Senate;

Whereas, Richard A. Baker has worked with senators and Senate committees to archive their records and to make them available for scholarly research in a timely manner;

Whereas, Richard A. Baker has assisted in the Senate's commemoration of events of historical significance and in the development of exhibitions and educational programs on the history of the Senate and the U.S. Capitol;

Whereas, Richard A. Baker has upheld the high standards and traditions of the Senate with abiding devotion, and has performed his Senate duties in an impartial and professional manner;

Whereas Richard A. Baker has earned the respect, affection, and esteem of the United States Senate: Now, therefore, be it

Resolved, That, effective September 1, 2009, as a token of the appreciation of the Senate for his long and faithful service, Richard A. Baker is hereby designated as Historian Emeritus of the United States Senate.

AMENDMENTS SUBMITTED AND PROPOSED

SA 1865. Mr. CORKER submitted an amendment intended to be proposed to amendment SA 1813 submitted by Mr. DORGAN to the bill H.R. 3183, making appropriations for energy and water development and related agencies for the fiscal year ending September 30, 2010, and for other purposes.

SA 1866. Mr. CORKER submitted an amendment intended to be proposed by him to the bill H.R. 3183, supra; which was ordered to lie on the table.

SA 1867. Mr. MERKLEY submitted an amendment intended to be proposed to amendment SA 1813 submitted by Mr. DORGAN to the bill H.R. 3183, supra.

SA 1868. Mr. MERKLEY submitted an amendment intended to be proposed to amendment SA 1813 submitted by Mr. DORGAN to the bill H.R. 3183, supra; which was ordered to lie on the table.

SA 1869. Mr. MERKLEY submitted an amendment intended to be proposed to amendment SA 1813 submitted by Mr. DORGAN to the bill H.R. 3183, supra; which was ordered to lie on the table.

SA 1870. Mr. MARTINEZ (for himself and Mr. NELSON, of Florida) submitted an amendment intended to be proposed to amendment SA 1813 submitted by Mr. DORGAN to the bill H.R. 3183, supra; which was ordered to lie on the table.

SA 1871. Mr. MARTINEZ (for himself and Mr. NELSON, of Florida) submitted an amendment intended to be proposed to amendment SA 1813 submitted by Mr. DORGAN to the bill H.R. 3183, supra; which was ordered to lie on the table.

SA 1872. Mr. MARTINEZ (for himself and Mr. NELSON, of Florida) submitted an amendment intended to be proposed to amendment SA 1813 submitted by Mr. DORGAN to the bill H.R. 3183, supra; which was ordered to lie on the table.

SA 1873. Mrs. HUTCHISON submitted an amendment intended to be proposed to amendment SA 1813 submitted by Mr. DORGAN to the bill H.R. 3183, supra; which was ordered to lie on the table.

SA 1874. Mr. NELSON, of Nebraska proposed an amendment to amendment SA 1813 submitted by Mr. DORGAN to the bill H.R. 3183, supra.

SA 1875. Mr. LAUTENBERG submitted an amendment intended to be proposed by him to the bill S. 685, to require new vessels for carrying oil fuel to have double hulls, and for other purposes; which was ordered to lie on the table.

SA 1876. Mr. BINGAMAN (for himself and Mr. UDALL, of New Mexico) submitted an amendment intended to be proposed to amendment SA 1813 submitted by Mr. DORGAN to the bill H.R. 3183, making appropriations for energy and water development and related agencies for the fiscal year ending September 30, 2010, and for other purposes; which was ordered to lie on the table.

SA 1877. Mr. WEBB (for himself and Mr. WARNER) submitted an amendment intended to be proposed to amendment SA 1813 submitted by Mr. DORGAN to the bill H.R. 3183, supra; which was ordered to lie on the table.

SA 1878. Mr. COBURN submitted an amendment intended to be proposed by him to the bill H.R. 3183, supra.

SA 1879. Mr. COBURN submitted an amendment intended to be proposed to amendment SA 1813 submitted by Mr. DORGAN to the bill H.R. 3183, supra.

SA 1880. Mr. COBURN submitted an amendment intended to be proposed by him to the bill H.R. 3183, supra; which was ordered to lie on the table.

SA 1881. Mr. COBURN submitted an amendment intended to be proposed by him to the bill H.R. 3183, supra; which was ordered to lie on the table.

SA 1882. Mr. COBURN submitted an amendment intended to be proposed to amendment SA 1813 submitted by Mr. DORGAN to the bill H.R. 3183, supra; which was ordered to lie on the table.

SA 1883. Mr. COBURN submitted an amendment intended to be proposed by him to the bill H.R. 3183, supra; which was ordered to lie on the table.

SA 1884. Mr. COBURN submitted an amendment intended to be proposed to amendment SA 1813 submitted by Mr. DORGAN to the bill H.R. 3183, supra.

SA 1885. Mr. SESSIONS submitted an amendment intended to be proposed to amendment SA 1813 submitted by Mr. DORGAN to the bill H.R. 3183, supra; which was ordered to lie on the table.

SA 1886. Mr. SANDERS submitted an amendment intended to be proposed to amendment SA 1813 submitted by Mr. DORGAN to the bill H.R. 3183, supra; which was ordered to lie on the table.

SA 1887. Ms. KLOBUCHAR submitted an amendment intended to be proposed to amendment SA 1813 submitted by Mr. DORGAN to the bill H.R. 3183, supra; which was ordered to lie on the table.

SA 1888. Ms. LANDRIEU (for herself and Mr. VITTER) submitted an amendment intended to be proposed to amendment SA 1813 submitted by Mr. DORGAN to the bill H.R. 3183, supra.

SA 1889. Mr. SPECTER (for himself and Mr. CASEY) submitted an amendment intended to be proposed to amendment SA 1813 submitted by Mr. DORGAN to the bill H.R. 3183, supra; which was ordered to lie on the table.

SA 1890. Mr. SPECTER (for himself and Mr. CASEY) submitted an amendment intended to be proposed to amendment SA 1813 submitted by Mr. DORGAN to the bill H.R. 3183, supra; which was ordered to lie on the table.

SA 1891. Mr. KAUFMAN (for himself and Mr. CARPER) submitted an amendment intended to be proposed to amendment SA 1813 submitted by Mr. DORGAN to the bill H.R. 3183, supra.

SA 1892. Mr. KYL (for himself and Ms. COLLINS) submitted an amendment intended to be proposed to amendment SA 1813 submitted by Mr. DORGAN to the bill H.R. 3183, supra.

SA 1893. Mr. MARTINEZ (for himself and Mr. NELSON, of Florida) submitted an amendment intended to be proposed to amendment SA 1813 submitted by Mr. DORGAN to the bill H.R. 3183, supra.

SA 1894. Mr. REID submitted an amendment intended to be proposed to amendment SA 1813 submitted by Mr. DORGAN to the bill H.R. 3183, supra; which was ordered to lie on the table.

SA 1895. Mr. DORGAN (for himself and Mr. BENNETT) submitted an amendment intended to be proposed to amendment SA 1813 submitted by Mr. DORGAN to the bill H.R. 3183, supra.

SA 1896. Mrs. BOXER submitted an amendment intended to be proposed to amendment SA 1813 submitted by Mr. DORGAN to the bill H.R. 3183, supra; which was ordered to lie on the table.

SA 1897. Mr. GRASSLEY submitted an amendment intended to be proposed to amendment SA 1813 submitted by Mr. DORGAN to the bill H.R. 3183, supra; which was ordered to lie on the table.

SA 1898. Mr. NELSON, of Florida (for himself and Mr. MARTINEZ) submitted an amendment intended to be proposed to amendment SA 1813 submitted by Mr. DORGAN to the bill H.R. 3183, supra; which was ordered to lie on the table.

SA 1899. Mr. NELSON, of Florida (for himself and Mr. MARTINEZ) submitted an amendment intended to be proposed to amendment SA 1813 submitted by Mr. DORGAN to the bill H.R. 3183, supra; which was ordered to lie on the table.

SA 1900. Mr. MENENDEZ (for himself and Mr. HATCH) submitted an amendment intended to be proposed to amendment SA 1813 submitted by Mr. DORGAN to the bill H.R. 3183, supra; which was ordered to lie on the table.

SA 1901. Mr. NELSON, of Florida (for himself, Mr. REID, Mr. MARTINEZ, Mr. AKAKA, and Mr. ENSIGN) submitted an amendment intended to be proposed to amendment SA 1813 submitted by Mr. DORGAN to the bill H.R. 3183, supra; which was ordered to lie on the table.

SA 1902. Mr. NELSON, of Florida (for himself, Mr. REID, Mr. MARTINEZ, Mr. AKAKA, and Mr. ENSIGN) submitted an amendment intended to be proposed to amendment SA 1813 submitted by Mr. DORGAN to the bill H.R. 3183, supra; which was ordered to lie on the table.

SA 1903. Mr. SANDERS (for himself, Mrs. SHAHEEN, and Mr. MERKLEY) submitted an amendment intended to be proposed to amendment SA 1813 submitted by Mr. DORGAN to the bill H.R. 3183, supra.

SA 1904. Mr. BOND submitted an amendment intended to be proposed by him to the bill H.R. 3357, to restore sums to the Highway Trust Fund, and for other purposes; which was ordered to lie on the table.

SA 1905. Mr. ENSIGN submitted an amendment intended to be proposed by him to the bill H.R. 3357, supra; which was ordered to lie on the table.

SA 1906. Mr. DEMINT submitted an amendment intended to be proposed by him to the bill H.R. 3357, supra; which was ordered to lie on the table.

SA 1907. Mr. VITTER submitted an amendment intended to be proposed by him to the bill H.R. 3357, supra; which was ordered to lie on the table.

TEXT OF AMENDMENTS

SA 1865. Mr. CORKER submitted an amendment intended to be proposed to amendment SA 1813 submitted by Mr. DORGAN to the bill H.R. 3183, making appropriations for energy and water development and related agencies for the fiscal year ending September 30, 2010, and for other purposes; as follows:

At the appropriate place, insert the following:

SEC. ____ . AUTHORITY OF THE SECRETARY OF THE TREASURY TO DELEGATE TARP ASSET MANAGEMENT; CREATION OF MANAGEMENT AUTHORITY FOR AUTOMOBILE MANUFACTURERS ASSISTED UNDER TARP.

(a) **AUTHORITY TO DESIGNATE MANAGEMENT.**—Section 106(b) of the Emergency Economic Stabilization Act of 2008 (12 U.S.C. 5216(b)) is amended by inserting before the period at the end the following: “, and the Secretary may delegate such management authority to a private entity, as the Secretary determines appropriate, with respect to any entity assisted under this Act”.

(b) **FEDERAL ASSISTANCE LIMITED.**—Notwithstanding any provision of the Emergency Economic Stabilization Act of 2008, or any other provision of law, no funds may be expended under the Emergency Economic Stabilization Act of 2008 (Public Law 110-343) or to carry out the Advanced Technology Vehicles Manufacturing Incentive Program established under section 136 of the Energy Independence and Security Act of 2007 (42 U.S.C. 17013) on or after the date of enactment of this Act, until the Secretary of the Treasury transfers all voting, nonvoting, and common equity in any designated automobile manufacturer to a limited liability company established by the Secretary for such purpose, to be held and managed in trust on behalf of the United States taxpayers.

(c) **APPOINTMENT OF TRUSTEES.**—

(1) **IN GENERAL.**—The President shall appoint 3 independent trustees to manage the equity held in the trust, separate and apart from the United States Government.

(2) **CRITERIA.**—Trustees appointed under this subsection

(A) may not be elected or appointed Government officials;

(B) shall serve at the pleasure of the President, and may be removed for just cause in violation of their fiduciary responsibilities only; and (C) shall serve without compensation for their services under his section.

(d) **DUTIES OF TRUST.**—Pursuant to protecting the interests and investment of the United States taxpayer, the trust established under this section shall, with the purpose of maximizing the profitability of the designated automobile manufacturers

(1) exercise the voting rights of the shares of the taxpayer on all core governance issues;

(2) select the representation on the boards of directors of any designated automobile manufacturer; and

(3) have a fiduciary duty to the American taxpayer for the maximization of the return on the investment of the taxpayer made under the Emergency Economic Stabilization Act of 2008, in the same manner and to the same extent that any director of an issuer of securities has with respect to its shareholders under the securities laws and all applications of State law.

(e) **LIQUIDATION.**—The trustees shall liquidate the trust established under this section, including the assets held by such trust, not later than December 24, 2011.

(f) **DEFINITIONS.**—As used in this section—

(1) the term “designated automobile manufacturer” means an entity organized under the laws of a State, the primary business of which is the manufacture of automobiles, and any affiliate thereof, if such automobile manufacturer—

(A) has received funds under the Emergency Economic Stabilization Act of 2008 (Public Law 110-343), or funds were obligated under that Act, before the date of enactment of this Act; and

(B) has filed for bankruptcy protection under chapter 11 of title 11, United States Code, during the 90-day period preceding the date of enactment of this Act;

(2) the term “Secretary” means the Secretary of the Treasury or the designee of the Secretary; and (3) the terms “director”, “issuer”, “securities”, and “securities laws” have the same meanings as in section 3 of the Securities Exchange Act of 1934 (15 U.S.C. 78c).

SA 1866. Mr. CORKER submitted an amendment intended to be proposed by him to the bill H.R. 3183, making appropriations for energy and water development and related agencies for the fiscal year ending September 30, 2010, and for other purposes; which was ordered to lie on the table; as follows:

At the appropriate place, insert the following:

SEC. ____ . REIMBURSEMENT OF AUTOMOBILE DISTRIBUTORS.

(a) **IN GENERAL.**—Notwithstanding any other provision of law, any funds provided by the United States Government, or any agency, department, or subdivision thereof, to an automobile manufacturer or a distributor thereof as credit, loans, financing, advances, or by any other agreement in connection with such automobile manufacturer's or distributor's proceeding as a debtor under title 11, United States Code, shall be conditioned upon use of such funds to fully reimburse all dealers of such automobile manufacturer or manufacturer's distributor for—

(1) the cost incurred by such dealers in acquisition of all parts and inventory in the dealer's possession as of the date on which the proceeding under title 11, United States Code, by or against the automobile manufacturer or manufacturer's distributor is commenced, on the same basis as if the dealers were terminating pursuant to existing franchise agreements or dealer agreements; and

(2) all other obligations owed by such automobile manufacturer or manufacturer's distributor under any other agreement between the dealers and the automobile manufacturer or manufacturer's distributor, including, without limitation, franchise agreement or dealer agreements.

(b) **INCLUSION IN TERMS.**—Any note, security agreement, loan agreement, or other agreement between an automobile manufacturer or manufacturer's distributor and the Government (or any agency, department, or subdivision thereof) shall expressly provide for the use of such funds as required by this section. A bankruptcy court may not authorize the automobile manufacturer or manufacturer's distributor to obtain credit under section 364 of title 11, United States Code, unless the credit agreement or agreements expressly provided for the use of funds as required by this section.

(c) **EFFECTIVENESS OF REJECTION.**—Notwithstanding any other provision of law, any rejection by an automobile manufacturer or manufacturer's distributor that is a debtor in a proceeding under title 11, United States Code, of a franchise agreement, or dealer agreement pursuant to section 365 of that title, shall not be effective until at least 180 days after the date on which such rejection is otherwise approved by a bankruptcy court.

SA 1867. Mr. MERKLEY submitted an amendment intended to be proposed to amendment SA 1813 submitted by Mr. DORGAN to the bill H.R. 3183, making appropriations for energy and water de-

velopment and related agencies for the fiscal year ending September 30, 2010, and for other purposes; as follows:

On page 43, line 16, before the period, insert the following: “: *Provided further*, That, in administering amounts made available by prior Act for projects covered by title XVII of the Energy Policy Act of 2005 (42 U.S.C. 16511 et seq.), the Secretary of Energy is required by that title to consider the taxable obligations of low-risk finance programs that substantially reduce or eliminate up-front costs for building owners to renovate or retrofit existing buildings to install energy efficiency or renewable energy technologies eligible for loan guarantees authorized under sections 1703 and 1705 of that Act (42 U.S.C. 16513, 16516)”.

SA 1868. Mr. MERKLEY submitted an amendment intended to be proposed to amendment SA 1813 submitted by Mr. DORGAN to the bill H.R. 3183, making appropriations for energy and water development and related agencies for the fiscal year ending September 30, 2010, and for other purposes; which was ordered to lie on the table; as follows:

On page 63, after line 23, add the following:

SEC. 3 ____ . No funds made available under this Act may be used for the permitting of any liquefied natural gas terminal in the United States if the terminal could liquify and export natural gas from any source located in the United States.

SA 1869. Mr. MERKLEY submitted an amendment intended to be proposed to amendment SA 1813 submitted by Mr. DORGAN to the bill H.R. 3183, making appropriations for energy and water development and related agencies for the fiscal year ending September 30, 2010, and for other purposes; which was ordered to lie on the table; as follows:

On page 63, after line 23, add the following:

SEC. 3 ____ . No funds made available under this Act may be used for the permitting of any liquefied natural gas terminal in the State of Oregon if the terminal could liquify and export natural gas from any source located in the United States.

SA 1870. Mr. MARTINEZ (for himself and Mr. NELSON of Florida) submitted an amendment intended to be proposed to amendment SA 1813 submitted by Mr. DORGAN to the bill H.R. 3183, making appropriations for energy and water development and related agencies for the fiscal year ending September 30, 2010, and for other purposes; which was ordered to lie on the table; as follows:

On page 17, between lines 16 and 17, insert the following:

SEC. 117. Of amounts not obligated under title IV of the American Recovery and Reinvestment Act of 2009 (Public Law 111-5), \$22,067,000 shall be made available to the Chief of Engineers for the Indian River Lagoon-South Project, Florida.

SA 1871. Mr. MARTINEZ (for himself and Mr. NELSON of Florida) submitted an amendment intended to be proposed to amendment SA 1813 submitted by Mr. DORGAN to the bill H.R. 3183, making appropriations for energy and

water development and related agencies for the fiscal year ending September 30, 2010, and for other purposes; which was ordered to lie on the table; as follows;

On page 3, line 11, strike "\$1,924,000,000" and insert "\$1,946,067,000".

On page 5, line 8, strike "Project." and insert the following: "Project: *Provided further*, That \$22,067,000 shall be made available for the Indian River Lagoon-South Project, Florida."

SA 1872. Mr. MARTINEZ (for himself and Mr. NELSON of Florida) submitted an amendment intended to be proposed to amendment SA 1813 submitted by Mr. DORGAN to the bill H.R. 3183, making appropriations for energy and water development and related agencies for the fiscal year ending September 30, 2010, and for other purposes; which was ordered to lie on the table; as follows;

On page 3, line 11, strike "\$1,924,000,000" and insert "\$1,946,067,000".

On page 5, line 8, strike "Project." and insert the following: "Project: *Provided further*, That \$22,067,000 shall be made available for the Indian River Lagoon-South Project, Florida."

On page 68, between lines 15 and 16, insert the following:

SEC. 503. Notwithstanding any other provision of this Act, each amount provided by this Act is reduced by the pro rata percentage required to reduce the total amount provided by this Act by \$22,067,000.

SA 1873. Mrs. HUTCHISON submitted an amendment intended to be proposed to amendment SA 1813 submitted by Mr. DORGAN to the bill H.R. 3183, making appropriations for energy and water development and related agencies for the fiscal year ending September 30, 2010, and for other purposes; which was ordered to lie on the table; as follows:

On page 34, Line 2, after "that", insert the following:

"\$8,000,000 is provided for the National Wind Resource Center: *Provided further*, That"

SA 1874. Mr. NELSON of Nebraska proposed an amendment to amendment SA 1813 submitted by Mr. DORGAN to the bill H.R. 3183, making appropriations for energy and water development and related agencies for the fiscal year ending September 30, 2010, and for other purposes; as follows:

In the appropriate place, insert the following:

SEC. _____. (a) The Senate finds that—

(1) the United States is facing a deep economic crisis that has caused millions of workers in the United States to lose their jobs;

(2) the collapse of the automotive industry in the United States would have dealt a devastating blow to an already perilous economy;

(3) on December 19, 2008, President George W. Bush stated: "The actions I'm announcing today represent a step that we wish were not necessary. But given the situation, it is the most effective and responsible way to ad-

dress this challenge facing our nation. By giving the auto companies a chance to restructure, we will shield the American people from a harsh economic blow at a vulnerable time and we will give American workers an opportunity to show the world, once again, they can meet challenges with ingenuity and determination and bounce back from tough times and emerge stronger than before.";

(4) on March 30, 2009, President Barack Obama stated: "We cannot, and must not, and we will not let our auto industry simply vanish. This industry is like no other—it's an emblem of the American spirit; a once and future symbol of America's success. It's what helped build the middle class and sustained it throughout the 20th century. It's a source of deep pride for the generations of American workers whose hard work and imagination led to some of the finest cars the world has ever known. It's a pillar of our economy that has held up the dreams of millions of our people. . . . These companies—and this industry—must ultimately stand on their own, not as wards of the state.";

(5) the Federal Government is a reluctant shareholder in General Motors Corporation and Chrysler Motors LLC in order to provide economic stability to the United States;

(6) the Federal Government should work to protect the investment of the taxpayers of the United States;

(7) the Federal Government should not intervene in the day-to-day management of General Motors or Chrysler; and

(8) the Federal Government should closely monitor General Motors and Chrysler to ensure that they are being responsible stewards of taxpayer dollars and are taking all practicable steps to expeditiously return to viability.

(b) It is the sense of the Senate that—

(1) the Federal government is only a temporary stakeholder in the automotive industry of the United States and should take all practicable steps to protect the taxpayer dollars of the United States and to divest the ownership interests of the Federal Government in automotive companies as expeditiously as practicable; and

(2) the Comptroller General of the United States, the Congressional Oversight Panel, and the Special Inspector General for the Troubled Assets Relief Program should continue to oversee and report to Congress on automotive companies receiving financial assistance so that the Federal Government may complete divestiture without delay.

SA 1875. Mr. LAUTENBERG submitted an amendment intended to be proposed by him to the bill S. 685, to require new vessels for carrying oil fuel to have double hulls, and for other purposes; which was ordered to lie on the table; as follows:

On page 24, line 13, insert "and" after the semicolon.

On page 24, strike lines 14 and 15.

On page 24, line 16, strike "(D)" and insert "(C)".

On page 33, line 7, insert closing quotation marks and a period after "section."

On page 33, strike lines 8 through 10.

At the end of the bill add the following:

SEC. 11. ELIMINATION OF CERTAIN REPORTS.

(a) INCIDENT REPORTS OF COAST GUARD FIRING ON VESSELS WITHOUT WARNING.—Section 205(d) of the Coast Guard and Maritime Transportation Act of 2004 (14 U.S.C. 637 note) is repealed.

(b) BIENNIAL AREA SECURITY MARITIME EXERCISE PROGRAM REPORTS.—Notwithstanding

the direction of the House of Representatives Committee on Appropriations on page 60 of Report 109-79 (109th Congress, 1st Session) under the headings "UNITED STATES COAST GUARD OPERATING EXPENSES" and "AREA SECURITY MARITIME EXERCISE PROGRAM", concerning the submission by the Coast Guard of reports to that Committee on the results of port security terrorism exercises, beginning with October, 2010, the Coast Guard shall submit only 1 such report each year.

SA 1876. Mr. BINGAMAN (for himself and Mr. UDALL of New Mexico) submitted an amendment intended to be proposed to amendment SA 1813 submitted by Mr. DORGAN to the bill H.R. 3183, making appropriations for energy and water development and related agencies for the fiscal year ending September 30, 2010, and for other purposes; which was ordered to lie on the table; as follows:

Beginning on page 3, strike line 1 and all that follows through page 6, line 10, and insert the following:

CONSTRUCTION, GENERAL

For expenses necessary for the construction of river and harbor, flood and storm damage reduction, shore protection, aquatic ecosystem restoration, and related projects authorized by law; for conducting detailed studies, and plans and specifications, of such projects (including those involving participation by States, local governments, or private groups) authorized or made eligible for selection by law (but such detailed studies, and plans and specifications, shall not constitute a commitment of the Government to construction); \$1,926,000,000, to remain available until expended; of which \$2,500,000 shall be made available for the Acequias Irrigation System, New Mexico; of which such sums as are necessary to cover the Federal share of construction costs for facilities under the Dredged Material Disposal Facilities program shall be derived from the Harbor Maintenance Trust Fund as authorized by Public Law 104-303; and of which such sums as are necessary pursuant to Public Law 99-662 shall be derived from the Inland Waterways Trust Fund, to cover one-half of the costs of construction, replacement, rehabilitation, and expansion of inland waterways projects (including only Chickamauga Lock, Tennessee; Kentucky Lock and Dam, Tennessee River, Kentucky; Lock and Dams 2, 3, and 4 Monongahela River, Pennsylvania; Markland Locks and Dam, Kentucky and Indiana; Olmsted Lock and Dam, Illinois and Kentucky; and Emsworth Locks and Dam, Ohio River, Pennsylvania) shall be derived from the Inland Waterways Trust Fund: *Provided*, That the Chief of Engineers is directed to use \$18,000,000 of the funds appropriated herein for the Dallas Floodway Extension, Texas, project, including the Cadillac Heights feature, generally in accordance with the Chief of Engineers report dated December 7, 1999: *Provided further*, That the Chief of Engineers is directed to use \$21,750,000 of funds available for the Marlinton, West Virginia Local Protection Project to continue engineering and design efforts, execute a project partnership agreement, and construct the project substantially in accordance with Alternative 1 as described in the Corps of Engineers Final Detailed Project Report and Environmental Impact Statement for Marlinton, West Virginia Local Protection Project dated September 2008: *Provided further*, That the Federal and non-Federal shares shall be

determined in accordance with the ability-to-pay provisions prescribed in section 103(m) of the Water Resources Development Act of 1986, as amended: *Provided further*, That the Chief of Engineers is directed to use \$2,750,000 of the funds appropriated herein for planning, engineering, design or construction of the Grundy, Buchanan County, and Dickenson County, Virginia, elements of the Levisa and Tug Forks of the Big Sandy River and Upper Cumberland River Project: *Provided further*, That the Chief of Engineers is directed to use \$4,000,000 of the funds appropriated herein to continue planning, engineering, design or construction of the Lower Mingo County, Upper Mingo County, Wayne County, McDowell County, West Virginia, elements of the Levisa and Tug Forks of the Big Sandy River and Upper Cumberland River Project.

MISSISSIPPI RIVER AND TRIBUTARIES

For expenses necessary for flood damage reduction projects and related efforts in the Mississippi River alluvial valley below Cape Girardeau, Missouri, as authorized by law, \$340,000,000, to remain available until expended, of which such sums as are necessary to cover the Federal share of eligible operation and maintenance costs for inland harbors shall be derived from the Harbor Maintenance Trust Fund: *Provided*, That the Secretary of the Army, acting through the Chief of Engineers is directed to use \$10,000,000 appropriated herein for construction of water withdrawal features of the Grand Prairie, Arkansas, project.

OPERATION AND MAINTENANCE

For expenses necessary for the operation, maintenance, and care of existing river and harbor, flood and storm damage reduction, aquatic ecosystem restoration, and related projects authorized by law; providing security for infrastructure owned or operated by the Corps, including administrative buildings and laboratories; maintaining harbor channels provided by a State, municipality, or other public agency that serve essential navigation needs of general commerce, where authorized by law; surveying and charting northern and northwestern lakes and connecting waters; clearing and straightening channels; and removing obstructions to navigation, \$2,448,000,000, to remain available until expended, of which \$2,188,000 shall be made available for the Upper Rio Grande Water Operations Model Study, New Mexico; of which such sums as

SA 1877. Mr. WEBB (for himself and Mr. WARNER) submitted an amendment intended to be proposed to amendment SA 1813 submitted by Mr. DORGAN to the bill H.R. 3183, making appropriations for energy and water development and related agencies for the fiscal year ending September 30, 2010, and for other purposes; which was ordered to lie on the table; as follows:

On page 5, line 8, strike "Project." and insert the following:
Project: *Provided further*, That \$100,000 shall be made available for the Norfolk Harbor, Craney Island, Virginia, project: *Provided further*, That \$900,000 shall be made available for the Norfolk Harbor and Channels (Deepening), Virginia, project.

SA 1878. Mr. COBURN submitted an amendment intended to be proposed by him to the bill H.R. 3183, making appropriations for energy and water development and related agencies for the

fiscal year ending September 30, 2010, and for other purposes; as follows:

At the appropriate place, insert the following:

SEC. _____. (a) Notwithstanding any other provision of this Act and except as provided in subsection (b), any report required to be submitted by a Federal agency or department to the Committee on Appropriations of either the Senate or the House of Representatives in an appropriations Act shall be posted on the public Website of that committee upon receipt by the committee.

(b) Subsection (a) shall not apply to a report if—

(1) the public posting of the report compromises national security; or

(2) the report contains proprietary information.

SA 1879. Mr. COBURN submitted an amendment intended to be proposed to amendment SA 1813 submitted by Mr. DORGAN to the bill H.R. 3183, making appropriations for energy and water development and related agencies for the fiscal year ending September 30, 2010, and for other purposes; as follows:

On page 44, line 4, strike "\$293,684,000" and insert "\$279,884,000".

SA 1880. Mr. COBURN submitted an amendment intended to be proposed by him to the bill H.R. 3183, making appropriations for energy and water development and related agencies for the fiscal year ending September 30, 2010, and for other purposes; which was ordered to lie on the table; as follows:

At the appropriate place, insert the following:

SEC. _____. Not more than \$20,000,000 of the funds made available by this Act may be used to carry out the Nuclear Power 21 demonstration program.

SA 1881. Mr. COBURN submitted an amendment intended to be proposed by him to the bill H.R. 3183, making appropriations for energy and water development and related agencies for the fiscal year ending September 30, 2010, and for other purposes; which was ordered to lie on the table; as follows:

At the appropriate place, insert the following:

SEC. _____. None of the funds made available in this Act may be used to refurbish the Los Alamos Neutron Science Center.

SA 1882. Mr. COBURN submitted an amendment intended to be proposed to amendment SA 1813 submitted by Mr. DORGAN to the bill H.R. 3183, making appropriations for energy and water development and related agencies for the fiscal year ending September 30, 2010, and for other purposes; which was ordered to lie on the table; as follows:

On page 3, line 11, strike "\$1,924,000,000" and insert "\$1,680,000,000".

SA 1883. Mr. COBURN submitted an amendment intended to be proposed by him to the bill H.R. 3183, making appropriations for energy and water development and related agencies for the fiscal year ending September 30, 2010,

and for other purposes; which was ordered to lie on the table; as follows:

At the appropriate place, insert the following:

SEC. _____. None of the funds made available in this Act may be used to carry out water and waste water environmental infrastructure projects.

SA 1884. Mr. COBURN submitted an amendment intended to be proposed to amendment SA 1813 submitted by Mr. DORGAN to the bill H.R. 3183, making appropriations for energy and water development and related agencies for the fiscal year ending September 30, 2010, and for other purposes; as follows:

At the appropriate place, insert the following:

SEC. _____. (a) Notwithstanding any other provision of this Act, none of the funds appropriated or otherwise made available by this Act may be used to make any payment in connection with a contract unless the contract is awarded using competitive procedures in accordance with the requirements of section 303 of the Federal Property and Administrative Services Act of 1949 (41 U.S.C. 253), section 2304 of title 10, United States Code, and the Federal Acquisition Regulation.

(b) Notwithstanding any other provision of this Act, none of the funds appropriated or otherwise made available by this Act may be awarded by grant unless the process used to award the grant uses competitive procedures to select the grantee or award recipient.

SA 1885. Mr. SESSIONS submitted an amendment intended to be proposed to amendment SA 1813 submitted by Mr. DORGAN to the bill H.R. 3183, making appropriations for energy and water development and related agencies for the fiscal year ending September 30, 2010, and for other purposes; which was ordered to lie on the table; as follows:

On page 17, between lines 16 and 17, insert the following:

SEC. 1. BARRIER ISLAND RESTORATION; ECOSYSTEM RESTORATION.

The matter under the heading "FLOOD CONTROL AND COASTAL EMERGENCIES" under the heading "CORPS OF ENGINEERS—CIVIL" under the heading "DEPARTMENT OF THE ARMY" under the heading "DEPARTMENT OF DEFENSE—CIVIL" of title IV of the Supplemental Appropriations Act, 2009 (Public Law 111-32; 123 Stat. 1875) is amended, in the second proviso, by striking "the Mississippi Gulf Coast" and inserting "all barrier islands affected by Hurricane Katrina".

SA 1886. Mr. SANDERS submitted an amendment intended to be proposed to amendment SA 1813 submitted by Mr. DORGAN to the bill H.R. 3183, making appropriations for energy and water development and related agencies for the fiscal year ending September 30, 2010, and for other purposes; which was ordered to lie on the table; as follows:

On page 34, line 7, before the period, insert the following: "Provided further, That an additional \$100,000,000 shall be used to make grants for energy efficiency improvement and energy sustainability under subsections (c) and (d) of section 399A of the Energy Policy and Conservation Act (42 U.S.C. 6371h-1): *Provided further*, That the amount made

available under the heading 'NUCLEAR ENERGY' shall be reduced by \$100,000,000".

SA 1887. Ms. KLOBUCHAR submitted an amendment intended to be proposed to amendment SA 1813 submitted by Mr. DORGAN to the bill H.R. 3183, making appropriations for energy and water development and related agencies for the fiscal year ending September 30, 2010, and for other purposes; which was ordered to lie on the table; as follows:

On page 37, line 8, before the period, insert the following: "Provided further, That, of the amount appropriated in this paragraph, \$25,000,000 shall be made available for the Clean Coal Power Initiative Round II".

SA 1888. Ms. LANDRIEU (for herself and Mr. VITTER) submitted an amendment intended to be proposed to amendment SA 1813 submitted by Mr. DORGAN to the bill H.R. 3183, making appropriations for energy and water development and related agencies for the fiscal year ending September 30, 2010, and for other purposes; which was ordered to lie on the table; as follows:

On page 17, between lines 16 and 17, insert the following:

SEC. 1. PROJECT FOR PERMANENT PUMPS AND CLOSURE STRUCTURES, LAKE PONTCHARTRAIN, LOUISIANA.

(a) DEFINITIONS.—In this section:

(1) PROJECT.—The term "project" means the project for permanent pumps and closure structures at or near the lakefront at Lake Pontchartrain and modifications to the 17th Street, Orleans Avenue, and London Avenue canals in and near the city of New Orleans that is—

(A) authorized by the matter under the heading "GENERAL PROJECTS" in section 204 of the Flood Control Act of 1965 (Public Law 89-298; 79 Stat. 1077); and

(B) modified by—

(i) the matter under the heading "FLOOD CONTROL AND COASTAL EMERGENCIES (INCLUDING RESCISSION OF FUNDS)" under the heading "CORPS OF ENGINEERS—CIVIL" under the heading "DEPARTMENT OF THE ARMY" under the heading "DEPARTMENT OF DEFENSE—CIVIL" of chapter 3 of title II of the Emergency Supplemental Appropriations Act for Defense, the Global War on Terror, and Hurricane Recovery, 2006 (Public Law 109-234; 120 Stat. 454);

(ii) section 7012(a)(2) of the Water Resources Development Act of 2007 (Public Law 110-114; 121 Stat. 1279); and

(iii) the matter under the heading "FLOOD CONTROL AND COASTAL EMERGENCIES" under the heading "CORPS OF ENGINEERS—CIVIL" under the heading "DEPARTMENT OF THE ARMY" under the heading "DEPARTMENT OF DEFENSE—CIVIL" of chapter 3 of title III of the Supplemental Appropriations Act, 2008 (Public Law 110-252; 122 Stat. 2349).

(2) PUMPING STATION REPORT.—The term "pumping station report" means the report—

(A) prepared by the Secretary that contains the results of the investigation required under section 4303 of the U.S. Troop Readiness, Veterans' Care, Katrina Recovery, and Iraq Accountability Appropriations Act, 2007 (Public Law 110-28; 121 Stat. 154); and

(B) dated August 30, 2007.

(3) SECRETARY.—The term "Secretary" means the Secretary of the Army, acting through the Chief of Engineers.

(b) STUDY.—

(1) IN GENERAL.—In implementing the project, not later than 1 year after the date of enactment of this Act, the Secretary shall complete a study of the residual risks associated with the options identified as "Option 1", "Option 2", and "Option 2a", as described in the pumping station report.

(2) REQUIREMENTS.—In carrying out the study under paragraph (1), the Secretary shall identify which option described in that paragraph—

(A) is most technically advantageous;

(B) is most effective from an operational perspective in providing the greatest long-term reliability in reducing the risk of flooding to the New Orleans area; and

(C) would increase the overall drainage capacity of the region for all types of events.

(3) INDEPENDENT EXTERNAL PEER REVIEW.—

(A) DUTY OF SECRETARY.—In accordance with procedures established by the Chief of Engineers, the Secretary shall carry out an independent external peer review of—

(i) the results of the study under paragraph (1); and

(ii) each cost estimate completed for each option described in paragraph (1).

(B) REPORT.—

(i) IN GENERAL.—Not later than 90 days after the date of completion of the independent external peer review under subparagraph (A), in accordance with clause (ii), the Secretary shall submit a report to—

(I) the Committee on Environment and Public Works of the Senate;

(II) the Committee on Appropriations of the Senate;

(III) the Committee on Transportation and Infrastructure of the House of Representatives; and

(IV) the Committee on Appropriations of the House of Representatives.

(ii) CONTENTS.—The report described in clause (i) shall contain—

(I) the results of the study described in paragraph (1); and

(II) a description of the findings of the independent external peer review carried out under subparagraph (A).

(4) SUSPENSION OF CERTAIN ACTIVITIES.—The Secretary shall suspend each activity of the Secretary that would result in the design and construction of any pumping station covered by the pumping station report unless the activity is consistent with each option described in paragraph (1).

(5) FEASIBILITY REPORT.—As soon as practicable after the date of enactment of this Act, the Secretary shall submit to the Committee on Environment and Public Works of the Senate and the Committee on Transportation and Infrastructure of the House of Representatives a report that contains a feasibility level of analysis (including a cost estimate) for the project, as modified under this subsection.

(6) FUNDING.—In carrying out this subsection, the Secretary shall use amounts made available to modify the 17th Street, Orleans Avenue, and London Avenue drainage canals and install pumps and closure structures at or near the lakefront in the first proviso in the matter under the heading "FLOOD CONTROL AND COASTAL EMERGENCIES (INCLUDING RESCISSION OF FUNDS)" under the heading "CORPS OF ENGINEERS—CIVIL" under the heading "DEPARTMENT OF THE ARMY" under the heading "DEPARTMENT OF DEFENSE—CIVIL" of chapter 3 of title II of the Emergency Supplemental Appropriations Act for Defense, the Global War on Terror, and Hurricane Recovery, 2006 (Public Law 109-234; 120 Stat. 454).

SA 1889. Mr. SPECTER (for himself and Mr. CASEY) submitted an amendment intended to be proposed to amendment SA 1813 submitted by Mr. DORGAN to the bill H.R. 3183, making appropriations for energy and water development and related agencies for the fiscal year ending September 30, 2010, and for other purposes; which was ordered to lie on the table; as follows:

On page 17, between lines 16 and 17, insert the following:

SEC. 1. Section 1001(38) of the Water Resources Development Act of 2007 (121 Stat. 1055) is amended—

(1) by striking "\$44,500,000" and inserting "\$65,000,000";

(2) by striking "\$28,925,000" and inserting "\$42,250,000"; and

(3) by striking "\$15,575,000" and inserting "\$22,750,000".

SA 1890. Mr. SPECTER (for himself and Mr. CASEY) submitted an amendment intended to be proposed to amendment SA 1813 submitted by Mr. DORGAN to the bill H.R. 3183, making appropriations for energy and water development and related agencies for the fiscal year ending September 30, 2010, and for other purposes; which was ordered to lie on the table; as follows:

On page 17, between lines 16 and 17, insert the following:

SEC. 1. (a) The project for flood protection, Lackawanna River at Scranton, Pennsylvania, as authorized under section 101(17) of the Water Resources Development Act of 1992 (106 Stat. 4803; 110 Stat. 3672), is modified to authorize the Secretary of the Army, acting through the Chief of Engineers, to implement nonstructural flood control measures in accordance with section 103 of the Water Resources Development Act of 1986 (33 U.S.C. 2213).

(b) The non-Federal sponsor for the project described in subsection (a) shall receive credit towards the share of the nonstructural project costs of the non-Federal sponsor for work carried out by the non-Federal sponsor, as described in the document entitled "Federal Emergency Management Agency Mitigation Plan, Scranton, Pennsylvania" and dated June 2009.

SA 1891. Mr. KAUFMAN (for himself and Mr. CARPER) submitted an amendment intended to be proposed to amendment SA 1813 submitted by Mr. DORGAN to the bill H.R. 3183, making appropriations for energy and water development and related agencies for the fiscal year ending September 30, 2010, and for other purposes; as follows:

On page 5, line 8, strike "Project." and insert the following:

Project: *Provided further*, That none of the funds made available by this Act may be used to carry out any portion of the Delaware River Main Channel Deepening Project identified in the committee report accompanying this Act that is located in the State of Delaware until the date on which the government of the State of Delaware issues an applicable project permit for the Delaware River Main Channel Deepening Project.

SA 1892. Mr. KYL (for himself and Ms. COLLINS) submitted an amendment intended to be proposed to amendment

SA 1813 submitted by Mr. DORGAN to the bill H.R. 3183, making appropriations for energy and water development and related agencies for the fiscal year ending September 30, 2010, and for other purposes; as follows:

On page 63, after line 23, insert the following:

SEC. 312. (a) Except as provided in subsection (b), none of the funds appropriated or otherwise made available by this title for the Strategic Petroleum Reserve may be made available to any person that as of the enactment of this Act—

(1) is selling refined petroleum products valued at \$1,000,000 or more to the Islamic Republic of Iran;

(2) is engaged in an activity valued at \$1,000,000 or more that could contribute to enhancing the ability of the Islamic Republic of Iran to import refined petroleum products, including—

(A) providing ships or shipping services to deliver refined petroleum products to the Islamic Republic of Iran;

(B) underwriting or otherwise providing insurance or reinsurance for such an activity; or

(C) financing or brokering such an activity; or

(3) is selling, leasing, or otherwise providing to the Islamic Republic of Iran any goods, services, or technology valued at \$1,000,000 or more that could contribute to the maintenance or expansion of the capacity of the Islamic Republic of Iran to produce refined petroleum products.

(b) The prohibition on the use of funds under subsection (a) shall not apply with respect to any contract entered into by the United States Government before the date of the enactment of this Act.

(c) If the Secretary determines a person made ineligible by this section has ceased the activities enumerated in (a)(1)–(3) that person shall no longer be ineligible under this section.

SA 1893. Mr. MARTINEZ (for himself and Mr. NELSON of Florida) submitted an amendment intended to be proposed to amendment SA 1813 submitted by Mr. DORGAN to the bill H.R. 3183, making appropriations for energy and water development and related agencies for the fiscal year ending September 30, 2010, and for other purposes; as follows:

On page 17, between lines 16 and 17, insert the following:

SEC. 1 _____. As soon as practicable after the date of enactment of this Act, from funds made available before the date of enactment of this Act for the Tampa Harbor Big Bend Channel project, the Secretary of the Army shall reimburse the non-Federal Sponsor of the Tampa Harbor Big Bend Channel project for the Federal share of the dredging work carried out for the project.

SA 1894. Mr. REID submitted an amendment intended to be proposed to amendment SA 1813 submitted by Mr. DORGAN to the bill H.R. 3183, making appropriations for energy and water development and related agencies for the fiscal year ending September 30, 2010, and for other purposes; which was ordered to lie on the table; as follows:

On page 42, line 25, strike “such funds.” and insert the following:

such funds: *Provided further*, That, of the funds made available under this Act, \$5,000,000 shall be made available to the Secretary of Energy to carry out the Blue Ribbon Commission on nuclear waste to consider alternative solutions for nuclear waste management and disposal.

SA 1895. Mr. DORGAN (for himself and Mr. BENNETT) submitted an amendment intended to be proposed to amendment SA 1813 submitted by Mr. DORGAN to the bill H.R. 3183, making appropriations for energy and water development and related agencies for the fiscal year ending September 30, 2010, and for other purposes; as follows:

On page 63, after line 23, add the following:

SEC. 312. None of the funds appropriated or otherwise made available by this Act may be used by the Department of Energy to enter into any federal contract unless such contract is entered into in accordance with the requirements of the Federal Property and Administrative Services Act of 1949 (41 U.S.C. 253) or Chapter 137 of title 10, United States Code, and the Federal Acquisition Regulation, unless such contract is otherwise authorized by statute to be entered into without regard to the above referenced statutes.”

SA 1896. Mrs. BOXER submitted an amendment intended to be proposed to amendment SA 1813 submitted by Mr. DORGAN to the bill H.R. 3183, making appropriations for energy and water development and related agencies for the fiscal year ending September 30, 2010, and for other purposes; which was ordered to lie on the table; as follows:

On page 33, between lines 13 and 14, insert the following:

SEC. _____. (a) Section 3405(a)(1)(M) of Public Law 102-575 (106 Stat. 4709) is amended by striking “countries” and inserting “counties”.

(b) A transfer of water between a Friant Division contractor and a south-of-Delta CVP agricultural water service contractor, approved during a two-year period beginning on the date of enactment of this Act shall be deemed to meet the conditions set forth in subparagraphs (A) and (I) of section 3405 (a)(1) of Public Law 102-575 (106 Stat. 4709) if the transfer under this clause (1) does not interfere with the San Joaquin River Restoration Settlement Act (Part I of subtitle A of title X of Public Law 111-11; 123 Stat. 1349) (including the priorities described in section 10004(a)(4)(B) of that Act relating to implementation of paragraph 16 of the Settlement) and the Settlement (as defined in section 10003 of that Act), and (2) is completed by September 30, 2012.

(c) As soon as practicable after the date of enactment of this Act, the Secretary of the Interior, acting through the Director of the United States Fish and Wildlife Service, shall revise, finalize and implement the applicable draft recovery plan for the Giant Garter Snake (*Thamnophis gigas*).

SA 1897. Mr. GRASSLEY submitted an amendment intended to be proposed to amendment SA 1813 submitted by Mr. DORGAN to the bill H.R. 3183, making appropriations for energy and water development and related agencies for the fiscal year ending September 30, 2010, and for other purposes; which was ordered to lie on the table; as follows:

On page 68, after line 16, add the following:

SEC. 503. AUTOMOBILE DEALER ECONOMIC RIGHTS RESTORATION.

(a) FINDINGS.—Congress finds the following:

(1) Automobile dealers are an asset to automobile manufacturers that make it possible to serve communities and sell automobiles nationally.

(2) Forcing the closure of automobile dealers would have an especially devastating economic impact in rural communities, where dealers play an integral role in the community, provide essential services, and serve as a critical economic engine.

(3) The automobile manufacturers obtain the benefits from having a national dealer network at no material cost to the manufacturers.

(4) Historically, automobile dealers have had franchise agreement protections under State law.

(b) RESTORATION OF ECONOMIC RIGHTS.—

(1) IN GENERAL.—In order to protect assets of the Federal Government and better assure the viability of automobile manufacturers in which the Federal Government has an ownership interest, or to which it is a lender, an automobile manufacturer in which the Federal Government has an ownership interest, or which receives loans from the Federal Government, may not deprive an automobile dealer of its economic rights and shall honor those rights as they existed, for Chrysler LLC dealers, prior to the commencement of the bankruptcy case by Chrysler LLC on April 30, 2009, and for General Motors Corp. dealers, prior to the commencement of the bankruptcy case by General Motors Corp. on June 1, 2009, including the dealer's rights to recourse under State law.

(2) RESTORATION OF FRANCHISE AGREEMENTS.—In order to preserve economic rights pursuant to paragraph (1), at the request of an automobile dealer, an automobile manufacturer covered under this section shall restore the franchise agreement between that automobile dealer and Chrysler LLC or General Motors Corp. that was in effect prior to the commencement of their respective bankruptcy cases and take assignment of such agreements.

(3) CONSTRUCTION.—Except as set forth herein, nothing in this section shall be construed to make null and void—

(A) the court approved transfer of substantially all the assets of Chrysler LLC to New CarCo Acquisition LLC; or

(B) a transfer of substantially all the assets of General Motors Corp. that could be approved by a court after June 8, 2009.

SA 1898. Mr. NELSON of Florida (for himself and Mr. MARTINEZ) submitted an amendment intended to be proposed to amendment SA 1813 submitted by Mr. DORGAN to the bill H.R. 3183, making appropriations for energy and water development and related agencies for the fiscal year ending September 30, 2010, and for other purposes; which was ordered to lie on the table; as follows:

On page 5, line 8, strike “Project.” and insert the following:

Project: *Provided further*, That \$26,500,000 shall be made available for the Site One Impoundment Project, Florida: *Provided further*, That, notwithstanding any other provision of this Act, each amount provided by this Act (other than the amount provided by the preceding proviso) is reduced by the pro rata percentage required to reduce the total amount provided by this Act by \$26,500,000.

SA 1899. Mr. NELSON of Florida (for himself and Mr. MARTINEZ) submitted an amendment intended to be proposed to amendment SA 1813 submitted by Mr. DORGAN to the bill H.R. 3183, making appropriations for energy and water development and related agencies for the fiscal year ending September 30, 2010, and for other purposes; which was ordered to lie on the table; as follows:

On page 5, line 8, strike "Project." and insert the following:

Project: *Provided further*, That \$26,500,000 shall be made available for the Site One Impoundment Project, Florida.

SA 1900. Mr. MENENDEZ (for himself and Mr. HATCH) submitted an amendment intended to be proposed to amendment SA 1813 submitted by Mr. DORGAN to the bill H.R. 3183, making appropriations for energy and water development and related agencies for the fiscal year ending September 30, 2010, and for other purposes; which was ordered to lie on the table; as follows:

On page 63, after line 23, add the following:

SEC. 3. (a) The Secretary of Energy may make grants to original equipment manufacturers of light-duty and heavy-duty natural gas vehicles for the development of engines that reduce emissions, improve performance and efficiency, and lower cost.

(b) The aggregate amount of grants under subsection (a) for any fiscal year shall not exceed \$5,000,000.

SA 1901. Mr. NELSON of Florida (for himself, Mr. REID, Mr. MARTINEZ, Mr. AKAKA, and Mr. ENSIGN) submitted an amendment intended to be proposed to amendment SA 1813 submitted by Mr. DORGAN to the bill H.R. 3183, making appropriations for energy and water development and related agencies for the fiscal year ending September 30, 2010, and for other purposes; which was ordered to lie on the table; as follows:

At the end, add the following:

SEC. . LIMITATION ON CERTAIN TRAVEL AND CONFERENCES POLICIES.

No agency or department of the United States may establish a travel or conference policy that takes into account the perception of a location as a resort or vacation destination in determining the location for an event.

SA 1902. Mr. NELSON of Florida (for himself, Mr. REID, Mr. MARTINEZ, Mr. AKAKA, and Mr. ENSIGN) submitted an amendment intended to be proposed to amendment SA 1813 submitted by Mr. DORGAN to the bill H.R. 3183, making appropriations for energy and water development and related agencies for the fiscal year ending September 30, 2010, and for other purposes; which was ordered to lie on the table; as follows:

On page 85, between lines 16 and 17, insert the following:

SEC. 745. No agency or department of the United States may use funds made available under this Act to enforce a travel or conference policy that prohibits an event from being held in a certain location based on a perception that the location is a resort or vacation destination.

SA 1903. Mr. SANDERS (for himself, Mrs. SHAHEEN, and Mr. MERKLEY) submitted an amendment intended to be proposed to amendment SA 1813 submitted by Mr. DORGAN to the bill H.R. 3183, making appropriations for energy and water development and related agencies for the fiscal year ending September 30, 2010, and for other purposes; as follows:

On page 34, line 7, before the period, insert the following: "Provided further, That within existing funds for industrial technologies \$15,000,000 shall be used to make technical assistance grants under subsection (b) of section 399A of the Energy Policy and Conversation Act (42 U.S.C. 6371h-1(b))"

SA 1904. Mr. BOND submitted an amendment intended to be proposed by him to the bill H.R. 3357, to restore sums to the Highway Trust Fund, and for other purposes; which was ordered to lie on the table; as follows:

At the appropriate place, insert the following:

SEC. . RESCISSION OF UNOBLIGATED BALANCES.

Section 10212 of the Safe, Accountable, Flexible, Efficient Transportation Equity Act: A Legacy for Users (119 Stat. 1937) is repealed.

SA 1905. Mr. ENSIGN submitted an amendment intended to be proposed by him to the bill H.R. 3357, to restore sums to the Highway Trust Fund, and for other purposes; which was ordered to lie on the table; as follows:

On page 3, after line 8, add the following:

SEC. 5. USE OF STIMULUS FUNDS TO OFFSET APPROPRIATION OF FUNDS TO REPLENISH UNEMPLOYMENT TRUST FUND.

The unobligated balance of each amount appropriated or made available under the American Recovery and Reinvestment Act of 2009 (Public Law 111-5) (other than under title X of division A of such Act) is rescinded pro rata such that the aggregate amount of such rescissions equals \$7,500,000,000 in order to offset the amount appropriated to the Unemployment Trust Fund under the amendment made by section 2 of this Act. The Director of the Office of Management and Budget shall report to each congressional committee the amounts so rescinded within the jurisdiction of such committee.

SA 1906. Mr. DEMINT submitted an amendment intended to be proposed by him to the bill H.R. 3357, to restore sums to the Highway Trust Fund, and for other purposes; which was ordered to lie on the table; as follows:

Strike all after the enacting clause and replace:

SECTION 1. FUNDING OF THE HIGHWAY TRUST FUND.

Subsection (f) of section 9503 of the Internal Revenue Code of 1986 (relating to determination of trust fund balances after September 30, 1998) is amended—

(1) by striking paragraph (2), and

(2) by adding at the end the following new "(2) INCREASE IN FUND BALANCE.—Out of money in the Treasury not otherwise appropriated, there is hereby appropriated (without fiscal year limitation) to the Highway Trust Fund \$7,000,000,000."

SEC. 2. ADVANCES TO THE UNEMPLOYMENT TRUST FUND AND OTHER FUNDS.

The item relating to "Department of Labor—Employment and Training Administration—Advances to the Unemployment Trust Fund and Other Funds" in title I of division F of the Omnibus Appropriations Act, 2009 (Public Law 111-8; 123 Stat. 754) is amended by striking "to remain available through September 30, 2010" and all that follows (before the heading for the following item) and inserting "such sums as may be necessary".

SEC. 3. FHA MORTGAGE INSURANCE COMMITMENT AUTHORITY.

The item relating to "Federal Housing Administration—Mutual Mortgage Insurance Program Account" in title II of division I of the Omnibus Appropriations Act, 2009 (Public Law 111-8; 123 Stat. 966) is amended by striking "\$315,000,000,000" and inserting "\$400,000,000,000".

SEC. 4. GNMA MORTGAGE-BACKED SECURITIES GUARANTEE COMMITMENT AUTHORITY.

The item relating to "Government National Mortgage Association—Guarantees of Mortgage-Backed Securities Loan Guarantee Program Account" in title II of division I of the Omnibus Appropriations Act, 2009 (Public Law 111-8; 123 Stat. 967) is amended by striking "\$300,000,000,000" and inserting "\$400,000,000,000".

SEC. 5. USE OF STIMULUS FUNDS TO OFFSET APPROPRIATION OF FUNDS.

The unobligated balance of each amount appropriated or made available under the American Recovery and Reinvestment Act of 2009 (Public Law 111-5) is rescinded pro rata such that the aggregate amount of such rescissions equals the aggregate amount appropriated under the amendments made by this Act. The Director of the Office of Management and Budget shall report to each congressional committee the amounts so rescinded within the jurisdiction of such committee.

SA 1907. Mr. VITTER submitted an amendment intended to be proposed by him to the bill H.R. 3357, to restore sums to the Highway Trust Fund, and for other purposes; which was ordered to lie on the table; as follows:

Strike sections 401, 402, 403, and 404, and insert the following:

SEC. 401. TEMPORARY PROTECTION OF HIGHWAY TRUST FUND SOLVENCY.

Notwithstanding section 5 of the American Recovery and Reinvestment Act of 2009 (Pub. Law 111-5), from the amounts appropriated or made available and remaining unobligated under such Act, the Director of the Office of Management and Budget shall transfer to the Highway Trust Fund such sums as the Secretary of Transportation determines in the aggregate will be necessary to ensure that the Highway Trust Fund balance does not fall below the threshold that would require a change from daily payments to weekly or biweekly payments of expenditures from the Highway Trust Fund through March 31, 2011. The Director of the Office of Management and Budget shall report to each congressional committee the amounts so transferred within the jurisdiction of such committee. The amounts so transferred shall remain available without fiscal year limitation.

AUTHORITY FOR COMMITTEES TO MEET

COMMITTEE ON BANKING, HOUSING, AND URBAN AFFAIRS

Mr. DORGAN. Mr. President, I ask unanimous consent that the Committee on Banking, Housing, and Urban Affairs be authorized to meet during the session of the Senate, on July 29, 2009 at 2:30 p.m., to conduct a hearing entitled "Protecting Shareholders and Enhancing Public Confidence by Improving Corporate Governance."

The PRESIDING OFFICER. Without objection, it is so ordered.

COMMITTEE ON COMMERCE, SCIENCE, AND TRANSPORTATION

Mr. DORGAN. Mr. President, I ask unanimous consent that the Committee on Commerce, Science, and Transportation be authorized to meet during the session of the Senate on Wednesday, July 29, 2009, at 2:30 p.m. in room 253 of the Russell Senate Office Building.

The PRESIDING OFFICER. Without objection, it is so ordered.

COMMITTEE ON ENVIRONMENT AND PUBLIC WORKS

Mr. DORGAN. Mr. President, I ask unanimous consent that the Committee on Environment and Public Works be authorized to meet during the session of the Senate on Wednesday, July 29, 2009.

The PRESIDING OFFICER. Without objection, it is so ordered.

COMMITTEE ON FOREIGN RELATIONS

Mr. DORGAN. Mr. President, I ask unanimous consent that the Committee on Foreign Relations be authorized to meet during the session of the Senate on Wednesday, July 29, 2009, at 10 a.m.

The PRESIDING OFFICER. Without objection, it is so ordered.

COMMITTEE ON FOREIGN RELATIONS

Mr. DORGAN. Mr. President, I ask unanimous consent that the Committee on Foreign Relations be authorized to meet during the session of the Senate on Wednesday, July 29, 2009, at 2:30 p.m.

The PRESIDING OFFICER. Without objection, it is so ordered.

COMMITTEE ON HOMELAND SECURITY AND GOVERNMENTAL AFFAIRS

Mr. DORGAN. Mr. President, I ask unanimous consent that the Committee on Homeland Security and Governmental Affairs be authorized to meet during the session of the Senate on Wednesday, July 29, 2009, at 10 a.m.

The PRESIDING OFFICER. Without objection, it is so ordered.

COMMITTEE ON HOMELAND SECURITY AND GOVERNMENTAL AFFAIRS

Mr. DORGAN. Mr. President, I ask unanimous consent that the Committee on Homeland Security and Governmental Affairs be authorized to meet during the session of the Senate on Wednesday, July 29, 2009, at 3 p.m.

The PRESIDING OFFICER. Without objection, it is so ordered.

COMMITTEE ON THE JUDICIARY

Mr. DORGAN. Mr. President, I ask unanimous consent that the Committee on the Judiciary be authorized to meet during the session of the Senate on July 29, 2009, at 10 a.m. in room SD-226 of the Dirksen Senate Office Building, to conduct a hearing entitled "Nominations."

The PRESIDING OFFICER. Without objection, it is so ordered.

COMMITTEE ON VETERANS' AFFAIRS

Mr. DORGAN. Mr. President, I ask unanimous consent that the Committee on Veterans' Affairs be authorized to meet during the session of the Senate on Wednesday, July 29, 2009. The Committee will meet in room 418 of the Russell Senate Office Building beginning at 9:15 a.m.

The PRESIDING OFFICER. Without objection, it is so ordered.

SPECIAL COMMITTEE ON AGING

Mr. DORGAN. Mr. President, I ask unanimous consent that the Special Committee on Aging be authorized to meet during the session of the Senate on July 29, 2009, from 2-4 p.m. in room 562 of the Dirksen Senate Office Building.

The PRESIDING OFFICER. Without objection, it is so ordered.

PRIVILEGES OF THE FLOOR

Mr. DODD. Madam President, I ask unanimous consent that Rachael Holt, an intern in my office, be granted the privileges of the floor during today's session.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. CORNYN. Mr. President, I ask unanimous consent that a member of my staff, Ramona McGee, and four of our law clerks, Amanda Hinson, Belisa Lay, Marisa Maleck, and John Heath, be granted floor privileges for the remainder of this session.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. MERKLEY. Mr. President, I ask unanimous consent that my intern, Patrick Chaney, be accorded the privilege of the floor for the duration of today.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

NATIONAL DEFENSE AUTHORIZATION ACT FOR FISCAL YEAR 2010

On Thursday, July 23, 2009, the Senate passed H.R. 2647, as amended, as follows:

H.R. 2647

Resolved, That the bill from the House of Representatives (H.R. 2647) entitled "An Act to authorize appropriations for fiscal year 2010 for military activities of the Department of Defense, for military construction,

and for defense activities of the Department of Energy, to prescribe military personnel strengths for such fiscal year, to provide special pays and allowances to certain members of the Armed Forces, expand concurrent receipt of military retirement and VA disability benefits to disabled military retirees, and for other purposes.", do pass with the following amendment:

Strike out all after the enacting clause and insert:

SECTION 1. SHORT TITLE.

This Act may be cited as the "National Defense Authorization Act for Fiscal Year 2010".

SEC. 2. ORGANIZATION OF ACT INTO DIVISIONS; TABLE OF CONTENTS.

(a) *DIVISIONS.*—*This Act is organized into seven divisions as follows:*

(1) *Division A—Department of Defense Authorizations.*

(2) *Division B—Military Construction Authorizations.*

(3) *Division C—Department of Energy National Security Authorizations and Other Authorizations.*

(4) *Division D—Funding Tables.*

(5) *Division E—Matthew Shepard Hate Crimes Prevention Act.*

(6) *Division F—SBIR/STTR Reauthorization.*

(7) *Division G—Maritime Administration Authorization.*

(b) *TABLE OF CONTENTS.*—*The table of contents for this Act is as follows:*

Sec. 1. Short title.

Sec. 2. Organization of Act into divisions; table of contents.

Sec. 3. Congressional defense committees.

DIVISION A—DEPARTMENT OF DEFENSE AUTHORIZATIONS

TITLE I—PROCUREMENT

Subtitle A—Authorization of Appropriations

Sec. 101. Army.

Sec. 102. Navy and Marine Corps.

Sec. 103. Air Force.

Sec. 104. Defense-wide activities.

Sec. 105. Funding table.

Sec. 106. Elimination of F-22A aircraft procurement funding.

Subtitle B—Navy Programs

Sec. 111. Treatment of Littoral Combat Ship program as a major defense acquisition program.

Sec. 112. Report on strategic plan for homeporting the Littoral Combat Ship.

Sec. 113. Procurement programs for future naval surface combatants.

Sec. 114. Report on a service life extension program for Oliver Hazard Perry class frigates.

Sec. 115. Competitive bidding for procurement of steam turbines for ships service turbine generators and main propulsion turbines for Ohio-class submarine replacement program.

Subtitle C—Air Force Matters

Sec. 121. Limitation on retirement of C-5 aircraft.

Sec. 122. Revised availability of certain funds available for the F-22A fighter aircraft.

Sec. 123. Report on potential foreign military sales of the F-22A fighter aircraft.

Sec. 124. Next generation bomber aircraft.

Sec. 125. AC-130 gunships.

Sec. 126. Report on E-8C Joint Surveillance and Target Attack Radar System reengineering.

Subtitle D—Joint and Multiservice Matters

Sec. 131. Modification of nature of data link utilizable by tactical unmanned aerial vehicles.

TITLE II—RESEARCH, DEVELOPMENT, TEST, AND EVALUATION

Subtitle A—Authorization of Appropriations
Sec. 201. Authorization of appropriations.

Subtitle B—Program Requirements, Restrictions, and Limitations

- Sec. 211. Limitation on use of funds for an alternative propulsion system for the F-35 Joint Strike Fighter program; increase in funding for procurement of UH-1Y/AH-1Z rotary wing aircraft and for management reserves for the F-35 Joint Strike Fighter program.
- Sec. 212. Enhancement of duties of Director of Department of Defense Test Resource Management Center with respect to the Major Range and Test Facility Base.
- Sec. 213. Guidance on specification of funding requested for operation, sustainment, modernization, and personnel of major ranges and test facilities.
- Sec. 214. Permanent authority for the Joint Defense Manufacturing Technology Panel.
- Sec. 215. Extension and enhancement of Global Research Watch Program.
- Sec. 216. Three-year extension of authority for prizes for advanced technology achievements.
- Sec. 217. Modification of report requirements regarding Defense Science and Technology Program.
- Sec. 218. Programs for ground combat vehicle and self propelled howitzer capabilities for the Army.
- Sec. 219. Assessment of technological maturity and integration risk of Army modernization programs.
- Sec. 220. Assessment of strategy for technology for modernization of the combat vehicle and tactical wheeled vehicle fleets.
- Sec. 221. Systems engineering and prototyping program.

Subtitle C—Missile Defense Programs

- Sec. 241. Sense of Congress on ballistic missile defense.
- Sec. 242. Comprehensive plan for test and evaluation of the Ballistic Missile Defense System.
- Sec. 243. Assessment and plan for the Ground-based Midcourse Defense element of the Ballistic Missile Defense System.
- Sec. 244. Report on potential missile defense cooperation with Russia.
- Sec. 245. Continued production of Ground-based Interceptor missile and operation of Missile Field 1 at Fort Greely, Alaska.
- Sec. 246. Sense of Senate on and reservation of funds for development and deployment of missile defense systems in Europe.
- Sec. 247. Extension of deadline for study on boost-phase missile defense.

Subtitle D—Other Matters

- Sec. 251. Repeal of requirement for biennial joint warfighting science and technology plan.
- Sec. 252. Modification of reporting requirement for defense nanotechnology research and development program.
- Sec. 253. Evaluation of Extended Range Modular Sniper Rifle Systems.

TITLE III—OPERATION AND MAINTENANCE

Subtitle A—Authorization of Appropriations

- Sec. 301. Operation and maintenance funding.

Subtitle B—Environmental Provisions

- Sec. 311. Reimbursement of Environmental Protection Agency for certain costs in connection with the former Nansemond Ordnance Depot Site, Suffolk, Virginia.

Subtitle C—Workplace and Depot Issues

- Sec. 321. Modification of authority for Army industrial facilities to engage in cooperative activities with non-Army entities.
- Sec. 322. Improvement of inventory management practices.
- Sec. 323. Temporary suspension of authority for public-private competitions.
- Sec. 323A. Public-private competition required before conversion of any department of defense function performed by civilian employees to contractor performance.
- Sec. 323B. Time limitation on duration of public-private competitions.
- Sec. 323C. Termination of certain public-private competitions for conversion of department of defense functions to performance by a contractor.
- Sec. 324. Extension of arsenal support program initiative.
- Sec. 325. Modification of date for submittal to Congress of annual report on funding for public and private performance of depot-level maintenance and repair workloads.

Subtitle D—Energy Provisions

- Sec. 331. Energy security on Department of Defense installations.
- Sec. 332. Extension and expansion of reporting requirements regarding Department of Defense energy efficiency programs.
- Sec. 333. Alternative Aviation Fuel Initiative.
- Sec. 334. Authorization of appropriations for Director of Operational Energy.
- Sec. 335. Department of Defense participation in programs for management of energy demand or reduction of energy usage during peak periods.

Subtitle E—Reports

- Sec. 341. Study on Army modularity.
- Sec. 342. Plan for managing vegetative encroachment at training ranges.
- Sec. 343. Report on status of Air National Guard and Air Force Reserve.

TITLE IV—MILITARY PERSONNEL AUTHORIZATIONS

Subtitle A—Active Forces

- Sec. 401. End strengths for active forces.
- Sec. 402. Additional authority for increases of Army active-duty end strengths for fiscal years 2010, 2011, and 2012.

Subtitle B—Reserve Forces

- Sec. 411. End strengths for Selected Reserve.
- Sec. 412. End strengths for Reserves on active duty in support of the Reserves.
- Sec. 413. End strengths for military technicians (dual status).
- Sec. 414. Fiscal year 2010 limitation on number of non-dual status technicians.
- Sec. 415. Maximum number of reserve personnel authorized to be on active duty for operational support.
- Sec. 416. Report on trainee account for the Army National Guard.
- Sec. 417. Authority for service Secretary variances for Selected Reserve end strengths.

Subtitle C—Authorization of Appropriations
Sec. 421. Military personnel.

TITLE V—MILITARY PERSONNEL POLICY

Subtitle A—Officer Personnel Policy

- Sec. 501. Modification of limitations on general and flag officers on active duty.

- Sec. 502. Revisions to annual report requirement on joint officer management.
- Sec. 503. Grade of Legal Counsel to the Chairman of the Joint Chiefs of Staff.
- Sec. 504. Chief and Deputy Chief of Chaplains of the Air Force.

Subtitle B—Reserve Component Management

- Sec. 511. Report on requirements of the National Guard for non-dual status technicians.

Subtitle C—Education and Training

- Sec. 521. Grade of commissioned officers in uniformed medical accession programs.
- Sec. 522. Expansion of criteria for appointment as member of the Board of Regents of the Uniformed Services University of the Health Sciences.
- Sec. 523. Detail of commissioned officers as students at schools of psychology.
- Sec. 524. Air Force Academy Athletic Association.

Subtitle D—Defense Dependents' Education Matters

- Sec. 531. Continuation of authority to assist local educational agencies that benefit dependents of members of the Armed Forces and Department of Defense civilian employees.
- Sec. 532. Impact aid for children with severe disabilities.
- Sec. 533. Two-year extension of authority for assistance to local educational agencies with enrollment changes due to base closures, force structure changes, or force relocations.
- Sec. 534. Permanent authority for enrollment in defense dependents' education system of dependents of foreign military members assigned to Supreme Headquarters Allied Powers, Europe.
- Sec. 535. Study on options for educational opportunities for dependent children of members of the Armed Forces who do not attend Department of Defense dependents schools.
- Sec. 536. Sense of Senate on the Interstate Compact on Educational Opportunity for Military Children.
- Sec. 537. Comptroller General audit of assistance to local educational agencies for dependent children of members of the Armed Forces.
- Sec. 538. Authority to extend eligibility for enrollment in Department of Defense elementary and secondary schools to certain additional categories of dependents.

Subtitle E—Military Justice and Legal Assistance Matters

- Sec. 541. Independent review of judge advocate requirements of the Department of the Navy.

Subtitle F—Military Family Readiness Matters

- Sec. 551. Additional members on the Department of Defense Military Family Readiness Council.
- Sec. 552. Comprehensive plan on prevention, diagnosis, and treatment of substance use disorders and disposition of substance abuse offenders in the Armed Forces.
- Sec. 553. Military community support for children with autism and their families.
- Sec. 554. Reports on effects of deployments on military children and the availability of mental health care and counseling services for military children.
- Sec. 555. Report on child custody litigation involving service of members of the Armed Forces.

Sec. 556. Sense of Senate on preparation and coordination of Family Care Plans.

Sec. 557. Expansion of suicide prevention and community healing and response training under the Yellow Ribbon Reintegration Program.

Sec. 558. Report on Yellow Ribbon Reintegration Program.

Sec. 559. Improved access to mental health care for family members of members of the National Guard and Reserve who are deployed overseas.

Sec. 560. Full access to mental health care for family members of members of the National Guard and Reserve who are deployed overseas.

Sec. 561. Comptroller General report on child care assistance for deployed members of the reserve components of the Armed Forces.

Subtitle G—Other Matters

Sec. 571. Deadline for report on sexual assault in the Armed Forces by Defense Task Force on Sexual Assault in the Military Services.

Sec. 572. Clarification of performance policies for military musical units and musicians.

Sec. 573. Guarantee of residency for spouses of military personnel for voting purposes.

Sec. 574. Determination for tax purposes of residence of spouses of military personnel.

Sec. 575. Suspension of land rights residency requirement for spouses of military personnel.

Sec. 576. Modification of Department of Defense share of expenses under National Guard Youth Challenge Program.

Sec. 577. Provision to members of the Armed Forces and their families of comprehensive information on benefits for members of the Armed Forces and their families.

Subtitle H—Military Voting

Sec. 581. Short title.

Sec. 582. Findings.

Sec. 583. Clarification regarding delegation of State responsibilities.

Sec. 584. Establishment of procedures for absent uniformed services voters and overseas voters to request and for states to send voter registration applications and absentee ballot applications by mail and electronically.

Sec. 585. Establishment of procedures for States to transmit blank absentee ballots by mail and electronically to absent uniformed services voters and overseas voters.

Sec. 586. Ensuring absent uniformed services voters and overseas voters have time to vote.

Sec. 587. Procedures for Collection and Delivery of Marked Absentee Ballots of Absent Overseas Uniformed Services Voters.

Sec. 588. Federal write-in absentee ballot.

Sec. 589. Prohibiting refusal to accept voter registration and absentee ballot applications, marked absentee ballots, and federal write-in absentee ballots for failure to meet certain requirements.

Sec. 590. Federal Voting Assistance Program Improvements.

Sec. 591. Development of standards for reporting and storing certain data.

Sec. 592. Repeal of provisions relating to use of single application for all subsequent elections.

Sec. 593. Reporting requirements.

Sec. 594. Annual report on enforcement.

Sec. 595. Requirements payments.

Sec. 596. Technology pilot program.

TITLE VI—COMPENSATION AND OTHER PERSONNEL BENEFITS

Subtitle A—Pay and Allowances

Sec. 601. Fiscal year 2010 increase in military basic pay.

Sec. 602. Comptroller General of the United States comparative assessment of military and private-sector pay and benefits.

Sec. 603. Increase in maximum monthly amount of supplemental subsistence allowance for low-income members with dependents.

Sec. 604. Benefits under Post-Deployment/Mobilization Respite Absence program for certain periods before implementation of program.

Subtitle B—Bonuses and Special and Incentive Pays

Sec. 611. Extension of certain bonus and special pay authorities for Reserve forces.

Sec. 612. Extension of certain bonus and special pay authorities for health care professionals.

Sec. 613. Extension of special pay and bonus authorities for nuclear officers.

Sec. 614. Extension of authorities relating to title 37 consolidated special pay, incentive pay, and bonus authorities.

Sec. 615. Extension of authorities relating to payment of other title 37 bonuses and special pays.

Sec. 616. Extension of authorities relating to payment of referral bonuses.

Sec. 617. Special compensation for members of the uniformed services with serious injuries or illnesses requiring assistance in everyday living.

Sec. 618. Temporary authority for monthly special pay for members of the Armed Forces subject to continuing active duty or service under stop-loss authorities.

Subtitle C—Travel and Transportation Allowances

Sec. 631. Travel and transportation allowances for designated individuals of wounded, ill, or injured members of the uniformed services for duration of inpatient treatment.

Sec. 632. Travel and transportation allowances for non-medical attendants of seriously wounded, ill, or injured members of the uniformed services.

Sec. 633. Travel and transportation allowances for members of the reserve components of the Armed Forces on leave for suspension of training.

Sec. 634. Reimbursement of travel expenses of members of the Armed Forces on active duty and their dependents for travel for specialty care under exceptional circumstances.

Sec. 635. Travel and transportation for survivors of deceased members of the uniformed services to attend memorial ceremonies.

Subtitle D—Other Matters

Sec. 651. Authority to continue provision of incentives after termination of temporary Army authority to provide additional recruitment incentives.

Sec. 652. Repeal of requirement of reduction of SBP survivor annuities by dependency and indemnity compensation.

Sec. 653. Sense of Congress on airfares for members of the Armed Forces.

Sec. 654. Continuation on active duty of reserve component members during physical disability evaluation following mobilization and deployment.

Sec. 655. Use of local residences for community-based care for certain reserve component members.

Sec. 656. Assistance with transitional benefits.

Sec. 657. Report on recruitment and retention of members of the Air Force in nuclear career fields.

Sec. 658. Sense of Congress on establishment of flexible spending arrangements for the uniformed services.

Sec. 659. Treatment as active service for retired pay purposes of service as member of Alaska Territorial Guard during World War II.

Sec. 660. Inclusion of service after September 11, 2001, in determination of reduced eligibility age for receipt of non-regular service retired pay.

TITLE VII—HEALTH CARE PROVISIONS

Subtitle A—TRICARE Program

Sec. 701. TRICARE Standard coverage for certain members of the Retired Reserve, and family members, who are qualified for a non-regular retirement but are not yet age 60.

Sec. 702. Expansion of eligibility of survivors under the TRICARE dental program.

Sec. 703. Constructive eligibility for TRICARE benefits of certain persons otherwise ineligible under retroactive determination of entitlement to Medicare part A hospital insurance benefits.

Sec. 704. Reform and improvement of the TRICARE program.

Sec. 705. Comptroller General of the United States report on implementation of requirements on the relationship between the TRICARE program and employer-sponsored group health plans.

Sec. 706. Sense of the Senate on health care benefits and costs for members of the Armed Forces and their families.

Sec. 707. Notification of certain individuals regarding options for enrollment under Medicare part B.

Subtitle B—Other Health Care Benefits

Sec. 711. Mental health assessments for members of the Armed Forces deployed in connection with a contingency operation.

Sec. 712. Enhancement of transitional dental care for members of the reserve components on active duty for more than 30 days in support of a contingency operation.

Sec. 713. Reduction of minimum distance of travel for reimbursement of covered beneficiaries of the military health care system for travel for specialty health care.

Sec. 714. Report on post-deployment health assessments of Guard and Reserve members.

Subtitle C—Health Care Administration

Sec. 721. Comprehensive policy on pain management by the military health care system.

Sec. 722. Plan to increase the behavioral health capabilities of the Department of Defense.

- Sec. 723. Department of Defense study on management of medications for physically and psychologically wounded members of the Armed Forces.
- Sec. 724. Prescription of antidepressants for troops serving in Iraq and Afghanistan.

Subtitle D—Wounded Warrior Matters

- Sec. 731. Pilot program for the provision of cognitive rehabilitative therapy services under the TRICARE program.
- Sec. 732. Department of Defense Task Force on the Care, Management, and Transition of Recovering Wounded, Ill, and Injured Members of the Armed Forces.
- Sec. 733. Report on use of alternative therapies in treatment of post-traumatic stress disorder.

TITLE VIII—ACQUISITION POLICY, ACQUISITION MANAGEMENT, AND RELATED MATTERS

Subtitle A—Amendments to General Contracting Authorities, Procedures, and Limitations

- Sec. 801. Contract authority for advanced development of prototype units.
- Sec. 802. Justification and approval of sole-source contracts.

Subtitle B—Acquisition Policy and Management

- Sec. 811. Reporting requirements for programs that qualify as both major automated information system programs and major defense acquisition programs.
- Sec. 812. Funding of Department of Defense Acquisition Workforce Development Fund.
- Sec. 813. Enhancement of expedited hiring authority for defense acquisition workforce positions.
- Sec. 814. Treatment of non-Defense Agency procurements under joint programs with the Department of Defense under limitations on non-Defense Agency procurements on behalf of the Department of Defense.
- Sec. 815. Comptroller General of the United States report on training of acquisition and audit personnel of the Department of Defense.

Subtitle C—Contractor Matters

- Sec. 821. Authority for government support contractors to have access to technical data belonging to prime contractors.
- Sec. 822. Extension and enhancement of authorities on the Commission on Wartime Contracting in Iraq and Afghanistan.
- Sec. 823. Prohibition on interrogation of detainees by contractor personnel.
- Sec. 824. Modifications to database for Federal agency contract and grant officers and suspension and debarment officials.

Subtitle D—Other Matters

- Sec. 831. Enhanced authority to acquire products and services produced in Central Asia, Pakistan, and the South Caucasus.
- Sec. 832. Small arms production industrial base matters.
- Sec. 833. Extension of SBIR and STTR programs of the Department of Defense.
- Sec. 834. Expansion and permanent authority for small business innovation research commercialization program.
- Sec. 835. Measures to ensure the safety of facilities, infrastructure, and equipment for military operations.

- Sec. 836. Repeal of requirements relating to the military system essential item breakout list.

- Sec. 837. Defense Science Board report on rare earth materials in the defense supply chain.

- Sec. 838. Small business contracting programs parity.

TITLE IX—DEPARTMENT OF DEFENSE ORGANIZATION AND MANAGEMENT

Subtitle A—Department of Defense Management

- Sec. 901. Deputy Under Secretaries of Defense and Assistant Secretaries of Defense.

- Sec. 902. Repeal of certain limitations on personnel and consolidation of reports on major Department of Defense headquarters activities.

- Sec. 903. Sense of Senate on the Western Hemisphere Institute for Security Cooperation.

- Sec. 904. Reestablishment of position of Vice Chief of the National Guard Bureau.

Subtitle B—Space Matters

- Sec. 911. Provision of space situational awareness services and information to non-United States Government entities.

- Sec. 912. Plan for management and funding of National Polar-Orbiting Operational Environmental Satellite System Program.

Subtitle C—Intelligence Matters

- Sec. 921. Inclusion of Defense Intelligence Agency in authority to use proceeds from counterintelligence operations.

Subtitle D—Other Matters

- Sec. 931. United States Military Cancer Institute.
- Sec. 932. Instruction of private sector employees in cyber security courses of the Defense Cyber Investigations Training Academy.
- Sec. 933. Plan on access to national airspace for unmanned aircraft.

TITLE X—GENERAL PROVISIONS

Subtitle A—Financial Matters

- Sec. 1001. General transfer authority.
- Sec. 1002. Audit readiness of financial statements of the Department of Defense.

Subtitle B—Naval Vessels and Shipyards

- Sec. 1011. Temporary reduction in minimum number of aircraft carriers in active service.
- Sec. 1012. Repeal of policy relating to the major combatant vessels of the strike forces of the United States Navy.
- Sec. 1013. Sense of Senate on the maintenance of a 313-ship Navy.
- Sec. 1014. Designation of U.S.S. Constitution as America's Ship of State.

Subtitle C—Counter-Drug Activities

- Sec. 1021. Extension and modification of authority to provide additional support for counter-drug activities of certain foreign governments.
- Sec. 1022. One-year extension of authority for joint task forces support to law enforcement agencies conducting counter-terrorism activities.
- Sec. 1023. One-year extension of authority to support unified counter-drug and counterterrorism campaign in Colombia.

Subtitle D—Military Commissions

- Sec. 1031. Military commissions.
- Sec. 1032. Trial by military commission of alien unprivileged belligerents for violations of the law of war.

- Sec. 1033. No Miranda warnings for Al Qaeda terrorists.

Subtitle E—Medical Facility Matters

- Sec. 1041. Short title.
- Sec. 1042. Executive agreement.
- Sec. 1043. Transfer of property.
- Sec. 1044. Transfer of civilian personnel of the Department of Defense.
- Sec. 1045. Joint funding authority for the Captain James A. Lovell Federal Health Care Center.

- Sec. 1046. Eligibility of members of the uniformed services for care and services at the Captain James A. Lovell Federal Health Care Center.
- Sec. 1047. Extension of DOD-VA Health Care Sharing Incentive Fund.

Subtitle F—Miscellaneous Requirements, Authorities, and Limitations

- Sec. 1051. Congressional earmarks relating to the Department of Defense.
- Sec. 1052. National strategic five-year plan for improving the nuclear forensic and attribution capabilities of the United States.
- Sec. 1053. One-year extension of authority to offer and make rewards for assistance in combating terrorism through government personnel of allied forces.
- Sec. 1054. Business process reengineering.
- Sec. 1055. Responsibility for preparation of biennial global positioning system report.

- Sec. 1056. Additional subpoena authority for the Inspector General of the Department of Defense.
- Sec. 1057. Reports on bandwidth requirements for major defense acquisition programs and major system acquisition programs.

- Sec. 1058. Multiyear contracts under pilot program on commercial fee-for-service air refueling support for the Air Force.
- Sec. 1059. Additional duty for advisory panel on Department of Defense capabilities for support of civil authorities after certain incidents.

Subtitle G—Reports

- Sec. 1071. National intelligence estimate on nuclear aspirations of non-state entities and nuclear weapons and related programs in non-nuclear-weapons states and countries not parties to the Nuclear Non-Proliferation Treaty.
- Sec. 1072. Comptroller General of the United States assessment of military whistleblower protections.
- Sec. 1073. Report on re-determination process for permanently incapacitated dependents of retired and deceased members of the Armed Forces.

- Sec. 1074. Comptroller General review of spending in the final quarter of fiscal year 2009 by the Department of Defense.
- Sec. 1075. Report on Air America.
- Sec. 1076. Report on criteria for selection of strategic embarkation ports and ship layberthing locations.

- Sec. 1077. Report on defense travel simplification.
- Sec. 1078. Report on modeling and simulation activities of United States Joint Forces Command.
- Sec. 1079. Report on enabling capabilities for special operations forces.

Subtitle H—Other Matters

- Sec. 1081. Transfer of Navy aircraft N40VT.

- Sec. 1082. Transfer of Big Crow aircraft.
 Sec. 1083. Plan for sustainment of land-based solid rocket motor industrial base.
 Sec. 1084. Pilot program on use of service dogs for the treatment or rehabilitation of veterans with physical or mental injuries or disabilities.
 Sec. 1085. Expansion of State home care for parents of veterans who died while serving in Armed Forces.
 Sec. 1086. Federal Employees Retirement System age and retirement treatment for certain retirees of the Armed Forces.
 Sec. 1087. Sense of Congress on manned airborne irregular warfare platforms.
 Sec. 1088. Extension of sunset for Congressional Commission on the Strategic Posture of the United States.
 Sec. 1089. Additional members and duties for independent panel to assess the quadrennial defense review.
 Sec. 1090. Contracting improvements.
 Sec. 1091. National D-Day Memorial study.
- TITLE XI—CIVILIAN PERSONNEL MATTERS**
 Subtitle A—Personnel
- Sec. 1101. Repeal of National Security Personnel System; Department of Defense personnel authorities.
 Sec. 1102. Extension and modification of experimental personnel management program for scientific and technical personnel.
 Sec. 1103. One-year extension of authority to waive annual limitation on premium pay and aggregate limitation on pay for Federal civilian employees working overseas.
 Sec. 1104. Availability of funds for compensation of certain civilian employees of the Department of Defense.
 Sec. 1105. Department of Defense Civilian Leadership Program.
 Sec. 1106. Review of defense laboratories for participation in defense laboratory personnel demonstration projects.

Subtitle B—Part-Time Reemployment of Annuitants

- Sec. 1161. Short title.
 Sec. 1162. Part-time reemployment.
 Sec. 1163. General Accountability Office report.

TITLE XII—MATTERS RELATING TO FOREIGN NATIONS

Subtitle A—Assistance and Training

- Sec. 1201. Increase in unit cost threshold for purchases using certain funds under the Combatant Commander Initiative Fund.
 Sec. 1202. Authority to provide administrative services and support to coalition liaison officers of certain foreign nations assigned to United States Joint Forces Command.
 Sec. 1203. Modification of authorities relating to program to build the capacity of foreign military forces.
 Sec. 1204. Modification of notification and reporting requirements for use of authority for support of special operations to combat terrorism.
 Sec. 1205. Modification of authority for reimbursement of certain coalition nations for support provided to United States military operations.
 Sec. 1206. One-year extension and expansion of Commanders' Emergency Response Program.
 Sec. 1207. One-year extension of authority for security and stabilization assistance.
 Sec. 1208. Authority for non-reciprocal exchanges of defense personnel between the United States and foreign countries.

- Sec. 1209. Defense cooperation between the United States and Iraq.
 Sec. 1210. Report on alternatives to use of acquisition and cross-servicing agreements to lend military equipment for personnel protection and survivability.
 Sec. 1211. Ensuring Iraqi security through defense cooperation between the United States and Iraq.
 Sec. 1212. Availability of appropriated funds for the State Partnership Program.
 Sec. 1213. Authority to transfer defense articles and provide defense services to the military and security forces of Iraq and Afghanistan.
 Sec. 1214. Certification requirement for Coalition Support Fund reimbursements.

Subtitle B—Reports

- Sec. 1221. Report on United States engagement with Iran.
 Sec. 1222. Report on Cuba and Cuba's relations with other countries.
 Sec. 1223. Report on Venezuela.
 Sec. 1224. Report on military power of Iran.
 Sec. 1225. Annual counterterrorism status reports.
 Sec. 1226. Report on Taiwan's air force.
 Sec. 1227. Report on United States contributions to the United Nations.

Subtitle C—Other Matters

- Sec. 1231. Sense of Congress on establishment of measures of progress to evaluate United States strategic objectives in Afghanistan and Pakistan.
 Sec. 1232. Sense of the Senate on imposing sanctions with respect to the Islamic Republic of Iran.
 Sec. 1233. Sense of the Senate on enforcement and imposition of sanctions with respect to North Korea; review to determine whether North Korea should be re-listed as a state sponsor of terrorism.
 Sec. 1234. Report on the plan for the United States nuclear weapons stockpile, nuclear weapons complex, and delivery platforms and sense of the Senate on follow-on negotiations to START Treaty.
 Sec. 1235. Sense of Congress on continued support by the United States for a stable and democratic Republic of Iraq.
 Sec. 1236. Report on feasibility and desirability of establishing general uniform procedures and guidelines for the provision of monetary assistance by the United States to civilian foreign nationals for losses incident to combat activities of the armed forces.

Subtitle D—VOICE Act

- Sec. 1241. Short title.
 Sec. 1242. Sense of Congress.
 Sec. 1243. Statement of policy.
 Sec. 1244. Authorization of appropriations.
 Sec. 1245. Iranian Electronic Education, Exchange, and Media Fund.
 Sec. 1246. Annual report.
 Sec. 1247. Report on actions by non-Iranian companies.
 Sec. 1248. Human rights documentation.

TITLE XIII—COOPERATIVE THREAT REDUCTION

- Sec. 1301. Specification of Cooperative Threat Reduction programs and funds.
 Sec. 1302. Funding allocations.
 Sec. 1303. Authority to enter into agreements to receive contributions for Biological Threat Reduction Program.

- Sec. 1304. Authorization of use of Cooperative Threat Reduction program funds for bilateral and multilateral non-proliferation and disarmament activities.

TITLE XIV—OTHER AUTHORIZATIONS

Subtitle A—Military Programs

- Sec. 1401. Working capital funds.
 Sec. 1402. National Defense Sealift Fund.
 Sec. 1403. Defense Health Program.
 Sec. 1404. Chemical Agents and Munitions Destruction, Defense.
 Sec. 1405. Drug Interdiction and Counter-Drug Activities, Defense-wide.
 Sec. 1406. Defense Inspector General.
 Sec. 1407. Funding table.

Subtitle B—National Defense Stockpile

- Sec. 1411. Extension of previously authorized disposal of cobalt from National Defense Stockpile.
 Sec. 1412. Authorization for actions to correct the industrial resource shortfall for high-purity beryllium metal in amounts not in excess of \$80,000,000.

Subtitle C—Armed Forces Retirement Home

- Sec. 1421. Authorization of appropriations for Armed Forces Retirement Home.

TITLE XV—OVERSEAS CONTINGENCY OPERATIONS

- Sec. 1501. Purpose.
 Sec. 1502. Army procurement.
 Sec. 1503. Navy and Marine Corps procurement.
 Sec. 1504. Air Force procurement.
 Sec. 1505. Defense-wide activities procurement.
 Sec. 1506. Research, development, test, and evaluation.
 Sec. 1507. Operation and maintenance.
 Sec. 1508. Military personnel.
 Sec. 1509. Working capital funds.
 Sec. 1510. Defense Health Program.
 Sec. 1511. Drug Interdiction and Counter-Drug Activities, Defense-wide.
 Sec. 1512. Defense Inspector General.
 Sec. 1513. Treatment as additional authorizations.
 Sec. 1514. Funding tables.
 Sec. 1515. Special transfer authority.
 Sec. 1516. Limitations on availability of funds in Afghanistan Security Forces Fund.

- Sec. 1517. Availability of funds in Pakistan Counterinsurgency Fund.

DIVISION B—MILITARY CONSTRUCTION AUTHORIZATIONS

- Sec. 2001. Short title.
 Sec. 2002. Expiration of authorizations and amounts required to be specified by law.
 Sec. 2003. Effective date.
 Sec. 2004. Funding tables.
 Sec. 2005. Technical corrections regarding certain military construction projects, New Mexico.

TITLE XXI—ARMY

- Sec. 2101. Authorized Army construction and land acquisition projects.
 Sec. 2102. Family housing.
 Sec. 2103. Improvements to military family housing units.
 Sec. 2104. Authorization of appropriations, Army.
 Sec. 2105. Extension of authorizations of certain fiscal year 2006 projects.

TITLE XXII—NAVY

- Sec. 2201. Authorized Navy construction and land acquisition projects.
 Sec. 2202. Family housing.
 Sec. 2203. Improvements to military family housing units.
 Sec. 2204. Authorization of appropriations, Navy.

Sec. 2205. *Modification and extension of authority to carry out certain fiscal year 2006 project.*

TITLE XXIII—AIR FORCE

Sec. 2301. *Authorized Air Force construction and land acquisition projects.*

Sec. 2302. *Family housing.*

Sec. 2303. *Improvements to military family housing units.*

Sec. 2304. *Authorization of appropriations, Air Force.*

Sec. 2305. *Extension of authorizations of certain fiscal year 2007 projects.*

Sec. 2306. *Extension of authorizations of certain fiscal year 2006 projects.*

Sec. 2307. *Temporary prohibition on use of funds for military construction improvements, Palanquero Air Base, Colombia.*

Sec. 2308. *Conveyance to Indian tribes of certain housing units.*

TITLE XXIV—DEFENSE AGENCIES

Subtitle A—Defense Agency Authorizations

Sec. 2401. *Authorized Defense Agencies construction and land acquisition projects.*

Sec. 2402. *Family housing.*

Sec. 2403. *Energy conservation projects.*

Sec. 2404. *Authorization of appropriations, Defense Agencies.*

Sec. 2405. *Modification of authority to carry out certain fiscal year 2008 project.*

Sec. 2406. *Modification of authority to carry out certain fiscal year 2009 project.*

Sec. 2407. *Extension of authorizations of certain fiscal year 2007 project.*

Subtitle B—Chemical Demilitarization Authorizations

Sec. 2411. *Authorization of appropriations, chemical demilitarization construction, Defense-wide.*

TITLE XXV—NORTH ATLANTIC TREATY ORGANIZATION SECURITY INVESTMENT PROGRAM

Sec. 2501. *Authorized NATO construction and land acquisition projects.*

Sec. 2502. *Authorization of appropriations, NATO.*

TITLE XXVI—GUARD AND RESERVE FORCES FACILITIES

Sec. 2601. *Authorized Army National Guard construction and land acquisition projects.*

Sec. 2602. *Authorized Army Reserve construction and land acquisition projects.*

Sec. 2603. *Authorized Navy Reserve and Marine Corps Reserve construction and land acquisition projects.*

Sec. 2604. *Authorized Air National Guard construction and land acquisition projects.*

Sec. 2605. *Authorized Air Force Reserve construction and land acquisition projects.*

Sec. 2606. *Authorization of appropriations, Guard and Reserve.*

Sec. 2607. *Extension of authorizations of certain fiscal year 2007 projects.*

Sec. 2608. *Extension of authorizations of certain fiscal year 2006 project.*

TITLE XXVII—BASE CLOSURE AND REALIGNMENT ACTIVITIES

Sec. 2701. *Authorization of appropriations for base closure and realignment activities funded through Department of Defense Base Closure Account 1990.*

Sec. 2702. *Authorized base closure and realignment activities funded through Department of Defense Base Closure Account 2005.*

Sec. 2703. *Authorization of appropriations for base closure and realignment activities funded through Department of Defense Base Closure Account 2005.*

Sec. 2704. *Report on global defense posture realignment and interagency review.*

Sec. 2705. *Sense of the Senate on need for community assistance related to base closures and realignments and force repositioning.*

Sec. 2706. *Relocation of certain Army Reserve units in Connecticut.*

Sec. 2707. *Authority to construct previously authorized Armed Forces Reserve Center in vicinity of specified location at Pease Air National Guard Base, New Hampshire.*

Sec. 2708. *Requirement for master plan to provide world class military medical facilities in the National Capital Region.*

TITLE XXVIII—MILITARY CONSTRUCTION GENERAL PROVISIONS

Sec. 2801. *Military construction and land acquisition projects authorized by American Recovery and Reinvestment Act of 2009.*

Subtitle A—Military Construction Program and Military Family Housing Changes

Sec. 2811. *Extension of authority to use operation and maintenance funds for construction projects inside the United States Central Command and United States Africa Command areas of responsibility.*

Sec. 2812. *Modification of authority for scope of work variations.*

Sec. 2813. *Modification of conveyance authority at military installations.*

Sec. 2814. *Two-year extension of authority for pilot projects for acquisition or construction of military unaccompanied housing.*

Subtitle B—Energy Security

Sec. 2821. *Report on Department of Defense efforts toward installation of solar panels and other renewable energy projects on military installations.*

Subtitle C—Land Conveyances

Sec. 2831. *Land conveyance, Naval Air Station Oceana, Virginia.*

Sec. 2832. *Release of reversionary interest.*

Sec. 2833. *Land conveyance, Ellsworth Air Force Base, South Dakota.*

Sec. 2834. *Land conveyance, F.E. Warren Air Force Base, Cheyenne, Wyoming.*

Sec. 2835. *Land conveyance, Lackland Air Force Base, Texas.*

Sec. 2836. *Land conveyance, Haines Tank Farm, Haines, Alaska.*

Sec. 2837. *Land conveyances of certain parcels in the Camp Catlin and Ohana Nui areas, Pearl Harbor, Hawaii.*

Subtitle D—Other Matters

Sec. 2841. *Expansion of First Sergeants Barracks Initiative.*

TITLE XXIX—OVERSEAS CONTINGENCY OPERATIONS MILITARY CONSTRUCTION AUTHORIZATIONS

Sec. 2901. *Authorized Army construction and land acquisition projects.*

Sec. 2902. *Authorized Air Force construction and land acquisition projects.*

DIVISION C—DEPARTMENT OF ENERGY NATIONAL SECURITY AUTHORIZATIONS AND OTHER AUTHORIZATIONS

TITLE XXXI—DEPARTMENT OF ENERGY NATIONAL SECURITY PROGRAMS

Subtitle A—National Security Programs Authorizations

Sec. 3101. *National Nuclear Security Administration.*

Sec. 3102. *Defense environmental cleanup.*

Sec. 3103. *Other defense activities.*

Sec. 3104. *Defense nuclear waste disposal.*

Sec. 3105. *Funding table.*

Subtitle B—Program Authorizations, Restrictions, and Limitations

Sec. 3111. *Nuclear weapons stockpile life extension program.*

Sec. 3112. *Elimination of nuclear weapons life extension program from exception to requirement to request funds in budget of the President.*

Sec. 3113. *Repeal of Reliable Replacement Warhead program.*

Sec. 3114. *Authorization of use of International Nuclear Materials Protection and Cooperation program funds for bilateral and multilateral non-proliferation and disarmament activities.*

Sec. 3115. *Repeal of prohibition on funding activities associated with international cooperative stockpile stewardship.*

Sec. 3116. *Modification of minor construction threshold for plant projects.*

Sec. 3117. *Two-year extension of authority for appointment of certain scientific, engineering, and technical personnel.*

Sec. 3118. *Repeal of sunset date for consolidation of counterintelligence programs of Department of Energy and National Nuclear Security Administration.*

Subtitle C—Other Matters

Sec. 3131. *Ten-year plan for utilization and funding of certain Department of Energy facilities.*

Sec. 3132. *Review of management and operation of certain national laboratories.*

Sec. 3133. *Inclusion in 2010 stockpile stewardship plan of certain information relating to stockpile stewardship criteria.*

Sec. 3134. *Comptroller General of the United States review of projects carried out by the Office of Environmental Management of the Department of Energy pursuant to the American Recovery and Reinvestment Act of 2009.*

Sec. 3135. *Identification in budget materials of amounts for certain Department of Energy pension obligations.*

Sec. 3136. *Expansion of authority of Ombudsman of Energy Employees Occupational Illness Compensation Program.*

Sec. 3137. *Comptroller General study of stockpile stewardship program.*

Sec. 3138. *Sense of the Senate on production of molybdenum-99.*

TITLE XXXII—DEFENSE NUCLEAR FACILITIES SAFETY BOARD

Sec. 3201. *Authorization.*

TITLE XXXIII—MARITIME ADMINISTRATION

Sec. 3301. *Maritime Administration.*

DIVISION D—FUNDING TABLES

Sec. 4001. *Authorization of amounts in funding tables.*

TITLE XLI—PROCUREMENT

- Sec. 4101. Procurement.
 Sec. 4102. Procurement for overseas contingency operations.

TITLE XLII—RESEARCH, DEVELOPMENT, TEST, AND EVALUATION

- Sec. 4201. Research, development, test, and evaluation.
 Sec. 4202. Research, development, test, and evaluation for overseas contingency operations.

TITLE XLIII—OPERATION AND MAINTENANCE

- Sec. 4301. Operation and maintenance.
 Sec. 4302. Operation and maintenance for overseas contingency operations.

TITLE XLIV—OTHER AUTHORIZATIONS

- Sec. 4401. Other authorizations.
 Sec. 4402. Other authorizations for overseas contingency operations.

TITLE XLV—MILITARY CONSTRUCTION AUTHORIZATIONS

- Sec. 4501. Military construction.
 Sec. 4502. 2005 base realignment and closure round FY 2010 project listing.
 Sec. 4503. American Recovery and Reinvestment Act military construction.
 Sec. 4504. Military construction for overseas contingency operations.

TITLE XLVI—DEPARTMENT OF ENERGY NATIONAL SECURITY PROGRAMS

- Sec. 4601. Department of Energy national security programs.

DIVISION E—MATTHEW SHEPARD HATE CRIMES PREVENTION ACT

- Sec. 4701. Short title.
 Sec. 4702. Findings.
 Sec. 4703. Definition of hate crime.
 Sec. 4704. Support for criminal investigations and prosecutions by State, local, and tribal law enforcement officials.
 Sec. 4705. Grant program.
 Sec. 4706. Authorization for additional personnel to assist State, local, and tribal law enforcement.
 Sec. 4707. Prohibition of certain hate crime acts.
 Sec. 4708. Statistics.
 Sec. 4709. Severability.
 Sec. 4710. Rule of construction.
 Sec. 4711. Construction and application.
 Sec. 4712. Limitation on prosecutions.
 Sec. 4713. Guidelines for hate-crimes offenses.
 Sec. 4714. Attacks on United States servicemen.

DIVISION F—SBIR/STTR REAUTHORIZATION

- Sec. 5001. Short title.
 Sec. 5002. Definitions.

TITLE LI—REAUTHORIZATION OF THE SBIR AND STTR PROGRAMS

- Sec. 5101. Extension of termination dates.
 Sec. 5102. Status of the Office of Technology.
 Sec. 5103. SBIR allocation increase.
 Sec. 5104. STTR allocation increase.
 Sec. 5105. SBIR and STTR award levels.
 Sec. 5106. Agency and program collaboration.
 Sec. 5107. Elimination of Phase II invitations.
 Sec. 5108. Majority-venture investments in SBIR firms.
 Sec. 5109. SBIR and STTR special acquisition preference.
 Sec. 5110. Collaborating with Federal laboratories and research and development centers.
 Sec. 5111. Notice requirement.

TITLE LII—OUTREACH AND COMMERCIALIZATION INITIATIVES

- Sec. 5201. Rural and State outreach.
 Sec. 5202. SBIR—STEM Workforce Development Grant Pilot Program.

- Sec. 5203. Technical assistance for awardees.
 Sec. 5204. Commercialization program at Department of Defense.
 Sec. 5205. Commercialization Pilot Program for civilian agencies.
 Sec. 5206. Nanotechnology initiative.
 Sec. 5207. Accelerating cures.

TITLE LIII—OVERSIGHT AND EVALUATION

- Sec. 5301. Streamlining annual evaluation requirements.
 Sec. 5302. Data collection from agencies for SBIR.
 Sec. 5303. Data collection from agencies for STTR.
 Sec. 5304. Public database.
 Sec. 5305. Government database.
 Sec. 5306. Accuracy in funding base calculations.
 Sec. 5307. Continued evaluation by the National Academy of Sciences.
 Sec. 5308. Technology insertion reporting requirements.
 Sec. 5309. Intellectual property protections.

TITLE LIV—POLICY DIRECTIVES

- Sec. 5401. Conforming amendments to the SBIR and the STTR Policy Directives.
 Sec. 5402. Priorities for certain research initiatives.
 Sec. 5403. Report on SBIR and STTR program goals.
 Sec. 5404. Competitive selection procedures for SBIR and STTR programs.

DIVISION G—MARITIME ADMINISTRATION AUTHORIZATION**TITLE LX—MARITIME ADMINISTRATION**

- Sec. 6001. Short title.
 Sec. 6002. Cooperative agreements, administrative expenses, and contracting authority.
 Sec. 6003. Use of funding for DOT maritime heritage property.
 Sec. 6004. Liquidation of unused leave balance at the Merchant Marine Academy.
 Sec. 6005. Permanent authority to hire adjunct professors at the Merchant Marine Academy.
 Sec. 6006. Use of midshipman fees.
 Sec. 6007. Construction of vessels in the United States policy.
 Sec. 6008. Port infrastructure development program.
 Sec. 6009. Reefs for marine life conservation program.
 Sec. 6010. Student incentive payment agreements.
 Sec. 6011. United States merchant marine academy graduate program receipt, disbursement, and accounting for non-appropriated funds.
 Sec. 6012. America's short sea transportation grants for the development of marine highways.
 Sec. 6013. Expansion of the marine view system.
 Sec. 6014. Authorization of appropriations for fiscal year 2010.

SEC. 3. CONGRESSIONAL DEFENSE COMMITTEES.

For purposes of this Act, the term "congressional defense committees" has the meaning given that term in section 101(a)(16) of title 10, United States Code.

DIVISION A—DEPARTMENT OF DEFENSE AUTHORIZATIONS**TITLE I—PROCUREMENT****Subtitle A—Authorization of Appropriations****SEC. 101. ARMY.**

Funds are hereby authorized to be appropriated for fiscal year 2010 for procurement for the Army as follows:

- (1) For aircraft, \$5,144,891,000.
- (2) For missiles, \$1,375,109,000.

- (3) For weapons and tracked combat vehicles, \$2,451,952,000.
- (4) For ammunition, \$2,059,895,000.
- (5) For other procurement, \$9,617,991,000.

SEC. 102. NAVY AND MARINE CORPS.

(a) NAVY.—Funds are hereby authorized to be appropriated for fiscal year 2010 for procurement for the Navy as follows:

- (1) For aircraft, \$18,655,412,000.
- (2) For weapons, including missiles and torpedoes, \$3,515,455,000.
- (3) For shipbuilding and conversion, \$13,776,867,000.
- (4) For other procurement, \$5,595,176,000.

(b) MARINE CORPS.—Funds are hereby authorized to be appropriated for fiscal year 2010 for procurement for the Marine Corps in the amount of \$1,600,638,000.

(c) NAVY AND MARINE CORPS AMMUNITION.—Funds are hereby authorized to be appropriated for fiscal year 2010 for procurement of ammunition for the Navy and the Marine Corps in the amount of \$840,675,000.

SEC. 103. AIR FORCE.

Funds are hereby authorized to be appropriated for fiscal year 2010 for procurement for the Air Force as follows:

- (1) For aircraft, \$13,077,876,000.
- (2) For missiles, \$6,107,728,000.
- (3) For ammunition, \$822,462,000.
- (4) For other procurement, \$17,245,341,000.

SEC. 104. DEFENSE-WIDE ACTIVITIES.

Funds are hereby authorized to be appropriated for fiscal year 2010 for Defense-wide procurement as follows:

- (1) For Defense-wide procurement, \$4,050,052,000.
- (2) For the Rapid Acquisition Fund, \$79,300,000.
- (3) For the Mine Resistant Ambush Protected Vehicle Fund, \$1,200,000,000.

SEC. 105. FUNDING TABLE.

The amounts authorized to be appropriated by sections 101, 102, 103, and 104 shall be available, in accordance with the requirements of section 4001, for projects, programs, and activities, and in the amounts, specified in the funding table in section 4101.

SEC. 106. ELIMINATION OF F-22A AIRCRAFT PROCUREMENT FUNDING.

(a) ELIMINATION OF FUNDING.—The amount authorized to be appropriated by section 103(1) for procurement for the Air Force for aircraft procurement is hereby decreased by \$1,750,000,000, with the amount of the decrease to be derived from amounts available for F-22A aircraft procurement.

(b) RESTORED FUNDING.—

(1) OPERATION AND MAINTENANCE, ARMY.—The amount authorized to be appropriated by section 301(1) for operation and maintenance for the Army is hereby increased by \$350,000,000.

(2) OPERATION AND MAINTENANCE, NAVY.—The amount authorized to be appropriated by section 301(2) for operation and maintenance for the Navy is hereby increased by \$100,000,000.

(3) OPERATION AND MAINTENANCE, AIR FORCE.—The amount authorized to be appropriated by section 301(4) for operation and maintenance for the Air Force is hereby increased by \$250,000,000.

(4) OPERATION AND MAINTENANCE, DEFENSE-WIDE.—The amount authorized to be appropriated by section 301(5) for operation and maintenance for Defense-wide activities is hereby increased by \$150,000,000.

(5) MILITARY PERSONNEL.—The amount authorized to be appropriated by section 421(a)(1) for military personnel is hereby increased by \$400,000,000.

(6) DIVISION A AND DIVISION B GENERALLY.—In addition to the amounts specified in paragraphs (1) through (5), the total amount authorized to

be appropriated for the Department of Defense by divisions A and B is hereby increased by \$500,000,000.

Subtitle B—Navy Programs

SEC. 111. TREATMENT OF LITTORAL COMBAT SHIP PROGRAM AS A MAJOR DEFENSE ACQUISITION PROGRAM.

Effective as of the date of the enactment of this Act, the program for the Littoral Combat Ship shall be treated as a major defense acquisition program for purposes of chapter 144 of title 10, United States Code.

SEC. 112. REPORT ON STRATEGIC PLAN FOR HOMEPORING THE LITTORAL COMBAT SHIP.

(a) **REPORT REQUIRED.**—Not later than 90 days after the date of the enactment of this Act, the Secretary of the Navy shall submit to the congressional defense committees a report setting forth the strategic plan of the Navy for homeporting the Littoral Combat Ship (LCS) on the East Coast and West Coast of the United States.

(b) **ELEMENTS.**—The report required by subsection (a) shall include the following:

(1) The requirements for homeporting of the Littoral Combat ship of the commanders of the combatant commands, set forth by geographic area of responsibility (AOR).

(2) A description of the manner in which the Navy will meet the requirements identified under paragraph (1).

(3) An assessment of the effect of each type of Littoral Combat Ship on each port in which such ship could be homeported.

(4) A map, based on the current plan of 55 Littoral Combat Ships, identifying where each ship will homeport and how such ports will accommodate both types of Littoral Combat Ships, based on the current program and a 313-ship Navy.

(5) An estimate of the costs of infrastructure required for Littoral Combat Ships at each homeport, including—

- (A) existing infrastructure; and
- (B) such upgraded infrastructure as may be required.

SEC. 113. PROCUREMENT PROGRAMS FOR FUTURE NAVAL SURFACE COMBATANTS.

(a) **LIMITATION ON AVAILABILITY OF FUNDS PENDING REPORTS ABOUT SURFACE COMBATANT SHIPBUILDING PROGRAMS.**—The Secretary of the Navy may not obligate or expend funds for the construction of, or advanced procurement of materials for, a surface combatant to be constructed after fiscal year 2011 until the Secretary has submitted to Congress each of the following:

(1) An acquisition strategy for such surface combatants that has been approved by the Department of Defense.

(2) The results of reviews by the Joint Requirements Oversight Council for an Acquisition Category 1 program that supports the need for an acquisition strategy to procure surface combatants after fiscal year 2011.

(3) A verification by an independent review panel convened by the Secretary of Defense that, in evaluating the shipbuilding program concerned, the Secretary of the Navy considered each of the following:

(A) Modeling and simulation, including war gaming conclusions regarding combat effectiveness for the selected ship platforms as compared to other reasonable alternative approaches.

(B) Assessments of platform operational availability.

(C) Life cycle costs from vessel manning levels to accomplish missions.

(4) An intelligence analysis reflecting a coordinated threat assessment of the Defense Intelligence Agency that provides the basis for deriving the mix of platforms in the shipbuilding

program concerned when compared with the surface combatants in the 2009 shipbuilding plan.

(5) The differences in cost and schedule arising from the need to accommodate new sensors and weapons in future surface combatants to counter the future threats referred to in paragraph (4) when compared with the cost and schedule arising from the need to accommodate sensors and weapons on surface combatants as contemplated by the 2009 shipbuilding plan for the vessels concerned.

(6) A verification by the commanders of the combatant commands that the shipbuilding program for the vessels concerned would be preferable to the surface combatants included in the 2009 shipbuilding plan for the vessels concerned in meeting all of their future mission requirements.

(7) A joint review by the Navy and the Missile Defense Agency setting forth additional requirements for investment in Aegis ballistic missile defense (BMD) beyond the number of DDG-51 and CG-47 vessels planned to be equipped for this mission area in the budget of the President for fiscal year 2010 (as submitted to Congress pursuant to section 1105 of title 31, United States Code).

(b) **FUTURE SURFACE COMBATANT ACQUISITION STRATEGY.**—Not later than the date upon which President submits to Congress the budget for fiscal year 2012 (as so submitted), the Secretary of the Navy shall submit to the congressional defense committees a plan to provide for full and open competition on the combat systems for surface combatants proposed in the future-years defense program submitted to Congress under section 221 of title 10, United States Code, together with such budget. The plan shall include specifics on the intent of the Navy to satisfy criteria described in subsection (a) and evaluate applicable technologies during the request for proposal and selection process.

(c) **NAVAL SURFACE FIRE SUPPORT.**—Not later than 120 days after the enactment of this Act, the Secretary of the Navy shall submit to the congressional defense committees an update to the March 2006 Report to Congress on Naval Surface Fire Support. The update shall identify how the Department of Defense intends to address any shortfalls between required naval surface fire support capability and the plan of the Navy to provide that capability. The update shall include addenda by the Chief of Naval Operations and Commandant of the Marine Corps, as was the case in the 2006 report.

(d) **TECHNOLOGY ROADMAP FOR FUTURE SURFACE COMBATANTS AND FLEET MODERNIZATION.**—

(1) **IN GENERAL.**—Not later than 120 days after the date of the enactment of this Act, the Secretary of the Navy shall develop a plan to incorporate into surface combatants constructed after 2011, and into fleet modernization programs, the technologies developed for the DDG-1000 destroyer and the DDG-51 and CG-47 Aegis ships, including the following:

- (A) For the DDG-1000 destroyer—
 - (i) combat system;
 - (ii) multi-function and dual-band radars;
 - (iii) hull, mechanical and electrical systems achieving significant manpower savings; and
 - (iv) integrated electric propulsion technologies.

(B) For the DDG-51 and CG-47 Aegis ships—

- (i) combat system, including missile defense capability;

(ii) hull, mechanical and electrical systems achieving manpower savings; and

(iii) anti-submarine warfare sensor systems designed for operating in open ocean areas.

(2) **SCOPE OF PLAN.**—The plan required by paragraph (1) shall include sufficient detail for systems and subsystems to ensure that the plan—

(A) avoids redundant development for common functions;

(B) reflects implementation of Navy plans for achieving an open architecture for all naval surface combat systems; and

(C) fosters full and open competition.

(e) **DEFINITION.**—In this section:

(1) The term “2009 shipbuilding plan” means the 30-year shipbuilding plan submitted to Congress pursuant to section 231, title 10, United States Code, together with the budget of the President for fiscal year 2009 (as submitted to Congress pursuant to section 1105 of title 31, United States Code).

(2) The term “surface combatant” means a cruiser, a destroyer, or any naval vessel under a program currently designated as a future surface combatant program.

SEC. 114. REPORT ON A SERVICE LIFE EXTENSION PROGRAM FOR OLIVER HAZARD PERRY CLASS FRIGATES.

Not later than 90 days after the date of the enactment of this Act, the Secretary of the Navy shall submit to the congressional defense committees a report setting forth the following:

(1) A detailed analysis of a service life extension program (SLEP) for the Oliver Hazard Perry class frigates (FFGs), including—

- (A) the cost of the program;
- (B) a schedule for the program; and
- (C) the shipyards available to carry out the work under the program.

(2) A detailed plan of the Navy for achieving a 313-ship fleet as contemplated by the 2006 Quadrennial Defense Review, including a comparison for purposes of that plan of decommissioning Oliver Hazard Perry class frigates as scheduled with extending the service life of such frigates under the service life extension program.

(3) The strategic plan of the Navy for the manner in which the Littoral Combat Ship (LCS) will fulfill the roles and missions currently performed by the Oliver Hazard Perry class frigates as they are decommissioned.

(4) The strategic plan of the Navy for the Littoral Combat Ship if the extension of the service life of the Oliver Hazard Perry class frigates alleviates demand arising under the current capabilities gap in the Littoral Combat Ship.

(5) A description of the manner in which the Navy has met the needs of the United States Southern Command over time, including the assets and vessels the Navy has deployed for military-to-military engagements, UNITAS exercises, and counterdrug operations in support of the Commander of the United States Southern Command during the five-year period ending on the date of the report.

SEC. 115. COMPETITIVE BIDDING FOR PROCUREMENT OF STEAM TURBINES FOR SHIPS SERVICE TURBINE GENERATORS AND MAIN PROPULSION TURBINES FOR OHIO-CLASS SUBMARINE REPLACEMENT PROGRAM.

The Secretary of the Navy shall take measures to ensure competition, or the option of competition, for steam turbines for the ships service turbine generators and main propulsion turbines for the Ohio-class submarine replacement program in accordance with section 202 of the Weapons Systems Acquisition Reform Act of 2009 (Public Law 111–23; 10 U.S.C. 2430 note).

Subtitle C—Air Force Matters

SEC. 121. LIMITATION ON RETIREMENT OF C-5 AIRCRAFT.

(a) **LIMITATION.**—The Secretary of the Air Force may not proceed with a decision to retire C-5A aircraft from the active inventory of the Air Force in any number that would reduce the total number of such aircraft in the active inventory below 111 until—

(1) the Air Force has modified a C-5A aircraft to the configuration referred to as the Reliability Enhancement and Reengining Program

(RERP) configuration, as planned under the C-5 System Development and Demonstration program as of May 1, 2003; and

(2) the Director of Operational Test and Evaluation of the Department of Defense—

(A) conducts an operational evaluation of that aircraft, as so modified; and

(B) provides to the Secretary of Defense and the congressional defense committees an operational assessment.

(b) **OPERATIONAL EVALUATION.**—An operational evaluation for purposes of paragraph (2)(A) of subsection (a) is an evaluation, conducted during operational testing and evaluation of the aircraft, as so modified, of the performance of the aircraft with respect to reliability, maintainability, and availability and with respect to critical operational issues.

(c) **OPERATIONAL ASSESSMENT.**—An operational assessment for purposes of paragraph (2)(B) of subsection (a) is an operational assessment of the program to modify C-5A aircraft to the configuration referred to in subsection (a)(1) regarding both overall suitability and deficiencies of the program to improve performance of the C-5A aircraft relative to requirements and specifications for reliability, maintainability, and availability of that aircraft as in effect on May 1, 2003.

(d) **ADDITIONAL LIMITATIONS ON RETIREMENT OF AIRCRAFT.**—The Secretary of the Air Force may not retire C-5 aircraft from the active inventory as of the date of this Act until the later of the following:

(1) The date that is 150 days after the date on which the Director of Operational Test and Evaluation submits the report referred to in subsection (a)(2)(B).

(2) The date that is 120 days after the date on which the Secretary submits the report required under subsection (e).

(3) The date that is 30 days after the date on which the Secretary certifies to the congressional defense committees that—

(A) the retirement of such aircraft will not increase the operational risk of meeting the National Defense Strategy; and

(B) the retirement of such aircraft will not reduce the total strategic airlift force structure below 324 strategic airlift aircraft.

(e) **REPORT ON RETIREMENT OF AIRCRAFT.**—The Secretary of the Air Force shall submit to the congressional defense committees a report setting forth the following:

(1) The rationale for the retirement of existing C-5 aircraft and a cost/benefit analysis of alternative strategic airlift force structures, including the force structure that would result from the retirement of such aircraft.

(2) An assessment of the costs and benefits of applying the Reliability Enhancement and Re-engineering Program (RERP) modification to the entire the C-5A aircraft fleet.

(3) An assessment of the implications for the Air Force, the Air National Guard, and the Air Force Reserve of operating a mix of C-5A aircraft and C-5M aircraft.

(4) An assessment of the costs and benefits of increasing the number of C-5 aircraft in Back-up Aircraft Inventory (BAI) status as a hedge against future requirements of such aircraft.

(5) An assessment of the costs, benefits, and implications of transferring C-5 aircraft to United States flag carriers operating in the Civil Reserve Air Fleet (CRAF) program or to coalition partners in lieu of the retirement of such aircraft.

(6) Such other matters relating to the retirement of C-5 aircraft as the Secretary considers appropriate.

(f) **MAINTENANCE OF AIRCRAFT UPON RETIREMENT.**—The Secretary of the Air Force shall maintain any C-5 aircraft retired after the date of the enactment of this Act in Type 1000 stor-

age until opportunities for the transfer of such aircraft as described in subsection (e)(5) have been fully exhausted.

SEC. 122. REVISED AVAILABILITY OF CERTAIN FUNDS AVAILABLE FOR THE F-22A FIGHTER AIRCRAFT.

(a) **REPEAL OF AUTHORITY ON AVAILABILITY OF FISCAL YEAR 2009 FUNDS.**—Section 134 of the Duncan Hunter National Defense Authorization Act for Fiscal Year 2009 (Public Law 110-417; 122 Stat. 4378) is repealed.

(b) **AVAILABILITY OF ADVANCE PROCUREMENT FUNDS FOR OTHER F-22A AIRCRAFT MODERNIZATION PRIORITIES.**—Subject to the provisions of appropriations Acts and applicable requirements relating to the transfer of funds, the Secretary of the Air Force may transfer amounts authorized to be appropriated for fiscal year 2009 by section 103(1) for aircraft procurement for the Air Force and available for advance procurement for the F-22A fighter aircraft within that subaccount or to other subaccounts for aircraft procurement for the Air Force for purposes of providing funds for other modernization priorities with respect to the F-22A fighter aircraft.

SEC. 123. REPORT ON POTENTIAL FOREIGN MILITARY SALES OF THE F-22A FIGHTER AIRCRAFT.

(a) **REPORT REQUIRED.**—Not later than 180 days after the date of the enactment of this Act, the Secretary of Defense shall, in coordination with the Secretary of State and in consultation with the Secretary of the Air Force, submit to the congressional defense committees, the Committee on Foreign Relations of the Senate, and the Committee on Foreign Affairs of the House of Representatives a report on potential foreign military sales of the F-22A fighter aircraft.

(b) **ELEMENTS.**—The report required by subsection (a) shall include the following:

(1) An estimate of the costs to the United States Government, industry, and any foreign military sales customer of developing an exportable version of the F-22A fighter aircraft.

(2) An assessment whether an exportable version of the F-22A fighter aircraft is technically feasible and executable, and, if so, a timeline for achieving an exportable version of the aircraft.

(3) An assessment of the potential strategic implications of permitting foreign military sales of the F-22A fighter aircraft.

(4) An assessment of the impact of foreign military sales of the F-22A fighter aircraft on the United States aerospace and aviation industry, and the advantages and disadvantages of such sales for sustaining that industry.

(5) An identification of any modifications to current law that are required to authorize foreign military sales of the F-22A fighter aircraft.

(c) **ADDITIONAL REPORT REQUIRED.**—Not later than 180 days after the date of the enactment of this Act, the Secretary of Defense shall provide for a federally funded research and development center which will submit to the congressional defense committees, the Committee on Foreign Relations of the Senate, and the Committee on Foreign Affairs of the House of Representatives, through the Secretary of Defense, a report on potential foreign military sales of the F-22A fighter aircraft, addressing the same elements as in subsection (b) of this section.

SEC. 124. NEXT GENERATION BOMBER AIRCRAFT.

(a) **FINDINGS.**—Congress makes the following findings:

(1) Long-range strike is a critical mission in which the United States needs to retain a credible and dominant capability.

(2) Long range, penetrating strike systems provide—

(A) a hedge against being unable to obtain access to forward bases for political reasons;

(B) a capacity to respond quickly to contingencies;

(C) the ability to base outside the reach of emerging adversary anti-access and area-denial capabilities; and

(D) the ability to impose disproportionate defensive costs on prospective adversaries of the United States.

(3) The 2006 Quadrennial Defense Review found that there was a requirement for a next generation bomber aircraft and directed the United States Air Force to “develop a new land-based, penetrating long range strike capability to be fielded by 2018”.

(4) On April 6, 2009, Secretary Gates announced that the United States “will not pursue a development program for a follow-on Air Force bomber until we have a better understanding of the need, the requirement and the technology”.

(5) On May 7, 2009, President Barack Obama announced the termination of the next generation bomber aircraft program in the document of the Office of Management and Budget entitled “Terminations, Reductions, and Savings”, stating that “there is no urgent need to begin an expensive development program for a new bomber” and that “the future bomber fleet may not be affordable over the next six years”.

(6) The United States will need a new long-range strike capability because the conflicts of the future will likely feature heavily defended airspace, due in large part to the proliferation of relatively inexpensive, but sophisticated and deadly, air defense systems.

(7) General Michael Maples, the Director of the Defense Intelligence Agency, noted during a March 10, 2009, hearing of the Committee on Armed Services of the Senate on worldwide threats that “Russia, quite frankly, is the developer of most of those [advanced air defense] systems and is exporting those systems both to China and to other countries in the world”.

(8) The Final Report of the Congressional Commission on the Strategic Posture of the United States, submitted to Congress on May 6, 2009, states that “[t]he bomber force is valuable particularly for extending deterrence in time of crisis, as their deployment is visible and signals U.S. commitment. Bombers also impose a significant cost burden on potential adversaries in terms of the need to invest in advanced air defenses”.

(9) The commanders of the United States Pacific Command, the United States Strategic Command, and the United States Joint Forces Command have each testified before the Committee on Armed Services of the Senate in support of the capability that the next generation bomber aircraft would provide.

(10) On June 17, 2009, General James Cartwright, Vice-Chairman of the Joint Chiefs of Staff and chair of the Joint Requirements Oversight Council, stated during a hearing before the Committee on Armed Services of the Senate that “the nation needs a new bomber”.

(11) Nearly half of the United States bomber aircraft inventory (47 percent) pre-dates the Cuban Missile Crisis.

(12) The only air-breathing strike platforms the United States possesses today with reach and survivability to have a chance of successfully executing missions more than 1,000 nautical miles into enemy territory from the last air-to-air refueling are 16 combat ready B-2 bomber aircraft.

(13) The B-2 bomber aircraft was designed in the 1980s and achieved initial operational capability over a decade ago.

(14) The crash of an operational B-2 bomber aircraft during takeoff at Guam in early 2008 indicates that attrition can and does occur even in peacetime.

(15) The primary mission requirement of the next generation bomber aircraft is the ability to strike targets anywhere on the globe with whatever weapons the contingency requires.

(16) The requisite aerodynamic, structural, and low-observable technologies to develop the next generation bomber aircraft already exist in fifth-generation fighter aircraft.

(b) **POLICY ON CONTINUED DEVELOPMENT OF NEXT GENERATION BOMBER AIRCRAFT IN FISCAL YEAR 2010.**—It is the policy of the United States to support a development program for next generation bomber aircraft technologies.

SEC. 125. AC-130 GUNSHIPS.

(a) **REPORT ON REDUCTION IN SERVICE LIFE IN CONNECTION WITH ACCELERATED DEPLOYMENT.**—Not later than 90 days after the date of the enactment of this Act, the Secretary of the Air Force, in consultation with the United States Special Operations Command, shall submit to the congressional defense committees an assessment of the reduction in the service life of AC-130 gunships of the Air Force as a result of the accelerated deployments of such gunships that are anticipated during the seven- to ten-year period beginning with the date of the enactment of this Act, assuming that operating tempo continues at a rate per year of the average of their operating rate for the last five years.

(b) **ELEMENTS.**—The report required by subsection (a) shall include the following:

(1) An estimate by series of the maintenance costs for the AC-130 gunships during the period described in subsection (a), including any major airframe and engine overhauls of such aircraft anticipated during that period.

(2) A description by series of the age, serviceability, and capabilities of the armament systems of the AC-130 gunships.

(3) An estimate by series of the costs of modernizing the armament systems of the AC-130 gunships to achieve any necessary capability improvements.

(4) A description by series of the age and capabilities of the electronic warfare systems of the AC-130 gunships, and an estimate of the cost of upgrading such systems during that period to achieve any necessary capability improvements.

(5) A description by series of the age of the avionics systems of the AC-130 gunships, and an estimate of the cost of upgrading such systems during that period to achieve any necessary capability improvements.

(c) **FORM.**—The report required by subsection (a) shall be submitted in unclassified form, but may include a classified annex.

(d) **ANALYSIS OF ALTERNATIVES.**—The Secretary of the Air Force, in consultation with the United States Special Operations Command, shall conduct an analysis of alternatives for any gunship modernization requirements identified by the 2009 quadrennial defense review under section 118 of title 10, United States Code. The results of the analysis of alternatives shall be provided to the congressional defense committees not later than 18 months after the completion of the 2009 quadrennial defense review.

SEC. 126. REPORT ON E-8C JOINT SURVEILLANCE AND TARGET ATTACK RADAR SYSTEM RE-ENGINEING.

(a) **IN GENERAL.**—Not later than 60 days after the date of the enactment of this Act, the Secretary of the Air Force shall submit to the congressional defense committees a report on replacing the engines of E-8C Joint Surveillance and Target Attack Radar System (Joint STARS) aircraft. The report shall include the following:

(1) An assessment of funding alternatives and options for accelerating funding for the fielding of Joint STARS aircraft with replaced engines.

(2) An analysis of the tradeoffs involved in the decision to replace the engines of Joint STARS aircraft or not to replace those engines, including the potential cost savings from replacing those engines and the operational impacts of not replacing those engines.

(3) An identification of the optimum path forward for replacing the engines of Joint STARS aircraft and modernizing the Joint STARS fleet.

(b) **LIMITATION ON CERTAIN ACTIONS.**—The Secretary of the Air Force may not take any action that would adversely impact the pace of the execution of the program to replace the engines of Joint STARS aircraft before submitting the report required by subsection (a).

Subtitle D—Joint and Multiservice Matters

SEC. 131. MODIFICATION OF NATURE OF DATA LINK UTILIZABLE BY TACTICAL UNMANNED AERIAL VEHICLES.

Section 141(a)(1) of the National Defense Authorization Act for Fiscal Year 2006 (Public Law 109-163; 119 Stat. 3164) is amended by striking “, until such time as the Tactical Common Data Link is replaced by an updated standard for use by those vehicles” and inserting “or a data link that uses waveform capable of transmitting and receiving Internet Protocol communications”.

TITLE II—RESEARCH, DEVELOPMENT, TEST, AND EVALUATION

Subtitle A—Authorization of Appropriations

SEC. 201. AUTHORIZATION OF APPROPRIATIONS.

(a) **IN GENERAL.**—Funds are hereby authorized to be appropriated for fiscal year 2010 for the use of the Department of Defense for research, development, test, and evaluation as follows:

(1) For the Army, \$10,863,003,000.

(2) For the Navy, \$19,597,696,000.

(3) For the Air Force, \$28,693,952,000.

(4) For Defense-wide activities, \$20,555,270,000.

(5) For Operational Test and Evaluation, Defense, \$190,770,000.

(b) **FUNDING TABLE.**—The amounts authorized to be appropriated by subsection (a) shall be available, in accordance with the requirements of section 4001, for projects, programs, and activities, and in the amounts, specified in the funding table in section 4201.

Subtitle B—Program Requirements, Restrictions, and Limitations

SEC. 211. LIMITATION ON USE OF FUNDS FOR AN ALTERNATIVE PROPULSION SYSTEM FOR THE F-35 JOINT STRIKE FIGHTER PROGRAM; INCREASE IN FUNDING FOR PROCUREMENT OF UH-1Y/AH-1Z ROTARY WING AIRCRAFT AND FOR MANAGEMENT RESERVES FOR THE F-35 JOINT STRIKE FIGHTER PROGRAM.

(a) **LIMITATION ON USE OF FUNDS FOR AN ALTERNATIVE PROPULSION SYSTEM FOR THE F-35 JOINT STRIKE FIGHTER PROGRAM.**—None of the funds authorized to be appropriated or otherwise made available by this Act may be obligated or expended for the development or procurement of an alternate propulsion system for the F-35 Joint Strike Fighter program until the Secretary of Defense submits to the congressional defense committees a certification in writing that the development and procurement of the alternate propulsion system—

(1) will—

(A) reduce the total life-cycle costs of the F-35 Joint Strike Fighter program; and

(B) improve the operational readiness of the fleet of F-35 Joint Strike Fighter aircraft; and

(2) will not—

(A) disrupt the F-35 Joint Strike Fighter program during the research, development, and procurement phases of the program; or

(B) result in the procurement of fewer F-35 Joint Strike Fighter aircraft during the life cycle of the program.

(b) **ADDITIONAL AMOUNT FOR UH-1Y/AH-1Z ROTARY WING AIRCRAFT.**—The amount authorized to be appropriated by section 102(a)(1) for aircraft procurement for the Navy is increased by \$282,900,000, with the amount of the increase to be allocated to amounts available for the procurement of UH-1Y/AH-1Z rotary wing aircraft.

(c) **RESTORATION OF MANAGEMENT RESERVES FOR F-35 JOINT STRIKE FIGHTER PROGRAM.**—

(1) **NAVY JOINT STRIKE FIGHTER.**—The amount authorized to be appropriated by section 201(a)(2) for research, development, test, and evaluation for the Navy is hereby increased by \$78,000,000, with the amount of the increase to be allocated to amounts available for the Joint Strike Fighter program (PE # 0604800N) for management reserves.

(2) **AIR FORCE JOINT STRIKE FIGHTER.**—The amount authorized to be appropriated by section 201(a)(3) for research, development, test, and evaluation for the Air Force is hereby increased by \$78,000,000, with the amount of the increase to be allocated to amounts available for the Joint Strike Fighter program (PE # 0604800F) for management reserves.

(d) **OFFSETS.**—

(1) **NAVY JOINT STRIKE FIGHTER F136 DEVELOPMENT.**—The amount authorized to be appropriated by section 201(a)(2) for research, development, test, and evaluation for the Navy is hereby decreased by \$219,450,000, with the amount of the decrease to be derived from amounts available for the Joint Strike Fighter (PE # 0604800N) for F136 development.

(2) **AIR FORCE JOINT STRIKE FIGHTER F136 DEVELOPMENT.**—The amount authorized to be appropriated by section 201(a)(3) for research, development, test, and evaluation for the Air Force is hereby decreased by \$219,450,000, with the amount of the decrease to be derived from amounts available for the Joint Strike Fighter (PE # 0604800F) for F136 development.

SEC. 212. ENHANCEMENT OF DUTIES OF DIRECTOR OF DEPARTMENT OF DEFENSE TEST RESOURCE MANAGEMENT CENTER WITH RESPECT TO THE MAJOR RANGE AND TEST FACILITY BASE.

(a) **AUTHORITY TO REVIEW PROPOSALS FOR SIGNIFICANT CHANGES.**—Section 196(c) of title 10, United States Code, is amended—

(1) in paragraph (1), by redesignating subparagraphs (A) and (B) as clauses (i) and (ii), respectively;

(2) by redesignating paragraphs (1) through (4) as subparagraphs (A) through (D), respectively;

(3) by inserting “(1)” before “The Director”;

(4) by redesignating subparagraphs (B), (C), and (D), as so redesignated, as subparagraphs (C), (D), and (E), respectively; and

(5) by inserting after subparagraph (A), as so redesignated, the following new subparagraph (B):

“(B) To review proposed significant changes to the test and evaluation facilities and resources of the Major Range and Test Facility Base before they are implemented by the Secretaries of the military departments or the heads of the Defense Agencies with test and evaluation responsibilities and advise the Secretary of Defense and the Under Secretary of Acquisition, Technology, and Logistics of the impact of such changes on the adequacy of such test and evaluation facilities and resources to meet the test and evaluation requirements of the Department.”

(b) **ACCESS TO RECORDS AND DATA.**—Such section is further amended by adding at the end the following new paragraph:

“(2) The Director shall have access to all records and data of the test and evaluation activities, facilities, and elements of the Major Range and Test Facility Base, including the records and data of each military department and Defense Agency, that the Director considers necessary in order to carry out the Director’s duties under paragraph (1)(B).”

SEC. 213. GUIDANCE ON SPECIFICATION OF FUNDING REQUESTED FOR OPERATION, SUSTAINMENT, MODERNIZATION, AND PERSONNEL OF MAJOR RANGES AND TEST FACILITIES.

(a) **GUIDANCE ON SPECIFICATION OF FUNDING.**—The Secretary of Defense shall, acting

through the Under Secretary of Defense (Comptroller) and the Director of the Department of Defense Test Resource Management Center, issue guidance on the specification by the military departments and Defense Agencies of amounts to be requested in the budget of the President for a fiscal year (as submitted to Congress pursuant to section 1105(a) of title 31, United States Code) for funding for each facility and resource of the Major Range and Test Facility Base in connection with each of the following:

- (1) Operation.
- (2) Sustainment.
- (3) Investment and modernization.
- (4) Government personnel.
- (5) Contractor personnel.

(b) **APPLICABILITY.**—The guidance issued under subsection (a) shall apply with respect to budgets of the President for fiscal years after fiscal year 2010.

(c) **MAJOR RANGE AND TEST FACILITY BASE DEFINED.**—In this section, the term “Major Range and Test Facility Base” has the meaning given that term in section 196(h) of title 10, United States Code.

SEC. 214. PERMANENT AUTHORITY FOR THE JOINT DEFENSE MANUFACTURING TECHNOLOGY PANEL.

Section 2521 of title 10, United States Code, is amended—

(1) by redesignating subsection (e) as subsection (f); and

(2) by inserting after subsection (d) the following new subsection (e):

“(e) **JOINT DEFENSE MANUFACTURING TECHNOLOGY PANEL.**—(1) There is in the Department of Defense the Joint Defense Manufacturing Technology Panel.

“(2)(A) The Chair of the Joint Defense Manufacturing Technology Panel shall be the head of the Panel. The Chair shall be appointed, on a rotating basis, from among the appropriate personnel of the military departments and Defense Agencies with manufacturing technology programs.

“(B) The Panel shall be composed of at least one individual from among appropriate personnel of each military department and Defense Agency with manufacturing technology programs. The Panel may include as ex-officio members such individuals from other government organizations, academia, and industry as the Chair considers appropriate.

“(3) The purposes of the Panel shall be as follows:

“(A) To identify and integrate requirements for the program.

“(B) To conduct joint planning for the program.

“(C) To develop joint strategies for the program.

“(4) In carrying out the purposes specified in paragraph (3), the Panel shall perform the functions as follows:

“(A) Conduct comprehensive reviews and assessments of defense-related manufacturing issues being addressed by the manufacturing technology programs and related activities of the Department of Defense.

“(B) Execute strategic planning to identify joint planning opportunities for increased cooperation in the development and implementation of technological products and the leveraging of funding for such purposes with the private sector and other government agencies.

“(C) Ensure the integration and coordination of requirements and programs under the program with Office of the Secretary of Defense and other national-level initiatives, including the establishment of information exchange processes with other government agencies, private industry, academia, and professional associations.

“(D) Conduct such other functions as the Under Secretary of Defense for Acquisition, Technology, and Logistics shall specify.

“(5) The Panel shall report to and receive direction from the Director of Defense Research and Engineering on manufacturing technology issues of multi-service concern and application.

“(6) The administrative expenses of the Panel shall be borne by each military department and Defense Agency with manufacturing technology programs in such manner as the Panel shall provide.”.

SEC. 215. EXTENSION AND ENHANCEMENT OF GLOBAL RESEARCH WATCH PROGRAM.

(a) **LIMITATION ON AVAILABILITY OF CERTAIN FUNDS FOR MILITARY DEPARTMENTS PENDING PROVISION OF ASSISTANCE UNDER PROGRAM.**—Subsection (d) of section 2365 of title 10, United States Code, is amended by adding at the end the following new paragraph:

“(3)(A) Funds available to a military department for a fiscal year for monitoring or analyzing the research activities and capabilities of foreign nations may not be obligated or expended until the Director certifies to the Under Secretary of Defense for Acquisition, Technology, and Logistics that the Secretary of such military department has provided the assistance required under paragraph (2).

“(B) The limitation in subparagraph (A) shall not be construed to alter or effect the availability to a military department of funds for intelligence activities.”.

(b) **FOUR-YEAR EXTENSION OF PROGRAM.**—Subsection (f) of such section is amended by striking “September 30, 2011” and inserting “September 30, 2015”.

SEC. 216. THREE-YEAR EXTENSION OF AUTHORITY FOR PRIZES FOR ADVANCED TECHNOLOGY ACHIEVEMENTS.

Section 2374a(f) of title 10, United States Code, is amended by striking “September 30, 2010” and inserting “September 30, 2013”.

SEC. 217. MODIFICATION OF REPORT REQUIREMENTS REGARDING DEFENSE SCIENCE AND TECHNOLOGY PROGRAM.

Section 212 of the National Defense Authorization Act for Fiscal Year 2000 (10 U.S.C. 2501 note) is amended by striking subsection (b), (c), and (d) and inserting the following new subsections:

“(b) **FUNDING OBJECTIVE.**—It is the sense of Congress that it should be an objective of the Secretary of Defense to increase the budget for the Defense Science and Technology Program, including the science and technology program of each military department, for each fiscal year after fiscal year 2010 over the budget for that program for the preceding fiscal year by a percent that is at least equal to the rate of inflation, as determined by the Office of Management and Budget.

“(c) **ACTIONS FOLLOWING FAILURE TO COMPLY WITH OBJECTIVE.**—If the proposed budget of the Department of Defense for a fiscal year fails to comply with the objective set forth in subsection (b), the Secretary of Defense shall submit to the congressional defense committees each of the following:

“(1) Not later than 60 days after the proposed budget is submitted to Congress, a detailed, prioritized list, including estimates of required funding, of proposals for science and technology projects received by the Department through competitive solicitations in the fiscal year preceding the fiscal year covered by the proposed budget which were not funded but represent science and technology opportunities that support the research and development programs and goals of the military departments and the Defense Agencies.

“(2) Not later than six months after the proposed budget is submitted to Congress, an inde-

pendent assessment, in both classified and unclassified form (as necessary), of any research, technology, or engineering areas that are of interest to the Department in which the United States may not have global technical leadership within the next 10 years.

“(d) **SUNSET.**—The requirements of this section shall terminate on December 31, 2014.”.

SEC. 218. PROGRAMS FOR GROUND COMBAT VEHICLE AND SELF PROPELLED HOWITZER CAPABILITIES FOR THE ARMY.

(a) **PROGRAMS REQUIRED.**—

(1) **IN GENERAL.**—The Secretary of Defense shall carry out a separate program to achieve each of the following:

(A) The development, test, and fielding of an operationally effective, suitable, survivable, and affordable next generation ground combat vehicle for the Army.

(B) The development, test, and fielding of an operationally effective, suitable, survivable, and affordable next generation self-propelled howitzer capability for the Army.

(2) **COMPLIANCE WITH CERTAIN ACQUISITION REQUIREMENTS.**—Each program under paragraph (1) shall comply with the requirements of the Weapons Systems Acquisition Reform Act of 2009, and the amendments made by that Act.

(b) **STRATEGY AND PLAN FOR ACQUISITION.**—

(1) **IN GENERAL.**—Not later than March 31, 2010, the Secretary shall submit to the congressional defense committees a report setting forth a strategy and plan for the acquisition of weapon systems under the programs required by subsection (a). Each strategy and plan shall include measurable goals and objectives for the acquisition of such weapon systems, and shall identify all proposed major development, testing, procurement, and fielding events toward the achievement of such goals and objectives.

(2) **ELEMENTS.**—In developing each strategy and plan under paragraph (1), the Secretary shall consider the following:

(A) A single vehicle or family of vehicles utilizing a common chassis and automotive components.

(B) The incorporation of weapon, vehicle, communications, network, and system of systems common operating environment technologies developed under the Future Combat Systems program.

(c) **ANNUAL REPORTS.**—

(1) **REPORTS REQUIRED.**—The Secretary shall submit to the congressional defense committees, at the same time the President submits to Congress the budget for each of fiscal years 2011 through 2015 (as submitted pursuant to section 1105(a) of title 31, United States Code), a report on the investments proposed to be made under such budget with respect to each program required by subsection (a).

(2) **ELEMENTS.**—Each report under paragraph (1) shall set forth, for the fiscal year covered by the budget with which such report is submitted—

(A) the manner in which amounts requested in such budget would be available for each program required by subsection (a); and

(B) an assessment of the extent to which utilizing such amount in such manner would improve ground combat capabilities for the Army.

SEC. 219. ASSESSMENT OF TECHNOLOGICAL MATURITY AND INTEGRATION RISK OF ARMY MODERNIZATION PROGRAMS.

(a) **ASSESSMENT REQUIRED.**—The Director of Defense Research and Engineering shall, in consultation with the Director of Developmental Test and Evaluation, review and assess the technological maturity and integration risk of critical technologies (as jointly identified by the Director and the Secretary of the Army for purposes of this section) of Army modernization programs and appropriate associated programs, including the programs as follows:

(1) Manned Ground Vehicle and Ground Combat Vehicle.

(2) Future Combat Systems network hardware and software.

(3) Warfighter Information Network—Tactical, Increment 3.

(4) Joint Tactical Radio System.

(5) Reconnaissance unmanned aerial vehicles.

(6) Future Combat Systems Spin Out technologies.

(7) Any other programs jointly identified by the Director and the Secretary for purposes of this section.

(b) **REPORT.**—Not later than nine months after the date of the enactment of this Act, the Secretary of Defense shall submit to the congressional defense committees a report on the technological maturity and integration risk of critical technologies of Army modernization and associated programs covered by the review and assessment required under subsection (a), as determined pursuant to that assessment.

SEC. 220. ASSESSMENT OF STRATEGY FOR TECHNOLOGY FOR MODERNIZATION OF THE COMBAT VEHICLE AND TACTICAL WHEELED VEHICLE FLEETS.

(a) **INDEPENDENT ASSESSMENT OF STRATEGY REQUIRED.**—

(1) **IN GENERAL.**—Not later than 30 days after the date of the enactment of this Act, the Secretary of Defense shall enter into a contract with an appropriate entity independent of the United States Government to conduct an independent assessment of current, anticipated, and potential research and engineering activities for or applicable to the modernization of the combat vehicle fleet and tactical wheeled vehicle fleet of the Department of Defense.

(2) **ACCESS TO INFORMATION AND RESOURCES.**—The Secretary shall provide the entity with which the Secretary contracts under paragraph (1) access to such information and resources as are appropriate to conduct the assessment required by that paragraph.

(b) **REPORT.**—

(1) **IN GENERAL.**—The contract required by subsection (a) shall provide that the entity with which the Secretary contracts under that subsection shall submit to the Secretary of Defense and the congressional defense committees a report on the assessment required by that subsection not later than December 31, 2010.

(2) **ELEMENTS.**—The report required by paragraph (1) shall include the following:

(A) A detailed discussion of the requirements and capability needs identified or proposed for current and prospective combat vehicles and tactical wheeled vehicles.

(B) An identification of capability gaps for combat vehicles and tactical wheeled vehicles based on lessons learned from recent conflicts and an assessment of emerging threats.

(C) An identification of the critical technology elements or integration risks associated with particular categories of combat vehicles and tactical wheeled vehicles, and with particular missions of such vehicles.

(D) Recommendations for a plan to develop and deploy within the next 10 years critical technology capabilities to address the capability gaps identified pursuant to subparagraph (B), including an identification of high priority science and technology, research & engineering, and prototyping opportunities.

(E) Such other matters as the Secretary considers appropriate.

SEC. 221. SYSTEMS ENGINEERING AND PROTOTYPING PROGRAM.

(a) **PROGRAM REQUIRED.**—The Secretary of Defense shall, acting through the Under Secretary of Defense for Acquisition, Technology, and Logistics, carry out a program to encourage and fund systems engineering and prototyping efforts in support of Department of Defense goals and missions.

(b) **OBJECTIVES.**—The objectives of the program required by subsection (a) shall be as follows:

(1) To develop system prototypes for systems that provide capabilities supportive of addressing Department of Defense goals, needs, and requirements.

(2) To successfully demonstrate new systems in relevant environments.

(3) To encourage the training of systems engineers and the development of systems engineering tools and practices.

(c) **SELECTION OF PROJECTS.**—

(1) **PROGRAM AREAS.**—The Under Secretary of Defense for Acquisition, Technology, and Logistics shall, in consultation with the military departments and the Defense Agencies, designate general areas for systems engineering and prototype projects under the program required by subsection (a).

(2) **SOLICITATION OF PROJECTS.**—The Under Secretary shall solicit for the selection of projects under the program within the areas designated under paragraph (1) from among other government entities, federally-funded research and development centers, academia, the private sector, and such other persons, organizations, and entities as the Under Secretary considers appropriate.

(3) **SELECTION.**—The Under Secretary shall select projects for implementation under the program from among responses to the solicitations made under paragraph (2). The Under Secretary shall select such projects on a competitive basis.

(d) **IMPLEMENTATION OF PROJECTS.**—For each project selected under subsection (c)(3), the Under Secretary of Defense for Acquisition, Technology, and Logistics shall designate a military department or Defense Agency to implement the project as part of the program required by subsection (a).

(e) **FUNDING OF PROJECTS.**—

(1) **IN GENERAL.**—The Under Secretary of Defense for Acquisition, Technology, and Logistics shall, subject to paragraphs (2) and (3), provide funds for each project selected under subsection (c)(3) in an amount jointly determined by the Under Secretary and the acquisition executive of the military department or Defense Agency concerned.

(2) **LIMITATION ON AMOUNT OF FUNDS.**—The amount of funds provided to a project under paragraph (1) shall be not greater than the amount equal to 50 percent of the total cost of the project.

(3) **LIMITATION ON PERIOD OF FUNDING.**—A project may not be provided funds under this subsection for more than three fiscal years.

(4) **SOURCE OF OTHER FUNDING.**—Any funds required for a project under this section that are not provided under this subsection shall be derived from funds available to the military department or Defense Agency concerned, or another appropriate source other than this subsection.

(f) **ANNUAL REPORT.**—Not later than March 31 each year, the Under Secretary of Defense for Acquisition, Technology, and Logistics shall submit to the congressional defense committees a report on the activities carried out under the program required by subsection (a) during the preceding fiscal year.

(g) **ACQUISITION EXECUTIVE DEFINED.**—In this section, the term “acquisition executive”, with respect to a military department or Defense Agency, means the official designated as the senior procurement executive for the military department or Defense Agency for the purposes of section 16(c) of the Office of Federal Procurement Policy Act (41 U.S.C. 414 (c)).

Subtitle C—Missile Defense Programs

SEC. 241. SENSE OF CONGRESS ON BALLISTIC MISSILE DEFENSE.

It is the sense of Congress that—

(1) the United States should develop, test, field, and maintain operationally effective, cost-effective, affordable, reliable, suitable, and survivable ballistic missile defense systems that are capable of defending the United States, its forward-deployed forces, allies, and other friendly nations from the threat of ballistic missile attacks from nations such as North Korea and Iran;

(2) the missile defense force structure and inventory levels of such missile defense systems should be determined based on an assessment of ballistic missile threats and a determination by senior military leaders, combatant commanders, and defense officials of the requirements and capabilities needed to address those threats; and

(3) the test and evaluation program for such missile defense systems should be rigorous, robust, operationally realistic, and capable of providing a high level of confidence in the capability of such systems (including their continuing effectiveness over the course of their service lives), and adequate resources should be available for that test and evaluation program (including interceptor missiles and targets for flight tests).

SEC. 242. COMPREHENSIVE PLAN FOR TEST AND EVALUATION OF THE BALLISTIC MISSILE DEFENSE SYSTEM.

(a) **PLAN REQUIRED.**—

(1) **IN GENERAL.**—The Secretary of Defense shall establish a comprehensive plan for the developmental and operational testing and evaluation of the Ballistic Missile Defense System and its various elements.

(2) **PERIOD OF PLAN.**—The plan shall cover the period covered by the future-years defense program that is submitted to Congress under section 221 of title 10, United States Code, at or about the same time as the submittal to Congress of the budget of the President for fiscal year 2011.

(3) **INPUT.**—In establishing the plan, the Secretary shall receive input on matters covered by the plan from the following:

(A) The Director of the Missile Defense Agency.

(B) The Director of Operational Test and Evaluation.

(C) The operational test components of the military departments.

(b) **ELEMENTS.**—The plan required by subsection (a) shall include, with regard to developmental and operational testing of the Ballistic Missile Defense System, the following:

(1) Test and evaluation objectives.

(2) Test and evaluation criteria and metrics.

(3) Test and evaluation procedures and methodology.

(4) Data requirements.

(5) System and element configuration under test.

(6) Approaches to verification, validation, and accreditation of models and simulations.

(7) The relative role of models and simulations, ground tests, and flight tests in achieving the objectives of the plan.

(8) Test infrastructure and resources, including test range limitations and potential range enhancements.

(9) Test readiness review approaches and methodology.

(10) Testing for system and element integration and interoperability.

(11) Means for achieving operational realism and means of demonstrating operational effectiveness, suitability and survivability.

(12) Detailed descriptions of planned tests.

(13) A description of the resources required to implement the plan.

(c) **REPORT.**—

(1) **IN GENERAL.**—Not later than March 1, 2011, the Secretary shall submit to the congressional defense committees a report setting forth and describing the plan required by subsection

(a) and each of the elements required in the plan under subsection (b).

(2) **ADDITIONAL INFORMATION ON GROUND-BASED MIDCOURSE DEFENSE.**—The report required by this subsection shall, in addition to the matters specified in paragraph (1), include a detailed description of the test and evaluation activities pertaining to the Ground-based Midcourse Defense (GMD) element of the Ballistic Missile Defense System as follows:

(A) Plans for salvo testing.

(B) Plans for multiple simultaneous engagement testing.

(C) Plans for intercept testing using the Cobra Dane radar as the engagement sensor.

(D) Plans to test and demonstrate the ability of the system to accomplish its mission over the planned term of its operational service life (also known as “sustainment testing”).

(3) **FORM.**—The report required by this subsection shall be submitted in unclassified form, but may include a classified annex.

SEC. 243. ASSESSMENT AND PLAN FOR THE GROUND-BASED MIDCOURSE DEFENSE ELEMENT OF THE BALLISTIC MISSILE DEFENSE SYSTEM.

(a) **SENSE OF CONGRESS.**—It is the sense of Congress that—

(1) the Ground-based Midcourse Defense (GMD) element of the Ballistic Missile Defense System should be an operationally effective, cost-effective, affordable, reliable, suitable, and survivable system capable of defending the United States from the threat of long-range missile attacks from nations such as North Korea and Iran, and adequate resources should be available to create and maintain such a capability (including continuing effectiveness over the course of its service life);

(2) the force structure and inventory levels of the Ground-based Midcourse Defense element should be determined based on an assessment of ballistic missile threats from nations such as North Korea and Iran and a determination by senior military leaders, combatant commanders, and defense officials of the requirements and capabilities needed to address those threats; and

(3) the test and evaluation program for the Ground-based Midcourse Defense element should be rigorous, robust, operationally realistic, and capable of providing a high degree of confidence in the capability of the system (including testing to demonstrate the continuing effectiveness of the system over the course of its service life), and adequate resources should be available for that test and evaluation program (including interceptor missiles and targets for flight tests).

(b) **ASSESSMENT REQUIRED.**—

(1) **IN GENERAL.**—As part of the Quadrennial Defense Review and the Ballistic Missile Defense Review, the Secretary of Defense shall conduct an assessment of the following:

(A) Ground-based Midcourse Defense element of the Ballistic Missile Defense System.

(B) Future options for the Ground-based Midcourse Defense element.

(2) **ELEMENTS.**—The assessment required by paragraph (1) shall include an assessment of the following:

(A) The ballistic missile threat against which the Ground-based Midcourse Defense element is intended to defend.

(B) The military requirement for Ground-based Midcourse Defense capabilities against such missile threat.

(C) The current capabilities of the Ground-based Midcourse Defense element.

(D) The planned capabilities of the Ground-based Midcourse Defense element, if different from the capabilities under subparagraph (B).

(E) The force structure and inventory levels necessary for the Ground-based Midcourse Defense element to achieve the planned capabilities of that element, including an analysis of the

costs and the potential advantages and disadvantages of deploying 44 operational Ground-based Interceptor missiles.

(F) The infrastructure necessary to achieve such capabilities, including the number and location of operational silos.

(G) The number of Ground-based Interceptor missiles necessary for operational assets, test assets (including developmental and operational test assets and aging and surveillance test assets), and spare missiles.

(3) **REPORT.**—At or about the same time the budget of the President for fiscal year 2011 is submitted to Congress pursuant to section 1105 of title 31, United States Code, the Secretary shall submit to the congressional defense committees a report setting forth the results of the assessment required by paragraph (1). The report shall be in unclassified form, but may include a classified annex.

(c) **PLAN REQUIRED.**—

(1) **IN GENERAL.**—In addition to the assessment required by subsection (b), the Secretary shall establish a plan for the Ground-based Midcourse Defense element of the Ballistic Missile Defense System. The plan shall cover the period of the future-years defense program that is submitted to Congress under section 221 of title 10, United States Code, at or about the same time as the submittal to Congress of the budget of the President for fiscal year 2011.

(2) **ELEMENTS.**—The plan required by paragraph (1) shall include the following elements:

(A) The schedule for achieving the planned capability of the Ground-based Midcourse Defense element, including the completion of operational silos, the delivery of operational Ground-Based Interceptors, and the deployment of such interceptors in those silos.

(B) The plan for funding the development, production, deployment, testing, improvement, and sustainment of the Ground-based Midcourse Defense element.

(C) The plan to maintain the operational effectiveness of the Ground-based Midcourse Defense element over the course of its service life, including any modernization or capability enhancement efforts, and any sustainment efforts.

(D) The plan for flight testing the Ground-based Midcourse Defense element, including aging and surveillance tests to demonstrate the continuing effectiveness of the system over the course of its service life.

(E) The plan for production of Ground-Based Interceptor missiles necessary for operational assets, developmental and operational test assets, aging and surveillance test assets, and spare missiles.

(3) **REPORT.**—At or about the same time the budget of the President for fiscal year 2011 is submitted to Congress pursuant to section 1105 of title 31, United States Code, the Secretary shall submit to the congressional defense committees a report setting forth the plan required by paragraph (1). The report shall be in unclassified form, but may include a classified annex.

(d) **CONSTRUCTION.**—Nothing in this section shall be construed as altering or revising the continued production of all Ground-Based Interceptor missiles on contract as of June 23, 2009.

(e) **COMPTROLLER GENERAL REVIEW.**—The Comptroller General of the United States shall—

(1) review the assessment required by subsection (b) and the plan required by subsection (c); and

(2) not later than 120 days after receiving the assessment and the plan, provide to the congressional defense committees the results of the review.

SEC. 244. REPORT ON POTENTIAL MISSILE DEFENSE COOPERATION WITH RUSSIA.

(a) **REPORT REQUIRED.**—

(1) **IN GENERAL.**—Not later than 120 days after the date of the enactment of this Act, the Sec-

retary of Defense shall submit to the congressional defense committees a report setting forth potential options for cooperation among or between the United States, the North Atlantic Treaty Organization (NATO), and the Russian Federation on ballistic missile defense.

(2) **FORM.**—The report shall be submitted in unclassified form, but may include a classified annex.

(b) **ELEMENTS.**—The report required by subsection (a) shall include the following:

(1) A description of proposals made by the United States, the North Atlantic Treaty Organization, or the Russian Federation since January 1, 2007, for potential missile defense cooperation among or between such countries and that organization, including data sharing, cooperative regional missile defense architectures, joint exercises, and transparency and confidence building measures.

(2) A description of options for the sharing by such countries and that organization of ballistic missile surveillance or early warning data, including data from the Russian early warning radars at Gabala in Azerbaijan, and Armavir in southern Russia or other radars, such as the United States radar proposed for deployment in the Czech Republic.

(3) An assessment of the potential for implementation of the agreement between the United States and the Russian Federation on the establishment of a Joint Data Exchange Center.

(4) An assessment of the potential for missile defense cooperation between the Russian Federation and the North Atlantic Treaty Organization, including through the NATO-Russia Council.

(5) An assessment of the potential security benefits to the United States, Russia, and the North Atlantic Treaty Organization of the cooperation described in paragraph (4).

(6) Such other matters as the Secretary considers appropriate.

SEC. 245. CONTINUED PRODUCTION OF GROUND-BASED INTERCEPTOR MISSILE AND OPERATION OF MISSILE FIELD 1 AT FORT GREELY, ALASKA.

(a) **LIMITATION ON BREAK IN PRODUCTION.**—The Secretary of Defense shall ensure that the Missile Defense Agency does not allow a break in production of the Ground-based Interceptor missile until the Department of Defense has—

(1) completed the Ballistic Missile Defense Review; and

(2) made a determination with respect to the number of Ground-based Interceptor missiles that will be necessary to support the service life of the Ground-based Midcourse Defense element of the Ballistic Missile Defense System.

(b) **LIMITATION ON CERTAIN ACTIONS WITH RESPECT TO MISSILE FIELD 1 AND MISSILE FIELD 2 AT FORT GREELY, ALASKA.**—

(1) **LIMITATION ON DECOMMISSIONING OF MISSILE FIELD 1.**—The Secretary of Defense shall ensure that Missile Field 1 at Fort Greely, Alaska, does not complete decommissioning until seven silos have been emplaced at Missile Field 2 at Fort Greely.

(2) **LIMITATION WITH RESPECT TO DISPOSITION OF SILOS AT MISSILE FIELD 2.**—The Secretary of Defense shall ensure that no irreversible decision is made with respect to the disposition of operational silos at Missile Field 2 at Fort Greely, Alaska, until that date that is 60 days after the date on which the reports required by subsections (b)(3) and (c)(3) of section 243 are submitted to the congressional defense committees.

SEC. 246. SENSE OF SENATE ON AND RESERVATION OF FUNDS FOR DEVELOPMENT AND DEPLOYMENT OF MISSILE DEFENSE SYSTEMS IN EUROPE.

(a) **FINDINGS.**—The Senate makes the following findings:

(1) In the North Atlantic Treaty Organization (NATO) Bucharest Summit Declaration of April

3, 2008, the Heads of State and Government participating in the meeting of the North Atlantic Council declared that “[b]allistic missile proliferation poses an increasing threat to Allies’ forces, territory and populations. Missile defence forms part of a broader response to counter this threat. We therefore recognize the substantial contribution to the protection of Allies from long-range ballistic missiles to be provided by the planned deployment of European-based United States missile defence assets”.

(2) The Bucharest Summit Declaration also stated that “[b]earing in mind the principle of the indivisibility of Allied security as well as NATO solidarity, we task the Council in Permanent Session to develop options for a comprehensive missile defence architecture to extend coverage to all Allied territory and populations not otherwise covered by the United States system for review at our 2009 Summit, to inform any future political decision”.

(3) In the Bucharest Summit Declaration, the North Atlantic Council also reaffirmed to Russia that “current, as well as any future, NATO Missile Defence efforts are intended to better address the security challenges we all face, and reiterate that, far from posing a threat to our relationship, they offer opportunities to deepen levels of cooperation and stability”.

(4) In the Strasbourg/Kehl Summit Declaration of April 4, 2009, the heads of state and government participating in the meeting of the North Atlantic Council reaffirmed “the conclusions of the Bucharest Summit about missile defense,” and declared that “we judge that missile threats should be addressed in a prioritized manner that includes consideration of the level of imminence of the threat and the level of acceptable risk”.

(5) Iran is rapidly developing its ballistic missile capabilities, including its inventory of short-range and medium-range ballistic missiles that can strike portions of Eastern and Southern North Atlantic Treaty Organization European territory, as well as the pursuit of long-range ballistic missiles that could reach Europe or the United States.

(6) On July 8, 2008, the Government of the United States and the Government of the Czech Republic signed an agreement to base a radar facility in the Czech Republic that is part of a proposed missile defense system to protect Europe and the United States against a potential future Iranian long-range ballistic missile threat.

(7) On August 20, 2008, the United States and the Republic of Poland signed an agreement concerning the deployment of ground-based ballistic missile defense interceptors in the territory of the Republic of Poland.

(8) Section 233 of the Duncan Hunter National Defense Authorization Act for Fiscal Year 2009 (Public Law 110-417; 122 Stat. 4393; 10 U.S.C. 2431 note) establishes conditions for the availability of funds for procurement, construction, and deployment of the planned missile defense system in Europe, including that the host nations must ratify any missile defense agreements with the United States and that the Secretary of Defense must certify that the system has demonstrated the ability to accomplish the mission.

(9) On April 5, 2009, President Barack Obama, speaking in Prague, Czech Republic, stated, “As long as the threat from Iran persists, we will go forward with a missile defense system that is cost-effective and proven. If the Iranian threat is eliminated, we will have a stronger basis for security, and the driving force for missile defense construction in Europe will be removed.”.

(10) On June 16, 2009, Deputy Secretary of Defense William Lynn testified before the Committee on Armed Services of the Senate that the United States Government is reviewing its options for developing and deploying operationally

effective, cost-effective missile defense capabilities to Europe against potential future Iranian missile threats, in addition to the proposed deployment of a missile defense system in Poland and the Czech Republic.

(11) On July 9, 2009, General James Cartwright, the Vice Chairman of the Joint Chiefs of Staff, testified before the Committee on Armed Services of the Senate that the Department of Defense was considering some 40 different missile defense architecture options for Europe that could provide a “regional defense capability to protect the nations” of Europe, and a “redundant capability that would assist in protecting the United States,” and that the Department was considering “what kind of an architecture best suits the defense of the region, the defense of the homeland, and the regional stability”.

(b) SENSE OF SENATE.—It is the sense of the Senate that—

(1) the United States Government should continue developing and planning for the proposed deployment of elements of a Ground-based Midcourse Defense (GMD) system, including a midcourse radar in the Czech Republic and Ground-Based Interceptors in Poland, consistent with section 233 of the Duncan Hunter National Defense Authorization Act for Fiscal Year 2009;

(2) in conjunction with the continued development of the planned Ground-based Midcourse Defense system, the United States should work with its North Atlantic Treaty Organization allies to explore a range of options and architectures to provide missile defenses for Europe and the United States against current and future Iranian ballistic missile capabilities;

(3) any alternative system that the United States Government considers deploying in Europe to provide for the defense of Europe and a redundant defense of the United States against future long-range Iranian missile threats should be at least as capable and cost-effective as the proposed European deployment of the Ground-based Midcourse Defense system; and

(4) any missile defense capabilities deployed in Europe should, to the extent practical, be interoperable with United States and North Atlantic Treaty Organization missile defense systems.

(c) RESERVATION OF FUNDS FOR MISSILE DEFENSE SYSTEMS.—

(1) IN GENERAL.—Of the funds authorized to be appropriated or otherwise made available for fiscal years 2009 and 2010 for the Missile Defense Agency for the purpose of developing missile defenses in Europe, \$353,100,000 shall be available only for the purposes described in paragraph (2).

(2) USE OF FUNDS.—The purposes described in this paragraph are the following:

(A) Research, development, test, and evaluation of—

(i) the proposed midcourse radar element of the Ground-based Midcourse Defense system in the Czech Republic; and

(ii) the proposed long-range missile defense interceptor site element of such defense system in Poland.

(B) Research, development, test, and evaluation, procurement, construction, or deployment of other missile defense systems designed to protect Europe, and the United States in the case of long-range missile threats, from the threats posed by current and future Iranian ballistic missiles of all ranges, if the Secretary of Defense submits to the congressional defense committees a report certifying that such systems are expected to be—

(i) consistent with the direction from the North Atlantic Council to address ballistic missile threats to Europe and the United States in a prioritized manner that includes consideration of the imminence of the threat and the level of acceptable risk;

(ii) operationally effective and cost-effective in providing protection for Europe, and the

United States in the case of long-range missile threats, against current and future Iranian ballistic missile threats; and

(iii) interoperable, to the extent practical, with other components of missile defense and complementary to the missile defense strategy of the North Atlantic Treaty Organization.

(d) CONSTRUCTION.—Nothing in this section shall be construed as limiting or preventing the Department of Defense from pursuing the development or deployment of operationally effective and cost-effective ballistic missile defense systems in Europe.

SEC. 247. EXTENSION OF DEADLINE FOR STUDY ON BOOST-PHASE MISSILE DEFENSE.

Section 232(c)(1) of the Duncan Hunter National Defense Authorization Act for Fiscal Year 2009 (Public Law 110-417; 122 Stat. 4392) is amended by striking “October 31, 2010” and inserting “March 1, 2011”.

Subtitle D—Other Matters

SEC. 251. REPEAL OF REQUIREMENT FOR BIENNIAL JOINT WARFIGHTING SCIENCE AND TECHNOLOGY PLAN.

Section 270 of the National Defense Authorization Act for Fiscal Year 1997 (10 U.S.C. 2501 note) is repealed.

SEC. 252. MODIFICATION OF REPORTING REQUIREMENT FOR DEFENSE NANOTECHNOLOGY RESEARCH AND DEVELOPMENT PROGRAM.

Section 246 of the Bob Stump National Defense Authorization Act for Fiscal Year 2003 (Public Law 107-314; 10 U.S.C. 2358 note) is amended by striking subsection (e) and inserting the following new subsection (e):

“(e) REPORTS.—The Under Secretary of Defense for Acquisition, Technology, and Logistics shall submit to the National Science and Technology Council information on the program that covers the information described in paragraphs (1) through (5) of section 2(d) of the 21st Century Nanotechnology Research and Development Act (15 U.S.C. 7501(d)) to be included in the annual report submitted by the Council under that section.”.

SEC. 253. EVALUATION OF EXTENDED RANGE MODULAR SNIPER RIFLE SYSTEMS.

(a) IN GENERAL.—Not later than March 31, 2010, the Assistant Secretary of the Army for Acquisition, Logistics, and Technology shall conduct a comparative evaluation of extended range modular sniper rifle systems, including .300 Winchester Magnum, .338 Lapua Magnum, and other calibers. The evaluation shall identify and demonstrate an integrated suite of technologies capable of—

(1) extending the effective range of snipers;

(2) meeting service or unit requirements or operational need statements; or

(3) closing documented capability gaps.

(b) FUNDING.—The Assistant Secretary of the Army for Acquisition, Logistics, and Technology shall conduct the evaluation required by subsection (a) using amounts appropriated for fiscal year 2009 for extended range modular sniper rifle system research (PE # 0604802A) that are unobligated.

(c) REPORT.—Not later than April 30, 2010, the Assistant Secretary of the Army for Acquisition, Logistics, and Technology shall submit to the Committee on Armed Services of the Senate and the Committee on Armed Services of the House of Representatives a report containing the results of the evaluation required by subsection (a), including—

(1) detailed ballistics and system performance data; and

(2) an assessment of the operational capabilities of extended range modular sniper rifle systems to meet service or unit requirements or operational need statements or close documented capabilities gaps.

TITLE III—OPERATION AND MAINTENANCE

Subtitle A—Authorization of Appropriations

SEC. 301. OPERATION AND MAINTENANCE FUNDING.

(a) **AUTHORIZATION OF APPROPRIATIONS.**—Funds are hereby authorized to be appropriated for fiscal year 2010 for the use of the Armed Forces and other activities and agencies of the Department of Defense, for expenses, not otherwise provided for, for operation and maintenance, in amounts as follows:

- (1) For the Army, \$30,932,882,000.
- (2) For the Navy, \$35,890,046,000.
- (3) For the Marine Corps, \$5,547,223,000.
- (4) For the Air Force, \$34,053,559,000.
- (5) For Defense-wide activities, \$27,645,997,000.
- (6) For the Army Reserve, \$2,623,796,000.
- (7) For the Navy Reserve, \$1,278,501,000.
- (8) For the Marine Corps Reserve, \$228,925,000.
- (9) For the Air Force Reserve, \$3,079,228,000.
- (10) For the Army National Guard, \$6,260,634,000.
- (11) For the Air National Guard, \$5,888,461,000.
- (12) For the United States Court of Appeals for the Armed Forces, \$13,932,000.
- (13) For the Acquisition Development Workforce Fund, \$100,000,000.
- (14) For Environmental Restoration, Army, \$415,864,000.
- (15) For Environmental Restoration, Navy, \$285,869,000.
- (16) For Environmental Restoration, Air Force, \$494,276,000.
- (17) For Environmental Restoration, Defense-wide, \$11,100,000.
- (18) For Environmental Restoration, Formerly Used Defense Sites, \$267,700,000.
- (19) For Overseas Humanitarian, Disaster and Civic Aid programs, \$109,869,000.
- (20) For Cooperative Threat Reduction programs, \$424,093,000.
- (21) For Overseas Contingency Operations Transfer Fund, \$5,000,000.
- (b) **FUNDING TABLE.**—The amounts authorized by subsection (a) shall be available, in accordance with the requirements of section 4001, for projects, programs, and activities, and in the amounts, specified in the funding table in section 4301.

Subtitle B—Environmental Provisions

SEC. 311. REIMBURSEMENT OF ENVIRONMENTAL PROTECTION AGENCY FOR CERTAIN COSTS IN CONNECTION WITH THE FORMER NANSEMOND ORDNANCE DEPOT SITE, SUFFOLK, VIRGINIA.

- (a) **AUTHORITY TO REIMBURSE.**—
- (1) **TRANSFER AMOUNT.**—Using funds described in subsection (b) and notwithstanding section 2215 of title 10, United States Code, the Secretary of Defense may transfer not more than \$68,623 during fiscal year 2010 to the Former Nansemond Ordnance Depot Site Special Account, within the Hazardous Substance Superfund.
- (2) **PURPOSE OF REIMBURSEMENT.**—The payment under paragraph (1) is final payment to reimburse the Environmental Protection Agency for all costs incurred in overseeing a time critical removal action performed by the Department of Defense under the Defense Environmental Restoration Program for ordnance and explosive safety hazards at the Former Nansemond Ordnance Depot Site, Suffolk, Virginia.
- (3) **INTERAGENCY AGREEMENT.**—The reimbursement described in paragraph (2) is provided for in an interagency agreement entered into by the Department of the Army and the Environmental Protection Agency for the Former Nansemond Ordnance Depot Site in December 1999.
- (b) **SOURCE OF FUNDS.**—Any payment under subsection (a) shall be made using funds au-

thorized to be appropriated by section 301(a)(18) for operation and maintenance for Environmental Restoration, Formerly Used Defense Sites.

(c) **USE OF FUNDS.**—The Environmental Protection Agency shall use the amount transferred under subsection (a) to pay costs incurred by the Agency at the Former Nansemond Ordnance Depot Site.

Subtitle C—Workplace and Depot Issues

SEC. 321. MODIFICATION OF AUTHORITY FOR ARMY INDUSTRIAL FACILITIES TO ENGAGE IN COOPERATIVE ACTIVITIES WITH NON-ARMY ENTITIES.

(a) **CLARIFICATION OF AUTHORITY TO ENTER INTO COOPERATIVE AGREEMENTS.**—The second sentence of section 4544(a) of title 10, United States Code, as added by section 328(a)(1) of the National Defense Authorization Act for Fiscal Year 2008 (Public Law 110-181; 122 Stat. 66), is amended by inserting after “not more than eight contracts or cooperative agreements” the following: “in addition to the contracts and cooperative agreements in place as of the date of the enactment of the National Defense Authorization Act for Fiscal Year 2008 (Public Law 110-181)”.

(b) **ADDITIONAL ELEMENTS REQUIRED FOR ANALYSIS OF USE OF AUTHORITY.**—Section 328(b)(2) of the National Defense Authorization Act for Fiscal Year 2008 (Public Law 110-181; 122 Stat. 67) is amended—

- (1) by striking “a report assessing the advisability” and inserting the following: “a report—
- “(A) assessing the advisability”; and
- (2) by striking “pursuant to such authority,” and inserting the following: “pursuant to such authority;
- “(B) assessing the benefit to the Federal Government of using such authority;
- “(C) assessing the impact of the use of such authority on the availability of facilities needed by the Army and on the private sector; and
- “(D) describing the steps taken to comply with the requirements under section 4544(g) of title 10, United States Code.”.

SEC. 322. IMPROVEMENT OF INVENTORY MANAGEMENT PRACTICES.

(a) **INVENTORY MANAGEMENT PRACTICES IMPROVEMENT PLAN REQUIRED.**—Not later than 270 days after the date of the enactment of this Act, the Secretary of Defense shall submit to the congressional defense committees a comprehensive plan for improving the inventory management systems of the military departments and the Defense Logistics Agency with the objective of reducing the acquisition and storage of secondary inventory that is excess to requirements.

(b) **ELEMENTS.**—The plan under subsection (a) shall include the following:

- (1) A plan for a comprehensive review of demand-forecasting procedures to identify and correct any systematic weaknesses in such procedures, including the development of metrics to identify bias toward over-forecasting and adjust forecasting methods accordingly.
- (2) A plan to accelerate the efforts of the Department of Defense to achieve total asset visibility, including efforts to link wholesale and retail inventory levels through multi-echelon modeling.
- (3) A plan to reduce the average level of on-order secondary inventory that is excess to requirements, including a requirement for the systemic review of such inventory for possible contract termination.
- (4) A plan for the review and validation of methods used by the military departments and the Defense Logistics Agency to establish economic retention requirements.
- (5) A plan for an independent review of methods used by the military departments and the Defense Logistics Agency to establish contingency retention requirements.

(6) A plan to identify items stored in secondary inventory that require substantial amounts of storage space and shift such items, where practicable, to direct vendor delivery.

(7) A plan for a comprehensive assessment of inventory items on hand that have no recurring demands, including the development of—

(A) metrics to track years of no demand for items in stock; and

(B) procedures for ensuring the systemic review of such items for potential reutilization or disposal.

(8) A plan to more aggressively pursue disposal reviews and actions on stocks identified for potential reutilization or disposal.

(c) **GAO REPORTS.**—

(1) **ASSESSMENT OF PLAN.**—Not later than 60 days after the date on which the plan required by subsection (a) is submitted as specified in that subsection, the Comptroller General of the United States shall submit to the congressional defense committees a report setting forth an assessment of the extent to which the plan meets the requirements of this section.

(2) **ASSESSMENT OF IMPLEMENTATION.**—Not later than 18 months after the date on which the plan required by subsection (a) is submitted, the Comptroller General shall submit to the congressional defense committees a report setting forth an assessment of the extent to which the plan has been effectively implemented by each military department and by the Defense Logistics Agency.

(d) **INVENTORY THAT IS EXCESS TO REQUIREMENTS DEFINED.**—In this section, the term “inventory that is excess to requirements” means inventory that—

- (1) is excess to the approved acquisition objective concerned; and
- (2) is not needed for the purposes of economic retention or contingency retention.

SEC. 323. TEMPORARY SUSPENSION OF AUTHORITY FOR PUBLIC-PRIVATE COMPETITIONS.

(a) **TEMPORARY SUSPENSION.**—During the period beginning on the date of the enactment of this Act and ending on the date on which the Secretary of Defense submits to the congressional defense committees the certification described in subsection (b), no study or public-private competition regarding the conversion to contractor performance of any function of the Department of Defense performed by civilian employees may be begun or announced pursuant to section 2461 of title 10, United States Code, Office of Management and Budget Circular A-76, or any other authority.

(b) **CERTIFICATION.**—The certification described in this subsection is a certification that—

- (1) the Secretary of Defense has completed and submitted to Congress a complete inventory of contracts for services for or on behalf of the Department of Defense in compliance with the requirements of subsection (c) of section 2330a of title 10, United States Code; and
- (2) the Secretary of each military department and the head of each Defense Agency responsible for activities in the inventory is in compliance with the review and planning requirements of subsection (e) of such section.

SEC. 323A. PUBLIC-PRIVATE COMPETITION REQUIRED BEFORE CONVERSION OF ANY DEPARTMENT OF DEFENSE FUNCTION PERFORMED BY CIVILIAN EMPLOYEES TO CONTRACTOR PERFORMANCE.

(a) **REQUIREMENT.**—Section 2461(a)(1) of title 10, United States Code, is amended—

- (1) by striking “A function” and inserting “No function”; and
- (2) by striking “10 or more”; and
- (3) by striking “may not be converted” and inserting “may be converted”.

(b) **EFFECTIVE DATE.**—The amendments made by subsection (a) shall apply with respect to a

function for which a public-private competition is commenced on or after the date of the enactment of this Act.

SEC. 323B. TIME LIMITATION ON DURATION OF PUBLIC-PRIVATE COMPETITIONS.

(a) **TIME LIMITATION.**—Section 2461(a) of title 10, United States Code, is amended by adding at the end the following new paragraph:

“(5)(A) The duration of a public-private competition conducted pursuant to Office of Management and Budget Circular A-76 or any other provision of law for any function of the Department of Defense performed by Department of Defense civilian employees may not exceed the period of specified in paragraph (B), commencing on the date on which funds are obligated for contractor support of the preliminary planning for the public-private competition begins through the date on which a performance decision is rendered with respect to the function.

“(B) The period referred to in paragraph (A) is 30 months with respect to a single formation activity and 36 months with respect to a multi-formation activity.

“(C) The time period specified in subparagraph (A) for a public-private competition does not include any day during which the public-private competition is delayed by reason of a protest before the Government Accountability Office or the United States Court of Federal Claims.

“(D) In this paragraph, the term ‘preliminary planning’ with respect to a public-private competition means any action taken to carry out any of the following activities:

“(i) Determining the scope of the competition.
“(ii) Conducting research to determine the appropriate grouping of functions for the competition.

“(iii) Assessing the availability of workload data, quantifiable outputs of functions, and agency or industry performance standards applicable to the competition.

“(iv) Determining the baseline cost of any function for which the competition is conducted.”.

(b) **EFFECTIVE DATE.**—Paragraph (5) of section 2461(a) of title 10, United States Code, as added by subsection (a), shall apply with respect to a public-private competition covered by such section that is being conducted on or after the date of the enactment of this Act.

SEC. 323C. TERMINATION OF CERTAIN PUBLIC-PRIVATE COMPETITIONS FOR CONVERSION OF DEPARTMENT OF DEFENSE FUNCTIONS TO PERFORMANCE BY A CONTRACTOR.

Any Department of Defense public-private competition that exceeds the time limits established in section 2461(a) shall be reviewed by the Secretary of Defense and considered for termination. If the Secretary of Defense does not terminate the competition, he shall report to Congress on the reasons for his decision.

SEC. 324. EXTENSION OF ARSENAL SUPPORT PROGRAM INITIATIVE.

Section 343 of the Floyd D. Spence National Defense Authorization Act for Fiscal Year 2001 (10 U.S.C. 4551 note), as amended by section 341 of the National Defense Authorization Act for Fiscal Year 2008 (Public Law 110-181; 122 Stat. 69), is amended—

(1) in subsection (a), by striking “2010” and inserting “2011”; and

(2) in subsection (g)(1), by striking “2010” and inserting “2011”.

SEC. 325. MODIFICATION OF DATE FOR SUBMITTAL TO CONGRESS OF ANNUAL REPORT ON FUNDING FOR PUBLIC AND PRIVATE PERFORMANCE OF DEPOT-LEVEL MAINTENANCE AND REPAIR WORKLOADS.

Section 2466(d)(1) of title 10, United States Code, is amended by striking “April 1 of each

year” and inserting “90 days after the date on which the budget of the President for a fiscal year is submitted to Congress pursuant to section 1105 of title 31”.

Subtitle D—Energy Provisions

SEC. 331. ENERGY SECURITY ON DEPARTMENT OF DEFENSE INSTALLATIONS.

(a) **PLAN FOR ENERGY SECURITY REQUIRED.**—
(1) **IN GENERAL.**—Not later than 180 days after the date of the enactment of this Act, the Secretary of Defense shall develop a plan for identifying and addressing areas in which the electricity needed to carry out critical military missions on Department of Defense installations is vulnerable to disruption.

(2) **ELEMENTS.**—The plan developed under paragraph (1) shall include, at a minimum, the following:

(A) An identification of the areas of vulnerability as described in paragraph (1), and an identification of priorities in addressing such areas of vulnerability.

(B) A schedule for the actions to be taken by the Department to address such areas of vulnerability.

(C) A strategy for working with other public or private sector entities to address such areas of vulnerability that are beyond the control of the Department.

(b) **WORK WITH NON-DEPARTMENT OF DEFENSE ENTITIES.**—

(1) **IN GENERAL.**—The Secretary of Defense shall work with other Federal entities, and with State and local government entities, to develop any regulations or other mechanisms needed to require or encourage actions to address areas of vulnerability identified pursuant to the plan developed under subsection (a) that are beyond the control of the Department of Defense.

(2) **CONTRACT AUTHORITY.**—Where necessary to achieve the purposes of this section, the Secretary may enter into a contract, grant, or other agreement with one or more appropriate public or private sector entities under which such entity or entities agree to carry out actions required to address areas of vulnerability identified pursuant to the plan developed under subsection (a) that are beyond the control of the Department. Any such contract, grant, or agreement may provide for the full or partial reimbursement of the entity concerned by the Department for actions taken by the entity under such contract, grant, or agreement.

SEC. 332. EXTENSION AND EXPANSION OF REPORTING REQUIREMENTS REGARDING DEPARTMENT OF DEFENSE ENERGY EFFICIENCY PROGRAMS.

(a) **NEW REPORTING REQUIREMENTS.**—Section 317(e) of the National Defense Authorization Act for Fiscal Year 2002 (Public Law 107-107; 115 Stat. 1054) is amended to read as follows:

“(e) **REPORTING REQUIREMENTS.**—

“(1) **IN GENERAL.**—Not later one year after the date of the enactment of this Act, and each January 1 thereafter through 2020, the Secretary shall submit to the congressional defense a report regarding progress made toward achieving the energy efficiency goals of the Department of Defense, consistent with the provisions of section 303 of Executive Order 13123 (64 Fed. Reg. 30851; 42 U.S.C. 8521 note) and section 11(b) of Executive Order 13423 (72 Fed. Reg. 3919; 42 U.S.C. 4321 note).

“(2) **REPORTS SUBMITTED AFTER JANUARY 1, 2009.**—Each report required under paragraph (1) that is submitted after the date of the enactment of the National Defense Authorization Act for Fiscal Year 2010 shall include the following:

“(A) A table detailing funding, by account, for all energy projects and investments.

“(B) A description of the funding and steps taken to achieve the renewable energy goals in the Energy Policy Act of 2005 (42 U.S.C. 15801 et seq.) and Executive Order 13423 by fiscal year

2015, and section 2911(e) of title 10, United States Code, by fiscal year 2025.

“(C) A description of steps taken to ensure that facility and installation management goals are consistent with current legislative and other requirements, including applicable requirements under the Energy Independence and Security Act of 2007 (Public Law 110-140).

“(D) A description of steps taken to determine best practices for measuring energy consumption in Department of Defense facilities and installations in order to use the data for better energy management.

“(E) A description of steps taken to comply with requirements of the Energy Independence and Security Act of 2007, including new design and construction requirements for buildings.

“(F) A description of steps taken to comply with section 533 of the National Energy Conservation Policy Act (42 U.S.C. 8259b), regarding the supply by the General Services Administration and the Defense Logistics Agency of Energy Star and Federal Energy Management Program (FEMP) designated products to its Department of Defense customers.

“(G) A description of steps taken to encourage the use of Energy Star and FEMP designated products at military installations in government or contract maintenance activities.

“(H) A description of steps taken to comply with standards for projects built using appropriated funds and established by the Energy Independence and Security Act of 2007 for privatized construction projects, whether residential, administrative, or industrial.

“(I) A description of any other issues and strategies the Secretary determines relevant to a comprehensive and renewable energy policy.”.

(b) **ADDITIONAL MATERIAL REQUIRED FOR FIRST EXPANDED REPORT.**—The first report submitted by the Secretary of Defense under section 317(e) of the National Defense Authorization Act for Fiscal Year 2002 (Public Law 107-107; 115 Stat. 1054), as amended by subsection (a), after the date of the enactment of this Act shall include, in addition to the matters required under such section, the following:

(1) A determination of whether the existing tools, such as the Energy Conservation Investment Program (ECIP) and the Energy Savings Performance Contracts (ESPC) program, are sufficient to support renewable energy projects to achieve the Department's installation energy goals, or if new funding mechanisms would be beneficial.

(2) An appropriate goal or goals for the use of alternative fuels for ground vehicles, aircraft, sea vessels, and applicable weapons systems, taking into consideration a broad range of factors, including cost, availability, technological feasibility, energy independence and security, and environmental impact.

(3) A determination of the cost and feasibility of a policy that would require new power generation projects established on installations to be able to switch to provide power for military operations in the event of a commercial grid outage.

(4) An assessment of the extent to which State and regional laws and regulations and market structures provide opportunities or obstacles to establish renewable energy projects on military installations.

(5) A determination of the cost and feasibility of developing or acquiring equipment or systems that would result in the complete use of renewable energy sources at contingency locations.

(6) A determination of the cost and feasibility of implementing the recommendations of the 2008 Defense Science Board Report entitled, “More Fight – Less Fuel”.

SEC. 333. ALTERNATIVE AVIATION FUEL INITIATIVE.

(a) **FINDINGS.**—Congress makes the following findings:

(1) Dependence on foreign sources of oil is detrimental to the national security of the United States due to possible disruptions in supply.

(2) The Department of Defense is the largest single consumer of fuel in the United States.

(3) The United States Air Force is the largest consumer of fuel in the Department of Defense.

(4) The dramatically fluctuating price of fuel can have a significant budgetary impact on the Department of Defense.

(5) The United States Air Force uses about 2,600,000,000 gallons of jet fuel a year, or 10 percent of the entire domestic market in aviation fuel.

(6) The Air Force's Alternative Aviation Fuel Initiative includes certification and testing of both biomass-derived ("biofuel") and synthetic fuel blends produced via the Fischer-Tropsch (FT) process. By not later than December 31, 2016, the Air Force will be prepared to cost competitively acquire 50 percent of the Air Force's domestic aviation fuel requirement via an alternative fuel blend in which the alternative component is derived from domestic sources produced in a manner that is greener than fuels produced from conventional petroleum.

(7) The Air Force Energy Program will provide options to reduce the use of foreign oil, by focusing on expanding alternative energy options that provide favorable environmental attributes as compared to currently-available options.

(b) CONTINUATION OF INITIATIVES.—

(1) IN GENERAL.—The Secretary of the Air Force shall continue the alternative aviation fuel initiatives of the Air Force with a goal of—

(A) certifying its aircraft, applicable vehicles and support equipment, and associated storage and distribution infrastructure for unrestricted operational use of a synthetic fuel blend by early 2011;

(B) being prepared to acquire 50 percent of its domestic aviation fuel requirement from alternative or synthetic fuels (including blends of alternative or synthetic fuels with conventional fuels) by not later than December 31, 2016, provided that—

(i) the lifecycle greenhouse gas emissions associated with the production and combustion of such fuel shall be equal to or lower than such emissions from conventional fuels that are used in the same application, as determined in accordance with guidance by the Department of Energy and the Environmental Protection Agency; and

(ii) prices for such fuels are cost competitive with petroleum-based alternatives that are used for the same functions;

(C) taking actions in collaboration with the commercial aviation industry and equipment manufacturers to spur the development of a domestic alternative aviation fuel industry; and

(D) taking actions in collaboration with other Federal agencies, the commercial sector, and academia to solicit for and test the next generation of environmentally-friendly alternative aviation fuels.

(2) ADJUSTMENT OF GOAL.—The Secretary of the Air Force may adjust the goal of acquiring 50 percent of Air Force domestic fuel requirements from alternative or synthetic fuels by not later than December 31, 2016, if the Secretary determines in writing that it would not be practicable, or in the best interests of the Air Force, to do so and informs the congressional defense committees within 30 days of the basis for such determination.

(3) ANNUAL REPORT.—Not later than 180 days after the date of the enactment of this Act and annually thereafter in each of fiscal years 2011 through 2016, the Secretary of Defense, in consultation with the Secretary of the Air Force, shall submit to Congress a report on the progress of the alternative aviation fuel initiative program, including—

(A) the status of aircraft fleet certification, until complete;

(B) the quantities of alternative or synthetic fuels (including blends of alternative or synthetic fuels with conventional fuels) purchased for use by the Air Force in the fiscal year ending in such year;

(C) progress made against published goals for such fiscal year;

(D) the status of recovery plans to achieve any goals set for previous years that were not achieved; and

(E) the establishment or adjustment of goals and objectives for the current fiscal year or for future years.

(c) ANNUAL REPORT FOR ARMY AND NAVY.—Not later than 180 days after the date of the enactment of this Act, and annually thereafter in each of fiscal years 2011 through 2016, the Secretary of the Army and the Secretary of the Navy shall each submit to Congress a report on goals and progress to research, test, and certify the use of alternative fuels in their respective aircraft fleets.

(d) DEFENSE SCIENCE BOARD REVIEW.—

(1) REPORT REQUIRED.—Not later than October 1, 2011, the Defense Science Board shall report to the Secretary of Defense on the feasibility and advisability of achieving the goals established in subsection (b)(1). The report shall address—

(A) the technological and economic achievability of the goals;

(B) the impact of actions required to meet such goals on the military readiness of the Air Force, energy costs, environmental performance, and dependence on foreign oil; and

(C) any recommendations the Defense Science Board may have for improving the Air Force program.

(2) SUBMISSION TO CONGRESS.—Not later than 30 days after receiving the report required by under paragraph (1), the Secretary of Defense shall forward the report to Congress, together with the comments and recommendations of the Secretary.

SEC. 334. AUTHORIZATION OF APPROPRIATIONS FOR DIRECTOR OF OPERATIONAL ENERGY.

Of the amounts authorized to be appropriated for Operation and Maintenance, Defense-wide, \$5,000,000 is for the Director of Operational Energy Plans and Programs to carry out the duties prescribed for the Director under section 139b of title 10, United States Code, to be made available upon the confirmation of an individual to serve as the Director of Operational Energy Plans and Programs.

SEC. 335. DEPARTMENT OF DEFENSE PARTICIPATION IN PROGRAMS FOR MANAGEMENT OF ENERGY DEMAND OR REDUCTION OF ENERGY USAGE DURING PEAK PERIODS.

(a) IN GENERAL.—Subchapter I of chapter 173 of title 10, United States Code, is amended by adding at the end the following new section:

"§2919. Department of Defense participation in programs for management of energy demand or reduction of energy usage during peak periods

"(a) PARTICIPATION IN DEMAND RESPONSE OR LOAD MANAGEMENT PROGRAMS.—The Secretary of Defense, the Secretaries of the military departments, the heads of the Defense Agencies, and the heads of other instrumentalities of the Department of Defense are authorized to participate in demand response programs for the management of energy demand or the reduction of energy usage during peak periods conducted by any of the following parties:

"(1) An electric utility

"(2) An independent system operator.

"(3) A State agency.

"(4) A third party entity (such as a demand response aggregator or curtailment service pro-

vider) implementing demand response programs on behalf of an electric utility, independent system operator, or State agency.

"(b) TREATMENT OF CERTAIN FINANCIAL INCENTIVES.—Financial incentives received from an entity specified in subsection (a) shall be received in cash and deposited into the Treasury as a miscellaneous receipt. Amounts received shall be available for obligation only to the extent provided in advance in an appropriations Act. The Secretary concerned or the head of the Defense Agency or other instrumentality, as the case may be, shall pay for the cost of the design and implementation of these services in full in the year in which they are received from amounts provided in advance in an appropriations Act.

"(c) USE OF CERTAIN FINANCIAL INCENTIVES.—Of the amounts derived from financial incentives awarded to a military installation as described in subsection (b) and provided for in advance by an appropriations Act—

"(1) not less than 100 percent shall be made available for use at such military installation; and

"(2) not less than 30 percent shall be made available for energy management initiatives at such installation."

(b) CLERICAL AMENDMENT.—The table of sections at the beginning of such subchapter is amended by adding at the end the following new item:

"2919. Department of Defense participation in programs for management of energy demand or reduction of energy usage during peak periods."

Subtitle E—Reports

SEC. 341. STUDY ON ARMY MODULARITY.

(a) STUDY.—

(1) IN GENERAL.—Not later than 30 days after the date of the enactment of this Act, the Secretary of Defense shall enter into a contract with a Federally Funded Research and Development Center (FFRDC) to conduct a study on the current and planned modularity structures of the Army to determine the following:

(A) The operational capability of the Army to execute its core mission to contribute land power to joint operations.

(B) The ability to manage flexibility and versatility of Army forces across the range of military operations.

(C) The tactical, operational, and strategic risk associated with the heavy and light modular combat brigades and functional brigades.

(D) The required and planned end strength for the Army.

(2) FACTORS TO CONSIDER.—The study required under subsection (a) shall take into consideration the following factors:

(A) The Army's historical experience with separate brigade structures.

(B) The original Army analysis, including explicit or implicit assumptions, upon which the brigade combat team, functional brigade, and higher headquarters' designs were based.

(C) Subsequent analysis that confirmed or modified the original designs.

(D) Lessons learned from Operations Iraqi Freedom and Enduring Freedom that confirmed or modified the original designs.

(E) Improvements in brigade and headquarters designs the Army has made or is implementing.

(3) ACCESS TO INFORMATION.—The Secretary of Defense and the Secretary of the Army shall ensure that the FFRDC conducting the study has access to all necessary data, records, analysis, personnel, and other resources necessary to complete the study.

(b) REPORT.—Not later than December 31, 2010, the Secretary of Defense shall submit to the congressional defense committees a report containing the results of the study conducted under subsection (a), together with comments by

the Chief of Staff of the Army and the Secretary of Defense.

SEC. 342. PLAN FOR MANAGING VEGETATIVE ENCROACHMENT AT TRAINING RANGES.

Section 366(a)(5) of the Bob Stump National Defense Authorization Act for Fiscal Year 2003 (Public Law 107-314; 10 U.S.C. 113 note) is amended—

(1) by striking “(5) At the same time” and inserting “(5)(A) At the same time”; and

(2) by adding at the end the following new subparagraph:

“(B) Beginning with the report submitted to Congress at the same time as the President submits the budget for fiscal year 2011, the report required under this subsection shall include the following:

“(i) An assessment of the extent to which vegetation and overgrowth limits the use of military lands available for training of the Armed Forces in the United States and overseas.

“(ii) Identification of the particular installations and training areas at which vegetation and overgrowth negatively impact the use of training space.

“(iii)(I) As part of the first such report submitted, a plan to address training constraints caused by vegetation and overgrowth.

“(II) As part of each subsequent report, any necessary updates to such plan.”.

SEC. 343. REPORT ON STATUS OF AIR NATIONAL GUARD AND AIR FORCE RESERVE.

Not later than 180 days after the date of the enactment of this Act, the Secretary of Defense, in consultation with the Secretary of the Air Force, the Chief of the National Guard Bureau, the Director of the Air National Guard, the Chief of the Air Force Reserve, and such other officials as the Secretary of Defense considers appropriate, shall submit to Congress a report on—

(1) the status of the Air National Guard and the Air Force Reserve; and

(2) the plans of the Department of Defense to ensure that the Air National Guard and the Air Force Reserve remain ready to meet the requirements of the Air Force and the combatant commands and for homeland defense.

TITLE IV—MILITARY PERSONNEL AUTHORIZATIONS

Subtitle A—Active Forces

SEC. 401. END STRENGTHS FOR ACTIVE FORCES.

The Armed Forces are authorized strengths for active duty personnel as of September 30, 2010, as follows:

- (1) The Army, 547,400.
- (2) The Navy, 328,800.
- (3) The Marine Corps, 202,100.
- (4) The Air Force, 331,700.

SEC. 402. ADDITIONAL AUTHORITY FOR INCREASES OF ARMY ACTIVE-DUTY END STRENGTHS FOR FISCAL YEARS 2010, 2011, AND 2012.

(a) **AUTHORITY TO INCREASE ARMY ACTIVE-DUTY END STRENGTH.**—

(1) **AUTHORITY.**—For each of fiscal years 2010, 2011, and 2012, the Secretary of Defense may, as the Secretary determines necessary for the purposes specified in paragraph (2), establish the active-duty end strength for the Army at a number greater than the number otherwise authorized by law up to the number equal to the fiscal-year 2010 baseline plus 30,000.

(2) **PURPOSE OF INCREASES.**—The purposes for which an increase may be made in the active duty end strength for the Army under paragraph (1) are the following:

(A) To increase dwell time for members of the Army on active duty.

(B) To support operational missions.

(C) To achieve reorganizational objectives, including increased unit manning, force stabilization and shaping, and supporting wounded warriors.

(b) **RELATIONSHIP TO PRESIDENTIAL WAIVER AUTHORITY.**—Nothing in this section shall be construed to limit the authority of the President under section 123a of title 10, United States Code, to waive any statutory end strength in a time of war or national emergency.

(c) **RELATIONSHIP TO OTHER VARIANCE AUTHORITY.**—The authority in subsection (a) is in addition to the authority to vary authorized end strengths that is provided in subsections (e) and (f) of section 115 of title 10, United States Code.

(d) **BUDGET TREATMENT.**—

(1) **IN GENERAL.**—If the Secretary of Defense increases active-duty end strength for the Army for fiscal year 2010 under subsection (a), the Secretary may fund such an increase through Department of Defense reserve funds or through an emergency supplemental appropriation.

(2) **FISCAL YEARS 2011 AND 2012.**—(2) If the Secretary of Defense plans to increase the active-duty end strength for the Army for fiscal year 2011 or 2012, the budget for the Department of Defense for such fiscal year as submitted to Congress shall include the amounts necessary for funding the active-duty end strength for the Army in excess of the fiscal-year 2010 baseline.

(e) **DEFINITIONS.**—In this section:

(1) **FISCAL-YEAR 2010 BASELINE.**—The term “fiscal-year 2010 baseline”, with respect to the Army, means the active-duty end strength authorized for the Army in section 401(1).

(2) **ACTIVE-DUTY END STRENGTH.**—The term “active-duty end strength”, with respect to the Army for a fiscal year, means the strength for active duty personnel of Army as of the last day of the fiscal year.

Subtitle B—Reserve Forces

SEC. 411. END STRENGTHS FOR SELECTED RESERVE.

(a) **IN GENERAL.**—The Armed Forces are authorized strengths for Selected Reserve personnel of the reserve components as of September 30, 2010, as follows:

- (1) The Army National Guard of the United States, 358,200.
- (2) The Army Reserve, 205,000.
- (3) The Navy Reserve, 65,500.
- (4) The Marine Corps Reserve, 39,600.
- (5) The Air National Guard of the United States, 106,700.
- (6) The Air Force Reserve, 69,500.
- (7) The Coast Guard Reserve, 10,000.

(b) **ADJUSTMENTS.**—The end strengths prescribed by subsection (a) for the Selected Reserve of any reserve component shall be proportionately reduced by—

(1) the total authorized strength of units organized to serve as units of the Selected Reserve of such component which are on active duty (other than for training) at the end of the fiscal year; and

(2) the total number of individual members not in units organized to serve as units of the Selected Reserve of such component who are on active duty (other than for training or for unsatisfactory participation in training) without their consent at the end of the fiscal year.

Whenever such units or such individual members are released from active duty during any fiscal year, the end strength prescribed for such fiscal year for the Selected Reserve of such reserve component shall be increased proportionately by the total authorized strengths of such units and by the total number of such individual members.

SEC. 412. END STRENGTHS FOR RESERVES ON ACTIVE DUTY IN SUPPORT OF THE RESERVES.

Within the end strengths prescribed in section 411(a), the reserve components of the Armed Forces are authorized, as of September 30, 2010, the following number of Reserves to be serving on full-time active duty or full-time duty, in the case of members of the National Guard, for the

purpose of organizing, administering, recruiting, instructing, or training the reserve components:

- (1) The Army National Guard of the United States, 32,060.
- (2) The Army Reserve, 16,261.
- (3) The Navy Reserve, 10,818.
- (4) The Marine Corps Reserve, 2,261.
- (5) The Air National Guard of the United States, 14,555.
- (6) The Air Force Reserve, 2,896.

SEC. 413. END STRENGTHS FOR MILITARY TECHNICIANS (DUAL STATUS).

The minimum number of military technicians (dual status) as of the last day of fiscal year 2010 for the reserve components of the Army and the Air Force (notwithstanding section 129 of title 10, United States Code) shall be the following:

- (1) For the Army Reserve, 8,395.
- (2) For the Army National Guard of the United States, 27,210.
- (3) For the Air Force Reserve, 10,417.
- (4) For the Air National Guard of the United States, 22,313.

SEC. 414. FISCAL YEAR 2010 LIMITATION ON NUMBER OF NON-DUAL STATUS TECHNICIANS.

(a) **LIMITATIONS.**—

(1) **NATIONAL GUARD.**—Within the limitation provided in section 10217(c)(2) of title 10, United States Code, the number of non-dual status technicians employed by the National Guard as of September 30, 2010, may not exceed the following:

(A) For the Army National Guard of the United States, 1,600.

(B) For the Air National Guard of the United States, 350.

(2) **ARMY RESERVE.**—The number of non-dual status technicians employed by the Army Reserve as of September 30, 2010, may not exceed 595.

(3) **AIR FORCE RESERVE.**—The number of non-dual status technicians employed by the Air Force Reserve as of September 30, 2010, may not exceed 90.

(b) **NON-DUAL STATUS TECHNICIANS DEFINED.**—In this section, the term “non-dual status technician” has the meaning given that term in section 10217(a) of title 10, United States Code.

SEC. 415. MAXIMUM NUMBER OF RESERVE PERSONNEL AUTHORIZED TO BE ON ACTIVE DUTY FOR OPERATIONAL SUPPORT.

During fiscal year 2010, the maximum number of members of the reserve components of the Armed Forces who may be serving at any time on full-time operational support duty under section 115(b) of title 10, United States Code, is the following:

- (1) The Army National Guard of the United States, 17,000.
- (2) The Army Reserve, 13,000.
- (3) The Navy Reserve, 6,200.
- (4) The Marine Corps Reserve, 3,000.
- (5) The Air National Guard of the United States, 16,000.
- (6) The Air Force Reserve, 14,000.

SEC. 416. REPORT ON TRAINEE ACCOUNT FOR THE ARMY NATIONAL GUARD.

(a) **REPORT REQUIRED.**—Not later than 180 days after the date of the enactment of this Act, the Secretary of the Army shall submit to the congressional defense committees a report setting forth an assessment of the establishment within the Army National Guard of a trainees, transients, holdees, and students account (commonly referred to as a “TTHS” account).

(b) **ELEMENTS.**—The report required by subsection (a) shall include an assessment of the feasibility and advisability of permitting the Army National Guard to have, without regard to its authorized end strength levels for a fiscal

year, a trainees, transients, holdees, and students account for assigning all members of the Army National Guard who have not completed initial entry training in order to ensure that all personnel of fully manned and deployable units of the Army National Guard have completed initial entry training.

SEC. 417. AUTHORITY FOR SERVICE SECRETARY VARIANCES FOR SELECTED RESERVE END STRENGTHS.

Section 115(g) of title 10, United States Code, is amended to read as follows:

“(g) **AUTHORITY FOR SERVICE SECRETARY VARIANCES FOR ACTIVE-DUTY AND SELECTED RESERVE END STRENGTHS.**—(1) Upon determination by the Secretary of a military department that such action would enhance manning and readiness in essential units or in critical specialties or ratings, the Secretary may—

“(A) increase the end strength authorized pursuant to subsection (a)(1)(A) for a fiscal year for the armed force under the jurisdiction of that Secretary or, in the case of the Secretary of the Navy, for any of the armed forces under the jurisdiction of that Secretary, by a number equal to not more than 2 percent of such authorized end strength; and

“(B) increase the end strength authorized pursuant to subsection (a)(2) for a fiscal year for the Selected Reserve of the reserve component of the armed force under the jurisdiction of that Secretary or, in the case of the Secretary of the Navy, for the Selected Reserve of the reserve component of any of the armed forces under the jurisdiction of that Secretary, by a number equal to not more than 2 percent of such authorized end strength.

“(2) Any increase under paragraph (1) of the end strength for an armed force or the Selected Reserve of a reserve component of an armed force shall be counted as part of the increase for that armed force or Selected Reserve for that fiscal year authorized under subsection (f)(1) or subsection (f)(3), respectively.”.

Subtitle C—Authorization of Appropriations

SEC. 421. MILITARY PERSONNEL.

(a) **AUTHORIZATION OF APPROPRIATIONS.**—There is hereby authorized to be appropriated for fiscal year 2010 for the Department of Defense for military personnel amounts as follows:

(1) For military personnel, \$124,864,942,000.

(2) For contributions to the Medicare-Eligible Retiree Health Fund, \$10,751,339,000.

(b) **CONSTRUCTION OF AUTHORIZATION.**—The authorization of appropriations in subsection (a) supersedes any other authorization of appropriations (definite or indefinite) for such purpose for fiscal year 2010.

TITLE V—MILITARY PERSONNEL POLICY

Subtitle A—Officer Personnel Policy

SEC. 501. MODIFICATION OF LIMITATIONS ON GENERAL AND FLAG OFFICERS ON ACTIVE DUTY.

(a) **CLARIFICATION OF DISTRIBUTION LIMITS.**—Section 525 of title 10, United States Code, is amended by striking subsections (a) and (b) and inserting the following new subsections:

“(a) For purposes of the applicable limitation in section 526(a) of this title on general and flag officers on active duty, no appointment of an officer on the active duty list may be made as follows:

“(1) in the Army, if that appointment would result in more than—

“(A) 7 officers in the grade of general;

“(B) 45 officers in a grade above the grade of major general; or

“(C) 90 officers in the grade of major general;

“(2) in the Air Force, if that appointment would result in more than—

“(A) 9 officers in the grade of general;

“(B) 43 officers in a grade above the grade of major general; or

“(C) 73 officers in the grade of major general;

“(3) in the Navy, if that appointment would result in more than—

“(A) 6 officers in the grade of admiral;

“(B) 32 officers in a grade above the grade of rear admiral; or

“(C) 50 officers in the grade of rear admiral;

“(4) in the Marine Corps, if that appointment would result in more than—

“(A) 2 officers in the grade of general;

“(B) 15 officers in a grade above the grade of major general; or

“(C) 22 officers in the grade of major general.

“(b)(1) The limitations of subsection (a) do not include the following:

“(A) An officer released from a joint duty assignment, but only during the 60-day period beginning on the date the officer departs the joint duty assignment, except that the Secretary of Defense may authorize the Secretary of a military department to extend the 60-day period by an additional 120 days, but no more than 3 officers from each armed force may be on active duty who are excluded under this subparagraph.

“(B) An officer while serving in the position of Staff Judge Advocate to the Commandant of the Marine Corps under section 5046 of this title.

“(C) The number of officers required to serve in joint duty assignments as authorized by the Secretary of Defense under section 526(b) for each military service.

“(D) An officer while serving as Chief of the National Guard Bureau.

“(2) An officer of the Army while serving as Superintendent of the United States Military Academy, if serving in the grade of lieutenant general, is in addition to the number that would otherwise be permitted for the Army for officers serving on active duty in grades above major general under subsection (a). An officer of the Navy or Marine Corps while serving as Superintendent of the United States Naval Academy, if serving in the grade of vice admiral or lieutenant general, is in addition to the number that would otherwise be permitted for the Navy or Marine Corps, respectively, for officers serving on active duty in grades above major general or rear admiral under subsection (a). An officer while serving as Superintendent of the United States Air Force Academy, if serving in the grade of lieutenant general, is in addition to the number that would otherwise be permitted for the Air Force for officers serving on active duty in grades above major general under subsection (a).”.

(b) **CLARIFICATION ON OFFSETTING REDUCTIONS.**—Subsection (c) of such section is amended—

(1) in paragraph (1)—

(A) by amending subparagraph (A) to read as follows:

“(A) may make appointments in the Army, Air Force, and Marine Corps in the grades of lieutenant general and general in excess of the applicable numbers determined under this section if each such appointment is made in conjunction with an offsetting reduction under paragraph (2); and” and

(B) in subparagraph (B), by striking “subsection (b)(2)” and inserting “this section”;

(2) in paragraph (3)(A), by striking “the number equal to 10 percent of the total number of officers that may be serving on active duty in those grades in the Army, Navy, Air Force, and Marine Corps under subsection (b)” and inserting “15”; and

(3) in paragraph (3)(B), by striking “the number equal to 15 percent of the total number of officers that may be serving on active duty in those grades in the Army, Navy, Air Force, and Marine Corps” and inserting “5”.

(c) **OTHER DISTRIBUTION CLARIFICATIONS.**—Such section is further amended—

(1) in subsection (e), by striking “In determining the total number of general officers or flag officers of an armed force on active duty for purposes of this section, the following officers shall not be counted:” in the matter preceding paragraph (1) and inserting “The following officers shall not be counted for purposes of this section:”; and

(2) by adding at the end the following new subsection:

“(g) The limitations of this section do not apply to a reserve component general or flag officer who is on active duty and serving in a position that is a joint duty assignment for the purposes of chapter 38 of this title for a period not to exceed three years.”.

(d) **CHANGE TO AUTHORIZED STRENGTHS.**—Subsection (a) of section 526 of such title is amended—

(1) in paragraph (1), by striking “307” and inserting “230”;

(2) in paragraph (2), by striking “216” and inserting “160”;

(3) in paragraph (3), by striking “279” and inserting “208”; and

(4) in paragraph (4), by striking “81” and inserting “60”.

(e) **CHANGES TO LIMITED EXCLUSION FOR JOINT DUTY REQUIREMENTS.**—Subsection (b) of such section is amended—

(1) in paragraph (1)—

(A) by striking “Chairman of the Joint Chiefs of Staff” and inserting “Secretary of Defense”; (B) by striking “65” and inserting “324”; and

(C) by striking the second sentence and inserting the following new sentence: “The Secretary of Defense shall allocate those exclusions to the armed forces based on the number of general or flag officers required from each armed force for assignment to these designated positions.”;

(2) by redesignating paragraph (2) as paragraph (4); and

(3) by inserting after paragraph (1) the following new paragraphs:

“(2) Unless the Secretary of Defense determines that a lower number is in the best interest of the Department, the minimum number of officers serving in positions designated under paragraph (1) for each armed force shall be as follows:

“(A) For the Army, 85.

“(B) For the Navy, 61.

“(C) For the Air Force, 76.

“(D) For the Marine Corps, 21.

“(3) The number excluded under paragraph (1) and serving in positions designated under that paragraph—

“(A) in the grade of general or admiral may not exceed 20;

“(B) in a grade above the grade of major general or rear admiral may not exceed 68; and

“(C) in the grade of major general or rear admiral may not exceed 144.”.

(f) **OTHER AUTHORIZATION CLARIFICATIONS.**—Such section is further amended—

(1) in subsection (d), by adding at the end the following new paragraph:

“(3) The limitations of this section do not apply to a reserve component general or flag officer who is on active duty and serving in a position that is a joint duty assignment for the purposes of chapter 38 of this title for a period not to exceed three years.”; and

(2) by adding at the end the following new subsections:

“(g) **TEMPORARY EXCLUSION FOR ASSIGNMENT TO CERTAIN TEMPORARY BILLETS.**—(1) The limitations in subsection (a) and in section 525(a) of this title do not apply to a general or flag officer assigned to a temporary joint duty assignment designated by the Secretary of Defense.

“(2) A general or flag officer assigned to a temporary joint duty assignment as described in paragraph (1) may not be excluded under this

subsection from the limitations in subsection (a) for a period of longer than one year.

“(h) **EXCLUSION OF OFFICERS DEPARTING FROM JOINT DUTY ASSIGNMENTS.**—The limitations in subsection (a) do not apply to an officer released from a joint duty assignment, but only during the 60-day period beginning on the date the officer departs the joint duty assignment; except that the Secretary of Defense may authorize the Secretary of a military department to extend the 60-day by an additional 120 days, but no more than 3 officers from each armed force may be on active duty who are excluded under this subsection.”.

(g) **REPEAL OF LIMITATIONS ON GENERAL AND FLAG OFFICER ACTIVITIES OUTSIDE THE OFFICER'S OWN SERVICE.**—

(1) **REPEAL.**—Section 721 of such title is repealed.

(2) **CLERICAL AMENDMENT.**—The table of sections at the beginning of chapter 41 of such title is amended by striking the item relating to section 721.

(h) **REPEAL OF SUPERSEDED AUTHORITY.**—Section 506 of the Duncan Hunter National Defense Authorization Act for Fiscal Year 2009 (Public Law 110-417; 122 Stat. 4434; 10 U.S.C. 525 note) is repealed.

SEC. 502. REVISIONS TO ANNUAL REPORT REQUIREMENT ON JOINT OFFICER MANAGEMENT.

Section 667 of title 10, United States Code, is amended—

(1) in paragraph (1)(A), by striking “and their education and experience”;

(2) by striking paragraph (3);

(3) by transferring subparagraph (B) of paragraph (4) to the end of paragraph (1), redesignating that subparagraph as subparagraph (C), aligning that subparagraph with the margin of subparagraph (B) of paragraph (1), and capitalizing the first word of that subparagraph;

(4) by striking the remainder of paragraph (4), as amended by paragraph (3) of this section;

(5) by redesignating paragraph (5) as paragraph (3);

(6) by striking paragraph (6);

(7) by redesignating paragraphs (7) through (11) as paragraphs (4) through (8), respectively;

(8) by redesignating paragraph (12) as paragraph (9) and in that paragraph striking “each time the” and all that follows and inserting “the principal courses of instruction for Joint Professional Military Education Level II, the number of officers graduating from each of the following:

“(A) The Joint Forces Staff College.

“(B) The National Defense University.

“(C) Senior Service Schools.”; and

(9) by redesignating paragraph (13) as paragraph (10).

SEC. 503. GRADE OF LEGAL COUNSEL TO THE CHAIRMAN OF THE JOINT CHIEFS OF STAFF.

(a) **IN GENERAL.**—Section 156(c) of title 10, United States Code, is amended by striking “, while so serving, hold the” and inserting “be appointed in the regular”.

(b) **EFFECTIVE DATE.**—The amendment made by subsection (a) shall take effect on the date of the enactment of this Act, and shall apply with respect to individuals appointed as Legal Counsel to the Chairman of the Joint Chiefs of Staff on or after that date.

SEC. 504. CHIEF AND DEPUTY CHIEF OF CHAPLAINS OF THE AIR FORCE.

(a) **IN GENERAL.**—Chapter 805 of title 10, United States Code, is amended by inserting after section 8038 the following new section:

“§8039. Chief and Deputy Chief of Chaplains: appointment; duties

“(a) **CHIEF OF CHAPLAINS.**—(1) There is a Chief of Chaplains in the Air Force, who shall be appointed by the President, by and with the

advice and consent of the Senate, from active duty officers of the Air Force Chaplain Corps serving in the grade of colonel or above who have served on active duty as a chaplain for at least eight years.

“(2) An officer appointed as the Chief of Chaplains shall be appointed for a term of three years. However, the President may terminate or extend the appointment at any time.

“(3) The Chief of Chaplains shall be appointed in the regular grade of major general.

“(4) The Chief of Chaplains shall perform such duties as may be prescribed by the Secretary of the Air Force and by law.

“(b) **DEPUTY CHIEF OF CHAPLAINS.**—(1) There is a Deputy Chief of Chaplains in the Air Force who shall be appointed by the President by and with the advice and consent of the Senate from active duty officers of the Air Force Chaplain Corps serving in the grade of colonel who have served on active duty as a chaplain for at least eight years.

“(2) An officer appointed as the Deputy Chief of Chaplains shall be appointed for a term of three years. However, the President may terminate or extend the appointment at any time.

“(3) The Deputy Chief of Chaplains shall be appointed in the regular grade of brigadier general.

“(4) The Deputy Chief of Chaplains shall perform such duties as may be prescribed by the Secretary of the Air Force, the Chief of Chaplains, and by law.

“(c) **SELECTION OF RECOMMENDED OFFICERS THROUGH SELECTION BOARD PROCEDURES.**—Under regulations approved by the Secretary of Defense, the Secretary of the Air Force in selecting an officer for recommendation to the President under subsection (a) for appointment as the Chief of Chaplains or under subsection (b) for appointment as the Deputy Chief of Chaplains shall ensure that the officer selected is recommended by a board of officers that, insofar as is practicable, is subject to the procedures applicable to selection boards convened under chapter 36 of this title.”.

(b) **CLERICAL AMENDMENT.**—The table of sections at the beginning of chapter 805 of such title is amended by inserting after the item related to section 8038 the following new item:

“8039. Chief and Deputy Chief of Chaplains: appointment; duties.”.

Subtitle B—Reserve Component Management

SEC. 511. REPORT ON REQUIREMENTS OF THE NATIONAL GUARD FOR NON-DUAL STATUS TECHNICIANS.

(a) **REPORT REQUIRED.**—Not later than 180 days after the date of the enactment of this Act, the Secretary of Defense shall submit to the Committees on Armed Services of the Senate and House of Representatives a report setting forth the following:

(1) A description of the types of duties performed for the National Guard by non-dual status technicians.

(2) A description of the current requirements of the National Guard for non-dual status technicians.

(3) A description of various means of addressing any shortfalls in meeting such requirements, including both temporary shortfalls and permanent shortfalls.

(b) **CONSIDERATIONS.**—The report required by subsection (a) shall take into consideration the effects of the mobilization of large numbers of National Guard military technicians (dual status) on the readiness of National Guard units in critically important areas and on the capacity of the National Guard to continue performing home-based missions and responsibilities for the States.

Subtitle C—Education and Training

SEC. 521. GRADE OF COMMISSIONED OFFICERS IN UNIFORMED MEDICAL ACCESSION PROGRAMS.

(a) **MEDICAL STUDENTS OF USUHS.**—Section 2114(b) of title 10, United States Code, is amended—

(1) in paragraph (1), by striking the second sentence and inserting the following new sentences: “Each medical student shall be appointed as a regular officer in the grade of second lieutenant or ensign. An officer so appointed may, upon meeting such criteria for promotion as may be prescribed by the Secretary concerned, be appointed in the regular grade of first lieutenant or lieutenant (junior grade). Medical students commissioned under this section shall serve on active duty in their respective grades.”; and

(2) in paragraph (2), by striking “grade of second lieutenant or ensign” and inserting “grade in which the member is serving under paragraph (1)”.

(b) **PARTICIPANTS IN HEALTH PROFESSIONS SCHOLARSHIP AND FINANCIAL ASSISTANCE PROGRAM.**—Section 2121(c) of such title is amended—

(1) in paragraph (1), by striking the second sentence and inserting the following new sentences: “Each person so commissioned shall be appointed as a reserve officer in the grade of second lieutenant or ensign. An officer so appointed may, upon meeting such criteria for promotion as may be prescribed by the Secretary concerned, be appointed in the reserve grade of first lieutenant or lieutenant (junior grade). Medical students commissioned under this section shall serve on active duty in their respective grades for a period of 45 days during each year of participation in the program.”; and

(2) in paragraph (2), by striking “grade of second lieutenant or ensign” and inserting “grade in which the member is serving under paragraph (1)”.

(c) **OFFICERS DETAILED AS STUDENTS AT MEDICAL SCHOOLS.**—Subsection (e) of section 2004a of such title is amended—

(1) in the subsection heading, by striking “APPOINTMENT AND TREATMENT OF PRIOR ACTIVE SERVICE” and inserting “SERVICE ON ACTIVE DUTY”; and

(2) by striking paragraph (1) and inserting the following new paragraph (1):

“(1) A commissioned officer detailed under subsection (a) shall serve on active duty, subject to the limitations on grade specified in section 2114(b)(1) of this title and with the entitlement to basic pay as specified in section 2114(b)(2) of this title.”.

SEC. 522. EXPANSION OF CRITERIA FOR APPOINTMENT AS MEMBER OF THE BOARD OF REGENTS OF THE UNIFORMED SERVICES UNIVERSITY OF THE HEALTH SCIENCES.

Section 2113a(b)(1) of title 10, United States Code, is amended by striking “health and health education” and inserting “health care, higher education administration, and public policy”.

SEC. 523. DETAIL OF COMMISSIONED OFFICERS AS STUDENTS AT SCHOOLS OF PSYCHOLOGY.

(a) **IN GENERAL.**—Chapter 101 of title 10, United States Code, is amended by inserting after section 2004 the following new section:

“§2004a. Detail of commissioned officers as students at schools of psychology

“(a) **DETAIL AUTHORIZED.**—The Secretary of each military department may detail commissioned officers of the armed forces as students at accredited schools of psychology located in the United States for a period of training leading to the degree of Doctor of Philosophy in clinical psychology. No more than 25 officers from each

military department may commence such training in any single fiscal year.

“(b) **ELIGIBILITY FOR DETAIL.**—To be eligible for detail under subsection (a), an officer must be a citizen of the United States and must—

“(1) have served on active duty for a period of not less than two years nor more than six years and be in the pay grade 0–3 or below as of the time the training is to begin; and

“(2) sign an agreement that unless sooner separated the officer will—

“(A) complete the educational course of psychological training;

“(B) accept transfer or detail as a commissioned officer within the military department concerned when the officer's training is completed; and

“(C) agree to serve, following completion of the officer's training, on active duty (or on active duty and in the Selected Reserve) for a period as specified pursuant to subsection (c).

“(c) **SERVICE OBLIGATION.**—(1) Except as provided in paragraph (2), the agreement of an officer under subsection (b) shall provide that the officer shall serve on active duty for two years for each year or part thereof of the officer's training under subsection (a).

“(2) The agreement of an officer may authorize the officer to serve a portion of the officer's service obligation on active duty and to complete the service obligation that remains upon separation from active duty in the Selected Reserve. Under any such agreement, an officer shall serve three years in the Selected Reserve for each year or part thereof of the officer's training under subsection (a) for any service obligation that was not completed before separation from active duty.

“(d) **SELECTION OF OFFICERS FOR DETAIL.**—Officers detailed for training under subsection (a) shall be selected on a competitive basis by the Secretary of the military department concerned.

“(e) **RELATION OF SERVICE OBLIGATIONS TO OTHER SERVICE OBLIGATIONS.**—Any service obligation incurred by an officer under an agreement entered into under subsection (b) shall be in addition to any service obligation incurred by the officer under any other provision of law or agreement.

“(f) **EXPENSES.**—Expenses incident to the detail of officers under this section shall be paid from any funds appropriated for the military department concerned.

“(g) **FAILURE TO COMPLETE PROGRAM.**—(1) An officer who is dropped from a program of psychological training to which detailed under subsection (a) for deficiency in conduct or studies, or for other reasons, may be required to perform active duty in an appropriate military capacity in accordance with the active duty obligation imposed on the officer under regulations issued by the Secretary of Defense for purposes of this section.

“(2) In no case shall an officer be required to serve on active duty under paragraph (1) for any period in excess of one year for each year or part thereof the officer participated in the program.

“(h) **LIMITATION ON DETAILS.**—No agreement detailing an officer of the armed forces to an accredited school of psychology may be entered into during any period in which the President is authorized by law to induct persons into the armed forces involuntarily. Nothing in this subsection shall affect any agreement entered into during any period when the President is not authorized by law to so induct persons into the armed forces.”.

(b) **CLERICAL AMENDMENT.**—The table of sections at the beginning of chapter 101 of such title is amended by inserting after the item relating to section 2004 the following new item:

“2004a. Detail of commissioned officers as students at schools of psychology.”.

SEC. 524. AIR FORCE ACADEMY ATHLETIC ASSOCIATION.

(a) **IN GENERAL.**—Chapter 903 of title 10, United States Code, is amended by inserting after section 9361 the following new section:

“§9362. Air Force Academy athletic programs support

“(a) **ESTABLISHMENT AUTHORIZED.**—

“(1) **IN GENERAL.**—The Secretary of the Air Force may, in accordance with the laws of the State of incorporation, establish a corporation to support the athletic programs of the Academy (in this section referred to as the ‘corporation’). All stock of the corporation shall be owned by the United States and held in the name of and voted by the Secretary of the Air Force.

“(2) **PURPOSE.**—The corporation shall operate exclusively for charitable, educational, and civic purposes to support the athletic programs of the Academy.

“(b) **CORPORATE ORGANIZATION.**—The corporation shall be organized and operated—

“(1) as a nonprofit corporation under section 501(c)(3) of the Internal Revenue Code of 1986;

“(2) in accordance with this section; and

“(3) pursuant to the laws of the State of incorporation, its articles of incorporation, and its bylaws.

“(c) **CORPORATE BOARD OF DIRECTORS.**—

“(1) **COMPENSATION.**—The members of the board of directors shall serve without compensation, except for reasonable travel and other related expenses for attendance at meetings.

“(2) **AIR FORCE PERSONNEL.**—The Secretary of the Air Force may authorize military and civilian personnel of the Air Force under section 1033 of this title to serve, in their official capacities, as members of the board of directors, but such personnel shall not hold more than one third of the directorships.

“(d) **TRANSFER FROM NONAPPROPRIATED FUND OPERATION.**—The Secretary of the Air Force may, subject to the acceptance of the corporation, transfer to the corporation all title to and ownership of the assets and liabilities of the Air Force nonappropriated fund instrumentality whose functions include providing support for the athletic programs of the Academy, including bank accounts and financial reserves in its accounts, equipment, supplies, and other personal property, but excluding any interest in real property.

“(e) **ACCEPTANCE OF GIFTS.**—The Secretary of the Air Force may accept from the corporation funds, supplies, and services for the support of cadets and Academy personnel during their participation in, or in support of, Academy or corporate events related to the Academy athletic programs.

“(f) **LEASING.**—The Secretary of the Air Force may, in accordance with section 2667 of this title, lease real and personal property to the corporation for purposes related to the Academy athletic programs. Money rentals received from any such lease may be retained and spent by the Secretary to support athletic programs of the Academy.”.

(b) **CLERICAL AMENDMENT.**—The table of sections at the beginning of such chapter is amended by inserting after the item relating to section 9361 the following new item:

“9362. Air Force Academy athletic programs support.”.

Subtitle D—Defense Dependents' Education Matters

SEC. 531. CONTINUATION OF AUTHORITY TO ASSIST LOCAL EDUCATIONAL AGENCIES THAT BENEFIT DEPENDENTS OF MEMBERS OF THE ARMED FORCES AND DEPARTMENT OF DEFENSE CIVILIAN EMPLOYEES.

(a) **ASSISTANCE TO SCHOOLS WITH SIGNIFICANT NUMBERS OF MILITARY DEPENDENT STUDENTS.**—Of the amount authorized to be appropriated for

fiscal year 2010 pursuant to section 301(a)(5) for operation and maintenance for Defense-wide activities, \$30,000,000 shall be available only for the purpose of providing assistance to local educational agencies under subsection (a) of section 572 of the National Defense Authorization Act for Fiscal Year 2006 (Public Law 109–163; 119 Stat. 3271; 20 U.S.C. 7703b).

(b) **ASSISTANCE TO SCHOOLS WITH ENROLLMENT CHANGES DUE TO BASE CLOSURES, FORCE STRUCTURE CHANGES, OR FORCE RELOCATIONS.**—Of the amount authorized to be appropriated for fiscal year 2010 pursuant to section 301(5) for operation and maintenance for Defense-wide activities, \$10,000,000 shall be available only for the purpose of providing assistance to local educational agencies under subsection (b) of such section 572, as amended by section 533 of this Act.

(c) **LOCAL EDUCATIONAL AGENCY DEFINED.**—In this section, the term “local educational agency” has the meaning given that term in section 8013(9) of the Elementary and Secondary Education Act of 1965 (20 U.S.C. 7713(9)).

SEC. 532. IMPACT AID FOR CHILDREN WITH SEVERE DISABILITIES.

Of the amount authorized to be appropriated for fiscal year 2010 pursuant to section 301(a)(5) for operation and maintenance for Defense-wide activities, \$5,000,000 shall be available for payments under section 363 of the Floyd D. Spence National Defense Authorization Act for Fiscal Year 2001 (as enacted into law by Public Law 106–398; 114 Stat. 1654A–77; 20 U.S.C. 7703a).

SEC. 533. TWO-YEAR EXTENSION OF AUTHORITY FOR ASSISTANCE TO LOCAL EDUCATIONAL AGENCIES WITH ENROLLMENT CHANGES DUE TO BASE CLOSURES, FORCE STRUCTURE CHANGES, OR FORCE RELOCATIONS.

Section 572(b)(4) of the National Defense Authorization Act for Fiscal Year 2006 (Public Law 109–163; 119 Stat. 3271; 20 U.S.C. 7703b(b)(4)) is amended by striking “September 30, 2010” and inserting “September 30, 2012”.

SEC. 534. PERMANENT AUTHORITY FOR ENROLLMENT IN DEFENSE DEPENDENTS' EDUCATION SYSTEM OF DEPENDENTS OF FOREIGN MILITARY MEMBERS ASSIGNED TO SUPREME HEADQUARTERS ALLIED POWERS, EUROPE.

(a) **PERMANENT AUTHORITY.**—Subsection (a)(2) of section 1404A of the Defense Dependents' Education Act of 1978 (20 U.S.C. 923a) is amended by striking “, and only through the 2010–2011 school year”.

(b) **COMBATANT COMMANDER ADVICE AND ASSISTANCE.**—Subsection (c)(1) of such section is amended by inserting after “Secretary” the following: “, with the advice and assistance of the commander of the geographic combatant command with jurisdiction over Mons, Belgium,”.

SEC. 535. STUDY ON OPTIONS FOR EDUCATIONAL OPPORTUNITIES FOR DEPENDENT CHILDREN OF MEMBERS OF THE ARMED FORCES WHO DO NOT ATTEND DEPARTMENT OF DEFENSE DEPENDENTS SCHOOLS.

(a) **STUDY ON OPTIONS FOR EDUCATIONAL OPPORTUNITIES.**—

(1) **STUDY REQUIRED.**—The Secretary of Defense shall, in consultation with the Secretary of Education, conduct a study on options for educational opportunities that are, or may be, available for dependent children of members of the Armed Forces who do not attend Department of Defense dependents' schools when the public elementary and secondary schools attended by such children are determined to be in need of improvement pursuant to the No Child Left Behind Act of 2001 (Public Law 110–117).

(2) **OPTIONS.**—The options to be considered under the study required by paragraph (1) shall include the following:

(A) Vouchers.

(B) Education provided by the Department of Defense through the Internet.

(C) Charter schools.

(D) Such other options as the Secretary of Defense, in consultation with the Secretary of Education, considers appropriate for purposes of the study.

(3) **ELEMENTS.**—The study required by paragraph (1) shall address the following matters:

(A) The challenges faced by parents in military families in securing quality elementary and secondary education for their children when the public elementary and secondary schools attended by their children are identified as being in need of improvement.

(B) The extent to which perceptions of differing degrees of quality in public elementary and secondary schools in different regions of the United States affect plans of military families to relocate, including relocation pursuant to a permanent change of duty station.

(C) The various reasons why military families seek educational opportunities for their children other than those available through local public elementary and secondary schools.

(D) The current level of student achievement in public elementary and secondary schools in school districts which have a high percentage of students who are children of military families.

(E) The educational needs of children of military families who are required by location to attend public elementary and secondary schools identified as being in need of improvement.

(F) The value and impact of a school voucher or other alternative educational program for military families.

(G) The extent to which the options referred to in paragraph (2) would provide a meaningful option for education for military children when the public elementary and secondary schools attended by such children are determined to be in need of improvement.

(H) The extent to which the options referred to in paragraph (2) would improve the quality of education available for students with special needs, including students with learning disabilities and gifted students.

(I) Such other matters as the Secretary of Defense, in consultation with the Secretary of Education, considers appropriate for purposes of the study.

(b) **REPORT.**—Not later than March 31, 2010, the Secretary of Defense shall submit to the Committee on Armed Services of the Senate and the Committee on Armed Services of the House of Representatives a report on the study required by subsection (b). The report shall include the following:

(1) A description of the results of the study.

(2) Such recommendations for legislative or administrative action as the Secretary of Defense considers appropriate in light of the results of the study.

SEC. 536. SENSE OF SENATE ON THE INTERSTATE COMPACT ON EDUCATIONAL OPPORTUNITY FOR MILITARY CHILDREN.

(a) **FINDINGS.**—The Senate makes the following findings:

(1) The incongruity in how States assess and enroll transfer students creates challenges for the moving military family and can, in some cases, be detrimental to the higher education opportunities of military children.

(2) The inability to transfer credits, maintain the proper number of school-year hours, missing exams, and other obstacles can make moving as a military family difficult.

(3) The average military child moves six to nine times between kindergarten and high school graduation, creating a variety of challenges and obstacles related to permanent change of station moves.

(4) The demands and strains on members of the Armed Forces and their families continue to

increase and will do so for the foreseeable future as the United States continues overseas contingency operations, and children and adolescents are acutely vulnerable to family stresses caused by the high operational tempo and may therefore be at a heightened risk for emotional distress.

(5) The routine of the school environment can be a source of stability for military children as they cope with the disruptive challenges caused by the deployment of a parent or a relocation.

(b) **SENSE OF SENATE.**—It is the sense of the Senate to—

(1) express strong support and commendation for Alabama, Alaska, Arizona, Colorado, Connecticut, Delaware, Florida, Hawaii, Indiana, Iowa, Kansas, Kentucky, Maryland, Michigan, Mississippi, Missouri, Nevada, North Carolina, Oklahoma, Texas, Virginia, and Washington as States that have successfully enacted the Interstate Compact on Educational Opportunity for Military Children;

(2) express its strong support and encourage all remaining States to enact the Interstate Compact on Educational Opportunity for Military Children;

(3) recognize the importance of the components of the Interstate Compact on Educational Opportunity for Military Children, including—

(A) the transfer of educational records to expedite the proper enrollment and placement of students;

(B) the ability of students to continue their enrollment at a grade level in the receiving State commensurate with their grade level from the sending State;

(C) priority for attendance to children of members of the Armed Forces assuming the school district accepts transfer students;

(D) the ability of students to continue their course placement, including but not limited to Honors, International Baccalaureate, Advanced Placement, vocational, technical, and career pathways courses;

(E) the recalculation of grades to consider the weights offered by a receiving school for the same performance in the same course when a student transfers from one grading system to another system (for example, number-based system to letter-based system);

(F) the waiver of specific courses required for graduation if similar course work has been satisfactorily completed in another local education agency or the provision of an alternative means of acquiring required coursework so that graduation may occur on time; and

(G) the recognition of an appointed guardian as a custodial parent while the child's parent or parents are deployed; and

(4) express strong support for States to develop a State Council to provide for the coordination among their agencies of government, local education agencies, and military installations concerning the participation of a State in the Interstate Compact on Educational Opportunity for Military Children.

SEC. 537. COMPTROLLER GENERAL AUDIT OF ASSISTANCE TO LOCAL EDUCATIONAL AGENCIES FOR DEPENDENT CHILDREN OF MEMBERS OF THE ARMED FORCES.

(a) **IN GENERAL.**—The Comptroller General of the United States shall conduct an audit of the utilization by local educational agencies of the assistance specified in subsection (b) provided to such agencies for fiscal years 2001 through 2009 for the education of dependent children of members of the Armed Forces. The audit shall include—

(1) an evaluation of the utilization of such assistance by such agencies; and

(2) an assessment of the effectiveness of such assistance in improving the quality of education provided to dependent children of members of the Armed Forces.

(b) **ASSISTANCE SPECIFIED.**—The assistance specified in this subsection is—

(1) assistance provided under—

(A) section 572 of the National Defense Authorization Act for Fiscal Year 2006 (Public Law 109-163; 119 Stat. 3271; 20 U.S.C. 7703b);

(B) section 559 of the Ronald W. Reagan National Defense Authorization Act for Fiscal Year 2005 (Public Law 108-375; 118 Stat. 1917);

(C) section 536 of the National Defense Authorization Act for Fiscal Year 2004 (Public Law 108-136; 117 Stat. 1474);

(D) section 341 of the Bob Stump National Defense Authorization Act for Fiscal Year 2003 (Public Law 107-314; 116 Stat. 2514);

(E) section 351 of the National Defense Authorization Act for Fiscal Year 2002 (Public Law 107-107; 115 Stat. 1063); or

(F) section 362 of the Floyd D. Spence National Defense Authorization Act for Fiscal Year 2001 (as enacted into law by Public Law 106-398; 114 Stat. 1654A-76); and

(2) payments made under section 363 of the Floyd D. Spence National Defense Authorization Act for Fiscal Year 2001 (as enacted into law by Public Law 106-398; 114 Stat. 1654A-77; 20 U.S.C. 7703a).

(c) **REPORT.**—Not later than March 1, 2010, the Comptroller General shall submit to the congressional defense committees a report containing the results of the audit required by subsection (a).

SEC. 538. AUTHORITY TO EXTEND ELIGIBILITY FOR ENROLLMENT IN DEPARTMENT OF DEFENSE ELEMENTARY AND SECONDARY SCHOOLS TO CERTAIN ADDITIONAL CATEGORIES OF DEPENDENTS.

Section 2164 of title 10, United States Code, is amended by adding at the end the following new subsection:

“(j) **TUITION-FREE ENROLLMENT OF DEPENDENTS OF FOREIGN MILITARY PERSONNEL RESIDING ON DOMESTIC MILITARY INSTALLATIONS AND DEPENDENTS OF CERTAIN DECEASED MEMBERS OF THE ARMED FORCES.**—(1) The Secretary may authorize the enrollment in an education program provided by the Secretary pursuant to subsection (a) of a dependent not otherwise eligible for such enrollment who is the dependent of an individual described in paragraph (2). Enrollment of such a dependent shall be on a tuition-free basis.

“(2) An individual referred to in paragraph (1) is any of the following:

“(A) A member of a foreign armed force residing on a military installation in the United States (including territories, commonwealths, and possessions of the United States).

“(B) A deceased member of the armed forces who died in the line of duty in a combat-related operation, as designated by the Secretary.”.

Subtitle E—Military Justice and Legal Assistance Matters

SEC. 541. INDEPENDENT REVIEW OF JUDGE ADVOCATE REQUIREMENTS OF THE DEPARTMENT OF THE NAVY.

(a) **INDEPENDENT PANEL FOR REVIEW.**—

(1) **ESTABLISHMENT.**—There is hereby established an independent panel to review the judge advocate requirements of the Department of the Navy.

(2) **COMPOSITION.**—The panel shall be composed of five members, appointed by the Secretary of Defense from among private United States citizens who have expertise in law, military manpower policies, the missions of the Navy and Marine Corps, and the current responsibilities of Navy and Marine Corps judge advocates in ensuring competent legal representation and advice to commanders.

(3) **CHAIR.**—The chair of the panel shall be appointed by the Secretary from among the members of the panel appointed under paragraph (2).

(4) **PERIOD OF APPOINTMENT; VACANCIES.**—Members shall be appointed for the life of the panel. Any vacancy in the panel shall be filled in the same manner as the original appointment.

(5) **MEETINGS.**—The panel shall meet at the call of the chair.

(6) **DEADLINE FOR APPOINTMENTS.**—All original appointments to the panel shall be made not later than April 1, 2010.

(7) **FIRST MEETING.**—The chair shall call the first meeting of the panel not later than June 1, 2010.

(b) **DUTIES.**—

(1) **IN GENERAL.**—The panel established under subsection (a) shall carry out a study of the policies and management and organizational practices of the Navy and Marine Corps with respect to the responsibilities, assignment, and career development of judge advocates for purposes of determining the number of judge advocates required to fulfill the legal mission of the Department of the Navy.

(2) **REVIEW.**—In carrying out the study required by paragraph (1), the panel shall—

(A) review the emergent operational law requirements of the Navy and Marine Corps, including requirements for judge advocates on joint task forces, in support of rule of law objectives in Iraq and Afghanistan, and in operational units;

(B) review new requirements to support the Office of Military Commissions and to support the disability evaluation system for members of the Armed Forces;

(C) review the judge advocate requirements of the Department of the Navy for the military justice mission, including assignment policies, training and education, increasing complexity of court-martial litigation, and the performance of the Navy and Marine Corps in providing legally sufficient post-trial processing of cases in general courts-martial and special courts-martial;

(D) review the role of the Judge Advocate General of the Navy, as the senior uniformed legal officer of the Department of the Navy, to determine whether additional authority for the Judge Advocate General over manpower policies and assignments of judge advocates in the Navy and Marine Corps is warranted;

(E) review directives issued by the Navy and the Marine Corps pertaining to jointly-shared missions requiring legal support;

(F) review career patterns for Marine Corps judge advocates in order to identify and validate assignments to nonlegal billets required for professional development and promotion; and

(G) review, evaluate, and assess such other matters and materials as the panel considers appropriate for purposes of the study.

(3) **UTILIZATION OF OTHER STUDIES.**—In carrying out the study required by paragraph (1), the panel may review, and incorporate as appropriate, the findings of applicable ongoing and completed studies in future manpower requirements, including the two-part study by CNA Analysis and Solutions entitled “An Analysis of Navy JAG Corps Future Manpower Requirements”.

(4) **REPORT.**—Not later than 120 days after its first meeting under subsection (a)(7), the panel shall submit to the Secretary of Defense and the Committees on Armed Services of the Senate and the House of Representatives a report on the study. The report shall include—

(A) the findings and conclusions of the panel as a result of the study; and

(B) any recommendations for legislative or administrative action that the panel considers appropriate in light of the study.

(c) **PERSONNEL MATTERS.**—

(1) **PAY OF MEMBERS.**—(A) Members of the panel established under subsection (a) shall serve without pay by reason of their work on the panel.

(B) Section 1342 of title 31, United States Code, shall not apply to the acceptance of services of a member of the panel under this section.

(2) **TRAVEL EXPENSES.**—The members of the panel shall be allowed travel expenses, including per diem in lieu of subsistence, at rates authorized for employees of agencies under subchapter 1 of chapter 57 of title 5, United States Code, while away from their homes or regular places of business in the performance or services for the panel.

Subtitle F—Military Family Readiness Matters

SEC. 551. ADDITIONAL MEMBERS ON THE DEPARTMENT OF DEFENSE MILITARY FAMILY READINESS COUNCIL.

Section 1781a(b)(1) of title 10, United States Code, is amended—

(1) by redesignating subparagraphs (C) and (D) as subparagraphs (D) and (E), respectively;

(2) by inserting after subparagraph (B) the following new subparagraph (C):

“(C) In addition to the representatives appointed under subparagraph (B)—

“(i) one representative from the National Guard, who shall be appointed by the Secretary of Defense; and

“(ii) one representative from a reserve component of the armed forces (other than the National Guard), who shall be so appointed.”; and

(3) in subparagraph (E), as redesignated by paragraph (1), by striking “subparagraph (B)” and inserting “subparagraphs (B) and (C)”.

SEC. 552. COMPREHENSIVE PLAN ON PREVENTION, DIAGNOSIS, AND TREATMENT OF SUBSTANCE USE DISORDERS AND DISPOSITION OF SUBSTANCE ABUSE OFFENDERS IN THE ARMED FORCES.

(a) **REVIEW AND ASSESSMENT OF CURRENT CAPABILITIES.**—

(1) **IN GENERAL.**—Not later than 180 days after the date of the enactment of this Act, the Secretary of Defense shall, in consultation with the Secretaries of the military departments, conduct a comprehensive review of the following:

(A) The programs and activities of the Department of Defense for the prevention, diagnosis, and treatment of substance use disorders in members of the Armed Forces.

(B) The policies of the Department of Defense relating to the disposition of substance abuse offenders in the Armed Forces, including disciplinary action and administrative separation.

(2) **ELEMENTS.**—The review conducted under paragraph (1) shall include, but not be limited to, an assessment of each of the following:

(A) The current state and effectiveness of the programs of the Department of Defense and the military departments relating to the prevention, diagnosis, and treatment of substance use disorders.

(B) The adequacy of the availability of and access to care for substance abusers in military medical treatment facilities and under the TRICARE program.

(C) The adequacy of oversight by the Department of Defense of programs relating to the prevention, diagnosis, and treatment of substance abuse in members of the Armed Forces.

(D) The adequacy and appropriateness of current credentials and other requirements for healthcare professionals treating members of the Armed Forces with substance use disorders.

(E) The advisable ratio of physician and non-physician care providers for substance use disorders to members of the Armed Forces with such disorders.

(F) The adequacy and appropriateness of protocols and directives for the diagnosis and treatment of substance use disorders in members of the Armed Forces and for the disposition, including disciplinary action and administrative separation, of members of the Armed Forces who abuse substances.

(G) The adequacy of the availability of and access to care for substance use disorders for members of the reserve components of the Armed Forces, including an identification of any obstacles that are unique to the prevention, diagnosis, and treatment of substance use disorders and the appropriate disposition of substance abuse offenders (including disciplinary action and administrative separation) in members of the reserve components of the Armed Forces.

(H) The adequacy of the prevention, diagnosis, and treatment of substance use disorders in family members of members of the Armed Forces.

(I) Any gaps in the current capabilities of the Department of Defense for the prevention, diagnosis, and treatment of substance use disorders in members of the Armed Forces.

(3) **REPORT.**—Not later than 180 days after the date of the enactment of this Act, the Secretary of Defense shall submit to the Committees on Armed Services of the Senate and the House of Representatives a report setting forth the findings and recommendations of the Secretary as a result of the review conducted under paragraph (1). The report shall—

(A) set forth the findings and recommendations of the Secretary regarding each element of the review specified in paragraph (2);

(B) set forth relevant statistics on the frequency of substance use disorders, disciplinary actions, and administrative separations for substance abuse in members of the regular components of the Armed Forces, members of the reserve component of the Armed Forces, and to the extent applicable, dependents of such members (including spouses and children); and

(C) include such other findings and recommendations on improvements to the current capabilities of the Department of Defense for the prevention, diagnosis, and treatment of substance use disorders in members of the Armed Forces and the policies relating to the disposition, including disciplinary action and administrative separation, of members of the Armed Forces for substance abuse, as the Secretary considers appropriate.

(b) **PLAN FOR IMPROVEMENT AND ENHANCEMENT OF PROGRAMS AND POLICIES.**—

(1) **PLAN REQUIRED.**—Not later than 270 days after the date of the enactment of this Act, the Secretary of Defense shall submit to the congressional defense committees a comprehensive plan for the improvement and enhancement of the following:

(A) The programs and activities of the Department of Defense for the prevention, diagnosis, and treatment of substance use disorders in members of the Armed Forces and their dependent family members.

(B) The policies of the Department of Defense relating to the disposition of substance abuse offenders in the Armed Forces, including disciplinary action and administrative separation.

(2) **BASIS.**—The comprehensive plan required by paragraph (1) shall take into account the following:

(A) The results of the review and assessment conducted under subsection (a).

(B) Similar initiatives of the Secretary of Veterans Affairs to expand and improve care for substance use disorders among veterans, including the programs and activities conducted under title I of the Veterans' Mental Health and Other Care Improvements Act of 2008 (Public Law 110-387; 112 Stat. 4112).

(3) **COMPREHENSIVE STATEMENT OF POLICY.**—The comprehensive plan required by paragraph (1) shall include a comprehensive statement of the following:

(A) The policy of the Department of Defense regarding the prevention, diagnosis, and treatment of substance use disorders in members of the Armed Forces and their dependent family members.

(B) The policies of the Department of Defense relating to the disposition of substance abuse offenders in the Armed Forces, including disciplinary action and administrative separation.

(4) AVAILABILITY OF SERVICES AND TREATMENT.—The comprehensive plan required by paragraph (1) shall include mechanisms to ensure the availability to members of the Armed Forces and their dependent family members of a core of evidence-based practices across the spectrum of medical and non-medical services and treatments for substance use disorders.

(5) PREVENTION AND REDUCTION OF DISORDERS.—The comprehensive plan required by paragraph (1) shall include mechanisms to facilitate the prevention and reduction of substance use disorders in members of the Armed Forces through science-based initiatives, including education programs, for members of the Armed Forces and their families.

(6) SPECIFIC INSTRUCTIONS.—The comprehensive plan required by paragraph (1) shall include each of the following:

(A) SUBSTANCES OF ABUSE.—Instructions on the prevention, diagnosis, and treatment of substance abuse in members of the Armed Forces, including the abuse of alcohol, illicit drugs, and nonmedical use and abuse of prescription drugs.

(B) HEALTHCARE PROFESSIONALS.—Instructions on—

(i) appropriate training of healthcare professionals in the prevention, screening, diagnosis, and treatment of substance use disorders in members of the Armed Forces;

(ii) appropriate staffing levels for healthcare professionals at military medical treatment facilities for the prevention, screening, diagnosis, and treatment of substance use disorders in members of the Armed Forces; and

(iii) such uniform training and credentialing requirements for physician and nonphysician healthcare professionals in the prevention, screening, diagnosis, and treatment of substance use disorders in members of the Armed Forces as the Secretary considers appropriate.

(C) SERVICES FOR DEPENDENT FAMILY MEMBERS.—Instructions on the availability of services for substance use disorders for dependent family members of members of the Armed Forces, including instructions on making such services available to such dependents to the maximum extent practicable.

(D) RELATIONSHIP BETWEEN DISCIPLINARY ACTION AND TREATMENT.—Policy on the relationship between disciplinary actions and administrative separation processing and prevention and treatment of substance use disorders in members of the Armed Forces.

(E) CONFIDENTIALITY.—Recommendations regarding policies pertaining to confidentiality for members of the Armed Forces in seeking or receiving services or treatment for substance use disorders.

(F) PARTICIPATION OF CHAIN OF COMMAND.—Policy on appropriate consultation, reference to, and involvement of the chain of command of members of the Armed Forces in matters relating to the diagnosis and treatment of substance abuse and disposition of military members who abuse substances.

(G) CONSIDERATION OF GENDER.—Instructions on gender specific requirements, if appropriate, in the prevention, diagnosis, treatment, and management of substance use disorders in members of the Armed Forces, including gender specific care and treatment requirements.

(H) COORDINATION WITH OTHER HEALTHCARE INITIATIVES.—Instructions on the integration of efforts on the prevention, diagnosis, treatment, and management of substance use disorders in members of the Armed Forces with efforts to address co-occurring health care disorders (such as post-traumatic stress disorder (PTSD) and depression) and suicide prevention.

(7) OTHER ELEMENTS.—In addition to the matters specified in paragraph (3), the comprehensive plan required by paragraph (1) shall include the following:

(A) IMPLEMENTATION PLAN.—An implementation plan for the achievement of the goals of the comprehensive plan, including goals relating to the following:

(i) Enhanced education of members of the Armed Forces and their families regarding substance use disorders.

(ii) Enhanced and improved identification and diagnosis of substance use disorders in members of the Armed Forces and their families.

(iii) Enhanced and improved access of members of the Armed Forces to services and treatment for and management of substance use disorders.

(iv) Appropriate staffing of military medical treatment facilities and other facilities for the treatment of substance use disorders in members of the Armed Forces.

(B) BEST PRACTICES.—The incorporation of evidence-based best practices utilized in current military and civilian approaches to the prevention, diagnosis, treatment, and management of substance use disorders.

(C) AVAILABLE RESEARCH.—The incorporation of applicable results of available studies, research, and academic reviews on the prevention, diagnosis, treatment, and management of substance use disorders.

(8) UPDATE IN LIGHT OF INDEPENDENT STUDY.—Upon the completion of the study required by subsection (c), the Secretary of Defense shall—

(A) in consultation with the Secretaries of the military departments, make such modifications and improvements to the comprehensive plan required by paragraph (1) as the Secretary of Defense considers appropriate in light of the findings and recommendations of the study; and

(B) submit to the congressional defense committees a report setting forth the comprehensive plan as modified and improved under subparagraph (A).

(c) INDEPENDENT REPORT ON SUBSTANCE USE DISORDERS PROGRAMS FOR MEMBERS OF THE ARMED FORCES.—

(1) STUDY REQUIRED.—Upon completion of the policy review required by subsection (a), the Secretary of Defense shall provide for a study on substance use disorders programs for members of the Armed Forces to be conducted by the Institute of Medicine of the National Academies of Sciences or such other independent entity as the Secretary shall select for purposes of the study.

(2) ELEMENTS.—The study required by paragraph (1) shall include a review and assessment of the following:

(A) The adequacy and appropriateness of protocols for the diagnosis, treatment, and management of substance use disorders in members of the Armed Forces.

(B) The adequacy of the availability of and access to care for substance use disorders in military medical treatment facilities and under the TRICARE program.

(C) The adequacy and appropriateness of current credentials and other requirements for physician and non-physician healthcare professionals treating members of the Armed Forces with substance use disorders.

(D) The advisable ratio of physician and non-physician care providers for substance use disorders to members of the Armed Forces with such disorders.

(E) The adequacy of the availability of and access to care for substance use disorders for members of the reserve components of the Armed Forces when compared with the availability of and access to care for substance use disorders for members of the regular components of the Armed Forces.

(F) The adequacy of the prevention, diagnosis, treatment, and management of substance use disorder programs for dependent family members of members of the Armed Forces, whether such family members suffer from their own substance use disorder or because of the substance use disorder of a member of the Armed Forces.

(G) Such other matters as the Secretary considers appropriate for purposes of the study.

(3) REPORT.—Not later than two years after the date of the enactment of this Act, the entity conducting the study required by paragraph (1) shall submit to the Secretary of Defense and the congressional defense committees a report on the results of the study. The report shall set forth the findings and recommendations of the entity as a result of the study.

SEC. 553. MILITARY COMMUNITY SUPPORT FOR CHILDREN WITH AUTISM AND THEIR FAMILIES.

(a) POLICY ON MILITARY COMMUNITY SUPPORT REQUIRED.—The Secretary of Defense shall develop and implement a policy for the Department of Defense on the support of military children with autism and their families. The policy shall seek to establish and further an integrated, family-centered approach to providing services to military children with autism and their families by leveraging the resources of local military communities and local and national public and private entities devoted to research and services for autism.

(b) PROGRAM ON SUPPORT.—

(1) PROGRAM REQUIRED.—In carrying out the policy required by subsection (a), the Secretary shall develop and carry out a program on support for military children with autism and their families.

(2) ELEMENTS.—The program required by this subsection shall provide for broad-based services, including the following:

(A) Research.

(B) Early intervention.

(C) Evidence-based therapeutic and medical services.

(D) Education and training on autism for family members.

(E) Appropriate coordination with applicable school programs.

(F) Vocational training for adolescent military children with autism.

(G) Family counseling for families of military children with autism.

(3) PILOT PROJECTS.—In carrying out the program required by this subsection, the Secretary shall conduct one or more pilot projects to assess the effectiveness of various approaches to developing and enhancing integrated community support for military children with autism, including adolescent military children with autism, and their families utilizing the program elements specified in paragraph (2).

(4) CONSULTATION.—For purposes of carrying out the requirements of this subsection, the Secretary shall establish a partnership with one or more entities (whether public or private) that provide services or support for, or conduct research on, individuals with autism spectrum disorder and their families.

(c) REPORTS.—

(1) INITIAL REPORT.—Not later than 60 days after the date of the enactment of this Act, the Secretary shall submit to the congressional defense committees a report setting forth the actions the Secretary proposes to take to carry out this section and a proposed schedule for the taking of such actions.

(2) PILOT PROJECTS.—Not later than 60 days after the date of the completion of the pilot project or projects conducted under subsection (b)(3), the Secretary shall submit to the congressional defense committees a report on the pilot project or projects. The report shall include a

description of the pilot project or projects, an assessment of the lessons learned from the pilot project or projects, and a discussion of the manner in which the lessons so learned shall be integrated into the policy required by subsection (a) and the program required by subsection (b).

(d) **FUNDING.**—Of the amount authorized to be appropriated for fiscal year 2010 pursuant to section 301(a)(5) for operation and maintenance, Defense-wide activities, \$5,000,000 may be available to carry out this section.

(e) **MILITARY CHILDREN WITH AUTISM DEFINED.**—In this section, the term “military children with autism” means dependent children of members of the Armed Forces with autism spectrum disorder.

SEC. 554. REPORTS ON EFFECTS OF DEPLOYMENTS ON MILITARY CHILDREN AND THE AVAILABILITY OF MENTAL HEALTH CARE AND COUNSELING SERVICES FOR MILITARY CHILDREN.

(a) **IMPACT OF DEPLOYMENTS OF MILITARY PARENTS ON MILITARY CHILDREN.**—

(1) **IN GENERAL.**—The Secretary of Defense shall undertake a comprehensive assessment of the impacts of military deployment on dependent children of members of the Armed Forces. The assessment shall separately address each of the categories of such children as follows:

- (A) Preschool-age children.
- (B) Elementary-school age children.
- (C) Teenage or adolescent children.

(2) **ELEMENTS.**—The assessment undertaken under paragraph (1) shall include an assessment of the following:

(A) The impact that separation due to the deployment of a military parent or parents has on children.

(B) The impact that multiple deployments of a military parent or parents have on children.

(C) The impact that the return from deployment of a severely wounded or injured military parent or parents has on children.

(D) The impact that the death of a military parent or parents in connection with a deployment has on children.

(E) The impact that deployment of a military parent or parents has on children with pre-existing psychological conditions, such as anxiety and depression.

(F) The impact that deployment of a military parent or parents has on risk factors such as child abuse, child neglect, family violence, substance abuse by children, or parental substance abuse.

(G) Such other matters as the Secretary considers appropriate.

(3) **REPORT.**—Not later than one year after the date of the enactment of this Act, the Secretary shall submit to the Committees on Armed Services of the Senate and the House of Representatives a report on the assessment undertaken under paragraph (1), including the findings and recommendations of the Secretary as a result of the assessment.

(b) **MENTAL HEALTH CARE AND COUNSELING SERVICES AVAILABLE TO MILITARY CHILDREN.**—

(1) **IN GENERAL.**—The Secretary of Defense shall conduct a comprehensive review of the mental health care and counseling services available to dependent children of members of the Armed Forces through the Department of Defense.

(2) **ELEMENTS.**—The review under paragraph (1) shall include an assessment of the following:

(A) The availability, quality, and effectiveness of Department of Defense programs intended to meet the mental health care needs of military children.

(B) The availability, quality, and effectiveness of Department of Defense programs intended to promote resiliency in military children in coping with deployment cycles, injury, or death in military parents.

(C) The extent of access to, adequacy, and availability of mental health care and coun-

seling services for military children in military medical treatment facilities, in family assistance centers, through Military OneSource, under the TRICARE program, and in Department of Defense dependents' schools.

(D) Whether the status of a member of the Armed Forces on active duty, or in reserve active status, affects the access of a military child to mental health care and counseling services.

(E) Whether, and to what extent, waiting lists, geographic distance, and other factors may obstruct the receipt by military children of mental health care and counseling services.

(F) The extent of access to, availability, and viability of specialized mental health care for military children (including adolescents).

(G) The extent of any gaps in the current capabilities of the Department of Defense to provide preventive mental health services for military children.

(H) Such other matters as the Secretary considers appropriate.

(3) **REPORT.**—Not later than one year after the date of the enactment of this Act, the Secretary shall submit to the Committees on Armed Services of the Senate and the House of Representatives a report on the review conducted under paragraph (1), including the findings and recommendations of the Secretary as a result of the review.

(4) **COMPREHENSIVE PLAN FOR IMPROVEMENTS IN ACCESS TO CARE AND COUNSELING.**—The Secretary shall develop a comprehensive plan for improvements in access to quality mental health care and counseling services for military children in order to develop and promote psychological health and resilience in children of deploying and deployed members of the Armed Forces. The information in the report required by paragraph (3) shall provide the basis for the development of the plan.

SEC. 555. REPORT ON CHILD CUSTODY LITIGATION INVOLVING SERVICE OF MEMBERS OF THE ARMED FORCES.

(a) **REPORT REQUIRED.**—Not later than June 1, 2010, the Secretary of Defense shall submit to the Committees on Armed Services of the Senate and the House of Representatives a report on all known reported cases since September 2003 involving child custody disputes in which the service of a member of the Armed Forces, whether a member of a regular component of the Armed Forces or a member of a reserve component of the Armed Forces, was an issue in the custody dispute.

(b) **ELEMENTS.**—The report required by subsection (a) shall include the following:

(1) A statement of the total number of cases, by Armed Force, in which members of the Armed Forces have lost custody of a child as a result of deployment, or the prospect of deployment, under military orders.

(2) A summary of applicable Federal law pertaining to child custody disputes involving members of the Armed Forces.

(3) An analysis of the litigation history of all available reported cases involving child custody disputes in which the deployment of a member of the Armed Forces was an issue in the dispute, and a discussion of the rationale presented by deciding judges and courts of the reasons for their rulings.

(4) An assessment of the nature and extent of the problem, if any, for members of the Armed Forces who are custodial parents in being able to deploy and perform their operational mission while continuing to fulfill their role as parents with sole or joint custody of minor children.

(5) A discussion of measures being taken by the States, or which are under consideration by State legislatures, to address matters relating to child custody disputes in which one of the parties is a member of the Armed Forces, and an assessment whether State legislatures and State

courts are cognizant of issues involving members of the Armed Forces with minor children.

(6) A discussion of Family Care Plan policies aimed at ensuring that appropriate measures are taken by members of the Armed Forces to avoid litigation in child custody disputes.

(7) Such recommendations as the Secretary considers appropriate regarding how best to assist members of the Armed Forces who are single, custodial parents with respect to child custody disputes in connection with the performance of military duties, including the need for legislative or administrative action to provide such assistance.

(8) Such other recommendations for legislative or administrative action as the Secretary considers appropriate.

SEC. 556. SENSE OF SENATE ON PREPARATION AND COORDINATION OF FAMILY CARE PLANS.

(a) **FINDINGS.**—The Senate makes the following findings:

(1) Family Care Plans provide a military tool to document the plan by which members of the Armed Forces provide for the care of their family members when military duties prevent members of the Armed Forces from doing so themselves. Properly prepared Family Care Plans are essential to military readiness. Minimizing the strain on members of the Armed Forces of unresolved, challenged, or voided child custody arrangements arising during deployments or temporary duty directly contributes to the national defense by enabling members of the Armed Forces to devote their entire energy to their military mission and duties.

(2) When Family Care Plans are properly prepared and coordinated with all affected parties, the legal difficulties that may otherwise arise in the absence of the military custodial parent often can be minimized, if not eliminated.

(b) **SENSE OF SENATE.**—It is the sense of the Senate that—

(1) the responsibility for establishing workable and legally supportable Family Care Plans lies with the members of the Armed Forces;

(2) notwithstanding that responsibility, commanders should—

(A) ensure that the members of their command fully understand the purpose of the Family Care Plan and its limitations, including the overriding authority of State courts to determine child custody arrangements notwithstanding a Family Care Plan;

(B) understand and emphasize to their members that failure to involve, or at least inform, the non-custodial parent of custody arrangements in anticipation of an absence can undermine the Family Care Plan or even render it useless, in such cases; and

(C) apprise their members of the risks described in subparagraph (B), and strongly encourage them to seek legal assistance, as far in advance of actual absences as practicable;

(3) the Secretary of Defense, and the Secretary of Homeland Security with respect to matters concerning the Coast Guard when it is not operating as a service in the Navy, should ensure that members of the Armed Forces update their Family Care Plans and emphasize—

(A) the importance of prior planning;

(B) that Family Care Plans are necessary not only for the single parent and for the dual military couple but also for a married member of the Armed Forces who has custody of a child pursuant to a court order or separation agreement or who has custody of a child whose other parent is not the current spouse of the member;

(C) that in spite of how important Family Care Plans are to readiness, they are not legal documents that can change a court-mandated custodial arrangement or interfere with the other parent's right to custody of his or her child;

(D) that, to the greatest extent possible, a member of the Armed Forces should inform the other parent of the member's impending absence due to military orders if such absence prohibits the member from fulfilling the member's custody responsibilities and inform that other parent of the Family Care Plan;

(E) that a member of the Armed Forces should attempt to obtain the consent of the non-custodial or adoptive parent to any Family Care Plan that would leave the child in the care of a third party; and

(F) that if a member of the Armed Forces cannot or will not contact the non-custodial parent or cannot obtain that parent's consent to the Family Care Plan, the commander of the member should—

(i) counsel the member about the implications; and

(ii) encourage in the strongest possible terms that the member seek immediate help from a legal assistance attorney or other qualified legal counsel; and

(4) attorneys providing legal assistance as described in paragraph (3)(F)(ii) should provide members of the Armed Forces a full explanation of the dangers of not involving the non-custodial parent and discuss appropriate courses of action.

SEC. 557. EXPANSION OF SUICIDE PREVENTION AND COMMUNITY HEALING AND RESPONSE TRAINING UNDER THE YELLOW RIBBON REINTEGRATION PROGRAM.

Section 582 of the National Defense Authorization Act for Fiscal Year 2008 (Public Law 110-181; 10 U.S.C. 10101 note) is amended—

(1) in subsection (h)—

(A) by striking paragraph (3); and

(B) by redesignating paragraphs (4) through (15) as paragraphs (3) through (14), respectively; and

(2) by adding at the end the following new subsection:

“(i) **SUICIDE PREVENTION AND COMMUNITY HEALING AND RESPONSE PROGRAM.**—

“(1) **ESTABLISHMENT.**—As part of the Yellow Ribbon Reintegration Program, the Office for Reintegration Programs shall establish a program to provide National Guard and Reserve members and their families, and in coordination with community programs, assist the communities, with training in suicide prevention and community healing and response to suicide.

“(2) **DESIGN.**—In establishing the program under paragraph (1), the Office for Reintegration Programs shall consult with—

“(A) persons that have experience and expertise with combining military and civilian intervention strategies that reduce risk and promote healing after a suicide attempt or suicide death for National Guard and Reserve members; and

“(B) the adjutant general of each State, the Commonwealth of Puerto Rico, the District of Columbia, Guam, and the Virgin Islands.

“(3) **OPERATION.**—

“(A) **SUICIDE PREVENTION TRAINING.**—The Office for Reintegration Programs shall provide National Guard and Reserve members with training in suicide prevention. Such training shall include—

“(i) describing the warning signs for suicide and teaching effective strategies for prevention and intervention;

“(ii) examining the influence of military culture on risk and protective factors for suicide; and

“(iii) engaging in interactive case scenarios and role plays to practice effective intervention strategies.

“(B) **COMMUNITY HEALING AND RESPONSE TRAINING.**—The Office for Reintegration Programs shall provide the families and communities of National Guard and Reserve members with training in responses to suicide that pro-

mote individual and community healing. Such training shall include—

“(i) enhancing collaboration among community members and local service providers to create an integrated, coordinated community response to suicide;

“(ii) communicating best practices for preventing suicide, including safe messaging, appropriate memorial services, and media guidelines;

“(iii) addressing the impact of suicide on the military and the larger community, and the increased risk that can result; and

“(iv) managing resources to assist key community and military service providers in helping the families, friends, and fellow soldiers of a suicide victim through the processes of grieving and healing.

“(C) **COLLABORATION WITH CENTERS OF EXCELLENCE.**—The Office for Reintegration Programs, in consultation with the Defense Centers of Excellence for Psychological Health and Traumatic Brain Injury, shall collect and analyze ‘lessons learned’ and suggestions from State National Guard and Reserve organizations with existing or developing suicide prevention and community response programs.

“(4) **TERMINATION.**—The program established under this subsection shall terminate on October 1, 2012.”.

SEC. 558. REPORT ON YELLOW RIBBON REINTEGRATION PROGRAM.

(a) **REPORT REQUIRED.**—Not later than 180 days after the date of the enactment of this Act, the Secretary of Defense shall submit to the congressional defense committees a report on the various reintegration programs being administered in support of National Guard and Reserve members and their families.

(b) **ELEMENTS.**—The report required by subsection (a) shall include the following:

(1) An evaluation of the initial implementation of the Yellow Ribbon Reintegration Program in fiscal year 2009, including an assessment of the best practices from pilot programs offered by various States to provide supplemental services to Yellow Ribbon and the feasibility of incorporating those practices into Yellow Ribbon.

(2) An assessment of the extent to which Yellow Ribbon funding, although requested in multiple component accounts, supports robust joint programs that provide reintegration and support services to National Guard and Reserve members and their families regardless of military affiliation.

(3) An assessment of the extent to which Yellow Ribbon programs are coordinating closely with the Department of Veterans Affairs and its various veterans' programs.

(4) Plans for further implementation of the Yellow Ribbon Reintegration Program in fiscal year 2010.

SEC. 559. IMPROVED ACCESS TO MENTAL HEALTH CARE FOR FAMILY MEMBERS OF MEMBERS OF THE NATIONAL GUARD AND RESERVE WHO ARE DEPLOYED OVERSEAS.

(a) **INITIATIVE TO INCREASE ACCESS TO MENTAL HEALTH CARE.**—

(1) **IN GENERAL.**—The Secretary of Defense shall develop and implement a plan to expand existing initiatives of the Department of Defense to increase access to mental health care for family members of members of the National Guard and Reserve deployed overseas during the periods of mobilization, deployment, and demobilization of such members of the National Guard and Reserve.

(2) **ELEMENTS.**—The plan required by paragraph (1) shall include the following:

(A) Programs and activities to educate family members of members of the National Guard and Reserve who are deployed overseas on potential mental health challenges connected with such deployment.

(B) Programs and activities to provide such family members with complete information on all mental health resources available to such family members through the Department of Defense and otherwise.

(C) Efforts to expand counseling activities for such family members in local communities.

(b) **REPORTS.**—

(1) **IN GENERAL.**—Not later than 180 days after the date of the enactment of this Act, and at such times thereafter as the Secretary of Defense considers appropriate, the Secretary of Defense shall submit to the Committees on Armed Services of the Senate and the House of Representatives a report on this section.

(2) **ELEMENTS.**—Each report shall include the following:

(A) A current assessment of the extent to which family members of members of the National Guard and Reserve who are deployed overseas have access to, and are utilizing, mental health care available under this section.

(B) A current assessment of the quality of mental health care being provided to family members of members of the National Guard and Reserve who are deployed overseas, and an assessment of expanding coverage for mental health care services under the TRICARE program to mental health care services provided at facilities currently outside the network of the TRICARE program.

(C) Such recommendations for legislative or administration action as the Secretary considers appropriate in order to further assure full access to mental health care by family members of members of the National Guard and Reserve who are deployed overseas during the mobilization, deployment, and demobilization of such members of the National Guard and Reserve.

SEC. 560. FULL ACCESS TO MENTAL HEALTH CARE FOR FAMILY MEMBERS OF MEMBERS OF THE NATIONAL GUARD AND RESERVE WHO ARE DEPLOYED OVERSEAS.

(a) **EXPANDED INITIATIVE TO INCREASE ACCESS TO MENTAL HEALTH CARE.**—

(1) **IN GENERAL.**—The Secretary of Defense shall expand existing Department of Defense initiatives to increase access to mental health care for family members of members of the National Guard and Reserve deployed overseas during the periods of mobilization, deployment, and demobilization of such members of the National Guard and Reserve.

(2) **ELEMENTS.**—The expanded initiatives, which shall build upon and be consistent with ongoing efforts, shall include the following:

(A) Programs and activities to educate the family members of members of the National Guard and Reserve who are deployed overseas on potential mental health challenges connected with such deployment.

(B) Programs and activities to provide such family members with complete information on all mental health resources available to such family members through the Department of Defense and otherwise.

(C) Guidelines for mental health counselors at military installations in communities with large numbers of mobilized members of the National Guard and Reserve to expand the reach of their counseling activities to include families of such members in such communities.

(b) **REPORTS.**—

(1) **IN GENERAL.**—Not later than 180 days after the date of the enactment of this Act, and at such times as the Secretary deems appropriate thereafter, the Secretary of Defense shall submit to the Committees on Armed Services of the Senate and the House of Representatives a report on this section.

(2) **ELEMENTS.**—Each report shall include the following:

(A) A current assessment of the extent to which family members of members of the National Guard and Reserve who are deployed

overseas have access to, and are utilizing, mental health care available under this section.

(B) A current assessment of the quality of mental health care being provided to family members of members of the National Guard and Reserve who are deployed overseas, and an assessment of expanding coverage for mental health care services under the TRICARE program to mental health care services provided at facilities currently outside the accredited network of the TRICARE program.

(C) Such recommendations for legislative or administration action as the Secretary considers appropriate in order to further assure full access to mental health care by family members of members of the National Guard and Reserve who are deployed overseas during the mobilization, deployment, and demobilization of such members of the National Guard and Reserve.

SEC. 561. COMPTROLLER GENERAL REPORT ON CHILD CARE ASSISTANCE FOR DEPLOYED MEMBERS OF THE RESERVE COMPONENTS OF THE ARMED FORCES.

(a) *IN GENERAL.*—Not later than 18 months after the date of the enactment of this Act, the Comptroller General of the United States shall submit to the Committees on Armed Services of the Senate and the House of Representative a report on financial assistance for child care provided by the Department of Defense, including through the Operation: Military Child Care and Military Child Care in Your Neighborhood programs, to members of the reserve components of the Armed Forces who are deployed in connection with a contingency operation.

(b) *ELEMENTS.*—The report required by subsection (a) shall include an assessment of the following:

(1) The types of financial assistance for child care made available by the Department of Defense to members of the reserve components of the Armed Forces who are deployed in connection with a contingency operation.

(2) The extent to which such members have taken advantage of such assistance since such assistance was first made available.

(3) The formulas used for calculating the amount of such assistance provided to such members.

(4) The funding allocated to such assistance.

(5) The remaining costs of child care to families of such members that are not covered by the Department of Defense.

(6) Any barriers to access to such assistance faced by such members and the families of such members.

(7) The different criteria used by different States with respect to the regulation of child care services and the potential impact differences in such criteria may have on the access of such members to such assistance.

(8) The different standards and criteria used by different programs of the Department of Defense for providing such assistance with respect to child care providers and the potential impact differences in such standards and criteria may have on the access of such members to such assistance.

(9) Any other matters the Comptroller General determines relevant to the improvement of financial assistance for child care made available by the Department of Defense to members of the reserve components of the Armed Forces who are deployed in connection with a contingency operation.

Subtitle G—Other Matters

SEC. 571. DEADLINE FOR REPORT ON SEXUAL ASSAULT IN THE ARMED FORCES BY DEFENSE TASK FORCE ON SEXUAL ASSAULT IN THE MILITARY SERVICES.

Section 576(e)(1) of the Ronald W. Reagan National Defense Authorization Act for Fiscal Year 2005 (Public Law 108–375; 118 Stat. 1924; 10

U.S.C. 4331 note) is amended by striking “one year after the initiation of its examination under subsection (b)” and inserting “December 1, 2009”.

SEC. 572. CLARIFICATION OF PERFORMANCE POLICIES FOR MILITARY MUSICAL UNITS AND MUSICIANS.

(a) *CLARIFICATION.*—Section 974 of title 10, United States Code, is amended to read as follows:

“§974. Military musical units and musicians: performance policies; restriction on performance in competition with local civilian musicians

“(a) *MILITARY MUSICIANS PERFORMING IN AN OFFICIAL CAPACITY.*—(1) A military musical unit, and a member of the armed forces who is a member of such a unit performing in an official capacity, may not engage in the performance of music in competition with local civilian musicians.

“(2) For purposes of paragraph (1), the following shall, except as provided in paragraph (3), be included among the performances that are considered to be a performance of music in competition with local civilian musicians:

“(A) A performance that is more than incidental to an event that—

“(i) is not supported, in whole or in part, by United States Government funds; and

“(ii) is not free to the public.

“(B) A performance of background, dinner, dance, or other social music at an event that—

“(i) is not supported, in whole or in part, by United States Government funds; and

“(ii) is held at a location not on a military installation.

“(3) For purposes of paragraph (1), the following shall not be considered to be a performance of music in competition with local civilian musicians:

“(A) A performance (including background, dinner, dance, or other social music) at an official United States Government event that is supported, in whole or in part, by United States Government funds.

“(B) A performance at a concert, parade, or other event, that—

“(i) is a patriotic event or a celebration of a national holiday; and

“(ii) is free to the public.

“(C) A performance that is incidental to an event that—

“(i) is not supported, in whole or in part, by United States Government funds; or

“(ii) is not free to the public.

“(D) A performance (including background, dinner, dance, or other social music) at—

“(i) an event that is sponsored by or for a military welfare society, as defined in section 2566 of this title;

“(ii) an event that is a traditional military event intended to foster the morale and welfare of members of the armed forces and their families; or

“(iii) an event that is specifically for the benefit or recognition of members of the armed forces, their family members, veterans, civilian employees of the Department of Defense, or former civilian employees of the Department of Defense, to the extent provided in regulations prescribed by the Secretary of Defense.

“(E) A performance (including background, dinner, dance, or other social music)—

“(i) to uphold the standing and prestige of the United States with dignitaries and distinguished or prominent persons or groups of the United States or another nation; or

“(ii) in support of fostering and sustaining a cooperative relationship with another nation.

“(b) *PROHIBITION OF MILITARY MUSICIANS ACCEPTING ADDITIONAL REMUNERATION FOR OFFICIAL PERFORMANCES.*—A military musical unit, and a member of the armed forces who is a mem-

ber of such a unit performing in an official capacity, may not receive remuneration for an official performance, other than applicable military pay and allowances.

“(c) *RECORDINGS.*—(1) When authorized under regulations prescribed by the Secretary of Defense for purposes of this section, a military musical unit may produce recordings for distribution to the public, at a cost not to exceed expenses of production and distribution.

“(2) Amounts received in payment for a recording distributed to the public under this subsection shall be credited to the appropriation or account providing the funds for the production of the recording. Any amount so credited shall be merged with amounts in the appropriation or account to which credited, and shall be available for the same purposes, and subject to the same conditions and limitations, as amounts in such appropriation or account.

“(d) *PERFORMANCES AT FOREIGN LOCATIONS.*—Subsection (a) does not apply to a performance outside the United States, its commonwealths, or its possessions.

“(e) *MILITARY MUSICAL UNIT DEFINED.*—In this section, the term ‘military musical unit’ means a band, ensemble, chorus, or similar musical unit of the armed forces.”.

(b) *CLERICAL AMENDMENT.*—The item relating to such section in the table of sections at the beginning of chapter 49 of such title is amended to read as follows:

“974. Military musical units and musicians: performance policies; restriction on performance in competition with local civilian musicians.”.

SEC. 573. GUARANTEE OF RESIDENCY FOR SPOUSES OF MILITARY PERSONNEL FOR VOTING PURPOSES.

(a) *IN GENERAL.*—Section 705 of the Servicemembers Civil Relief Act (50 U.S.C. App. 595) is amended—

(1) by striking “For” and inserting the following:

“(a) *IN GENERAL.*—For”;

(2) by adding at the end the following new subsection:

“(b) *SPOUSES.*—For the purposes of voting for any Federal office (as defined in section 301 of the Federal Election Campaign Act of 1971 (2 U.S.C. 431)) or a State or local office, a person who is absent from a State because the person is accompanying the person’s spouse who is absent from that same State in compliance with military or naval orders shall not, solely by reason of that absence—

“(1) be deemed to have lost a residence or domicile in that State, without regard to whether or not the person intends to return to that State;

“(2) be deemed to have acquired a residence or domicile in any other State; or

“(3) be deemed to have become a resident in or a resident of any other State.”; and

(3) in the section heading, by inserting “**AND SPOUSES OF MILITARY PERSONNEL**” before the period at the end.

(b) *CLERICAL AMENDMENT.*—The table of contents in section 1(b) of such Act (50 U.S.C. App. 501) is amended by striking the item relating to section 705 and inserting the following new item:

“Sec. 705. Guarantee of residency for military personnel and spouses of military personnel.”.

(c) *APPLICATION.*—Subsection (b) of section 705 of such Act (50 U.S.C. App. 595), as added by subsection (a) of this section, shall apply with respect to absences from States described in such subsection (b) on or after the date of the enactment of this Act, regardless of the date of the military or naval order concerned.

SEC. 574. DETERMINATION FOR TAX PURPOSES OF RESIDENCE OF SPOUSES OF MILITARY PERSONNEL.

(a) IN GENERAL.—Section 511 of the Servicemembers Civil Relief Act (50 U.S.C. App. 571) is amended—

(1) in subsection (a)—

(A) by striking “A servicemember” and inserting the following:

“(1) IN GENERAL.—A servicemember”; and

(B) by adding at the end the following:

“(2) SPOUSES.—A spouse of a servicemember shall neither lose nor acquire a residence or domicile for purposes of taxation with respect to the person, personal property, or income of the spouse by reason of being absent or present in any tax jurisdiction of the United States solely to be with the servicemember in compliance with the servicemember’s military orders if the residence or domicile, as the case may be, is the same for the servicemember and the spouse.”;

(2) by redesignating subsections (c), (d), (e), and (f) as subsections (d), (e), (f), and (g), respectively;

(3) by inserting after subsection (b) the following new subsection:

“(c) INCOME OF A MILITARY SPOUSE.—Income for services performed by the spouse of a servicemember shall not be deemed to be income for services performed or from sources within a tax jurisdiction of the United States if the spouse is not a resident or domiciliary of the jurisdiction in which the income is earned because the spouse is in the jurisdiction solely to be with the servicemember serving in compliance with military orders.”; and

(4) in subsection (d), as redesignated by paragraph (2)—

(A) in paragraph (1), by inserting “or the spouse of a servicemember” after “The personal property of a servicemember”; and

(B) in paragraph (2), by inserting “or the spouse’s” after “servicemember’s”.

(b) APPLICATION.—Subsections (a)(2) and (c) of section 511 of such Act (50 U.S.C. App. 571), as added by subsection (a) of this section, and the amendments made to such section 511 by subsection (a)(4) of this section, shall apply with respect to any return of State or local income tax filed for any taxable year beginning with the taxable year that includes the date of the enactment of this Act.

SEC. 575. SUSPENSION OF LAND RIGHTS RESIDENCY REQUIREMENT FOR SPOUSES OF MILITARY PERSONNEL.

(a) IN GENERAL.—Section 508 of the Servicemembers Civil Relief Act (50 U.S.C. App. 568) is amended in subsection (b) by inserting “or the spouse of such servicemember” after “a servicemember in military service”.

(b) APPLICATION.—The amendment made by subsection (a) shall apply with respect to servicemembers in military service (as defined in section 101 of such Act (50 U.S.C. App. 511)) on or after the date of the enactment of this Act.

SEC. 576. MODIFICATION OF DEPARTMENT OF DEFENSE SHARE OF EXPENSES UNDER NATIONAL GUARD YOUTH CHALLENGE PROGRAM.

(a) MODIFICATION.—Section 509(d)(1) of title 32, United States Code, is amended by striking “may not exceed” and all that follows and inserting “may not exceed the amount as follows: “(A) In the case of a State program of the Program in either of its first two years of operation, an amount equal to 100 percent of the costs of operating the State program in that fiscal year.

“(B) In the case of any other State program of the Program, an amount equal to 75 percent of the costs of operating the State program in that fiscal year.”.

(b) EFFECTIVE DATE.—The amendment made by subsection (a) shall take effect on October 1, 2009, and shall apply with respect to fiscal years beginning on or after that date.

SEC. 577. PROVISION TO MEMBERS OF THE ARMED FORCES AND THEIR FAMILIES OF COMPREHENSIVE INFORMATION ON BENEFITS FOR MEMBERS OF THE ARMED FORCES AND THEIR FAMILIES.

(a) PROVISION OF COMPREHENSIVE INFORMATION REQUIRED.—The Secretary of the military department concerned shall, at each time specified in subsection (b), provide to each member of the Armed Forces and, when practicable, the family members of such member comprehensive information on the benefits available to such member and family members as described in subsection (c), including the estimated monetary amount of such benefits and of any applicable offsets to such benefits.

(b) TIMES FOR PROVISION OF INFORMATION.—Comprehensive information on benefits shall be provided a member of the Armed Forces and family members at each time as follows:

(1) Within 180 days of the enlistment, accession, or commissioning of the member as a member of the Armed Forces.

(2) Within 180 days of a determination that the member—

(A) has incurred a service-connected disability; and

(B) is unfit to perform the duties of the member’s office, grade, rank, or rating because of such disability.

(3) Upon the discharge, separation, retirement, or release of the member from the Armed Forces.

(c) COVERED BENEFITS.—The benefits on which a member of the Armed Forces and family members shall be provided comprehensive information under this section shall be as follows:

(1) At all the times described in subsection (b), the benefits shall include the following:

(A) Financial compensation, including financial counseling.

(B) Health care and life insurance programs for members of the Armed Forces and their families.

(C) Death benefits.

(D) Entitlements and survivor benefits for dependents of the Armed Forces, including offsets in the receipt of such benefits under the Survivor Benefit Plan and in connection with the receipt of dependency and indemnity compensation.

(E) Educational assistance benefits, including limitations on and the transferability of such assistance.

(F) Housing assistance benefits, including counseling.

(G) Relocation planning and preparation.

(H) Such other benefits as the Secretary concerned considers appropriate.

(2) At the time described in paragraph (1) of such subsection, the benefits shall include the following:

(A) Maintaining military records.

(B) Legal assistance.

(C) Quality of life programs.

(D) Family and community programs.

(E) Such other benefits as the Secretary concerned considers appropriate.

(3) At the times described in paragraphs (2) and (3) of such subsection, the benefits shall include the following:

(A) Employment assistance.

(B) Continuing Reserve Component service.

(C) Disability benefits, including offsets in connection with the receipt of such benefits.

(D) Benefits and services provided under laws administered by the Secretary of Veterans Affairs.

(E) Such other benefits as the Secretary concerned considers appropriate.

(d) BIENNIAL NOTICE TO MEMBERS OF THE ARMED FORCES ON THE VALUE OF PAY AND BENEFITS.—

(1) BIENNIAL NOTICE REQUIRED.—The Secretary of each military department shall provide

to each member of the Armed Forces under the jurisdiction of such Secretary on a biennial basis notice on the value of the pay and benefits paid or provided to such member by law during the preceding year. The notice may be provided in writing or electronically, at the election of the Secretary.

(2) ELEMENTS.—Each notice provided a member under paragraph (1) shall include the following:

(A) A statement of the estimated value of the military health care, retirement benefits, disability benefits, commissary and exchange privileges, government-provided housing, tax benefits associated with service in the Armed Forces, and special pays paid or provided the member during the preceding 24 months.

(B) A notice regarding the death and survivor benefits, including Servicemembers’ Group Life Insurance, to which the family of the member would be entitled in the event of the death of the member, and a description of any offsets that might be applicable to such benefits.

(C) Information on other programs available to members of the Armed Forces generally, such as access to morale, welfare, and recreation (MWR) facilities, child care, and education tuition assistance, and the estimated value, if ascertainable, of the availability of such programs in the area where the member is stationed or resides.

(e) OTHER OUTREACH.—

(1) IN GENERAL.—The Secretaries of the military departments shall, on a periodic basis, conduct outreach on the pay, benefits, and programs and services available to members of the Armed Forces by reason of service in the Armed Forces. The outreach shall be conducted pursuant to public service announcements, publications, and such other announcements through general media as will serve to disseminate the information broadly among the general public.

(2) INTERNET OUTREACH WEBSITE.—

(A) IN GENERAL.—The Secretary of Defense shall establish an Internet website for the purpose of providing the comprehensive information about the benefits and offsets described in subsection (c) to members of the Armed Forces and their families.

(B) CONTACT INFORMATION.—The Internet website required by subparagraph (A) shall provide contact information, both telephone and e-mail, that a member of the Armed Forces and a family member of the member can use to get personalized information about the benefits and offsets described in subsection (c).

(f) REPORTS.—

(1) INITIAL REPORT.—Not later than one year after the date of the enactment of this Act, the Secretary of Defense shall submit to the congressional defense committees a report on the implementation of the requirements of this section by the Department of Defense. Such report shall include a description of the quality and scope of available online resources that provide information about benefits for members of the Armed Forces and their families.

(2) RECORDS MAINTAINED.—The Secretary of Defense or the military department concerned shall maintain records that contain the number of individuals that received a briefing under this section in the previous year disaggregated by the following:

(A) Whether the individual is a member of the Armed Forces or a family member of a member of the Armed Forces.

(B) The Armed Force of the members.

(C) The State or territory in which the briefing occurred.

(D) The subject of the briefing.

Subtitle H—Military Voting

SEC. 581. SHORT TITLE.

This subtitle may be cited as the “Military and Overseas Voter Empowerment Act”.

SEC. 582. FINDINGS.

Congress makes the following findings:

- (1) The right to vote is a fundamental right.
- (2) Due to logistical, geographical, operational and environmental barriers, military and overseas voters are burdened by many obstacles that impact their right to vote and register to vote, the most critical of which include problems transmitting balloting materials and not being given enough time to vote.
- (3) States play an essential role in facilitating the ability of military and overseas voters to register to vote and have their ballots cast and counted, especially with respect to timing and improvement of absentee voter registration and absentee ballot procedures.
- (4) The Department of Defense educates military and overseas voters of their rights under the Uniformed and Overseas Citizens Absentee Voting Act and plays an indispensable role in facilitating the procedural channels that allow military and overseas voters to have their votes count.
- (5) The local, State, and Federal Government entities involved with getting ballots to military and overseas voters must work in conjunction to provide voter registration services and balloting materials in a secure and expeditious manner.

SEC. 583. CLARIFICATION REGARDING DELEGATION OF STATE RESPONSIBILITIES.

A State may delegate its responsibilities in carrying out the requirements under the Uniformed and Overseas Citizens Absentee Voting Act (42 U.S.C. 1973ff et seq.) imposed as a result of the provisions of and amendments made by this Act to jurisdictions of the State.

SEC. 584. ESTABLISHMENT OF PROCEDURES FOR ABSENT UNIFORMED SERVICES VOTERS AND OVERSEAS VOTERS TO REQUEST AND FOR STATES TO SEND VOTER REGISTRATION APPLICATIONS AND ABSENTEE BALLOT APPLICATIONS BY MAIL AND ELECTRONICALLY.

(a) IN GENERAL.—Section 102 of the Uniformed and Overseas Citizens Absentee Voting Act (42 U.S.C. 1973ff-1) is amended—

- (1) in subsection (a)—
- (A) in paragraph (4), by striking “and” at the end;
- (B) in paragraph (5), by striking the period at the end and inserting “; and”; and
- (C) by adding at the end the following new paragraph:

“(6) in addition to any other method of registering to vote or applying for an absentee ballot in the State, establish procedures—

“(A) for absent uniformed services voters and overseas voters to request by mail and electronically voter registration applications and absentee ballot applications with respect to general, special, primary, and runoff elections for Federal office in accordance with subsection (e);

“(B) for States to send by mail and electronically (in accordance with the preferred method of transmission designated by the absent uniformed services voter or overseas voter under subparagraph (C)) voter registration applications and absentee ballot applications requested under subparagraph (A) in accordance with subsection (e); and

“(C) by which the absent uniformed services voter or overseas voter can designate whether they prefer for such voter registration application or absentee ballot application to be transmitted by mail or electronically.”; and

(2) by adding at the end the following new subsection:

“(e) DESIGNATION OF MEANS OF ELECTRONIC COMMUNICATION FOR ABSENT UNIFORMED SERVICES VOTERS AND OVERSEAS VOTERS TO REQUEST AND FOR STATES TO SEND VOTER REGISTRATION APPLICATIONS AND ABSENTEE BALLOT APPLICATIONS, AND FOR OTHER PURPOSES RELATED TO VOTING INFORMATION.—

“(1) IN GENERAL.—Each State shall, in addition to the designation of a single State office under subsection (b), designate not less than 1 means of electronic communication—

“(A) for use by absent uniformed services voters and overseas voters who wish to register to vote or vote in any jurisdiction in the State to request voter registration applications and absentee ballot applications under subsection (a)(6);

“(B) for use by States to send voter registration applications and absentee ballot applications requested under such subsection; and

“(C) for the purpose of providing related voting, balloting, and election information to absent uniformed services voters and overseas voters.

“(2) CLARIFICATION REGARDING PROVISION OF MULTIPLE MEANS OF ELECTRONIC COMMUNICATION.—A State may, in addition to the means of electronic communication so designated, provide multiple means of electronic communication to absent uniformed services voters and overseas voters, including a means of electronic communication for the appropriate jurisdiction of the State.

“(3) INCLUSION OF DESIGNATED MEANS OF ELECTRONIC COMMUNICATION WITH INFORMATIONAL AND INSTRUCTIONAL MATERIALS THAT ACCOMPANY BALLOTING MATERIALS.—Each State shall include a means of electronic communication so designated with all informational and instructional materials that accompany balloting materials sent by the State to absent uniformed services voters and overseas voters.

“(4) AVAILABILITY AND MAINTENANCE OF ONLINE REPOSITORY OF STATE CONTACT INFORMATION.—The Federal Voting Assistance Program of the Department of Defense shall maintain and make available to the public an online repository of State contact information with respect to elections for Federal office, including the single State office designated under subsection (b) and the means of electronic communication designated under paragraph (1), to be used by absent uniformed services voters and overseas voters as a resource to send voter registration applications and absentee ballot applications to the appropriate jurisdiction in the State.

“(5) TRANSMISSION IF NO PREFERENCE INDICATED.—In the case where an absent uniformed services voter or overseas voter does not designate a preference under subsection (a)(6)(C), the State shall transmit the voter registration application or absentee ballot application by any delivery method allowable in accordance with applicable State law, or if there is no applicable State law, by mail.

“(6) SECURITY AND PRIVACY PROTECTIONS.—

“(A) SECURITY PROTECTIONS.—To the extent practicable, States shall ensure that the procedures established under subsection (a)(6) protect the security and integrity of the voter registration and absentee ballot application request processes.

“(B) PRIVACY PROTECTIONS.—To the extent practicable, the procedures established under subsection (a)(6) shall ensure that the privacy of the identity and other personal data of an absent uniformed services voter or overseas voter who requests or is sent a voter registration application or absentee ballot application under such subsection is protected throughout the process of making such request or being sent such application.”.

(b) EFFECTIVE DATE.—The amendments made by this section shall apply with respect to the regularly scheduled general election for Federal office held in November 2010 and each succeeding election for Federal office.

SEC. 585. ESTABLISHMENT OF PROCEDURES FOR STATES TO TRANSMIT BLANK ABSENTEE BALLOTS BY MAIL AND ELECTRONICALLY TO ABSENT UNIFORMED SERVICES VOTERS AND OVERSEAS VOTERS.

(a) IN GENERAL.—Section 102 of the Uniformed and Overseas Citizens Absentee Voting Act (42 U.S.C. 1973ff-1), as amended by section 584, is amended—

(1) in subsection (a)—

(A) in paragraph (5), by striking “and” at the end;

(B) in paragraph (6), by striking the period at the end and inserting “; and”; and

(C) by adding at the end the following new paragraph:

“(7) in addition to any other method of transmitting blank absentee ballots in the State, establish procedures for transmitting by mail and electronically blank absentee ballots to absent uniformed services voters and overseas voters with respect to general, special, primary, and runoff elections for Federal office in accordance with subsection (f).”; and

(2) by adding at the end the following new subsection:

“(f) TRANSMISSION OF BLANK ABSENTEE BALLOTS BY MAIL AND ELECTRONICALLY.—

“(1) IN GENERAL.—Each State shall establish procedures—

“(A) to transmit blank absentee ballots by mail and electronically (in accordance with the preferred method of transmission designated by the absent uniformed services voter or overseas voter under subparagraph (B)) to absent uniformed services voters and overseas voters for an election for Federal office; and

“(B) by which the absent uniformed services voter or overseas voter can designate whether they prefer for such blank absentee ballot to be transmitted by mail or electronically.

“(2) TRANSMISSION IF NO PREFERENCE INDICATED.—In the case where an absent uniformed services voter or overseas voter does not designate a preference under paragraph (1)(B), the State shall transmit the ballot by any delivery method allowable in accordance with applicable State law, or if there is no applicable State law, by mail.

“(3) SECURITY AND PRIVACY PROTECTIONS.—

“(A) SECURITY PROTECTIONS.—To the extent practicable, States shall ensure that the procedures established under subsection (a)(7) protect the security and integrity of absentee ballots.

“(B) PRIVACY PROTECTIONS.—To the extent practicable, the procedures established under subsection (a)(7) shall ensure that the privacy of the identity and other personal data of an absent uniformed services voter or overseas voter to whom a blank absentee ballot is transmitted under such subsection is protected throughout the process of such transmission.”.

(b) EFFECTIVE DATE.—The amendments made by this section shall apply with respect to the regularly scheduled general election for Federal office held in November 2010 and each succeeding election for Federal office.

SEC. 586. ENSURING ABSENT UNIFORMED SERVICES VOTERS AND OVERSEAS VOTERS HAVE TIME TO VOTE.

(a) IN GENERAL.—Section 102 of the Uniformed and Overseas Citizens Absentee Voting Act (42 U.S.C. 1973ff-1(a)(1)), as amended by section 585, is amended—

(1) in subsection (a)—

(A) in paragraph (6), by striking “and” at the end;

(B) in paragraph (7), by striking the period at the end and inserting a semicolon; and

(C) by adding at the end the following new paragraph:

“(8) transmit a validly requested absentee ballot to an absent uniformed services voter or overseas voter—

“(A) except as provided in subsection (g), in the case where the request is received at least 45 days before an election for Federal office, not later than 45 days before the election; and

“(B) in the case where the request is received less than 45 days before an election for Federal office—

“(i) in accordance with State law; and

“(ii) if practicable and as determined appropriate by the State, in a manner that expedites the transmission of such absentee ballot.”.

(2) by adding at the end the following new subsection:

“(g) **HARDSHIP EXEMPTION.**—

“(1) **IN GENERAL.**—If the chief State election official determines that the State is unable to meet the requirement under subsection (a)(8)(A) with respect to an election for Federal office due to an undue hardship described in paragraph (2)(B), the chief State election official shall request that the Presidential designee grant a waiver to the State of the application of such subsection. Such request shall include—

“(A) a recognition that the purpose of such subsection is to allow absent uniformed services voters and overseas voters enough time to vote in an election for Federal office;

“(B) an explanation of the hardship that indicates why the State is unable to transmit absent uniformed services voters and overseas voters an absentee ballot in accordance with such subsection;

“(C) the number of days prior to the election for Federal office that the State requires absentee ballots be transmitted to absent uniformed services voters and overseas voters; and

“(D) a comprehensive plan to ensure that absent uniformed services voters and overseas voters are able to receive absentee ballots which they have requested and submit marked absentee ballots to the appropriate State election official in time to have that ballot counted in the election for Federal office, which includes—

“(i) the steps the State will undertake to ensure that absent uniformed services voters and overseas voters have time to receive, mark, and submit their ballots in time to have those ballots counted in the election;

“(ii) why the plan provides absent uniformed services voters and overseas voters sufficient time to vote as a substitute for the requirements under such subsection; and

“(iii) the underlying factual information which explains how the plan provides such sufficient time to vote as a substitute for such requirements.

“(2) **APPROVAL OF WAIVER REQUEST.**—After consulting with the Attorney General, the Presidential designee shall approve a waiver request under paragraph (1) if the Presidential designee determines each of the following requirements are met:

“(A) The comprehensive plan under subparagraph (D) of such paragraph provides absent uniformed services voters and overseas voters sufficient time to receive absentee ballots they have requested and submit marked absentee ballots to the appropriate State election official in time to have that ballot counted in the election for Federal office.

“(B) One or more of the following issues creates an undue hardship for the State:

“(i) The State’s primary election date prohibits the State from complying with subsection (a)(8)(A).

“(ii) The State has suffered a delay in generating ballots due to a legal contest.

“(iii) The State Constitution prohibits the State from complying with such subsection.

“(3) **TIMING OF WAIVER.**—

“(A) **IN GENERAL.**—Except as provided under subparagraph (B), a State that requests a waiver under paragraph (1) shall submit to the Presidential designee the written waiver request not

later than 90 days before the election for Federal office with respect to which the request is submitted. The Presidential designee shall approve or deny the waiver request not later than 65 days before such election.

“(B) **EXCEPTION.**—If a State requests a waiver under paragraph (1) as the result of an undue hardship described in paragraph (2)(B)(ii), the State shall submit to the Presidential designee the written waiver request as soon as practicable. The Presidential designee shall approve or deny the waiver request not later than 5 business days after the date on which the request is received.

“(4) **APPLICATION OF WAIVER.**—A waiver approved under paragraph (2) shall only apply with respect to the election for Federal office for which the request was submitted. For each subsequent election for Federal office, the Presidential designee shall only approve a waiver if the State has submitted a request under paragraph (1) with respect to such election.”.

(b) **RUNOFF ELECTIONS.**—Section 102(a) of the Uniformed and Overseas Citizens Absentee Voting Act (42 U.S.C. 1973ff-1(a)), as amended by subsection (a), is amended—

(1) in paragraph (7), by striking “and” at the end;

(2) in paragraph (8), by striking the period at the end and inserting “; and”; and

(3) by adding at the end the following new paragraph:

“(9) if the State declares or otherwise holds a runoff election for Federal office, establish a written plan that provides absentee ballots are made available to absent uniformed services voters and overseas voters in manner that gives them sufficient time to vote in the runoff election.”.

(c) **EFFECTIVE DATE.**—The amendments made by this section shall apply with respect to the regularly scheduled general election for Federal office held in November 2010 and each succeeding election for Federal office.

SEC. 587. PROCEDURES FOR COLLECTION AND DELIVERY OF MARKED ABSENTEE BALLOTS OF ABSENT OVERSEAS UNIFORMED SERVICES VOTERS.

(a) **IN GENERAL.**—The Uniformed and Overseas Citizens Absentee Voting Act (42 U.S.C. 1973ff et seq.) is amended by inserting after section 103 the following new section:

“SEC. 103A. PROCEDURES FOR COLLECTION AND DELIVERY OF MARKED ABSENTEE BALLOTS OF ABSENT OVERSEAS UNIFORMED SERVICES VOTERS.

“(a) **ESTABLISHMENT OF PROCEDURES.**—The Presidential designee shall establish procedures for collecting marked absentee ballots of absent overseas uniformed services voters in regularly scheduled general elections for Federal office, including absentee ballots prepared by States and the Federal write-in absentee ballot prescribed under section 103, and for delivering such marked absentee ballots to the appropriate election officials.

“(b) **DELIVERY TO APPROPRIATE ELECTION OFFICIALS.**—

“(1) **IN GENERAL.**—Under the procedures established under this section, the Presidential designee shall implement procedures that facilitate the delivery of marked absentee ballots of absent overseas uniformed services voters for regularly scheduled general elections for Federal office to the appropriate election officials, in accordance with this section, not later than the date by which an absentee ballot must be received in order to be counted in the election.

“(2) **COOPERATION AND COORDINATION WITH THE UNITED STATES POSTAL SERVICE.**—The Presidential designee shall carry out this section in cooperation and coordination with the United States Postal Service, and shall provide expedited mail delivery service for all such marked absentee ballots of absent uniformed services

voters that are collected on or before the deadline described in paragraph (3) and then transferred to the United States Postal Service.

“(3) **DEADLINE DESCRIBED.**—

“(A) **IN GENERAL.**—Except as provided in subparagraph (B), the deadline described in this paragraph is noon (in the location in which the ballot is collected) on the seventh day preceding the date of the regularly scheduled general election for Federal office.

“(B) **AUTHORITY TO ESTABLISH ALTERNATIVE DEADLINE FOR CERTAIN LOCATIONS.**—If the Presidential designee determines that the deadline described in subparagraph (A) is not sufficient to ensure timely delivery of the ballot under paragraph (1) with respect to a particular location because of remoteness or other factors, the Presidential designee may establish as an alternative deadline for that location the latest date occurring prior to the deadline described in subparagraph (A) which is sufficient to provide timely delivery of the ballot under paragraph (1).

“(4) **NO POSTAGE REQUIREMENT.**—In accordance with section 3406 of title 39, United States Code, such marked absentee ballots and other balloting materials shall be carried free of postage.

“(5) **DATE OF MAILING.**—Such marked absentee ballots shall be postmarked with a record of the date on which the ballot is mailed.

“(c) **OUTREACH FOR ABSENT OVERSEAS UNIFORMED SERVICES VOTERS ON PROCEDURES.**—The Presidential designee shall take appropriate actions to inform individuals who are anticipated to be absent overseas uniformed services voters in a regularly scheduled general election for Federal office to which this section applies of the procedures for the collection and delivery of marked absentee ballots established pursuant to this section, including the manner in which such voters may utilize such procedures for the submittal of marked absentee ballots pursuant to this section.

“(d) **ABSENT OVERSEAS UNIFORMED SERVICES VOTER DEFINED.**—In this section, the term ‘absent overseas uniformed services voter’ means an overseas voter described in section 107(5)(A).

“(e) **AUTHORIZATION OF APPROPRIATIONS.**—There are authorized to be appropriated to the Presidential designee such sums as may be necessary to carry out this section.”.

(b) **CONFORMING AMENDMENT.**—Section 101(b) of such Act (42 U.S.C. 1973ff(b)) is amended—

(1) by striking “and” at the end of paragraph (6);

(2) by striking the period at the end of paragraph (7) and inserting “; and”; and

(3) by adding at the end the following new paragraph:

“(8) carry out section 103A with respect to the collection and delivery of marked absentee ballots of absent overseas uniformed services voters in elections for Federal office.”.

(c) **STATE RESPONSIBILITIES.**—Section 102(a) of such Act (42 U.S.C. 1973ff-1(a)), as amended by section 586, is amended—

(1) in paragraph (8), by striking “and” at the end;

(2) in paragraph (9), by striking the period at the end and inserting “; and”; and

(3) by adding the following new paragraph:

“(10) carry out section 103A(b)(1) with respect to the processing and acceptance of marked absentee ballots of absent overseas uniformed services voters.”.

(d) **TRACKING MARKED BALLOTS.**—Section 102 of such Act (42 U.S.C. 1973ff-1(a)), as amended by section 586, is amended by adding at the end the following new subsection:

“(h) **TRACKING MARKED BALLOTS.**—The chief State election official, in coordination with local election jurisdictions, shall develop a free access system by which an absent uniformed services

voter or overseas voter may determine whether the absentee ballot of the absent uniformed services voter or overseas voter has been received by the appropriate State election official.”.

(e) **PROTECTING VOTER PRIVACY AND SECRECY OF ABSENTEE BALLOTS.**—Section 101(b) of the Uniformed and Overseas Citizens Absentee Voting Act (42 U.S.C. 1973ff(b)), as amended by subsection (b), is amended—

(1) by striking “and” at the end of paragraph (7);

(2) by striking the period at the end of paragraph (8) and inserting “; and”; and

(3) by adding at the end the following new paragraph:

“(9) to the greatest extent practicable, take such actions as may be necessary—

“(A) to ensure that absent uniformed services voters who cast absentee ballots at locations or facilities under the jurisdiction of the Presidential designee are able to do so in a private and independent manner; and

“(B) to protect the privacy of the contents of absentee ballots cast by absentee uniformed services voters and overseas voters while such ballots are in the possession or control of the Presidential designee.”.

(f) **EFFECTIVE DATE.**—The amendments made by this section shall apply with respect to the regularly scheduled general election for Federal office held in November 2010 and each succeeding election for Federal office.

SEC. 588. FEDERAL WRITE-IN ABSENTEE BALLOT.

(a) **USE IN GENERAL, SPECIAL, PRIMARY, AND RUNOFF ELECTIONS FOR FEDERAL OFFICE.**—

(1) **IN GENERAL.**—Section 103 of the Uniformed and Overseas Citizens Absentee Voting Act (42 U.S.C. 1973ff-2) is amended—

(A) in subsection (a), by striking “general elections for Federal office” and inserting “general, special, primary, and runoff elections for Federal office”; and

(B) in subsection (e), in the matter preceding paragraph (1), by striking “a general election” and inserting “a general, special, primary, or runoff election for Federal office”; and

(C) in subsection (f), by striking “the general election” each place it appears and inserting “the general, special, primary, or runoff election for Federal office”.

(2) **EFFECTIVE DATE.**—The amendments made by this subsection shall take effect on December 31, 2010, and apply with respect to elections for Federal office held on or after such date.

(b) **PROMOTION AND EXPANSION OF USE.**—Section 103(a) of the Uniformed and Overseas Citizens Absentee Voting Act (42 U.S.C. 1973ff-2) is amended—

(1) by striking “GENERAL.—The Presidential” and inserting “GENERAL.—

“(1) **FEDERAL WRITE-IN ABSENTEE BALLOT.**—The Presidential”; and

(2) by adding at the end the following new paragraph:

“(2) **PROMOTION AND EXPANSION OF USE OF FEDERAL WRITE-IN ABSENTEE BALLOTS.**—

“(A) **IN GENERAL.**—Not later than December 31, 2011, the Presidential designee shall adopt procedures to promote and expand the use of the Federal write-in absentee ballot as a back-up measure to vote in elections for Federal office.

“(B) **USE OF TECHNOLOGY.**—Under such procedures, the Presidential designee shall utilize technology to implement a system under which the absent uniformed services voter or overseas voter may—

“(i) enter the address of the voter or other information relevant in the appropriate jurisdiction of the State, and the system will generate a list of all candidates in the election for Federal office in that jurisdiction; and

“(ii) submit the marked Federal write-in absentee ballot by printing the ballot (including complete instructions for submitting the marked

Federal write-in absentee ballot to the appropriate State election official and the mailing address of the single State office designated under section 102(b)).

“(C) **AUTHORIZATION OF APPROPRIATIONS.**—There are authorized to be appropriated to the Presidential designee such sums as may be necessary to carry out this paragraph.”.

SEC. 589. PROHIBITING REFUSAL TO ACCEPT VOTER REGISTRATION AND ABSENTEE BALLOT APPLICATIONS, MARKED ABSENTEE BALLOTS, AND FEDERAL WRITE-IN ABSENTEE BALLOTS FOR FAILURE TO MEET CERTAIN REQUIREMENTS.

(a) **VOTER REGISTRATION AND ABSENTEE BALLOT APPLICATIONS.**—Section 102 of the Uniformed and Overseas Citizens Absentee Voting Act (42 U.S.C. 1973ff-1), as amended by section 587, is amended by adding at the end the following new subsection:

“(i) **PROHIBITING REFUSAL TO ACCEPT APPLICATIONS FOR FAILURE TO MEET CERTAIN REQUIREMENTS.**—A State shall not refuse to accept and process any otherwise valid voter registration application or absentee ballot application (including the official post card form prescribed under section 101) or marked absentee ballot submitted in any manner by an absent uniformed services voter or overseas voter solely on the basis of the following:

“(1) Notarization requirements.

“(2) Restrictions on paper type, including weight and size.

“(3) Restrictions on envelope type, including weight and size.”.

(b) **FEDERAL WRITE-IN ABSENTEE BALLOT.**—Section 103 of such Act (42 U.S.C. 1973ff-2) is amended—

(1) by redesignating subsection (f) as subsection (g); and

(2) by inserting after subsection (e) the following new subsection:

“(f) **PROHIBITING REFUSAL TO ACCEPT BALLOT FOR FAILURE TO MEET CERTAIN REQUIREMENTS.**—A State shall not refuse to accept and process any otherwise valid Federal write-in absentee ballot submitted in any manner by an absent uniformed services voter or overseas voter solely on the basis of the following:

“(1) Notarization requirements.

“(2) Restrictions on paper type, including weight and size.

“(3) Restrictions on envelope type, including weight and size.”.

(c) **EFFECTIVE DATE.**—The amendments made by this section shall apply with respect to the regularly scheduled general election for Federal office held in November 2010 and each succeeding election for Federal office.

SEC. 590. FEDERAL VOTING ASSISTANCE PROGRAM IMPROVEMENTS.

(a) **FEDERAL VOTING ASSISTANCE PROGRAM IMPROVEMENTS.**—

(1) **IN GENERAL.**—The Uniformed and Overseas Citizens Absentee Voting Act (42 U.S.C. 1973ff et seq.), as amended by section 587, is amended by inserting after section 103A the following new section:

“SEC. 103B. FEDERAL VOTING ASSISTANCE PROGRAM IMPROVEMENTS.

“(a) **DUTIES.**—The Presidential designee shall carry out the following duties:

“(1) Develop online portals of information to inform absent uniformed services voters regarding voter registration procedures and absentee ballot procedures to be used by such voters with respect to elections for Federal office.

“(2) Establish a program to notify absent uniformed services voters of voter registration information and resources, the availability of the Federal postcard application, and the availability of the Federal write-in absentee ballot on the military Global Network, and shall use the military Global Network to notify absent uni-

formed services voters of the foregoing 90, 60, and 30 days prior to each election for Federal office.

“(b) **CLARIFICATION REGARDING OTHER DUTIES AND OBLIGATIONS.**—Nothing in this section shall relieve the Presidential designee of their duties and obligations under any directives or regulations issued by the Department of Defense, including the Department of Defense Directive 1000.04 (or any successor directive or regulation) that is not inconsistent or contradictory to the provisions of this section.

“(c) **AUTHORIZATION OF APPROPRIATIONS.**—There are authorized to be appropriated to the Federal Voting Assistance Program of the Department of Defense (or a successor program) such sums as are necessary for purposes of carrying out this section.”.

(2) **CONFORMING AMENDMENTS.**—Section 101 of such Act (42 U.S.C. 1973ff), as amended by section 587, is amended—

(A) in subparagraph (b)—

(i) by striking “and” at the end of paragraph (8);

(ii) by striking the period at the end of paragraph (9) and inserting “; and”; and

(iii) by adding at the end the following new paragraph:

“(10) carry out section 103B with respect to Federal Voting Assistance Program Improvements.”; and

(B) by adding at the end the following new subsection:

“(d) **AUTHORIZATION OF APPROPRIATIONS FOR CARRYING OUT FEDERAL VOTING ASSISTANCE PROGRAM IMPROVEMENTS.**—There are authorized to be appropriated to the Presidential designee such sums as are necessary for purposes of carrying out subsection (b)(10).”.

(b) **VOTER REGISTRATION ASSISTANCE FOR ABSENT UNIFORMED SERVICES VOTERS.**—Section 102 of the Uniformed and Overseas Citizens Absentee Voting Act (42 U.S.C. 1973ff-1), as amended by section 589, is amended by adding at the end the following new subsection:

“(f) **VOTER REGISTRATION ASSISTANCE FOR ABSENT UNIFORMED SERVICES VOTERS.**—

“(1) **DESIGNATING AN OFFICE AS A VOTER REGISTRATION AGENCY ON EACH INSTALLATION OF THE ARMED FORCES.**—Not later than 180 days after the date of enactment of this subsection, each Secretary of a military department shall take appropriate actions to designate an office on each installation of the Armed Forces under the jurisdiction of such Secretary (excluding any installation in a theater of combat), consistent across every installation of the department of the Secretary concerned, to provide each individual described in paragraph (3)—

“(A) written information on voter registration procedures and absentee ballot procedures (including the official post card form prescribed under section 101);

“(B) the opportunity to register to vote in an election for Federal office;

“(C) the opportunity to update the individual's voter registration information, including clear written notice and instructions for the absent uniformed services voter to change their address by submitting the official post card form prescribed under section 101 to the appropriate State election official; and

“(D) the opportunity to request an absentee ballot under this Act.

“(2) **DEVELOPMENT OF PROCEDURES.**—Each Secretary of a military department shall develop, in consultation with each State and the Presidential designee, the procedures necessary to provide the assistance described in paragraph (1).

“(3) **INDIVIDUALS DESCRIBED.**—The following individuals are described in this paragraph:

“(A) An absent uniformed services voter—

“(i) who is undergoing a permanent change of duty station;

“(ii) who is deploying overseas for at least 6 months;

“(iii) who is or returning from an overseas deployment of at least 6 months; or

“(iv) who at any time requests assistance related to voter registration.

“(B) All other absent uniformed services voters (as defined in section 107(1)).

“(4) **TIMING OF PROVISION OF ASSISTANCE.**—The assistance described in paragraph (1) shall be provided to an absent uniformed services voter—

“(A) described in clause (i) of paragraph (3)(A), as part of the administrative in-processing of the member upon arrival at the new duty station of the absent uniformed services voter;

“(B) described in clause (ii) of such paragraph, as part of the administrative in-processing of the member upon deployment from the home duty station of the absent uniformed services voter;

“(C) described in clause (iii) of such paragraph, as part of the administrative in-processing of the member upon return to the home duty station of the absent uniformed services voter;

“(D) described in clause (iv) of such paragraph, at any time the absent uniformed services voter requests such assistance; and

“(E) described in paragraph (3)(B), at any time the absent uniformed services voter requests such assistance.

“(5) **PAY, PERSONNEL, AND IDENTIFICATION OFFICES OF THE DEPARTMENT OF DEFENSE.**—The Secretary of Defense may designate pay, personnel, and identification offices of the Department of Defense for persons to apply to register to vote, update the individual's voter registration information, and request an absentee ballot under this Act.

“(6) **TREATMENT OF OFFICES DESIGNATED AS VOTER REGISTRATION AGENCIES.**—An office designated under paragraph (1) or (5) shall be considered to be a voter registration agency designated under section 7(a)(2) of the National Voter Registration Act of 1993 for all purposes of such Act.

“(7) **OUTREACH TO ABSENT UNIFORMED SERVICES VOTERS.**—The Secretary of each military department or the Presidential designee shall take appropriate actions to inform absent uniformed services voters of the assistance available under this subsection including—

“(A) the availability of voter registration assistance at offices designated under paragraphs (1) and (5); and

“(B) the time, location, and manner in which an absent uniformed voter may utilize such assistance.

“(8) **DEFINITION OF MILITARY DEPARTMENT AND SECRETARY CONCERNED.**—In this subsection, the terms ‘military department’ and ‘Secretary concerned’ have the meaning given such terms in paragraphs (8) and (9), respectively, of section 101 of title 10, United States Code.

“(9) **AUTHORIZATION OF APPROPRIATIONS.**—There are authorized to be appropriated such sums as are necessary to carry out this subsection.”

(c) **EFFECTIVE DATE.**—The amendments made by this section shall apply with respect to the regularly scheduled general election for Federal office held in November 2010 and each succeeding election for Federal office.

SEC. 591. DEVELOPMENT OF STANDARDS FOR REPORTING AND STORING CERTAIN DATA.

(a) **IN GENERAL.**—Section 101(b) of such Act (42 U.S.C. 1973ff(b)), as amended by section 590, is amended—

(1) by striking “and” at the end of paragraph (9);

(2) by striking the period at the end of paragraph (10) and inserting “; and”; and

(3) by adding at the end the following new paragraph:

“(11) working with the Election Assistance Commission and the chief State election official of each State, develop standards—

“(A) for States to report data on the number of absentee ballots transmitted and received under section 102(c) and such other data as the Presidential designee determines appropriate; and

“(B) for the Presidential designee to store the data reported.”

(b) **CONFORMING AMENDMENT.**—Section 102(a) of such Act (42 U.S.C. 1973ff–1(a)), as amended by section 587, is amended—

(1) in paragraph (9), by striking “and” at the end;

(2) in paragraph (10), by striking the period at the end and inserting “; and”; and

(3) by adding at the end the following new paragraph:

“(11) report data on the number of absentee ballots transmitted and received under section 102(c) and such other data as the Presidential designee determines appropriate in accordance with the standards developed by the Presidential designee under section 101(b)(11).”

(c) **EFFECTIVE DATE.**—The amendments made by this section shall apply with respect to the regularly scheduled general election for Federal office held in November 2010 and each succeeding election for Federal office.

SEC. 592. REPEAL OF PROVISIONS RELATING TO USE OF SINGLE APPLICATION FOR ALL SUBSEQUENT ELECTIONS.

(a) **IN GENERAL.**—Subsections (a) through (d) of section 104 of the Uniformed and Overseas Citizens Absentee Voting Act (42 U.S.C. 1973f–3) are repealed.

(b) **CONFORMING AMENDMENTS.**—The Uniformed and Overseas Citizens Absentee Voting Act (42 U.S.C. 1973ff et seq.) is amended—

(1) in section 101(b)—

(A) in paragraph (2), by striking “, for use by States in accordance with section 104”; and

(B) in paragraph (4), by striking “for use by States in accordance with section 104”; and

(2) in section 104, as amended by subsection (a)—

(A) in the section heading, by striking “**USE OF SINGLE APPLICATION FOR ALL SUBSEQUENT ELECTIONS**” and inserting “**PROHIBITION OF REFUSAL OF APPLICATIONS ON GROUNDS OF EARLY SUBMISSION**”; and

(B) in subsection (e), by striking “(e) **PROHIBITION OF REFUSAL OF APPLICATIONS ON GROUNDS OF EARLY SUBMISSION.**—”

SEC. 593. REPORTING REQUIREMENTS.

The Uniformed and Overseas Citizens Absentee Voting Act (42 U.S.C. 1973ff et seq.) is amended by inserting after section 105 the following new section:

“SEC. 105A. REPORTING REQUIREMENTS.

“(a) **REPORT ON STATUS OF IMPLEMENTATION AND ASSESSMENT OF PROGRAMS.**—Not later than 180 days after the date of the enactment of the Military and Overseas Voter Empowerment Act, the Presidential designee shall submit to the relevant committees of Congress a report containing the following information:

“(1) The status of the implementation of the procedures established for the collection and delivery of marked absentee ballots of absent overseas uniformed services voters under section 103A, and a detailed description of the specific steps taken towards such implementation for the regularly scheduled general election for Federal office held in November 2010.

“(2) An assessment of the effectiveness of the Voting Assistance Officer Program of the Department of Defense, which shall include the following:

“(A) A thorough and complete assessment of whether the Program, as configured and imple-

mented as of such date of enactment, is effectively assisting absent uniformed services voters in exercising their right to vote.

“(B) An inventory and explanation of any areas of voter assistance in which the Program has failed to accomplish its stated objectives and effectively assist absent uniformed services voters in exercising their right to vote.

“(C) As necessary, a detailed plan for the implementation of any new program to replace or supplement voter assistance activities required to be performed under this Act.

“(3) A detailed description of the specific steps taken towards the implementation of voter registration assistance for absent uniformed services voters under section 102(j), including the designation of offices under paragraphs (1) and (5) of such section.

“(b) **ANNUAL REPORT ON EFFECTIVENESS OF ACTIVITIES AND UTILIZATION OF CERTAIN PROCEDURES.**—Not later than March 31 of each year, the Presidential designee shall transmit to the President and to the relevant committees of Congress a report containing the following information:

“(1) An assessment of the effectiveness of activities carried out under section 103B, including the activities and actions of the Federal Voting Assistance Program of the Department of Defense, a separate assessment of voter registration and participation by absent uniformed services voters, a separate assessment of voter registration and participation by overseas voters who are not members of the uniformed services, and a description of the cooperation between States and the Federal Government in carrying out such section.

“(2) A description of the utilization of voter registration assistance under section 102(j), which shall include the following:

“(A) A description of the specific programs implemented by each military department of the Armed Forces pursuant to such section.

“(B) The number of absent uniformed services voters who utilized voter registration assistance provided under such section.

“(3) In the case of a report submitted under this subsection in the year following a year in which a regularly scheduled general election for Federal office is held, a description of the utilization of the procedures for the collection and delivery of marked absentee ballots established pursuant to section 103A, which shall include the number of marked absentee ballots collected and delivered under such procedures and the number of such ballots which were not delivered by the time of the closing of the polls on the date of the election (and the reasons such ballots were not so delivered).

“(c) **DEFINITIONS.**—In this section:

“(1) **ABSENT OVERSEAS UNIFORMED SERVICES VOTER.**—The term ‘absent overseas uniformed services voter’ has the meaning given such term in section 103A(d).

“(2) **PRESIDENTIAL DESIGNEE.**—The term ‘Presidential designee’ means the Presidential designee under section 101(a).

“(3) **RELEVANT COMMITTEES OF CONGRESS DEFINED.**—The term ‘relevant committees of Congress’ means—

“(A) the Committees on Appropriations, Armed Services, and Rules and Administration of the Senate; and

“(B) the Committees on Appropriations, Armed Services, and House Administration of the House of Representatives.”

SEC. 594. ANNUAL REPORT ON ENFORCEMENT.

Section 105 of the Uniformed and Overseas Citizens Absentee Voting Act (42 U.S.C. 1973f–4) is amended—

(1) by striking “The Attorney” and inserting “(a) **IN GENERAL.**—The Attorney”; and

(2) by adding at the end the following new subsection:

“(b) REPORT TO CONGRESS.—Not later than December 31 of each year, the Attorney General shall submit to Congress an annual report on any civil action brought under subsection (a) during the preceding year.”.

SEC. 595. REQUIREMENTS PAYMENTS.

(a) USE OF FUNDS.—Section 251(b) of the Help America Vote Act of 2002 (42 U.S.C. 15401(b)) is amended—

(1) in paragraph (1), by striking “paragraph (2)” and inserting “paragraphs (2) and (3)”;

and

(2) by adding at the end the following new paragraph:

“(3) ACTIVITIES UNDER UNIFORMED AND OVERSEAS CITIZENS ABSENTEE VOTING ACT.—A State shall use a requirements payment made using funds appropriated pursuant to the authorization under section 257(4) only to meet the requirements under the Uniformed and Overseas Citizens Absentee Voting Act imposed as a result of the provisions of and amendments made by the Military and Overseas Voter Empowerment Act.”.

(b) REQUIREMENTS.—

(1) STATE PLAN.—Section 254(a) of the Help America Vote Act of 2002 (42 U.S.C. 15404(a)) is amended by adding at the end the following new paragraph:

“(14) How the State plan will comply with the provisions and requirements of and amendments made by the Military and Overseas Voter Empowerment Act.”.

(2) CONFORMING AMENDMENTS.—Section 253(b) of the Help America Vote Act of 2002 (42 U.S.C. 15403(b)) is amended—

(A) in paragraph (1)(A), by striking “section 254” and inserting “subsection (a) of section 254 (or, in the case where a State is seeking a requirements payment made using funds appropriated pursuant to the authorization under section 257(4), paragraph (14) of section 254)”;

and

(B) in paragraph (2)—

(i) by striking “(2) The State” and inserting “(2)(A) Subject to subparagraph (B), the State”;

and

(ii) by inserting after subparagraph (A), as added by clause (i), the following new subparagraph:

“(B) The requirement under subparagraph (A) shall not apply in the case of a requirements payment made using funds appropriated pursuant to the authorization under section 257(4).”.

(c) AUTHORIZATION.—Section 257(a) of the Help America Vote Act of 2002 (42 U.S.C. 15407(a)) is amended by adding at the end the following new paragraph:

“(4) For fiscal year 2010 and subsequent fiscal years, such sums as are necessary for purposes of making requirements payments to States to carry out the activities described in section 251(b)(3).”.

SEC. 596. TECHNOLOGY PILOT PROGRAM.

(a) DEFINITIONS.—In this section:

(1) ABSENT UNIFORMED SERVICES VOTER.—The term “absent uniformed services voter” has the meaning given such term in section 107(a) of the Uniformed and Overseas Citizens Absentee Voting Act (42 U.S.C. 1973ff et seq.).

(2) OVERSEAS VOTER.—The term “overseas voter” has the meaning given such term in section 107(5) of such Act.

(3) PRESIDENTIAL DESIGNEE.—The term “Presidential designee” means the individual designated under section 101(a) of such Act.

(b) ESTABLISHMENT.—

(1) IN GENERAL.—The Presidential designee may establish 1 or more pilot programs under which the feasibility of new election technology is tested for the benefit of absent uniformed services voters and overseas voters claiming rights under the Uniformed and Overseas Citizens Absentee Voting Act (42 U.S.C. 1973ff et seq.).

(2) DESIGN AND CONDUCT.—The design and conduct of a pilot program established under this subsection—

(A) shall be at the discretion of the Presidential designee; and

(B) shall not conflict with or substitute for existing laws, regulations, or procedures with respect to the participation of absent uniformed services voters and military voters in elections for Federal office.

(c) CONSIDERATIONS.—In conducting a pilot program established under subsection (b), the Presidential designee may consider the following issues:

(1) The transmission of electronic voting material across military networks.

(2) Virtual private networks, cryptographic voting systems, centrally controlled voting stations, and other information security techniques.

(3) The transmission of ballot representations and scanned pictures in a secure manner.

(4) Capturing, retaining, and comparing electronic and physical ballot representations.

(5) Utilization of voting stations at military bases.

(6) Document delivery and upload systems.

(7) The functional effectiveness of the application or adoption of the pilot program to operational environments, taking into account environmental and logistical obstacles and State procedures.

(d) REPORTS.—The Presidential designee shall submit to Congress reports on the progress and outcomes of any pilot program conducted under this subsection, together with recommendations—

(1) for the conduct of additional pilot programs under this section; and

(2) for such legislation and administrative action as the Presidential designee determines appropriate.

(e) TECHNICAL ASSISTANCE.—

(1) IN GENERAL.—The Election Assistance Commission and the National Institute of Standards and Technology shall work with the Presidential designee to support the pilot program or programs established under this section through best practices or standards and in accordance with electronic absentee voting guidelines established under the first sentence of section 1604(a)(2) of the National Defense Authorization Act for Fiscal Year 2002 (Public Law 107–107; 115 Stat. 1277; 42 U.S.C. 1977ff note), as amended by section 567 of the Ronald W. Reagan National Defense Authorization Act for Fiscal Year 2005 (Public Law 108–375; 118 Stat. 1919).

(2) REPORT.—In the case where the Election Assistance Commission has not established electronic absentee voting guidelines under such section 1604(a)(2), as so amended, by not later than 180 days after enactment of this Act, the Election Assistance Commission shall submit to the relevant committees of Congress a report containing the following information:

(A) The reasons such guidelines have not been established as of such date.

(B) A detailed timeline for the establishment of such guidelines.

(C) A detailed explanation of the Commission's actions in establishing such guidelines since the date of enactment of the Ronald W. Reagan National Defense Authorization Act for Fiscal Year 2005 (Public Law 108–375; 118 Stat. 1919).

(3) RELEVANT COMMITTEES OF CONGRESS DEFINED.—In this subsection, the term “relevant committees of Congress” means—

(A) the Committees on Appropriations, Armed Services, and Rules and Administration of the Senate; and

(B) the Committees on Appropriations, Armed Services, and House Administration of the House of Representatives.

(f) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated such sums as are necessary to carry out this section.

TITLE VI—COMPENSATION AND OTHER PERSONNEL BENEFITS

Subtitle A—Pay and Allowances

SEC. 601. FISCAL YEAR 2010 INCREASE IN MILITARY BASIC PAY.

(a) WAIVER OF SECTION 1009 ADJUSTMENT.—The adjustment to become effective during fiscal year 2010 required by section 1009 of title 37, United States Code, in the rates of monthly basic pay authorized members of the uniformed services shall not be made.

(b) INCREASE IN BASIC PAY.—Effective on January 1, 2010, the rates of monthly basic pay for members of the uniformed services are increased by 3.4 percent.

SEC. 602. COMPTROLLER GENERAL OF THE UNITED STATES COMPARATIVE ASSESSMENT OF MILITARY AND PRIVATE-SECTOR PAY AND BENEFITS.

(a) STUDY REQUIRED.—The Comptroller General of the United States shall conduct a study comparing pay and benefits provided by law to members of the Armed Forces with pay and benefits provided by the private sector to comparably situated private-sector employees.

(b) ELEMENTS.—The study required by subsection (a) shall include, but not be limited to, the following:

(1) An assessment of total military compensation for officers and for enlisted personnel, including basic pay, the basic allowance for housing (BAH), the basic allowance for subsistence (BAS), tax benefits applicable to military pay and allowances under Federal law (including the Social Security laws) and State law, military retirement benefits, commissary and exchange privileges, and military healthcare benefits.

(2) An assessment of private-sector pay and benefits for civilians of similar age, education, and experience in like fields of officers and enlisted personnel of the Armed Forces, including pay, bonuses, employee options, fringe benefits, retirement benefits, individual retirement investment benefits, flexible spending accounts and health savings accounts, and any other elements of private-sector compensation that the Comptroller General considers appropriate.

(3) An identification of the percentile of comparable private-sector compensation at which members of the Armed Forces are paid, including an assessment of the adequacy of percentile comparisons generally and whether the Department of Defense goal of compensating members of the Armed Forces at the 80th percentile of comparable private-sector compensation, as described in the 10th Quadrennial Review of Military Compensation, is appropriate and adequate to achieve comparability of pay between members of the Armed Forces and private-sector employees.

(c) REPORT.—The Comptroller General shall submit to the congressional defense committees a report on the study required by subsection (a) by not later than April 1, 2010.

SEC. 603. INCREASE IN MAXIMUM MONTHLY AMOUNT OF SUPPLEMENTAL SUBSISTENCE ALLOWANCE FOR LOW-INCOME MEMBERS WITH DEPENDENTS.

(a) INCREASE IN MAXIMUM MONTHLY AMOUNT.—Section 402a(a) of title 37, United States Code, is amended—

(1) in paragraph (2), by striking “\$500” and inserting “\$1,100”; and

(2) in paragraph (3)(B), by striking “\$500” and inserting “\$1,100”.

(b) EFFECTIVE DATE.—The amendments made by subsection (a) shall take effect on October 1, 2009, and shall apply with respect to monthly supplemental subsistence allowances for low-income members with dependents payable on or after that date.

(c) **REPORT ON ELIMINATION OF RELIANCE ON SUPPLEMENTAL NUTRITION ASSISTANCE PROGRAM TO MEET NUTRITIONAL NEEDS OF MEMBERS OF THE ARMED FORCES AND THEIR DEPENDENTS.**—

(1) **IN GENERAL.**—Not later than September 1, 2010, the Secretary of Defense shall, in consultation with the Secretary of Agriculture, submit to the congressional defense committees a report setting forth a plan for actions to eliminate the need for members of the Armed Forces and their dependents to rely on the supplemental nutrition assistance program under the Food Stamp Act of 1977 (7 U.S.C. 2011 et seq.) for their monthly nutritional needs.

(2) **ELEMENTS.**—The plan required by paragraph (1) shall address the following:

(A) An appropriate amount or amounts for the monthly supplemental subsistence allowance for low-income members with dependents payable under section 402a of title 37, United States Code.

(B) Such modifications, if any, to the eligibility requirements for the monthly supplemental subsistence allowance, including limitations on the maximum size of the household of a member for purposes of eligibility for the allowance, as the Secretary of Defense considers appropriate.

(C) The advisability of requiring members of the Armed Forces to apply for the monthly supplemental subsistence allowance before seeking assistance under the supplemental nutrition assistance program.

(D) Such other matters as the Secretary of Defense considers appropriate.

SEC. 604. BENEFITS UNDER POST-DEPLOYMENT/MOBILIZATION RESPITE ABSENCE PROGRAM FOR CERTAIN PERIODS BEFORE IMPLEMENTATION OF PROGRAM.

(a) **IN GENERAL.**—Under regulations prescribed by the Secretary of Defense, the Secretary concerned may provide any member or former member of the Armed Forces with the benefits specified in subsection (b) if the member or former member would, on any day during the period beginning on January 19, 2007, and ending on the date of the implementation of the Post-Deployment/Mobilization Respite Absence (PDMRA) program by the Secretary concerned, have qualified for a day of administrative absence under the Post-Deployment/Mobilization Respite Absence program had the program been in effect during such period.

(b) **BENEFITS.**—The benefits specified in this subsection are the following:

(1) In the case of an individual who is a former member of the Armed Forces at the time of the provision of benefits under this section, payment of an amount not to exceed \$200 for each day the individual would have qualified for a day of administrative absence as described in subsection (a) during the period specified in that subsection.

(2) In the case of an individual who is a member of the Armed Forces at the time of the provision of benefits under this section, either one day of administrative absence or payment of an amount not to exceed \$200, as selected by the Secretary concerned, for each day the individual would have qualified for a day of administrative absence as described in subsection (a) during the period specified in that subsection.

(c) **EXCLUSION OF CERTAIN FORMER MEMBERS.**—A former member of the Armed Forces is not eligible under this section for the benefits specified in subsection (b)(1) if the former member was discharged or released from the Armed Forces under other than honorable conditions.

(d) **MAXIMUM NUMBER OF DAYS OF BENEFITS PROVIDABLE.**—The number of days of benefits providable to a member or former member of the Armed Forces under this section may not exceed 40 days of benefits.

(e) **FORM OF PAYMENT.**—The paid benefits providable under subsection (b) may be paid in

a lump sum or installments, at the election of the Secretary concerned.

(f) **CONSTRUCTION WITH OTHER PAY AND LEAVE.**—The benefits provided a member or former member of the Armed Forces under this section are in addition to any other pay, absence, or leave provided by law.

(g) **DEFINITIONS.**—In this section:

(1) The term “Post-Deployment/Mobilization Respite Absence program” means the program of a military department to provide days of administrative absence not chargeable against available leave to certain deployed or mobilized members of the Armed Forces in order to assist such members in reintegrating into civilian life after deployment or mobilization.

(2) The term “Secretary concerned” has the meaning given that term in section 101(5) of title 37, United States Code.

(h) **TERMINATION.**—

(1) **IN GENERAL.**—The authority to provide benefits under this section shall expire on the date that is one year after the date of the enactment of this Act.

(2) **CONSTRUCTION.**—Expiration under this subsection of the authority to provide benefits under this section shall not affect the utilization of any day of administrative absence provided a member of the Armed Forces under subsection (b)(2), or the payment of any payment authorized a member or former member of the Armed Forces under subsection (b), before the expiration of the authority in this section.

Subtitle B—Bonuses and Special and Incentive Pays

**SEC. 611. EXTENSION OF CERTAIN BONUS AND SPECIAL PAY AUTHORITIES FOR RESE-
RVED FORCES.**

(a) **SELECTED RESERVE REENLISTMENT BONUS.**—Section 308b(g) of title 37, United States Code, is amended by striking “December 31, 2009” and inserting “December 31, 2010”.

(b) **SELECTED RESERVE AFFILIATION OR ENLISTMENT BONUS.**—Section 308c(i) of such title is amended by striking “December 31, 2009” and inserting “December 31, 2010”.

(c) **SPECIAL PAY FOR ENLISTED MEMBERS ASSIGNED TO CERTAIN HIGH PRIORITY UNITS.**—Section 308d(c) of such title is amended by striking “December 31, 2009” and inserting “December 31, 2010”.

(d) **READY RESERVE ENLISTMENT BONUS FOR PERSONS WITHOUT PRIOR SERVICE.**—Section 308g(f)(2) of such title is amended by striking “December 31, 2009” and inserting “December 31, 2010”.

(e) **READY RESERVE ENLISTMENT AND REENLISTMENT BONUS FOR PERSONS WITH PRIOR SERVICE.**—Section 308h(e) of such title is amended by striking “December 31, 2009” and inserting “December 31, 2010”.

(f) **SELECTED RESERVE ENLISTMENT BONUS FOR PERSONS WITH PRIOR SERVICE.**—Section 308i(f) of such title is amended by striking “December 31, 2009” and inserting “December 31, 2010”.

(g) **INCOME REPLACEMENT PAYMENTS.**—Section 910(g) of such title is amended by striking “December 31, 2009” and inserting “December 31, 2010”.

SEC. 612. EXTENSION OF CERTAIN BONUS AND SPECIAL PAY AUTHORITIES FOR HEALTH CARE PROFESSIONALS.

(a) **NURSE OFFICER CANDIDATE ACCESSION PROGRAM.**—Section 2130a(a)(1) of title 10, United States Code, is amended by striking “December 31, 2009” and inserting “December 31, 2010”.

(b) **REPAYMENT OF EDUCATION LOANS FOR CERTAIN HEALTH PROFESSIONALS WHO SERVE IN THE SELECTED RESERVE.**—Section 16302(d) of such title is amended by striking “December 31, 2009” and inserting “December 31, 2010”.

(c) **ACCESSION AND RETENTION BONUSES FOR PSYCHOLOGISTS.**—Section 302c-1(f) of title 37,

United States Code, is amended by striking “December 31, 2009” and inserting “December 31, 2010”.

(d) **ACCESSION BONUS FOR REGISTERED NURSES.**—Section 302d(a)(1) of such title is amended by striking “December 31, 2009” and inserting “December 31, 2010”.

(e) **INCENTIVE SPECIAL PAY FOR NURSE ANESTHETISTS.**—Section 302e(a)(1) of such title is amended by striking “December 31, 2009” and inserting “December 31, 2010”.

(f) **SPECIAL PAY FOR SELECTED RESERVE HEALTH PROFESSIONALS IN CRITICALLY SHORT WARTIME SPECIALTIES.**—Section 302g(e) of such title is amended by striking “December 31, 2009” and inserting “December 31, 2010”.

(g) **ACCESSION BONUS FOR DENTAL OFFICERS.**—Section 302h(a)(1) of such title is amended by striking “December 31, 2009” and inserting “December 31, 2010”.

(h) **ACCESSION BONUS FOR PHARMACY OFFICERS.**—Section 302j(a) of such title is amended by striking “December 31, 2009” and inserting “December 31, 2010”.

(i) **ACCESSION BONUS FOR MEDICAL OFFICERS IN CRITICALLY SHORT WARTIME SPECIALTIES.**—Section 302k(f) of such title is amended by striking “December 31, 2009” and inserting “December 31, 2010”.

(j) **ACCESSION BONUS FOR DENTAL SPECIALIST OFFICERS IN CRITICALLY SHORT WARTIME SPECIALTIES.**—Section 302l(g) of such title is amended by striking “December 31, 2009” and inserting “December 31, 2010”.

SEC. 613. EXTENSION OF SPECIAL PAY AND BONUS AUTHORITIES FOR NUCLEAR OFFICERS.

(a) **SPECIAL PAY FOR NUCLEAR-QUALIFIED OFFICERS EXTENDING PERIOD OF ACTIVE SERVICE.**—Section 312(f) of title 37, United States Code, is amended by striking “December 31, 2009” and inserting “December 31, 2010”.

(b) **NUCLEAR CAREER ACCESSION BONUS.**—Section 312b(c) of such title is amended by striking “December 31, 2009” and inserting “December 31, 2010”.

(c) **NUCLEAR CAREER ANNUAL INCENTIVE BONUS.**—Section 312c(d) of such title is amended by striking “December 31, 2009” and inserting “December 31, 2010”.

SEC. 614. EXTENSION OF AUTHORITIES RELATING TO TITLE 37 CONSOLIDATED SPECIAL PAY, INCENTIVE PAY, AND BONUS AUTHORITIES.

(a) **GENERAL BONUS AUTHORITY FOR ENLISTED MEMBERS.**—Section 331(h) of title 37, United States Code, is amended by striking “December 31, 2009” and inserting “December 31, 2010”.

(b) **GENERAL BONUS AUTHORITY FOR OFFICERS.**—Section 332(g) of such title is amended by striking “December 31, 2009” and inserting “December 31, 2010”.

(c) **SPECIAL BONUS AND INCENTIVE PAY AUTHORITIES FOR NUCLEAR OFFICERS.**—Section 333(i) of such title is amended by striking “December 31, 2009” and inserting “December 31, 2010”.

(d) **SPECIAL AVIATION INCENTIVE PAY AND BONUS AUTHORITIES.**—Section 334(i) of such title is amended by striking “December 31, 2009” and inserting “December 31, 2010”.

(e) **SPECIAL HEALTH PROFESSIONS INCENTIVE PAY AND BONUS AUTHORITIES.**—Section 335(k) of such title is amended by striking “December 31, 2009” and inserting “December 31, 2010”.

(f) **HAZARDOUS DUTY PAY.**—Section 351(i) of such title is amended by striking “December 31, 2009” and inserting “December 31, 2010”.

(g) **ASSIGNMENT PAY OR SPECIAL DUTY PAY.**—Section 352(g) of such title is amended by striking “December 31, 2009” and inserting “December 31, 2010”.

(h) **SKILL INCENTIVE PAY OR PROFICIENCY BONUS.**—Section 353(j) of such title is amended by striking “December 31, 2009” and inserting “December 31, 2010”.

(i) **RETENTION BONUS FOR MEMBERS WITH CRITICAL MILITARY SKILLS OR ASSIGNED TO HIGH PRIORITY UNITS.**—Section 355(i) of such title is amended by striking “December 31, 2009” and inserting “December 31, 2010”.

SEC. 615. EXTENSION OF AUTHORITIES RELATING TO PAYMENT OF OTHER TITLE 37 BONUSES AND SPECIAL PAYS.

(a) **AVIATION OFFICER RETENTION BONUS.**—Section 301b(a) of title 37, United States Code, is amended by striking “December 31, 2009” and inserting “December 31, 2010”.

(b) **ASSIGNMENT INCENTIVE PAY.**—Section 307a(g) of such title is amended by striking “December 31, 2009” and inserting “December 31, 2010”.

(c) **REENLISTMENT BONUS FOR ACTIVE MEMBERS.**—Section 308(g) of such title is amended by striking “December 31, 2009” and inserting “December 31, 2010”.

(d) **ENLISTMENT BONUS.**—Section 309(e) of such title is amended by striking “December 31, 2009” and inserting “December 31, 2010”.

(e) **ACCESSION BONUS FOR NEW OFFICERS IN CRITICAL SKILLS.**—Section 324(g) of such title is amended by striking “December 31, 2009” and inserting “December 31, 2010”.

(f) **INCENTIVE BONUS FOR CONVERSION TO MILITARY OCCUPATIONAL SPECIALTY TO EASE PERSONNEL SHORTAGE.**—Section 326(g) of such title is amended by striking “December 31, 2009” and inserting “December 31, 2010”.

(g) **INCENTIVE BONUS FOR TRANSFER BETWEEN ARMED FORCES.**—Section 327(h) of such title is amended by striking “December 31, 2009” and inserting “December 31, 2010”.

(h) **ACCESSION BONUS FOR OFFICER CANDIDATES.**—Section 330(f) of such title is amended by striking “December 31, 2009” and inserting “December 31, 2010”.

SEC. 616. EXTENSION OF AUTHORITIES RELATING TO PAYMENT OF REFERRAL BONUSES.

(a) **HEALTH PROFESSIONS REFERRAL BONUS.**—Section 1030(i) of title 10, United States Code, is amended by striking “December 31, 2009” and inserting “December 31, 2010”.

(b) **ARMY REFERRAL BONUS.**—Section 3252(h) of such title is amended by striking “December 31, 2009” and inserting “December 31, 2010”.

SEC. 617. SPECIAL COMPENSATION FOR MEMBERS OF THE UNIFORMED SERVICES WITH SERIOUS INJURIES OR ILLNESSES REQUIRING ASSISTANCE IN EVERYDAY LIVING.

(a) **IN GENERAL.**—Chapter 7 of title 37, United States Code, is amended by adding at the end the following new section:

“§439. Special compensation: members of the uniformed services with serious injuries or illnesses requiring assistance in everyday living

“(a) **MONTHLY COMPENSATION.**—The Secretary concerned may pay to any member of the uniformed services described in subsection (b) monthly special compensation in an amount determined under subsection (c).

“(b) **COVERED MEMBERS.**—A member eligible for monthly special compensation authorized by subsection (a) is a member who—

“(1) has been certified by a licensed physician to be in need of assistance from another person to perform the personal functions required in everyday living;

“(2) has a serious injury, disorder, or disease of either a temporary or permanent nature that—

“(A) is incurred or aggravated in the line of duty; and

“(B) compromises the member’s ability to carry out one or more activities of daily living or requires the member to be constantly supervised to avoid physical harm to the member or to others; and

“(3) meets such other criteria, if any, as the Secretary of Defense (or the Secretary of Homeland Security, with respect to the Coast Guard) prescribes for purposes of this section.

“(c) **AMOUNT.**—(1) The amount of monthly special compensation payable to a member under subsection (a) shall be determined under criteria prescribed by the Secretary of Defense (or the Secretary of Homeland Security, with respect to the Coast Guard), but may not exceed the amount of aid and attendance allowance authorized by section 1114(r)(2) of title 38 for veterans in need of aid and attendance.

“(2) In determining the amount of monthly special compensation, the Secretary concerned shall consider the following:

“(A) The extent to which home health care and related services are being provided by the Government.

“(B) The extent to which aid and attendance services are being provided by family and friends who may be compensated with funds provided through the monthly special compensation.

“(d) **PAYMENT UNTIL MEDICAL RETIREMENT.**—Monthly special compensation is payable under this section to a member described in subsection (b) for any month that begins before the date on which the member is medically retired.

“(e) **CONSTRUCTION WITH OTHER PAY AND ALLOWANCES.**—Monthly special compensation payable to a member under this section is in addition to any other pay and allowances payable to the member by law.

“(f) **BENEFIT INFORMATION.**—The Secretary of Defense, in collaboration with the Secretary of Veterans Affairs, shall ensure that members of the uniformed services who may be eligible for compensation under this section are made aware of the availability of such compensation by including information about such compensation in written and online materials for such members and their families.

“(g) **REGULATIONS.**—The Secretary of Defense (or the Secretary of Homeland Security, with respect to the Coast Guard) shall prescribe regulations to carry out this section.”.

(b) **REPORT TO CONGRESS.**—

(1) **IN GENERAL.**—Not later than one year after the date of the enactment of this Act, the Secretary of Defense (and the Secretary of Homeland Security, with respect to the Coast Guard) shall submit to Congress a report on the provision of compensation under section 439 of title 37, United States Code, as added by subsection (a) of this section.

(2) **ELEMENTS.**—The report required by paragraph (1) shall include the following:

(A) An estimate of the number of members of the uniformed services eligible for compensation under such section 439.

(B) The number of members of the uniformed services receiving compensation under such section.

(C) The average amount of compensation provided to members of the uniformed services receiving such compensation.

(D) The average amount of time required for a member of the uniformed services to receive such compensation after the member becomes eligible for the compensation.

(E) A summary of the types of injuries, disorders, and diseases of members of the uniformed services receiving such compensation that made such members eligible for such compensation.

(c) **CLERICAL AMENDMENT.**—The table of sections at the beginning of chapter 7 of such title is amended by adding at the end the following new item:

“439. Special compensation: members of the uniformed services with serious injuries or illnesses requiring assistance in everyday living.”.

SEC. 618. TEMPORARY AUTHORITY FOR MONTHLY SPECIAL PAY FOR MEMBERS OF THE ARMED FORCES SUBJECT TO CONTINUING ACTIVE DUTY OR SERVICE UNDER STOP-LOSS AUTHORITIES.

(a) **SPECIAL PAY AUTHORIZED.**—The Secretary of the military department concerned may pay monthly special pay to any member of the Armed Forces described in subsection (b) for any month or portion of a month in which the member serves on active duty in the Armed Forces or active status in a reserve component of the Armed Forces, including time served performing pre-deployment and re-integration duty regardless of whether or not such duty was performed by such a member on active duty in the Armed Forces, or has the member’s eligibility for retirement from the Armed Forces suspended, as described in that subsection.

(b) **COVERED MEMBERS.**—A member of the Armed Forces described in this subsection is any member of the Army, Navy, Air Force, or Marine Corps (including a member of a reserve component thereof) who, at any time during the period beginning on October 1, 2009, and ending on June 30, 2011, serves on active duty in the Armed Forces or active status in a reserve component of the Armed Forces, including time served performing pre-deployment and re-integration duty regardless of whether or not such duty was performed by such a member on active duty in the Armed Forces, while the member’s enlistment or period of obligated service is extended, or has the member’s eligibility for retirement suspended, pursuant to section 123 or 12305 of title 10, United States Code, or any other provision of law (commonly referred to as a “stop-loss authority”) authorizing the President to extend an enlistment or period of obligated service, or suspend eligibility for retirement, of a member of the uniformed services in time of war or of national emergency declared by Congress or the President.

(c) **AMOUNT.**—The amount of monthly special pay payable to a member under this section for a month may not exceed \$500.

(d) **CONSTRUCTION WITH OTHER PAYS.**—Monthly special pay payable to a member under this section is in addition to any other amounts payable to the member by law.

Subtitle C—Travel and Transportation Allowances

SEC. 631. TRAVEL AND TRANSPORTATION ALLOWANCES FOR DESIGNATED INDIVIDUALS OF WOUNDED, ILL, OR INJURED MEMBERS OF THE UNIFORMED SERVICES FOR DURATION OF INPATIENT TREATMENT.

(a) **AUTHORITY TO PROVIDE TRAVEL TO DESIGNATED INDIVIDUALS.**—Subsection (a) of section 411h of title 37, United States Code, is amended—

(1) in paragraph (1)—

(A) by striking “family members of a member described in paragraph (2)” and inserting “individuals who, with respect to a member described in paragraph (2), are designated individuals for that member”;

(B) by striking “that the presence of the family member” and inserting “, with respect to any such individual, that the presence of such individual”;

(C) by striking “of family members” and inserting “of designated individuals”;

(2) by adding at the end the following new paragraph:

“(4) In the case of a designated individual who is also a member of the uniformed services, that member may be provided travel and transportation under this section in the same manner as a designated individual who is not a member.”.

(b) **DEFINITION OF DESIGNATED INDIVIDUAL.**—

(1) **IN GENERAL.**—Paragraph (1) of subsection (b) of such section is amended by striking “the

term" and all that follows and inserting "the term 'designated individual', with respect to a member, means—

"(A) an individual designated by the member for the purposes of this section; or

"(B) in the case of a member who has not made a designation under subparagraph (A) and, as determined by the attending physician or surgeon, is not able to make such a designation, an individual who, as designated by the attending physician or surgeon and the commander or head of the military medical facility exercising control over the member, is someone with a personal relationship to the member whose presence may aid and support the health and welfare of the member during the duration of the member's inpatient treatment."

(2) DESIGNATIONS NOT PERMANENT.—Paragraph (2) of such subsection is amended to read as follows:

"(2) The designation of an individual as a designated individual for purposes of this section may be changed at any time."

(c) COVERAGE OF MEMBERS HOSPITALIZED OUTSIDE THE UNITED STATES WHO WERE WOUNDED OR INJURED IN A COMBAT OPERATION OR COMBAT ZONE.—

(1) COVERAGE FOR HOSPITALIZATION OUTSIDE THE UNITED STATES.—Subparagraph (B) of section (a)(2) of such section is amended—

(A) in clause (i), by striking "in or outside the United States"; and

(B) in clause (ii), by striking "in the United States".

(2) CLARIFICATION OF MEMBERS COVERED.—Such subparagraph is further amended—

(A) in clause (i), by inserting "seriously wounded," after "(i) is"; and

(B) in clause (ii)—
(i) by striking "an injury" and inserting "a wound or an injury"; and

(ii) by striking "that injury" and inserting "that wound or injury".

(d) COVERAGE OF MEMBERS WITH SERIOUS MENTAL DISORDERS.—

(1) IN GENERAL.—Subsection (a)(2)(B)(i) of such section, as amended by subsection (c) of this section, is further amended by inserting "(including having a serious mental disorder)" after "seriously injured".

(2) SERIOUS MENTAL DISORDER DEFINED.—Subsection (b) of such section 411h, as amended by subsection (b) of this section, is further amended by adding at the end the following new paragraph:

"(4)(A) In this section, the term 'serious mental disorder', in the case of a member, means that the member has been diagnosed with a mental disorder that requires intensive mental health treatment or hospitalization.

"(B) The circumstances in which a member shall be considered to have a serious mental disorder for purposes of this section shall include, but not be limited to, the following:

"(i) The member is considered to be a potential danger to self or others as a result of a diagnosed mental disorder that requires intensive mental health treatment or hospitalization.

"(ii) The member is diagnosed with a mental disorder and has psychotic symptoms that require intensive mental health treatment or hospitalization.

"(iii) The member is diagnosed with a mental disorder and has severe symptoms or severe impairment in functioning that require intensive mental health treatment or hospitalization."

(e) FREQUENCY OF AUTHORIZED TRAVEL.—Paragraph (3) of subsection (a) of such section 411h is amended to read as follows:

"(3) Not more than a total of three roundtrips may be provided under paragraph (1) in any 60-day period at Government expense to the individuals who, with respect to a member, are the designated individuals of that member in effect

during that period. However, if the Secretary concerned has granted a waiver under the second sentence of paragraph (1) with respect to a member, then for any 60-day period in which the waiver is in effect the limitation in the preceding sentence shall be adjusted accordingly. In addition, during any period during which there is in effect a non-medical attendant designation for a member under section 411h-1 of this title, not more than a total of two roundtrips may be provided under paragraph (1) in any 60-day period at Government expense until there no longer is a designation of a non-medical attendant or that designation transfers to another individual, in which case during the transfer period three roundtrip tickets may be provided."

(f) STYLISTIC AND CONFORMING AMENDMENTS.—Such section is further amended—

(1) in subsection (a), by striking "(a)(1)" and inserting "(a) TRAVEL AND TRANSPORTATION AUTHORIZED.—(1)";

(2) in subsection (b)—

(A) by striking "(b)(1)" and inserting "(b) DEFINITIONS.—(1)"; and

(B) in paragraph (3)—

(i) by inserting "(A)" after "(3)"; and

(ii) by adding at the end the following new subparagraph:

"(B) In this paragraph, the term 'family member', with respect to a member, means the following:

"(i) The member's spouse.

"(ii) Children of the member (including stepchildren, adopted children, and illegitimate children).

"(iii) Parents of the member or persons in loco parentis to the member, including fathers and mothers through adoption and persons who stood in loco parentis to the member for a period not less than one year immediately before the member entered the uniformed service, except that only one father and one mother or their counterparts in loco parentis may be recognized in any one case.

"(iv) Siblings of the member.

"(v) A person related to the member as described in clause (i), (ii), (iii), or (iv) who is also a member of the uniformed services."

(3) in subsection (c)—

(A) by striking "(c)(1)" and inserting "(c) ROUND TRIP TRANSPORTATION AND PER DIEM ALLOWANCE.—(1)"; and

(B) in paragraph (1), by striking "family member" and inserting "designated individual"; and

(d) in subsection (d), by striking "(d)(1)" and inserting "(d) METHOD OF TRANSPORTATION AUTHORIZED.—(1)".

(g) CLERICAL AMENDMENTS.—

(1) SECTION HEADING.—The heading of such section is amended to read as follows:

"§411h. Travel and transportation allowances: transportation of designated individuals incident to hospitalization of members for treatment of wounds, illness, or injury".

(2) TABLE OF SECTIONS.—The item relating to such section in the table of sections at the beginning of chapter 7 of such title is amended to read as follows:

"411h. Travel and transportation allowances: transportation of designated individuals incident to hospitalization of members for treatment of wounds, illness, or injury."

(h) CONFORMING AMENDMENT TO WOUNDED WARRIOR ACT.—Section 1602(4) of the Wounded Warrior Act (10 U.S.C. 1071 note) is amended by striking "411h(b)(1)" and inserting "411h(b)(3)(B)".

(i) APPLICABILITY OF AMENDMENTS.—No reimbursement may be provided under section 411h of title 37, United States Code, by reason of the

amendments made by this section for travel and transportation costs incurred before the date of the enactment of this Act.

SEC. 632. TRAVEL AND TRANSPORTATION ALLOWANCES FOR NON-MEDICAL ATTENDANTS OF SERIOUSLY WOUNDED, ILL, OR INJURED MEMBERS OF THE UNIFORMED SERVICES.

(a) PAYMENT OF TRAVEL COSTS AUTHORIZED.—

(1) IN GENERAL.—Chapter 7 of title 37, United States Code, is amended by inserting after section 411h the following new section:

"§411h-1. Travel and transportation allowances: transportation of non-medical attendants for members who are seriously wounded, ill, or injured

"(a) IN GENERAL.—Under uniform regulations prescribed by the Secretaries concerned, travel and transportation described in subsection (d) may be provided for a qualified non-medical attendant for a member of the uniformed services described in subsection (c) if the attending physician or surgeon and the commander or head of the military medical facility exercising control over the member jointly determine that the presence of such an attendant may contribute to the member's health and welfare.

"(b) QUALIFIED NON-MEDICAL ATTENDANT.—

For purposes of this section, a qualified non-medical attendant with respect to a member described in subsection (c) is an individual who—

"(1) the member designates for purposes of this section to be a non-medical attendant for the member; or

"(2) the attending physician or surgeon and the commander or head of the military medical facility exercising control over the member jointly determine is an appropriate non-medical attendant for the member whose presence may contribute to the member's health and welfare.

"(c) COVERED MEMBERS.—A member of the uniformed services described in this subsection is a member who—

"(1) is serving on active duty, is entitled to pay and allowances under section 204(g) of this title (or would be so entitled if not for offsetting earned income described in that subsection), or is retired for the wound, illness, or injury for which the member is categorized as described in paragraph (2);

"(2) has been determined by the attending physician or surgeon to be in the category known as 'very seriously wounded, ill, or injured' or in the category known as 'seriously wounded, ill, and injured'; and

"(3) either—

"(A) is hospitalized for treatment of the wound, illness, or injury for which the member is so categorized; or

"(B) requires continuing outpatient treatment for such wound, illness, or injury.

"(d) TRAVEL AND TRANSPORTATION.—(1)(A) The transportation authorized by subsection (a) for a qualified non-medical attendant for a member is round-trip transportation between the home of the attendant and the location at which the member is receiving treatment, including transportation, while accompanying the member, to any other location to which the member is subsequently transferred for further treatment.

"(B) In addition to the transportation authorized by subsection (a), the Secretary concerned may provide a per diem allowance or reimbursement, or a combination thereof, for the actual and necessary expenses of travel as described in subparagraph (A), but at rates not to exceed the rates for travel established under section 404(d) of this title.

"(2) The transportation authorized by subsection (a) includes transportation, while accompanying the member, necessary to obtain treatment for the member at the location to which the member is permanently assigned.

“(3) The transportation authorized by subsection (a) may be provided by any means as follows:

“(A) Transportation in-kind.

“(B) A monetary allowance in place of transportation in-kind.

“(C) Reimbursement for the cost of commercial transportation.

“(4) An allowance payable under this subsection may be paid in advance.

“(5) Reimbursement payable under this subsection for air travel may not exceed the cost of Government-procured commercial round-trip air travel.

“(e) COORDINATION WITH TRANSPORTATION AND ALLOWANCES FOR DESIGNATED INDIVIDUALS.—An individual may not receive travel and transportation allowances under section 411h of this title and this section simultaneously.”

(2) CLERICAL AMENDMENT.—The table of sections at the beginning of chapter 7 of such title is amended by inserting after the item related to section 411h the following new item:

“411h-1. Travel and transportation allowances: transportation of non-medical attendants for members who are seriously wounded, ill, or injured.”

(b) APPLICABILITY.—No reimbursement may be provided under section 411h-1 of title 37, United States Code (as added by subsection (a)), for any costs of travel or transportation incurred before the date of the enactment of this Act.

SEC. 633. TRAVEL AND TRANSPORTATION ALLOWANCES FOR MEMBERS OF THE RESERVE COMPONENTS OF THE ARMED FORCES ON LEAVE FOR SUSPENSION OF TRAINING.

(a) ALLOWANCES AUTHORIZED.—

(1) IN GENERAL.—Chapter 7 of title 37, United States Code, is amended by inserting after section 411j the following new section:

“**§411k. Travel and transportation allowances: travel performed by certain members of the reserve components of the armed forces in connection with leave for suspension of training**

“(a) ALLOWANCE AUTHORIZED.—The Secretary concerned may reimburse or provide transportation to a member of a reserve component of the armed forces on active duty for a period of more than 30 days who is performing duty at a temporary duty station for travel between the member's temporary duty station and the member's permanent duty station in connection with authorized leave pursuant to a suspension of training.

“(b) MINIMUM DISTANCE BETWEEN STATIONS.—A member may be paid for or provided transportation under subsection (a) only as follows:

“(1) In the case of a member who travels between a temporary duty station and permanent duty station by air transportation, if the distance between such stations is not less than 300 miles.

“(2) In the case of a member who travels between a temporary duty station and permanent duty station by ground transportation, if the distance between such stations is more than the normal commuting distance from the permanent duty station (as determined under the regulations prescribed under subsection (e)).

“(c) MINIMUM PERIOD OF SUSPENSION OF TRAINING.—A member may be paid for or provided transportation under subsection (a) only in connection with a suspension of training covered by that subsection that is five days or more in duration.

“(d) LIMITATION ON REIMBURSEMENT.—The amount a member may be paid under subsection (a) for travel may not exceed the amount that would be paid by the government (as determined under the regulations prescribed under subsection (e)) for the least expensive means of travel between the duty stations concerned.

“(e) REGULATIONS.—The Secretary concerned shall prescribe regulations to carry out this section. Regulations prescribed by the Secretary of a military department shall be subject to the approval of the Secretary of Defense.”

(2) CLERICAL AMENDMENT.—The table of sections at the beginning of chapter 7 of such title is amended by inserting after the item relating to section 411j the following new item:

“411k. Travel and transportation allowances: travel performed by certain members of the reserve components of the armed forces in connection with leave for suspension of training.”

(b) EFFECTIVE DATE.—The amendments made by subsection (a) shall take effect on the date of the enactment of this Act, and shall apply with respect to travel that occurs on or after that date.

SEC. 634. REIMBURSEMENT OF TRAVEL EXPENSES OF MEMBERS OF THE ARMED FORCES ON ACTIVE DUTY AND THEIR DEPENDENTS FOR TRAVEL FOR SPECIALTY CARE UNDER EXCEPTIONAL CIRCUMSTANCES.

(a) REIMBURSEMENT AUTHORIZED.—Section 1074i of title 10, United States Code, is amended—

(1) by redesignating subsections (b) and (c) as subsections (c) and (d), respectively; and

(2) by inserting after subsection (a) the following new subsection (b):

“(b) REIMBURSEMENT FOR TRAVEL UNDER EXCEPTIONAL CIRCUMSTANCES.—The Secretary of Defense may provide reimbursement for reasonable travel expenses of travel of members of the armed forces on active duty and their dependents, and accompaniment, to a specialty care provider not otherwise authorized by subsection (a) under such exceptional circumstances as the Secretary considers appropriate for purposes of this section.”

(b) TECHNICAL AMENDMENT.—Subsection (a) of such section is amended by inserting “of Defense” after “the Secretary”.

SEC. 635. TRAVEL AND TRANSPORTATION FOR SURVIVORS OF DECEASED MEMBERS OF THE UNIFORMED SERVICES TO ATTEND MEMORIAL CEREMONIES.

(a) ALLOWANCES AUTHORIZED.—Subsection (a) of section 411f of title 37, United States Code, is amended—

(1) by redesignating paragraph (2) as paragraph (3); and

(2) by inserting after paragraph (1) the following new paragraph (2):

“(2) The Secretary concerned may provide round trip travel and transportation allowances to eligible relatives of a member of the uniformed services who dies while on active duty in order that the eligible relatives may attend a memorial service for the deceased member that occurs at a location other than the location of the burial ceremony for which travel and transportation allowances are provided under paragraph (1). Travel and transportation allowances may be provided under this paragraph for travel of eligible relatives to only one memorial service for the deceased member concerned.”

(b) CONFORMING AMENDMENTS.—Subsection (c) of such section is amended—

(1) by striking “subsection (a)(1)” the first place it appears and inserting “paragraphs (1) and (2) of subsection (a)”;

(2) by striking “subsection (a)(1)” the second place it appears and inserting “paragraph (1) or (2) of subsection (a)”.

Subtitle D—Other Matters

SEC. 651. AUTHORITY TO CONTINUE PROVISION OF INCENTIVES AFTER TERMINATION OF TEMPORARY ARMY AUTHORITY TO PROVIDE ADDITIONAL RECRUITMENT INCENTIVES.

Subsection (i) of section 681 of the National Defense Authorization Act for Fiscal Year 2006

(Public Law 109-163; 119 Stat. 3321) is amended to read as follows:

“(i) TERMINATION OF AUTHORITY.—

“(1) IN GENERAL.—The Secretary may not develop an incentive under this section, or first provide an incentive developed under this section to an individual, after December 31, 2009.

“(2) CONTINUATION OF INCENTIVES.—Nothing in paragraph (1) shall be construed to prohibit or limit the continuing provision to an individual after the date specified in that paragraph of an incentive first provided the individual under this section before that date.”

SEC. 652. REPEAL OF REQUIREMENT OF REDUCTION OF SBP SURVIVOR ANNUITIES BY DEPENDENCY AND INDEMNITY COMPENSATION.

(a) REPEAL.—

(1) IN GENERAL.—Subchapter II of chapter 73 of title 10, United States Code, is amended as follows:

(A) In section 1450, by striking subsection (c).

(B) In section 1451(c)—

(i) by striking paragraph (2); and

(ii) by redesignating paragraphs (3) and (4) as paragraphs (2) and (3), respectively.

(2) CONFORMING AMENDMENTS.—Such subchapter is further amended as follows:

(A) In section 1450—

(i) by striking subsection (e);

(ii) by striking subsection (k); and

(iii) by striking subsection (m).

(B) In section 1451(g)(1), by striking subparagraph (C).

(C) In section 1452—

(i) in subsection (f)(2), by striking “does not apply—” and all that follows and inserting “does not apply in the case of a deduction made through administrative error.”; and

(ii) by striking subsection (g).

(D) In section 1455(c), by striking “, 1450(k)(2).”

(b) PROHIBITION ON RETROACTIVE BENEFITS.—No benefits may be paid to any person for any period before the effective date provided under subsection (f) by reason of the amendments made by subsection (a).

(c) PROHIBITION ON RECOUPMENT OF CERTAIN AMOUNTS PREVIOUSLY REFUNDED TO SBP RECIPIENTS.—A surviving spouse who is or has been in receipt of an annuity under the Survivor Benefit Plan under subchapter II of chapter 73 of title 10, United States Code, that is in effect before the effective date provided under subsection (f) and that is adjusted by reason of the amendments made by subsection (a) and who has received a refund of retired pay under section 1450(e) of title 10, United States Code, shall not be required to repay such refund to the United States.

(d) REPEAL OF AUTHORITY FOR OPTIONAL ANNUITY FOR DEPENDENT CHILDREN.—Section 1448(d) of such title is amended—

(1) in paragraph (1), by striking “Except as provided in paragraph (2)(B), the Secretary concerned” and inserting “The Secretary concerned”; and

(2) in paragraph (2)—

(A) by striking “DEPENDENT CHILDREN.—” and all that follows through “In the case of a member described in paragraph (1),” and inserting “DEPENDENT CHILDREN ANNUITY WHEN NO ELIGIBLE SURVIVING SPOUSE.—In the case of a member described in paragraph (1),”; and

(B) by striking subparagraph (B).

(e) RESTORATION OF ELIGIBILITY FOR PREVIOUSLY ELIGIBLE SPOUSES.—The Secretary of the military department concerned shall restore annuity eligibility to any eligible surviving spouse who, in consultation with the Secretary, previously elected to transfer payment of such annuity to a surviving child or children under the provisions of section 1448(d)(2)(B) of title 10, United States Code, as in effect on the day before the effective date provided under subsection

(f). Such eligibility shall be restored whether or not payment to such child or children subsequently was terminated due to loss of dependent status or death. For the purposes of this subsection, an eligible spouse includes a spouse who was previously eligible for payment of such annuity and is not remarried, or remarried after having attained age 55, or whose second or subsequent marriage has been terminated by death, divorce or annulment.

(f) **EFFECTIVE DATE.**—The sections and the amendments made by this section shall take effect on the later of—

- (1) the first day of the first month that begins after the date of the enactment of this Act; or
- (2) the first day of the fiscal year that begins in the calendar year in which this Act is enacted.

SEC. 653. SENSE OF CONGRESS ON AIRFARES FOR MEMBERS OF THE ARMED FORCES.

(a) **FINDINGS.**—Congress makes the following findings:

(1) The Armed Forces is comprised of over 1,450,000 active-duty members from every State and territory of the United States who are assigned to thousands of installations, stations, and ships worldwide and who oftentimes must travel long distances by air at their own expense to enjoy the benefits of leave and liberty.

(2) The United States is indebted to the members of the all volunteer Armed Forces and their families who protect our Nation, often experiencing long separations due to the demands of military service and in life threatening circumstances.

(3) Military service often precludes long range planning for leave and liberty to provide opportunities for reunions and recreation with loved ones and requires changes in planning due to military necessity which results in last minute changes in planning.

(b) **SENSE OF CONGRESS.**—It is the sense of Congress that—

(1) all United States commercial carriers should seek to lend their support with flexible, generous policies applicable to members of the Armed Forces who are traveling on leave or liberty at their own expense; and

(2) each United States air carrier, for all members of the Armed Forces who have been granted leave or liberty and who are traveling by air at their own expense, should—

(A) seek to provide reduced air fares that are comparable to the lowest airfare for ticketed flights and that eliminate to the maximum extent possible advance purchase requirements;

(B) seek to eliminate change fees or charges and any penalties for military personnel;

(C) seek to eliminate or reduce baggage and excess weight fees;

(D) offer flexible terms that allow members of the Armed Forces on active duty to purchase, modify, or cancel tickets without time restrictions, and to waive fees (including baggage fees), ancillary costs, or penalties; and

(E) seek to take proactive measures to ensure that all airline employees, particularly those who issue tickets and respond to members of the Armed Forces and their family members are trained in the policies of the airline aimed at benefitting members of the Armed Forces who are on leave.

SEC. 654. CONTINUATION ON ACTIVE DUTY OF RESERVE COMPONENT MEMBERS DURING PHYSICAL DISABILITY EVALUATION FOLLOWING MOBILIZATION AND DEPLOYMENT.

Section 1218 of title 10, United States Code, is amended by adding at the end the following new subsection:

“(d)(1) The Secretary of a military department shall ensure that each member of a reserve component under the jurisdiction of the Secretary who is determined, after a mobilization and deployment to an area in which imminent danger

pay is authorized under section 310 of title 37, to require evaluation for a physical or mental disability which could result in separation or retirement for disability under this chapter or placement on the temporary disability retired list or inactive status list under this chapter is retained on active duty during the disability evaluation process until such time as such member is—

“(A) cleared by appropriate authorities for continuation on active duty; or

“(B) separated, retired, or placed on the temporary disability retired list or inactive status list.

“(2)(A) A member described in paragraph (1) may request termination of active duty under such paragraph at any time during the demobilization or disability evaluation process of such member.

“(B) Upon a request under subparagraph (A), a member described in paragraph (1) shall only be released from active duty after the member receives counseling about the consequences of termination of active duty.

“(C) Each release from active duty under subparagraph (B) shall be thoroughly documented.

“(3) The requirements in paragraph (1) shall expire on the date that is five years after the date of the enactment of the National Defense Authorization Act for Fiscal Year 2010.”.

SEC. 655. USE OF LOCAL RESIDENCES FOR COMMUNITY-BASED CARE FOR CERTAIN RESERVE COMPONENT MEMBERS.

Section 1222 of title 10, United States Code, is amended by adding at the end the following new subsection:

“(d) **USE OF LOCAL RESIDENCES FOR CERTAIN RESERVE COMPONENT MEMBERS.**—(1)(A) A member of a reserve component described by subparagraph (B) may be assigned to the community-based warrior transition unit located nearest to the member's permanent place of residence if residing at that location is—

“(i) medically feasible, as determined by a licensed military health care provider; and

“(ii) consistent with—

“(I) the needs of the armed forces; and

“(II) the optimal course of medical treatment of the member.

“(B) A member of a reserve component described by this subparagraph is any member remaining on active duty under section 1218(d) of this title during the period the member is on active duty under such subsection.

“(2) Nothing in this subsection shall be construed as terminating, altering, or otherwise affecting the authority of the commander of a member described in paragraph (1)(B) to order the member to perform duties consistent with the member's fitness for duty.

“(3) The Secretary concerned shall pay any reasonable expenses of transportation, lodging, and meals incurred by a member residing at the member's permanent place of residence under this subsection in connection with travel from the member's permanent place of residence to a medical facility during the period in which the member is covered by this subsection.”.

SEC. 656. ASSISTANCE WITH TRANSITIONAL BENEFITS.

(a) **IN GENERAL.**—Chapter 61 of title 10, United States Code, is amended by inserting after section 1218 the following new section:

“§1218a. **Discharge or release from active duty: transition assistance**

“The Secretary of a military department shall provide to a member of a reserve component under the jurisdiction of the Secretary who is injured while on active duty in the armed forces the following before such member is demobilized or separated from the armed forces:

“(1) Information on the availability of care and administrative processing through community based warrior transition units.

“(2) The location of the community based warrior transition unit located nearest to the member's permanent place of residence.

“(3) An opportunity to consult with a member of the applicable judge advocate general's corps, or other qualified legal assistance attorney, regarding the member's eligibility for compensation, disability, or other transitional benefits.”.

(b) **CLERICAL AMENDMENT.**—The table of sections at the beginning of chapter 61 of such title is amended by inserting after the item relating to section 1218 the following new item:

“1218a. Discharge or release from active duty: transition assistance.”.

SEC. 657. REPORT ON RECRUITMENT AND RETENTION OF MEMBERS OF THE AIR FORCE IN NUCLEAR CAREER FIELDS.

(a) **REPORT REQUIRED.**—Not later than 180 days after the date of the enactment of this Act, the Secretary of the Air Force shall submit to the congressional defense committees a report on the efforts of the Air Force to attract and retain qualified individuals for service as members of the Air Force involved in the operation, maintenance, handling, and security of nuclear weapons.

(b) **ELEMENTS.**—The report required by subsection (a) shall include the following:

(1) A description of current reenlistment rates, set forth by Air Force Specialty Code, of members of the Air Force serving in positions involving the operation, maintenance, handling, and security of nuclear weapons.

(2) A description of the current personnel fill rate for Air Force units involved in the operation, maintenance, handling, and security of nuclear weapons.

(3) A description of the steps the Air Force has taken, including the use of retention bonuses or assignment incentive pay, to improve recruiting and retention of officers and enlisted personnel by the Air Force for the positions described in paragraph (1).

(4) An assessment of the feasibility, advisability, utility, and cost effectiveness of establishing additional bonuses or incentive pay as a way to enhance the recruitment and retention by the Air Force of skilled personnel in the positions described in paragraph (1).

(5) An assessment of whether assignment incentive pay should be provided for members of the Air Force covered by the Personnel Reliability Program.

(6) An assessment of the long-term community management plan for recruitment and retention by the Air Force of skilled personnel in the positions described in paragraph (1).

(7) Such other matters as the Secretary considers appropriate.

SEC. 658. SENSE OF CONGRESS ON ESTABLISHMENT OF FLEXIBLE SPENDING ARRANGEMENTS FOR THE UNIFORMED SERVICES.

(a) **IN GENERAL.**—It is the sense of Congress that, the Secretary of Defense, with respect to members of the Army, Navy, Marine Corps, and Air Force, the Secretary of Homeland Security, with respect to members of the Coast Guard, the Secretary of Health and Human Services, with respect to commissioned officers of the Public Health Service, and the Secretary of Commerce, with respect to commissioned officers of the National Oceanic and Atmospheric Administration, should establish procedures to implement flexible spending arrangements with respect to basic pay and compensation, for health care and dependent care on a pre-tax basis in accordance with regulations prescribed under sections 106(c) and 125 of the Internal Revenue Code of 1986.

(b) **CONSIDERATIONS.**—It is the sense of Congress that, in establishing the procedures described by subsection (a), the Secretary of Defense, the Secretary of Homeland Security, the Secretary of Health and Human Services, and

the Secretary of Commerce should consider life events of members of the uniformed services that are unique to them as members of the uniformed services, including changes relating to permanent changes of duty station and deployments to overseas contingency operations.

SEC. 659. TREATMENT AS ACTIVE SERVICE FOR RETIRED PAY PURPOSES OF SERVICE AS MEMBER OF ALASKA TERRITORIAL GUARD DURING WORLD WAR II.

(a) *IN GENERAL.*—Service as a member of the Alaska Territorial Guard during World War II of any individual who was honorably discharged therefrom under section 8147 of the Department of Defense Appropriations Act, 2001 (Public Law 106-259; 114 Stat. 705) shall be treated as active service for purposes of the computation under chapter 61, 71, 371, 571, 871, or 1223 of title 10, United States Code, as applicable, of the retired pay to which such individual may be entitled under title 10, United States Code.

(b) *APPLICABILITY.*—Subsection (a) shall apply with respect to amounts of retired pay payable under title 10, United States Code, for months beginning on or after the date of the enactment of this Act. No retired pay shall be paid to any individual by reason of subsection (a) for any period before that date.

(c) *WORLD WAR II DEFINED.*—In this section, the term “World War II” has the meaning given that term in section 101(8) of title 38, United States Code.

SEC. 660. INCLUSION OF SERVICE AFTER SEPTEMBER 11, 2001, IN DETERMINATION OF REDUCED ELIGIBILITY AGE FOR RECEIPT OF NON-REGULAR SERVICE RETIRED PAY.

Section 12731(f)(2)(A) of title 10, United States Code, is amended—

(1) by striking “the date of the enactment of the National Defense Authorization Act for Fiscal Year 2008” and inserting “September 11, 2001”; and

(2) by striking “in any fiscal year after such date” and inserting “in any fiscal year after fiscal year 2001”.

TITLE VII—HEALTH CARE PROVISIONS

Subtitle A—TRICARE Program

SEC. 701. TRICARE STANDARD COVERAGE FOR CERTAIN MEMBERS OF THE RETIRED RESERVE, AND FAMILY MEMBERS, WHO ARE QUALIFIED FOR A NON-REGULAR RETIREMENT BUT ARE NOT YET AGE 60.

(a) *IN GENERAL.*—Chapter 55 of title 10, United States Code, is amended by inserting after section 1076d the following new section:

“§ 1076e. TRICARE program: TRICARE Standard coverage for certain members of the Retired Reserve who are qualified for a non-regular retirement but are not yet age 60

“(a) *ELIGIBILITY.*—(1) Except as provided in paragraph (2), a member of the Retired Reserve of a reserve component of the Armed Forces who is qualified for a non-regular retirement at age 60 under chapter 1223, but is not age 60, is eligible for health benefits under TRICARE Standard as provided in this section.

“(2) Paragraph (1) does not apply to a member who is enrolled, or is eligible to enroll, in a health benefits plan under chapter 89 of title 5.

“(b) *TERMINATION OF ELIGIBILITY UPON OBTAINING OTHER TRICARE COVERAGE.*—Eligibility for TRICARE Standard coverage of a member under this section shall terminate upon the member becoming eligible for TRICARE coverage at age 60 under section 1086 of this title.

“(c) *FAMILY MEMBERS.*—While a member of a reserve component is covered by TRICARE Standard under the section, the members of the immediate family of such member are eligible for TRICARE Standard coverage as dependents of

the member. If a member of a reserve component dies while in a period of coverage under this section, the eligibility of the members of the immediate family of such member for TRICARE Standard coverage under this section shall continue for the same period of time that would be provided under section 1086 of this title if the member had been eligible at the time of death for TRICARE Standard coverage under such section (instead of under this section).

“(d) *PREMIUMS.*—(1) A member of a reserve component covered by TRICARE Standard under this section shall pay a premium for that coverage.

“(2) The Secretary of Defense shall prescribe for the purposes of this section one premium for TRICARE Standard coverage of members without dependents and one premium for TRICARE Standard coverage of members with dependents referred to in subsection (f)(1). The premium prescribed for a coverage shall apply uniformly to all covered members of the reserve components covered under this section.

“(3)(A) The monthly amount of the premium in effect for a month for TRICARE Standard coverage under this section shall be the amount equal to the cost of coverage that the Secretary determines on an appropriate actuarial basis.

“(B) The appropriate actuarial basis for purposes of subparagraph (A) shall be determined in the manner specified in section 1076d(d)(3)(B) of this title with respect to the cost of coverage applicable under subparagraph (A).

“(4) The Secretary shall prescribe the requirements and procedures applicable to the payment of premiums under this subsection.

“(5) Amounts collected as premiums under this subsection shall be credited to the appropriation available for the Defense Health Program Account under section 1100 of this title, shall be merged with sums in such Account that are available for the fiscal year in which collected, and shall be available under subsection (b) of such section for such fiscal year.

“(e) *REGULATIONS.*—The Secretary of Defense, in consultation with the other administering Secretaries, shall prescribe regulations for the administration of this section.

“(f) *DEFINITIONS.*—In this section:

“(1) The term ‘immediate family’, with respect to a member of a reserve component, means all of the member’s dependents described in subparagraphs (A), (D), and (I) of section 1072(2) of this title.

“(2) The term ‘TRICARE Standard’ means—

“(A) medical care to which a dependent described in section 1076(a)(2) of this title is entitled; and

“(B) health benefits contracted for under the authority of section 1079(a) of this title and subject to the same rates and conditions as apply to persons covered under that section.”.

(b) *CLERICAL AMENDMENT.*—The table of sections at the beginning of chapter 55 of such title is amended by inserting after the item relating to section 1076d the following new item:

“1076e. TRICARE program: TRICARE Standard coverage for certain members of the Retired Reserve who are qualified for a non-regular retirement but are not yet age 60.”.

(c) *EFFECTIVE DATE.*—Section 1076e of title 10, United States Code, as inserted by subsection (a), shall apply to coverage for months beginning on or after October 1, 2009, or such earlier date as the Secretary of Defense may specify.

SEC. 702. EXPANSION OF ELIGIBILITY OF SURVIVORS UNDER THE TRICARE DENTAL PROGRAM.

Section 1076a(k)(3) of title 10, United States Code, is amended by inserting before the period at the end the following: “, except that, in the case of a dependent described by subparagraph (D) or (I) of section 1072(2) of this title, the pe-

riod of continuing eligibility shall be the longer of the following periods beginning on such date:

“(A) Three years.

“(B) The period ending on the date on which the dependent attains 21 years of age.

“(C) In the case of a dependent who, at 21 years of age, is enrolled in a full-time course of study at an institution of higher learning approved by the administering Secretary and is, or was, at the time of the member’s death, in fact dependent on the member for over one-half of the dependent’s support, the period ending on the earlier of the following dates:

“(i) The date on which the dependent ceases to pursue such a course of study, as determined by the administering Secretary.

“(ii) The date on which the dependent attains 23 years of age”.

SEC. 703. CONSTRUCTIVE ELIGIBILITY FOR TRICARE BENEFITS OF CERTAIN PERSONS OTHERWISE INELIGIBLE UNDER RETROACTIVE DETERMINATION OF ENTITLEMENT TO MEDICARE PART A HOSPITAL INSURANCE BENEFITS.

Section 1086(d) of title 10, United States Code, is amended—

(1) by redesignating paragraph (4) as paragraph (5); and

(2) by inserting after paragraph (3) the following new paragraph (4):

“(4)(A) If a person referred to in subsection (c) and described by paragraph (2)(B) is subject to a retroactive determination by the Social Security Administration of entitlement to hospital insurance benefits described in paragraph (1), the person shall, during the period described in subparagraph (B), be deemed for purposes of health benefits under this section—

“(i) not to have been covered by paragraph (1); and

“(ii) not to have been subject to the requirements of section 1079(j)(1) of this title, whether through the operation of such section or subsection (g) of this section.

“(B) The period described in this subparagraph with respect to a person covered by subparagraph (A) is the period that—

“(i) begins on the date that eligibility of the person for hospital insurance benefits referred to in paragraph (1) is effective under the retroactive determination of eligibility with respect to the person as described in subparagraph (A); and

“(ii) ends on the date of the issuance of such retroactive determination of eligibility by the Social Security Administration.”.

SEC. 704. REFORM AND IMPROVEMENT OF THE TRICARE PROGRAM.

(a) *IN GENERAL.*—Commencing not later than 30 days after the date of the enactment of this Act, the Secretary of Defense shall, in consultation with the other administering Secretaries, undertake actions to reform and improve the TRICARE program.

(b) *ELEMENTS.*—In undertaking actions to reform and improve the TRICARE program under subsection (a), the Secretary shall consider actions as follows:

(1) Actions to guarantee the availability of care without delay for eligible beneficiaries.

(2) Actions to expand and enhance sharing of health care resources among Federal health care programs, including designated providers (as that term is defined in section 721(5) of the National Defense Authorization Act for Fiscal Year 1997 (10 U.S.C. 1073 note)).

(3) Actions utilizing medical technology to speed and simplify referrals for specialty care.

(4) Actions, including a comprehensive plan, for the enhanced availability of prevention and wellness care.

(5) Actions to expand and enhance options for mental health care.

(6) Actions utilizing technology to improve direct communication with beneficiaries regarding health and preventive care.

(7) Actions regarding additional financing options for health care provided by civilian providers.

(8) Actions to improve regional or national staffing capabilities in order to enhance support provided to military medical treatment facilities facing staff shortages.

(9) Actions to reduce administrative costs.

(10) Actions to control the cost of health care and pharmaceuticals.

(11) Actions to ensure consistency throughout the TRICARE program, including actions to hold commanders of military medical treatment facilities and civilian providers accountable for compliance with access standards.

(12) Actions to create performance metrics by which to measure improvement in the TRICARE program.

(13) Such other actions as the Secretary, in consultation with the other administering Secretaries, considers appropriate.

(c) **CONSULTATION.**—In considering actions to be undertaken under this section, and in undertaking such actions, the Secretary shall consult with a broad range of national health care and military advocacy organizations.

(d) **REPORTS.**—

(1) **IN GENERAL.**—The Secretary shall, on a periodic basis, submit to the congressional defense committees a report on the progress being made in the reform and improvement of the TRICARE program under this section.

(2) **ELEMENTS.**—Each report under this subsection shall include the following:

(A) A description and assessment of the progress made as of the date of such report in the reform and improvement of the TRICARE program.

(B) Such recommendations for administrative or legislative action as the Secretary considers appropriate to expedite and enhance the reform and improvement of the TRICARE program.

(e) **DEFINITIONS.**—In this section:

(1) The term “administering Secretaries” has the meaning given that term in section 1072(3) of title 10, United States Code.

(2) The term “TRICARE program” has the meaning given that term in section 1072(7) of title 10, United States Code.

SEC. 705. COMPTROLLER GENERAL OF THE UNITED STATES REPORT ON IMPLEMENTATION OF REQUIREMENTS ON THE RELATIONSHIP BETWEEN THE TRICARE PROGRAM AND EMPLOYER-SPONSORED GROUP HEALTH PLANS.

(a) **REPORT REQUIRED.**—Not later than March 31, 2010, the Comptroller General of the United States shall submit to the Committees on Armed Services of the Senate and the House of Representatives a report on the implementation of the requirements of section 1097c of title 10, United States Code, relating to the relationship between the TRICARE program and employer-sponsored group health plans.

(b) **ELEMENTS.**—The report required by subsection (a) shall include the following:

(1) A description of the extent to which the Department of Defense has established measures to assess the effectiveness of section 1097c of title 10, United States Code, in reducing health care costs to the Department for military retirees and their families, and an assessment of the effectiveness of any measures so established.

(2) An assessment of the extent to which the implementation of such section 1097c has resulted in the migration of military retirees from coverage under the TRICARE Standard option of the TRICARE program to coverage under the TRICARE Prime option of the TRICARE program.

(3) A description of the exceptions adopted under subsection (a)(2) of such section 1097c to the requirements under such section 1097c, and an assessment of the effect of the exercise of any exceptions adopted on the administration of such section 1097c.

(4) An assessment of the extent to which the Department collects and assembles data on the treatment of employees eligible for participation in the TRICARE program in comparison with similar employees who are not eligible for participation in that program.

(5) A description of the outreach conducted by the Department to inform individuals eligible for participation in the TRICARE program and employers of their respective rights and responsibilities under such section 1097c, and an assessment of the effectiveness of any outreach so conducted.

(6) Such other matters with respect to the administration and effectiveness of the authorities in such section 1097c as the Comptroller General considers appropriate.

SEC. 706. SENSE OF THE SENATE ON HEALTH CARE BENEFITS AND COSTS FOR MEMBERS OF THE ARMED FORCES AND THEIR FAMILIES.

(a) **FINDINGS.**—The Senate makes the following findings:

(1) Career members of the Armed Forces and their families endure unique and extraordinary demands, and make extraordinary sacrifices, over the course of 20-year to 30-year careers in protecting freedom for all Americans.

(2) The nature and extent of these demands and sacrifices are never so evident as in wartime, not only during the current combat operations, but also during the wars of the last 60 years when current retired members of the Armed Forces were on continuous call to go in harm's way when and as needed.

(3) A primary benefit of enduring the extraordinary sacrifices inherent in a military career is a range of retirement benefits, including lifetime health benefits, that a grateful Nation provides for those who choose to subordinate their personal life to the national interest for so many years.

(4) Currently serving and retired members of the uniformed services and their families and survivors deserve benefits equal to their commitment and service to our Nation.

(5) Many employers are curtailing health benefits and shifting costs to their employees, which may result in retired members of the Armed Forces returning to the Department of Defense, and its TRICARE program, for health care benefits during retirement, and contribute to health care cost growth.

(6) Defense health costs also expand as a result of service-unique military readiness requirements, wartime requirements, and other necessary requirements that represent the “cost of business” for the Department of Defense.

(7) While the Department of Defense has made some efforts to contain increases in the cost of the TRICARE program, too many of those efforts have been devoted to shifting a larger share of the costs of benefits under that program to retired members of the Armed Forces who have earned health care benefits in return for a career of military service.

(8) In some cases health care providers refuse to accept TRICARE patients because that program pays less than other public and private payors and imposes unique administrative requirements.

(9) The Department of Defense records deposits to the Department of Defense Military Retiree Health Care Fund as discretionary costs to the Department in spite of legislation enacted in 2006 that requires such deposits to be made directly from the Treasury of the United States.

(10) As a result, annual payments for the future costs of servicemember health care continue to compete with other readiness needs of the Armed Forces.

(b) **SENSE OF SENATE.**—It is the sense of the Senate that—

(1) the Department of Defense and the Nation have an obligation to provide health care bene-

fits to retired members of the Armed Forces that equals the quality of their selfless service to our country;

(2) past proposals by the Department of Defense to impose substantial fee increases on military beneficiaries have failed to acknowledge properly the findings addressed in subsection (a); and

(3) the Department of Defense has many additional options to constrain the growth of health care spending in ways that do not disadvantage retired members of the Armed Forces who participate or seek to participate in the TRICARE program, and should pursue any and all such options rather than seeking large increases for enrollment fees, deductibles, and copayments for such retirees, and their families or survivors, who do participate in that program.

SEC. 707. NOTIFICATION OF CERTAIN INDIVIDUALS REGARDING OPTIONS FOR ENROLLMENT UNDER MEDICARE PART B.

Chapter 55 of title 10, United States Code, is amended by adding at the end the following new section:

“SEC. 1111. NOTIFICATION OF CERTAIN INDIVIDUALS REGARDING OPTIONS FOR ENROLLMENT UNDER MEDICARE PART B.

“(a) **IN GENERAL.**—The Secretary of Defense shall establish procedures for identifying individuals described in subsection (b). The Secretary of Defense shall immediately notify individuals identified under the preceding sentence that they are no longer eligible for health care benefits under the TRICARE program under chapter 55 of title 10, United States Code, and of any options available for enrollment of the individual under part B of title XVIII of the Social Security Act (42 U.S.C. 1395j et seq.). The Secretary of Defense shall consult with the Secretary of Health and Human Services to accurately identify and notify individuals described in subsection (b) under this subsection.

“(b) **INDIVIDUALS DESCRIBED.**—An individual described in this subsection is an individual who is a covered beneficiary (as defined in section 1072(5) of title 10, United States Code) at the time the individual is entitled to part A of title XVIII of the Social Security Act under section 226(b) or section 226A of such Act (42 U.S.C. 426(b) and 426–1) and who is eligible to enroll but who has elected not to enroll (or to be deemed enrolled) during the individual's initial enrollment period under part B of such title.”.

Subtitle B—Other Health Care Benefits

SEC. 711. MENTAL HEALTH ASSESSMENTS FOR MEMBERS OF THE ARMED FORCES DEPLOYED IN CONNECTION WITH A CONTINGENCY OPERATION.

(a) **MENTAL HEALTH ASSESSMENTS.**—

(1) **IN GENERAL.**—Not later than 180 days after the date of the enactment of this Act, the Secretary of Defense shall issue guidance for the provision of a person-to-person mental health assessment for each member of the Armed Forces who is deployed in connection with a contingency operation as follows:

(A) At a time during the period beginning 60 days before the date of deployment in connection with the contingency operation.

(B) At a time during the period beginning 90 days after the date of redeployment from the contingency operation and ending 180 days after the date of redeployment from the contingency operation.

(C) Subject to subsection (d), not later than each of 6 months, 12 months, and 24 months after return from deployment.

(2) **EXCLUSION OF CERTAIN MEMBERS.**—A mental health assessment is not required for a member of the Armed Forces under subparagraphs (B) and (C) of paragraph (1) if the Secretary determines that the member was not subjected or

exposed to operational risk factors during deployment in the contingency operation concerned.

(b) **PURPOSE.**—The purpose of the mental health assessments provided pursuant to this section shall be to identify Post Traumatic Stress Disorder (PTSD), suicidal tendencies, and other behavioral health issues identified among members of the Armed Forces described in subsection (a) in order to determine which such members are in need of additional care and treatment for such health issues.

(c) **ELEMENTS.**—

(1) **IN GENERAL.**—The mental health assessments provided pursuant to this section shall—

(A) be performed by personnel trained and certified to perform such assessments and may be performed by licensed mental health professionals if such professionals are available and the use of such professionals for the assessments would not impair the capacity of such professionals to perform higher priority tasks;

(B) include a person-to-person dialogue between members of the Armed Forces described in subsection (a) and the professionals or personnel described by paragraph (1), as applicable, on such matters as the Secretary shall specify in order that the assessments achieve the purpose specified in subsection (b) for such assessments;

(C) be conducted in a private setting to foster trust and openness in discussing sensitive health concerns; and

(D) be provided in a consistent manner across the military departments.

(2) **TREATMENT OF CURRENT ASSESSMENTS.**—The Secretary may treat periodic health assessments and other person-to-person assessments that are provided to members of the Armed Forces as of the date of the enactment of this Act as meeting the requirements for mental health assessments required under this section if the Secretary determines that such assessments and person-to-person assessments meet the requirements for mental health assessments established by this section.

(d) **CESSATION OF ASSESSMENTS.**—No mental health assessment is required to be provided to an individual under subsection (a)(1)(C) after the individual's discharge or release from the Armed Forces.

(e) **SHARING OF INFORMATION.**—

(1) **IN GENERAL.**—The Secretary of Defense shall share with the Secretary of Veterans Affairs such information on members of the Armed Forces that is derived from confidential mental health assessments, including mental health assessments provided pursuant to this section and health assessments and other person-to-person assessments provided before the date of the enactment of this Act, as the Secretary of Defense and the Secretary of Veterans Affairs jointly consider appropriate to ensure continuity of mental health care and treatment of members of the Armed Forces during their transition from health care and treatment provided by the Department of Defense to health care and treatment provided by the Department of Veterans Affairs.

(2) **PROTOCOLS.**—Any sharing of information under paragraph (1) shall occur pursuant to a protocol jointly established by the Secretary of Defense and the Secretary of Veterans Affairs for purposes of this subsection. Any such protocol shall be consistent with the following:

(A) Applicable provisions of the Wounded Warrior Act (title XVI of Public Law 110–181; 10 U.S.C. 1071 note), including in particular, section 1614 of that Act (122 Stat. 443; 10 U.S.C. 1071 note).

(B) Section 1720F of title 38, United States Code.

(f) **CONTINGENCY OPERATION DEFINED.**—In this section, the term “contingency operation”

has the meaning given that term in section 101(a)(13) of title 10, United States Code.

(g) **REPORTS.**—

(1) **REPORT ON GUIDANCE.**—Upon the issuance of the guidance required by subsection (a), the Secretary of Defense shall submit to Congress a report describing the guidance.

(2) **REPORTS ON IMPLEMENTATION OF GUIDANCE.**—

(A) **INITIAL REPORT.**—Not later than 270 days after the date of the issuance of the guidance, the Secretary shall submit to Congress an initial report on the implementation of the guidance by the military departments.

(B) **SUBSEQUENT REPORT.**—Not later than two years after the date of the issuance of the guidance, the Secretary shall submit to Congress a report on the implementation of the guidance by the military departments. The report shall include an evidence based assessment of the effectiveness of the mental health assessments provided pursuant to the guidance in achieving the purpose specified in subsection (b) for such assessments.

SEC. 712. ENHANCEMENT OF TRANSITIONAL DENTAL CARE FOR MEMBERS OF THE RESERVE COMPONENTS ON ACTIVE DUTY FOR MORE THAN 30 DAYS IN SUPPORT OF A CONTINGENCY OPERATION.

Section 1145(a) of title 10, United States Code, is amended—

(1) in paragraph (1)—

(A) in the matter preceding subparagraph (A), by striking “paragraph (3)” and inserting “paragraph (4)”; and

(B) in subparagraph (A), by inserting “except as provided in paragraph (3),” before “medical and dental care”;

(2) by redesignating paragraphs (3), (4), (5), and (6) as paragraphs (4), (5), (6), and (7), respectively;

(3) by inserting after paragraph (2) the following new paragraph (3):

“(3) In the case of a member described in paragraph (2)(B), the dental care to which the member is entitled under this subsection shall be the dental care to which a member of the uniformed services on active duty for more than 30 days is entitled under section 1074 of this title.”; and

(4) in subparagraph (A) of paragraph (6), as redesignated by paragraph (2) of this section, by striking “paragraph (4)” and inserting “paragraph (5)”.

SEC. 713. REDUCTION OF MINIMUM DISTANCE OF TRAVEL FOR REIMBURSEMENT OF COVERED BENEFICIARIES OF THE MILITARY HEALTH CARE SYSTEM FOR TRAVEL FOR SPECIALTY HEALTH CARE.

(a) **REDUCTION.**—Section 1074i(a) of title 10, United States Code, is amended by striking “100 miles” and inserting “50 miles”.

(b) **EFFECTIVE DATE.**—The amendment made by subsection (a) shall take effect on the date that is 90 days after the date of the enactment of this Act, and shall apply with respect to referrals for specialty health care made on or after such effective date.

(c) **OFFSET.**—The amount authorized to be appropriated by section 301(a)(5) for operation and maintenance for Defense-wide activities is hereby decreased by \$14,000,000, with the amount of the decrease to be derived from unobligated balances.

SEC. 714. REPORT ON POST-DEPLOYMENT HEALTH ASSESSMENTS OF GUARD AND RESERVE MEMBERS.

(a) **REPORT REQUIRED.**—Not later than March 1, 2010, the Secretary of Defense shall submit to the congressional defense committees a report on post-deployment health assessments of Guard and Reserve members.

(b) **ELEMENTS.**—The report required under subsection (a) shall include the following:

(1) An assessment of the feasibility of administering a Post-Deployment Health Assessment (PDHA) to each member of a reserve component of the Armed Forces returning to the member's home station from deployment in connection with a contingency operation at such home station or in the county of residence of the member within the following timeframes:

(A) In the case of a member of the Individual Ready Reserve, an assessment administered by not later than the member's release from active duty following such deployment or 10 days after the member's return to such station or county, whichever occurs earlier.

(B) In the case of any other member of a reserve component of the Armed Forces returning from deployment, by not later than the member's release from active duty following such deployment.

(2) An assessment of the feasibility of requiring that Post-Deployment Health Assessments described under paragraph (1) be performed by a practitioner trained and certified as qualified to participate in the performance of Post-Deployment Health Assessments or Post-Deployment Health Reassessments.

(3) A description of—

(A) the availability of personnel described under paragraph (2) to perform assessments described under this subsection at the home stations or counties of residence of members of the reserve components of the Armed Forces; and

(B) if such personnel are not available at such locations, the additional resources necessary to ensure such availability within one year after the date of the enactment of this Act.

Subtitle C—Health Care Administration

SEC. 721. COMPREHENSIVE POLICY ON PAIN MANAGEMENT BY THE MILITARY HEALTH CARE SYSTEM.

(a) **COMPREHENSIVE POLICY REQUIRED.**—Not later than October 1, 2010, the Secretary of Defense shall develop and implement a comprehensive policy on pain management by the military health care system.

(b) **SCOPE OF POLICY.**—The policy required by subsection (a) shall cover each of the following:

(1) The management of acute and chronic pain.

(2) The standard of care for pain management to be used throughout the Department.

(3) The consistent application of pain assessments throughout the Department.

(4) The assurance of prompt and appropriate pain care treatment and management by the Department when medically necessary.

(5) Programs of research related to acute and chronic pain, including pain attributable to central and peripheral nervous system damage characteristic of injuries incurred in modern warfare, brain injuries, and chronic migraine headache.

(6) Programs of pain care education and training for health care personnel of the Department.

(7) Programs of patient education for members suffering from acute or chronic pain and their families.

(c) **UPDATES.**—The Secretary shall revise the policy required by subsection (a) on a periodic basis in accordance with experience and evolving best practice guidelines.

(d) **ANNUAL REPORT.**—

(1) **IN GENERAL.**—Not later than 180 days after the date of the commencement of the implementation of the policy required by subsection (a), and on October 1 each year thereafter through 2018, the Secretary shall submit to the Committee on Armed Services of the Senate and the Committee on Armed Services of the House of Representatives a report on the policy.

(2) **ELEMENTS.**—Each report required by paragraph (1) shall include the following:

(A) A description of the policy implemented under subsection (a), and any revisions to such policy under subsection (c).

(B) A description of the performance measures used to determine the effectiveness of the policy in improving pain care for beneficiaries enrolled in the military health care system.

(C) An assessment of the adequacy of Department pain management services based on a current survey of patients managed in Department clinics.

(D) An assessment of the research projects of the Department relevant to the treatment of the types of acute and chronic pain suffered by members of the Armed Forces and their families.

(E) An assessment of the training provided to Department health care personnel with respect to the diagnosis, treatment, and management of acute and chronic pain.

(F) An assessment of the pain care education programs of the Department.

(G) An assessment of the dissemination of information on pain management to beneficiaries enrolled in the military health care system.

SEC. 722. PLAN TO INCREASE THE BEHAVIORAL HEALTH CAPABILITIES OF THE DEPARTMENT OF DEFENSE.

(a) **PLAN REQUIRED.**—

(1) **IN GENERAL.**—The Secretary of Defense shall develop and implement a plan to significantly increase the number of military and civilian behavioral health personnel of the Department of Defense by September 30, 2013.

(2) **ELEMENTS.**—The plan required by paragraph (1) may include the following:

(A) The allocation of scholarships and financial assistance under the Health Professions Scholarship and Financial Assistance Program under subchapter I of chapter 105 of title 10, United States Code, to students pursuing advanced degrees in clinical psychology and other behavioral health professions.

(B) The offering of accession and retention bonuses for psychologists as authorized by section 620 of the Duncan Hunter National Defense Authorization Act for Fiscal Year 2009 (Public Law 110-417; 122 Stat. 4489).

(C) An expansion of the capacity for training doctoral-level clinical psychologists at the Uniformed Services University of the Health Sciences.

(D) An expansion of the capacity of the Department of Defense for training masters-level clinical psychologists and social workers with expertise in deployment-related mental health disorders, such as post traumatic stress disorder.

(E) The detail of commissioned officers of the Armed Forces to accredited schools of psychology for training leading to a doctoral degree in clinical psychology or social work.

(F) The reassignment of military behavioral health providers from administrative positions to clinical positions in support of military units.

(G) The offering of civilian hiring incentives and bonuses and the utilization of direct hiring authority to increase the number of behavioral health personnel of the Department of Defense.

(H) Such other mechanisms to increase the number of behavioral health personnel of the Department of Defense as the Secretary considers appropriate.

(3) **REPORT.**—Not later than January 31, 2010, the Secretary shall submit to the congressional defense committees a report on the plan required by paragraph (1). The report shall include a comprehensive description of the plan and the actions the Secretary proposes to undertake in the implementation of the plan.

(b) **REPORT ON ADDITIONAL OFFICER OR ENLISTED MILITARY SPECIALTIES FOR BEHAVIORAL HEALTH COUNSELORS.**—

(1) **REPORT.**—Not later than 120 days after the date of the enactment of this Act, the Secretary shall submit to the congressional defense committees a report setting forth the assessment of the Secretary of the feasibility and advisability of establishing one or more military specialties

for officers or enlisted members of the Armed Forces as counselors with behavioral health expertise in order to better meet the mental health care needs of members of the Armed Forces and their families.

(2) **ELEMENTS.**—The report required by paragraph (1) shall set forth the following:

(A) A recommendation as to the feasibility and advisability of establishing one or more military specialties for officers or enlisted members of the Armed Forces as counselors with behavioral health expertise.

(B) For each military specialty recommended to be established under subparagraph (A)—

(i) a description of the qualifications required for such specialty, which qualifications shall reflect lessons learned from best practices in academia and the civilian health care industry regarding positions analogous to such specialty; and

(ii) a description of the incentives or other mechanisms, if any, that would be advisable to facilitate recruitment and retention of individuals to and in such specialty.

SEC. 723. DEPARTMENT OF DEFENSE STUDY ON MANAGEMENT OF MEDICATIONS FOR PHYSICALLY AND PSYCHOLOGICALLY WOUNDED MEMBERS OF THE ARMED FORCES.

(a) **STUDY REQUIRED.**—The Secretary of Defense shall conduct a study on the management of medications for physically and psychologically wounded members of the Armed Forces.

(b) **ELEMENTS.**—The study required under subsection (a) shall include the following:

(1) A review and assessment of current practices within the Department of Defense for the management of medications for physically and psychologically wounded members of the Armed Forces.

(2) A review and analysis of the published literature on factors contributing to the risk of misadministration of medications, including accidental and intentional overdoses, under and over medication, and adverse interactions among medications.

(3) An identification of the medical conditions, and of the patient management procedures of the Department of Defense, that may increase the risks of misadministration of medications in populations of members of the Armed Forces.

(4) An assessment of current and best practices in the Armed Forces, other departments and agencies of government, and the private sector concerning the prescription, distribution, and management of medications, and the associated coordination of care.

(5) An identification of means for decreasing the risks of misadministration of medications and associated problems with respect to physically and psychologically wounded members of the Armed Forces.

(c) **REPORT.**—Not later than April 1, 2010, the Secretary of Defense shall submit to the Committees on Armed Services of the Senate and the House of Representatives a report on the study required under subsection (a). The report shall include such findings and recommendations as the Secretary considers appropriate in light of the study.

SEC. 724. PRESCRIPTION OF ANTIDEPRESSANTS FOR TROOPS SERVING IN IRAQ AND AFGHANISTAN.

(a) **REPORT.**—

(1) **IN GENERAL.**—Not later than June 30, 2010, and annually thereafter until June 30, 2015, the Secretary of Defense shall submit to Congress a report on the prescription of antidepressants and drugs to treat anxiety for troops serving in Iraq and Afghanistan.

(2) **CONTENT.**—The report required under paragraph (1) shall include—

(A) the numbers and percentages of troops that have served or are serving in Iraq and Af-

ghanistan since January 1, 2005, who have been prescribed antidepressants or drugs to treat anxiety, including psychotropic drugs such as Selective Serotonin Reuptake Inhibitors (SSRIs); and

(B) the policies and patient management practices of the Department of Defense with respect to the prescription of such drugs.

(b) **NATIONAL INSTITUTE OF MENTAL HEALTH STUDY.**—

(1) **STUDY.**—The National Institute of Mental Health shall conduct a study on the potential relationship between the increased number of suicides and attempted suicides by members of the Armed Forces and the increased number of antidepressants, drugs to treat anxiety, other psychotropics, and other behavior modifying prescription medications being prescribed, including any combination or interactions of such prescriptions. The Department of Defense shall immediately make available to the National Institute of Mental Health all data necessary to complete the study.

(2) **REPORT ON FINDINGS.**—Not later than two years after the date of the enactment of this Act, the Secretary of Defense shall submit to Congress a report on the findings of the study conducted pursuant to paragraph (1).

Subtitle D—Wounded Warrior Matters

SEC. 731. PILOT PROGRAM FOR THE PROVISION OF COGNITIVE REHABILITATIVE THERAPY SERVICES UNDER THE TRICARE PROGRAM.

(a) **IN GENERAL.**—Not later than 180 days after the date of the enactment of this Act, the Secretary of Defense may, in consultation with the entities and officials referred to in subsection (d), carry out a pilot program under the TRICARE program to determine the feasibility and advisability of expanding the availability of cognitive rehabilitative therapy services for members or former members of the Armed Forces described in subsection (b).

(b) **COVERED MEMBERS AND FORMER MEMBERS.**—A member or former member of the Armed Forces is described in this subsection if—

(1) the member or former member—

(A) is otherwise eligible for medical care under the TRICARE program;

(B) has been diagnosed with a moderate to severe traumatic brain injury incurred in the line of duty in Operation Iraqi Freedom or Operation Enduring Freedom;

(C) is retired or separated from the Armed Forces for disability under chapter 61 of title 10, United States Code; and

(D) is referred by a qualified physician for cognitive rehabilitative therapy; and

(2) cognitive rehabilitative therapy is not reasonably available to the member or former member through the Department of Veterans Affairs.

(c) **ELEMENTS OF PILOT PROGRAM.**—The Secretary of Defense shall, in consultation with the entities and officials referred to in subsection (d), develop for inclusion in the pilot program the following:

(1) Procedures for access to cognitive rehabilitative therapy services.

(2) Qualifications and supervisory requirements for licensed and certified health care professionals providing such services.

(3) A methodology for reimbursing providers for such services.

(d) **ENTITIES AND OFFICIALS TO BE CONSULTED.**—The entities and officials referred to in this subsection are the following:

(1) The Secretary of Veterans Affairs.

(2) The Defense Centers of Excellence for Psychological Health and Traumatic Brain Injury.

(3) Relevant national organizations with experience in treating traumatic brain injury.

(e) **REPORT.**—Not later than 18 months after the date of the enactment of this Act, the Secretary of Defense shall submit to the Committees

on Armed Services of the Senate and the House of Representatives a report—

(1) evaluating the effectiveness of the pilot program in providing increased access to safe, effective, and quality cognitive rehabilitative therapy services for members and former members of the Armed Forces described in subsection (b); and

(2) making recommendations with respect to the effectiveness of cognitive rehabilitative therapy services and the appropriateness of including such services as a benefit under the TRICARE program.

(f) **TRICARE PROGRAM DEFINED.**—The term “TRICARE program” has the meaning given that term in section 1072(7) of title 10, United States Code.

(g) **FUNDING.**—Of the amount authorized to be appropriated by section 1403 for the Defense Health Program, not more than \$5,000,000 may be available to carry out the pilot program under this section.

SEC. 732. DEPARTMENT OF DEFENSE TASK FORCE ON THE CARE, MANAGEMENT, AND TRANSITION OF RECOVERING WOUNDED, ILL, AND INJURED MEMBERS OF THE ARMED FORCES.

(a) **ESTABLISHMENT.**—

(1) **IN GENERAL.**—The Secretary of Defense shall establish within the Department of Defense a task force to be known as the “Department of Defense Task Force on the Care, Management, and Transition of Recovering Wounded, Ill, and Injured Members of the Armed Forces” (in this section referred to as the “Task Force”).

(2) **PURPOSE.**—The purpose of the Task Force shall be to assess the effectiveness of the policies and programs developed and implemented by the Department of Defense, and by each of the military departments, to assist and support the care, management, and transition of recovering wounded, ill, and injured members of the Armed Forces, and to make recommendations for the further improvement of such policies and programs.

(b) **COMPOSITION.**—

(1) **MEMBERS.**—The Task Force shall consist of not more than 14 members, appointed by the Secretary of Defense from among the individuals as described in paragraph (2).

(2) **COVERED INDIVIDUALS.**—The individuals appointed to the Task Force shall include the following:

(A) At least one member of each of the regular components of the Army, the Navy, the Air Force, and the Marine Corps.

(B) One member of the National Guard.

(C) One member of a reserve component of the Armed Forces other than National Guard.

(D) A number of persons from outside the Department of Defense equal to the total number of personnel from within the Department of Defense (whether members of the Armed Forces or civilian personnel) who are appointed to the Task Force.

(E) Persons who have experience in—

(i) medical care and coordination for wounded, ill, and injured members of the Armed Forces;

(ii) medical case management;

(iii) non-medical case management;

(iv) the disability evaluation process for members of the Armed Forces;

(v) veterans benefits;

(vi) treatment of traumatic brain injury and post-traumatic stress disorder;

(vii) family support;

(viii) medical research;

(ix) vocational rehabilitation; or

(x) disability benefits.

(F) At least one family member of a wounded, ill, or injured member of the Armed Forces or veteran who has experience working with wounded, ill, and injured members of the Armed Forces or their families.

(3) **INDIVIDUALS APPOINTED FROM WITHIN DEPARTMENT OF DEFENSE.**—At least one of the individuals appointed to the Task Force from within the Department of Defense shall be the surgeon general of an Armed Force.

(4) **INDIVIDUALS APPOINTED FROM OUTSIDE DEPARTMENT OF DEFENSE.**—The individuals appointed to the Task Force from outside the Department of Defense—

(A) with the concurrence of the Secretary of Veterans Affairs, shall include an officer or employee of the Department of Veterans Affairs; and

(B) may include individuals from other departments or agencies of the Federal Government, from State and local agencies, or from the private sector.

(5) **DEADLINE FOR APPOINTMENTS.**—All original appointments to the Task Force shall be made not later than 120 days after the date of the enactment of this Act.

(6) **CO-CHAIRS.**—There shall be two co-chairs of the Task Force. One of the co-chairs shall be designated by the Secretary of Defense at the time of appointment from among the individuals appointed to the Task Force from within the Department of Defense. The other co-chair shall be selected from among the individuals appointed from outside the Department of Defense by those individuals.

(c) **REPORT REQUIRED.**—

(1) **IN GENERAL.**—Not later than 12 months after the date on which all members of the Task Force have been appointed, the Task Force shall submit to the Secretary of Defense a report. The report shall include the following:

(A) The findings and conclusions of the Task Force as a result of its assessment of the effectiveness of the policies and programs developed and implemented by the Department of Defense, and by each of the military departments, to assist and support the care, management, and transition of recovering wounded, ill, and injured members of the Armed Forces.

(B) A description of various ways in which the Department of Defense and the military departments could more effectively address matters relating to the care, management, and transition of recovering wounded, ill, and injured members of the Armed Forces, including members of the regular components, and members of the reserve components, and support for their families.

(C) Such recommendations for other legislative or administrative action as the Task Force considers appropriate for measures to improve the policies and programs described in subparagraph (A).

(2) **METHODOLOGY.**—For purposes of the report, the Task Force—

(A) shall conduct site visits and interviews as the Task Force considers appropriate;

(B) may consider the findings and recommendations of previous reviews and evaluations of the care, management, and transition of recovering wounded, ill, and injured members of the Armed Forces; and

(C) may utilize such other means for directly obtaining information relating to the care, management, and transition of recovering wounded, ill, and injured members of the Armed Forces as the Task Force considers appropriate.

(3) **MATTERS TO BE REVIEWED AND ASSESSED.**—For purposes of the report, the Task Force shall review and assess the following:

(A) Case management, including the numbers and types of case managers (including Federal Recovery Coordinators, Recovery Care Coordinators, National Guard or Reserve case managers, and other case managers) assigned to recovering wounded, ill, and injured members of the Armed Forces, the training provided such case managers, and the effectiveness of such case managers in providing care and support to recov-

ering wounded, ill, and injured members of the Armed Forces.

(B) The effectiveness of the Interagency Program Office in achieving fully interoperable electronic health records by September 30, 2009, in accordance with section 1635 of the Wounded Warrior Act (10 U.S.C. 1071 note).

(C) Staffing of Army Warrior Transition Units, Marine Corps Wounded Warrior Regiments, Navy and Air Force Medical Hold or Medical Holdover Units, and other service-related programs or units for recovering wounded, ill, and injured members of the Armed Forces, including the use of applicable hiring authorities to ensure the proper staffing of such programs and units.

(D) The legal support available to recovering wounded, ill, and injured members of the Armed Forces and their families.

(E) The support and assistance provided to recovering wounded, ill, and injured members of the Armed Forces as they progress through the military disability evaluation system.

(F) The effectiveness of any measures under pilot programs to improve or enhance the military disability evaluation system.

(G) The effectiveness of the Senior Oversight Committee in facilitating and overseeing collaboration between the Department of Defense and the Department of Veterans Affairs on matters relating to the care, management, and transition of recovering wounded, ill, and injured members of the Armed Forces.

(H) The establishment and effectiveness of the Defense Centers of Excellence for Psychological Health and Traumatic Brain Injury, and the centers of excellence for military eye injuries, hearing loss and auditory system injuries, and traumatic extremity injuries and amputations.

(I) The establishment and effectiveness of performance and accountability standards for warrior transition units and programs.

(J) The support available to family caregivers of recovering wounded, ill, and injured members of the Armed Forces.

(K) The availability of vocational training for recovering wounded, ill, and injured members of the Armed Forces seeking to transition to civilian life.

(L) The availability of services for traumatic brain injury and post-traumatic stress disorder.

(M) The support systems in place to ease the transition of recovering wounded, ill, and injured members of the Armed Forces from the Department of Defense to the Department of Veterans Affairs.

(N) The effectiveness of wounded warrior information resources, including the Wounded Warrior Resource Center, the National Resource Directory, Military OneSource, Family Assistance Centers, and Service hotlines, in providing meaningful information for recovering wounded, ill, and injured members of the Armed Forces.

(O) Interagency matters affecting recovering wounded, ill, and injured members of the Armed Forces in their transition to civilian life.

(P) Overall coordination between the Department of Defense and the Department of Veterans Affairs on the matters specified in this paragraph.

(Q) Such other matters as the Task Force considers appropriate in connection with the care, management, and transition of recovering wounded, ill, and injured members of the Armed Forces.

(4) **TRANSMITTAL.**—Not later than 90 days after receipt of the report required by paragraph (1) the Secretary of Defense shall transmit the report, together with the Secretary's evaluation of the report, to the Committees on Armed Services of the Senate and the House of Representatives.

(d) **PLAN REQUIRED.**—Not later than six months after the receipt under subsection (c) of

the report of the Task Force under that subsection, the Secretary of Defense shall, in consultation with the Secretaries of the military departments, submit to the Committees on Armed Services of the Senate and the House of Representatives a plan to implement the recommendations of the Task Force as included in the report of the Task Force under subsection (c).

(e) **ADMINISTRATIVE MATTERS.**—

(1) **COMPENSATION.**—Each member of the Task Force who is a member of the Armed Forces or a civilian officer or employee of the United States shall serve on the Task Force without compensation (other than compensation to which entitled as a member of the Armed Forces or an officer or employee of the United States, as the case may be). Other members of the Task Force shall be appointed in accordance with, and subject to, the provisions of section 3161 of title 5, United States Code.

(2) **OVERSIGHT.**—The Under Secretary of Defense for Personnel and Readiness shall oversee the Task Force. The Washington Headquarters Services of the Department of Defense shall provide the Task Force with personnel, facilities, and other administrative support as necessary for the performance of the duties of the Task Force.

(3) **VISITS TO MILITARY FACILITIES.**—Any visit by the Task Force to a military installation or facility shall be undertaken through the Deputy Under Secretary of Defense for Personnel and Readiness, in coordination with the Secretaries of the military departments.

(f) **TERMINATION.**—The Task Force shall terminate 90 days after the date on which the Task Force submits to the Secretary of Defense the report of the Task Force under subsection (c).

SEC. 733. REPORT ON USE OF ALTERNATIVE THERAPIES IN TREATMENT OF POST-TRAUMATIC STRESS DISORDER.

(a) **IN GENERAL.**—Not later than December 31, 2010, the Secretary of Defense and the Secretary of Veterans Affairs shall jointly submit to the appropriate committees of Congress a report on research related to post-traumatic stress disorder.

(b) **ELEMENTS.**—The report required by subsection (a) shall include the following:

(1) The status of all studies and clinical trials that involve treatments of post-traumatic stress disorder conducted by the Department of Defense and the Department of Veterans Affairs.

(2) The effectiveness of alternative therapies in the treatment of post-traumatic stress disorder, including the therapeutic use of animals.

(3) Identification of areas in which the Department of Defense and the Department of Veterans Affairs may be duplicating studies, programs, or research with respect to post-traumatic stress disorder.

(c) **APPROPRIATE COMMITTEES OF CONGRESS DEFINED.**—In this section, the term “appropriate committees of Congress” means—

(1) the Committee on Armed Services, the Committee on Appropriations, and the Committee on Veterans Affairs of the Senate; and

(2) the Committee on Armed Services, the Committee on Appropriations, and the Committee on Veterans Affairs of the House of Representatives.

TITLE VIII—ACQUISITION POLICY, ACQUISITION MANAGEMENT, AND RELATED MATTERS

Subtitle A—Amendments to General Contracting Authorities, Procedures, and Limitations

SEC. 801. CONTRACT AUTHORITY FOR ADVANCED DEVELOPMENT OF PROTOTYPE UNITS.

(a) **CONTRACT AUTHORITY.**—

(1) **IN GENERAL.**—Chapter 139 of title 10, United States Code, is amended by inserting after section 2359b the following new section:

“§2359c. Contract authority for advanced development of prototype units

“(a) **AUTHORITY.**—A contract initially awarded from the competitive selection of a proposal resulting from a broad agency announcement pursuant to section 2302(2)(B) of this title may contain a contract line item or an option, including not-to-exceed prices, for either of the following:

“(1) The delivery of a specified number of prototype items to demonstrate technology developed under the contract.

“(2) The provision, for a specified period of time, of advanced component development effort or effort to prototype technology developed under the contract.

“(b) **LIMITATIONS.**—(1) The number of prototype items specified pursuant to subsection (a)(1) may not exceed the minimum number required to ensure that research and development work can continue without interruption during the solicitation and award of a follow-on competitive contract.

“(2) The period of time specified under subsection (a)(2) may not exceed 12 months.

“(3) The dollar value of the work to be performed pursuant to a contract line item or option under subsection (a) may not exceed the lesser of the amounts as follows:

“(A) The amount that is three times the dollar value of the work previously performed under the contract.

“(B) \$20,000,000.”

(2) **CLERICAL AMENDMENT.**—The table of sections at the beginning of chapter 139 of such title is amended by inserting after the item relating to section 2359b the following new item:

“2359c. Contract authority for advanced development of prototype units.”

(b) **SUNSET.**—

(1) **IN GENERAL.**—Effective on the date that is five years after the date of the enactment of this Act—

(A) section 2359c of title 10, United States Code (as added by subsection (a)), is repealed; and

(B) the table of sections at the beginning of chapter 139 of such title (as amended by subsection (a)) is further amended by striking the item relating to section 2359c.

(2) **CONTINUATION OF LINE ITEMS AND OPTIONS.**—The repeal of section 2359c of title 10, United States Code (as so added), by paragraph (1) shall not affect the authority of the Department of Defense to exercise any contract line item or option included in a contract under the authority of such section before the effective date of the repeal of such section under paragraph (1).

(c) **REPORT.**—Not later than three years after the date of the enactment of this Act, the Secretary of Defense shall submit to the congressional defense committees a report on the use of the authority provided by section 2359c of title 10, United States Code (as added by subsection (a)). The report shall, at a minimum—

(1) identify the number of times the authority in section 2359c of title 10, United States Code (as so added), has been used by each military department and Defense Agency, and the dollar amount of contract line items or options exercised pursuant to such authority;

(2) assess the effectiveness of the authority in promoting the maturation of technologies and in addressing potential gaps between science and technology projects and acquisition programs;

(3) assess any potential anti-competitive impacts resulting from the use of the authority; and

(4) make such recommendations as the Secretary considers appropriate.

SEC. 802. JUSTIFICATION AND APPROVAL OF SOLE-SOURCE CONTRACTS.

(a) **IN GENERAL.**—Not later than 180 days after the date of the enactment of this Act, the

Secretary of Defense shall modify the Department of Defense Supplement to the Federal Acquisition Regulation to provide that the head of an agency may not award a sole-source contract for an amount exceeding \$20,000,000 unless—

(1) the contracting officer for the contract justifies the use of a sole-source contract in writing; and

(2) the justification is approved by an official designated in section 2304(f)(1)(B) of title 10, United States Code, to approve contract awards for dollar amounts that are comparable to the amount of the sole-source contract.

(b) **ELEMENTS OF JUSTIFICATION.**—The justification of a sole-source contract required pursuant to subsection (a) shall include the following:

(1) A description of the needs of the agency concerned for the matters covered by the contract.

(2) A specification of the statutory provision providing the exception from the requirement to use competitive procedures in entering into the contract.

(3) A determination that the use of a sole-source contract is in the best interest of the Department of Defense.

(4) A determination that the anticipated cost of the contract will be fair and reasonable.

(5) Such other matters as the Secretary shall specify for purposes of this section.

(c) **CONSTRUCTION WITH COMPETITION IN CONTRACTING ACT REQUIREMENTS.**—In the case of any contract for which a justification and approval is required under section 2304(f) of title 10, United States Code, a justification and approval meeting the requirements of such section may be treated as meeting the requirements of this section for purposes of the award of a sole-source contract.

Subtitle B—Acquisition Policy and Management

SEC. 811. REPORTING REQUIREMENTS FOR PROGRAMS THAT QUALIFY AS BOTH MAJOR AUTOMATED INFORMATION SYSTEM PROGRAMS AND MAJOR DEFENSE ACQUISITION PROGRAMS.

(a) **IN GENERAL.**—Section 2445d of title 10, United States Code, is amended by striking “of this title” and all that follows and inserting “of this title, the Secretary may designate the program to be treated only as a major automated information system program covered by this chapter or to be treated only as a major defense acquisition program covered by such chapter 144.”

(b) **GUIDANCE REQUIRED.**—Not later than 180 days after the date of the enactment of this Act, the Secretary of Defense shall issue guidance on the implementation of section 2445d of title 10, United States Code (as amended by subsection (a)). The guidance shall provide that, as a general rule—

(1) a program covered by such section that requires the development of customized hardware shall be treated only as a major defense acquisition program under chapter 144 of title 10, United States Code; and

(2) a program covered by such section that does not require the development of customized hardware shall be treated only as a major automated information system program under chapter 144A of title 10, United States Code.

SEC. 812. FUNDING OF DEPARTMENT OF DEFENSE ACQUISITION WORKFORCE DEVELOPMENT FUND.

(a) **ADDITIONAL ELEMENT OF FUND.**—Subsection (d) of section 1705 of title 10, United States Code, is amended—

(1) in paragraph (1)—

(A) by redesignating subparagraph (B) as subparagraph (C); and

(B) by inserting after subparagraph (A) the following new subparagraph (B):

“(B) Amounts transferred to the Fund pursuant to paragraph (3).”; and

(2) by adding at the end the following new paragraph:

“(3) **TRANSFER OF CERTAIN UNOBLIGATED BALANCES.**—To the extent provided in appropriations Acts, the Secretary of Defense may, during the 24-month period following the expiration of availability for obligation of any appropriations made to the Department of Defense for procurement, research, development, test, and evaluation, or operation and maintenance, transfer to the Fund any unobligated balance of such appropriations. Any amount so transferred shall be credited to the Fund.”.

(b) **NATURE OF EXPENDED AMOUNTS PROVIDING BASIS FOR CREDIT TO FUND.**—Subparagraph (A) of paragraph (2) of such subsection is amended by striking “, other than” and all that follows and inserting “from amounts available for operation and maintenance.”.

(c) **REMITTANCES.**—Subparagraph (B) of paragraph (2) of such subsection is amended by inserting “, from amounts available to such military department or Defense Agency, as the case may be, for operation and maintenance,” after “remit to the Secretary of Defense”.

(d) **ADDITIONAL MATTERS RELATING TO REMITTANCES.**—Such subsection is further amended—

(1) in paragraph (2)(B), by striking “Not later than” and inserting “Subject to paragraph (4), not later than”; and

(2) by adding at the end the following new paragraph:

“(4) **ADDITIONAL REQUIREMENTS AND LIMITATIONS ON REMITTANCES.**—(A) In the event amounts are transferred to the Fund during a fiscal year pursuant to paragraph (1)(B) or appropriated to the Fund for a fiscal year pursuant to paragraph (1)(C), the aggregate amount otherwise required to be remitted to the Fund for that fiscal year pursuant to paragraph (2)(B) shall be reduced by the amount equal to the amounts so transferred or appropriated to the Fund during or for that fiscal year. Any reduction in the aggregate amount required to be remitted to the Fund for a fiscal year under this subparagraph shall be allocated as provided in applicable provisions of appropriations Acts or, absent such provisions, on a pro rata basis among the military departments and Defense Agencies required to make remittances to the Fund for that fiscal year under paragraph (2)(B).
“(B) Any remittance of amounts to the Fund for a fiscal year under paragraph (2) shall be subject to the availability of appropriations for that purpose.”.

(e) **REMITTANCE AMOUNTS.**—Paragraph (2) of such subsection is further amended by striking subparagraphs (C) and (D) and inserting the following new subparagraphs:

“(C) For purposes of this paragraph, the applicable percentage for a fiscal year is the percentage that results in the credit to the Fund in such fiscal year of an amount as follows:

“(i) For fiscal year 2010, \$570,000,000.

“(ii) For fiscal year 2011, \$770,000,000.

“(iii) For fiscal year 2012, \$900,000,000.

“(iv) For fiscal year 2013, \$1,180,000,000.

“(v) For fiscal year 2014, \$1,330,000,000.

“(vi) For fiscal year 2015, \$1,470,000,000.

“(D) The Secretary of Defense may reduce a percentage specified in subparagraph (C) for a fiscal year if the Secretary determines that the application of such percentage would result in the crediting to the Fund in such fiscal year of an amount greater than is reasonably needed for purposes of the Fund. The percentage for a fiscal year, as so reduced, may not be a percentage that will result in the credit to the Fund in such fiscal year of an amount that is less than 80 percent of the amount otherwise specified in subparagraph (C) for such fiscal year.”.

(f) **CLARIFICATION OF LIMITATION ON PAY OF BASE SALARY OF CURRENT EMPLOYEES.**—Subsection (e)(5) of such section is amended by striking “as of the date of the enactment of the National Defense Authorization Act for Fiscal Year 2008” and inserting “serving in a position in the acquisition workforce as of January 28, 2008”.

(g) **TECHNICAL AMENDMENTS.**—

(1) Subsection (a) of such section is amended by inserting “Development” after “Workforce”.

(2) Subsection (f) of such section is amended in the matter preceding paragraph (1) by striking “beginning with fiscal year 2008”.

(h) **EFFECTIVE DATES.**—

(1) **FUNDING AMENDMENTS.**—The amendments made by subsections (a) through (e) shall take effect on October 1, 2009.

(2) **TECHNICAL AMENDMENTS.**—The amendments made by subsections (f) and (g) shall take effect on the date of the enactment of this Act.

SEC. 813. ENHANCEMENT OF EXPEDITED HIRING AUTHORITY FOR DEFENSE ACQUISITION WORKFORCE POSITIONS.

(a) **IN GENERAL.**—Paragraph (1) of section 1705(h) of title 10, United States Code, is amended—

(1) in subparagraph (A), by striking “acquisition positions within the Department of Defense as shortage category position” and inserting “acquisition workforce positions as positions for which there exists a shortage of candidates or there is a critical hiring need”; and

(2) in subparagraph (B), by striking “highly qualified” and inserting “appropriately qualified”.

(b) **EXTENSION.**—Paragraph (2) of such section is amended by striking “September 30, 2012” and inserting “September 30, 2015”.

(c) **TECHNICAL AMENDMENT.**—Paragraph (1) of such section is further amended by striking “United States Code,” in the matter preceding subparagraph (A).

SEC. 814. TREATMENT OF NON-DEFENSE AGENCY PROCUREMENTS UNDER JOINT PROGRAMS WITH THE DEPARTMENT OF DEFENSE UNDER LIMITATIONS ON NON-DEFENSE AGENCY PROCUREMENTS ON BEHALF OF THE DEPARTMENT OF DEFENSE.

Section 801(b) of the National Defense Authorization Act for Fiscal Year 2008 (10 U.S.C. 2304 note) is amended by adding at the end the following new paragraph:

“(3) **TREATMENT OF PROCUREMENTS UNDER JOINT PROGRAMS.**—For purposes of this subsection, a contract entered by a non-defense agency for the performance of a joint program conducted to meet the needs of the Department of Defense and the non-defense agency shall not be considered a procurement of property or services for the Department of Defense through a non-defense agency.”.

SEC. 815. COMPTROLLER GENERAL OF THE UNITED STATES REPORT ON TRAINING OF ACQUISITION AND AUDIT PERSONNEL OF THE DEPARTMENT OF DEFENSE.

(a) **REPORT REQUIRED.**—Not later than one year after the date of the enactment of this Act, the Comptroller General of the United States shall submit to the congressional defense committees a report setting forth an assessment of the efficacy of Department of Defense training for acquisition and audit personnel of the Department of Defense.

(b) **ELEMENTS.**—The report required by subsection (a) shall include, at a minimum, the following:

(1) An assessment of the nature and efficacy of training (including training materials and methods) required for acquisition and audit personnel of the Department of Defense.

(2) An assessment of the timeliness and manner in which the Department of Defense provides training for such personnel.

(3) An assessment of the extent to which such training reaches appropriate acquisition personnel, including personnel outside the acquisition workforce who exercise significant acquisition responsibilities.

(4) An assessment of the extent to which each of the Department of Defense and the Department of the Army have implemented the recommendations of the Commission on Army Acquisition and Program Management in Expeditionary Operations relating to training of acquisition personnel.

(5) Such recommendations as the Comptroller General considers appropriate regarding training of acquisition and audit personnel of the Department of Defense, including recommendations regarding best practices and objectives for improved training of such acquisition and audit personnel.

Subtitle C—Contractor Matters

SEC. 821. AUTHORITY FOR GOVERNMENT SUPPORT CONTRACTORS TO HAVE ACCESS TO TECHNICAL DATA BELONGING TO PRIME CONTRACTORS.

(a) **AUTHORITY.**—

(1) **ACCESS TO TECHNICAL DATA.**—Subsection (c) of section 2320 of title 10, United States Code, is amended—

(A) in paragraph (1), by striking “or” at the end;

(B) by redesignating paragraph (2) as paragraph (3); and

(C) by inserting after paragraph (1) the following new paragraph (2):

“(2) notwithstanding any limitation upon the license rights conveyed under subsection (a), allowing a covered Government support contractor access to and use of any technical data delivered under a contract for the sole purpose of furnishing independent and impartial advice or technical assistance directly to the Government in support of the Government’s management and oversight of the program or effort to which such technical data relates; or”.

(2) **COVERED GOVERNMENT SUPPORT CONTRACTOR DEFINED.**—Such section is further amended by adding at the end the following new subsection:

“(f) In this section, the term ‘covered Government support contractor’ means a contractor under a contract the primary purpose of which is to furnish independent and impartial advice or technical assistance directly to the Government in support of the Government’s management and oversight of a program or effort (rather than to directly furnish an end item or service to accomplish a program or effort), which contractor—

“(1) is not affiliated with the prime contractor or a first-tier subcontractor on the program or effort, or with any direct competitor of such prime contractor or any such first-tier subcontractor in furnishing end items or services of the type developed or produced on the program or effort; and

“(2) executes a contract with the Government agreeing to and acknowledging—

“(A) that proprietary or nonpublic technical data furnished will be accessed and used only for the purposes stated in that contract;

“(B) that a breach of that contract by the covered Government support contractor with regard to a third party’s ownership or rights in such technical data may subject the covered Government support contractor—

“(i) to criminal, civil, administrative, and contractual actions in law and equity for penalties, damages, and other appropriate remedies by the United States; and

“(ii) to civil actions for damages and other appropriate remedies by the contractor or subcontractor whose technical data is affected by the breach;

“(C) that such technical data provided to the covered Government support contractor under

the authority of this section shall not be used by the covered Government support contractor to compete against the third party for Government or non-Government contracts; and

“(D) that any breach of the nondisclosure obligations under subparagraphs (A) through (C) may constitute a violation of section 1905 of title 18.”.

(b) **CRIMINAL PENALTY.**—Section 1905 of title 18, United States Code, is amended by inserting “or being an officer, agent, or employee of a private sector organization having a contractual nondisclosure agreement under the authority of section 2320(f)(2) of title 10,” after “Antitrust Civil Process Act (15 U.S.C. 1311-1314).”.

SEC. 822. EXTENSION AND ENHANCEMENT OF AUTHORITIES ON THE COMMISSION ON WARTIME CONTRACTING IN IRAQ AND AFGHANISTAN.

(a) **DATE OF FINAL REPORT.**—Subsection (d)(3) of section 841 of the National Defense Authorization Act for Fiscal Year 2008 (Public Law 110-181; 122 Stat. 230) is amended by striking “two years” and inserting “three years”.

(b) **ASSISTANCE FROM FEDERAL AGENCIES.**—Such section is further amended—

(1) by redesignating subsections (f) and (g) as subsections (g) and (h), respectively; and

(2) by inserting after subsection (e) the following new subsection (f):

“(f) **ASSISTANCE FROM FEDERAL AGENCIES.**—

“(1) **DEPARTMENT OF DEFENSE.**—The Secretary of Defense shall provide to the Commission administrative support for the performance of the Commission’s functions in carrying out the requirements of this section.

“(2) **TRAVEL AND LODGING IN COMBAT THEATERS.**—The administrative support provided the Commission under paragraph (1) shall include travel and lodging undertaken in combat theaters, which support shall be provided on a non-reimbursable basis.

“(3) **OTHER DEPARTMENTS AND AGENCIES.**—In addition to the support required by paragraph (1), any department or agency of the Federal Government may provide to the Commission such services, funds, facilities, staff, and other support services for the performance of the Commission’s functions as the head of such department or agency considers advisable, or as may otherwise be authorized by law.”.

SEC. 823. PROHIBITION ON INTERROGATION OF DETAINEES BY CONTRACTOR PERSONNEL.

(a) **REGULATIONS REQUIRED.**—Effective as of the date that is one year after the date of the enactment of this Act, the Department of Defense manpower mix criteria and the Department of Defense Supplement to the Federal Acquisition Regulation shall be modified to provide the following:

(1) That the interrogation of enemy prisoners of war, civilian internees, retained persons, other detainees, terrorists, and criminals when captured, transferred, confined, or detained during or in the aftermath of hostilities is an inherently governmental function and cannot be transferred to contractor personnel.

(2) That contractor personnel with proper training and security clearances may be used as linguists, interpreters, report writers, information technology technicians, and other employees filling ancillary positions in interrogations of persons as described in paragraph (1) if such personnel are subject to the same rules, procedures, policies, and laws pertaining to detainee operations and interrogations as apply to government personnel in such positions in such interrogations.

(b) **DISCHARGE BY GOVERNMENT PERSONNEL.**—The Secretary of Defense shall take appropriate actions to ensure that, by not later than one year after the date of the enactment of this Act, the Department of Defense has the resources needed to ensure that interrogations described

in subsection (a)(1) are conducted by appropriately qualified government personnel.

SEC. 824. MODIFICATIONS TO DATABASE FOR FEDERAL AGENCY CONTRACT AND GRANT OFFICERS AND SUSPENSION AND DEBARMENT OFFICIALS.

Subsection (c) of section 872 of the Duncan Hunter National Defense Authorization Act for Fiscal Year 2009 (Public Law 110-417; 122 Stat. 4556) is amended—

(1) by redesignating paragraphs (6) and (7) as paragraphs (8) and (9), respectively; and

(2) by inserting after paragraph (5) the following new paragraphs:

“(6) Each audit report that, as determined by an Inspector General or the head of an audit agency responsible for the report, contains significant adverse information about a contractor that should be included in the database.

“(7) Each contract action that, as determined by the head of the contracting activity responsible for the contract action, reflects information about contractor performance or integrity that should be included in the database.”.

Subtitle D—Other Matters

SEC. 831. ENHANCED AUTHORITY TO ACQUIRE PRODUCTS AND SERVICES PRODUCED IN CENTRAL ASIA, PAKISTAN, AND THE SOUTH CAUCASUS.

(a) **IN GENERAL.**—In the case of a product or service to be acquired in support of military operations or stability operations (including security, transition, reconstruction, and humanitarian relief activities) in Afghanistan for which the Secretary of Defense makes a determination described in subsection (b), the Secretary may conduct a procurement in which—

(1) competition is limited to products or services that are from Central Asia, Pakistan, or the South Caucasus;

(2) procedures other than competitive procedures are used to award a contract to a particular source or sources from Central Asia, Pakistan, or the South Caucasus; or

(3) a preference is provided for products or services that are from Central Asia, Pakistan, or the South Caucasus.

(b) **DETERMINATION.**—A determination described in this subsection is a determination by the Secretary that—

(1) the product or service concerned is to be used only by military forces, police, or other security personnel of Afghanistan; or

(2) it is in the national security interest of the United States to limit competition, use procedures other than competitive procedures, or provide a preference as described in subsection (a) because—

(A) such limitation, procedure, or preference is necessary—

(i) to improve local market and transportation infrastructure in Central Asia, Pakistan, or the South Caucasus in order to reduce overall United States transportation costs and risks in shipping goods in support of operations in Afghanistan; or

(ii) to encourage states of Central Asia, Pakistan, or the South Caucasus to cooperate in expanding supply routes through their territory in support of operations in Afghanistan; and

(B) such limitation, procedure, or preference will not adversely affect—

(i) operations in Afghanistan; or

(ii) the United States industrial base.

(c) **PRODUCTS, SERVICES, AND SOURCES FROM CENTRAL ASIA, PAKISTAN, OR THE SOUTH CAUCASUS.**—For the purposes of this section:

(1) A product is from Central Asia, Pakistan, or the South Caucasus if it is mined, produced, or manufactured in Georgia, the Kyrgyz Republic, Pakistan, the Republic of Armenia, the Republic of Azerbaijan, the Republic of Kazakhstan, the Republic of Tajikistan, the Republic of Uzbekistan, or Turkmenistan.

(2) A service is from Central Asia, Pakistan, or the South Caucasus if it is performed in Georgia, the Kyrgyz Republic, Pakistan, the Republic of Armenia, the Republic of Azerbaijan, the Republic of Kazakhstan, the Republic of Tajikistan, the Republic of Uzbekistan, or Turkmenistan by citizens or permanent resident aliens of Georgia, the Kyrgyz Republic, Pakistan, the Republic of Armenia, the Republic of Azerbaijan, the Republic of Kazakhstan, the Republic of Tajikistan, the Republic of Uzbekistan, or Turkmenistan.

(3) A source is from Central Asia, Pakistan, or the South Caucasus if it—

(A) is located in Georgia, the Kyrgyz Republic, Pakistan, the Republic of Armenia, the Republic of Azerbaijan, the Republic of Kazakhstan, the Republic of Tajikistan, the Republic of Uzbekistan, or Turkmenistan; and

(B) offers products or services that are from Georgia, the Kyrgyz Republic, Pakistan, the Republic of Armenia, the Republic of Azerbaijan, the Republic of Kazakhstan, the Republic of Tajikistan, the Republic of Uzbekistan, or Turkmenistan.

(d) **CONSTRUCTION WITH OTHER AUTHORITY.**—The authority in subsection (a) is in addition to the authority in section 886 of the National Defense Authorization Act for Fiscal Year 2008 (Public Law 110-181; 122 Stat. 266; 10 U.S.C. 2302 note).

(e) **ANNUAL REPORT.**—

(1) **IN GENERAL.**—Not later than December 31 each year, the Secretary shall submit to Congress a report on the exercise of the authority in subsection (a) during the preceding fiscal year.

(2) **ELEMENTS.**—Each report under this subsection shall include, for the fiscal year covered by such report, the following:

(A) A statement of the number of occasions on which the Secretary made a determination under subsection (a) with respect to the exercise of the authority in subsection (a), regardless of whether or not the determination resulted in the exercise of such authority.

(B) The total amount of all procurements pursuant to the exercise of such authority, and the total amount of procurements for each country with respect to which such authority was exercised.

(C) A description and assessment of the extent to which procurements pursuant to the exercise of such authority furthered the national security interest of the United States.

(f) **SUNSET.**—The authority in subsection (a) shall expire on the date that is three years after the date of the enactment of this Act.

SEC. 832. SMALL ARMS PRODUCTION INDUSTRIAL BASE MATTERS.

(a) **AUTHORITY TO MODIFY DEFINITION OF “SMALL ARMS PRODUCTION INDUSTRIAL BASE”.**—Section 2473(c) of title 10, United States Code, is amended by inserting before the period at the end the following: “, and any subsequent modifications to such list of firms pursuant to a review by the Secretary of Defense”.

(b) **REVIEW OF SMALL ARMS PRODUCTION INDUSTRIAL BASE.**—

(1) **REVIEW.**—Not later than March 31, 2010, the Secretary of Defense shall review and determine, based upon manufacturing capability and capacity—

(A) whether any firms included in the small arms production industrial base (as that term is defined in section 2473(c) of title 10, United States Code) should be eliminated or modified and whether any additional firms should be included; and

(B) whether any of the small arms listed in section 2473(d) of title 10, United States Code, should be eliminated from the list or modified on the list, and whether any additional small arms should be included in the list.

(2) **REPORT.**—Not later than March 31, 2010, the Secretary of Defense shall submit to the congressional defense committees a report on the review conducted under this subsection, including any recommendations for changes to the list maintained pursuant to subsection (c) of section 2473(d) of title 10, United States Code, or the list under subsection (d) of such section.

SEC. 833. EXTENSION OF SBIR AND STTR PROGRAMS OF THE DEPARTMENT OF DEFENSE.

(a) **SBIR EXTENSION.**—Section 9(m) of the Small Business Act (15 U.S.C. 638(m)) is amended—

(1) by striking “The authorization” and inserting the following:

“(1) **IN GENERAL.**—Except as provided in paragraph (2), the authorization”; and

(2) by adding at the end the following:

“(2) **EXCEPTION FOR DEPARTMENT OF DEFENSE.**—The Secretary of Defense and the Secretary of each military department is authorized to carry out the Small Business Innovation Research Program of the Department of Defense until September 30, 2023.”.

(b) **STTR REAUTHORIZATION.**—Section 9(n)(1)(A) of the Small Business Act (15 U.S.C. 638(n)(1)(A)) is amended—

(1) by striking “With respect” and inserting the following:

“(i) **FEDERAL AGENCIES GENERALLY.**—Except as provided in clause (i), with respect”; and

(2) by adding at the end the following:

“(ii) **DEPARTMENT OF DEFENSE.**—The Secretary of Defense and the Secretary of each military department shall carry out clause (i) with respect to each fiscal year through fiscal year 2023.”.

(c) **EFFECTIVE DATE.**—The amendments made by this section shall take effect on July 30, 2009.

SEC. 834. EXPANSION AND PERMANENT AUTHORITY FOR SMALL BUSINESS INNOVATION RESEARCH COMMERCIALIZATION PROGRAM.

(a) **EXPANSION TO INCLUDE SMALL BUSINESS TECHNOLOGY TRANSFER PROGRAM.**—Section 9(y) of the Small Business Act (15 U.S.C. 638(y)) is amended in paragraphs (1), (2), and (4) by inserting “and the Small Business Technology Transfer Program” after “Small Business Innovation Research Program”.

(b) **PERMANENT AUTHORITY.**—

(1) **IN GENERAL.**—Such section is further amended by striking paragraph (6).

(2) **CONFORMING AMENDMENTS.**—Such section is further amended—

(A) in the subsection heading, by striking “PILOT”; and

(B) by striking “Pilot” each place it appears.

SEC. 835. MEASURES TO ENSURE THE SAFETY OF FACILITIES, INFRASTRUCTURE, AND EQUIPMENT FOR MILITARY OPERATIONS.

(a) **POLICY.**—It shall be the policy of the Department of Defense to incorporate generally accepted industry standards for the safety and health of personnel, to the maximum extent practicable, into requirements for facilities, infrastructure, and equipment that are intended for use by military or civilian personnel of the Department in current and future contingency operations.

(b) **CONTRACTS.**—Not later than 120 days after the date of the enactment of this Act, the Secretary of Defense shall submit to the congressional defense committees a report describing that actions that the Department of Defense has taken, or plans to take, to ensure that each contract or task or delivery order entered into for the construction, installation, repair, maintenance, or operation of facilities for use by military or civilian personnel of the Department in current and future contingency operations complies with the policy established in subsection (a).

(c) **GENERALLY ACCEPTED INDUSTRY STANDARDS FOR SAFETY.**—For the purposes of this section, generally accepted industry standards for the safety of personnel include—

(1) appropriate standards with respect to fire protection and structural integrity; and

(2) standards with respect to electrical systems, water treatment, and telecommunications networks.

SEC. 836. REPEAL OF REQUIREMENTS RELATING TO THE MILITARY SYSTEM ESSENTIAL ITEM BREAKOUT LIST.

Section 813 of the National Defense Authorization Act for Fiscal Year 2004 (Public Law 108-136; 117 Stat. 1543) is repealed.

SEC. 837. DEFENSE SCIENCE BOARD REPORT ON RARE EARTH MATERIALS IN THE DEFENSE SUPPLY CHAIN.

(a) **REPORT REQUIRED.**—Not later than one year after the date of the enactment of this Act, the Defense Science Board shall submit to the Committees on Armed Services of the Senate and the House of Representatives a report on the usage of rare earth materials in the supply chain of the Department of Defense.

(b) **ELEMENTS.**—The report required by subsection (a) shall address, at a minimum, the following:

(1) The current and projected domestic and world-wide availability of rare earth materials for use by the Department of Defense in its weapon systems.

(2) The extent to which weapon systems acquired by the Department of Defense are currently dependent on, or are projected to become dependent on, rare earth materials supplied by sources that could be interrupted.

(3) The risk to national security, if any, of dependence on such sources for rare earth materials.

(4) Any steps that the Department of Defense has taken or is planning to take to address any such risk to national security.

(5) Such recommendations for further action to address the matters covered by the report as the Defense Science Board considers appropriate.

(c) **DEFINITIONS.**—In this section:

(1) The term “rare earth” means the chemical elements in the periodic table beginning with lanthanum and continuing to lutetium, and any associated elements.

(2) The term “rare earth material” includes rare earth ores, semi-finished rare earth products, and components containing rare earth materials.

SEC. 838. SMALL BUSINESS CONTRACTING PROGRAMS PARITY.

Section 31(b)(2)(B) of the Small Business Act (15 U.S.C. 657a(b)(2)(B)) is amended by striking “shall” and inserting “may”.

TITLE IX—DEPARTMENT OF DEFENSE ORGANIZATION AND MANAGEMENT
Subtitle A—Department of Defense Management

SEC. 901. DEPUTY UNDER SECRETARIES OF DEFENSE AND ASSISTANT SECRETARIES OF DEFENSE.

(a) **DEPUTY UNDER SECRETARIES OF DEFENSE.**—Chapter 4 of title 10, United States Code, is amended by adding after section 137 the following new section:

“§ 137a. Deputy Under Secretaries of Defense

“(a)(1) There are five Deputy Under Secretaries of Defense.

“(2)(A) The Deputy Under Secretaries of Defense referred to in paragraphs (1) through (3) of subsection (c) shall be appointed as provided in the applicable paragraph.

“(B) The Deputy Under Secretaries of Defense referred to in paragraphs (4) and (5) of subsection (c) shall be appointed from civilian life by the President, by and with the advice and consent of the Senate.

“(3) The five Deputy Under Secretaries of Defense authorized by this section are the only Deputy Under Secretaries of Defense.

“(b) Each Deputy Under Secretary of Defense shall be the first assistant to an Under Secretary of Defense and shall assist such Under Secretary in the performance of the duties of the position of such Under Secretary and shall act for, and exercise the powers of, such Under Secretary when such Under Secretary is absent or disabled.

“(c)(1) One of the Deputy Under Secretaries is the Principal Deputy Under Secretary of Defense for Acquisition, Technology, and Logistics appointed pursuant to section 133a of this title.

“(2) One of the Deputy Under Secretaries is the Principal Deputy Under Secretary of Defense for Policy appointed pursuant to section 134a of this title.

“(3) One of the Deputy Under Secretaries is the Principal Deputy Under Secretary of Defense for Personnel and Readiness appointed pursuant to section 136a of this title.

“(4) One of the Deputy Under Secretaries shall be the Principal Deputy Under Secretary of Defense (Comptroller).

“(5) One of the Deputy Under Secretaries shall be the Principal Deputy Under Secretary of Defense for Intelligence.

“(d) The Deputy Under Secretaries of Defense take precedence in the Department of Defense after the Secretary of Defense, the Deputy Secretary of Defense, the Secretaries of the military departments, the Under Secretaries of Defense, and the Deputy Chief Management Officer of the Department of Defense.”.

(b) **ASSISTANT SECRETARIES OF DEFENSE.**—

(1) **REDESIGNATION OF DEPUTY UNDER SECRETARY FOR LOGISTICS AND MATERIEL READINESS AS ASSISTANT SECRETARY.**—Chapter 4 of such title is further amended—

(A) by transferring section 133b to appear after section 138 and redesignating such section, as so transferred, as section 138a; and

(B) in such section, as so transferred and redesignated, by striking “Deputy Under Secretary” each place it appears and inserting “Assistant Secretary”.

(2) **ADDITIONAL ASSISTANT SECRETARIES.**—Section 138 of such title is amended—

(A) by striking subsection (a) and inserting the following new subsection (a):

“(a)(1) There are 16 Assistant Secretaries of Defense.

“(2)(A) The Assistant Secretary of Defense referred to in subsection (b)(7) shall be appointed as provided in that subsection.

“(B) The other Assistant Secretaries of Defense shall be appointed from civilian life by the President, by and with the advice and consent of the Senate.”; and

(B) in subsection (b), by adding the following new paragraphs:

“(6) One of the Assistant Secretaries shall be the Assistant Secretary of Defense for Acquisition. The Assistant Secretary of Defense for Acquisition is the principal adviser to the Secretary of Defense and the Under Secretary of Defense for Acquisition, Technology, and Logistics on matters relating to acquisition.

“(7) One of the Assistant Secretaries is the Assistant Secretary of Defense for Logistics and Materiel Readiness appointed pursuant to section 138a of this title. In addition to any duties and powers prescribed under paragraph (1), the Assistant Secretary of Defense for Logistics and Materiel Readiness shall have the duties specified in section 138a of this title.

“(8) One of the Assistant Secretaries shall be the Assistant Secretary of Defense for Installations and Environment. The Assistant Secretary of Defense for Installations and Environment is the principal adviser to the Secretary of Defense

and the Under Secretary of Defense for Acquisition, Technology, and Logistics on matters relating to Department of Defense installations and environmental policy.

“(9) One of the Assistant Secretaries shall be the Assistant Secretary of Defense for Manufacturing and Industrial Base. The Assistant Secretary of Defense for Manufacturing and Industrial Base is the principal adviser to the Secretary of Defense and the Under Secretary of Defense for Acquisition, Technology, and Logistics on policies relating to the defense industrial base, carrying out the requirements of chapter 148 of this title, and executing the authorities provided by the Defense Production Act of 1950 (50 U.S.C. App. 2061 et seq.).

“(10) One of the Assistant Secretaries shall be the Assistant Secretary of Defense for Readiness. The Assistant Secretary of Defense for Readiness is the principal adviser to the Secretary of Defense and the Under Secretary of Defense for Personnel and Readiness on matters relating to military readiness.

“(11) One of the Assistant Secretaries shall be the Assistant Secretary of Defense for Strategy, Plans, and Forces. The Assistant Secretary of Defense for Strategy, Plans, and Forces is the principal adviser to the Secretary of Defense and the Under Secretary of Defense for Policy on matters relating to strategy, plans, and forces.”.

(c) CONFORMING AND CLERICAL AMENDMENTS.—

(1) CONFORMING AMENDMENTS.—

(A) Section 133a of such title is amended—

(i) by striking “Deputy Under Secretary of Defense for Acquisition and Technology” each place it appears and inserting “Principal Deputy Under Secretary of Defense for Acquisition, Technology, and Logistics”; and

(ii) by striking “duties relating to acquisition and technology” and inserting “duties”.

(B) Section 134a of such title is amended by striking “Deputy Under Secretary” each place it appears and inserting “Principal Deputy Under Secretary”.

(C) Section 134b of such title is repealed.

(D) Section 136a of such title is amended by striking “Deputy Under Secretary” each place it appears and inserting “Principal Deputy Under Secretary”.

(2) SECTION HEADING AMENDMENTS.—

(A) The heading of section 133a of such title is amended to read as follows:

“§ 133a. Principal Deputy Under Secretary of Defense for Acquisition, Technology, and Logistics”.

(B) The heading of section 134a of such title is amended to read as follows:

“§ 134a. Principal Deputy Under Secretary of Defense for Policy”.

(C) The heading of section 136a of such title is amended to read as follows:

“§ 136a. Principal Deputy Under Secretary of Defense for Personnel and Readiness”.

(D) The heading of section 138a of such title, as transferred and redesignated by subsection (b)(1) of this section, is amended to read as follows:

“§ 138a. Assistant Secretary of Defense for Logistics and Materiel Readiness”.

(3) CLERICAL AMENDMENTS.—The table of sections at the beginning of chapter 4 of such title is amended—

(A) by striking the item relating to section 133a and inserting the following new item:

“133a. Principal Deputy Under Secretary of Defense for Acquisition, Technology, and Logistics.”;

(B) by striking the items relating to sections 134a and 134b and inserting the following new item:

“134a. Principal Deputy Under Secretary of Defense for Policy.”;

(C) by striking the item relating to section 136a and inserting the following new item:

“136a. Principal Deputy Under Secretary of Defense for Personnel and Readiness.”;

(D) by inserting after the item relating to section 137 the following new item:

“137a. Deputy Under Secretaries of Defense.”; and

(E) by inserting after the item relating to section 138 the following new item:

“138a. Assistant Secretary of Defense for Logistics and Materiel Readiness.”.

(d) EXECUTIVE SCHEDULE MATTERS.—

(1) LEVEL III.—Section 5314 of title 5, United States Code, is amended by striking the item relating to the Deputy Under Secretary of Defense for Acquisition and Technology and inserting the following new item:

“Principal Deputy Under Secretary of Defense for Acquisition, Technology, and Logistics.”.

(2) LEVEL IV.—Section 5315 of such title is amended—

(A) by striking the item relating to the Assistant Secretaries of Defense and inserting the following new item:

“Assistant Secretaries of Defense (16).”; and

(B) by striking the items relating to the Deputy Under Secretary of Defense for Policy, the Deputy Under Secretary of Defense for Personnel and Readiness, and the Deputy Under Secretary of Defense for Logistics and Materiel Readiness and inserting the following new items:

“Principal Deputy Under Secretary of Defense for Policy.

“Principal Deputy Under Secretary of Defense for Personnel and Readiness.

“Principal Deputy Under Secretary of Defense (Comptroller).

“Principal Deputy Under Secretary of Defense for Intelligence.”.

SEC. 902. REPEAL OF CERTAIN LIMITATIONS ON PERSONNEL AND CONSOLIDATION OF REPORTS ON MAJOR DEPARTMENT OF DEFENSE HEADQUARTERS ACTIVITIES.

(a) REPEAL OF CERTAIN LIMITATIONS ON PERSONNEL ASSIGNED TO MAJOR HEADQUARTERS ACTIVITIES.—

(1) REPEALS.—The following provisions of law are repealed:

(A) Section 143 of title 10, United States Code.

(B) Section 194 of such title.

(C) Sections 3014(f), 5014(f), and 8014(f) of such title.

(D) Section 601 of the Goldwater-Nichols Department of Defense Reorganization Act of 1986 (10 U.S.C. 194 note).

(2) CLERICAL AMENDMENTS.—

(A) The table of sections at the beginning of chapter 4 of title 10, United States Code, is amended by striking the item relating to section 143.

(B) The table of sections at the beginning of subchapter I of chapter 8 of such title is amended by striking the item relating to section 194.

(b) CONSOLIDATED ANNUAL REPORT.—

(1) INCLUSION IN ANNUAL DEFENSE MANPOWER REQUIREMENTS REPORT.—Section 115a of such title is amended by inserting after subsection (e) the following new subsection:

“(f) The Secretary shall also include in each such report the following information with respect to personnel assigned to or supporting major Department of Defense headquarters activities:

“(1) The military end strength and civilian full-time equivalents assigned to major Department of Defense headquarters activities for the preceding fiscal year and estimates of such

numbers for the current fiscal year and the budget fiscal year.

“(2) A summary of the replacement during the preceding fiscal year of contract workyears providing support to major Department of Defense headquarters activities with military end strength or civilian full-time equivalents, including an estimate of the number associated with the replacement of contracts performing inherently governmental or exempt functions.

“(3) The plan for the continued review of contract personnel supporting major Department of Defense headquarters activities for possible conversion to military or civilian performance in accordance with section 2463 of this title.”.

(2) TECHNICAL AMENDMENTS TO REFLECT NAME OF REPORT.—

(A) Subsection (a) of such section is amended by inserting “defense” before “manpower requirements report”.

(B)(i) The heading of such section is amended to read as follows:

“§ 115a. Annual defense manpower requirements report”.

(ii) The item relating to such section in the table of sections at the beginning of chapter 2 of such title is amended to read as follows:

“115a. Annual defense manpower requirements report.”.

(3) CONFORMING REPEALS.—The following provisions of law are repealed:

(A) Subsections (b) and (c) of section 901 of the National Defense Authorization Act for Fiscal Year 2008 (Public Law 110-181; 122 Stat. 272).

(B) Section 1111 of the Duncan Hunter National Defense Authorization Act for Fiscal Year 2009 (Public Law 110-417; 122 Stat. 4619).

SEC. 903. SENSE OF SENATE ON THE WESTERN HEMISPHERE INSTITUTE FOR SECURITY COOPERATION.

(a) FINDINGS.—The Senate makes the following findings:

(1) The Western Hemisphere Institute for Security Cooperation was established by section 911 of the Floyd D. Spence National Defense Authorization Act for Fiscal Year 2001 (as enacted into law by Public Law 106-398; 114 Stat. 1654A-226).

(2) The Western Hemisphere Institute for Security Cooperation provides professional education and training to military personnel, law enforcement officials, and civilian personnel in support of the democratic principles set forth in the Charter of the Organization of American States. The Institute effectively promotes mutual knowledge, transparency, confidence, and cooperation among participating nations. It also effectively builds strategic partnerships to address the great security challenges in the region while encouraging democratic values, respect for human rights, subordination to civilian authority, and understanding of United States customs and traditions.

(3) The Western Hemisphere Institute for Security Cooperation supports the Security Cooperation Guidance of the Secretary of Defense by addressing the building partner capacity education and training needs of the United States Southern Command and the United States Northern Command.

(4) In a joint letter, dated April 9, 2009, General Renuart, the Commander of the United States Northern Command, and Admiral Stavridis, the Commander of the United States Southern Command, write “[t]he outstanding service that WHINSEC provides directly supports the United States Southern Command’s and United States Northern Command’s strategic objective of fostering lasting partnerships that will ensure security, enhance stability, and enable prosperity throughout the Americas” and notes that the Institute provides “culturally-sensitive training, with a strong emphasis on the values of democracy and human rights”.

(5) In establishing the Western Hemisphere Institute for Security Cooperation, Congress mandates that participants at the Institute receive a minimum of 8 hours of instruction on human rights, due process, the rule of law, the role of the Armed Forces in a democratic society, and civilian control of the military. Every course devotes at least 10 percent of its course work to democracy, ethics, and human rights issues. The Institute is also required to develop a curriculum that includes leadership development, counterdrug operations, peacekeeping, resource management, and disaster relief planning. In fiscal year 2008, the Institute presented 39 courses and hosted 1,196 students in residence at Fort Benning, Georgia, of whom 292 were police personnel, and trained an additional 280 students through the Mobile Training Team programs of the Institute.

(6) Congress mandated the formation of a Federal advisory committee—an oversight committee unique to the Western Hemisphere Institute for Security Cooperation. It provides recommendations and an independent review of the Institute and its curriculum to ensure the uniform adherence of the Institute to United States law, regulations, and policies. The Board of Visitors of the Institute includes the Chairman and Ranking Member of the Committee on Armed Services of the Senate, the Chairman and Ranking Member of the Committee on Armed Services of the House of Representatives, the Secretary of State, the Commander of the United States Southern Command, the Commander of the United States Northern Command, the Commander of the United States Training and Doctrine Command, and six members designated by the Secretary of Defense. The six members designated by the Secretary of Defense include, to the extent practicable, individuals from academia and the religious and human rights communities. In addition to the 13 members of the Board of Visitors, advisors and subject matter experts assist the Board in areas the Board considers necessary and appropriate.

(7) The Western Hemisphere Institute for Security Cooperation operates in accordance with section 8130 of the Department of Defense Appropriations Act, 1999 (Public Law 105-262; 112 Stat. 2335) that prohibits United States military assistance to foreign military units that violate human rights, including security assistance programs funded through appropriations available for foreign operations and training programs funded through appropriations made available for the Department of Defense.

(8) The Western Hemisphere Institute for Security Cooperation does not select students for participation in its courses. A partner nation nominates students to attend the Institute, and in accordance with the law of the United States and the policies of the Department of Defense and the Department of State, the United States Embassy in such partner nation screens and conducts background checks on such nominees. The vetting process of nominees for participation in the Institute includes a background check by United States embassies in partner nations, as well as checks by the Bureau of Western Hemisphere Affairs and the Bureau of Democracy, Human Rights, and Labor at the Department of State. The Department of State also uses the Abuse Case Evaluation System, a central database that aggregates human rights abuse data into a single, searchable location, to ensure nominees have not been accused of any human rights abuses.

(9) The training provided by the Western Hemisphere Institute for Security Cooperation is transparent and the Institute is open to visitors at any time. Visitors are welcome to sit in on classes, talk with students and faculty, and review instructional materials. Every year, the Institute hosts more than a thousand visiting students, faculty, civilian, and military officials.

(b) **SENSE OF SENATE.**—It is the sense of the Senate that—

(1) the Western Hemisphere Institute for Security Cooperation—

(A) offers quality professional military bilingual instruction for military officers and non-commissioned officers that promotes democracy, subordination to civilian authority, and respect for human rights; and

(B) is uniquely positioned to support the modernization of Latin America security forces as they work to transcend their own controversial pasts;

(2) the Western Hemisphere Institute for Security Cooperation is building partner capacity which enhances regional and global security while encouraging respect for human rights and promoting democratic principles among eligible military personnel, law enforcement officials, and civilians of nations of the Western Hemisphere;

(3) the Western Hemisphere Institute for Security Cooperation is an invaluable education and training facility whose curriculum is not duplicated in any of the military departments and is not replaceable by professional military education funded by appropriations for International Military Education and Training (IMET), which education is not conducted in Spanish and does not concentrate on regional challenges; and

(4) the Western Hemisphere Institute for Security Cooperation is an essential tool to educate future generations of Latin American leaders and improve United States relationships with partner nations that are working with the United States to promote democracy, prosperity, and stability in the Western Hemisphere.

SEC. 904. REESTABLISHMENT OF POSITION OF VICE CHIEF OF THE NATIONAL GUARD BUREAU.

(a) **REESTABLISHMENT OF POSITION.**—

(1) **IN GENERAL.**—Chapter 1011 of title 10, United States Code, is amended—

(A) by redesignating section 10505 as section 10505a; and

(B) by inserting after section 10504 the following new section 10505:

“§ 10505. Vice Chief of the National Guard Bureau

“(a) **APPOINTMENT.**—(1) There is a Vice Chief of the National Guard Bureau, selected by the Secretary of Defense from officers of the Army National Guard of the United States or the Air National Guard of the United States who—

“(A) are recommended for such appointment by their respective Governors or, in the case of the District of Columbia, the commanding general of the District of Columbia National Guard;

“(B) have had at least 10 years of federally recognized service in an active status in the National Guard; and

“(C) are in a grade above the grade of colonel.

“(2) The Chief and Vice Chief of the National Guard Bureau may not both be members of the Army or of the Air Force.

“(3)(A) Except as provided in subparagraph (B), an officer appointed as Vice Chief of the National Guard Bureau serves for a term of four years, but may be removed from office at any time for cause.

“(B) The term of the Vice Chief of the National Guard Bureau shall end within a reasonable time (as determined by the Secretary of Defense) following the appointment of a Chief of the National Guard Bureau who is a member of the same armed force as the Vice Chief.

“(b) **DUTIES.**—The Vice Chief of the National Guard Bureau performs such duties as may be prescribed by the Chief of the National Guard Bureau.

“(c) **GRADE.**—The Vice Chief of the National Guard Bureau shall be appointed to serve in a grade decided by the Secretary of Defense.

“(d) **FUNCTIONS AS ACTING CHIEF.**—When there is a vacancy in the office of the Chief of the National Guard Bureau or in the absence or disability of the Chief, the Vice Chief of the National Guard Bureau acts as Chief and performs the duties of the Chief until a successor is appointed or the absence or disability ceases.”.

(2) **CLERICAL AMENDMENT.**—The table of sections at the beginning of chapter 1011 of such title is amended by striking the item relating to section 10505 and inserting the following new items:

“10505. Vice Chief of the National Guard Bureau.

“10505a. Director of the Joint Staff of the National Guard Bureau.”.

(b) **CONFORMING AMENDMENT.**—Section 10506(a)(1) of such title is amended by striking “and the Director of the Joint Staff of the National Guard Bureau” and inserting “, the Vice Chief of the National Guard Bureau, and the Director of the Joint Staff of the National Guard Bureau”.

Subtitle B—Space Matters

SEC. 911. PROVISION OF SPACE SITUATIONAL AWARENESS SERVICES AND INFORMATION TO NON-UNITED STATES GOVERNMENT ENTITIES.

(a) **IN GENERAL.**—Section 2274 of title 10, United States Code, is amended to read as follows:

“§ 2274. Space situational awareness services and information: provision to non-United States Government entities

“(a) **AUTHORITY.**—The Secretary of Defense may provide space situational awareness services and information to, and may obtain space situational awareness data and information from, non-United States Government entities in accordance with this section. Any such action may be taken only if the Secretary determines that such action is consistent with the national security interests of the United States.

“(b) **ELIGIBLE ENTITIES.**—The Secretary may provide services and information under subsection (a) to, and may obtain data and information under subsection (a) from, any non-United States Government entity, including any of the following:

“(1) A State.

“(2) A political subdivision of a State.

“(3) A United States commercial entity.

“(4) The government of a foreign country.

“(5) A foreign commercial entity.

“(c) **AGREEMENT.**—The Secretary may not provide space situational awareness services and information under subsection (a) to a non-United States Government entity unless that entity enters into an agreement with the Secretary under which the entity—

“(1) agrees to pay an amount that may be charged by the Secretary under subsection (d);

“(2) agrees not to transfer any data or technical information received under the agreement, including the analysis of data, to any other entity without the express approval of the Secretary; and

“(3) agrees to any other terms and conditions considered necessary by the Secretary.

“(d) **CHARGES.**—(1) As a condition of an agreement under subsection (c), the Secretary may (except as provided in paragraph (2)) require the non-United States Government entity entering into the agreement to pay to the Department of Defense such amounts as the Secretary determines appropriate to reimburse the Department for the costs to the Department of providing space situational awareness services or information under the agreement.

“(2) The Secretary may not require the government of a State, or of a political subdivision of a State, to pay any amount under paragraph (1).

“(e) CREDITING OF FUNDS RECEIVED.—(1) Funds received for the provision of space situational awareness services or information pursuant to an agreement under this section shall be credited, at the election of the Secretary, to the following:

“(A) The appropriation, fund, or account used in incurring the obligation.

“(B) An appropriate appropriation, fund, or account currently available for the purposes for which the expenditures were made.

“(2) Funds credited under paragraph (1) shall be merged with, and remain available for obligation with, the funds in the appropriation, fund, or account to which credited.

“(f) PROCEDURES.—The Secretary shall establish procedures by which the authority under this section shall be carried out. As part of those procedures, the Secretary may allow space situational awareness services or information to be provided through a contractor of the Department of Defense.

“(g) NONDISCLOSURE.—Any information received under subsection (a), records of agreements entered into under subsection (c), and analyses or data provided as a part of the provision of services or information under this section shall be exempt from disclosure under section 552(b)(3) of title 5.

“(h) IMMUNITY.—The United States, any agencies and instrumentalities thereof, and any individuals, firms, corporations, and other persons acting for the United States, shall be immune from any suit in any court for any cause of action arising from the provision or receipt of space situational awareness services or information, whether or not provided in accordance with this section, or any related action or omission.”

(b) CLERICAL AMENDMENT.—The table of sections at the beginning of chapter 135 of such title is amended by striking the item relating to section 2274 and inserting the following new item:

“2274. Space situational awareness services and information: provision to non-United States Government entities.”

(c) EFFECTIVE DATE.—The amendments made by this section shall take effect on October 1, 2009, or the date of the enactment of this Act, whichever is later.

SEC. 912. PLAN FOR MANAGEMENT AND FUNDING OF NATIONAL POLAR-ORBITING OPERATIONAL ENVIRONMENTAL SATELLITE SYSTEM PROGRAM.

(a) IN GENERAL.—The Secretary of Defense, the Secretary of Commerce, and the Administrator of the National Aeronautics and Space Administration shall jointly develop a plan for the management and funding of the National Polar-Orbiting Operational Environmental Satellite System Program (in this section referred to as the “Program”) by the Department of Defense, the Department of Commerce, and the National Aeronautics and Space Administration.

(b) ELEMENTS.—The plan required under subsection (a) shall include the following:

(1) Requirements for the Program.

(2) The management structure of the Program.

(3) A funding profile for the Program for each year of the Program for the Department of Defense, the Department of Commerce, and the National Aeronautics and Space Administration.

(c) LIMITATION ON USE OF FUNDS.—Of the amounts authorized to be appropriated for fiscal year 2010 by section 201(a)(3) for research, development, test, and evaluation for the Air Force and available for the Program, not more than 50 percent of such amounts may be obligated or expended before the date on which the plan developed under subsection (a) is submitted to the congressional defense committees, the Committee on Commerce, Science, and Transpor-

tation of the Senate, and the Committee on Energy and Commerce of the House of Representatives.

(d) SENSE OF SENATE.—It is the sense of the Senate that—

(1) the National Polar-Orbiting Operational Environmental Satellite System Program, including the sensors, satellites, and orbits included in the Program, should be maintained;

(2) the National Polar-Orbiting Operational Environmental Satellite System preparatory project should be managed and treated as an operational satellite;

(3) the responsibility of Department of Defense milestone decision authority for the Program should be delegated to the Department of Defense Executive Agent for Space, and the Department of Defense Executive Agent for Space should become the member of the Tri-Agency Executive Committee from the Department of Defense;

(4) the Program Executive Office of the Program should report directly to and take direction exclusively from the Tri-Agency Executive Committee;

(5) the acquisition procedures of the Department of Defense should continue to be used in the Program;

(6) the Administrator of the National Aeronautics and Space Administration and the Secretary of the Air Force should make support from the Goddard Space Flight Center and the Space and Missile Systems Center, respectively, available for the Program, as needed;

(7) the budget for the Program should not be less than the estimate of the Cost Analysis Improvement Group of the Department of Defense for the Program;

(8) the Program should continue to be managed by a single program manager;

(9) the Program should be managed as a long-term operational program; and

(10) once all requirements for the Program are fully agreed to by the Secretary of Defense, the Secretary of Commerce, and the Administrator of the National Aeronautics and Space Administration, the Program should be executed with no modifications to those requirements that would increase the cost, or extend the schedule, of the Program.

Subtitle C—Intelligence Matters

SEC. 921. INCLUSION OF DEFENSE INTELLIGENCE AGENCY IN AUTHORITY TO USE PROCEEDS FROM COUNTERINTELLIGENCE OPERATIONS.

(a) IN GENERAL.—Section 423 of title 10, United States Code, is amended by inserting “and the Defense Intelligence Agency” after “the military departments” each place it appears in subsections (a) and (c).

(b) CONFORMING AMENDMENTS.—

(1) HEADING AMENDMENT.—The heading of such section is amended to read as follows:

“§423. Authority to use proceeds from counterintelligence operations of the military departments and the Defense Intelligence Agency”.

(2) TABLE OF SECTIONS.—The table of sections at the beginning of chapter 21 of such title is amended by striking the item relating to section 423 and inserting the following new item:

“423. Authority to use proceeds from counterintelligence operations of the military departments and the Defense Intelligence Agency.”

Subtitle D—Other Matters

SEC. 931. UNITED STATES MILITARY CANCER INSTITUTE.

(a) ESTABLISHMENT.—Chapter 104 of title 10, United States Code, is amended by adding at the end the following new section:

“§2118. United States Military Cancer Institute

“(a) ESTABLISHMENT.—The Secretary of Defense shall establish in the University the

United States Military Cancer Institute. The Institute shall be established pursuant to regulations prescribed by the Secretary.

“(b) PURPOSES.—The purposes of the Institute are as follows:

“(1) To establish and maintain a clearinghouse of data on the incidence and prevalence of cancer among members and former members of the armed forces.

“(2) To conduct research that contributes to the detection or treatment of cancer among the members and former members of the armed forces.

“(c) HEAD OF INSTITUTE.—The Director of the United States Military Cancer Institute is the head of the Institute. The Director shall report to the President of the University regarding matters relating to the Institute.

“(d) ELEMENTS.—(1) The Institute is composed of clinical and basic scientists in the Department of Defense who have an expertise in research, patient care, and education relating to oncology and who meet applicable criteria for affiliation with the Institute.

“(2) The components of the Institute include military treatment and research facilities that meet applicable criteria and are designated as affiliates of the Institute.

“(e) RESEARCH.—(1) The Director of the United States Military Cancer Institute shall carry out research studies on the following:

“(A) The epidemiological features of cancer, including assessments of the carcinogenic effect of genetic and environmental factors, and of disparities in health, inherent or common among populations of various ethnic origins within the members of the armed forces.

“(B) The prevention and early detection of cancer among members and former members of the armed forces.

“(C) Basic, translational, and clinical investigation matters relating to the matters described in subparagraphs (A) and (B).

“(2) The research studies under paragraph (1) shall include complementary research on oncologic nursing.

“(f) COLLABORATIVE RESEARCH.—The Director of the United States Military Cancer Institute shall carry out the research studies under subsection (e) in collaboration with other cancer research organizations and entities selected by the Institute for purposes of the research studies.

“(g) ANNUAL REPORT.—(1) Not later than November 1 each year, the Director of the United States Military Cancer Institute shall submit to the President of the University a report on the current status of the research studies being carried out by the Institute under subsection (e).

“(2) Not later than 60 days after receiving a report under paragraph (1), the President of the University shall transmit such report to the Secretary of Defense and to Congress.”

(b) CLERICAL AMENDMENT.—The table of sections at the beginning of chapter 104 of such title is amended by adding at the end the following new item:

“2118. United States Military Cancer Institute.”

SEC. 932. INSTRUCTION OF PRIVATE SECTOR EMPLOYEES IN CYBER SECURITY COURSES OF THE DEFENSE CYBER INVESTIGATIONS TRAINING ACADEMY.

(a) AUTHORITY TO RECEIVE INSTRUCTION.—

(1) IN GENERAL.—The Secretary of Defense may permit eligible private sector employees to enroll in and receive instruction at the Defense Cyber Investigations Training Academy operated under the direction of the Defense Cyber Crime Center.

(2) LIMITATION.—Not more than the equivalent of 200 full-time student positions at the Defense Cyber Investigations Training Academy may be filled at any one time by private sector employees enrolled under this section.

(3) **CERTIFICATION.**—Upon successful completion of a course of instruction at the Defense Cyber Investigations Training Academy under this section, a private sector employee may be awarded an appropriate certification or diploma.

(b) **ELIGIBLE PRIVATE SECTOR EMPLOYEES.**—

(1) **IN GENERAL.**—For purposes of this section, an eligible private sector employee is an individual employed by a private entity, as determined by the Secretary—

(A) that is engaged in providing to the Department of Defense or other departments or agencies of the Federal Government significant and substantial defense-related systems, products, or services; or

(B) whose work product is relevant to national security policy or strategy.

(2) **DURATION OF TREATMENT.**—An individual is eligible for treatment as a private sector employee for purposes of this section only so long as the individual remains employed by a private entity described in paragraph (1).

(c) **CURRICULA OPEN TO ENROLLEES.**—The curricula of instruction for which eligible private sector employees may enroll at the Defense Cyber Investigations Training Academy under this section may only include curricula of instruction otherwise offered by the Academy that, as determined by the Secretary, are not readily available through other educational institutions.

(d) **TUITION.**—A private sector employee enrolled at the Defense Cyber Investigations Training Academy under this section shall be charged tuition at a rate equal to the rate charged for civilian employees of the Federal Government at the Academy.

(e) **STANDARDS OF CONDUCT.**—While receiving instruction at the Defense Cyber Investigations Training Academy under this section, private sector employees enrolled at the Academy under this section shall, to the extent practicable, be subject to the same regulations governing academic performance, attendance, norms of behavior, and enrollment as apply to civilian employees of the Federal Government receiving instruction at the Academy.

(f) **USE OF FUNDS.**—Notwithstanding section 3302 of title 31, United States Code, or any other provision of law, amounts received by the Defense Cyber Investigations Training Academy for the instruction of private sector employees enrolled under this section shall be retained by the Academy to defray the costs of such instruction. The source and disposition of funds so retained and utilized shall be specifically identified in records of the Academy.

SEC. 933. PLAN ON ACCESS TO NATIONAL AIRSPACE FOR UNMANNED AIRCRAFT.

(a) **IN GENERAL.**—The Secretary of Defense and the Secretary of Transportation shall, after consultation with the Secretary of Homeland Security, jointly develop a plan for providing access to the national airspace for unmanned aircraft of the Department of Defense.

(b) **ELEMENTS.**—The plan required by subsection (a) shall include the following:

(1) A description of how the Department of Defense and the Department of Transportation will communicate and cooperate, at the executive, management, and action levels, to provide access to the national airspace for unmanned aircraft of the Department of Defense.

(2) Specific milestones, aligned to operational and training needs, for providing access to the national airspace for unmanned aircraft and a transition plan for sites programmed to be activated as unmanned aerial system sites during fiscal years 2010 through 2015.

(3) Recommendations for policies with respect to use of the national airspace, flight standards, and operating procedures that should be implemented by the Department of Defense and the

Department of Transportation to accommodate unmanned aircraft assigned to any State or territory of the United States.

(4) An identification of resources required by the Department of Defense and the Department of Transportation to execute the plan.

(c) **REPORT.**—Not later than 180 days after the date of the enactment of this Act, the Secretary of Defense and the Secretary of Transportation shall submit to the congressional defense committees, the Committee on Commerce, Science, and Transportation of the Senate, and the Committee on Transportation and Infrastructure of the House of Representatives a report containing the plan required by subsection (a).

TITLE X—GENERAL PROVISIONS

Subtitle A—Financial Matters

SEC. 1001. GENERAL TRANSFER AUTHORITY.

(a) **AUTHORITY TO TRANSFER AUTHORIZATIONS.**—

(1) **AUTHORITY.**—Upon determination by the Secretary of Defense that such action is necessary in the national interest, the Secretary may transfer amounts of authorizations made available to the Department of Defense in this division for fiscal year 2010 between any such authorizations for that fiscal year (or any subdivisions thereof). Amounts of authorizations so transferred shall be merged with and be available for the same purposes as the authorization to which transferred.

(2) **LIMITATION.**—Except as provided in paragraph (3), the total amount of authorizations that the Secretary may transfer under the authority of this section may not exceed \$4,000,000,000.

(3) **EXCEPTION FOR TRANSFERS BETWEEN MILITARY PERSONNEL AUTHORIZATIONS.**—A transfer of funds between military personnel authorizations under title IV shall not be counted toward the dollar limitation in paragraph (2).

(b) **LIMITATIONS.**—The authority provided by this section to transfer authorizations—

(1) may only be used to provide authority for items that have a higher priority than the items from which authority is transferred; and

(2) may not be used to provide authority for an item that has been denied authorization by Congress.

(c) **EFFECT ON AUTHORIZATION AMOUNTS.**—A transfer made from one account to another under the authority of this section shall be deemed to increase the amount authorized for the account to which the amount is transferred by an amount equal to the amount transferred.

(d) **NOTICE TO CONGRESS.**—The Secretary shall promptly notify Congress of each transfer made under subsection (a)

SEC. 1002. AUDIT READINESS OF FINANCIAL STATEMENTS OF THE DEPARTMENT OF DEFENSE.

(a) **AUDIT READINESS OBJECTIVES.**—It shall be the objective of the Department of Defense to ensure that—

(1) the financial statements of the Department of the Army are validated as ready for audit by not later than March 31, 2017;

(2) the financial statements of the Department of the Navy are validated as ready for audit by not later than March 31, 2016;

(3) the financial statements of the Department of the Air Force are validated as ready for audit by not later than September 30, 2016;

(4) the financial statements of the Defense Logistics Agency are validated as ready for audit by not later than September 30, 2017; and

(5) the financial statements of the Department of Defense are validated as ready for audit by not later than September 30, 2017.

(b) **ADJUSTMENT OF DEADLINE FOR OBJECTIVES.**—

(1) **IN GENERAL.**—In the event that the appropriate chief management officer determines that the Department of Defense, a military depart-

ment, or the Defense Logistics Agency will be unable to meet the deadline for an objective as specified in subsection (a), the chief management officer may adjust the deadline for meeting such objective.

(2) **REPORT.**—Not later than 30 days after adjusting the deadline for an objective pursuant to paragraph (1), the chief management officer concerned shall submit to the congressional defense committees a report setting forth—

(A) a statement of the reasons why the Department of Defense, the military department, or the Defense Logistics Agency, as applicable, will be unable to meet the deadline for such objective;

(B) a proposed completion date for the achievement of compliance with such objective; and

(C) a description of the actions that have been taken and are planned to be taken by the Department of Defense, the military department, or the Defense Logistics Agency, as applicable, to meet such objective.

(3) **APPROPRIATE CHIEF MANAGEMENT OFFICER.**—For the purposes of this subsection, the appropriate chief management officer is as follows:

(A) For the objective in subsection (a)(1), the Chief Management Officer of the Army.

(B) For the objective in subsection (a)(2), the Chief Management Officer of the Navy.

(C) For the objective in subsection (a)(3), the Chief Management Officer of the Air Force.

(D) For the objective in subsection (a)(4), the Deputy Chief Management Officer of the Department of Defense.

(E) For the objective in subsection (a)(5), the Chief Management Officer of the Department of Defense.

(c) **FINANCIAL IMPROVEMENT AUDIT READINESS PLAN.**—

(1) **IN GENERAL.**—The Chief Management Officer of the Department of Defense shall, in consultation with the Under Secretary of Defense (Comptroller), develop and maintain a plan to be known as the “Financial Improvement and Audit Readiness Plan”.

(2) **ELEMENTS.**—The plan required by paragraph (1) shall—

(A) describe specific actions to be taken to—

(i) correct financial management deficiencies that impair the ability of the Department of Defense to prepare timely, reliable, and complete financial management information; and

(ii) meet the objectives specified in subsection (a); and

(B) systematically tie the actions described under subparagraph (A) to process and control improvements and business systems modernization efforts described in the business enterprise architecture and transition plan required by section 2222 of title 10, United States Code.

(d) **SEMI-ANNUAL REPORTS ON FINANCIAL IMPROVEMENT AND AUDIT READINESS PLAN.**—

(1) **IN GENERAL.**—Not later than May 15 and November 15 each year, the Under Secretary of Defense (Comptroller) shall submit to the congressional defense committees a report on the status of the implementation by the Department of Defense of the Financial Improvement and Audit Readiness Plan required by subsection (c).

(2) **ELEMENTS.**—Each report under paragraph (1) shall include, at a minimum—

(A) an overview of the steps the Department has taken or plans to take to meet the objectives specified in subsection (a), including any interim objectives established by the Department for that purpose; and

(B) a description of any impediments identified in the efforts of the Department to meet such objectives, and of the actions the Department has taken or plans to take to address such impediments.

(3) **ADDITIONAL ISSUES TO BE ADDRESSED IN FIRST REPORT.**—The first report submitted under

paragraph (1) after the date of the enactment of this Act shall address, in addition to the elements required by paragraph (2), the actions taken or to be taken by the Department as follows:

(A) To develop standardized guidance for financial improvement plans by components of the Department.

(B) To establish a baseline of financial management capabilities and weaknesses at the component level of the Department.

(C) To provide results-oriented metrics for measuring and reporting quantifiable results toward addressing financial management deficiencies.

(D) To define the oversight roles of the Chief Management Officer of the Department of Defense, the chief management officers of the military departments, and other appropriate elements of the Department to ensure that the requirements of the Financial Improvement and Audit Readiness Plan are carried out.

(E) To assign accountability for carrying out specific elements of the Financial Improvement and Audit Readiness Plan to appropriate officials and organizations at the component level of the Department.

(F) To develop mechanisms to track budgets and expenditures for the implementation of the requirements of the Financial Improvement and Audit Readiness Plan.

(e) **RELATIONSHIP TO EXISTING LAW.**—The requirements of this section shall be implemented in a manner that is consistent with the requirements of section 1008 of the National Defense Authorization Act for Fiscal Year 2002 (Public Law 107–107; 115 Stat. 1204; 10 U.S.C. 2222 note).

Subtitle B—Naval Vessels and Shipyards

SEC. 1011. TEMPORARY REDUCTION IN MINIMUM NUMBER OF AIRCRAFT CARRIERS IN ACTIVE SERVICE.

Notwithstanding section 5062(b) of title 10, United States Code, during the period beginning on the date of the decommissioning of the U.S.S. Enterprise (CVN 65) and ending on the date of the commissioning into active service of the U.S.S. Gerald R. Ford (CVN 78), the number of operational aircraft carriers in the naval combat forces of the Navy may be 10.

SEC. 1012. REPEAL OF POLICY RELATING TO THE MAJOR COMBATANT VESSELS OF THE STRIKE FORCES OF THE UNITED STATES NAVY.

Section 1012 of the National Defense Authorization Act for Fiscal Year 2008 (Public Law 110–181; 122 Stat. 303) is repealed.

SEC. 1013. SENSE OF SENATE ON THE MAINTENANCE OF A 313-SHIP NAVY.

(a) **FINDINGS.**—The Senate makes the following findings:

(1) The Department of the Navy has a stated requirement for a 313-ship fleet.

(2) The Navy can better meet this requirement—

(A) by procuring sufficient numbers of new ships; and

(B) by ensuring the sound material condition of existing ships that will enable the Navy to utilize them for their full planned service lives.

(3) When procuring new classes of ships, the Navy must exercise greater caution than it has exhibited to date in proceeding from one stage of the acquisition cycle to the next before a ship program has achieved a level of maturity that significantly lowers the risk of cost growth and schedule slippage.

(4) In retaining existing assets, the Navy can do a much better job of achieving the full planned service lives of ships and extending the service lives of certain ships so as to keep their unique capabilities in the fleet while the Navy takes the time necessary to develop and field next-generation capabilities under a low risk program.

(5) The Navy can undertake certain development approaches that can help the Navy control the total costs of ownership of a ship or class of ships, including emphasizing common hull designs, open architecture combat systems, and other common ship systems in order to achieve efficiency in acquiring and supporting various classes of ships.

(6) The Navy needs to continue its efforts toward achieving an open architecture for existing combat systems, as this will have great benefit in reducing the costs and risks of fielding new classes of ships, and will yield recurring savings from reducing the costs of buying later ships in a program and reducing life cycle support costs for ships and classes of ships.

(7) The Navy can also undertake other measures to acquire new ships and maintain the current fleet with greater efficiency, including—

(A) greater use of fixed-price contracts;

(B) maximizing competition (or the option of competition) throughout the life cycle of its ships;

(C) entering into multiyear contracts when warranted; and

(D) employing an incremental approach to developing new technologies.

(b) **SENSE OF SENATE.**—It is the sense of the Senate that—

(1) the Navy should meet its requirement for a 313-ship fleet;

(2) the Navy should take greater care to achieve the full planned service life of existing ships and reduce the incidence of early ship decommissioning;

(3) the Navy should exercise greater restraint on the acquisition process for ships in order to achieve on-time, on-cost shipbuilding programs; and

(4) Congress should support the Navy when it is acting responsibly to undertake measures that can help the Navy achieve the requirement for a 313-ship fleet and maintain a fleet that is adequate to meet the national security needs of the United States.

SEC. 1014. DESIGNATION OF U.S.S. CONSTITUTION AS AMERICA'S SHIP OF STATE.

(a) **FINDINGS.**—Congress makes the following findings:

(1) The 3rd Congress authorized, in the Act entitled “An Act to Provide a Naval Armament”, approved on March 27, 1794 (1 Stat. 350, Chap. XII), the construction of six frigates as the first ships to be built for the United States Navy.

(2) One of the six frigates was built in Boston between 1794 and 1797, and is the only one of the original six ships to survive.

(3) President George Washington named this frigate “Constitution” to represent the Nation’s founding document.

(4) President Thomas Jefferson, asserting the right of the United States to trade on the high seas, dispatched the frigate Constitution in 1803 as the flagship of the Mediterranean Squadron to end the depredations of the Barbary States against United States ships and shipping, which led to a treaty being signed with the Bashaw of Tripoli in the Captain’s cabin aboard the frigate Constitution on June 4, 1805.

(5) The frigate Constitution, with her defeat of HMS Guerriere, secured the first major victory by the young United States Navy against the Royal Navy during the War of 1812, gaining in the process the nickname “Old Ironsides”, which she has proudly carried since.

(6) Congress awarded gold medals to four of the ship’s commanding officers (Preble, Hull, Stewart, and Bainbridge), a record unmatched by any other United States Navy vessel.

(7) The frigate Constitution emerged from the War of 1812 undefeated, having secured victories over three additional ships of the Royal Navy.

(8) As early as May 1815, the frigate Constitution had already been adopted as a symbol of

the young Republic, as attested by the [Washington] National Intelligencer which proclaimed, “Let us keep ‘Old Ironsides’ at home. She has, literally become the Nation’s Ship . . . and should thus be preserved . . . in honorable pomp, as a glorious Monument of her own, and our other Naval Victories.”.

(9) Rumors in 1830 that “Old Ironsides,” an aging frigate, was about to be scrapped resulted in a public uproar demanding that the ship be restored and preserved, spurred by Oliver Wendell Holmes’ immortal poem “Old Ironsides”.

(10) “Old Ironsides” circumnavigated the world between 1844 and 1846, showing the American flag as she searched for future coaling stations that would eventually fuel the steam-powered navy of the United States.

(11) The first Pope to set foot on United States sovereign territory was Pius IX onboard the frigate Constitution in 1849.

(12) “Old Ironsides” helped evacuate the United States Naval Academy from Annapolis, Maryland, to Newport, Rhode Island, in 1860 to prevent this esteemed ship from falling into Confederate hands.

(13) Congressman John F. “Honey Fitz” Fitzgerald introduced legislation in 1896 to return “Old Ironsides” from the Portsmouth (New Hampshire) Naval Shipyard, where she was moored pier side and largely forgotten, to Boston for her 100th birthday.

(14) Thousands of school children contributed pennies between 1925 and 1927 to help fund a much needed restoration for “Old Ironsides”.

(15) Between 1931 and 1934, more than 4,500,000 Americans gained inspiration, at the depth of the Great Depression, by going aboard “Old Ironsides” as she was towed to 76 ports on the Atlantic, Gulf, and Pacific coasts.

(16) The 83rd Congress enacted the Act of July 23, 1954 (68 Stat. 527, chapter 565), which directed the Secretary of the Navy to transfer to the States and appropriate commissions four other historic ships then on the Navy inventory, and to repair and equip U.S.S. Constitution, as much as practicable, to her original condition, but not for active service.

(17) Queen Elizabeth II paid a formal visit to U.S.S. Constitution in 1976, at the start of her state visit marking the Bicentennial of the United States.

(18) The U.S.S. Constitution, in celebration of her bicentennial, returned to sea under sail on July 21, 1997 for the first time since 1881, proudly setting sails purchased by the contributions of thousands of pennies given by school children across the United States.

(19) The U.S.S. Constitution is the oldest commissioned warship afloat in the world.

(20) The U.S.S. Constitution is a National Historic Landmark.

(21) The U.S.S. Constitution continues to perform official, ceremonial duties, including in recent years hosting a congressional dinner honoring the late Senator John Chafee of Rhode Island, a special salute for the dedication of the John Moakley Federal Courthouse, a luncheon honoring British Ambassador Sir David Manning, and a special underway demonstration during which 60 Medal of Honor recipients each received a personal Medal of Honor flag.

(22) The U.S.S. Constitution celebrated on October 21, 2007, the 210th anniversary of her launching.

(23) The U.S.S. Constitution will remain a commissioned ship in the United States Navy, with the Navy retaining control of the ship, its material condition, and its employment.

(24) The U.S.S. Constitution’s primary mission will remain education and public outreach, and any Ship of State functions will be an adjunct to the ship’s primary mission.

(b) **DESIGNATION AS AMERICA’S SHIP OF STATE.**—

(1) IN GENERAL.—The U.S.S. Constitution is hereby designated as “America’s Ship of State”.

(2) REFERENCES.—The U.S.S. Constitution may be known or referred to as “America’s Ship of State”.

(3) SENSE OF CONGRESS.—It is the sense of Congress that the President, Vice President, executive branch officials, and members of Congress should utilize the U.S.S. Constitution for the conducting of pertinent matters of state, such as hosting visiting heads of state, signing legislation relating to the Armed Forces, and signing maritime related treaties.

(4) FEE OR REIMBURSEMENT STRUCTURE FOR NON-DEPARTMENT OF THE NAVY USE.—The Secretary of the Navy shall determine an appropriate fee or reimbursement structure for any non-Department of the Navy entities using the U.S.S. Constitution for Ship of State purposes.

Subtitle C—Counter-Drug Activities

SEC. 1021. EXTENSION AND MODIFICATION OF AUTHORITY TO PROVIDE ADDITIONAL SUPPORT FOR COUNTER-DRUG ACTIVITIES OF CERTAIN FOREIGN GOVERNMENTS.

(a) EXTENSION OF AUTHORITY.—Subsection (a)(2) of section 1033 of the National Defense Authorization Act for Fiscal Year 1998 (Public Law 105–85; 111 Stat. 1881), as amended by section 1021 of the National Defense Authorization Act for Fiscal Year 2004 (Public Law 108–136; 117 Stat. 1593), section 1022 of the John Warner National Defense Authorization Act for Fiscal Year 2007 (Public Law 109–364; 120 Stat. 2137), section 1022 of the National Defense Authorization Act for Fiscal Year 2008 (Public Law 110–181; 122 Stat. 304), and section 1024 of the Duncan Hunter National Defense Authorization Act for Fiscal Year 2009 (Public Law 110–417; 122 Stat. 4587), is further amended by striking “2009” and inserting “2010”.

(b) MAXIMUM ANNUAL AMOUNT OF SUPPORT.—Subsection (e)(2) of such section is amended—

(1) by striking “or” before “\$75,000,000”; and

(2) by striking the period at the end and inserting “, or \$100,000,000 during fiscal year 2010.”.

(c) CONDITIONS ON PROVISION OF SUPPORT.—Subsection (f)(2) of such section is amended in the matter preceding subparagraph (A) by striking “for fiscal year 2009 to carry out this section and the first fiscal year in which the support is to be provided” and inserting “and available for support”.

(d) COUNTER-DRUG PLAN.—Subsection (h) of such section is amended—

(1) in the matter preceding paragraph (1), by striking “fiscal year 2009” and inserting “for each fiscal year”; and

(2) in paragraph (7), by striking “fiscal year 2009, and thereafter, for the first fiscal year in which support is to be provided” and inserting “each fiscal year in which support is to be provided a government”.

SEC. 1022. ONE-YEAR EXTENSION OF AUTHORITY FOR JOINT TASK FORCES SUPPORT TO LAW ENFORCEMENT AGENCIES CONDUCTING COUNTER-TERRORISM ACTIVITIES.

(a) ONE-YEAR EXTENSION.—Subsection (b) of section 1022 of the National Defense Authorization Act for Fiscal Year 2004 (10 U.S.C. 371 note) is amended by striking “2009” and inserting “2010”.

(b) ANNUAL REPORT.—Subsection (c) of such section is amended to read as follows:

“(c) ANNUAL REPORT.—Not later than December 31 of each year after 2008 in which the authority in subsection (a) is in effect, the Secretary of Defense shall submit to the congressional defense committees a report setting forth, for the one-year period ending on the date of such report, the following:

“(1) An assessment of the effect on counter-drug and counter-terrorism activities and objec-

tives of using counter-drug funds of a joint task force to provide counterterrorism support authorized by subsection (a).

“(2) A description of the type of support and any recipient of support provided under subsection (a).

“(3) A list of current joint task forces conducting counter-drug operations.”.

SEC. 1023. ONE-YEAR EXTENSION OF AUTHORITY TO SUPPORT UNIFIED COUNTER-DRUG AND COUNTERTERRORISM CAMPAIGN IN COLOMBIA.

Section 1021 of the Ronald W. Reagan National Defense Authorization Act for Fiscal Year 2005 (Public Law 108–375; 118 Stat. 2042), as amended by section 1023 of the John Warner National Defense Authorization Act for Fiscal Year 2007 (Public Law 109–364; 120 Stat. 2382) and section 1023 of the Duncan Hunter National Defense Authorization Act for Fiscal Year 2009 (Public Law 110–417; 122 Stat. 4586), is further amended—

(1) in subsection (a)(1), by striking “2009” and inserting “2010”; and

(2) in subsection (c), by striking “2009” and inserting “2010”.

Subtitle D—Military Commissions

SEC. 1031. MILITARY COMMISSIONS.

(a) IN GENERAL.—Chapter 47A of title 10, United States Code, is amended to read as follows:

“CHAPTER 47A—MILITARY COMMISSIONS

“SUBCHAPTER	Sec.
“I. General Provisions	948a.
“II. Composition of Military Commissions	948h.
“III. Pre-Trial Procedure	948g.
“IV. Trial Procedure	949a.
“V. Classified Information Procedures ..	949p–1.
“VI. Sentences	949s.
“VII. Post-Trial Procedures and Review of Military Commissions	950a.
“VIII. Punitive Matters	950p.

“SUBCHAPTER I—GENERAL PROVISIONS

“Sec.	
“948a. Definitions.	
“948b. Military commissions generally.	
“948c. Persons subject to military commissions.	
“948d. Jurisdiction of military commissions.	

“§948a. Definitions

“In this chapter:

“(1) ALIEN.—The term ‘alien’ means an individual who is not a citizen of the United States.

“(2) CLASSIFIED INFORMATION.—The term ‘classified information’ means the following:

“(A) Any information or material that has been determined by the United States Government pursuant to statute, Executive order, or regulation to require protection against unauthorized disclosure for reasons of national security.

“(B) Any restricted data, as that term is defined in section 11 y. of the Atomic Energy Act of 1954 (42 U.S.C. 2014(y)).

“(3) COALITION PARTNER.—The term ‘coalition partner’, with respect to hostilities engaged in by the United States, means any State or armed force directly engaged along with the United States in such hostilities or providing direct operational support to the United States in connection with such hostilities.

“(4) GENEVA CONVENTION RELATIVE TO THE TREATMENT OF PRISONERS OF WAR.—The term ‘Geneva Convention Relative to the Treatment of Prisoners of War’ means the Convention Relative to the Treatment of Prisoners of War, done at Geneva August 12, 1949 (6 UST 3316).

“(5) GENEVA CONVENTIONS.—The term ‘Geneva Conventions’ means the international conventions signed at Geneva on August 12, 1949.

“(6) PRIVILEGED BELLIGERENT.—The term ‘privileged belligerent’ means an individual be-

longing to one of the eight categories enumerated in Article 4 of the Geneva Convention Relative to the Treatment of Prisoners of War.

“(7) UNPRIVILEGED ENEMY BELLIGERENT.—The term ‘unprivileged enemy belligerent’ means an individual (other than a privileged belligerent) who—

“(A) has engaged in hostilities against the United States or its coalition partners;

“(B) has purposefully and materially supported hostilities against the United States or its coalition partners; or

“(C) is a member of al Qaeda.

“(8) NATIONAL SECURITY.—The term ‘national security’ means the national defense and foreign relations of the United States.

“§948b. Military commissions generally

“(a) PURPOSE.—This chapter establishes procedures governing the use of military commissions to try alien unprivileged enemy belligerents for violations of the law of war and other offenses triable by military commission.

“(b) AUTHORITY FOR MILITARY COMMISSIONS UNDER THIS CHAPTER.—The President is authorized to establish military commissions under this chapter for offenses triable by military commission as provided in this chapter.

“(c) CONSTRUCTION OF PROVISIONS.—The procedures for military commissions set forth in this chapter are based upon the procedures for trial by general courts-martial under chapter 47 of this title (the Uniform Code of Military Justice). Chapter 47 of this title does not, by its terms, apply to trial by military commission except as specifically provided therein or in this chapter, and many of the provisions of chapter 47 of this title are by their terms inapplicable to military commissions. The judicial construction and application of chapter 47 of this title, while instructive, is therefore not of its own force binding on military commissions established under this chapter.

“(d) INAPPLICABILITY OF CERTAIN PROVISIONS.—(1) The following provisions of this title shall not apply to trial by military commission under this chapter:

“(A) Section 810 (article 10 of the Uniform Code of Military Justice), relating to speedy trial, including any rule of courts-martial relating to speedy trial.

“(B) Sections 831(a), (b), and (d) (articles 31(a), (b), and (d) of the Uniform Code of Military Justice), relating to compulsory self-incrimination.

“(C) Section 832 (article 32 of the Uniform Code of Military Justice), relating to pretrial investigation.

“(2) Other provisions of chapter 47 of this title shall apply to trial by military commission under this chapter only to the extent provided by the terms of such provisions or by this chapter.

“(e) TREATMENT OF RULINGS AND PRECEDENTS.—The findings, holdings, interpretations, and other precedents of military commissions under this chapter may not be introduced or considered in any hearing, trial, or other proceeding of a court-martial convened under chapter 47 of this title. The findings, holdings, interpretations, and other precedents of military commissions under this chapter may not form the basis of any holding, decision, or other determination of a court-martial convened under that chapter.

“(f) GENEVA CONVENTIONS NOT ESTABLISHING PRIVATE RIGHT OF ACTION.—No alien unprivileged enemy belligerent subject to trial by military commission under this chapter may invoke the Geneva Conventions as a basis for a private right of action.

“§948c. Persons subject to military commissions

“Any alien unprivileged enemy belligerent having engaged in hostilities or having supported hostilities against the United States is

subject to trial by military commission as set forth in this chapter.

“§948d. Jurisdiction of military commissions

“A military commission under this chapter shall have jurisdiction to try persons subject to this chapter for any offense made punishable by this chapter, sections 904 and 906 of this title (articles 104 and 106 of the Uniform Code of Military Justice), or the law of war, and may, under such limitations as the President may prescribe, adjudge any punishment not forbidden by this chapter, including the penalty of death when specifically authorized under this chapter. A military commission is a competent tribunal to make a finding sufficient for jurisdiction.

“SUBCHAPTER II—COMPOSITION OF MILITARY COMMISSIONS

“Sec.

“948h. Who may convene military commissions.

“948i. Who may serve on military commissions.

“948j. Military judge of a military commission.

“948k. Detail of trial counsel and defense counsel.

“948l. Detail or employment of reporters and interpreters.

“948m. Number of members; excuse of members; absent and additional members.

“§948h. Who may convene military commissions

“Military commissions under this chapter may be convened by the Secretary of Defense or by any officer or official of the United States designated by the Secretary for that purpose.

“§948i. Who may serve on military commissions

“(a) IN GENERAL.—Any commissioned officer of the armed forces on active duty is eligible to serve on a military commission under this chapter, including commissioned officers of the reserve components of the armed forces on active duty, commissioned officers of the National Guard on active duty in Federal service, or retired commissioned officers recalled to active duty.

“(b) DETAIL OF MEMBERS.—When convening a military commission under this chapter, the convening authority shall detail as members thereof such members of the armed forces eligible under subsection (a) who, as in the opinion of the convening authority, are best qualified for the duty by reason of age, education, training, experience, length of service, and judicial temperament. No member of an armed force is eligible to serve as a member of a military commission when such member is the accuser or a witness for the prosecution or has acted as an investigator or counsel in the same case.

“(c) EXCUSE OF MEMBERS.—Before a military commission under this chapter is assembled for the trial of a case, the convening authority may excuse a member from participating in the case.

“§948j. Military judge of a military commission

“(a) DETAIL OF MILITARY JUDGE.—A military judge shall be detailed to each military commission under this chapter. The Secretary of Defense shall prescribe regulations providing for the manner in which military judges are so detailed to military commissions. The military judge shall preside over each military commission to which he has been detailed.

“(b) ELIGIBILITY.—A military judge shall be a commissioned officer of the armed forces who is a member of the bar of a Federal court, or a member of the bar of the highest court of a State, and who is certified to be qualified for duty under section 826 of this title (article 26 of the Uniform Code of Military Justice) as a military judge in general courts-martial by the Judge Advocate General of the armed force of which such military judge is a member.

“(c) INELIGIBILITY OF CERTAIN INDIVIDUALS.—No person is eligible to act as military judge in a case of a military commission under this chapter if he is the accuser or a witness or has acted as investigator or a counsel in the same case.

“(d) CONSULTATION WITH MEMBERS; INELIGIBILITY TO VOTE.—A military judge detailed to a military commission under this chapter may not consult with the members except in the presence of the accused (except as otherwise provided in section 949d of this title), trial counsel, and defense counsel, nor may he vote with the members.

“(e) OTHER DUTIES.—A commissioned officer who is certified to be qualified for duty as a military judge of a military commission under this chapter may perform such other duties as are assigned to him by or with the approval of the Judge Advocate General of the armed force of which such officer is a member or the designee of such Judge Advocate General.

“(f) PROHIBITION ON EVALUATION OF FITNESS BY CONVENING AUTHORITY.—The convening authority of a military commission under this chapter shall not prepare or review any report concerning the effectiveness, fitness, or efficiency of a military judge detailed to the military commission which relates to his performance of duty as a military judge on the military commission.

“§948k. Detail of trial counsel and defense counsel

“(a) DETAIL OF COUNSEL GENERALLY.—(1) Trial counsel and military defense counsel shall be detailed for each military commission under this chapter.

“(2) Assistant trial counsel and assistant and associate defense counsel may be detailed for a military commission under this chapter.

“(3) Military defense counsel for a military commission under this chapter shall be detailed as soon as practicable.

“(4) The Secretary of Defense shall prescribe regulations providing for the manner in which trial counsel and military defense counsel are detailed for military commissions under this chapter and for the persons who are authorized to detail such counsel for such military commissions.

“(b) TRIAL COUNSEL.—Subject to subsection (e), trial counsel detailed for a military commission under this chapter must be—

“(1) a judge advocate (as that term is defined in section 801 of this title (article 1 of the Uniform Code of Military Justice)) who is—

“(A) a graduate of an accredited law school or is a member of the bar of a Federal court or of the highest court of a State; and

“(B) certified as competent to perform duties as trial counsel before general courts-martial by the Judge Advocate General of the armed force of which he is a member; or

“(2) a civilian who is—

“(A) a member of the bar of a Federal court or of the highest court of a State; and

“(B) otherwise qualified to practice before the military commission pursuant to regulations prescribed by the Secretary of Defense.

“(c) MILITARY DEFENSE COUNSEL.—Subject to subsection (e), military defense counsel detailed for a military commission under this chapter must be a judge advocate (as so defined) who is—

“(1) a graduate of an accredited law school or is a member of the bar of a Federal court or of the highest court of a State; and

“(2) certified as competent to perform duties as defense counsel before general courts-martial by the Judge Advocate General of the armed force of which he is a member.

“(d) CHIEF PROSECUTOR; CHIEF DEFENSE COUNSEL.—(1) The Chief Prosecutor in a military commission under this chapter shall meet the requirements set forth in subsection (b)(1).

“(2) The Chief Defense Counsel in a military commission under this chapter shall meet the requirements set forth in subsection (c)(1).

“(e) INELIGIBILITY OF CERTAIN INDIVIDUALS.—No person who has acted as an investigator, military judge, or member of a military commission under this chapter in any case may act later as trial counsel or military defense counsel in the same case. No person who has acted for the prosecution before a military commission under this chapter may act later in the same case for the defense, nor may any person who has acted for the defense before a military commission under this chapter act later in the same case for the prosecution.

“§948l. Detail or employment of reporters and interpreters

“(a) COURT REPORTERS.—Under such regulations as the Secretary of Defense may prescribe, the convening authority of a military commission under this chapter shall detail to or employ for the military commission qualified court reporters, who shall prepare a verbatim record of the proceedings of and testimony taken before the military commission.

“(b) INTERPRETERS.—Under such regulations as the Secretary of Defense may prescribe, the convening authority of a military commission under this chapter may detail to or employ for the military commission interpreters who shall interpret for the military commission, and, as necessary, for trial counsel and defense counsel for the military commission, and for the accused.

“(c) TRANSCRIPT; RECORD.—The transcript of a military commission under this chapter shall be under the control of the convening authority of the military commission, who shall also be responsible for preparing the record of the proceedings of the military commission.

“§948m. Number of members; excuse of members; absent and additional members

“(a) NUMBER OF MEMBERS.—(1) A military commission under this chapter shall, except as provided in paragraph (2), have at least five members.

“(2) In a case in which the accused before a military commission under this chapter may be sentenced to a penalty of death, the military commission shall have the number of members prescribed by section 949m(c) of this title.

“(b) EXCUSE OF MEMBERS.—No member of a military commission under this chapter may be absent or excused after the military commission has been assembled for the trial of a case unless excused—

“(1) as a result of challenge;

“(2) by the military judge for physical disability or other good cause; or

“(3) by order of the convening authority for good cause.

“(c) ABSENT AND ADDITIONAL MEMBERS.—Whenever a military commission under this chapter is reduced below the number of members required by subsection (a), the trial may not proceed unless the convening authority details new members sufficient to provide not less than such number. The trial may proceed with the new members present after the recorded evidence previously introduced before the members has been read to the military commission in the presence of the military judge, the accused (except as provided in section 949d of this title), and counsel for both sides.

“SUBCHAPTER III—PRE-TRIAL PROCEDURE

“Sec.

“948q. Charges and specifications.

“948r. Compulsory self-incrimination prohibited; statements obtained by torture or cruel, inhuman, or degrading treatment.

“948s. Service of charges.

“§948q. Charges and specifications

“(a) CHARGES AND SPECIFICATIONS.—Charges and specifications against an accused in a military commission under this chapter shall be signed by a person subject to chapter 47 of this title under oath before a commissioned officer of the armed forces authorized to administer oaths and shall state—

“(1) that the signer has personal knowledge of, or reason to believe, the matters set forth therein; and

“(2) that they are true in fact to the best of his knowledge and belief.

“(b) NOTICE TO ACCUSED.—Upon the swearing of the charges and specifications in accordance with subsection (a), the accused shall be informed of the charges and specifications against him as soon as practicable.

“§948r. Compulsory self-incrimination prohibited; statements obtained by torture or cruel, inhuman, or degrading treatment

“(a) IN GENERAL.—No person shall be required to testify against himself at a proceeding of a military commission under this chapter.

“(b) STATEMENTS OBTAINED BY TORTURE.—A statement obtained by use of torture, whether or not under color of law, shall not be admissible in a trial by military commission under this chapter, except against a person accused of torture as evidence the statement was made.

“(c) STATEMENTS OBTAINED THROUGH CRUEL, INHUMAN, OR DEGRADING TREATMENT.—A statement in which the degree of coercion is disputed may be admissible in a trial by military commission under this chapter only if the military judge finds that—

“(1) the totality of the circumstances renders the statement reliable and possessing sufficient probative value;

“(2) the interests of justice would best be served by admission of the statement into evidence; and

“(3) the interrogation methods used to obtain the statement do not amount to cruel, inhuman, or degrading treatment prohibited by section 1003 of the Detainee Treatment Act of 2005 (42 U.S.C. 2000dd).

“§948s. Service of charges

“The trial counsel assigned to a case before a military commission under this chapter shall cause to be served upon the accused and military defense counsel a copy of the charges upon which trial is to be had in English and, if appropriate, in another language that the accused understands, sufficiently in advance of trial to prepare a defense.

“SUBCHAPTER IV—TRIAL PROCEDURE

“Sec.

“949a. Rules.

“949b. Unlawfully influencing action of military commission.

“949c. Duties of trial counsel and defense counsel.

“949d. Sessions.

“949e. Continuances.

“949f. Challenges.

“949g. Oaths.

“949h. Former jeopardy.

“949i. Pleas of the accused.

“949j. Opportunity to obtain witnesses and other evidence.

“949k. Defense of lack of mental responsibility.

“949l. Voting and rulings.

“949m. Number of votes required.

“949n. Military commission to announce action.

“949o. Record of trial.

“§949a. Rules

“(a) PROCEDURES AND RULES OF EVIDENCE.—Pretrial, trial, and post-trial procedures, including elements and modes of proof, for cases triable by military commission under this chapter may be prescribed by the Secretary of Defense.

Such procedures may not be contrary to or inconsistent with this chapter. Except as otherwise provided in this chapter or chapter 47 of this title, the procedures and rules of evidence applicable in trials by general courts-martial of the United States shall apply in trials by military commission under this chapter.

“(b) EXCEPTIONS.—(1) The Secretary of Defense, in consultation with the Attorney General, may make such exceptions in the applicability in trials by military commission under this chapter from the procedures and rules of evidence otherwise applicable in general courts-martial as may be required by the unique circumstances of the conduct of military and intelligence operations during hostilities or by other practical need.

“(2) Notwithstanding any exceptions authorized by paragraph (1), the procedures and rules of evidence in trials by military commission under this chapter shall include, at a minimum, the following rights:

“(A) To present evidence in his defense, to cross-examine the witnesses who testify against him, and to examine and respond to all evidence admitted against him on the issue of guilt or innocence and for sentencing, as provided for by this chapter.

“(B) To be present at all sessions of the military commission (other than those for deliberations or voting), except when excluded under section 949d of this title.

“(C) To be represented before a military commission by civilian counsel if provided at no expense to the Government, and by either the defense counsel detailed or by military counsel of the accused's own selection, if reasonably available.

“(D) To self-representation, if the accused knowingly and competently waives the assistance of counsel, subject to the provisions of paragraph (4).

“(E) To the suppression of evidence that is not reliable or probative.

“(F) To the suppression of evidence the probative value of which is substantially outweighed by—

“(i) the danger of unfair prejudice, confusion of the issues, or misleading the members; or

“(ii) considerations of undue delay, waste of time, or needless presentation of cumulative evidence.

“(3) In making exceptions in the applicability in trials by military commission under this chapter from the procedures and rules otherwise applicable in general courts-martial, the Secretary of Defense may provide the following:

“(A) Evidence seized outside the United States shall not be excluded from trial by military commission on the grounds that the evidence was not seized pursuant to a search warrant or authorization.

“(B) A statement of the accused that is otherwise admissible shall not be excluded from trial by military commission on grounds of alleged coercion or compulsory self-incrimination so long as the evidence complies with the provisions of section 948r of this title.

“(C) Evidence shall be admitted as authentic so long as—

“(i) the military judge of the military commission determines that there is sufficient evidence that the evidence is what it is claimed to be; and

“(ii) the military judge instructs the members that they may consider any issue as to authentication or identification of evidence in determining the weight, if any, to be given to the evidence.

“(D) Hearsay evidence not otherwise admissible under the rules of evidence applicable in trial by general courts-martial may be admitted in a trial by military commission only if—

“(i) the proponent of the evidence makes known to the adverse party, sufficiently in ad-

vance to provide the adverse party with a fair opportunity to meet the evidence, the proponent's intention to offer the evidence, and the particulars of the evidence (including information on the circumstances under which the evidence was obtained); and

“(ii) the military judge, after taking into account all of the circumstances surrounding the taking of the statement, the degree to which the statement is corroborated, and the indicia of reliability within the statement itself, determines that—

“(I) the statement is offered as evidence of a material fact;

“(II) either—

“(aa) direct testimony from the witness is not available as a practical matter, taking into consideration the physical location of the witness and the unique circumstances of the conduct of military and intelligence operations during hostilities; or

“(bb) the production of the witness would have an adverse impact on military or intelligence operations; and

“(III) the general purposes of the rules of evidence and the interests of justice will best be served by admission of the statement into evidence.

“(4)(A) The accused in a military commission under this chapter who exercises the right to self-representation under paragraph (2)(D) shall conform his deportment and the conduct of the defense to the rules of evidence, procedure, and decorum applicable to trials by military commission.

“(B) Failure of the accused to conform to the rules described in subparagraph (A) may result in a partial or total revocation by the military judge of the right of self-representation under paragraph (2)(D). In such case, the military counsel of the accused or an appropriately authorized civilian counsel shall perform the functions necessary for the defense.

“(c) DELEGATION OF AUTHORITY TO PRESCRIBE REGULATIONS.—The Secretary of Defense may delegate the authority of the Secretary to prescribe regulations under this chapter.

“§949b. Unlawfully influencing action of military commission

“(a) IN GENERAL.—(1) No authority convening a military commission under this chapter may censure, reprimand, or admonish the military commission, or any member, military judge, or counsel thereof, with respect to the findings or sentence adjudged by the military commission, or with respect to any other exercises of its or their functions in the conduct of the proceedings.

“(2) No person may attempt to coerce or, by any unauthorized means, influence—

“(A) the action of a military commission under this chapter, or any member thereof, in reaching the findings or sentence in any case;

“(B) the action of any convening, approving, or reviewing authority with respect to their judicial acts; or

“(C) the exercise of professional judgment by trial counsel or defense counsel.

“(3) The provisions of this subsection shall not apply with respect to—

“(A) general instructional or informational courses in military justice if such courses are designed solely for the purpose of instructing members of a command in the substantive and procedural aspects of military commissions; or

“(B) statements and instructions given in open proceedings by a military judge or counsel.

“(b) PROHIBITION ON CONSIDERATION OF ACTIONS ON COMMISSION IN EVALUATION OF FITNESS.—In the preparation of an effectiveness, fitness, or efficiency report or any other report or document used in whole or in part for the purpose of determining whether a commissioned officer of the armed forces is qualified to be advanced in grade, or in determining the assignment or transfer of any such officer or whether

any such officer should be retained on active duty, no person may—

“(1) consider or evaluate the performance of duty of any member of a military commission under this chapter; or

“(2) give a less favorable rating or evaluation to any commissioned officer because of the zeal with which such officer, in acting as counsel, represented any accused before a military commission under this chapter.

“§949c. Duties of trial counsel and defense counsel

“(a) TRIAL COUNSEL.—The trial counsel of a military commission under this chapter shall prosecute in the name of the United States.

“(b) DEFENSE COUNSEL.—(1) The accused shall be represented in his defense before a military commission under this chapter as provided in this subsection.

“(2) The accused may be represented by military counsel detailed under section 948k of this title or by military counsel of the accused's own selection, if reasonably available.

“(3) The accused may be represented by civilian counsel if retained by the accused, provided that such civilian counsel—

“(A) is a United States citizen;

“(B) is admitted to the practice of law in a State, district, or possession of the United States, or before a Federal court;

“(C) has not been the subject of any sanction of disciplinary action by any court, bar, or other competent governmental authority for relevant misconduct;

“(D) has been determined to be eligible for access to information classified at the level Secret or higher; and

“(E) has signed a written agreement to comply with all applicable regulations or instructions for counsel, including any rules of court for conduct during the proceedings.

“(4) If the accused is represented by civilian counsel, military counsel shall act as associate counsel.

“(5) The accused is not entitled to be represented by more than one military counsel. However, the person authorized under regulations prescribed under section 948k of this title to detail counsel, in such person's sole discretion, may detail additional military counsel to represent the accused.

“(6) Defense counsel may cross-examine each witness for the prosecution who testifies before a military commission under this chapter.

“(7) Civilian defense counsel shall protect any classified information received during the course of representation of the accused in accordance with all applicable law governing the protection of classified information, and may not divulge such information to any person not authorized to receive it.

“§949d. Sessions

“(a) SESSIONS WITHOUT PRESENCE OF MEMBERS.—(1) At any time after the service of charges which have been referred for trial by military commission under this chapter, the military judge may call the military commission into session without the presence of the members for the purpose of—

“(A) hearing and determining motions raising defenses or objections which are capable of determination without trial of the issues raised by a plea of not guilty;

“(B) hearing and ruling upon any matter which may be ruled upon by the military judge under this chapter, whether or not the matter is appropriate for later consideration or decision by the members;

“(C) if permitted by regulations prescribed by the Secretary of Defense, receiving the pleas of the accused; and

“(D) performing any other procedural function which may be performed by the military

judge under this chapter or under rules prescribed pursuant to section 949a of this title and which does not require the presence of the members.

“(2) Except as provided in subsections (b), (c), and (d), any proceedings under paragraph (1) shall be conducted in the presence of the accused, defense counsel, and trial counsel, and shall be made part of the record.

“(b) DELIBERATION OR VOTE OF MEMBERS.—When the members of a military commission under this chapter deliberate or vote, only the members may be present.

“(c) CLOSURE OF PROCEEDINGS.—(1) The military judge may close to the public all or part of the proceedings of a military commission under this chapter.

“(2) The military judge may close to the public all or a portion of the proceedings under paragraph (1) only upon making a specific finding that such closure is necessary to—

“(A) protect information the disclosure of which could reasonably be expected to cause damage to the national security, including intelligence or law enforcement sources, methods, or activities; or

“(B) ensure the physical safety of individuals.

“(3) A finding under paragraph (2) may be based upon a presentation, including a presentation ex parte or in camera, by either trial counsel or defense counsel.

“(d) EXCLUSION OF ACCUSED FROM CERTAIN PROCEEDINGS.—The military judge may exclude the accused from any portion of a proceeding upon a determination that, after being warned by the military judge, the accused persists in conduct that justifies exclusion from the courtroom—

“(1) to ensure the physical safety of individuals; or

“(2) to prevent disruption of the proceedings by the accused.

“§949e. Continuances

“The military judge in a military commission under this chapter may, for reasonable cause, grant a continuance to any party for such time, and as often, as may appear to be just.

“§949f. Challenges

“(a) CHALLENGES AUTHORIZED.—The military judge and members of a military commission under this chapter may be challenged by the accused or trial counsel for cause stated to the military commission. The military judge shall determine the relevance and validity of challenges for cause, and may not receive a challenge to more than one person at a time. Challenges by trial counsel shall ordinarily be presented and decided before those by the accused are offered.

“(b) PEREMPTORY CHALLENGES.—The accused and trial counsel are each entitled to one peremptory challenge, but the military judge may not be challenged except for cause.

“(c) CHALLENGES AGAINST ADDITIONAL MEMBERS.—Whenever additional members are detailed to a military commission under this chapter, and after any challenges for cause against such additional members are presented and decided, the accused and trial counsel are each entitled to one peremptory challenge against members not previously subject to peremptory challenge.

“§949g. Oaths

“(a) IN GENERAL.—(1) Before performing their respective duties in a military commission under this chapter, military judges, members, trial counsel, defense counsel, reporters, and interpreters shall take an oath to perform their duties faithfully.

“(2) The form of the oath required by paragraph (1), the time and place of the taking thereof, the manner of recording thereof, and whether the oath shall be taken for all cases in

which duties are to be performed or for a particular case, shall be as provided in regulations prescribed by the Secretary of Defense. The regulations may provide that—

“(A) an oath to perform faithfully duties as a military judge, trial counsel, or defense counsel may be taken at any time by any judge advocate or other person certified to be qualified or competent for the duty; and

“(B) if such an oath is taken, such oath need not again be taken at the time the judge advocate or other person is detailed to that duty.

“(b) WITNESSES.—Each witness before a military commission under this chapter shall be examined on oath.

“(c) OATH DEFINED.—In this section, the term ‘oath’ includes an affirmation.

“§949h. Former jeopardy

“(a) IN GENERAL.—No person may, without his consent, be tried by a military commission under this chapter a second time for the same offense.

“(b) SCOPE OF TRIAL.—No proceeding in which the accused has been found guilty by military commission under this chapter upon any charge or specification is a trial in the sense of this section until the finding of guilty has become final after review of the case has been fully completed.

“§949i. Pleas of the accused

“(a) PLEA OF NOT GUILTY.—If an accused in a military commission under this chapter after a plea of guilty sets up matter inconsistent with the plea, or if it appears that the accused has entered the plea of guilty through lack of understanding of its meaning and effect, or if the accused fails or refuses to plead, a plea of not guilty shall be entered in the record, and the military commission shall proceed as though the accused had pleaded not guilty.

“(b) FINDING OF GUILT AFTER GUILTY PLEA.—With respect to any charge or specification to which a plea of guilty has been made by the accused in a military commission under this chapter and accepted by the military judge, a finding of guilty of the charge or specification may be entered immediately without a vote. The finding shall constitute the finding of the military commission unless the plea of guilty is withdrawn prior to announcement of the sentence, in which event the proceedings shall continue as though the accused had pleaded not guilty.

“§949j. Opportunity to obtain witnesses and other evidence

“(a) IN GENERAL.—(1) Defense counsel in a military commission under this chapter shall have a reasonable opportunity to obtain witnesses and other evidence as provided in regulations prescribed by the Secretary of Defense.

“(2) Process issued in military commissions under this chapter to compel witnesses to appear and testify and to compel the production of other evidence—

“(A) shall be similar to that which courts of the United States having criminal jurisdiction may lawfully issue; and

“(B) shall run to any place where the United States shall have jurisdiction thereof.

“(b) DISCLOSURE OF EXCULPATORY EVIDENCE.—(1) As soon as practicable, trial counsel in a military commission under this chapter shall disclose to the defense the existence of any evidence that reasonably tends to—

“(A) negate the guilt of the accused of an offense charged; or

“(B) reduce the degree of guilt of the accused with respect to an offense charged.

“(2) The trial counsel shall, as soon as practicable, disclose to the defense the existence of evidence that reasonably tends to impeach the credibility of a witness whom the government intends to call at trial.

“(3) The trial counsel shall, as soon as practicable upon a finding of guilt, disclose to the

defense the existence of evidence that is not subject to paragraph (1) or paragraph (2) but that reasonably may be viewed as mitigation evidence at sentencing.

“(4) The disclosure obligations under this subsection encompass evidence that is known or reasonably should be known to any government officials who participated in the investigation and prosecution of the case against the defendant.

“§949k. Defense of lack of mental responsibility

“(a) **AFFIRMATIVE DEFENSE.**—It is an affirmative defense in a trial by military commission under this chapter that, at the time of the commission of the acts constituting the offense, the accused, as a result of a severe mental disease or defect, was unable to appreciate the nature and quality or the wrongfulness of the acts. Mental disease or defect does not otherwise constitute a defense.

“(b) **BURDEN OF PROOF.**—The accused in a military commission under this chapter has the burden of proving the defense of lack of mental responsibility by clear and convincing evidence.

“(c) **FINDINGS FOLLOWING ASSERTION OF DEFENSE.**—Whenever lack of mental responsibility of the accused with respect to an offense is properly at issue in a military commission under this chapter, the military judge shall instruct the members as to the defense of lack of mental responsibility under this section and shall charge the members to find the accused—

- “(1) guilty;
- “(2) not guilty; or
- “(3) subject to subsection (d), not guilty by reason of lack of mental responsibility.

“(d) **MAJORITY VOTE REQUIRED FOR FINDING.**—The accused shall be found not guilty by reason of lack of mental responsibility under subsection (c)(3) only if a majority of the members present at the time the vote is taken determines that the defense of lack of mental responsibility has been established.

“§949l. Voting and rulings

“(a) **VOTE BY SECRET WRITTEN BALLOT.**—Voting by members of a military commission under this chapter on the findings and on the sentence shall be by secret written ballot.

“(b) **RULINGS.**—(1) The military judge in a military commission under this chapter shall rule upon all questions of law, including the admissibility of evidence and all interlocutory questions arising during the proceedings.

“(2) Any ruling made by the military judge upon a question of law or an interlocutory question (other than the factual issue of mental responsibility of the accused) is conclusive and constitutes the ruling of the military commission. However, a military judge may change his ruling at any time during the trial.

“(c) **INSTRUCTIONS PRIOR TO VOTE.**—Before a vote is taken of the findings of a military commission under this chapter, the military judge shall, in the presence of the accused and counsel, instruct the members as to the elements of the offense and charge the members—

- “(1) that the accused must be presumed to be innocent until his guilt is established by legal and competent evidence beyond a reasonable doubt;
- “(2) that in the case being considered, if there is a reasonable doubt as to the guilt of the accused, the doubt must be resolved in favor of the accused and he must be acquitted;
- “(3) that, if there is reasonable doubt as to the degree of guilt, the finding must be in a lower degree as to which there is no reasonable doubt; and
- “(4) that the burden of proof to establish the guilt of the accused beyond a reasonable doubt is upon the United States.

“§949m. Number of votes required

“(a) **CONVICTION.**—No person may be convicted by a military commission under this chap-

ter of any offense, except as provided in section 949l(b) of this title or by concurrence of two-thirds of the members present at the time the vote is taken.

“(b) **SENTENCES.**—(1) Except as provided in paragraphs (2) and (3), sentences shall be determined by a military commission by the concurrence of two-thirds of the members present at the time the vote is taken.

“(2) No person may be sentenced to death by a military commission, except insofar as—

“(A) the penalty of death has been expressly authorized under this chapter, chapter 47 of this title, or the law of war for an offense of which the accused has been found guilty;

“(B) trial counsel expressly sought the penalty of death by filing an appropriate notice in advance of trial;

“(C) the accused was convicted of the offense by the concurrence of all the members present at the time the vote is taken; and

“(D) all members present at the time the vote was taken concurred in the sentence of death.

“(3) No person may be sentenced to life imprisonment, or to confinement for more than 10 years, by a military commission under this chapter except by the concurrence of three-fourths of the members present at the time the vote is taken.

“(c) **NUMBER OF MEMBERS REQUIRED FOR PENALTY OF DEATH.**—(1) Except as provided in paragraph (2), in a case in which the penalty of death is sought, the number of members of the military commission under this chapter shall be not less than 12 members.

“(2) In any case described in paragraph (1) in which 12 members are not reasonably available for a military commission because of physical conditions or military exigencies, the convening authority shall specify a lesser number of members for the military commission (but not fewer than 5 members), and the military commission may be assembled, and the trial held, with not less than the number of members so specified. In any such case, the convening authority shall make a detailed written statement, to be appended to the record, stating why a greater number of members were not reasonably available.

“§949n. Military commission to announce action

“A military commission under this chapter shall announce its findings and sentence to the parties as soon as determined.

“§949o. Record of trial

“(a) **RECORD; AUTHENTICATION.**—Each military commission under this chapter shall keep a separate, verbatim, record of the proceedings in each case brought before it, and the record shall be authenticated by the signature of the military judge. If the record cannot be authenticated by the signature of the trial counsel or by a member if the trial counsel is unable to authenticate it by reason of his death, disability, or absence, it shall be authenticated by the signature of the trial counsel or by a member if the trial counsel is unable to authenticate it by reason of his death, disability, or absence. Where appropriate, and as provided in regulations prescribed by the Secretary of Defense, the record of a military commission under this chapter may contain a classified annex.

“(b) **COMPLETE RECORD REQUIRED.**—A complete record of the proceedings and testimony shall be prepared in every military commission under this chapter.

“(c) **PROVISION OF COPY TO ACCUSED.**—A copy of the record of the proceedings of the military commission under this chapter shall be given the accused as soon as it is authenticated. If the record contains classified information, or a classified annex, the accused shall receive a redacted version of the record consistent with the requirements of section 949d(c)(4) of this title. Defense counsel shall have access to the

unredacted record, as provided in regulations prescribed by the Secretary of Defense.

“SUBCHAPTER V—CLASSIFIED INFORMATION PROCEDURES

“Sec.

“949p-1. Protection of classified information: applicability of subchapter.

“949p-2. Pretrial conference.

“949p-3. Protective orders.

“949p-4. Discovery of, and access to, classified information by the accused.

“949p-5. Notice by accused of intention to disclose classified information.

“949p-6. Procedure for cases involving classified information.

“949p-7. Introduction of classified information into evidence.

“§949p-1. Protection of classified information: applicability of subchapter

“(a) **PROTECTION OF CLASSIFIED INFORMATION.**—Classified information shall be protected and is privileged from disclosure if disclosure would be detrimental to the national security. Under no circumstances may a military judge order the release of classified information to any person not authorized to receive such information.

“(b) **ACCESS TO EVIDENCE.**—Any information admitted into evidence pursuant to any rule, procedure, or order by the military judge shall be provided to the accused.

“(c) **DECLASSIFICATION.**—Trial counsel shall work with the original classification authorities for evidence that may be used at trial to ensure that such evidence is declassified to the maximum extent possible, consistent with the requirements of national security. A decision not to declassify evidence under this section shall not be subject to review by a military commission or upon appeal.

“(d) **CONSTRUCTION OF PROVISIONS.**—The judicial construction of the Classified Information Procedures Act (18 U.S.C. App.) shall be authoritative in the interpretation of this subchapter, except to the extent that such construction is inconsistent with the specific requirements of this chapter.

“§949p-2. Pretrial conference

“(a) **MOTION.**—At any time after service of charges, any party may move for a pretrial conference to consider matters relating to classified information that may arise in connection with the prosecution.

“(b) **CONFERENCE.**—Following a motion under subsection (a), or sua sponte, the military judge shall promptly hold a pretrial conference. Upon request by either party, the court shall hold such conference ex parte to the extent necessary to protect classified information from disclosure, in accordance with the practice of the Federal courts under the Classified Information Procedures Act (18 U.S.C. App.).

“(c) **MATTERS TO BE ESTABLISHED AT PRETRIAL CONFERENCE.**—

“(1) **TIMING OF SUBSEQUENT ACTIONS.**—At the pretrial conference, the military judge shall establish the timing of—

- “(A) requests for discovery;
- “(B) the provision of notice required by section 949p-5 of this title; and
- “(C) the initiation of the procedure established by section 949p-6 of this title.

“(2) **OTHER MATTERS.**—At the pretrial conference, the military judge may also consider any matter—

- “(A) which relates to classified information; or
- “(B) which may promote a fair and expeditious trial.

“(d) **EFFECT OF ADMISSIONS BY ACCUSED AT PRETRIAL CONFERENCE.**—No admission made by the accused or by any counsel for the accused at a pretrial conference under this section may be

used against the accused unless the admission is in writing and is signed by the accused and by the counsel for the accused.

“§949p-3. Protective orders

“Upon motion of the trial counsel, the military judge shall issue an order to protect against the disclosure of any classified information that has been disclosed by the United States to any accused in any military commission under this chapter or that has otherwise been provided to, or obtained by, any such accused in any such military commission.

“§949p-4. Discovery of, and access to, classified information by the accused

“(a) LIMITATIONS ON DISCOVERY OR ACCESS BY THE ACCUSED.—

“(1) DECLARATIONS BY THE UNITED STATES OF DAMAGE TO NATIONAL SECURITY.—In any case before a military commission in which the United States seeks to delete, withhold, or otherwise obtain other relief with respect to the discovery of or access to any classified information, the trial counsel shall submit a declaration invoking the United States’ classified information privilege and setting forth the damage to the national security that the discovery of or access to such information reasonably could be expected to cause. The declaration shall be signed by a knowledgeable United States official possessing authority to classify information.

“(2) STANDARD FOR AUTHORIZATION OF DISCOVERY OR ACCESS.—Upon the submission of a declaration under paragraph (1), the military judge shall not authorize the discovery of or access to such classified information unless the military judge determines that such classified information would be noncumulative, relevant, and helpful to a legally cognizable defense, rebuttal of the prosecution’s case, or to sentencing, in accordance with standards generally applicable to discovery of or access to classified information in Federal criminal cases. If the discovery of or access to such classified information is authorized, it shall be addressed in accordance with the requirements of subsection (b).

“(b) DISCOVERY OF CLASSIFIED INFORMATION.—

“(1) SUBSTITUTIONS AND OTHER RELIEF.—The military judge, in assessing the accused’s discovery of or access to classified information under this section, may authorize the United States—

“(A) to delete or withhold specified items of classified information;

“(B) to substitute a summary for classified information; or

“(C) to substitute a statement admitting relevant facts that the classified information or material would tend to prove.

“(2) EX PARTE PRESENTATIONS.—The military judge shall permit the trial counsel to make a request for an authorization under paragraph (1) in the form of an ex parte presentation to the extent necessary to protect classified information, in accordance with the practice of the Federal courts under the Classified Information Procedures Act (18 U.S.C. App.). If the military judge enters an order granting relief following such an ex parte showing, the entire text of the written submission shall be sealed and preserved in the records of the military commission to be made available to the appellate court in the event of an appeal.

“(3) ACTION BY MILITARY JUDGE.—The military judge shall grant the request of the trial counsel to substitute a summary or to substitute a statement admitting relevant facts, or to provide other relief in accordance with paragraph (1), if the military judge finds that the summary, statement, or other relief would provide the accused with substantially the same ability to make a defense as would discovery of or access to the specific classified information.

“(c) RECONSIDERATION.—An order of a military judge authorizing a request of the trial counsel to substitute, summarize, withhold, or prevent access to classified information under this section is not subject to a motion for reconsideration by the accused, if such order was entered pursuant to an ex parte showing under this section.

“§949p-5. Notice by accused of intention to disclose classified information

“(a) NOTICE BY ACCUSED.—

“(1) NOTIFICATION OF TRIAL COUNSEL AND MILITARY JUDGE.—If an accused reasonably expects to disclose, or to cause the disclosure of, classified information in any manner in connection with any trial or pretrial proceeding involving the prosecution of such accused, the accused shall, within the time specified by the military judge or, where no time is specified, within 30 days before trial, notify the trial counsel and the military judge in writing. Such notice shall include a brief description of the classified information. Whenever the accused learns of additional classified information the accused reasonably expects to disclose, or to cause the disclosure of, at any such proceeding, the accused shall notify trial counsel and the military judge in writing as soon as possible thereafter and shall include a brief description of the classified information.

“(2) LIMITATION ON DISCLOSURE BY ACCUSED.—No accused shall disclose, or cause the disclosure of, any information known or believed to be classified in connection with a trial or pretrial proceeding until—

“(A) notice has been given under paragraph (1); and

“(B) the United States has been afforded a reasonable opportunity to seek a determination pursuant to the procedure set forth in section 949p-6 of this title and the time for the United States to appeal such determination under section 950d of this title has expired or any appeal under that section by the United States is decided.

“(b) FAILURE TO COMPLY.—If the accused fails to comply with the requirements of subsection (a), the military judge—

“(1) may preclude disclosure of any classified information not made the subject of notification; and

“(2) may prohibit the examination by the accused of any witness with respect to any such information.

“§949p-6. Procedure for cases involving classified information

“(a) MOTION FOR HEARING.—

“(1) REQUEST FOR HEARING.—Within the time specified by the military judge for the filing of a motion under this section, either party may request the military judge to conduct a hearing to make all determinations concerning the use, relevance, or admissibility of classified information that would otherwise be made during the trial or pretrial proceeding.

“(2) CONDUCT OF HEARING.—Upon a request by either party under paragraph (1), the military judge shall conduct such a hearing and shall rule prior to conducting any further proceedings.

“(3) IN CAMERA HEARING UPON DECLARATION TO COURT BY APPROPRIATE OFFICIAL OF RISK OF DISCLOSURE OF CLASSIFIED INFORMATION.—Any hearing held pursuant to this subsection (or any portion of such hearing specified in the request of a knowledgeable United States official) shall be held in camera if a knowledgeable United States official possessing authority to classify information submits to the military judge a declaration that a public proceeding may result in the disclosure of classified information. Classified information is not subject to disclosure under this section unless the information is rel-

evant and necessary to an element of the offense or a legally cognizable defense and is otherwise admissible in evidence.

“(4) MILITARY JUDGE TO MAKE DETERMINATIONS IN WRITING.—As to each item of classified information, the military judge shall set forth in writing the basis for the determination.

“(b) NOTICE AND USE OF CLASSIFIED INFORMATION BY THE GOVERNMENT.—

“(1) NOTICE TO ACCUSED.—Before any hearing is conducted pursuant to a request by the trial counsel under subsection (a), trial counsel shall provide the accused with notice of the classified information that is at issue. Such notice shall identify the specific classified information at issue whenever that information previously has been made available to the accused by the United States. When the United States has not previously made the information available to the accused in connection with the case the information may be described by generic category, in such forms as the military judge may approve, rather than by identification of the specific information of concern to the United States.

“(2) ORDER BY MILITARY JUDGE UPON REQUEST OF ACCUSED.—Whenever the trial counsel requests a hearing under subsection (a), the military judge, upon request of the accused, may order the trial counsel to provide the accused, prior to trial, such details as to the portion of the charge or specification at issue in the hearing as are needed to give the accused fair notice to prepare for the hearing.

“(c) SUBSTITUTIONS.—

“(1) IN CAMERA PRETRIAL HEARING.—Upon request of the trial counsel pursuant to the Military Commission Rules of Evidence, and in accordance with the security procedures established by the military judge, the military judge shall conduct a classified in camera pretrial hearing concerning the admissibility of classified information.

“(2) PROTECTION OF SOURCES, METHODS, AND ACTIVITIES BY WHICH EVIDENCE ACQUIRED.—The military judge shall permit the trial counsel to introduce otherwise admissible evidence, including a substituted evidentiary foundation pursuant to the procedures described in subsection (d), before a military commission while protecting from disclosure the sources, methods, or activities by which the United States acquired the evidence if the military judge finds that the sources, methods, or activities are classified, the evidence is reliable, and the redaction is consistent with affording the accused a fair trial.

“(d) ALTERNATIVE PROCEDURE FOR DISCLOSURE OF CLASSIFIED INFORMATION.—

“(1) MOTION BY THE UNITED STATES.—Upon any determination by the military judge authorizing the disclosure of specific classified information under the procedures established by this section, the trial counsel may move that, in lieu of the disclosure of such specific classified information, the military judge order—

“(A) the substitution for such classified information of a statement admitting relevant facts that the specific classified information would tend to prove;

“(B) the substitution for such classified information of a summary of the specific classified information; or

“(C) any other procedure or redaction limiting the disclosure of specific classified information.

“(2) ACTION ON MOTION.—The military judge shall grant such a motion of the trial counsel if the military judge finds that the statement, summary, or other procedure or redaction will provide the defendant with substantially the same ability to make his defense as would disclosure of the specific classified information.

“(3) HEARING ON MOTION.—The military judge shall hold a hearing on any motion under this subsection. Any such hearing shall be held in camera at the request of a knowledgeable

United States official possessing authority to classify information.

“(4) **SUBMISSION OF STATEMENT OF DAMAGE TO NATIONAL SECURITY IF DISCLOSURE ORDERED.**—The trial counsel may, in connection with a motion under paragraph (1), submit to the military judge a declaration signed by a knowledgeable United States official possessing authority to classify information certifying that disclosure of classified information would cause identifiable damage to the national security of the United States and explaining the basis for the classification of such information. If so requested by the trial counsel, the military judge shall examine such declaration during an *ex parte* presentation.

“(e) **SEALING OF RECORDS OF IN CAMERA HEARINGS.**—If at the close of an *in camera* hearing under this section (or any portion of a hearing under this section that is held *in camera*), the military judge determines that the classified information at issue may not be disclosed or elicited at the trial or pretrial proceeding, the record of such *in camera* hearing shall be sealed and preserved for use in the event of an appeal. The accused may seek reconsideration of the military judge’s determination prior to or during trial.

“(f) **PROHIBITION ON DISCLOSURE OF CLASSIFIED INFORMATION BY THE ACCUSED; RELIEF FOR ACCUSED WHEN THE UNITED STATES OPPOSES DISCLOSURE.**—

“(1) **ORDER TO PREVENT DISCLOSURE BY ACCUSED.**—Whenever the military judge denies a motion by the trial counsel that the judge issue an order under subsection (a), (c), or (d) and the trial counsel files with the military judge a declaration signed by a knowledgeable United States official possessing authority to classify information objecting to disclosure of the classified information at issue, the military judge shall order that the accused not disclose or cause the disclosure of such information.
